

Honor Code Passed In Law College

Bench and Bar Improves System; Provides Court to Try Violations

What looks like a forward step was taken by Bench and Bar, all law college organization, Tuesday night when it adopted an honor code for law examinations, providing for a system of regulations and an honor court to enforce them. About 40 law students attended. Heretofore, law students have been more or less guided in their conduct during examinations by an unwritten honor system handed down verbally from year to year. This year for the first time it was thought that a better understanding for all future new law students could be reached by codifying the unwritten principles.

Committee Does Work
Pursuing this policy, a committee composed of Gilbert St. Clair, Robert Baker, Karl Jeppeson, and Lionel Campbell, chief justice of Bench and Bar, drew up the code and submitted it for discussion and approval of the members.

In brief the code provided that law students will have almost unlimited freedom during the time they are writing examinations, including unlimited privilege of leaving the room, removing examination papers, and conversing freely on any subject not pertaining to the material of the examination. During the examination the students will not be proctored and will be strictly and unqualifiedly on their honor as gentlemen.

Faculty Approves Plan
The code then has provision for the composition of an honor court, which will try all violations of the code upon the presentation of a written accusation by any member of the law school. Three third year and two second year law students elected on the fall of each year in Bench and Bar will compose the honor court.

The court may pronounce any sentence it sees fit upon an offender whom it has found guilty of violating one of the regulations of conduct. The finds of the honor court are appealable to the law faculty and from there to the university discipline committee. The whole honor process has been left by the faculty completely in the hands of the law students who themselves will maintain and enforce the code. The system has the approval and co-operation of the law faculty.

Howard Welcomes 'em
Campbell, chief justice, presided at the meeting and conducted the discussion and passage of the code. Dean Pendleton Howard of the law faculty gave the principal address of the evening, a speech of welcome to both old and new students in the Idaho Law school. He emphasized the necessity for law students to acquire a professional attitude toward their work, law, and fellow students.

Mock Trial Discussed
Library etiquette was the subject of a short discussion by William Parr, senior in law school. Discussion of several proposals relating to the feasibility of a mock trial in the law school this fall was postponed until next week.

Sauerkraut, which closely resembles the German product, is now being produced by a Yokohama, Japan, food-canning company.

Janitors' Dean Relives Past Celebrations

"An yes," sighed Fred Skog, head janitor of the university, who has been here since 1909, "I remember those old Homecomings. All you could hear for a week around here was Homecoming. The students used to go wild. Every day they would get out in the halls and whoop and yell, and if someone could locate an old horn, they would march from building to building, blowing the bell off the horn and yelling at the top of their voices. Those law students used to be the worst. They were always the ones who started the mischief, although they usually managed to shift the blame to someone else."

I did not have to ask very many questions, for he has a fine memory and he enjoyed the subject. "Why I remember one time," he went on, "when the students tore two whole rows of seats out of the auditorium during a Homecoming assembly. And in those days they got away with stuff like that."

"What Homecoming plan or theme did they carry out then?" I asked. "Well, they didn't seem to have much plan or theme," answered Mr. Skog. "The school was a lot smaller then, and the whole school acted together. They have always had their big bonfire the night before the game. The bonfires were lots bigger than they are now. The students would ransack the town for material, and there was more of it then. Chick Sale used to see many of his works of art go up in flames, although the students used to have to pay for them, because they were valuable in those days. But they made the best bonfire material they could get."

"It seems to me," recalled Mr. Skog, "that the teams used to be more evenly matched in those days. They used to play down at the fairgrounds, and at game time on Homecoming day, the town and campus were deserted. Everyone was at the game. Some years there was snow on the ground, and the players wore canvas gloves."

"Was the rivalry between W.S.C. and Idaho more bitter in those days than it is now?" I put forth. "Yes, I think it was," he said. "There used to be a lot of rivalry between the students for each other's pennants and banners. One year W.S.C. took our cannon, but we made them bring that back. And then there was the time that someone made a large 'UI' with lime on the W.S.C. field. That was bad, because it killed the grass and got in the player's eyes. I don't know who did it, but of course we got the blame for it. And up until a few years ago there used to be a lot of paint spread around on the buildings of the two schools, but they've stopped that now."

It was good to sit there and listen to him tell of the good old days. There came a light in his eye that made one sit up and take notice.

"You know," Fred Skog concluded, "I never used to like football, but I sure wouldn't miss a game now."

Gum drops and salt tablets help steel mill workers keep cool and avoid heat exhaustion during the summer months. The salt tablets which are about the size of an aspirin are taken three or four times a day.

Name "Blue Bucket" Has Historical Origin

The origin of the name "Blue Bucket" for the campus magazine has behind it as much romance as any story ever concocted by the wildest of imaginations.

In the days of covered wagons, drawn by plodding oxen, a blue wooden bucket was carried under the bed of the wagon for water. It was used universally by the frontier settlers coming along the old Oregon Trail.

One lone covered wagon wended its way along this historic trail, but left it at the old John Day river crossing. At this crossing pioneers told, they found enough gold nuggets to fill one of these blue buckets. Being in a hurry, they did not map the place completely enough to return to it. But they told of the fabulous find, and showed the gold they had taken there.

