## Angling Against Ankles

In the Gay Nineties if a man wanted to compliment a girl on her figure about the only words society allowed him to say were "My, Cynthia! Such a well-turned ankle!"

Then came the era of the short hob and the flapper and women's skirts began to assume the half-mast position. Man decided the dimpled knee was a thing of beauty to behold.

He found that a pair of pretty legs served as a barometer of advancing old age. If he could no longer appreciate a pair of well-filled nylons he may as well confine himself to his slippers and rocking chair and be done with it.

Alas! Today Man's barometer is fast deserting him. The dictators of style and fashion are seeing to that. Skirt hems are dropping faster than Russian votes in the Security Council. The dimpled knee will soon belong to history.

And there is no end in sight to his dilemma. Soon, the experts on the situation predict, the bustle and the whalebone corset will be as much in vogue as they were in the nineteenth century.

"Hey, Cynthia! Hop into my Town and Country and we'll buzz the Village Green!" —S.H.G.

## Registration Made Easy

There is no need whatsoever for dreading registration at the University of Idaho. Those 29 frosh who were trampled last year during the hectic moments will not have died in vain if we can only profit by their mistakes. The main thing is to have patience. For example, if you wait in line all morning and, upon reaching the door, have it slammed in your face, casually strum your fingers on the wall and whistle a few bars of "Smoke, Smoke, Smoke," or you may nonchalantly brush the dust off your shoulder. (On the other hand you may kick the slats out of the door in a mad rage.)

Registration can be real fun if you go into it in the right frame of mind. Be friendly to your fellow students and if they want the place in line in front of you remember it is better to give than to receive. (Then give him a right uppercut and dislodge his bridgework.) Now comes the acid test which will determine whether you can really take it. You find you have left your permit to register home. So what? You have made innumerable friends during your four-hour wait in line, and you remember the famous Idaho friendly spirit and immediately burst out into smiles. You're a good sport and you love your fellow man. How jolly the 15-block stroll across town. (Along the way you may pull the wings off of flies, kick stray dogs, and trip old ladies.) —G.D.

## Research Projects Announced By Pres. Buchanan

Two new research projects under the University of Idaho's special research program were announced this summer by President J. E. Buchanan following formal approval by the board of regents. Both are in mining, one dealing with the metallurgy of antimony and the other on how finely ground mineral particles behave when washed down slopes.

"Idaho is the largest producer of antimony in the United States and there are plenty of unsolved problems available for study in its metallurgy," explains Dean A. W. Fahrenwald of the school of mines. "Any contributions in this field would be particularly advantageous to Idaho's industry. In 1943, the Yellow Pine mine at Stibnite produced 77 percent of our domestic antimony."

The second study will secure basic data on the behavior of minerals of different particle size, shape, and specific gravity when washed down traveling, inclined surfaces. Information of this nature is needed, Dean Fahrenwald explains, to design new types of classifying and concentration machines to handle large quantities of finely ground ores. Both of the new projects will be cooperative undertakings between the university school of mines and the Idaho state bureau of mines and geology.

**GYPSUM IMPORTANT**  
 A deposit of gypsum, located on the Snake river just north of Weiser, is of considerable economic importance, according to Dean A. W. Fahrenwald of the university school of mines.

**CONTROL RINGROT**  
 Ringrot disease, which suddenly swept into Idaho a few years ago and loomed as a serious threat to the state's big potato industry, has been successfully corralled.

## Mines Book Out

Possible methods of recovering manganese from the low grade sandstone deposits of Payette county are discussed in a new pamphlet issued by the Idaho bureau of mines and geology, announces Dean A. W. Fahrenwald of the school of mines, director of the bureau. Author of the pamphlet is L. S. Prater, bureau metallurgist.

## RADFORD WINS SCHOLARSHIP

Grant Radford of Preston was the first winner of the annual \$250 scholarship for an entering freshman at the university provided by the First Trust & Savings bank of Moscow. Radford was selected from outstanding high school graduates in the state with high scholastic ability and character.

## MACFARLANDS HELP AGGIES

L. D. McFarland and Mr. and Mrs. J. R. McFarland, Sandpoint who are noted for the work they have done in improving the breed of Aberdeen-Angus, cattle gave \$2,000 to the college of agriculture for livestock betterment this summer.

## SPOKANE CO. GIVES \$2,000

Armour and company of Spokane recently donated \$2,000 for a swine progeny testing project now underway at this university.

## VALUABLE TIMBER CITED

Dean D. S. Jeffers of the school of forestry stated recently that Western White Pine is Idaho's most valuable timber species.

Patronize Argonaut Advertisers

## Offices Moved To New Rooms

Many Idaho students have been confused by changes in office locations made this summer to facilitate use of additional floor space made available by the completion of temporary buildings.

The Placement Bureau office, and the offices of the school of education have been moved to the second floor to allow expansion of the registrar's office. Dean Weltzin, head of the school of education, now has his office in Ad 207, while H. H. Campbell, placement director, is in Ad 204. Guy Wicks, Field Agent, also shares room 204.

A board of regents meeting room occupies one of three rooms on the first floor vacated by the school of education offices. The room is to be used as a committee meeting place when not needed by the regents. L. C. Warner, purchasing agent, occupies the third room.

The department of English offices, formerly located on the second floor of the Administration building are now housed in Temporary Classrooms 2 and 3. The Philosophy offices are also in the Temporary classrooms.

Dr. L. C. Cady, recently appointed executive secretary of the University Research Council, now has his office in Ad 202.

## Legend Untrue Says Brosnan

While fishing on Priest lake in northern Idaho, Father E. J. Flanagan of Boys Town, Neb., became intrigued by the name of the lake. There are many legends about the lake, and the most persistent is the "Father Kaniku" as the Indians called him, was drowned there while crossing the lake in a storm to aid a stricken Indian, and his body was never recovered. Father Flanagan wanted to know if the legend were true.

The answer prepared for him recently by Dr. C. J. Brosnan of the history department points out that, although the legend is a beautiful one, it is not borne out by facts.

