THE IDAHO ARGONAUT, Official Publication of the ASUI

FRIDAY, JANUARY 7, 1949

**The GOLDEN FLEECE** by Jason

The beginning of a new year is supposed to bring bright hopes for the future and a fresh start for everyone but as the student at Idaho returns from the vacation it brings nothing but thoughts of this month's final examinations. Newspapers all over the nation lament the possibilities for a new and brighter 1949. Finals make the beginning of this year look anything but bright.

Instead of looking to the future, Jason looks back to good old 1948. It wasn't such a bad year in spite of what the world's politicians and economists would have us believe. After all, last fall it was warm. What has 1949 offered so far? Of course, Jason shouldn't complain about the cold. He really hasn't been cold since he saw "One Touch of Venus". For this kind of weather Kenworthy should get more movies like that.

**Not A Bad Future**  
The neophyte 1949 does offer a few pleasant (and unpleasant) possibilities. Campus radio KUOI is now working toward becoming a regular part of ASUI. Talk of expanding the station even to the point of putting in frequency modulation is common among the staff members.

The state legislature will meet soon and work will begin on securing funds to fulfill the building plan adopted by the university for a new and better Engineering building, agriculture buildings, and more classroom space. Perhaps 1949 will see the beginning of work on the new SUB addition.

The old year saw a national election. The new year will see another campus election. Who knows what third, fourth, and fifth parties might spring up to make things interesting.

**Things Are Looking Up!**  
More and more instructors are beginning to use the teacher-rating plan. Perhaps the new year will see some benefits derived. One point still seems to be in doubt about the plan as far as some students are concerned. The teacher-course-rating plan as it is presented is not a method whereby an instructor is hired or fired. It is merely a method by which he may improve his instruction. Consider it that when you grade your professor and indicate what you believe on the score sheet.

**Be Happy**  
Maybe the year 1949 will even see a copy of Blot out on time. Easter vacation is coming. And Jason is told that there are a few lucky souls who will graduate in spring.

Yes, 1948 was a good year and 1949 will be a good year. But unlike other editors, Jason does not look forward with too big a thrill. After all, what is there to look forward to—oh yes, final exams at the end of the month.

**Speaks To Ags**  
Curtis Edwards, president of the Edwards manufacturing company of Yakima, Wash., spoke to the Agricultural Engineering society in the small ballroom of the student union building December 14. Edwards spoke on the problems of setting up a small manufacturing business.

An informal discussion of the machinery made by the company was held after the meeting, adjourned.

## COMING EVENTS

- TODAY:**  
Blue Key luncheon meeting, 12 noon, Coke room, Bucket.  
Phi Alpha Delta meet at Bucket for Gem pictures, at 2 p.m.  
All Student Wives are offered basketball every Friday from 7:15 to 9 p.m. in Women's gym.
- SATURDAY:**  
Sigma Delta meeting at 1 p.m. in UCB 103. Important.
- SUNDAY:**  
Foreign students meeting in Ballroom, Bucket, at 4 p.m.
- MONDAY:**  
American Institute of Electrical Engineers meeting at 4:15 p.m. Rm. 202, Engr. bldg.

## Vandaleer Concert Tour Scheduled For Next Week

Idaho Vandaleers, directed by Professor Glen R. Lockery, will appear in the first of a scheduled series of winter concerts Sunday evening in Potlatch.

Beginning a week tour of northern Idaho and Spokane, the mixed choir of 61 voices will present their second concert at St. Maries high school Monday afternoon. Other appearances on the tour include Coeur d'Alene, Monday night; Mullan, Tuesday morning; Kellogg, Tuesday night; Wallace, Wednesday night; Bonners Ferry, Thursday afternoon; Sandpoint, Thursday night; Priest River, Friday morning; and Lewis Clark high school in Spokane Friday night.

**Broadcast Friday**  
A broadcast over KHQ Friday afternoon from 5:30 to 5:45 will complete the concert series. Singers will be honored at a banquet Friday evening in Spokane before returning to Moscow.

Mozart, Bach, and Palestrina are represented composers in the first part of the program which includes several sacred numbers. Contemporary compositions by Rachmaninoff, Roberto, Shaw, and Christiansen are featured in the second part of the concert program.