Wild stories of the wealth to be found at this old crossing spread like wildfire. Gold seeking parties by the dozens set out to find this mine, but returned unsuccessful. The story has continued in legend form, and parties of hunters still look for the gold in the lost "Blue Bucket" diggings. But they have never found it, and the legend has almost died now. The name, however, is still preserved in our Idaho campus magazine, the "Blue Bucket."

Judge R. L. Kendrick of Pensacola, Fla., was the defendant in the presiding trial—in a traffic law violation trial. He faced a minor charge resulting from a collision in which the machine he was driving figured.

Amateur Radiomen Get Fraternity

Gamma Rho Epsilon Replaces Radio Club; Men Interested in Radio Eligible

Gamma chapter of Rho Epsilon, amateur radio college fraternity, is being organized at the University of Idaho to replace the former radio club which was organized on the campus last year, according to Kenneth Hungerford, secretary of the chapter.

Chapters Organized
Other chapters of this fraternity are located at U. S. C., the University of Washington, and new chapters are being organized at Oregon and other California schools.

"One of the chief activities of Rho Epsilon is the handling by amateur wireless of college press messages between chapters," Hungerford said. "Through the National Inter-collegiate press association, the Argonaut can expect many items from other schools and news items from Idaho will also be broadcast."

Powerful Transmitter
The Rho Epsilon station, W7UQ in the Engineering building annex has been revamped and is operating in the 40 meter amateur band. The new transmitter has broken records by several contacts with Australian amateurs.

Fourteen members now compose the local chapter. Any students who are interested in radio work are eligible for membership. Many

DEAN CRAWFORD LEAVES FOR A.S.C.E. MEETING

Ivan C. Crawford, dean of the college of engineering, left Monday night for Pittsburgh, Pa., where he will attend a meeting of the board of directors for the American Society of Civil Engineers.

Dean Crawford is vice-president of the A. S. C. E. for this region. The board meets every three months to discuss matters of concern to the national organization. The board will be in session October 10 to 12. Dean Crawford will return to the campus about October 19.

of the members are licensed amateur operators.

For Digestion's Sake... Smoke Camels

THE FIRST DAYS of the semester are usually crowded. But Camels help a lot. Camels give you a welcome "lift" in energy—stimulate digestion—bring a sense of well-being. And they never jangle your nerves.

With Camels, mealtime is more pleasant—digestion is stimulated—alkalinity increased

IN our busy lives, mealtime is apt to catch us at a disadvantage. We're often under nervous tension and physical strain. As a result, the free flow of digestive fluids is slowed down. How quickly Camels change this. For when you enjoy Camels the digestive fluids are gently and

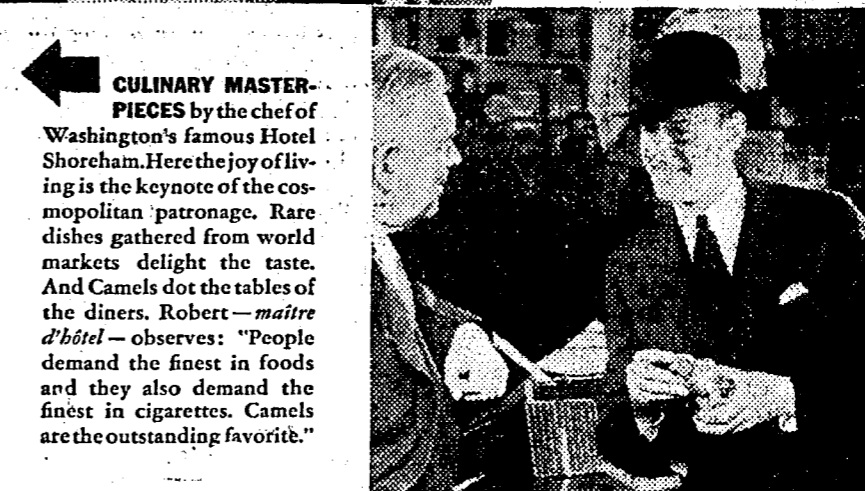

naturally restored to full flow. Alkalinity is increased. Time and again, physiological laboratories have checked this welcome effect of smoking Camels.

Camels are mild—you can enjoy them any time. They never jangle your nerves or tire your taste. Camels set you right!

Copyright, 1936, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

PLUCKY DARE-DEVIL Miss Uva Kimmy (left), America's outstanding girl parachute jumper with 48 jumps to her credit, says: "I smoke Camels for digestion's sake. They encourage digestion in a pleasant way."

"THERE'S NOTHING like a Camel to set you right," says Bill Ferguson (below), crack salesman. "Camels give me an extra sense of well-being and contentment. I always smoke them as an aid to digestion."

CULINARY MASTERPIECES by the chef of Washington's famous Hotel Shoreham. Here the joy of living is the keynote of the cosmopolitan patronage. Rare dishes gathered from world markets delight the taste. And Camels dot the tables of the diners. Robert—maitre d'hôtel—observes: "People demand the finest in foods and they also demand the finest in cigarettes. Camels are the outstanding favorite."

Intercollegiate Knights Predict Annual Mixer To Create Pep

"The I. K. mixer tonight promises to start homecoming activities with the biggest bang they have ever had," stated Bob Granville, general chairman of the annual intercollegiate knight mixer. "It will undoubtedly create pep enough to wipe the Cougars clear off the map."