"Father Kaniku" was actually Father Johann Philipp Roothaan of Holland. He was a friend of Father Peter J. DeSmet, the Belgian missionary priest who traveled extensively throughout the Idaho Panhandle between 1840 and 1850. Impressed by the beautiful, unnamed body of water in what is now Bonner county, Father DeSmet named it after his friend, calling it Roothaan lake. This name was too difficult for many to pronounce or spell, however, and the waters eventually became known as Priest lake.

Father Roothaan never saw the lake named after him. He died in Rome in 1853.

## U. Rams Top \$1,000 Mark

At the 32nd national ram sale, at Salt Lake City the last week in August, which saw world price records for purebred sheep topple right and left, university entries contributed to the topping, reports C. W. Hickman, head of the department of animal husbandry.

Two of the eight Suffolk rams selling for over \$1,000 apiece were bred and developed by the university. It was the first time in the history of the country's biggest purebred sheep sale, sponsored by the National Wool Growers association, that so many Suffolk rams passed the thousand-dollar mark. One of the university rams went to Floyd T. Fox of Silverton, Oregon, for \$1,250; the other to Charles Redd of La Sal, Utah, for \$1,025. The university's top pen of five yearling Suffolk went to Dave Hagenbarth, Spencer, Idaho, at \$460 apiece.

## University Offers Elementary Course

Program for the training of elementary school teachers will be renewed this fall, according to Dean J. F. Weltzin of the school of education.

This training had been offered by the school until a few years ago but was discontinued when a division was made between normal college and university training.

Some of the other new courses being offered this semester are as follows:

Principles of elementary education, methods and materials in social studies, methods and materials in language arts, methods and materials in arithmetic and science, and observation and student teaching of elementary schools.

## Buildings Erected For Office And Living Space

President Buchanan's "long range campus plan" has crystallized and new buildings on the campus are in construction and in the planning stage.

An additional 25,000 square feet of office and classroom space will be available this fall in temporary buildings moved here from Baxter hospital in Spokane. Other new office space will become available later in the year.

Twenty-five prefabricated houses have been rushed to completion south of Hays and Forney halls. "South Hill homes," name of the new unit, is to alleviate the critical faculty housing squeeze.

A 75 by 25 foot temporary war-surplus building with a full basement is being erected to serve until permanent structures can be provided for the department of veterinary science.

**Home Ec Building**  
 The board of regents authorized the planning of a future home economics building in July. The work will be done under a federal advance planning grant of \$7,140 made a year ago.

The board also granted permission to the Washington Water Power company to install and maintain a 4,000 volt electric distribution station on the campus. The location of this station is on the hill behind Morrill hall.

Bids on a steam generator, the first step in the heating plant modernization and expansion program authorized by the last session of the state legislature, were called in August. The enlarged heating plant is expected to be in operation November 1, 1948.

## Handbook Out For New Students

The 1947-48 ASUI Handbook, combined this year with the Coed Code, has been printed and will be available for entering freshmen and new students in the registration line.

The ASUI constitutions, traditions, and organizations are printed in the book along with "tips" for freshmen and the Idaho songs. Art Riddle edited the edition aided by Janet Billmeyer and Dorothy McClun. Francis Rhea was editor of the Coed Code with Helen Moulton and Mary Sue Tovey on her staff.

## Students Present Summer Comedy

"George Washington Slept Here," called the outstanding feature of summer school entertainment, was presented by the dramatics department July 17.

Ed Dalva, Carleen Randall, Julius Peterson, Barbara Bedwell, Bill Davidson, Bob Booth, Eloise Deobold, Marianne Sherman, Dee Humphrey, Norman Carothers, William Allen, Willard Barnes, Edith Stough, Virginia Rosauer, and Philip Johnson were cast by Miss Jean Collette in the George S. Kaufman comedy.

"Eavesdropping again," said Adam, as his playmate fell out of the apple tree.

## Four Finish Work

Students completing law courses during the summer session just past were William West Barrett, Raymond Greene, Allan P. Foster, and Herman J. Rossi, Jr.

They will receive their degrees at the graduation exercises next spring.

## ROT C Offers Air Training

Applications may be made now for admittance to the first year, advanced course of the Army Air Force unit established in connection with the ROTC unit this summer.

Three additional officers have been detailed by the War Department as instructors for the program and are on hand for consultation now.

The program will consist of a two-year advanced course with the elementary course being common to all students. Students will study specialized subjects and will be given flying instruction at summer camps.

Requirements are the successful completion of the elementary ROTC course, or, if veterans with one year's service, an age maximum of 27 years, the completion of survey and screening tests as may be prescribed, the meeting of Army physical requirements, and the selection by the professor of military science.

Veterans receiving disability benefits from the federal government are eligible for enrollment provided they can meet the physical qualifications.

They will receive their degrees at the graduation exercises next spring.

## New Fraternity Is Organized

Preliminary organization plans of a new university fraternity group, the Phi Kappa Tau club, are still being shaped by local organizers, C. J. Hamilton, a member of the national fraternal group, Phi Kappa Tau, said yesterday.

Starting out as a local group, the fraternity hopes to become affiliated with the national organization later in the school year. Membership plans are under consideration this week.

The fraternity will be housed in the former Emerson apartment building at 730 Deakin avenue, vacated this summer by its former occupants. If it obtains a charter as a chapter of Phi Kappa Tau, it will be about the fortieth one to join the organization, founded in 1808 at Miami university.

A chapter of the group was inaugurated on the Washington State college campus in 1924.

## Hansen Returns From Denmark

"In all Denmark, I did not see a single dairy plant which would come up to our leading plants in Idaho," said Dr. Henry C. Hansen, who returned this month from a trip to his native land to attend the fourth International Congress of Microbiology at Copenhagen.

Butter was almost impossible to obtain in the country with dairying still the leading industry. Virtually all butter is exported to Britain.

Hansen came to America at the age of 19 with \$110 in his pocket. After working on Idaho farms for 10 years, he came to the university in 1921 and obtained his doctorate at Iowa State college in 1937.

Photographer: "Do you want a small or large picture?"  
 "A small one."  
 "Then close your mouth, please."