Ultra modern numbers by Samuel Barber, Paul Hindemith, Vaughan Williams, and other contemporaries will be presented in the next two sections. Opera and show selections comprise the final part of the program with the Toreador Song from Bizet's Carmen included. The group will close with "Old Joe Has Gone Fishing," from Peter Grimes by Brittan, and four choruses from Richard Rodgers' Oklahoma!

Yvonne Whiting, Betty Tellin, Delmar Bodker, Henry StJohn, and Roger Vincent will appear as soloists with the Vandaleers during the concert series. Traveling by chartered bus, the group will also be accompanied by Mrs. Hall Macklin, chaperone.

## Pan-Hellenic Sets Rushing Schedule

Second semester rush has been scheduled for January 30 to February 2 according to Jeanne Hofmann, president of Panhellenic council. All independent women enrolled in the university and all new women students are eligible to participate in rush week.

Women desiring to go through rush are requested to sign up in Dean Louise Carter's office before January 28. A rushing fee of \$1 will be charged.

Scheduled functions for semester rush week are as follows: January 30, the Panhellenic tea during which rushes will be shown through each of the eight campus sororities. Desserts and firesides will be held at the sororities January 31 and February 1. Desserts will last from 7 to 8:15 p.m. and firesides, from 8:15 to 10 p.m.

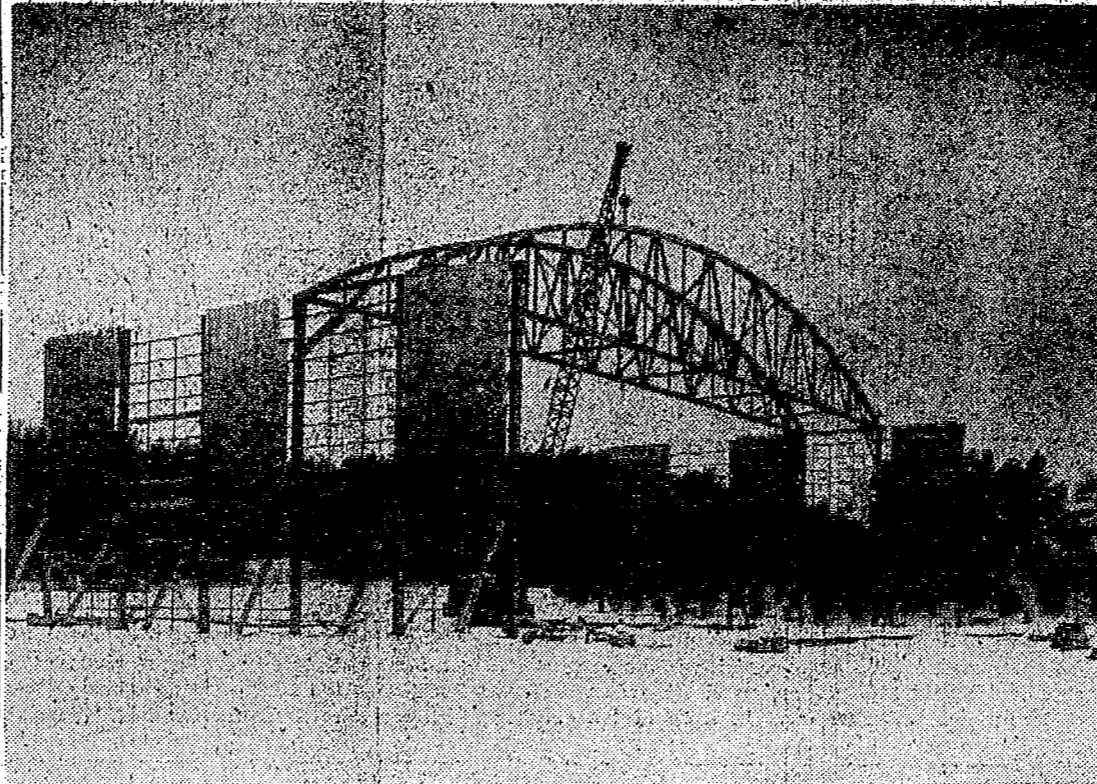

Bids will be sent out the morning of February 2 and newly pledged women will move into the chapter houses at that time. Any women desiring further information should contact Dean Carter.