Such is the prediction about the peppiest, zippiest, snappiest (predicted that way) dance that the intercollegiate knights have ever sponsored.

Ennis Leads
Paul Ennis will swing the baton and Charlotte Thompson and Ann LaRue will be the featured soloists.

With all the acoustical excellence of a new and attractive orchestra "shell" and a public address system besides, says Granville, the melodies are sure to penetrate the ear and tickle the feet.

The mixer will start promptly after the pep rally at MacLean field is over.

Informal Pledging Held by Kappa Phi

University women of Methodist preference were pledged to Kappa Phi, Methodist women's organization, Sunday morning at the Methodist church. Formal pledging will take place in about a week.

Fourteen took the blue, green, and white pledge bows of Kappa Phi. They were: Dorothy Whitman, Ellen Letcher, Lorraine Goodman, Eileen MacQuaid, Margaret Neil Waters, Kathleen Carlson, Grace Walls, Virginia Tweedy, Helen Irvin, Beth Horton, Marion Moore, Gladys Bryant, Ruth Ryan, and Doris Lacey.

Westminster Guild Gives Banquet

More than 100 Presbyterian and Congregational women attended a banquet Tuesday evening given by Westminster Guild, local Presbyterian organization for college women.

Marguerite Manion, president of the group, welcomed the guests and introduced two musical numbers by Mary Harvey, "Dark Eyes" and "Forgotten Fairy Tales."

Carrying out the evening's theme of "The Road to Friendship," Miss Manion spoke on "Signposts," Dr. C. M. Drury, pastor, spoke on "Milestones," and Mrs. J. A. Cooley, sponsor for the group, spoke on "Itinerants."

The Guild will hold its next meeting October 20 at 5:30 p. m. in the lounge rooms of the women's gymnasium, with "The American Negro" the topic.

Sponsors of the evening, they are Mrs. Jay G. Eldridge, Mrs. H. H. Simpson, Mrs. E. E. Bechtol, Mrs. Harry Francis, Mrs. Herman Wilson and Mrs. C. W. Walton.

Coed Sells Cars To Pay Expenses

One of the most novel methods of earning money to pay college expenses was practiced by Dorothy Holden, second semester freshman in music education and member of Gamma Phi sorority, this last summer when she sold Plymouth automobiles for the Parks Motor company in Boise.

"Selling automobiles is an education in itself," Dorothy remarked. "Besides earning approximately \$200 I traveled to Detroit and drove back a new Plymouth which I had sold. During my trip I visited several schools and campuses, and could see none that was any more impressive than the University of Idaho campus."

Miss Holden sold six automobiles to prove her salesmanship abilities. The Parks Motor company treated her as any other salesman," she commented.

Will Continue
"I intend to continue in the automobile business until I graduate. I should like to sell automobiles for a year to see what I could do in the business."

"I especially liked my job because I was my own boss and could work in the open," she explained. "Besides having many new experiences, I learned to meet people with confidence."

Before coming to the university last February, Miss Holden worked two and one-half years as secretary for the Mountain States Telephone and Telegraph company in their state office in Boise. She attended Franklin high school three years and Boise high school one year.

Ten children have been born to Louella Robinson, Scottsboro, Ala., negro, within eight years. Among the 10 are three sets of triplets.

A.W.S. Elects New Secretary

Louise Paulson, member of Kappa Alpha Theta, was elected secretary of the Associated Women Students Wednesday. Polls were set up in the office of the dean of women. The special election was held to fill the place of Marion Jensen, who did not return to school this year.

Nominations for secretary took place at the first regular business meeting of the A.W.S., Tuesday evening in the auditorium. At the conclusion of the meeting Dr. Evelyn Miller, dean of women, gave a brief talk.

Copies of the A.W.S. constitution, which has been revised and brought up to date are being distributed this week.

Which Reminds Me

Fall is here. If you're not already aware of it, dash around a bit and you will find that the team has won a football game, the surveyors are surveying the campus again, professors are taking last winter's suits out of mothballs, and all the gals are showing off their new wardrobes. And since wardrobes this year start with shoes—lets us start with shoes.

Elynn Bradshaw is displaying a pair of three strappers in the new green shade. Tiny gold buckles serve both as useful and an ornamental purpose on each strap. And like practically all the shoes this year, these are two contrasting materials—suede and patent. Which reminds me—why doesn't someone tell the surveyors that the campus was surveyed last year, and the year before that? It seems like such a waste of time to do it again.

Reddish Tan
The new reddish tan is doing very nicely thank you, decorating a pair of brown suede shoes owned and operated by MARY LOU JORDAN. Mary Lou is tall enough to get away with one broad strap over the instep. And the square cut of said strap plus the buttons with which it fastens adds to the trickiness of these walkers.

ADA MARCIA HOEBEL also goes in for solid comfort in a pair of the thick soled oxfords. Gray suede they are, with touches of black kid contrasting. And do they get her around which reminds me—now that there's no beer in the bucket, you'll have to beer with me longer, so I'll continue.

RUTH MARIE FRIEDLINE goes giddy again in a pair of high heeled black suede and kid shoes. The suede is stitched to add interesting detail. In this pair, too, buckles are used as decoration. Two large silver ones fasten the strap over the instep, adding greatly to the appearance.

