

Scholarship Ranking Sets New High Mark

L. D. S. And Thetas Top Group To Win Cups For Second Time With Exceptional Averages

Women students, traditionally superior to men in the realm of group scholarship on the Idaho campus, lost that supremacy to 22 men living in the L. D. S. Institute for the semester ending in February.

Grade averages of the 27 group houses and residence halls compiled by the registrar's office show the L. D. S. men leading the entire list with an average of 5.175 of a possible 6.000 for perfect or all "A" grades. The winners set an all-time university record, and by a wide margin, Kappa Alpha Theta sorority with 34 women coming out second with an average of 4.887. Alpha Phi sorority was third on the entire list and second among the women's groups. Lindley hall, with 100 men, was runner-up in the men's division, but under all the women's groups.

L. D. S. Sets Record
The L. D. S. Institute has the distinction of being the first men's group on the campus to outrank all women's groups in scholarship. In winning first honors, the L. D. S. men merely repeated their performance for the second semester of last year, the registrar's office reports. Second-semester averages were included in the totals for last year, and were therefore not announced separately.

Kappa Alpha Theta carried off the honors for last year with an average of 4.838. The L. D. S. Institute topped the men's division, its 4.085 average being outranked only by Kappa Alpha Theta and Pi Beta Phi. If the Thetas and the L. D. S. men can hold their scholastic lead this semester, they will win permanent possession of their respective scholarship trophies, both groups having won them twice before.

Women Rate High In Past
Last semester's winning average of 5.176 hung up by the L. D. S. Institute is an all-time record high for men's groups. Women's groups in the past, however, have made better averages—Gamma Phi Beta, it is said, once having made a straight 6.000 for a house average.

Women's groups last semester ranked as follows (first figures indicating number of members in group, and second the group average): Kappa Alpha Theta, 34, 4.887; Alpha Phi, 24, 4.785; Pi Beta Phi, 24, 4.767; Delta Delta Delta, 26, 4.747; Beta hall, 79, 4.685; Gamma Phi Beta, 41, 4.668; Delta Gamma, 43, 4.543; Kappa Kappa Gamma, 34, 4.473; College Women's club, 16, 4.450; Alpha Chi Omega, 21, 4.388; Daleth Teth Gimel (town women's group), 55, 4.542.

Men Group Scholarship
Men's groups: L. D. S. Institute, 22, 5.176; Lindley hall, 100, 4.368; Ridebaugh hall, 65, 4.354; Delta Tau Delta, 34, 4.332; Lambda Chi Alpha, 23, 4.312; Sigma Chi, 44, 4.286; Beta Theta Pi, 63, 4.260; Phi Delta Theta, 54, 4.256; Phi Gamma Delta, 47, 4.207; Sigma Alpha Epsilon, 45, 4.074; Alpha Tau Omega, 47, 4.047; Sigma Nu, 43, 3.965; Senior hall, 16, 3.938; Chi Alpha Pi, 30, 3.858; Kappa Sigma, 30, 3.851; Tau Kappa Epsilon, 26, 3.811; Tau Men Aleph (town men's group), 34, 4.459.

Sorority women last semester averaged 4.655, and non-sorority women, 4.647. Fraternity men averaged 4.138, as compared to 4.348 for non-fraternity men. The average of all Greek letter students was 4.304, and all non-Greek residence groups, 4.429.

'MURAL DEBATES DRAW TO CLOSE

As intramural debate draws to a close Sigma Nu, aff. debates Alpha Tau Omega, neg. Thursday, March 29, the winner of which will debate Phi Delta Theta for the championship. If the winner of the Sigma Nu-Alpha Tau Omega debate has the same side of the question as Phi Delta Theta a coin will be flipped to determine the side of the question the teams will take. Alpha Tau Omega will entertain the Sigma Nus Thursday night.

Shortly after spring vacation the Kappa Alpha Theta affirmative team will compete with the Delta Delta Delta negative for the women's championship. The Delta Delta Deltas will be hostesses to the Kappa Alpha Theta for this debate.