## Idaho Boxers Prepare For EWCE

The 1949 edition of the Vandal boxing team, under new coach Frank Young will make their debut before the home crowd this year when the EWCE pugilists travel to Moscow January 17. Idaho is stronger in nearly every weight this year than last but they have a tough season ahead of them. After the EWCE meet the Vandal squad has matches nearly every weekend for two months. From left to right are: New coach Frank Young, Len Walker, Vernon Gasser, Vernon Bahr, Thane Johnson, Woody DeLorme, Don Ellis, Ted Diehl, Herb Carlson, DeForrest Tovey, and Norman Walker.

## Snow And Ice Hazard Field House Construction

To provide a track for winter training for the Vandal track and boxing teams, the university building and grounds department has begun the erection of a 75 by 100 ft. field house in the southwest corner of McLean field. The field house, built with a new "bowstring" type construction, will have a special floor of sawdust and earth, will not be heated. (Schnell photo.)

## Field House Construction Is Resumed Despite Efforts By Old Man Winter

Construction of the new field house for the University of Idaho is scheduled to resume immediately, according to the university buildings and grounds department.

Work on the field house began some three months ago but inclement weather shortly preceding Christmas vacation caused a discontinuance of operations. Snow on the materials used in the building made them too heavy to lift into place.

The field house is another improvement in the Idaho athletic department and will furnish a much-needed winter training place for Vandal athletes. It will be especially useful to track and boxing team members who find it particularly difficult to slog through three feet of snow in an attempt to keep in training. The floor to be made of specially prepared sand sawdust, oil, and earth mixture will furnish a place for them to run with all the benefits of a summer track, except heat. No provisions have been made for the heating of the building. The specially large size of the field house, plus the type of use it is intended for, would not warrant the heat which would be required.

**"Bowstring" Trusses**  
When asked how near done the field house was, George Gagon of the buildings and grounds department said, "About 40%." He further explained that the two "bowstring trusses" which can be seen in place now are two of five which will eventually make their appearance as part of the building. Called "bowstring trusses" because of their bow-like shape, they are completely constructed on the ground and raised into position with gigantic cranes. The truss' base is about 50 feet from the ground and the distance across (where the string would go on a real bow) is a large 175 feet. Gagon said that the girders are being placed 20 feet apart making the over-all length of the building 100 feet. This will make 17,500 feet of floor space.

**Enlarged Easily**  
One of the most interesting features of the field house is the ease with which it can be enlarged. At any time such funds could be secured to financially enable an enlargement of the building. It could be done (in any multiple of 20 which is the distance between the trusses) by merely setting up the desired number of trusses.

There are going to be no windows. Lighting will be accomplished with artificial lighting in the form of 40 1500-watt lamps. The field house is expected to be completed in two months.

**Bus For Skiers**  
The Ski club has procured a bus to take student skiers to the Emida ski area Sunday. The bus will leave from the Blue Bucket shortly after 8:30 a.m. All students interested in good skiing this weekend are urged to be there.

## Open House Tonight

Open house is being held this evening at 9 by all women independent living groups with the dress to be sport.

The stag line has been requested to refrain from standing on the dance floor.

**MARTIN GIVES TALK**  
Dr. Boyd Martin, head of the social science department, discussed recent developments in Unesco proceedings for the Genesee Civic club Wednesday evening.

## Permit Schedule

Permits to register for students now in residence at the University of Idaho will be available in the registrar's office as follows:

Students whose last names begin with letters A to L inclusive—January 10 to 15.  
Students whose last names begin with letters M to Z inclusive—January 17 to 22.

Those who do not get their permits at the times mentioned above may secure them on January 28 and 29 in the registrar's office.

## SAI Plans Sale

The annual Sigma Alpha Iota rummage sale is scheduled to be held Saturday from 9 a.m. to 5 p.m. at the Washington Water Power office. Betty Tellin, SAI president, will be in charge.

Anyone having articles to donate for the rummage sale, should contact Miss Tellin at Hays hall.

## Teaching Vacancies Filled By The Board Of Regents

Five new staff appointments at the University of Idaho were announced by President J. E. Buchanan following approval by the university regents.

Richard C. Ladeburg becomes associate in potato research at the Aberdeen branch station, replacing L. W. Neilson, recently resigned. Ledeburg, now assistant in plant pathology at the University of Wisconsin, has devoted three years to potato virus research in that state. At one time he was assistant horticulturist at the University of Florida. His appointment is effective May 1.