For more sensible shoes, we again revert to green—all suede this time—and worn by MARIE RAPHAEL. The low heels give comfortable journeys up and down the Moscow hills and the high tongue in front gives top style. What more could woman ask? Which reminds me—women could ask for an automatic fly swatter free with every textbook. Life in classrooms without the flies might be a great deal duller, but it would be more conducive to rest.

Club Activities

Plans for a fireside to be given soon for all junior and senior women in the school of business, were made at a meeting of Phi Chi Theta, honorary for women in the school of business, Wednesday evening at the engineering building.

Exchange dinners to be held between the women's group houses and halls will be sponsored by Cardinal Key, members decided at a luncheon meeting at the Buckle, Tuesday noon. The dinners will be conducted on the same plan as last year with the exception that the houses will exchange six girls instead of four girls.

RURAL SCENE LAID FOR AG'S BAWL

With the fall season upon them, students all have the desire to frolic among the corn husks and pumpkins. The Ag club is giving them this opportunity on October 17.

This occasion is to be held in the Women's gym the Ag Bawl. Barnyard decorations are to be used for Halloween effect.

Tickets are available from Ag club members at all men's houses.

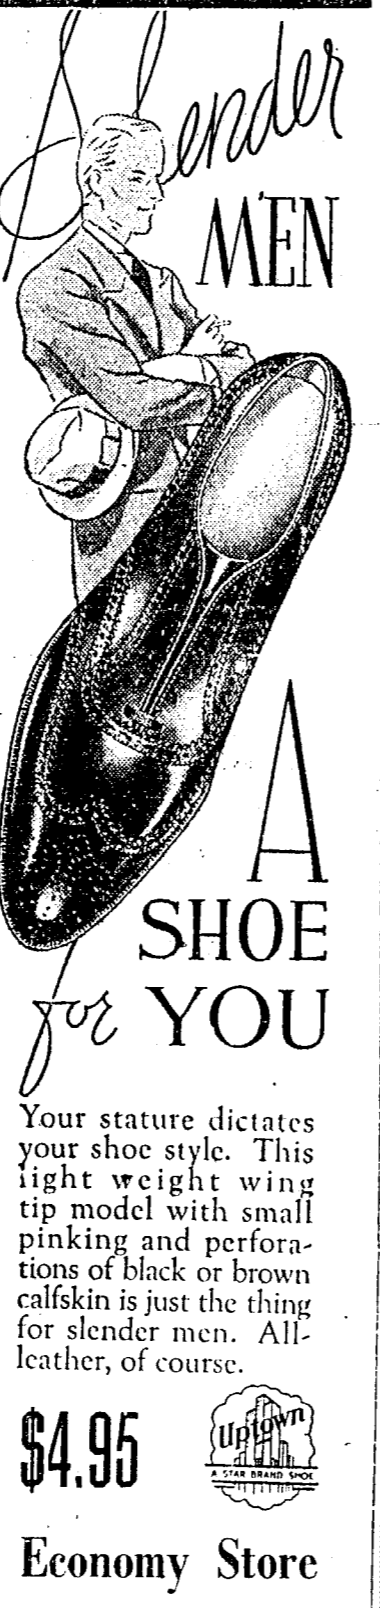

The committees are: refreshment—Bob Tucker; programs—Karl Bronson and Ed Iddings, co-chairmen; decorations—Rulan Ricks and Jack Woods, co-chairmen; clean-up—Claude Johnson.

Pictures Shown At Home Ec Tea

Members of the Home Economics club were hostesses to about 35 women at a get-acquainted tea held at the Women's gym Wednesday afternoon.

Pictures of the wedding of Miss Katherine Jensen, former head of the home economics department, were shown. Other numbers on the program were: Reading, Helen Parmlay; solo, Phyllis Rand, song, Pi Beta Phi trio; skit, "The Discovery of America," Billye Jane Austin, Elizabeth Jensen, and Sally Mitchell.

Miss Elsie Maxwell, head of the home economics department, concluded the program with a brief review of her experiences as dietitian in an army camp.

'T' Club Plans 'Mural Sports

Women's intramural sports will start immediately under the sponsorship of the Women's "T" club, according to Ruth Evans, president of the organization.

Swimming will be the first competitive activity and will be followed by volley ball and basketball. A tennis tournament will be worked out toward the latter part of the program. The schedule for practice of the women's group houses will be planned by the sport managers at a meeting Tuesday at 12:30 o'clock in the women's gym.

Initiation of the new "T" club members will be at the Delta Delta house Sunday evening at 9 o'clock.

Naval base expansions at Singapore, Malaya, are to cost approximately \$15,500,000.

Officials to Cheer At W. S. C. Game

Governors, Regents, from Washington, Idaho will Attend Homecoming

If Washington's board of regents becomes boisterous in its enthusiasm to help the Cougars roll up a big score on the Vandals Saturday afternoon, Idaho's board of regents will be on hand to look after the interests of the home team. If, on the other hand, Idaho's governor and lieutenant-governor become imbued with the "Beat W. S. C." spirit and seek to communicate it to the players carrying Idaho's colors, quite likely the governor of Washington will be heard.

