VULUME XXXVII, No. 23

Official Publication of the Associated Students of the University of Idaho

Rhodes Aspirants To Be Quizzed December 14

Crea Are Idaho Candi- orium. dates for Scholarship; begin at 8:20. Tests Given at Boise

Candidates for the 1936 Rhodes scholarships from all advanced the naturalism and fantasy, ten-educational institutions in Idaho derness and tragedy, humor and will pass before an examining pathos, in "Liliom." Abstract board in Boise December 14, Re-stage sets by T. R. Pritchard are Wrs. Muskat, played by Helen P. presenting the University of Idaho will be Harold Ellingson of St. Anthony; William McCrea, Coeur d'Alene; and Shull Arms, Wallace.

The two men who are declared outstanding candidates in Idano by the Boise board, will be judged ington, Montana, Oregon, and North Dakota. From this fivestate district meeting four men will be selected to enroll at Oxford university in the fall of 1936.

Arms and McCrea Are Seniors McCrea and Arms are both seniors at the University of Idahothe former majoring in political science, the latter in physics. Arms is a member of Phi Gamma Delta social fraternity; McCrea, a

member of Sigma Nu. Graduating from Idaho in 1935, Ellingson, al bacteriologist, re-ceived a scholarship to Wisconsin where he is now studying. This is his second year of Rhodes competition; last year he was one of the two men chosen at Boise to represent the state of Idaho at the district examination in Spokane. He is a Sigma Chi.

Require Two Years of College Any male citizen between the ages of 19 and 25 who has com pleted two years of college work is eligible to be named a Rhodes scholarship candidate. Application for candidacy may be filed in the state of residence or in any state where the man has gone to college at least two years.

Rhodes scholars are given 400 pounds annually (about \$2,000) for their expenses during their two years enrollment at Oxford.

Diagrams of this com-Home, 12:10; Glenns Ferry, 12:50; plex growth cycle usually show six steps.

Cells Deviate

Dr. Stough observed that some cells seemed to deviate from the usual routine, yet arrived at the same goal: This phenomenon, which he first observed when studying cells in a chick embryo under a magnification of 1500 diameters, Dr. Stough called mod-ified mitosis in a preliminary pa-

per published in 1931. This fall Dr. Stough's second and far more detailed paper was published in the "Journal of Morphology," leading scientific periodical in its field. In this 35page article he presents modified mitosis as a new interpretation of of new cells."

Accepted theories explaining the problem of growth by cell Vandals Out-Gain Bruins

Admit Plausibility Two summers ago, Dr. Stough

discussed his findings with leading cytologists in Austria, Germany, and Switzerland, as well as prominent scientists in leading eastern universities. All admitted their plausibility, but Dr. Stough's theory is still too new and unsetting to be accepted. It is being widely discussed, but no where has it yet been disproved.

Dr. Stough believes his interpretation of modified mitosis may later have bearing on the questions of genetics and heredity. He summarizes his conclusions as follows: "Although they are not pre-sented as absolute proof still they

are consistent, and taken as a whole, point in the direction of

the growth of the embryo and that it is impossible for typical mitosis longer to maintain its

Feature Game at Los Angeles In their last game of the 1935 eason, Coach Ted Bank's Vandal horde played some of the best football they have shown all year

But Lose 13-6; Long Runs

to surprise Los Angeles football fans by nearly upsetting the strong UCLA Bruins. The Vandals threatened in every quarter but failed to score until the last few minutes of play, leaving them on the short end of a 13 to 6 tally. Idaho started the fireworks when Clarence Devlin, Vandal midget back alternating at half and quarter, swept through right tackle and raced 41 yards before Chuck Cheshire hauled him down. It was only after a penalty that the Vandals had to relinquish the ball on downs.

In the second period, the Uclans made a drive for the Vandal goal but failed and gave the ball to Idaho. Here big Theron Ward, Idaho speed merchant, broke loose over left tackle and scampered 54 yards before he was natled

Drive 68 Yards

Midway in the second period, the strong U. C. L. A. team gained their first counter. After a sustained drive of 68 yards, General Hugh S. Johnson Sweep dround left end from the 9-yard line. Murphy converted Will Speak Before Public for the extra point.