**Named Research Fellow**  
A native Idahoan, Edward W. Owens of Caldwell, an agricultural graduate from the University of Idaho, was named research fellow on the new federal state cooperative hybrid onion breeding project at the Parma branch station. Owens has been employed by the Crookham Seed company, Caldwell, and during the past summer was employed on university research projects, developing tomato varieties resistant to the curly top disease and working on the bean variety trials at Caldwell. Owens assumes the new post February 1.

Coming to the University campus February 15 as assistant home economist in the agricultural extension is Dr. J. E. Buchanan following approval by the university regents.

## Students Must Register Car Make And License Under New School Ruling

Compulsory registration of student automobiles, with a possible appearance before the discipline committee for failure to comply, is provided in a new university regulation adopted by the Academic Council Wednesday afternoon. The new regulation, which becomes effective at once, reads:

Each student will be held responsible for recording the make and license number of his or her car on the registration card at the beginning of each semester. If, at any time during the semester, a student sells his car, acquires a new one, or secures a new license number, the data must be filed in the Office of Student Affairs. Failure to comply with these regulations will make a student subject to disciplinary action and withdrawal of the privilege of driving a car on the campus.

## 'Mr. X' Gives \$5,000 To Law College, Buchanan Reveals

The man known only as "Mr. X" has contributed another \$5,000 to the College of Law Founders fund at the University of Idaho, it was revealed recently by President J. E. Buchanan following official acceptance of the gift by the board of regents.

Identity of the donor is known to President Buchanan and the regents, but as he desires to remain otherwise anonymous, he has been given the name of Mr. X. He started the fund last year with an initial gift of \$5,000.

"No money from this fund will be spent for any project," said President Buchanan, "until such time as a major capital addition or considerable portion of one can be undertaken."

**Law Books Donated**  
Other gifts accepted by the regents for the university included 750 law books from the Idaho Title Insurance company at Boise, of which John B. Bell is president. Another gift of 250 law books was made by Henry Felton, attorney at Lewiston, formerly of Moscow. In support of the Idaho Power Research project, \$1,700 was provided by the Idaho Power company to conduct studies in sprinkler irrigation.

Gifts to the Alumni Student Loan fund were received from Dr. W. C. Braham, Sturgis, Mich.; Miss June Gee, Nampa; Ralph E. Heron, Lebanon, Ore.; and John I. Griner, Wenatchee, Wash. Alumni Scholarship Fund contributions were made by Mrs. Stephen Griffiths, Los Angeles, and Samuel E. Vance, Jr., Boise.

## Typical Problem

College campuses jammed with student-owned automobiles as well as students appears to be a typical postwar situation throughout the country. At the recent meeting of the Association of Land-Grant colleges and universities in Washington, D. C., Dean D. R. Theophilus of the College of Agriculture, at the special request of President Buchanan, interviewed representatives of more than a dozen other institutions about their traffic conditions. His report:

**Employ Officers**  
Every institution has a campus traffic problem, brought on by the fact that more students are able to afford cars. None, however, has found what it considers a happy solution. Some have taken extreme action and banned all student cars. Most of them have found it necessary to employ traffic officers and tighten car registration regulations.

## The Vandals Have It

Nick Stallworth, Idaho center, lies prone on the floor with the ball in his possession, while his Oregon opponent Dale Warberg tries to regain his feet after an unsuccessful attempt to get the sphere. Several similar mixups were seen by spectators during the Oregon-Idaho game Wednesday night. The Vandals won 60 to 52. Other Vandals standing by are Dex Lincik (7), Joe Grove (14), Dick Geisler (10), and Roy Irons. Oregon players are Paul Cooper (24), and Ken Seeberg. The referee is Tim McCullough.

## Picture Schedules Posted For People Living Off Campus

Gem picture schedules will continue Monday, announced Phil Schnell, Gem editor, yesterday. Off campus students who have phones will be contacted individually for picture appointments during the coming week.

Students living off campus who do not have phones are requested to sign the picture schedules posted on the main bulletin board in the Ad building during next week. Living group picture schedules will be posted in all houses and halls today and Saturday.

## Living Group Schedules

Picture schedules for men's living groups are as follows: Monday, January 10, Alpha Tau Omega, Campus Club, Willis Sweet, Chrisman, Lindley, and Delta Tau Delta. Tuesday the following pictures will be taken, L D S Institute, Phi Delta Theta, Phi Gamma Delta, Delta Chi, Kappa Sigma, and Phi Kappa Tau. Wednesday's schedule includes Sigma Alpha Epsilon, Sigma Chi, Tau Kappa Epsilon, Lambda Chi Alpha, Phi Eta Sigma club, and Sigma Nu.