In short, both teams will be well fortified with state officials and prominent citizens as rooters.

Thirty Accept
Idaho's Homecoming festivities this week-end, grouped around the Washington State University of Idaho football game, are attracting a considerable guest list. Some weeks ago President and Mrs. M. G. Neale sent out a large number of invitations to officials of both states. To date more than 30 have definitely accepted. Tentative acceptances have come from seven.

Idaho's famous senior senator, William E. Borah, who is now in northern Idaho on a speaking tour, is expected to add considerably to the strength of the Idaho division. While he has not definitely stated whether he will be in attendance or not, he will be a luncheon guest of Beta Theta Pi Saturday noon and probably will proceed from there to the game.

The governors of the competing states, C. Ben Ross of Idaho and Clarence D. Martin of Washington have been faithful attendants at previous W.S.C.-Idaho battles during their years in office. Governor Ross has advised President Neale's office that he is going to sneak away from official duties Saturday to keep his attendance record unbroken. Mrs. Ross will be with the governor in supporting the Vandals.

Governor Martin has informed the Idaho proxy he will be here if he possibly can. President E. O. Holland of Washington State is coming with members of the Washington board of regents and their wives as his bodyguard. Other Washington officials are expected to attend.

Senator Pope Comes
Idaho's interests also will be looked after by Senator and Mrs. J. P. Pope, Congressman and Mrs. Compton I. White, Lieut. Gov. and Mrs. G. P. Mix, Mrs. Myrtle Enking, state treasurer; J. W. Condie, superintendent of public instruction; Raymond L. Givens, chief justice of the supreme court; all members of the board of regents, and Mr. and Mrs. Stanley A. Easton, formerly on the board.

Members of the Idaho board of regents are Asher B. Wilson, Cley St. Clair, Jerome J. Day, Mrs. A. A. Steel, and J. F. Jenny. Mrs. St. Clair, Mrs. Day, and Mrs. Jenny will accompany their husbands. Tentative acceptances have come from Mr. and Mrs. W. C. Geddes and Dean and Mrs. J. R. Nichols of the southern branch. Mr. Geddes is a former member of the board of regents.

Homecoming program embraces three social functions planned chiefly for the entertainment of the university's official guests. Friday, 6 o'clock at the Blue Bucket Inn, President and Mrs. Neale will entertain at dinner in honor of the university's guests. At noon Saturday, President and Mrs. Neale will entertain the regents at luncheon at the president's home. Sunday afternoon at 3 o'clock President and Mrs. Neale and the board of regents will receive members of the faculty and Homecoming guests at Hays hall.

The letter "A," once thought to have been invented by the Phoenicians, now is believed to have originated by an older people.

The Belgium government recently passed a law applying a system of paid vacations annually to all industries and trades, public services and educational establishments.

All the Homecoming Slate

Friday, October 9
1:00 to 6:00 Judging of Homecoming decorations on campus.
6:00 to 8:00 Dinner for official university guests at Blue Bucket Inn by Dr. and Mrs. M. G. Neale.
7:15 to 8:30 Students' pajama parade, from the campus through business district and return, ending at MacLean field stands for the Homecoming rally.
8:30 to 9:00 Freshman class fireworks display, MacLean field. (This replaces traditional frosh bonfire).
9:00 to 12:00 Intercollegiate Knights Homecoming mixer dance, Memorial gymnasium. Paul Ennis' 10-piece band. Open to all Homecoming visitors.
9:00 to 12:00 Vandal Booster party (dance) for out-of-town alumni and their friends. Hotel Moscow. All visiting Vandal boosters and former students welcome.

Saturday, October 10
9:00 to 10:00 Mortar board breakfast for visiting alumnae members at Blue Bucket Inn.
10:00 to 11:00 Class of 1926 reunion breakfast, Blue Bucket Inn.
9:00 to 12:00 All university buildings open for inspection by Homecoming guests.
12:00 to 1:00 Luncheon for board of regents at home of Dr. and Mrs. M. G. Neale.
2:00 to 4:30 Idaho-W.S.C. Football game, MacLean field.
4:30 to 5:30 Women's open house at all eight sororities on the campus, sponsored by Moscow alumnae organizations. Open to all Homecoming visitors.
6:30 to 8:30 Alumni Buffet supper, Blue Bucket Inn.
8:30 to 12:00 Homecoming dance at Memorial Gymnasium, sponsored by Idaho Alumni Association. Music by Pep Band's 12-piece dance orchestra. Open to everybody.

Sunday, October 11
3:00 to 5:00 Reception at Hays hall by Dr. and Mrs. M. G. Neale and Board of Regents for members of the faculty and Homecoming guests, in honor of new faculty members.

Chem Department Places Engineers

Dr. L. C. Cady Reports Entire Graduating Class with Jobs

The entire class of chemical engineers which was graduated last spring now have jobs, according to Dr. L. C. Cady, head of the chemistry department. In fact, there were three jobs left with no one to fill them.

Oscar Smiset, ex-president of the Chemical society, and Floyd Anderson are employed at the Yakima Chemical laboratories doing spray analysis. Aldous Barnes, not only got a job in a Sperry Flour mill, but also took unto himself a wife.

