Men Restricted, Women Loose, Laxative Reports

Official notice has just been received from the Dean of Men that men's regulation hours will go in effect promptly at 12 midnight tonight.

They will be as follows: On week nights 7:15; Friday 7:30; Sunday night, in order that they may attend church and be home in time they may stay out until 8:00 or if it is a special meeting and lasts longer they may have 4 minutes in which to report.

Saturday they may shine because hours will be extended until 9:00. This should give them sufficient time to see a show, dance and escort their girls home.

"For some time," said the dean, "the need for hours for men has been widely realized because it is a commonly known fact that because of the hours girls keep they are a great deal higher in scholarship than the fellows. This should help to even up the score." "Also lately," the dean continued, "because of lack of sleep at night, hour regulations should serve as a strong enough influence that sleep will be taken at the proper times."

Free Love-Making Is OK'd In Amber Light District

The Moscow City Council last night approved a request by the American Parking Association to build a giant parking lot on the land across the road from the university golf course to be used by students who heretofore were forced to do their smooching in out of the way places.

Located on the high ridge overlooking the city, the new parking area will be handled by a caretaker who is now taking special correspondence work in "Free Love." A large illuminated clock will be maintained at a conspicuous place in the proposed lot, and for the benefit of those who get too "wrapped up" in their work, special amber lights will go on five minutes before lockout time.

The plan has received wide acclaim from many sources. President J. E. Muchanan said "Anyway it's different". Dean Louise Karter commented, "It's just peachy, I have my space already reserved". Malt Smith, ASUI president, remarked "Isn't it thrilling? It's such a nice place to sit and chat."

Smosha Wuska Glib Rishka Frisco Glub

Chuck Glib, Idaho's representative to the Inter-Maternity council held at St. Francis hospital in San Francisco last week, returned this morning with a new formula designed for milking pledging fees out of prospective fall house guests.

Glib refused to grant reporters interviews until tomorrow. However, he told Gene Sagebrush, Telegram reporter, that the council seemed satisfactory to him, and he left San Francisco "expecting all sorts of good things".

Flies Hate Soup; City Dump Is Canvassed

An age-old adage was shot to pieces today by the announcement of Professor I. M. Abey, university entomologist, that the ordinary house fly in his natural environment is positively allergic to any kinds of soup.

After extensive research recently completed at the Moscow City Dump, the professor came up with a startling statement. (He also came up with an old tire and a set of discarded rusty bed springs around his neck).

"Never Complain" "Never complain of flies in your soup again," he said. "They are not flies, they may be cochroaches, bedbugs, lice, grasshoppers, or ladybugs, but not house flies." He explained "house flies have long been allergic to soups, ever since Heinz came out with his 57 varieties which so disrupted the flies' taste glands that they have since avoided any kinds of soup."

Endorsing the discovery, the National Waiters Union went on record this week with a terse statement: "YIPPEE."

Storm Hovers

Late Thursday night student veterans were horrified to find their beloved homes slowly but surely being covered with blankets of insidious sand from a Moscow sandstorm. They quickly called a conference for the preservation of homes.

The main course of action, they decided, was to round up all the kids and bring them in so as not to lose any. After this action they all took out their grades and idolized them, while watching with anxious faces the effect on the sand covering. After due respects to grades had taken place the storm subsided and peace was restored.

Headed For Siberia

The two former university students shown above, Bluejay Inkums and Gym Gay, were snapped by the Telegram staff photographer just as they started on the first lap of their burro-bound trip to Siberia. The trip will take five years to complete. First stop for the pair will be Bering Strait.

Dear Raisin

Dear Raisin: When I, a typical freshman, entered the doors of the nationally known institution of education, the Idaho University, I knew the lucky people were in for a break. Here I was ready and waiting to be voted the first and most outstanding queen of the year.

However, an oversight was made and I was missed. I consoled myself with the assurance that the very next time there would be no mistakes and I would reign. I was due for a disappointment. Fall, winter and now spring, months have and are passing and

my noteworthy beauty has not attracted the attention of those who control the votes. Now Raisin, may I ask the question "Are studies of English, chemistry and psychology so utterly fascinating that a 24" waist; big, dreamy, blue eyes; radish-blond hair and exceptionally good legs all must go unnoticed?"

