Hunt for the "oldest salt," that undergraduate now at the university who can claim the earliest strating date, begins today. Sponsored by Tau Mem Aleph, the drive will end Wednesday according to Bernard Schmidt, president of the group.

"We have had queens and sweethearts and best-dressed dogs, Schmidt declared, "but this is recognition for the faithful Idaho student who keeps coming back every year, never losing sight of his goal or miffing the second verse of 'Here We Have Idaho.'"

"We feel such spirit should be rewarded, and so are offering a merchandise certificate for the Varsity and a suitable cup to the "oldest salt" whose name and starting year is dropped into the ballot box in the Student Union building or Administration building by Wednesday," he concluded.

### Linda's Boss To Be Named At Freshmen Dance Tonight

Titled the Linda Hop in honor of "Linda," the 1927 model T Ford which will be given away by President Jesse Buchanan to the holder of the lucky ticket to be drawn during intermission, the dance will be a date affair with women wearing calico or gingham dresses and men wearing sports clothes.

The "Gentlemen of Note" will provide the music for the dance and tickets are on sale in all living groups, the Blue Bucket Inn and at the dance. The person winning "Linda" does not have to be present at the dance but should write his name in ink on the back of the ticket and give it to a ticket salesman or put it in the box provided for that purpose at the entrance to the gym.

Barbershop Quartet Intermission entertainment includes a barbershop quartet and a can-can dance sponsored by the choreography department of dancing under the direction of Miss Patti Utgard. Members of the barbershop quartet will be Dick Garlock, Rich Pennell, Allen Atwood and Gene Babin. Members of the Idaho Student Presidents' conference who are meeting on the campus will be special guests of the freshman class at the dance.

Tinniswood stressed the fact that the school was accommodating a much larger enrollment than formerly and with the same facilities. He emphasized that when the university is able to accommodate all applicants for admission, the challenge to the educators will have been met.

This was the 11th annual convention of the American Society for Engineering Education. Approximately 60 members attended.

Fashions take top billing in the May issue of Blot, appearing today, Claire Hale, fashion editor, says.

Five pages are devoted to articles on men's and women's clothes for the summer and fall months, and are illustrated by photographs of student models.

Information for the articles was obtained from a survey conducted by the fashion and advertising staffs of the magazine among 50 leading clothing stores in Idaho and Spokane.

### Student Body Execs Convene

Other events of the afternoon included discussion led by Fredekind on the problems of incoming presidents; discussion on the relation of the student to the administration, led by Boyd Hansen, ASUI vice-president; and a review of the National Students Organization presented by Paul Stowell of Ricks College.

The group resolved that if all possible, Idaho schools will send a delegate to either the regional or national meeting of the National Students Organization.

The conference is continuing its session throughout today and will conclude tomorrow with a luncheon at the Blue Bucket. Discussed today will be veterans' problems, students' co-ops, and social problems. A dinner will be held this evening at Johnnies Cafe at which Dr. W. Steffens will be guest speaker.

A couple dozen Frosh, led by Hank Gabala and John Bideganeta, escorted the pair up the hill from the Idaho club and tied them hand and foot to the poles.

### The Golden Fleece by Jason

Let the dead past bury its dead! That, in effect, was the Arbitration Board's answer to a 50-name petition presented to it asking that the recent run-off election for ASUI election president be declared illegal.

Although Jason can't name him as the originator of the protest, Sylvan Jeppesen, once an Independent politico of magnitude, presented the petition to the Executive Board last Tuesday night.

Had the request in the petition been given the nod, president-elect Smith would have been ex-president-elect in very short order.

Not Enough Time The petitioners hinted their claim of illegality on the provision of the constitution which says that notice of an election shall be given not less than one week before polling takes place.

The election was held on the sixth day after notification. Two factors entered into the decision by ASUI President Norman Fredekind and Election Chairman Virginia Geddes to hold the election before the seven days had expired.

If the election had been held on Wednesday it would have been the third Wednesday the board had missed their classes. The president and president-elect were scheduled to attend the convention for student body heads in Vancouver on Friday morning.

Speed-up O.K. Only two candidates were entered in the election and their permission was received to advance the date of the showdown, even though the provisions of the constitution were set aside.