## Heard . . . Or Seen

Scream! Mamie: Sad indeed, yesterday noon, was ATO Lee Balderston, who didn't get a rush bid from any of the sororities. "Baldy" showed his grief by wringing tears from his eyes while sitting on a Deakin street curb.

Not again: Delt Bob Williams came back with another change of his major. He started out in 1942 in forestry, has since majored in journalism, music, philosophy, psychology, and is now into pre-med. He's getting a well-rounded education.

Soda jerks: Having a tough time yesterday afternoon while working behind the fountain in the Bucket was Marian Hartwell, DTG, who couldn't escape the ankle-grabbing tactics of co-workers Norm McHan and Jack Maguire.

Simply pick up your telephone and you can route your voice through any one of thousands of central offices—some with dial mechanisms so complex they stagger the imagination, yet so efficient they seem to work like magic—others staffed by competent, courteous operators whose standards of work have long been a fine tradition.

You command, in effect, millions of miles of telephone wire and cable.

You can direct your call—one of some 110,000,000 that will be made today—to any one of some 53,000,000 telephones here and abroad.

The operation of this vast system is big business. It is a complex, many-sided business in which thousands of college trained men are working in their chosen fields—development or research, engineering planning, accounting or statistics, public contacts, supervision of operations or other phases of management. These men have found highly interesting and rewarding careers.

# Summer Vacation Features Both Weddings And Engagements

## Many Couples Announce Summer Marriages

Many summer weddings of Idaho students were the culmination of romances which originated on the campus as evidenced by the following reports.

### Ruckman-Nielson

Mr. and Mrs. V. H. Ruckman of Moscow announced the marriage of their daughter, Anne, to Merrill L. Nielson, August 13 at Moscow.

The bride attended the university where she was a member of Delta Delta Delta and the groom is affiliated with Phi Gamma Delta. The couple is making their home in Moscow.

### Churchill-Hendren

Mr. and Mrs. Herbert W. Churchill announced the marriage of their daughter, Merlyn of Gooding, to Robert L. Hendren, Jr., of Boise, June 14.

Mrs. Hendren was a member of Gamma Phi Beta and Mr. Hendren was affiliated with Sigma Chi. The couple is now living in Boise.

### Meagher-Farley

At a ceremony which was performed in Boise June 12, Betty Meagher, daughter of Mr. and Mrs. Neil Bernard Meagher of Boise became the bride of William F. Farley of Mountain Home.

Mrs. Farley is a member of Gamma Phi Beta and Mr. Farley is a Delta Tau Delta. They are living in Moscow where Mr. Farley is attending the university.

### Nelson-Evans

The marriage of Miss Lucille Nelson, daughter of Mrs. John W. Nelson of Spokane, and Blaine F. Evans, son of Dr. and Mrs. Philip Evans, was solemnized at Grace Lutheran church August 25.

The bride is a graduate of the University of Idaho where she was affiliated with Kappa Alpha Theta. Mr. Evans is also a graduate of the University of Idaho where he was affiliated with Phi Gamma Delta. The couple will live in Cambridge, Mass., where Mr. Evans will take graduate work at Harvard.

### Adams-Spofford

The wedding of Frances Adams, daughter of Mr. and Mrs. William C. Adams of Boise, to Thomas A. Spofford of Nyssa, Ore., took place June 15 in Boise, Idaho.

The bride was a member of Gamma Phi Beta and Mr. Spofford is a Delta Tau Delta. Mr. Spofford is attending the university and the couple will make their home in Moscow.

### McMahon-Delana

Mr. and Mrs. A. D. McMahon of Jerome announced the marriage of their daughter, Joyce, to Sumner Delana, son of Mr. and Mrs. E. S. Delana of Boise, on August 10.

Mrs. Delana is a member of Gamma Phi Beta and Mr. Delana is a Sigma Chi. The couple now live in Moscow where Mr. Delana is attending the university.

### Jenkins-Murphy

Mr. and Mrs. Foster M. Jenkins announced the marriage of their daughter, Shirley, of Casper, Wyo., to Bates Murphy of Boise. The wedding took place September 1 in Boise at the First Presbyterian church.

Mrs. Murphy attended Casper schools and was graduated from University of Nebraska in June. She is affiliated with Alpha Xi Delta sorority, Mortar Board and Phi Chi Theta, women's business honorary.

The bridegroom is studying chemical engineering and is a member of the Sigma Chi fraternity.

### Taylor-Goldsmith

At a ceremony performed September 7, Miss Birdeen Taylor, daughter of Mr. and Mrs. George M. Taylor of Boise, and Warren H. Goldsmith of Los Gatos, Calif., were married.

Miss Taylor is a graduate of Boise high school, of Boise Junior college and the University of Idaho. Mr. Goldsmith was graduated from high school in Nevada City, Calif., and attended the University of California agricultural school, Oregon State college and University of Idaho. They plan to make their home here in Moscow.

### Robinson-Pyper

The marriage of Miss Nancy

## Projects Total 145 In Year's Research

A preliminary research inventory at the University of Idaho by Dr. L. C. Cady, executive secretary of the university research council, showed 145 projects during the year ending June 30.

Largest research program is in the agricultural experiment station which reported a total of 122 projects at the beginning of the year, several of them under the special research program authorized by the last session of the state legislature. The forestry, wildlife and range management experiment station had 11 projects, the school of mines cooperating with the state bureau of mines and geology had seven projects, the engineering experiment station four projects and the school of business administration one. The business project, in cooperation with the state chamber of commerce, is a statewide analysis of Idaho's income structure.

## Teachers Consider Home Ec Problems

Idaho State Home Economics teachers conference was held at the university July 28-August 1. Dr. Virginia Cutler, director at Utah, and Mrs. Lucille Fee, state supervisor of Home Economics for Colorado, were the leaders of the conference. Arrangements were taken care of by Miss Margaret Ritchey, Miss Lucille Magruder and Mrs. Julia Harrison.

Brill, daughter of Mrs. Bernard Brill of Lewiston, to Bernard Ryan, son of Mr. and Mrs. Michael Ryan of Lewiston, was solemnized in the St. Stanislaus church August 15 in Lewiston.