At the beginning of the second half, the Idaho eleven opened up their aerial attack with Les "Pop" Holmes on the tossing end, and tepped into the world spotlight threatened the third time. In addition touchdown. With Leslie Holmes est at the time he delivers his Idaho then had to kick-off and lecture. At the conclusion of the before they could gain possession of the ball, the game ended.

Despite the loss of Bob McCue, Idaho's stellar tackle, Coach Ted Bank's Vandals took most of the field honors from Bill Spaulding's Bruins. The victory for the Uclans put them in a three-way tie for the championship with Stanford and California but all the statistics were in favor, of Idaho.

Vandals Threaten

The Vandals threatened in every period, while the scoring opportunity that U. C. L. A. had besides the two that they cashed in on for touchdowns was in the first period. This came after a 50yard punt return by Cheshire to the Idaho 25. Line plays advanced it to the 13 but three passes failed and Idaho took the ball on downs.

In first downs, the Vandals gained 10 to 7 for Bill Spaulding's crew. Idaho netted 288 yards from rushing to their opponent's 281, and outgained them in passes 166 to 39. The Bruins completed but five of their 18 tosses while the Vandals, with Holmes doing the successful pitching, made half of

Fred Funk doing most of its booting, averaged 42 yards on 10 kicks against 27 for Idaho on 11.

New Life For Intramural Athletics At Idaho

Idaho has set a good movement well on its way. It has set up a system of intramural contests for nearly every sport within the ken of the college student. The beauty of it is that the experts are excluded and the students who know these sports for the pleasure in them can get together and have some exercise along with a heap of fun.

So far this year tennis, touchball and volleyball have been conducted in this spirit. The referees have been impartial. Unquestionably, it has done a lot to tear down the adamantine walls that the groups build around themselves. All the little prejudices and quibbles between groups have some chance to go puffing out of this safety value of student harmony.

TANKE STATE

H.

In addition to this harmonizing effect is an even greater one. Intramural sports reach out to those who have neither the inclination nor the ability to enter into varsity sports. It draws into athletics studets who otherwise would confine their leisure to weekend festivities.

No education is complete or well balanced without physical training. The smattering that is insisted on during the freshman and sophomore years is not enough? Intramural sports deserve some real back-

What days and what nights! Do youse guys and youse gals ever rest? There is so much dirt floating around that the old Colonel is reminded of the street cleaners convention in '30-the year of Barnum and Bailey. Anyway, folks (it's stretching a point to say folks) the Colonel wants you to understand that he has tried to keep it clean. To you people who left the campus, a lot of water has flowed right here at home. There seems to be compensations. The Bucket, we hear, was quite fit to dance in. . . that is, if a person was fit to dance.

Marg Pence and Vic Warner were going wild most of the time Woody "Honey" Hudson hav-ing times with and without dates.... Woodie Hall putting on a show at the Bucket....Marion Delana in company with Kenny Robertson taking in the white lights....Clarence Childs and Bill Ash trying to find two female leads for the "Perfect Setup".... Gene Conklin coming back from Spokane with a whispering complex Fay Pettijohn wasting Butterball's sugar cubes....

Barby Lipps and Kenny Thompson stepping together.... Who are these guys Tom and Jerry.... They seem to be getting into everything....Jim Keel bragging about a recipe and offering himself as an example....Jane Baker getting around....Bert Woods being much in demand..and delivering Bud Goldsmith unable to sustain the loss of all his Alpha Phis....Sally Mitchell cheering up "Skinny" Smith "Abie" Eiden plunging up the aisle of the new theatre.... In a hurry, "Abie?".... History repeats itself....I wonder what the three Kappas did for amusement after dates were over??....Did anyone see a Gamma Phi here during vacation?....The Delta Gammas were great ones to play (games, of course)....The Fijis exceedingly excellent at the game of ping-pong, Betas at dancing.... The ATO's staying pretty much indoors for their pastimes.... Where did the Pi Phis get that scarlet fever sign?...