Mylan Bottineil is attending Columbia university as a graduate student. At the Kellogg mines are Arthur Courtney and Glenn Craig, the latter one of Idaho's ex-boxers. Earl Martinson is making chemical tests on pulp and fibers, and testing paper at the Longview Fiber company, Longview, Wash.

A sweet job has Virgil Lessels, who is working in a sugar beet factory at Twin Falls. Robert Morris is an assistant in the University of Idaho's chemistry department. Alcohol research, trying to make alcohol from cornstalks and cabbage leaves, consumes most of Gerwin Taylor's time. He is a graduate student at Idaho.

Joseph Pimentel swelters in a smelter near Salt Lake. And last but not least, Samuel Woodruff has an assistantship in the wood conservation laboratories working for Dr. Edwin C. John.

Jack E. Mitchell, '34, is with the merchandising research department of the San Francisco Examiner. He visited his home in Moscow in July.

BILL HUDSON CHAMP IN TENNIS TOURNAMENT

Smashing through to victory in a hotly contested game Thursday afternoon, Bill Hudson, Sigma Chi, won the finals of the all-college tennis tournament from Howard Scott, Sigma Nu, in three straight sets, 7-5, 6-4, and 7-5.

Hudson won the championship match after a hard session that lasted two hours. The victory makes him school champion for the first year that the tournament has been held. The tourney, which is part of the school athletic program, will be continued every year hereafter.

Both Scott and Hudson are lettermen from last year's tennis team. They waded through all opposition up to the finals from among a field of nearly 50 contestants.

Hudson went through the quarter-finals, semi-finals, and finals without losing a single set. He is a senior this year.

ENGINEERS INSPECT HEATING PLANT

Plans for a field trip were discussed at an informal meeting of the Associated Students of Mechanical Engineering early this week. According to tentative arrangements members of the organization will be taken on a tour of inspection through the heating plant at Washington State college.

Gauss, vice chairman, appointed a committee of three to arrange the necessary details. James Atwood, Robert Baldwin, and George Reznor.

To Go October 17

Members and other mechanical engineers who wish to go will meet in room 104, Engineering building, at 1 o'clock Saturday, the date scheduled for the trip.

Strictly modern in both design and operation, the W.S.C. heating plant employs new features found only in the most recent structures of this type.

LACK OF LIBRARY SPACE CALLS FOR COOPERATION

With the increased student enrollment at the university and with no addition to the library section of the Ad building since 1929, the library officials are faced with the need for more adequate space.

Extra chairs have been added in order to help accommodate the large number of students using the library.

Officials request the cooperation of the students in keeping the library quiet for those who wish to study.

TRAFFIC RULES ARE LISTED BY LIND

The following traffic regulations will be strictly enforced from noon until after the game.

1. No cars except those having "official" sign issued by graduate or traffic control force on their windshields will be allowed to park between the Administration building and MacLean field.
2. Taxi cabs will be allowed to discharge their passengers in the entrance of the playing field.
3. Residents of Moscow are requested not to drive their cars west of the railroad tracks for parking purposes.

George L. Yost, '28, is manager of the Gem Fruit Union at Emmett, and treasurer of the Idaho Horticultural association.

George Funke, '33, has been appointed chief clerk in the office of Neil Irving, '21, Kootenai county agricultural agent at Coeur d'Alene.

SAVE YOUR LOOSE CHANGE

Iron out your laundry worries

SWIFTLY - SAFELY - ECONOMICALLY

By the Railway Express Route...

Let that dependable college pal, Railway Express, pick up and ship your laundry home and back for you every week. You will find it glossy going - easy, fast, inexpensive.

Merely notify the folks you will send the package by Railway Express, and ask them to return it the same way. You can send it collect too, you know, and while on that subject, we can add, only by Railway Express. The folks will understand. It saves keeping accounts, paying bills, to say nothing of spare change.

You'll find the idea economical all round. The minimum rate is low - only 38 cents - sometimes less. Pick-up and delivery by motor vehicle and insurance included in the shipping charge. It's the same with shipping baggage or anything else by Railway Express. So arrange your shipping dates by phone call to the Railway Express agent, and start now.

Summers Receives Honorary Award

Business Honorary Now Has Scholarship Tablet Instead Individual Award

To Stephen Summers, senior in the school of business administration goes this year's Alpha Kappa Psi plate. Clyde Koontz, president of this professional business honorary made the announcement yesterday.

The Alpha Kappa Psi chapter of Alpha Kappa Psi has changed its scholarship award from an individual medallion of former years to a scholarship tablet.

This tablet is a mahogany rectangle, 12 by 16 inches, centered with a bronze Alpha Kappa Psi coat of arms and seal. The entire inscription is surrounded by a laurel wreath with 12 bronze plates on the lower portion.

Awarded Annually

One plate each year is awarded to the senior who obtains the highest grade average during his sophomore and junior year.

Koontz stated: "As advisors and co-workers, we are fortunate in not only having several professors of the faculty as members of Alpha Kappa Psi, but also in having District Councilor, E. E. Davison, of the school of business, to assist in our future programs."

Schedule Activities

Activities of the Alpha Kappa chapter during the year will consist of round table discussions, professionally programs in cooperation with the school of business, and luncheon discussions with business speakers who are not associated with the school of business.