The bride attended school at the University of Idaho where she was affiliated with Delta Gamma sorority. Mr. Ryan also attended the university and was a member of Alpha Tau Omega.

The couple is residing in Spokane where Mr. Ryan is employed.

### Hickman-Meyer

Mr. and Mrs. C. W. Hickman of Moscow announced the marriage of their daughter, Margaret, to James Meyer, son of Carl Meyer of Fenn, Idaho, August 21 in St. Mary's Catholic church.

Mrs. Meyer is a University of Idaho graduate and a member of Kappa Kappa Gamma. After three years in the marine corps as a first lieutenant in the Pacific theater, Mr. Meyer graduated from the University of Idaho in 1947.

### Landers-Hinderlider

At a ceremony performed June 1 Miss Esther Landers, daughter of Mrs. Esther Landers, and Robert Hinderlider, son of Mr. and Mrs. Robert Hinderlider, all of Boise, were married.

The bride is a graduate of the University of Idaho where she was a member of Kappa Alpha Theta. Mr. Hinderlider attended the University of Idaho and was affiliated with Sigma Alpha Epsilon. They plan to make their home here in Moscow.

### Dempsey-Humphreys

Miss Margaret Jane Dempsey, daughter of Mr. and Mrs. Ward L. Dempsey, and Fred Calvin Humphreys, son of Mr. and Mrs. Fred Humphreys, all of Grangeville, were married in Grangeville at the Federated church, June 27.

The bride graduated from the University of Idaho and was a member of Kappa Alpha Theta. The groom attended the University of Idaho and was affiliated with Sigma Alpha Epsilon. They will reside in Moscow until Mr. Humphreys completes his studies.

### Brill-Ryan

The marriage of Miss Barbara

## Nielson Attends Refresher Course

Miss Elsie Nielsen, assistant professor of home economics, attended the refresher course on textiles and testing of the U.S. Testing Company Inc., Hoboken, New Jersey, July 7-25. Lectures, demonstrations and practice sessions covering all phases of textile analysis and related merchandising were conducted by a commercial laboratory. The work of the major divisions were represented by physical testing, tests on raw materials, yarns and fabrics; microscopic inspection to determine origin and sellrelar structure of natural fibres; and demonstrations on chemistry, bacteriology and engineering, problems related to textiles.

The members of the group included university and college instructors from different parts of the U.S.

## Hays Hostess Dies Of Heart Attack

Mrs. Della Atkinson, who had been hostess at Hays hall for the past five years suffered a heart attack and passed away suddenly in Clarkston, Washington on August 21. She was visiting friends there at the time of her death.

Mrs. Atkinson was a graduate of the university and was a member of the Delta Gamma sorority and P.E.O.

Mrs. Atkinson's position at Hays hall is being filled by Miss Evelyn Sheehan of Salt Lake City, Utah. She is attending the university and will receive a degree in February. Miss Sheehan was assistant hostess under Mrs. Atkinson in 1945 and 1946.

Mrs. Harriet Hankins of Spokane is the new housemother at the Alpha Chi sorority. She replaced Mrs. Ruth B. King.

Mrs. June Larson of Boise has accepted the position of housemother at the Delta Gamma house.

She was only a Spaniard's daughter, but she had a beautiful Pyrenees.

## Students Announce Engagements

Long summer months climaxed campus-born romances for several Idaho couples with announcements of engagement and plans for forthcoming nuptials.

### RHEA-BEIER

The engagement of Miss Frances Rhea, daughter of Rt. Rev. and Mrs. Frank Rhea of Boise to Richard Beier, son of Mr. and Mrs. H. Beier of College Park, Md., was announced September 2 at a luncheon given at the Owyhee hotel in Boise.

Miss Rhea will graduate from the University of Idaho in February and is a member of the Kappa Kappa Gamma sorority and president-elect of Mortar Board. Mr. Beier was a member of Beta Theta Pi fraternity.

### GALEY-HON

Mr. and Mrs. Frank Galey of Boise announced the engagement of their daughter, Nadine, to Stanley Godecke of Minden, Nevada. Miss Stanek resides at Riden of their daughter, Miss Romaine

## Magruder Attends Home Ec Confab

Miss Lucille Magruder, associate professor of home economics, attended the American Vocational Association Research Workshop at Colorado A. & M. College, August 11-23. There were 14 states represented at this meeting and the representatives were studying the returns from their own states on the factors which affect the supply of home economics teachers. States represented were: Arizona, Arkansas, California, Colorado, Idaho, Montana, New Mexico, Nevada, New York, North Dakota, Ohio, Utah, Washington and Wyoming.

Some case studies are being made on the job satisfaction of the lower and upper fourth of teachers for the state of Idaho. Since it wasn't possible to complete this study during the two weeks time it will be carried on during the year and results will be reported when further study has been made.

Galey September 3 to William Arnold Hon, son of Mr. and J. J. Hon, also of Boise.

Both Miss Galey and her fiancé were graduated from Boise high school in 1943. She graduated from the University of Idaho in June where she was affiliated with Delta Gamma. Miss Galey was a member of Theta Sigma, journalism honorary and was named in the 1947 edition of Who's Who in American universities.

Mr. Hon served three years in the army, and is now attending Stanford university where he will be a junior and is a member of Theta Chi fraternity.

### HAMPTON-SCHARNHORST

Mr. and Mrs. R. Hampton of Genesee, parents of Marie Hampton, Delta Delta Delta, have announced their daughter's engagement to Dick Scharnhorst of Genesee. The wedding has been tentatively set for November.

### STANEK-GODECKE

Mr. and Mrs. James J. Stanek of Orofino announce the engagement

of their daughter, Nadine, to Stanley Godecke of Minden, Nevada. The wedding will take place next summer.

# Regents Approve Many Faculty Appointments

Numerous faculty appointments were made during the summer and were announced by President Buchanan as they were approved by the board of regents.