So much for the local dope....Now to turn to Spokane and points north....These are just a few of the incidents.... Others will crop out later....

My, my, what a time was had in Spokane....I really believe that gaucho on the Round-Up wall grinned at the fun....And as I lifted my glass, a cocked eye perceived two boys and gals in pajamas of the opposite sex....Helen Lawrence fin-ancing Earl Bopp for a night....Johnny Beary escorted out of the Round-Up....Also, Dick Lambert and crowd leaving early....P. K. without his pin... .know the gal, Frances?....

Overheard a toast to the Sigma-Nures....tippsy pun....six Phi Delts and dates without their reserved tables....Harper and date disappeared early one night....Where did you go?....Were the two girls satisfied with Pat Metzgar?....Don Haasch all by himself....Spokane police on a 8-hour man hunt that ended in a closet Marian Graham much perturbed during the whole time....

C. Spear taking an early morning walk with his girl....Denton looking all night for Iola Where did you hide, gal?....Baird looking for pins to fix Carol Jean's frock.... A mob giving two boys and dates the once over when they entered a gambling joint....A mother stopping an apartment party at 3 a. m....Gwinn, Sullivan, Stolle were reported up late Wednesday night....Geraghty and McNichols are always invited to any party.... Elsewhere the eye of old Hawk saw a boy in with

carload of gals going south....A boy necking down by the cavalry barns....and in the daytime, too....Williams, Mitchell, McKee singing nice songs Oh, yeah....Murdock and Black and one cup of Java....why didn't you use two straws?....Ralph Lee asleep in a Model T at 4. boudoir de luxe, eh... .. We all believe your story about falling on a train seat, O'Neill....

Former Student Enjoys Work At Research

Interesting sidelights on his to the irradiation, or to a com-work at the Cancer Research Institute in Philadelphia are mentioned by Louis deSpain Smith in a letter to a friend on the campus. Smith, last year in the zoology department, landed a fel-

lowship at the Cancer institute which is rated one of the best available in the United States. He is an Idaho graduate, receiving his pre med degree in 1932 and his master's last June.

THE IDAHO ARGONAUT, MOSCOW

"They certainly have some laboratory here," Smith wrote. "All the equipment that one can think of, and a little more that is too complicated to use. Except for one thing, microscopes. The zoology department at Idaho has better microscopes than they

have here.... "Speaking of microscopes, I saw the ne plus ultra of them all recently. It is one that the Spencer company designed. It is not on the market as yet, but when and if it goes on, it will sell for about a thousand dollars. It has eyepieces that can be inclined at any angle, a stage about as large as an ordinary table top, and so many knobs, screws, levers, and gadgets that it looks, at first glance, like the control room of a battleship....

DuPont Donates Funds

"This place seems to have plenty of money. It is all financed, I found, through donations from the duPonts....so science gets some of the munitions and cellophane profits, thus making every-one happy, all the way around....

"The only kind of tumors that we see around the place are rat tumors. They have two special kinds...transplanted from rat to rat, with about 90 per cent average of takes....I inject tumorbearing rats with....substances.. ...(then) wait until the substance has spread itself through the beast, and then I irradiate one of the tumors with X-ray. (Each rat has two tumors, one on each side of the belly). The unirradiated tumor can then be used as a control, to see whether the effect is due to the substance or

here, who work on such things as the indophenol oxidase and dehydrogenase system, and cytochrome and suchlike things.... "All in all, I like this place very much, and am learning a lot around here."

KENWORTHY

Tuesday-Wednesday-Thursday—"The Irish In Us," starring James Cagney, Pat O'Brien, Olivia De Haviland.

NU-ART

Starting Wednesday-"Special Agent," starring Bette Davis, George Brent.