It isn't that I am worrying for myself but I keep thinking of all that the campus is missing by making this oversight. I rest assured now that this matter of such magnificent importance has been brought to your attention you will take such drastic steps as are necessary to make all matters right. Yes?

Candidates Stink So Judges Drink

No candidate was named winner of the 1948 Tau Wau Omega Plumber's Journal girl contest Saturday night during intermission of the annual fraternity Plumber's ball.

Jack Rambunctious, TWO president, stated, "I can't understand. Something went wrong. We received this wire: 'After the editors and artists of the Plumber's Journal considered each of the six candidates submitted, we came to the conclusion that we needed a stiff drink. We're still drinking.'"

Subdued silence filled the ballroom after the president had made this announcement. The tension was broken when the rhythm-vapor dance band struck up with "Have Another Drink."

It has not been decided whether to submit the candidate's pictures to the "Lena the Hyena" contest, choose new candidates, or try to forget the whole thing.

Eggs, Kegs Are Themes Of Easter Social Brawls

This past Easter holiday has been a busy one for the corridors and Creep houses what with very few unimportant social functions. Three Easter egg rolls were indulged in and several buck rabbits are reported missing near Walkenraw hall; we hope that their personal integrity hasn't been violated against their collective wills.

Hamma Lie Theta

Two pledges and members conducted a small slumber party with each other and the infirmary reported several cases of first degree burns the next day. Their electric blankets maybe?

Fir Bough Inn-hotel

The Termites Chew (most informal brawl) will be held tomorrow morning at which time multi happy pairs will combo to the ranch-house rhythms of Six from the Sticks.

Sleepa All Everyone

The sleep and eat boys were put on perpetual social condemnation for serving coke and soda at a smoker Thursday; won't you lunks ever learn that crime doesn't pay?

Pie Hatea Tri

Their housemamma, Miss Mossy Hufft, will be away in Spokalue this coming weekend and all remaining penguins (from the Waldorf) stars (from the roof), and peacocks (from the alley) will be gargled on toast tonight by all Digma Flies and other uninvited guests.

Melta Delta Pelta

Keeping in tune with the Easter parade theme, the Mdeepees all got boiled (along with some other bad eggs) learning the latest tricky steps of the campus rages, the Boogie Bourbon Bounce and the Walker's Waddle.

Beauty Queen

Miss Sharon Lamour, Crappa Alfalfa Tractor, freshman from Blackfoot, was chosen Snot's cover girl after a three-week consideration by the judges. Miss Lamour was selected because of her "typical ravishing Idaho beauty."

Marriage Wagon Has New Hitch

Average-Mediocre

At an insignificant table in an insignificant corner at an insignificant club, Miss Maxine Average, daughter of Mr. and Mrs. Heighlouw Average of Sunshine, Idaho, announced her engagement and forthcoming marriage to Joe Mediocre of Windy Summit, Lower, Oregon.

Miss Average was quoted as saying, "As yet I haven't met Joe but there comes a time in every girl's life when you take what you can get and be thankful for that!"

Mr. Mediocre was caught mumbling insignificantly to himself in an unusual corner. "I hope she isn't expecting to have any children. That would tend to make me significant. Besides, I'm too lazy to care."

Daring Yank-lets Now On Display

Miss Bea Fad announced that the daring new yarn yank-lets will be modeled in the Knit One dress shop at 21 Go Forth avenue in Cowmos yesterday. These startling new fascinators have swept Paris by storm and threaten to slip-stitch New York over to Staten Island.

Miss Ima Jerk, ravenous beauty from Strictly, Hungary, has willingly offered to model the newest thing in footsies. "There are," Miss Fad perloined, "many different ways to wear these wonder-why inovations! Furthermore, girls, you can purl one all by yourselves," she added.

Colors are frequently brick-red, blushing purple, and dead white. Together with machting shoelaces and finger-tip mits, these new knock-outs make a stunning ensemble. A dash of cool, frosted H20 may be added at random.