The following pictures will be taken Thursday, Alpha Chi, Forney, Hays, Alpha Phi, Tri Delta, and Delta Gamma. Friday, January 14, the schedule includes Kappa Alpha Theta, Gamma Phi Beta, off campus girls, Beta Phi, and Ridenbaugh, and Kappa Kappa Gamma.

The deadline for having Gem pictures taken is Friday, January 14. Persons desiring further information concerning pictures may contact the Gem office in the Blue Bucket or Bruce Seranton, Beta Theta Phi.

## Executive Board Names Five To Study Radio KUOI Needs

Feeling that an emergency appropriation is mandatory to insure continued operation of station KUOI, the ASUI executive board, at a meeting just before the holidays, named a committee to determine specific needs of the station and the necessities.

"Since this definite action by the board, the atmosphere around KUOI has become decidedly optimistic. Everyone is talking about a new transmitter, new turn-ables, and other improvements for the station. One might be led to think that an air of melancholy and pessimism had been prevalent around the campus station, and to those in the know this feeling has been evident," Harry Howard, station manager, told the board.

Staff members believe there is a reason for their low morale. Old equipment has all but fallen apart. Coverage of the campus was reduced and in some cases cut out entirely when a new transformer was installed by the Washington Water Power company. The situation has existed all year and has not been ignored by those in a position to help the station.

**Would Handle As Argonaut**  
Station KUOI approached the executive board in October in an attempt to make some arrangement whereby ASUI would sponsor the campus station. At this board meeting every angle of such a move was thoroughly discussed. Board members thought at the time KUOI could be handled in much the same manner as the Argonaut, by placing it in one of the ASUI departments. However, ASUI was asked to prepare for the executive board a report on the

## Winter Blankets Campus In Serene Beauty

Scenes such as this prove that the Idaho campus can be a beautiful place in winter as well as the rest of the year although zero and sub-zero weather at times keep the student from noticing. The picture above was shot from in front of the Gamma Phi house toward the Ad building. (Schnell photo.)

## Snow Removal Difficult

As the university digs out from under the heaviest December snowfall on record, I ask for patience and tolerance on the part of both faculty and students. Never in the university's long history have we had such a snow problem. True, we have had more snow on the ground at one time. But when those heavy snows fell we didn't have a thousand student-owned cars on the campus or four major veteran and faculty residence areas in addition to the main campus.

Although most people probably are concerned with the snow and take heat for granted, the university's top maintenance problem right now is heat. It probably will continue to be the rest of the winter. The central heating plant is going through expansion and modernization. This prolonged cold spell with the unprecedented early snowfall catches us at a most undesirable time. It has been tough and go the past two weeks to keep the university buildings heated.

The Department of Buildings and Grounds has been instructed to give heating plant operation top priority over all else. That is a round-the-clock assignment. No other job is to interfere in any way with heating plant operation.

Next comes snow. The university does not have snow removal equipment adequate to handle such a heavy snowfall. Moreover, it has no budget for such a costly operation. The Department of Buildings and Grounds will, however, handle snow as speedily as equipment and personnel permit. Fortunately we do have graders, bulldozers, and tractors acquired from war surplus which are being used on snow. These, however, are too light for the job confronting them.

First attention in snow handling will be given to streets and campus driveways. Next attention will go to parking areas. In both the streets and parking areas, snow removal is complicated by cars in dead storage, some of which are not registered with the university and ownership cannot be determined. Both the city and the university are forced reluctantly to take action against them.

Because heating plant operation will continue to have top priority, I want to repeat my request for patience in event of further heavy snows during the remainder of the winter. The Department of Buildings and Grounds will do all it can on snow removal but heat will continue to come first.

J. E. BUCHANAN, President.

## Public Enemy No. 1

Man's civilization has often been threatened and his destruction has often been predicted. According to various authorities, machines, atomic bombs, insects or overpopulation would put a stop to the pleasant life of homo sapiens. Now however, arrives a new danger, a very real danger—the shuffleboard.

Shuffleboarding is kind of a combination between horse-shoes and craps shooting. Or maybe it is more like a combination between ice hockey and pitching pennies. That is relatively unimportant.