BANDMEN PRESENT AMES WITH TOKEN

Show Pleases Two Capacity
Crowds; Dance Numbers Excellent

Climaxing the last presentation of the 1934 Pep Band show Friday night was the presentation of a token of appreciation by the members of the band to Bill Ames, leader. Glenn Ekum, business manager of the band, made the presentation.

The token was a sterling silver locket and watch chain. The locket carries the inscription, "To Bill Ames in appreciation from the Idaho Pep Band." The wording was above and below a miniature music lyre.

Capacity Crowd
The last night of the show was played to a capacity crowd of well pleased students and townspeople.

The modern section of the show kept all of the audience on the edge of their seats, softly tapping their toes, and smiling as the orchestra played their modern arrangements.

The chorus of women coached by Daryl Holt, made a hit with all and was acclaimed by many as the best chorus performance that has been staged at Idaho for many years. The caroco, a modern South American dance made popular by the movie "Flying Down to Rio," was interpreted by Jessie Hutchinson and Bill Ames to the delight of the many dance lovers assembled in the auditorium.

Leave After Vacation
The Pep band will leave shortly after spring vacation on a tour of southern Idaho to play in high schools and to give several evening concerts.

The band will be composed of band members only. Ames stated last night, and many of the numbers presented in the show will not be presented on the tour. The band will play the type of music that is symbolic of their appearance before crowds at athletic contests while on the trip. The band will return to Moscow on April 22.

**CHAPTERS HOLD
SPRING MEETING**
Alpha Zeta Held Its Annual Joint
Initiation With Pullman
Here Saturday

Alpha Zeta, national agricultural honorary fraternity, held its annual joint initiation with Elliott chapter of Washington State college at the L. D. S. Institute at 3:00 p. m. Saturday. Each spring the Idaho and Elliott chapters hold a joint initiation. The place of the ceremony is alternated between the two chapters. It was held at Pullman last year. The Idaho initiates were: Arthur Bolton, Gooding; Glenn Beck, Aberdeen; Melvin Beck, Burley; Mark Hegsted, Rexburg; Bert Gunnarson, Firth; Don Marley, McCammon; Donald Murphy, Twin Falls; Rex Lee Rigby, and Devere Tovey, Malad.

A joint banquet was held at the Moscow hotel at 6:15 Saturday evening. Professor T. E. Warren of the dairy department, University of Idaho, was toastmaster. G. H. Gannon, cashier of the Pullman State bank, Pullman, Wash., gave the principal address. His subject was "The How and the Why of Alpha Zeta." During the evening, the new initiates of the Idaho chapter presented their chapter with a plaque to be used for posting the chapter notices.

Slam Hands High
The most outstanding hand of last evening was one on which three teams bid and made grand slams, two in clubs and one in no trump, and a small slam was bid and made in clubs. The Delta Chis, who bid and made seven no trump, made the highest score on the hand. Four other small slams were bid but only two were made. The north and south hands were predominantly strong in last night's play.

This was the second bridge tournament held by The Argonaut. Last year the winners received a cash prize and this year they were awarded a silver loving cup which will be retained by the house winning it for three consecutive years. The Argonaut plans to hold a tournament every year for the campus bridge sharks. The match point system of scoring and the Mitchell movement system were used.

Teams Representing 18 groups played in the tournament. They were in addition to the four teams in the finals: Gamma Phi, Kappa Kappa Gamma, Delta Gamma, Phi Delta Theta, Sigma Nu, Phi Gamma Delta, Kappa Sigma, Tau Men Aleph, Alpha Phi, Alpha Chi, Tau Kappa Epsilon, Delta Tau Delta.

The Argonaut wishes to thank Harold Boyer, who was referee of the tournament, Lieutenant John Sheehy, for the use of his boards, and Bob Woods for allowing The Argonaut to hold the tournament in the Bucket.

Publications Ball Provides Solution To Delicate Problem

"Say, doesn't... look sickly? I'll bet he hasn't been getting the right kind of food at his house. The cook must be sore at them over there."

"And don't you think... has been bumming too many cigarettes? He never seems to buy any. If he doesn't see the light pretty soon we'll have to start clamping down. I always tell him I'm out."