Smith, as you know, won, and many on the other side of the fence from the new president, attribute his victory to the refusal of the disgruntled Greek party to cast their ballots under specific instructions from the party leaders.

The executive board passed the petition right on up to the Arbitration Board composed of the university president, the executive board faculty advisor, Dr. Walter Steffens, and the ASUI president.

Says the Board They lost no time getting together and this is what they found:

After considering all factors pertaining to the above question, the Board of Arbitration unanimously finds that said election was conducted in substantial compliance with the ASUI constitution and therefore rules that the election is valid and that Walter Smith, having obtained the majority of votes cast in the run-off election, is hereby declared to be duly elected president.

That's the court of final appeal. Walt Smith can breathe easy now, and Jason will bet that Smith doesn't care whether the petitioners breathe or not.

On Their Toes Some may criticize the petitioners for grasping at a technical straw. Jason thinks it was a little far-fetched, too. But, at the same

## 'Showcase' Shows The Way

Wednesday night's "Campus Showcase" brought something new and different to Idaho. The audience witnessing the hour-long, joke-packed musical show responded enthusiastically and gave the visitors from across the line a warm welcome.

The attempts Idaho undergrads make at producing variety shows occur during feeble, infrequent class assemblies. Excluded from this category are the fine annual shows of the "Sing, Sing, Sing" type.

If Johnny Jones ever had any secret talent as an M.C. it remained hidden because he had to go on a field trip the year his class held an assembly.

Needed: One "variety" club, including as members students good enough to perform before an audience. Activity points, or perhaps even scholastic credits for participation. At least one hour-long show a month, presented in conjunction with KUOL. A capable student acting as producer of the shows and as president of the club.

The KWSC visit was a challenge. Idaho can do just as well, if not better. Writers, jokesters, idea-men, arrangers, musicians, actors—put your heads together and hatch up a program for the entertainment of next fall's audiences and for your own show experience.

## TIPS FOR VETS

By GEORGE

The legislative log-jam in the House that has been blocking action on vital vets' bills for weeks has finally been broken by a super-secret "showdown" conference between Republican leaders and majority members of the House Committee on Veterans Affairs. The conferees were all pledged to strictest secrecy and during the meeting planned the strategy to be used in the house on vets' legislation for the next two years.

No cuts in existing veterans' benefits or appropriations will be made by the 80th Congress in the next two years at least. Almost every other phase of government activity is slated for a cut by the Republican economy axe.

A start on new vets benefits will be made this year. However, the trump cards will be saved until next year when vets' benefits will do more good politically. Legislators are not losing sight of the fact that over 14 million votes by veterans could easily swing the big elections of '48 in their favor.

Making Terminal Leave Bonds cashable on an optional basis is also planned by Republican leaders for this year. The program also calls for bills to raise the monthly income ceilings on combined subsistence and wages of job trainees and students.

Raise of monthly subsistence allowances to vets in college on a token basis is planned for this year. It was not definitely decided how much the allowances would be raised and it is possible that only the figure for married vets will be raised.

## Law College Shows Valuable Volumes

College of Law participated in Visitor's Day by showing several displays of books in the law library. The most unusual display consisted of several original editions of early treatises on law and political science.

Notable books shown were Littleton Tenures, which is an early English treatise on real property published in 1627; Mobbes' Leveathan, published in 1651; an early history of the Common Law, issued in 1779; a work on the law of contracts, published in 1790; and a treatise on real property which appeared in 1819. These books are ordinarily kept in locked cases because of their comparative rarity and value.

The fourth exhibit consisted of books for leisure reading. This exhibit will be permanently on display in the law library.

## Dear Jason

Dear Sir: After reading the editorial entitled "Professors Have Problems," in which it was stated that "An instructor in any school, from this time forward, must study and work almost as industriously as the student," I just had to sit down and write a note of congratulations to the writer.

Naturally with so few students as we have here at the present time, and the magnanimous buildings to take care of them, it does burn one to think that the instructors are of so low caliber that they can't do enough work to keep up with their students.

Since coming to Idaho, I've had occasion to wonder what some of my instructors did with all of the money they made, and the free time they have been taking. But now I see the truth has come light. Yes, I heartily agree with the writer. Idaho's instructors will have to bear down in the future.

Glenn Cushman.