Pledges of Alpha Kappa Psi, carried over the summer from the last part of the second semester include: John Barker, Rudolph Beyersdorf, John Gaskill, Mack McFarland, Otto Mosely, Harold Kirkpatrick, Ray Randall, Mark Robinson, Robert Verbermoes, Jack Wilcox, Everett Wood, James Wright, Bob Granville, Charles Marshall, Francis Crystal, Albert Monnett, Henry Whitson, Ed Riley, Don Grover, and Don Klinger.

Undergo Prelim

These men will be given a preliminary training and immediately after homecoming will be initiated.

In order to qualify for pledge-ship to Alpha Kappa Psi a grade average of 4.5 or above for three consecutive semesters must be obtained along with the intention of securing a B. S. (business) degree.

breaking point.

Maybe We Do

"What do you think of Idaho's chances in Saturday's game?" he was asked.

"Well," he answered, "I saw Stanford's inexperienced team outplay and practically beat W. S. C. in the last half last Saturday. We've got a good bunch of boys and if they get in and play ball, they will do what Stanford couldn't."

Good Old Days

The school spirit is not what it was in those riotous days when big Ed Snow, now a Moscow farmer, was a rock-ribbed Gibraltar in the line and Johnny Middleton, later coach, was a vaunted Idaho signal caller. The advent of large enrollments, thinks the general, seems to have lessened the fighting spirit.

"In the old days, two days before the W. S. C. game, there wasn't any school. In those days the players got steamed up, too. I remember Nick Sheridan, who played in 1905 becoming so filled with emotion in his games that he played all through the season with tears streaming down his face.

"We used to play most of our games downtown in the old ball park where the university shops now stand, or sometimes we played in what is now the south side of Moscow in a field called McGregor's Flats.

"Our first Homecoming, 1894, was played in that old ball park. Wade Kirtley was captain that year. That game did not lack in spirit. The crowd surged out on the field and followed the teams up and down the gridiron."

"But didn't the referee kick 'em off?" he was asked.

"Oh, no!" he laughed. "He had too much else to tend to. I remember I almost got hurt as a rabid bunch of W. S. C. fans tried to put me off the field for supporting Idaho too enthusiastically."

Our ways had come to the parting.

"Well," he said as he left, "I hope your cold doesn't keep you away from the game, Saturday."

Fred C. Berry, '29, is auditor, sales manager, personnel manager, and on occasion, sampler, for the Spokane Brewing and Malting company at Spokane.

ENGLISH CLUB HEAD CHOSEN THURSDAY

Catherine Bjornstad was elected president of the English club at the first meeting, which was held Thursday morning. Other officers elected were: Walter Brown, vice-president; Lucille Nelson, secretary; and Gene Ryan, treasurer.

This meeting was called by Dr. G. M. Miller, head of the English department.

Livestock Awards Won For Idaho

Idaho Takes 26 Prizes at Portland Exposition; Husbandry Team Second

Twenty-six first prizes, 13 seconds, two champions, three grand champions, and five thirds are among the awards won by the University of Idaho livestock division at the Pacific International Livestock exposition held at Portland, October 3 to 10.

The animal husbandry team composed of Bob Gardner, Wayman Guthrie, James Key, Walter Schoenfeld, Dudley Tucker, Norval Wardle, and Ralph Jackson placed second in the intercollegiate standing.

Rulon Ricks of the dairy products team was acclaimed second high man in the entire contest. Names of the dairy cattle and products team members were not available Thursday.

The university swine herd, which ranked highest of all competing herds, included a grand champion Poland china female and junior and senior champion females. In the Duroc-Jersey female hog division, Idaho received identical ratings—a grand champion and the junior and senior champions.

The third grand champion award went to one of the university's shorthorn steers, and a shorthorn and hereford steer were both given championship ratings.

Copper Deposits on Cyprus Studied by Fahrenwald

Strange sights met the eyes of Dean A. W. Fahrenwald on his trip to the island of Cyprus in August. He was most interested in the numerous large herds of goat and sheep, the burros and donkeys, the camels, the bicycles, and the ancient churches and monasteries.

Dean Fahrenwald of the school of mines devoted ten days in Cyprus to metallurgical studies of large deposits of copper ore mined and owned by the English and Americans.

Dean Fahrenwald said: "To my surprise, I found there a mine of largely developed tonnage, modern in all respects. History tells us that the word copper comes from the name Cyprus, and that copper was first mined on Cyprus some 3,000 years ago."

The dean left the United States August 8 for an extended tour through Cyprus, Italy, Switzerland, and France, and home from New York by airplane. His chief objective was the island of Cyprus, an English possession on the Mediterranean.

He sailed from New York on the Italian Rex, a ship of 35,000 tons, and reached Naples, eight days later. Here he visited Pompeii, Mount Vesuvius, and the University of Naples.

From Naples he went to Brindisi by train where he boarded the Jerusalem for Cyprus, a trip of three days.

On his return he came by way of Trieste, Italy, Lausanne, Switzerland; and Paris. Dean Fahrenwald stated that some sections of Switzerland and France appealed to him as being the most beautiful seen on the entire trip.

"My return voyage," he said, "was much more pleasant than my trip over, as the weather was much cooler and the English language was spoken more to my liking." He left Cherbourg, September 9 on the Aquatania and stepped on American soil September 15.