"... sure looks crummy lately, don't you think so? He rarely shaves, if ever. Someone ought to make him a present of a razor. And... if she doesn't get wised up and start using the right color rouge someone will offer her a job in a circus as the tattooed lady!"

These are just some of the expressions one is apt to hear most any day. Now the Press club has provided a painless and subtle way to tell that person you think looks or acts so terribly just what he should do. This method is guaranteed not to hurt anyone's feelings. Just ask him if he isn't going to the Publications Ball.

And here's our little secret—at that all-college dance the Sperry Flour company, the Lorillard Tobacco company, Gem razor blades, and McKesson-Robbins Drug company are among those which are going to give away samples of their products as favors. He can get stocked up in whatever he lacks there. Good idea, don't you think so?

The Inter-Church council extends a hearty welcome to attend the service next Sunday.

AM I SEEIN' THINGS?

Harold (left) and Howard McComas

WELCH, W. Va. (P)—You wouldn't need the McDowell county birth registry to assure you of the twinning—and the identical twinning, at that—of Harold and Howard McComas.

The striking physical similarity of "Shorty" and "Shiney" and perusal of the basketball scorebook of Welch high school would reveal one of the most "identically identical" sets of twins in sports history.

Both boys, seniors, made the team as regulars for the first time this year. They both played guard, were alike in action and technique, weigh exactly the same, 155 pounds, and stand 6 feet 2 inches.

Each scored 101 points in 18 games. Shorty had 39 field goals and 23 frees. Shiney scored 38 fielders and 25 from the gift line.

at the Kenworthy—A double feature of two outstanding pictures is now being shown at the Kenworthy. Laurel and Hardy play in a full-length comedy "Sons of the Desert," and a picture of Asiatic jungles, "Devil Tiger" completes the bill. "Sons of the Desert" is a funny story, and the comic pair make it even funnier. As the husbands who have to deceive their wives in order to attend the "Sons of the Desert" convention in a distant city, Laurel and Hardy keep their audience convulsed as comic situation after comic situation unfolds to their extreme discomfort in each case. Charley Chase, Mae Bush, and Dorothy Christy play in the supporting cast.

"Devil Tiger" is the first dramatic picture with a Hollywood cast that has been made entirely in the virgin jungles. The crew included 150 natives, five cameras and two sound units. Marion Burns, Kans Richmond and Harry Woods are the principal players. Among the battles recorded are those between a tiger and a crocodile, a python and a leopard, a Malayan bear and a hyena, a tiger and a leopard, a tiger and a lion, a man and a python, a black panther and a crocodile, and a number of others.

at the Vandal—That culture and civilization are only thin veneers which are easily stripped from men and women when confronted with "nature in the raw" is demonstrated in "Four Frightened People," now playing at the Vandal. The plot deals with the adventures of four Americans, two women and two men, who are forced to flee from a Dutch steamer when bubonic plague breaks out aboard. They land on the coast of the Malay Peninsula and spend several months getting through the jungle to the nearest seaport. Confronted with primitive life, they revert to living as their ancient ancestors lived. The prim, homely school teacher, of whom the men would take no notice, becomes a radiant jungle creature over whom they ultimately fight. Claudette Colbert plays the school teacher, and the other members of the quartet are: Herbert Marshall, Mary Boland, and William Gargen.

TECH TO REMEDY RUSHING METHODS

Rushing at Carnegie Tech will undergo extensive changes according to a plan started by the Interfraternity council at that school. The council is carrying on an extensive survey of rushing rules in force at other universities and colleges for the purpose of remedying their own code in the near future.

In commenting on the radical change which may be made, the Carnegie Tartan says, "It is believed that the existing code would be quite satisfactory if only it could be enforced. Wholesale violation of the present code by all the fraternities on the campus this year brought no charges in the first meeting of the interfraternity council because each fraternity feared counter charges. It was for this reason in particular that the council has decided to revise the existing code."

The Argonaut Congratulates:

Bill Ames and his Pep band members for the high-class well-rehearsed show staged in the university auditorium before full houses last Thursday and Friday nights. Highclass entertainment, indeed; it should make some friends in the southern part of the state when the band takes its tour. The Argonaut suggests that underclasswomen refer to last Friday's Argonaut for an account of the show and to get a program from a Knight or Spur.