Two powerful pictures with powerful casts are on the program this week. "The Irish In Us" provides us with plenty of domestic comedy drama. Cagney, O'Brien, and Frank McHugh are cast as brothers, with Cagney and O'Brien drawing aside the curtain to give us an insight into the private life of a policeman, fireman and a good-for-nothing. Miss Dellaviland, of course, is the girl with whom both Cagney and O'Brien are in love. O'Brien sees her first, but Cagney says all's fair in love and war. And there is sufficient demonstration of both.

"Special Agent" gives us a somewhat different type of story about the undercover men in the Federal Government. Instead of a "G" man being killed and thus inciting the government to action to avenge his death, the department of justice sets out coldly to get its man. The checking of falsified income tax reports is the main idea that sets the action going.

The theme of this story is built on the career of Al Capone. Bette Davis is cast as the gaugleader's secretary, while Brent portrays a G-Man. Everything is going along smoothly when the gangster discovers after his arrest, that his secretary is going to testify against him, and he attempts to stop her. That's all right too, but he forgot just one thing: that his secretary was Bette Davis, (a gal who makes up her mind and doesn't change it), and said secretary had made up her mind to testify.

I have heard a great many times in recent years that more and more students were getting more and more Red. In universities that are intelligently conducted I do not believe it. In universities which permit students to study and talk as they please I see no evidence of increasing Redness. The way to make students Red is to suppress them. This policy has never failed to have this effect. The vigorous and intelligent student resents the suggestion that he is not capable of considering anything more im-portant that fraternities and football. Most of the college Reds I have heard about have been produced by the frightened and hysterical regulations of the colleges. They are not Reds at all; they are in revolt against being treated like children.—Robert M. Hutchins, president of the University of Chicago,

Pledges Holman and Parker late because their watches stopped....that's the 1936 excuse, folks... ...Big Town Wilcox lost in Potlatch....E. J. Lee and Levy thwarting a cop by having no license plates....and lights .. Sneak dates on the campus... A sure sleep loser....M. E. Brown entertaining the gents in the Nest....T. N. E. active again I predict a winning horse, there....Brooks Landon declaring his love for Schoenhals....and there is the new S. A. E. housemother, Budgc....Ridenbaugh hall Boys fined 15 bucks a throw in Lewiston for disturbing the peace....

And don't think I didn't see what the rest of you culprits did, but old Hawkeye never tells all he sees and knows, but as I quaff my beverage to the last drop, I wonder if all those gals you lads met will write.

Grins and Gripes

The Argonaut welcomes contributions to this column concerning matters of student interest. The opinions expressed here are the opinions of the writers only and are not to be confused with the signed with the true name of the writer. Names will not be printed, however, except at the request of the authors. The editor reserves the right to delete any part of the letters which he be-lieves to be contrary to the best interests of the paper or the university.

Wants ASUI to Build Theatre

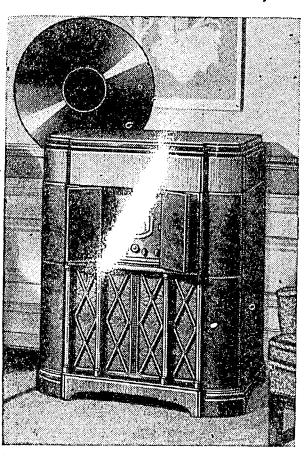

To the Editor:

It certainly is a shame that it requires so much energy to arouse the student body into action. Mr. Convorthy jumps his already exhorbitant price, and what happens? Everyone shows he is in favor of doing something about it by writing a gripe about the high price of shows, and then each individual sits back and hopes someone else will do the work . .

There is one solution to the theatre problem . . If the student body would vote to use some of its funds to set up a theatre of its own, either the Nu Art's price would come down or the student theatre would become a permannet fixture and the present theatre magnate would go on the rocks. This plan is entirely feasible, and if the students should become endowed with a little enthusiasm, it could soon be put into action. I think that the Idaho students would at least have enough spirit to patronize their own theatre, especially as they would only have to pay about half as much, and perhaps see twice as many shows in the bargain.