Little Kids Will Attend College

Starting March 31, the university will increase its curriculum to include children below six years of age. This plan will allow veterans to see more of their children. As things are now, the children see very little of their fathers which tends to deprive the children of a normal home life.

Ribald Gentlemen Indulge

Little Girl: "What are those men doing, mama?" Mother: "They are laughing at an off-color joke told by that grinning fellow on the left." "Little Girl: "What was the joke, mama?" Mother: "It was pretty corny, daughter, you wouldn't enjoy it."

Men Oust Housemothers, Take Babes In Arms

Speaking over KUOI's year old smele-tele-vision hook-up, Plesident Small Wit, yesterday formally withdrew Idaho from the United Matrons and put the campus on a war footing.

Forced to make his decision by a strong woman's pressure group, he screamed, "Housemothers must go! They are a decadent organization and the Idaho campus has evolved to a point in which they have no place."

Expecting trouble from reactionary forces, he called for a draft on the men, and for them to "rise up in arms with the women and present a united front" in order that the campus could sustain its newly-won position.

Small Wit's edict was greeted

with approval. The expected trouble did not come, as the housemothers immediately exiled themselves to the Women's Static Condition campus.

At last reports today, the Idaho campus was back to normal with the exception that the men refused to put down their arms.

No More Bistros, Tables And Ale

Members of Tables and Beer, law honorary, have gone on record as opposing the rebuilding of the Bistro, former hangout of the group.

Judge Rearend, president of the group, said that the honorary took the action because they realized that there was no time for beer-drinking for a student learning to fleece the public, deceive the jury, and get his name written in a client's will. "Besides," he said, "the Loose Inn serves good beer."

The Junior College of Paradise Creek was founded in 1466 by Glen Taylor.

Chemist Mutilates Books, Test Tubes

Police today were on the trail of former assistant professor of Chemistry Seo Leren who went berserk last week after discovering one of his students memorizing chemistry formulas. A statewide dragnet is out for the college professor and the FBI will be called shortly if he is not apprehended.

Besides smashing all of the test tubes in the laboratory in the Science building, Leren broke into all of the university offices where police reported he had torn all blue books into smithereens, and had scribbled on all of the blackboards, the words, "Down with quizzes, . . . Education is stagnant."

I do wish some tight-fisted merchant would have purchased an Ad for this space.

Vicious Vandals Terrify Opponents

Idaho Kickapoo Increase Cause Of California Chaos

California opponents of the rampaging Idaho Vandals have entered into a mutual assistance pact, which they hope will partially stave off the expected Vandal invasion of the southern conference next fall. The meeting of the California coaches was called immediately after news reached Los Angeles that the Vandal whip Pixie Legree had ordered an increase in the spinach and kickapoo joy juice rations given his marauders.

The meeting was a far cry from the leisurely, arrogant conferences that the southern gentleman held some years ago, when the Idaho games were looked upon as breathers for the southern teams. Today's conference was the scene of much nervous tension as the southern mentors filed into Pershing Square.

Alcatraz Falters

Muscles Nogood, McNeil Island head coach, keynoted the 11th hour convention with these words, "If we are to have any chance against the Vandal pigskinners, we must make a reciprocal trade agreement to exchange players to cover our injury losses. Even Alcatraz's 500-man squad can not be expected to hold out for more than 30 minutes against the Legree coached boys," he said.

A report on the Vandals training camp contained the following notes:

1. The spinach requisition was enlarged to 100 box car loads. Idaho grown was also specified to insure top quality.

2. The Selway joy juice producers have begun work on the manufacturing of 300 barrels of their select kickapoo joy juice. The Vandal players have sent the mountaineers 33 dead Washington Cougars, gathered in a late fall foray in the Pullman area, to add to the kickapoo potency.

Bulldozers Next Victim

3. Legree's athlete-footers are considered a favorite in their spring training finale against the engineers' tractors Saturday. A southern scout reported seeing the two Vandal stars, One-lung Bits and Laughing Boy Guardover, quarrelling over who would get to tackle the next bulldozer that tried to get through.