What's Wrong With Idaho Greeks?

The record of the Latter Day Saints institute group of 22 men in setting a new all-time university mark for men's organizations with a semester average of 5.176 is an achievement worthy of the highest compliments that students and faculty alike can bestow.

But the scholarship averages announced in this issue of the Argonaut contain an even more startling fact, and one that indicates a serious situation on the Idaho campus, namely: that every Greek fraternity on the campus falls behind the three dormitories, L. D. S., Lindley, and Ridenbaugh, in scholastic attainment.

Does this mean that Idaho fraternity men are inferior in intelligence and industry to the non-Greeks? Does it mean that scholarship takes a back seat in fraternity life at Idaho?

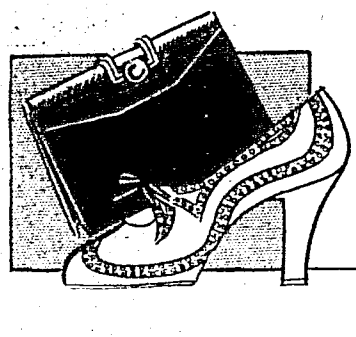

Are our Greek leaders in the group houses lax in promoting the interests of fraternity scholarship? Can we deduce from the aforementioned fact that fraternities on the Idaho campus are unwholesome influences upon the scholastic pursuits of their members.

The facts are there, and it is hard to answer any of the above questions in the negative. Since scholastic attainments are included among the dominant aims of every fraternity, these facts present a problem and a challenge to Idaho Greeks that cannot go unheeded.

SCIENCE EXPLAINS TWO SEA LEGENDS

Two sea legends were broken up recently by Prof. Robert C. Miller of the University of Washington's zoology department.

"Modern naturalists are inclined to identify the mermaid fish a curious fish-like mammal of the Indian ocean, which swims about in an upright position, the female sometimes holding a young one to her breast with one flipper while swimming with the other," he said.

"The much heralded sea-serpent that persists in appearing even to this day," he said, "is perhaps a large octopus or a group of seals swimming in line and coming to the surface one after the other. This would give the impression, from a distance, of some immense and snaky monster undulating

UNIVERSITY GIVES RIGHTS TO WOMEN

The co-eds at the University of Washington are allowed to smoke on the campus. Women can walk up and down campus paths smoking to their heart's content—in fact the university officials prefer that co-eds smoke out in the open if they are determined to smoke, instead of sneaking behind out-ings.

The only regulation had against smoking by the students is that "smoking is not allowed in the university recitation, library, or laboratory rooms or in the hallways."

Permission for co-eds to smoke in boarding houses or sororities also was made optional, with the groups last spring. The matter is entirely up to the "good sense" of the women themselves, whether or not they smoked cigarettes on the campus.

Men outnumber the women in the cooking classes at Michigan State. There are five women students in a class of embalming at the University of Michigan.

Picnicers Will Face Difficulty Next Saturday

And now that the air is warm, the sun is shining and the mountains are covered with grass and red ants—in short, now that the weather is ideal for picnics, a fly seems about to drop into that particular ointment as casually and unexpectedly as the little black bugs swarming beneath the trees fall into your eye.

You see, it's this way. The essential requirements for any picnic are a girl, some food, a place to go, and a means of getting there. There would scarcely be space here to enter into a discussion on how to get the first, the second can be purchased anywhere, and as for the third, one can always join the horde on that place called—with creative imagination—Moscow mountain.

It is the means of getting there that will shortly present difficulties. For up to now anyone possessing anything that would run had nothing to worry about as long as he could take along an extra couple or two to pay for the gas. But Saturday a new trouble will loom up, and immediate possession of cash will absolutely be necessary. For alas and alack! After that date everything from a Dusenbergs to the most dilapidated filver must sport a new 1934 license!