The important thing is that it is threatening our way of life. Already there are five of the things in Moscow. One—in a restaurant—leaves the patrons without an appetite. Three others—in taverns—have forced the tables closer together, caused the lights to be brightened, and undoubtedly decreased the consumption of the amber fluid. A shuffleboard requires a steady hand.

Thus such extracurricular activities as eating and drinking have been curtailed. The next shuffleboard may spring up anywhere. Tomorrow there may be one in the library thereby destroying the quiet in that haven of sleep.

But most alarming is the trend indicated by the appearance of the fifth shuffleboard. Its installation resulted in lights in the last dark room on the campus.

One student has expressed the opinion of many. Said he: "The menace must be stopped. The shuffleboard must go, kissing on porches is forbidden and it's too cold to stand in the snow."

—H. R.

## Vets Must Notify VA Of Additions

Veteran-students who acquire dependents or additional dependents while in training under the GI Bill should notify Veterans Administration as soon as possible, so that VA can determine whether they are eligible for increased subsistence payments.

Notice of change in dependency status should be sent to the VA regional office in which the veteran's records are kept. The notice should be accompanied by legal evidence of dependents, such as a certified copy of public record of birth, baptism, or marriage.

Subsistence payments will be increased as of the date of legal evidence is received by VA and will not be made retroactive to the date the veteran actually acquired the dependent.

Monthly subsistence allowances for veterans studying full-time in schools are \$75 for those without dependents, \$105 for those with one dependent, and \$120 for those with more than one dependent.

Familiarity breeds contempt.

## Form Hockey Club

A meeting will be held in the women's gym at 4 p. m. today for all those interested in forming a hockey club and electing officers.

Jean Wardell, field hockey manager, said that the proposed club will become a part of the new WRA program.

## CLASSIFIEDS

LOST:—ONE WOMAN'S PLAIN gold ring with pearl set. Lost Tuesday in Blue Bucket women's lavatory. If found please return to Margaret Austed, Delta Gamma, or phone 2117.

CLEARANCE SALE:—POST Xmas vacation sale on used ATO fraternity pins. Like new. Might be termed "war" surplus.

WANTED:—AGGRESSIVE LAW student wanted as our representative. Earn \$100 to \$300 the first part of next semester. For further details, write Terrace Law Publishers, Inc., 829 Margaret St., Flint, Michigan.

## Why, Oh Why, Did I Leave Wail Students Upon Return

By Virginia Orazem  
Vacation days have come and gone, and campus affairs are once again getting in swing. Cold breezes have bred an ill wind for the Idaho campus by those fortunate persons who spent vacations in California.

A recent poll among Idaho students brought varied remarks to the question: "How does it feel to be back in school after vacation?" Most of them seemed to agree that vacation never should have ended.

Peg Harris, Forney: "What vacation?"  
Ray Kinmonth, Beta: "It's all right, I guess, sober."

Betty Loman, Alpha Chi: "I'll be ready for another vacation in seven more days."

Omar Campbell, Willis Sweet: "It's good to be back in the swing of campus affairs."

Bonnie Oman, Ridenbaugh: "I feel as though I've been back for years instead of five days."

David Klehm, town: "I wish Idaho was on the quarter system to have finals before vacation."

Pat Dwyer, Tri-Delta: "Ugh!"  
Dean Laughlin, Lindley: "It would be pretty good if finals were over."

Joan Price, Hays: "I haven't been back yet (mentally)."  
Paul Araquistain, Phi Tau: "A great place to relax."

Ben Chichester, town: "I wish they wouldn't throw quizzes right and left just after vacation."

Calvin Wilson, SAE: "Terrible. It's too darn cold."  
Bill Greenwood, Willis Sweet: "California, here I come!"

## Scientific Meeting Honors Steffens

Dr. H. W. Steffens, head of biological sciences, was elected chairman for next year at the 22nd annual meeting of the Northwest Scientific Association held December 27 and 28 at the Davenport hotel in Spokane.

Other University of Idaho faculty members elected were: Dr. J. I. Jolley, department of chemistry, trustee and chairman of the chemistry, physics and mathematics section; Dr. L. C. Cady, secretary-treasurer; and Professor G. O. Bake, secretary of the soil conservation section.

Everybody likes to see a broad smile, especially if she smiles at him.

