Idaho's annual campus day officially opened with the Spur serenade and pledging Wednesday morning, followed later by an intra-mural track meet.

Selections from the pep band under the direction of Bill Ames, began the afternoon program.

LARGE CROWDS ATTEND CONCERTS

National Music week opened with a large audience attending the "Sabbat Mater" concert Sunday afternoon, May 7.

Musical week will close May 14 with an ensemble program. The program follows:

Bugle Call Used To Wake Students For Campus Day

"The silvery notes of the bugle call rang out on the morning air and from every corner the students began to assemble on the campus," said Dean Permeal J. French.

After the bugle call, "clean up" was in order. Before the university was big enough to boast of a grounds supervisor, the students did all the clean up work.

"We didn't have much money to buy food with then, so we called upon the merchants with which we dealt to help us," said Miss French.

FRESHMAN HOLDING GLEE ON SATURDAY

Dance Offers Many Unique Features at Popular Prices

The Annual Frosh Glee will be held Saturday night, May 13, at the Bucket. The Glee, a college tradition held annually, is an all college dance.

As a last opportunity for a general get-together for the Frosh, the dance promises many unique features for a very reasonable price. Programs are now on sale in all men's houses. They are extremely clever, representing the 32 year as their theme, and serve as tickets for admittance. The committee on decorations have been working on a catchy idea and are spending a great deal of time in planning it out.

During the intermission the entertainment will, feature an all freshman trio composed of Jack Franklin, Jack Emahiser, and Ed Gascoigne. The trio is said to be extremely good in their rendering of several numbers.

OVERFLOWS LOCKER

Babe Ruth's locker in the dressing room at Yankee stadium usually is a room at the top of the locker room, but it was overflowing with fans and telegrams on Friday night. The Babe would not get a full time secretary to answer all of them.

Congratulations!!

Annually on Campus Day a great many hearts are thrilled and probably at least as many temporarily broken by the pledging ceremonies taking place. Those who for the first time wear the ribbons of Spur, Mortar Board, or Silver Lance, some 38 in all, have worked for the honor and properly deserve to be thrilled by it. Still a great many more have worked, many of them just as hard, if not with equal success. If they have made these honoraries ends in themselves, the disappointment is one of the minor tragedies of colleges.

But if they have been active through interest in the work itself, the first disappointment will easily be forgotten in the press of work still waiting to be done. "Activities" as a means of getting one's name before the campus, as a way of "making" honoraries which in some intangible way are supposed to raise one above the unfortunates who do not belong, are unsatisfying. If they do not succeed in getting the individual into the organization he expects, they have meant nothing; a disappointment is one of the minor tragedies of college.

Still, there are many students who are in activities because they like them and they wish to help. If they make campus honoraries, well and good; that is an added honor. If they do not, they still have a great deal to do; they are still necessary to the campus. They deserve much commendation.

Congratulations to our new members of Spur, Silver Lance, Mortar Board. Congratulations to students all over the campus who are working for a better Idaho.

Has your housemother ever noticed how many girls there are whose voices are simply indispensable on serenade nights?

We ought to be having nice spring weather by the time the University opens next September.

Now is too late for all good Alphas to come to the aid of their party.

To the Seniors—

You are stepping into a New Deal. The cards have been reshuffled, and all the aces are out. But your chance is as good as the next man's, maybe a little better. You have had a little preliminary, if somewhat academic, training for the game. You should have some idea how to use your cards to the best advantage. Campus politics should have taught you how to pull a couple finesses.

So hold your chin up, powder your nose, and slick back your hair. Pick up your cards on June 13, and keep your faces straight. If you aren't strong suited in any one particular talent, play it in No Trump; show the world you can do anything. If your cards run low for awhile, the law of averages will eventually swing things your way.

If your finesses don't work, or you forget to count trumps, don't blame it on your teacher. Idaho did the best preliminary work she could for you. All you have to do now is to play the game; many of you will become experts at it. You'll probably have to wait for awhile don't get conceited and expect to step in and beat Culbertson the first rubber.