Among the appointments announced in June was that of Edward S. Stimson, former professor of law at Syracuse university at New York, who was appointed as dean of the college of law. Since the resignation of Dean Pendleton Howard two years ago, Professor William J. Brockelbank of the law faculty has been serving as acting dean. The new dean is well known in national legal circles, is the author of two law books and during the war was assistant to the attorney general. He received his A.B., B.S. and A.M. degrees at the University of Michigan.

Other appointments in the law department are those of Robert T. Drake who resigned a position as attorney for the Chicago relations board to become acting associate professor of law, and Thomas R. Valenta, an Idaho graduate, who will also join the faculty as acting associate professor. Professor Drake was graduated from the Dartmouth school of law and received his LL.B. from Columbia university while Prof. Valenta received his LL.B. from the University of Minnesota.

**Engineering Head**  
Another appointment made in June was that of Allen S. Jansson who was named as permanent dean of the college of engineering. Jansson who since his return from military service in 1946 has been acting dean of engineering, will also be director of the engineering experiment station.

Dr. Vernon E. Scheid was named as head of the department of geology. Scheid was a former member of the Idaho staff but for the last five years has been working with the U. S. geological survey work in the Pacific Northwest.

Also announced in June was the appointment of Dwight L. Kindschy who became associate professor of agricultural education. Mr. Kindschy is a graduate of Montana State college and has done graduate work at Iowa State college.

**Physical Education**  
Filling a new position in the department of physical education will be Norman Jacobson, Idaho graduate, who took further work in the Kirksville college of osteopathy and surgery. He has been named as assistant professor of physical education and trainer.

Eric Kirkland, formerly director of the Port Townsend, Wash. public schools and staff member of the University of Washington, will be assistant professor of physical education and swimming coach.

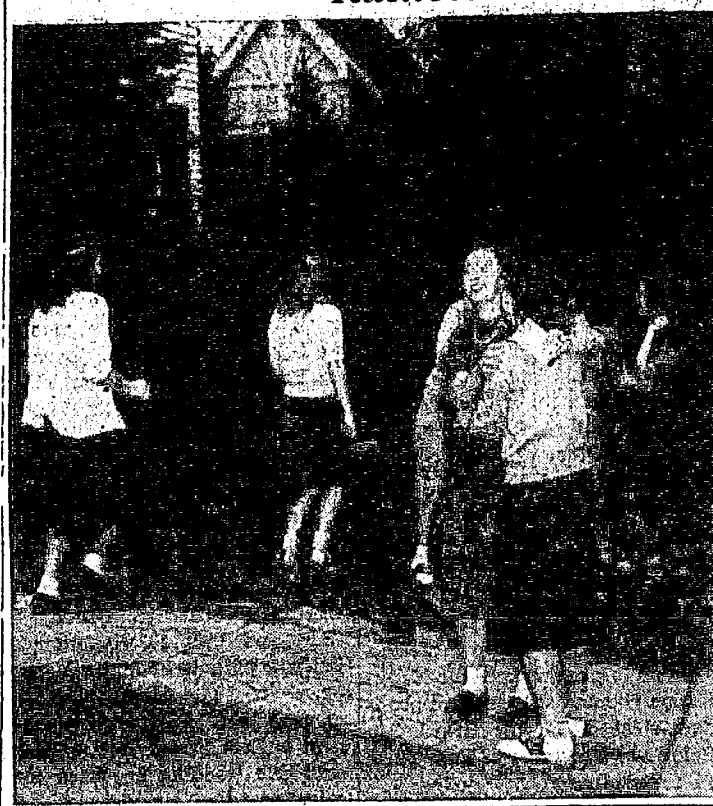

In the physical education department, Guy P. Wicks was selected to act as the university's new field agent. Charles "Chuck" Finley will take Wick's place as basketball and baseball coach.

Named as associate professor of animal husbandry and associate animal husbandman in the agricultural experiment station is Dr. Thomas B. Keith, another Idaho graduate, who returns to his alma mater from a position in the Montana State college.

Succeeding Dr. C. W. Hungerford as vice director of the Agricultural Experiment station is Dr. Glenn C. Holm. Holm is well known on the campus, having been on the staff as head of veterinary sciences and veterinarian of the Agricultural Experiment station since 1938.

Hall Macklin was named by

## Idaho's Campaign Brings Queries

With publication in Magazine Digest this month of an article on University of Idaho DDT research that is leading to a state free of flies, the war against flies is now spreading to other countries.

Many individuals in English speaking countries where the magazine circulates are already writing for detailed information to Dr. H. C. Manis, University of Idaho entomologist and authority on killing flies in entire communities with DDT. Particularly interested are the Canadians.

Following the lead of university entomologists, custom sprayers began warring on Idaho flies extensively in 1946. Idaho was first in

the nation with a state-wide campaign against the household pest. Iowa started a state-wide campaign this year, patterned after that of Idaho, and extensive anti-fly programs are also shaping up in Missouri, New York, Pennsylvania, Mississippi and Arkansas. Now the flies in foreign countries can start looking for trouble.

The essence of knowledge is, having it, to apply it; not having it, to confess it.

Love is like a pie—all you need is a lot of crust and some applesauce.

## Summer Speaker Discusses Orient

"The United States is losing the trust of the masses of Chinese people by supporting the oligarchy which has controlled China since 1941."

This was the opinion voiced by Dr. Thomas La Fargue who spoke to students of the summer session last June. La Fargue was one of several speakers brought to the university to address the faculty

and students of the six-weeks summer session.

"Chinese business men let official offices become secondary to building up family fortunes during the war," Dr. La Fargue said.

He maintained that most of the Chinese people lost confidence in their government which had been concerned with fighting during the war.

Not all suckers come on sticks, although a great many come from them.

## School Trains 29 As Ag Instructors

With the end of summer training courses August 19 at three Idaho centers, 29 instructors in vocational agriculture had been trained. H. A. Winner, assistant dean of the college of agriculture and head of agricultural education, announced recently.

These farm instructors were trained to instruct such courses in farm mechanics as arc and acetylene welding, forge work, identification of metals, and tool reconditioning. The courses lasted ten days at each of the training centers which were located in Nampa, Shelley and Rupert.