It would take quite a bit of capital to start the theatre, of course, but it is a certainty that it would pay for itself in a few years, and perhaps make money for the students. This would reduce the \$17 a year student body fee, and furnish some jobs for some good football players in the operation of the projection equipment . . ,

IN THIS RADIO-PHONOGRAPH and, for the first time, the Dynamic Range of the Symphony

Only a few years ago the most imaginative radio engineer wouldn't have dreamed of an instrument so magnificent ... a radiophonograph that gives you so much, and gives it so brilliantly, because it has such features as these:

The PHONOGRAPH operates through the revolutionary Dynamic Amplifier and for the first time brings you modulations from the whispered pianissimo to the thunderous fortissimo. The Automatic Record-Changer is as smooth and quietly efficient as the electric motor; as deft and precise as the electric pick-up. Home- and Radio-Recording enables you to make fascinating records, yourself! Records play through the radio's entire audio system, and you may avail yourself of the tremendous output of 25 watts-through two Super-12" Electro Dynamic Speakers!

The RADIO covers all frequencies from U.S. Aviation Weather Forecasts (140-410 kcs.), through all domestic and foreign bands, police, aircraft and amateur calls to ultra-short (5-meter) waves at 60,000 kcs. It has, of course, the Magic Brain, Magic Eye and Metal Tubes; -- it has, we may say, everything! But RCA Victor Model D22-1 saysitsomuch better, so much more convincingly, itself. Won't you come in and listen?

ultimate development in the field of sound reproduction. In this instrument, for the first time, the technical limitations in the range of volume as well as in timbre have been completely overcome. No other instrument is remotely like it.

ies of the RCA-Victor cam-

pany to demonstrate the

This new radio-phonograph will be demonstrated in our store Tuesday and Wednesday. At 3:00 o'clock Wednesday afternoon it will be used by the Music Department of the University of Idaho in the university auditorium for the presentation complete of Leoncavello's opera Pagliacci. An explanatory lecture will be given by Prof. Donald McGill. The public is invited to attend.

This Instrument will Be Presented In Moscow Tuesday and Wednesday Only

day. Winners of the 1936 scholarship may enroll at the Boeing Page Three

Honoring three new initiates and commemorating Founder's day, Sigma Alpha Iota, national music honorary for women, will give a banquet Thursday evening

at 7 o'clock at the Hotel Moscow. The initiates are Betty Bandel-in, Lorna Jane Cornell, and Agda Walden.

President Extends Greetings Greetings will be extended by Delsa Crowley, president of the organization. Other speakers will be Marybelle Fulton, who will describe her trip to the national S. A. I. convention last year, and Lucille Ramstedt, an alumna.

A short musical program by members of the organization will follow.

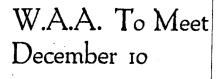

About twenty members, alumnae, and patrons are expected.

Women's Rest Room Gets Four Tables

Improvements in the rest room in the women's gymnasium will be completed as soon as the four card tables which have been ordered arrive.

Twenty new chairs are already in place, and a considerable amount of kitchen equipment. Several lamps for indirect lighting were installed last fall.

All university women are urged to use the room during vacant periods of the day.

regular meeting December 10 at o'clock in the women's gym. All members who have not paid their dues of 50 cents by that time are to pay them at the meeting. Failure to pay dues will result in a deduction of 25 points from the total number of points for those members who do not pay.

Four weeks of practice remain before the volleyball tournament which will be played off after January 9. Practices are held from 4 o'clock to 5 o'clock on Monday and Wednesday for sophomores and juniors and on Tuesday and Thursday for seniors and freshmen. Nine practices are required for team eligibility.

Women's Group Plans Assembly An all-university assembly will be sponsored by Cardinal Key, national honorary for upperclass-

women, Thursday evening at 7 o'clock in the university auditorium.

The program will consist of musical numbers, and should be and semi-technical courses with a of universal interest, according to Ruth Ferney, president.