When your grand slam is made, come back to Idaho, and count the tricks you first won here.

To Be or Not to Be?

Campus days come and Campus days go, and more and more attendance at the ceremonies is getting less. Campus day is becoming one with Armistice day, George Washington's birthday, and Memorial day—an excuse to get out of classes.

We spend time, money, and thought getting a queen and her attendants elected; we arrange carefully prepared dances and music—and then no one comes. This year we have even eliminated campus clean-up because it was too hard to get students to participate, and because it cost the University too much money, to replace the tools they broke.

We had better think of some Campus day activities which will keep students interested enough to get them to attend, or we had better eliminate Campus day entirely. Let's hold classes if necessary. Sometimes students go to those.

ON THE SPOT

And we don't offer any apologies to our worthy (?) predecessors because we know darn well our glasses are as strong as theirs...there were a surprising number of plenties Campus Day considering the weather and all...did you see Bill Griffin, Bob Waters, and "peppy" chef Rodell taking their early morning dip in the fountain in front of the Ad building...of all places...and Harold call hitting from one gal to the next at the mixer...does stay smith go for box cars in a big way...especially those headed for Seattle...at least that's what he thought...also a couple of Fijis enjoying the Spur serenade from the top of the truck...oh my...among those visiting the campus...Jack Lee, Irene Russell, Fred Wilkie and Tuffy Armstrong...where is child and of course we can't imagine why our boy "sketch" is spending so much time hanging around on first street these days...run-a-mile-or-two Thomas just mere than cutting the Sixth and Main corner...was she a blonde...and bob setters vainly casting about for a name for that bus he bought...why doesn't he rent it out to the Spitoons...so they can make their 8 o'clocks...the sisters tying Helen neatly up in knots on the front lawn...and the new Spurs catching pneumonia but anyway we see those bows...the regular Argonaut staff wandering through the office last night to see if it could be done without their...alpha leaders still talking it over...haughty, naughty, musn't dance in Walkgreen's on Sunday...get out your tattling John... SUPPOSE YOU TELL ME WHY YOU SMOKE GRANGER

"WELL, it's like this. Back in the old days, when men wore high hats and frock coats, they had plenty of time to think things out, and they had sense, too. They used to sit down on a log and take the time to whittle their tobacco from a plug, to be sure of having a cool smoke.

"In those days, a man named Wellman, right here in Quincy, Ill., made about the best tobacco you could get. He knew how to keep the flavor fine and mellow.

"Well, sir, the people who make this Granger Rough Cut acquired Mr. Wellman's method, and they must have known how the old boys used to whittle their tobacco to make it smoke cool. Yes, sir, this Granger is the real stuff. The same mellowness and fine flavor that Wellman used to hand out to his friends. And it's whittled into big shaggy flakes all ready for the pipe. 'Rough Cut' they call it—'cut rough to smoke cool' is the best way I can describe it.

"Regardless of price, Granger is about the best pipe tobacco I ever smoked. That's why I smoke it, and that's why they call it America's Pipe Tobacco, sir."

Now we wanted to sell Granger for 10¢. It was just a question of how to do it for the price. So we pack Granger in a sensible foil pouch instead of an expensive package, knowing that a man can't smoke the package. We give smokers this good

GRANGER tobacco in a common-sense pouch for 10¢.

GRANGER has not been on sale very long, but it has grown to be a popular smoke. And there is this much about it—we have yet to know of a man who started to smoke it, who didn't keep on. Folks seem to like it.

SHUSHY WEATHER DOESN'T DAMPEN ROMANTIC SPIRIT

The unusual number of campus romances of long and short standing which have come to a head this spring have given wagging heads and gossip mongers the opportunity to again remark that "in spring the young man's fancy turns lightly to thought of love."
But can we who have spent the past spring in Moscow agree that the spring weather, tra la, could give cause for romance to usurp the peace of the contented bachelor and the prosperity (via monthly allowance) of the happy maid.
Surely no, it must be something greater than climatic influence. One solution is that the depression is over, and two can be more prosperous than one.
And then there's an iota of a chance that true love has found way into the hearts of members of rainy day connubial matches. For not even spring can run love down the drain pipe.