### Registration Looks Complicated, But It Really Isn't

Conferences and tests for all new students (freshmen and transfers) will be explained tomorrow at 8:30 a.m. at the new student assembly in Administration 102. All new veterans will meet for assembly at 9:30 in the same room.

Assignment of conference rooms include letters and science, Ad. 102; pre-med, Science 204; home economics, Ad. 304; agriculture, Dairy Science 203; engineering, Science 110; mining, metallurgy and geology, Geology 1; forestry, Forestry Lab; education, Ad. 317; business ad, Temporary Classroom Bldg. No. 1-101; music and music education, Ad. 316; graduate school, Morrill 224.

Guidance tests are required of all new students at 1:30 p.m. in the following rooms: A to D inc., Science 110; E to G inc., Navy 105; H to J inc., Ad. 31; K to M inc., Temp. Classroom Bldg. No. 1-101; N to Q inc., Temp. Classroom Bldg. No. 1-102; T to Z inc., Ad. 102.

**Registration Procedure**  
All students must have their permit to register for registration. If any student has applied for his permit to register but has not received it, he should call at the following places to secure his permit: Wednesday and Thursday, September 15 and 16—Ad. 208; Friday and Saturday—Ad. 104. If any student has not applied for a permit to register he must report to registrar's office, Ad. 104, and fill in an application blank. Permits will be prepared at the close of the day for distribution the following day at the places indicated above.

Those with permits to register will obtain registration blanks at the following places: college of letters and science, Ad. 102; agriculture, Morrill 112; engineering, Engineering 101; law, Ad. 341; forestry, Morrill 335; mines, Geology 4; education, Ad. 320; business, Ad. 213; graduate school, Morrill 224.

**Advanced Credits**  
Students may take their registration blanks and permits to register (also evaluation sheet if they are entering with advanced credits) to their adviser or registering officer at the following rooms: college of letters and science, B.A. and B.S. freshmen and sophomores—1st Floor Library; B. A. and B.S. juniors and seniors—major professors office; B.S. pre-med.—Science 203; pre-nurse and home economics—Ad. 304; B.M. and other music students—Music hall. All students in letters and Science must report to Ad. 114 for final approval of study lists.

College of agriculture—Morrill 217; engineering, Engineering 101; law—Ad. 341; forestry—Morrill 335; mines—Geology 4; education, B.S. Ed.—Ad. 320; B.S. Music Education—Music hall; B.S. Commercial Education—Ad. 320; business—2nd Floor Library; graduate school—Morrill 224. All students in the school of education report

### KUOI Expands During Summer

### Canoe Trip To Alaska Ends On Top Of Mt. McKinley

By PETE WILSON  
One evening last spring as everyone sprawled in the parlor at the ATO house, Bob Miller suddenly said, "What would be gayer than canoe trip to Alaska?"

Someone snorted and everyone returned to the comics. Everyone, that is, but Les Welch, who boldly raised up and said, "Let's go." And so began one of the zaniest adventures ever undertaken by Idaho students.

With school out, they headed for Seattle and smooth-talked their way into getting canoe, equipment, and their picture in the paper making it too late to back out. Starting June 10 they stated, "We are going to take our time; it might take us a week to get out of Puget Sound." Seattleites thought differently—they didn't think they'd ever get out!

But Idaho spirit prevailed and they were soon bouncing over the waves. After several brushes with the Coast Guard while losing their way and heading toward the open sea, they finally made it to Juneau.

Rumors now have it they are living with the governor and his family in the governor's mansion. However, the story has not yet ended. They've decided to climb Mt. McKinley. Then, to make everything complete, the original plan called for the return trip to be by horseback via the Alcan highway! They hope to be back in the states by January.

He: "I can imitate any bird in the world."  
She: "Well, imitate a homing pigeon, then."

to Ad. 320 for final approval of study list.

Here's More About Blot Begins

ASUI funds for a trial period. Additional action is required before Blot becomes a full-fledged ASUI publication, Editor Maurice Paulsen said yesterday.

Deadline for humorous and serious stories, poetry, and features for the October issue is September 26.

to Ad. 320 for final approval of study list.

### KUOI Returns To Air Under Cady Yesterday

KUOI, university radio station, returned to the air yesterday when summer station manager Norm McHan turned the controls over to Ted Cady, present station manager.

Prospects for the year's activities include the broadcasting of all home football games and fourteen IBS network programs direct from New York. The new transmitter, being constructed under Jerry Hatrup, director of technical operations, will be ready for use as soon as essential parts can be obtained.

The summer schedule began June 11 and ran for six weeks. With McHan as station manager and Glenn Southworth as technical director, "Pete Wilson, Ed Peters, Bob Maize, Charles LaFollette, Bob Hatch, Bill Hansen, Mary Conrad, Jewel Tanner, John Sundeen, Bill Allen, Gregg Polvin, Roger McHan, Ted Colterin, Jean Hoffman, and Mary Lundquist made up the summer staff.

Improvements during the summer were a new console table and record cabinet. Proceeds from three summer dances sponsored by the station and rental of public address systems totalled \$138.

**OFFICES REMODELED**  
The school of Business Administration offices have been completely remodeled this summer. "The large rooms were cut to give almost all professors individual offices," said Dean Farmer.

books was presented to the university by Mrs. John P. Gray of Coeur d'Alene, widow of the noted mining attorney. They are primarily concerned with mining law.

Wilbur O. Hogue, graduate of 1935, has settled in Pocatello after ten years roaming four continents and is devoting his time to free-lancing. His first product, a mystery "Lady, That's My Skull," has just been published by the Phoenix press. A juvenile book with a Belgian Congo background is now pending publication. But his most serious effort is a book on Liberia, "Land of the Talking Drums," with advance sections already published by Atlantic Monthly.

The manuscript is being brought into final form under the guidance of Geoffrey Coope, former faculty member and now editor for the Prentice-Hall publishing company.

### Hunter Handles Vandal Publicity

Beating the publicity drums these days for the Vandal football squad is Ken Hunter, appointed last July as ASUI news director. Hunter replaced Don Carlson, who resigned last summer to accept a fellowship at Stanford university.