War Stories: Clifford Dabler, Instructor in Political Science, was recently reminiscing about his law career in the armed forces. "Now I remember the first time I ever had a WAVE on trial."

## Munitions Problem Solved; Town Urchins Get Thrill

peaceful and quiet in the vicinity of the Kappa Sigma and Sigma Alpha Epsilon fraternity houses. At 9:15, all bedlam broke loose. Six potential juvenile delinquents descended upon the industrious students of the two houses. They were armed with every type of "Fourth of July" weapon known to boys. World War III was here.

Before the attackers could make good their getaway, the two fraternities used a quick pincer movement, which resulted in the capture of six of the noisemakers.

Nearly 80 members of the two houses led their six prisoners into the informal room of the SAE house to the accompaniment of "String 'em up!" "Get the tar and feathers!" "Hang them!" "Call the police!" "Where is the turpentine?"

Thoroughly subdued, each of the six boys was led from the informal room to an adjoining room one at a time. Out of sight of his partners in crime, the individual boy was asked gruffly by Don Cushing, "How loud can you scream?"

All of the boys readily decided that they could scream "awfully loud." They were then told that they were to start screaming and not to stop. Fearing heinous torture for failure to scream loud enough, they pierced the air with heartrending shrieks.

While they were screaming, Jack Steneck beat the sole of his shoe with a paddle. The noise resounded through the open door of the room to the other awaiting victims.

When all of the six urchins had been properly chastised in this manner, they were given a bottle of pop to soothe their wounded pride.

When leaving the house, the youngest of the six called back, "Good night and thanks for the pop."

# Dr. White Studies Mesquite Gum

An improved method for the production of the rare sugar arabinose is reported in the March issue of the Journal of the American Chemical Society by Dr. E. V. White, professor of forestry at the University of Idaho.

The starting material used is mesquite gum, the resin-like exudation of the mesquite tree which grows abundantly in the southwestern states and which contains more than 50 per cent of this sugar in a combined form.

The same issue contains a second article by Dr. White dealing with the chemistry of mesquite gum. It is expected that these studies on mesquite gum will be completed in a series of five articles.

# Gridders Finish Tomorrow In Battle Royal

## Reds vs. Whites As Howell Ends Practices

There will be a battle royal in Neale stadium come Saturday afternoon. Coach M. F. (Dixie) Howell, head coach of the Vandals, has named two squads—the Reds and Whites—to meet in a football civil war tomorrow afternoon that will mark the conclusion of the Vandals' 30-day spring training period.

At the beginning of this week the two teams, complete with managers and the coaching staff, started holding their workouts independently. Howell has reported that much enthusiasm and spirit has been shown in view of the oncoming intra-squad tilt.

Coach Howell has reported that he will serve only as an "impartial observer." Howell stated that actual game conditions will be observed during the tilt. Quarterbacks will be in charge of their teams on the field and all signal calling will be left up to them.

Injuries to several key men will probably prevent many potential starters from getting into the tilt. Also, these injuries have made it impossible for the respective coaches to announce any starting line-ups.

## Mural Dope

With only two intramural events left on the campus calendar, the Sigma Nu's maintained their drive for the intramural sports trophy by placing a fifth in softball. The up and coming Sigma Chi's and the Delta Chi's are both pressing the leader hard, whittling down the comfortable lead which Sigma Nu has held most of the season. The Sigma Chi's are only 65 points behind.

Either of the three teams mentioned may, by placing high in the remaining track and golf, win the cup. The results of the golf tournament will be available next week. The track meet will be next Tuesday, Wednesday and Thursday.

In softball play-off results this week, the Kappa Sigs bowled over the Phi Deltis, 7-3, to take the fraternity championship. Other games were: ATO's 20, Fijis 0; Sigma Chi 10, Delta Tau Delta 5; Sigma Nu 11, Delta Chi 2; Willis Sweet, team two 17, Chrisman 16; Willis Sweet, team one 15, West Sixth 6; and Lindley, team one 15, Vets 15 (tie game).

## Vandals May Stop Huskies' Bid For Division Pennant

Idaho's baseball Vandals take on the pennant seeking Washington Huskies in Moscow on Friday and Saturday in two games which could mean now-or-never for the Seattle squad.

The rampaging Huskies, with two consecutive victories over the Oregon Ducks under their belt are currently tied for first place with the Cougars of Washington State.