INTRODUCES WEEK TO HAVE ILL WILL

Paris intellectuals recently launched a "National Ill Will Week" as a retaliatory gesture against adopting the American system of appointing certain weeks for the observance of specific sentiments. Pierre Audiat, who led the movement asked all Frenchmen to set aside one week of the year to "purge themselves of their latent evil and go in for a fine week of pure malevolence, calumny, hate, envy and sin." Special prizes for distinguished examples of meanness were urged for local communities and a sort of Nobel prize suggested for the champion world slob.

"WILL BEES" LEARN MANY NEW TRICKS FROM "HAS BEENS"

Big Campus Day Crowd Sees Prospective Team Trounced 25 to 7

The "Has Beens," a football team of former varsity players coached by Glenn Jacoby, defeated the "Will Bees," an incoming varsity team coached by Leo Calland, by a score of 25 to 7.

"Too much Red Jacoby," was Coach Calland's comment after the game. "The outstanding play was Red's 90-yard return kick off in the opening play of the second half."

The "Has Beens" scored their first touchdown in the second play of the game. George Wilson received a 20-yard pass from Red Jacoby and ran 35 yards, where he was downed on the 5-yard line.

The second touchdown came as a result of a drive down the field by the "Has Beens," using straight football tactics. Tyrrell again pushed the ball over the line through center.

Jacoby runs 90 yards. The most spectacular play of the afternoon was a 90-yard run made by Red Jacoby, remaining the kickoff at the beginning of the second half.

The "Will Bees" scored on a pass from Les Holmes to Paul Berg. The try for goal succeeded. The new men played without the help of several of their most promising players.

The starting lineups were as follows: Will Bees: Taylor, R. Hall, Ehler, LG, Eiden, H. Jacoby, LH, Swann, C, W. Hall, Worthington, RG, Kline, Herbig, RT, Schutte, Schmitz, RE, Spauey, P. Berg, RH, Sackett, Cordon, FB, Tyrrell, Inman, QB, G. Jacoby.

Substitutions: "Has Beens": Hanford for Eiden, Luvaas for Wilson, Felton for R. Jacoby, Greiser for Schutte, Craven for Kline. "Will Bees": Fowles for Schmitz, Elliott for Randall, Ward for Cordon, Schmitz for Worthington, Keel for Worthington, Hager for Iverson, Williamson for Swann, Holmes for Inman, Smith for Holmes, Inman for Smith.

SPRINTER OUTFRONS COTTONTAIL RABBIT

Star Runner Comes Out Victor in Surprise Contest

The relative speed of a college sprinter and a cottontail rabbit was put to a test at Huntington, West Va. recently.

Norman Bias, Marshal college's star sprinter, had just jumped from the starting holes in a practice dash when a bunny darted out in front of him.

Thus challenged, Bias gave it the gun. For the first 100 yards it looked like a dead heat, but the challenger lost and Bias swept past the rabbit in a cloud of dust.

FIJIS VICTORIOUS IN 'MURAL MEET'

Phi Delt's Run Close Second With 26 1/2 Points

Phi Gamma Delta was again victorious in the intramural track and field meet, scoring 27 1/2 points against the 26 1/2 points won by Phi Delta Theta.

The meet attracted a larger crowd than any other athletic event this spring, due partly to the fact that most of the men on the campus were participating and partly because an exciting contest was anticipated. None were disappointed, either, as the margin between the winners and the runners-up was a scant eleven-twelfths of a point.

Two new records were established and some tied. In the 220, the record of 22.2 made by Felton in 1932 was replaced by that of 21.7 made by Luvaas. The 1932 high jump record was raised from 5 feet 10 inches by Alden to 5 feet 11 1/4 inches by J. LeGore.

