Gems Out This Month; 63 Yet To Be Sold

Gems now in the hands of the Syms-York printers in Boise will be ready for distribution some time during the last week of this month, according to James Crawford, copy editor. Clayne Robison, editor, and Robert Herrick, assistant editor, left for Boise about two weeks ago and will return when the Gems are printed.

Out of the 100 extra Gems or dered abve those for which the first provisions were made, 63 are yet to be sold. Altogether about 110 Gems have been ordered this year, according to Crawford.

nounced later by the club.

Mother's Day Idea May 13 **Organized In Philadelphia** 

"Why I haven't bought moth-er a card yet." Again the date comes when we remember our Mothers. Why is this day of all days set apart for Mothers? Miss Anna Jarvis, Philadelphia, in 1907, organized the idea of Mother's day. Phildelphia was the first city to observe this day. From that time on there has been a steady growing rec-

ognition of Mother's day. On May 9, 1914, following the adoption of a resolution by congress, President Woodrow Wilson issued a proclamation declaring that the second Sunday in May should be observed as Mother's day, and called up-on government officials to display on this day the American flag on all government buildings. The people were requested similarly to display the mag on their homes and other suitable places. Today it is celebrated throughout our country, and the red and white carnation has been adopted as the symbol of the day.

IDAHO TRI DELTS SPONSER MEETING

The Idaho chapter of Delta Delta Delta will be hostess to a tri-state convention to be held May 19. University of Montana, Whitman college, and Washington State college are sending about 40 delegates to the meeting.

The convention activities will start Saturday morning with a 9 o'clock breakfast followed by a welcoming address by Miss Per-

meal J. French. A business meeting will be held Saturday morning followed by a luncheon and tour of the campus. At 3 o'clock the visitors will be taken to Moscow

Again, congratulations to the new members of Spur, Mortar Board, and Silver Lance. Congratulations to all Idaho students who are working for Idaho's best interests.

## Should Campus Day Be Abolished?

Again Campus Day came and went with the usual lack of enthusiasm displayed by the students. A lovely queen and her attractive attendants adorned the throne; carefully trained children danced the May Pole dance; Mortar Board and Silver Lance tapped their new pledges-all right as far as it goes, but is this sufficient reason for declaring a holiday ma staff.... during the busiest season of the school year and shortly before semester examinations?

Let's think of some more activities which will actually interest the students and townspeople, or let's go to classes. Awarding the cups for the improvement of the appearance of house grounds is a good idea and one which should increase in value as it is better understood. R.O.T.C. inspection furnishes a colorful and instructive pageant. It's just a suggestion, but couldn't it be arranged to have inspection come on Campus Day?

To justify its existence, Campus Day must be an all-students' day. The cooperation of everyone is necessary. Too many attend the May fete to poke fun at the processional, to talk over the new pledges, ora new pastime-to imitate Miss Wirt's whistle to bring to a stop prematurely the May Pole dance which represented weeks of conscientious practice on the part of youngsters anxious to please.

# It isn't the heat.its the humidity. ...that annoys glass insulators,too!

Even glass insulators behave badly toward telephone currents when humidity is high. This has been proved by experiments at Bell Telephone Laboratories.

When it's humid, a film of moisture forms on the glass. The more humid, the thicker the film -and the more electrical current escapes! Important factors governing amount of leakage are the chemical nature of the glass, its shape and age, the amount and kind of dirt on its surface.

Through exhaustive studies, telephone men have developed more efficient types of glass insulators -and are seeking ways to make them still better. Close attention to every detail of Bell System equipment leads to constantly improving service.

FOR breakfast, Kellogg's Corn Flakes set you up for the day. Those crisp delicious flakes, with milk or cream, or fruit added, supply the energy you need and are easy to digest.

For a quick, satisfying lunch, eat a bowlful of Kellogg's Corn Flakes. So much better than hot, heavy dishes that often slow you up in afternoon classes.

Then if you're hungry at bedtime, Kellogg's Corn Flakes are just the thing. Ask your club or fraternity steward to keep them on hand or get them at your campus restaurant.