Pledging will take place immediately after the assembly. Dinner Exchanges Named

The dinner exchange schedule for this week is as follows: Gamma Phi Beta with Hays hall Kappa Kappa Gamma with Kappa Alpha Theta, Delta Gamma with Alpha Phi, Alpha Chi Omega with Delta Delta Delta, Forney hall with the College Women's club. Town women will be the guests of Hays hall, Kappa Al-pha Theta Alpha Chi Omega and pha Theta. Alpha Chi Omega, and Forney hall,

Cancels don't get your Mind FAMOUS COLFERS SAY

CRAIG WOOD (right) -- Tommy Armour -- Helen Hicks -- Gene Sarazen -- Bill Mehlhorn -- Denny Shute-Willie Macfarlane!

Their names sound a roll call of tense moments that have made golfing history, when prime "condition" and healthy nerves were at a premium. All are outspoken in their preference for Camels.

"Camels are so smooth and mild they never affect my wind," says Craig Wood, pictured at the right as he paused to smoke a Camel. Willie Macfarlane adds: "Camels are mild. They don't get my wind." Miss Helen Hicks brings up the feminine viewpoint. "There's a delicacy of flavor in Camels that appeals to women. Camels never interfere with one's wind." And Denny Shute says: "I switched to Camels years ago. I smoke them constantly, without upsetting my nerves or disturbing my wind."

You'll Like Their Mildness Too!

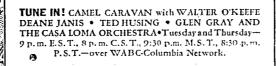

Such experiences with Camels can be matched right among your own friends. You'll like Camels too. Camels are made from costlier tobaccos. They never tire your taste.

COSTLIER TOBACCOS

• Camels are made from finer, MORE EXPENSIVE TOBACCOS .. Turkish and Domestic ... than any other popular brand.

(Signed) R. J. REYNOLDS TOBACCO COMPANY Winston-Salem, N. C.

In every-day life, physical fitness plays a big part too. Life's more fun when you feel good. So mark what champions and star athletes say: Camels don't get their wind and don't ruffle their nerves. That's real mildness. Try Camels yourself, and share in the enjoyment of Camel's mellow flavor that means so much to others.

chiefly for their triumph over

of the season under a new coac ing regime.

And that reminds me of the story about the Princeton grad who thought he had discovered a perfect play. He obtained a con-ference with the coach and explained it as follows.

'You see, coach, our center must block their center and our guards block their guards, our ends their ends, etc., down the line. Then the interference will each block out a man-leaving only one player, and if our ball packer can't dodge him, we shouldn't have a touchdown.

No foolin', though, Idaho fans have plenty of reason for looking forward to a successful season next year. The flashy play of the Vandals under the first year of Bank's .coaching .brought .forth praise from the best sport critics on the coast. .No team dared consider Idaho as a "breather," for the Vandals outgained opponents in yardage with only one exception. . And no opponent crossed the goal line more than twice.

-85

The frosh team looked mighty good this fall, and next year should fit into the new system. The weight on the line was the surprising thing about the frosh gridders—big and rugged describes them. They should be good ma-terial for next year's varsity.

-SS-

Practice makes perfect—at least in the case of Bill O'Neill, Idaho's bronzed track champion, this is true, for Bill has been training through rainy or sunny weather since early in September-and the record he set at Portland in the cross country run was his reward.

Basketball received its first setback when Wally Geraghty, allconference guard last year, pulled a tendon in the arch of his right foot in practice last week. He will be slowed down for some time.

The psychologists are at it again! At the University North Carolina, Christmas gifts were tabulated. Men from 13 years on receive more neckties than anything else and women from 13 to 22 get cosmetics, while ladies of 22 and up are deluged with stockings each Christmas.

The proof of the cigarette is in the smoking . . . and it always will be

Smokers—both men and women—, want a cigarette to be mild-yet not flat or insipid. At the same time they want a cigarette that gives them taste-taste they can enjoy.

> Chesterfields are outstanding for mildness-outstanding for better taste. You can find that out by smoking them.

Just try them - Chesterfields are what they say they are