**Lefty to Go**  
"Lefty" Auer, who has two of Idaho's three wins to his credit, will get the mound assignment in the first game. Arnold Beebe will probably get the call for the second, with John Robinson, John Dailey, and Bob Metzger standing by for the relief roles.

The remainder of the lineup will be the same as in the Oregon series: Frank Viro, catcher; Don Fodrea, first base; Ossie Kanikke-

berg, second base; Cliff Masingill, shortstop; "Tobe" Masingill, third base; George Huffman or Joe Whitcomb, left field; "Chuck" Couper, center field; and "Buck" Bybee or Fred Klink, right field. Huffman and Bybee perform against right-handed hurlers, and Whitcomb and Klink against southpaws.

The Vandals have been concentrating on infield and hitting practice during the past week, and according to Coach Guy Wicks, have shown vast improvement since early in the season.

Following the Washington series this weekend, the Idaho nine will close out their season in two games in the Washington State Cougars—the first of the series being played in Pullman on May 23, and the final in Moscow on May 24.

## Netmen Drop Set To Cougars, 7-0

The Idaho Vandal netmen fell before a smashing Washington State college tennis team on the local courts last Wednesday.

The Vandals failed to gain a single victory, as the Cougars swept seven straight matches to top the meet.

**The results:**  
Singles—Brasch, WSC, defeated Bulla, Idaho, 6-1 6-0; Evett, WSC, defeated Thome, Idaho, 6-2, 6-0; Strankman, WSC, defeated Nelson, Idaho, 6-1, 6-2; Kittleson, WSC, defeated Bretz, Idaho, 6-1, 6-2; and Talmadge, WSC, defeated Chamberlain, Idaho, 6-2, 6-1.

Doubles—Brasch-Evett, WSC, defeated Bulla-Thome, Idaho, 6-2, 6-1; Soth-Talmadge, WSC, defeated Nelson-Gartin, Idaho, 6-3, 6-3.

## Improved Vandals Meet Strong Montana Team

The University of Idaho track team will meet the strong Montana Grizzlies at MacLean field tomorrow afternoon in the last home meet of the season prior to the Northern division championships at Eugene next weekend.

Although the Vandals dropped a meet last Saturday to Washington, they expect to give the Montanans a good battle. Coach Stan Hiserman expressed the fact that the whole squad has shown considerable improvement. Several of the Idaho tracksters who finished out of the money against the Huskies, turned in their best individual performances to date.

**Better Marks**  
Along with Dick Armstrong, who bettered his previous times in both dash events, and Max Lattig, who boosted his pole vaulting to 13 feet, freshman Norm Farnham traversed the half mile in 1:57.6 minutes, to finish third.

Dick Wilcomb, although placing second to Washington's Fenema, hurled the javelin 185 feet, topping his other marks.

Making his best run this season, Bill Mathews garnered a third for Idaho in the quarter mile, finishing in 50 seconds flat.

Dean Lewis, in taking first in the shotput against Washington, heaved the weight 147 feet, 3 1/2 inches, a good two feet more than any of his other tosses.

**Formidable Foe**  
In Montana, the Vandals are up against a formidable foe with all around strength in both track and field events. Paced by versatile Dan Yovetich, who is entered in both dashes and hurdles, and Gene Shookely, broad jump, 100 yard and 220 yard dash, the Grizzlies were barely edged by Washington State, one of the strongest teams in the Northern division.

## Lewiston Sweeps 10 Firsts To Capture Meet

A powerful Lewiston high school track team walked away with all honors in the Northern Idaho district track meet held in Moscow yesterday.

Lewiston completely dominated the field as the preps captured 10 firsts and seven seconds to garner 94 points. Moscow high school, with five first place winners, finished second with 46. Potlatch had 11 1/2, Bovill 4, and Lapwai 2 1/2.

Two men, Loren Lafoe of Moscow and Blair Harrington of Lewiston tied for top point honors with 10 each. Lafoe garnered his points by virtue of firsts in the 100 and 220-yard dashes. Harrington came out on top in the weight divisions as he won firsts in both the javelin and shotput.

No meet records were broken by the preps but Lafoe turned in fairly good times in the dashes. He toured the century in 10.3 and the 220 in 22.5.