Damma Fly Builds Much-Needed Hut

Word has leaked out that the contracting firm of Shokakim and Snothrop have been let a secret contract by the Damma Fly coop to build an annex to their present living quarters.

The new annex will be located immediately behind the present house and will measure approximately six feet square and about seven feet high so that some of the taller members can be accommodated.

This building will be used sometimes as a smoker. It will be painted a beige color with the crest in red directly above the main entrance.

When questioned about this, one of the members stated, "It ain't a big thing."

Debators Lose Tiff As Mitehead Wins

In a debate between Alpha Tau Omygod fraternity and Hades hall, Professor Donald Mitehead declared himself the winner because he could debate better than either of the teams.

Subject of the debate was: "Resolved: A Society for the Prevention of the Extinction of Field Mice should be Established." Both teams took a non-committal stand on the subject.

Time In

By MARY COWARD

Coach Carload "Cluck" Whinny, head basketball coach, yesterday expressed optimism over the Vandals' 1949 hoop prospects. This writer copied every word of his lengthy statement on our soiled shirt cuff.

"We can't lose next year—we're a cinch to cop the NCAA, NIBA, Garden championship, and the Whitworth Junior High School Invitational tourney next winter". Whinny then took a deep breath, radiance beaming all over his contours. "Maybe the Olympics too," he added, with a sly grin . . .

Coach Swearin' Saltshaker, assistant football mentor, was a guest speaker Tuesday at the regular meeting of the Moscow Home-makes Club. Saltshaker gave the ladies up-to-date information on the latest trends in football wear. He discussed hose and unmentionables with regard to the Vandals' "New Look."

Saltshaker also deplored the use of profanity on the gridiron. "Words such as Darn and Dagnabbit have no place in our sphere of society", he stated, and finished his lecture to the ladies by telling them that "we are not seeking merely to win ball games but to further the cause of gentleness both in speech and conduct among the participants on the playing field".

Found Guilty

Convicted and fined for drunken driving was Horace Slurp, university student, yesterday, by John Sweepum, city street cleaner. Slurp was released on bail this morning.

When out fishing do you have trouble reeling it in? If so, try some of our Scented Rubber Cement. It will make your line unbreakable.

Remember:

"It Smells!"

Vandals Begin Spring Swinging

Pixie Legree is putting his muscle benders through waist reducing exercises on the Quartz field rock pile. The jubilation shown on the players' faces is representative of their attitude toward the kickapoo joy juice ration increase.

Idahoan Floors Dark Opponent

Lanky Mike Williamson, Idaho's terrific three-time collegiate heavyweight champion, worked one leg up toward gaining his fourth straight national boxing trophy last night in Madison, Wisconsin by flooring Joe Louis in the first second of their scheduled 50 round bout.

Williamson, telegraphic reports from the dairy state state, unloosed his "atomic-kangaroo" punch even before his opponent had left his corner. Idaho's gift from Jersey will fight tomorrow night for the title if a challenger can be found within reach.

Curr's Bookstore Racket Reversed

Responding to students' demands for a more liberal book store policy, Chet Curr, manager of the store, yesterday announced the following changes in policy:

1. No charge will be made for books used less than three years.
2. Typing paper will be repurchased by the store at the rate of \$.00000632 per sheet if used on one side and half that if used on both sides.
3. A Royal typewriter will be given free to each student buying two packages of note cards.

After hearing of her husband's change of policy, Mrs. Curr told reporters last night that she couldn't understand what had happened to her husband. "We had such a good racket," she said.

Bandsaw Breaks Ping-Pong Record

Buzz Bandsaw, sophomore ace, continued his hot scoring pace this week to lead the Northern Division ping-pong race.

Bandsaw picked up 537 points in the last battle with the invading Salmon City Teachers college team, and now leads his nearest competitor, "Tiger" Elmer Velocity of Weippe Normal, by 51 points.

Bandsaw was quoted as saying, "That Velocity boy is strictly from starvation. His backhand smells like a Chem lab."

He also hinted that he expects to be invited to the National play-offs in Waukegan, Illinois, which is sponsored by the American Meat and Whistle association.