President of Phi U Tells of Conclave

At a meeting of Phi Upsilon Omicron, home economics honorary, Tuesday night at the home of Lucille Mills, president, she told about the national conclave, which she attended in Wisconsin this summer. Plans also were made to have a loan fund, with which the students in home economics are benefited.

The honorary will meet on the first and third Tuesdays of the month in the homes of the members.

Upperclasswomen Members

Phi U takes its membership from upperclasswomen who are in the upper two-fifths scholastically of their class. Pledging takes place twice a year. The officers for the coming year are Lucille Mills, president; June Flemming, vice president; Betty Houston, recording secretary; Amber Wolf, treasurer; Mary Short, chaplain; Ethyl Gehrke, chapter editor, and Georgina Howarth, historian. Mrs. Marie Miller is the advisor.

COUNCIL SELECTS NEW TREASURER

Mark Robinson, Kappa Sigma, has been elected treasurer of the inter-fraternity council to replace Winston Goss, Sigma Nu.

Must Give Bond

Under the new constitution adopted by the council last spring, the treasurer must be bonded for \$1,000. The new constitution requires each fraternity to deposit \$50 with the treasurer at the opening of this school year as a permanent interest-drawing fund.

Fines—such as those levied for infringement of rushing rules—will come out of the fund.

Enrollment Swells Since Last Week

Students Come From Thirty Six States and Four Foreign Countries

Every one of Idaho's 44 counties, 36 other states, the District of Columbia, and four foreign countries have collaborated to give the University of Idaho its record-breaking student body of 2,632, according to second-week registration report from the university registrar. Enrollment at the end of the second week exceeded by 64 the total of 2,568 reported at the end of the first week. Registration of graduate students still continues. This is the third successive year the University of Idaho student body has set a new high mark for enrollment.

Of the 2632 students enrolled at the university at the end of the second week, 2130 come from Idaho, 483 from other states, and 19 from foreign countries. Seven counties, Ada, Canyon, Kootenai, Latah, Nez Perce, Shoshone, and Twin Falls, are represented with more than 100 students each.

School of Forestry Famous

California, Illinois, and Washington are the leaders in the out-of-state section. Tabulation of students in this column carries evidence of the fame of Idaho's school of forestry. One hundred and sixty-nine students came from other states to Idaho to study in the university's forestry division.

At the end of the second week Idaho's freshman class numbered 910, the sophomore class 675, the junior class 551, and the senior class 417.

Thomas A. Madden, '26, resigned as Lewis county prosecutor at Craigmont last spring to join E. C. Butler at Lewiston in a new law firm, Butler and Madden.

STUDENT DIRECTORY READY NEXT WEEK

Miss Ella Olesen, registrar, expects the student directory which includes the names, addresses, and phone numbers of faculty, regular and graduate students, to be ready for distribution by the last of next week or the first of the following week.

They may be procured by all those desiring them at the registrar's office.

W.S.C. Game Draws Class of 1926

Alums Depart From Tradition; Will Hold Class Reunion During Homecoming Festivities

The class of 1926 is departing from the tradition of holding class reunions at commencement time and has scheduled its tenth anniversary get-together for Homecoming, reports Ted W. Turner of Boise, class president.

With the Idaho-W.S.C. game the major attraction of the day, members of the class believe they have an ideal magnet to draw a large attendance. The university publications department recently sent Mr. Turner data from its files showing the whereabouts of most of the 244 members of the class. This record reveals that nearly half of the graduates of 1926 reside within driving distance of the university. Turner said it was his plan to correspond with all members of the class regarding the reunion.

Main event on the class of 1926 program will be a reunion breakfast in the new student union building, formerly the Blue Bucket Inn, at 10 o'clock Saturday morning. Turner asks that all members of the class who plan to attend this event notify Miss Helene Haller, social director at Hays and Forney halls, who has charge of local arrangements. Boise will be represented by a sizeable delegation, Turner writes, nearly 20 members of the class residing in the capital city.

Colds Are Result Of Clean Living

Prof. Halversen Explains How Healthy Existence Lowers Resistance to Germs

The clean life led by the students during the summer is the cause of the annual epidemic of colds at the beginning of each school year, declares Prof. W. V. Halversen, head of the health department.

"While the students are at home," he commented, "they get a lot of exercise, breath clean, wholesome air, and don't congregate in large groups. Consequently, they are not exposed to many germs, and the body resistance is lowered because there is nothing to fight. When they come back to school, they are thrown into close contact with many others, and as someone in so many ways has a cold, it spreads rapidly to the other students."

Found Pneumonia Germs

Contrary to popular belief, colds are not caused by one specific organism. Over 130 different germs have been traced as the cause of colds and most colds are made up of several of these kinds of germs attacking the body at once.

"Undoubtedly sometime in the future," continued Professor Halversen, "scientists will learn to differentiate between at least some groups of these 130 germs, and will find a different treatment for each which will be more effective than the general treatment for all cold germs employed at present. In the case of pneumonia, this has already been done.

"About 30 different organisms cause pneumonia, but bacteriologists have grouped them to form four sets with similar characteristics in each set, so that treatment can be made more effectively."