Team scores were as follows: Phi Gamma Delta, 27 1/2; Phi Delta Theta, 26 1/2; Tau Mu Alpha, 22 and one-third; Sigma Alpha Epsilon, 20 and one-third; Kappa Sigma, 19; Lindley Hall, 14; Sigma Nu, 7 1/2; Beta Theta Pi, 5 1/4; Sigma Chi, Tau Kappa Epsilon, and L. IDAHO GOLFERS PLAY TOMORROW

1st Intramural Players Will Meet Washington State

The intramural golf tournament will be held Saturday, May 13, at 9 a. m. Each group may enter as many men as desired. The four highest scores turned in for each group will be counted. The best intramural players will be chosen to form a varsity squad which will meet W. S. C. next week. Players must be off the course by 12 o'clock to clear it for the regular members of the Moscow Golf club.

Golf is the final event on the intramural program. Total scores for the year will be announced upon completion of the tennis tourney which is now well underway. "I want to take this opportunity to thank all of you for your fine cooperation," said Coach Leo Calland, "and I hope we may have an even more successful intramural program next year."

FREE DEDICATED BY HONORARY

A permanent memorial was dedicated to the University of Idaho on Campus Day by Epsilon chapter of Xi Sigma Pi, national forestry honor fraternity. The planting is to commemorate the George Washington Bi-centennial program of tree planting carried out last year in the United States.

The ground was prepared for a planting made on May 3, 1932. Each of the 19 acting members of the group in attendance at school last year planted a Colorado Blue Spruce on the area. A larger hard maple tree was planted on the area.

Started Last Year

On Campus Day last year old members with the help of other forestry students prepared the ground for seeding and for summer cultivation. The only work which had not been done by the group is the seeding of the area which was done by Mr. Turinsky. Several weeks ago several of the men went out along the Viola highway and secured a large, granite rock and towed it into the area. A bronze shield designating the Bi-centennial planting memorial by the local chapter of Xi Sigma Pi, has been mounted on the rock.

On Campus Day all the members met at the Price Green for a luncheon and dedication of the memorial. The party then adjourned to the memorial for the dedication. Dean F. G. Miller gave the address. He mentioned another tree memorial in commemoration of those who died in the World war.

The planting will continue to be an active project of Xi Sigma Pi. Next fall a cinder path will be placed along the fence. The present steps leading from the Pullman highway are to be improved and a low stone fence erected at the south end of the area. This plan of annual activity will give each member a chance to take part in the work.

FINCH SPEAKER ON GOLD MINING

Dean John W. Finch was one of the principal speakers at the Placer Mining school which was held in Spokane last Friday and Saturday. "I talked to 1600 people who were interested in placer mining," said Dean Finch. "The group was so large that they were divided into two groups."

Saturday practical instruction was given on the stream using placer mining equipment. "The people were very earnest and intelligent. I never talked to an audience so attentive and appreciative," says Dean Finch.

Courses in geology and mechanical operations were given by Dean Finch, Prof. Stacey, and Mr. Newton. The people attending the school were from Washington and northern Idaho, and they plan to start mining in northern Idaho.

JUNIOR FORESTERS WIN TRACK HONORS

Sophomores Win Second With 24 Points

Senior foresters were crowded out by junior foresters after a sharp struggle in a track meet held by the Associated Foresters at Luvaas grove Wednesday afternoon.

The juniors gathered 40 points in the contest but had to work to do it as the seniors were out to repeat a victory won last year. The sophomores won second place with a total of 24 points. The major events were foot races and an indoor-baseball game.

Vocal cords made of coal! Typical of Western Electric care and precision in manufacturing Bell Telephone apparatus, is the making of the transmitter button which transforms spoken words into electrical impulses. This transmitter button—the telephone's vocal cords—contains coal. Only a fine grade of selected anthracite, specially treated, is suited for this delicate work. First the coal is ground into fine granular form—next it is carefully sifted and washed. Then, after being roasted in special ovens, it is put into the transmitter button. Approximately 50,000 tiny grains must go into each button—too few or too many would impair transmission. Such infinite care with "little things" is one reason why Bell System apparatus serves so faithfully. BELL SYSTEM TELEPHONE HOME ONE NIGHT EACH WEEK LOWER RATES AFTER EIGHT-THIRTY