Hunter received his B.A. degree from this university in 1922, and the following year he completed work on his master's degree. After working on the Coeur d'Alene Press and the Spokane Spokesman-Review for nearly twenty years, he enlisted in the army and during the recent war was connected with the public relations and intelligence divisions.

Prior to returning to Idaho as ASUI news director, Hunter was chief of the information division of the War Assets Administration office in Spokane.

### Directory Built

For the first time in the history of Idaho the Ad building's halls are to be graced with the presence of a room directory.

Glass-covered and efficient-looking, the directory lists the prominent offices and departments in the building.

### Special Arrives Today? Tomorrow?

Union Pacific officials stated yesterday that the student special may arrive today as early as noon. But that wasn't their first story. A press release said the train

### Bolivian Requests Alumni Bulletin

From 'way off in Oruro, Bolivia, S. A., came a request recently for the University of Idaho Alumni Roundup, a new publication. The request was made by Aniceto Pena, a mining engineer graduate of the University of Idaho in 1925. Pena, who now operates his own mine, finds it good business to bring his University of Idaho background to the attention of the South American mining industry. His office stationery reads: "Aniceto Pena, Ingeniero de Minas, Escuela de Minas, Universidad de Idaho, Moscow, Idaho, U. S. A."

**WIVES MAY BUY ASUI BOOKS**  
Wives of students may purchase student activity tickets at \$7.50 per semester at the graduate manager's office beginning this noon. The tickets will permit them to attend all student activities and will give all the privileges given regular students with the exception of the right to vote.

bringing 200 to 300 students to the campus was to leave Pocatello at 1 p.m. today and arrive in Moscow 24 hours later. Campus leaders who were planning social events in connection with the train's arrival were left in utter confusion. When everything was straightened out and everyone assured that the special would arrive today as originally planned, the campus awaited the train with comparative calm. Mrs. Edith Magnuson, hostess at the student union building, left here September 13 to meet the special at Boise.

**The Cadets are flying again!**  
  
The U. S. Air Force now offers you the chance of a lifetime to start your career in aviation.  
If you want to learn to fly, you have one of the finest opportunities ever offered in peacetime. Aviation Cadet pilot training has been reopened to qualified applicants presently serving enlistments in the Army, and to civilian young men who can meet the same high-standards.  
In order to be eligible, each applicant must be: a single male citizen, between 20 and 26½ years old, of excellent character and physically fit. He must have completed at least one half the credits leading to a degree from an accredited college or university, or be able to pass a mental examination given by the USAF. He must now be living within the continental limits of the United States.  
Upon successful completion of the training course, Cadets will be rated as pilots, commissioned Second Lieutenants, and assigned to flying duty.  
Reactivation of Aviation Cadet pilot training is only one of the several choices open to outstanding men who want increased responsibility and advancement in the field of aviation. It is now possible for qualified men to apply for attendance at USAF Officer Candidate School—and thus be able to equip themselves for such important specialties as engineering, armament, administration and supply.  
You have a real chance to make progress and build a sound career for yourself in today's U. S. Air Force. Talk it over with the Recruiting Officer today at any U. S. Army and Air Force Recruiting Station.

# Dixie Howell Day Saturday To Open Vandal Grid Season

## Idaho Not Overrating Puget Sound Grid Squad

College football makes its bow in the Inland Empire Saturday afternoon, September 20, when the University of Idaho plays host to the College of Puget Sound in Neale stadium at Moscow, at 2 p. m. It will be the first game of the season for both teams, and university officials have proclaimed Saturday as "Dixie Howell Day" to officially welcome their new head football coach and a new athletic program at the university. Late Saturday afternoon football fans will know at least a part of the answer.

Originally the game looked like a breather for the Idaho Vandals, but subsequent facts have changed the outlook. Puget Sound will bring a 35 man squad to Moscow sometime Thursday. Of those 35 men 24 will be returning lettermen, working for their second year under head coach Frank Patrick, of Pittsburgh fame.

Patrick will have a starting backfield topped by a veteran, 227 lb. fullback, Warren Wood, who was all-conference last year. His replacement will be Bob Robbins, who made the conference second team at the same spot. The leader of the squad is a three-year letterman and candidate for little All-American honors, Jim Rice at guard.

Against this array Idaho will toss in a light, speedy group, almost to the man a team that won one start last year. But this is a game that Howell has not underrated, that he and his coaching staff feel they must win for a good many reasons.

All of which points up to a football clash that should stir the stubble-covered hills of the Palouse. It should be a season's opener to whet the football appetite of even the most rabid pigskin follower.

**Double Workouts Daily**  
The Vandals ended their two-day grid workouts Monday, skipping Saturday so that the could use their last of the six double workouts allowed that day. The team has been trimmed to a mere 39 players, but injuries have been healed to a minimum and Howell was confident the entire squad would be ready to go Saturday.

Howell has indicated no starting lineup as yet, but has been using Willard Beitz, Rupert, John Christensen, Nampa, Jerry Deihl, Jerome, and Russ Moffett in the starting backfield positions. Beitz weighs 178 pounds, is five, 11 inches tall, and won his letter last year. He was ill during the summer but seems to have recovered. Christensen, 180 lbs. and Deihl, 179 lbs. will be running out of the halfback slot and Moffett, a 195 lb. sophomore will be used at quarterback.

In the line, Howell has been using JoJhn Evans, 195, six feet, two inches from American Falls, end; Carl Killsgaard, 212, six feet, three inches, from Bonners Ferry, tackle; John Dana, 180 pounds, six feet, from Boise, guard; Ralph Faasch, 200 pounds, six feet, two inches from Idaho Falls, center; Win Bishop, 190 pounds, 5 feet, 10 inches, guard, from Twin Falls; Will Overgaard, 210 pounds, six feet, four inches, from Boise, tackle; and Orville Barnes, 180 pounds, six feet, four inches, from Caldwell.

Howell's replacements will be his biggest worry as he is not more than two deep in any position. He is also hopeful for a dry field to allow for his squad's speed, condition and deception. Last week the squad held four workouts under raining skies and he said he was satisfied, but he would much rather have good going under foot.