ANIMAL RESPONDS TO FAMILIAR CALL

"Her master's voice" proved irresistible to a hog near Billings, Mont. It happened like this:

Three years ago farmer George Anderson purchased a sow from "Dad" Hoerr. Recently Hoerr entered a hog calling contest over a local radio station. He was in front of the microphone doing his stuff when suddenly there was a commotion in the Anderson farmyard. A sow rammed through a fence and, followed by all her litter, waddled toward the radio in the farmhouse. Only the timely intervention of Anderson saved his household from destruction.

A freshman coed at West Virginia Wesleyan college, because of violation of the freshman rules, was forced to wear her clothes backward for a week.

"Boos" were rained on Senator Schall recently by the University of Minnesota students who objected to his verbal attack on the Roosevelt administration.

Part of the credit for Notre

Dame's brilliant win over the Army team goes to Coach Hunk Anderson, who threw himself into the Rambler's practice sessions the week before their big game. Sports writers are speculating about the possibility of a revival of the old time player-coach.

Vandal Cinder Path Artists Please Anderson With Performances at W. S. C.

SPORT SHOP
 By BILL MCCREA

While we are in between sport seasons and have a moment to look over the past year of Idaho sports, we ought to take time to toss a couple of large-sized bouquets in the direction of two Idaho sport leaders who have accomplished more than enough in their departments to rate any special mention which might be given them.

The first of these gentlemen is listed in the student directory as "Skiles, Charles Stanley, law '35," but is known to those who frequent the gymnasium as "Stan," and as the captain and coach of the university varsity wrestling team. Stan came to the university last year after spending two years at the Southern branch. He did a little wrestling under Captain Willard Dursteler last year, was appointed captain of the 1934 squad, and next year will again lead the Idaho matmen.

While at the Branch, Stan won the Rocky Mountain A. A. U. featherweight boxing title in his freshman year. He also represented the Branch in wrestling but lost a decision in the final meet. In his sophomore year he was injured and unable to compete in either sport.

This year the athletic department was without money to pay a wrestling coach and was going to abandon the sport until Skiles, told Coach Leo Calland that he would do what he could to coach and supervise the sport. Under Stan's tutelage wrestling grew in popularity until there were about 40 men turning out in P. E. and varsity tournaments.

Stan received little help from anyone, but went ahead with his squad workouts and when time came for the annual matches with W. S. C., the Idaho team twice walked off victorious for the first time in several years. To complete the year's achievements the team went to Seattle, and, while they narrowly lost the team championship to the Washington Huskies, Earl Leatham and Stan Skiles emerged with northwestern championships in the 165 and 135 pound weight classes.

The Idaho team which has been one of Idaho's outstanding competitive groups this year consisted of: Jack Barbee, Paul Berg, Earl Leatham, Benamy Benson, Earl Eggers, Stan Skiles, and Kermie Woodward. Coach Leo Calland is more than satisfied with Skiles' work and commented: "Stan is the best man we have ever had handling wrestling here. He is well liked by all the men, and has worked hard for the success which his team attained. He is certainly to be commended for the work he has done."

The second gentleman who deserves the plaudits is Louie August, Idaho's popular student boxing captain and expert. Louie, who has captained and coached the Idaho varsity boxing squad through the most successful season in its history without receiving anything for this work except a few kind words, has brought boxing from a very inconspicuous activity to one of the largest and busiest minor sports in the university.

Through Louie's unquenchable enthusiasm and ambition for Idaho to have an outstanding boxing team, and through the help of Cap Horton, mitslinging has become not only a popular pastime but a paying—the only paying—minor sport in the university. Louie was given charge of boxing in his freshman year. Louie, in a year and a half, has talked up boxing until over 100 students have been turning out regularly, and has hounded the athletic department into giving him equipment until he now has a well-equipped and complete boxing department—a far cry from the meagre supply of students and materials which he found when he took over the department.

This year he turned out a number of outstanding boxers and climaxed the year by seeing one of the men he has developed win the Pacific Coast Intercollegiate welterweight boxing championship while getting to the finals himself in the lightweight class. Louie Denton, holder of the Pacific Coast Intercollegiate welterweight title, is one of the outstanding boxers on the campus, and has done much to uphold and spread the prestige of the Idaho team.