## Library Has Guides To Aid Those Seeking 'A' Papers

By Darwin Cogswell  
How many students would like to "pull an A" on their next research paper? Naturally everyone would, and here is the key to success.

Study carefully the display case in front of the first floor library. In it you will find a guide which has been prepared by the library staff on how to use the library.

According to Lee Zimmerman, librarian, the number of students who know how to use a reader's guide, indexes, the card catalog, and other guides for securing information, is very low. Some students think it is a disgrace or it shows a display of ignorance if they ask how to find information at one of the desks. In reality, it will help them a great deal in school as well as later.

"Our everyday life is so complex that we must rely on the library for information, and the person who can use the library correctly will be far ahead of the others," said Zimmerman.

Booklet Aids Faculty  
The next issue of the "Bookmark," a publication of the university, will appear in about two weeks. The booklet is a list of all new publications the library receives and is released every two months for the convenience of the faculty. It is also at the disposal of interested students and contains some reports of books and other valuable information from Zimmerman.

Some universities require all students to take a short course on getting acquainted with the library. Although Idaho has no such course, every student will be far ahead if he takes a few minutes to study carefully the display in front of the first floor library.

WHEEL CHAIR STUDY  
Forty-six paraplegic veterans—paralyzed from the waist down—are enrolled at the University of California at Los Angeles this term. This is the largest group of "wheel chair scholars" ever to be enrolled at U.C.L.A. and the largest group on any campus in the United States. Twenty-six are old students and twenty are new students.

Enrollment is open to a limited number of college graduates and will start late in August. For catalogue and information apply to T. North Whitehead, management training program, Radcliffe college, Cambridge 38, Mass.

## Radcliffe Offers Grads Fellowships

Management training fellowships are being offered in administrative personnel work by Radcliffe college, according to a notice received from directors T. North Whitehead and Ragnhild J. Roberts. Graduate women students interested in personnel administrative work are urged to apply.

The ten month fellowship program includes seven months of class instruction under faculty members of the Harvard graduate school of business and others. Selected full time apprentice work in business, government, and other organizations complete the program.

Enrollment is open to a limited number of college graduates and will start late in August. For catalogue and information apply to T. North Whitehead, management training program, Radcliffe college, Cambridge 38, Mass.

## Infirmary

Students admitted to the infirmary during the vacation were Frances Misson, LaVern Anderson, Dale Douglas, and Merle Stratton. Lennart Lundstrom and Betty Jane Foss were discharged early this week.

## Antimony Project Research Started By University

Because Idaho is the nation's largest producer of antimony, there is a new research project in gold and silver recovery underway at the university school of mines.

That's not metallurgical double-talk. Gold and silver occur along with the antimony in Idaho ore and the separation of these metals presents a recovery problem.

Under a special research fellowship, Harry K. Burke is doing some experimenting on possible ways to recover gold and silver more efficiently and economically. In this study he is working under the personal supervision of Dean A. W. Fahrwald of the school of mines and Joseph Newton, professor of metallurgy.

Studies Antimony  
Burke came to the university last fall from the Yellow Pine mine at Stibnite, source of most of the antimony produced in Idaho. Following a year of employ-

ment at the mine he became ambitious to do graduate study and tackle through research one of the problems suggested by the antimony industry.

"Our antimony research, a cooperative enterprise bringing together the university, the Idaho bureau of mines and geology, and the antimony producers, is of considerable technical and economic interest," comments Dean Fahrwald. "The research has for its purpose determination of the technical and operating conditions required in the fuming of the metallic antimony to be produced by the smelter now in process of construction by the Bradley Mining company at Stibnite."

# Ridenbaugh And Lindley Plan Semi-Formal Dances

Campus post-Christmas social life includes reminiscing over the big dances held before vacation and looking forward to the ones in the future. Ridenbaugh and Lindley lead the calendar with semi-formal dances to be held this week-end. The annual Pi Beta Phi ski dance will be given Saturday night.

### Kappa Kappa Gamma

House guests December 11 and 12 were Lois Hart, Spokane, and Rosita Alegaris, Boise. Christmas fireside was held Sunday, December 12. Carmelynn McMahon was the general chairman. Girls and dates attended with the Kappa hushers as the special guests. Buffet dinner was served and dancing and card playing enjoyed.