### Thinclads!!!

There will be a meeting of all Varsity and Frosh trackmen who are not out for football at 4:00 p. m. Tuesday, September 23 in Room 107 of Memorial gymnasium. All new freshmen who participated in track in high school are urgently requested to attend this meeting!

### Freshmen Gridders Play Five Games

The University of Idaho freshman football squad will have a five-game schedule for this fall, it was announced today. The schedule will be topped by the opener October 11 in Spokane when the Idaho yearlings tangle with the University of Washington frosh. Other games include: October 17, Washington State college at Pullman; October 24, Boise Junior college at Boise, Idaho; November 1, Washington State college at Moscow, and the season's finale, Eastern Washington College of Education junior varsity at Moscow, November 6.

During the war freshmen were allowed to compete on varsity teams but this year the freshmen rule went back into effect so Idaho, along with other Pacific coast freshmen, will adhere to it and go back to frosh teams.

The Pacific Coast conference allows freshmen to start football practice September 15, but the younger Vandals were not able to hold workouts until today. Yesterday, the frosh turnout, numbering about 60 candidates went through physical examinations and checked out their suits.

Coach Steve Belko, who will be assisted by Wes Shurtliff, former Idaho athlete and for many years a high school coach, is in his second year of coaching at his alma mater where he was a three sport letterman. Last year, he acted in the capacity of junior varsity mentor for both football and basketball.

### Butler Remains As Boxing Mentor

The appointment of Comdr. Kenneth L. Butler as boxing coach at the university for this year was announced today by President J. E. Buchanan following authorization of the board of regents.

Commander Butler, U.S.N., coached the Idaho boxers last year to a tie for the national team title with Wisconsin. His squad finished second in the Pacific Coast conference, and individual honors went to Laune Erickson, national light-heavyweight champion, and Herb Carlson, national champion at 155 pounds. Carlson will be the mainstay of the boxing squad again this season.

Commander Butler is a graduate of the University of California and is stationed at Idaho with the Naval unit. While at California he was on the boxing squad. After graduation he coached in the Navy and in CCC camps. He will be assisted by Frank Young, who is an instructor in the P.E. department. Young studied for his P.E. master's at the university of Oregon, and is a graduate of North Dakota. Young boxed in college and in semi-pro rings later.

### University Prints New Pamphlet

A pamphlet entitled "Know Your University" has been published to better acquaint the new students with their university and will be found near the main bulletin board on the ground floor of the Administration building.

This pamphlet not only has a large map on the campus with all buildings and living groups indicated but includes an aerial picture of the campus and a good description of all that is offered to students.

Patronize Argonaut Advertisers

### New Vandal Mentor

Pictured above is Millard F. "Dixie" Howell, one time Alabama football great, now beginning his first season as head football coach at the University of Idaho. Howell is a former All-American halfback, earning the distinction while playing for the Alabama Crimson Tide.

### New Basketball Coach

Charles L. "Chuck" Finley was appointed Idaho's basketball coach in July. During the last five years Finley's teams have won three conference championships. He is the author of a booklet called "A Basketball Scouting Chart."

### Move Bossy!

Even the cows must make room for more students. Comfortable rooms at the university dairy barn, originally completed for agricultural employees, are being reserved for the first eight applicants for the five month short course in commercial dairying. The course begins November 4

and is scheduled in two sessions of ten weeks each, with the second half ending April 4, 1948. It is designed for those who are, or intend to be, commercial dairymen, and includes instruction in butter making, factory testing, cheese making and ice cream making.

How much more famous is vice than versa.

### Idaho Boxers Top Nation-Butler

Commander Butler stated today that he feels this year's boxing squad will be in as well rounded form as last year's national champions. He said that even though the team lost two of their top men in national titleholder Laune Erickson and Pacific Coast champion Ray Engberson, there is already at least one good new prospect on the campus to take their place.

At the same time he announced a system by which the finest boxers on the coast are chosen. In this system, which was inaugurated last year, the coach of each team entered in the Pacific Coast tournament, votes on his choice for the best boxer. By voting on a point system, the boxers are broken into the groups—Novice, Junior and Senior. The system proved its worth last year with the top four men going into the finals in the national tournament. The seven Idaho entries in the

### Vandal Harriers Start Sept. 22

First call for the Vandal cross country running team was issued yesterday by Coach Stan Hiserman, who will undertake to mold a team from a returning nucleus of three lettermen, Senior Art Humphrey, Junior Al Denman and Sophomore Marv Badger.

Gone from the ranks of Idaho coast tournament showed well with four rated as seniors and three drawing the junior rank. Herb Carlson, Idaho's blond national 155 lb. champ, and the husky Erickson, ranked first and second respectively in the poll.

"Basing a prediction on this system would tend to show Idaho as the team to beat, with San Jose State again the strong contender," said Butler. "However, a little improvement by the young Washington State team," Butler added, "could cause them to be the fly in the ointment for either of the other two."

runners will be Vic Dyrvall, famed distance runner, who romped to first place in the U. of Washington meet, and Ward Stroschine, an Idaho Falls boy who placed third in the same meet, and placed high in all of the dual meets throughout the year.

"We are counting on freshmen who were outstanding distance runners in high school to strengthen our team," Hiserman said. He explained that "In Collegiate Cross Country competition, freshmen are eligible under Pacific Coast conference rules." Hiserman also emphasized the fact that freshmen who do not make the team will be organized into an all-frosh team to compete with the varsity regulars.

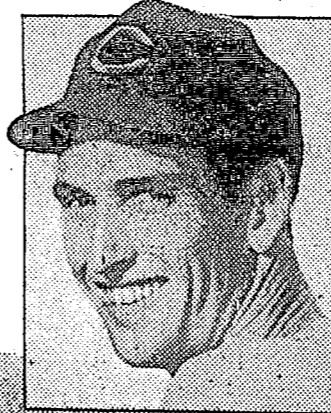

A meeting for all members of last year's team and newcomers will be held in the Memorial gymnasium in room 107 Monday, September 22, at 4 p. m. to organize for the season.

A Purdue university art authority claims that men are just as dumb as women. Could he have meant that women are just as smart as men.