Ward Furnishes Surprise in Century; Newhouse Ties Record

Surprising results from many different quarters gave track Coach Otto Anderson good reason for the big smile he has been wearing ever since the practice track meet with Washington State last Saturday afternoon in Pullman. The biggest surprise and perhaps the most pleasant to Idaho supporters was the outstanding performance of 200-pound Thoron "Swede" Ward, varsity fullback, in the sprints.

Pounding down the track like a racing model of an army tank, Ward outsped Captain Jim Kalbus to win the 100-yard dash and to win second to Farley of W.S.C. in the 220. The times of 10.3 seconds and 22.5 seconds, respectively, were slow even for early season racing, but were easily accounted for by the slow condition of the Washington State track, which had a two-inch loose dirt surface.

Sprints Will Be Strong
 Ward's astounding speed for a man of his size has been attracting much attention from inland Empire sports writers. "Swede" has not sprinted since his high school days and turned out for track only on Anderson's plea that he needed a broad jumper. Ward reported for broadjumping for a couple of nights and was getting around 20 feet when Anderson decided to time him to the 100-yard dash.

Ward let himself out, was timed at 10 seconds, and the next night beat Kalbus in practice in 10.1 seconds. Since that time Otto has been working on his new sprinter. With Captain Kalbus who has been running practically even with Ward, Coach Anderson expects to have one of the strongest sprinting departments in years.

Newhouse Ties Record
 Bob Newhouse tied the all-time

Idaho record with a vault of 12 feet 8 inches to tie with Herron of W. S. C. for first place. Newhouse's vaulting was the highest he has gone yet this year, and is good in this conference at any time of the season.

Squance, who won the high hurdles in 15.7 seconds, and Bowler, who won the mile race in 4:38, were Idaho's other first place men among the 12 who made the trip. Squance's time was particularly pleasing to Anderson for an early season performance. Ap Berg, with a heave of 45 feet 7 1/2 inches won second place in the shot put event which was won by Theodoratus. Bob McCue was third at 43 feet 10 1/2 inches.

Win Four Seconds
 Jack LeGore jumped 5 feet 9 1/2 inches to tie for third in the high jump which was won by Flser or W. S. C. at 5 feet 11 inches.

Orton in the mile, Ridings in the

880, McCue, in the discus to complete Idaho's second place winners, in varsity events. Brown and Kalbus won thirds in the 880 and 220 respectively. A number of freshmen also showed possibilities in the freshman events which pleased Anderson as much as the varsity events.

The summary:
 100-yard novice—Banky, W.S.C.; Beeman, Idaho; Farley, W.S.C. Time 10.2 seconds.
 2-mile relay—W.S.C., time 7:55.4.

Come Ye Shysters To Your Waiting Doom—March 28

It gives us a gratuitous feeling to know that you were able to see and try to rectify your errors as outlined by us in the March 13, 1934 issue of The Argonaut. We notice that you are willing to provide a practice scrimmage for the mighty and valiant Ags.

Therefore, the Ags will condescend to teach the members of the University of Idaho Bar association, commonly known as Shysters, the technique of basketball playing according to rules of the Spaulding

Official Basketball Guide 1933-1934.
 This practice to take place in the Memorial gymnasium at 7:40 o'clock on the evening of Wednesday, March 28, 1934.

Our most earnest wish is that we will be able to obtain sufficient exercise from this practice scrimmage so that we may adequately appreciate the banquet which you as the losers will provide, in the near future.

— what it means

—to keep on hand 350,000 bales of Turkish tobacco to add something to the taste

So important is Turkish tobacco in the Chesterfield blend that we maintain a modern up-to-date tobacco factory in the far-off city of Smyrna. Turkish tobacco adds something to the taste and aroma of a cigarette that no other tobacco can give. It means something that Chesterfield always has in storage upwards of 350,000 bales of this aromatic Turkish leaf. This Turkish tobacco is blended and cross-blended with ripe mild home-grown tobaccos to give Chesterfields a taste and aroma that is not like other cigarettes. Everything that money can buy is used to make Chesterfield the cigarette that's milder, the cigarette that tastes better.