Dinner guests Wednesday included Mr. and Mrs. William R. Davidson, Mr. Glen Lockery, and Miss Ruth Erickson, all of the music department.

### Delta Chi

The annual Pirate's dances were held December 10. An informal dinner, prepared by Mrs. Edwards and Mrs. Vandy Walder, started the event. Lee Sumner, George Neumayer, Russell Moffett, and Warren Keating served. Tom Fife acted as master of ceremonies of the program including Jeanne Foster, Dan Pederson, Jack Gregory, and the Delta Chi trio, consisting of Gene Allen, Jack Gray, and Gaylord Andrees. Dan Pederson was in charge of decorations and Cub Lyons' orchestra played. Patrons and patronesses consisted of Mr. and Mrs. L. M. Markhart, Major and Mrs. E. E. Lundak, and Captain and Mrs. R. L. Jones. Costume prizes went to Jo McBride and Bill Emerson.

Dinner guests Wednesday, December 15, were Mr. and Mrs. Ivan Woods.

### Ridenbaugh Hall

Semi-formal house dance will be given Saturday. "Snowfall" has been chosen as the theme, and arrangements have been made for music by Six-of-a-Kind. Shirley Rathbun was a house guest during the week.

### Sigma Nu

An informal fireside will be held Saturday night.

### Tau Kappa Epsilon

The 50th golden anniversary of TKE will be celebrated by the Idaho chapter at a joint banquet with Alpha Gamma chapter of Washington state, January 16.

# Tree Disease High Says Dean Jeffers

"Loss from pole blight in western white pine is even more serious than we first thought," reports Dean D. S. Jeffers of the school of forestry.

Through a special research project, the Idaho forestry school is spearheading an all-out attack against this disease, which is attacking most seriously pines between 40 and 100 years of age—commonly called "pole size" trees. "What the actual loss to date is we do not know," the Idaho dean added. "However, Dr. T. S. Buchanan and his assistants are analyzing conditions from every possible angle. They have established test plots, are making cultures of various fungi, are studying the soil conditions, and are analyzing the wood and foliage of healthy and diseased trees. In short, in true research fashion every lead which might give possible promise of an answer is being followed."

# Pre-Med Students Acquire Schools

Nine Idaho pre-medical students have been accepted for entrance to medical schools throughout the country for the fall semester of this year.

Students and schools are: Frank Mather and William Matthews, University of Oregon medical school at Portland; LaVerne Erickson and Neville Williams, Washington university at St. Louis; William Marineau, Northwestern university medical school at Chicago.

Others are Raymond Ashworth, George Washington university medical school, Washington, D.C.; James Mann, university of Utah medical school at Salt Lake City; Dwight Akers, Boston university school of medicine, Boston; Dean Dimick, University of Chicago medical school at Chicago.

### FEATURE GODDESS OF LOVE

"One Touch of Venus" is the theme of an inter-dorm formal to be presented tomorrow night by Lausanne and Frederickson halls at Willamette university in Salem, Oregon.

# New Dance Book Shows How On 100 Steps

In his Round Dance Book, Lloyd Shaw creates the spirit and gives instruction for more than 100 old-time American round dances and mixers. Dance enthusiasts and recreational leaders will welcome this addition to Shaw's volume of Cowboy Dances. With the revival of square dancing, the old round dances, waltzes and schottisches, polkas and mazurkas, are becoming popular. It is customary to do two squares, then a round dance or mixer. Old-time round dances also add spice to a program of modern dancing.

Historical notes and bits of gossip about the dances open the chapters followed by recommended music and available records.

To make directions clear, the easy-to-follow steps are described move by move in such simple words as Shaw would use with a partner on the dance floor. The names of the detailed variations invite the dancer to try them. Two-step variations include the Racket, Cotton-Eyed Joe, Tarantula Boom de-ay, Glow Worm Gavotte, and Buffalo Glide. Dance committees will find the chapter on circle mixers a source of standard and particularly lovely dances which may be used to warm up a party or to alternate with other dances.

The text is well illustrated with photographs of youthful dancers in picturesque round dance poses. Shaw's fun-loving spirit and natural teaching ability make this an interesting and useful book.

### WITH THANKS

In appreciation of the assistance and the encouragement given in a time of great need, Mr. and Mrs. Francis Ryset wish to thank the various living groups and individuals of the university and the community of Moscow for the generosity and kindness which was shown after the contents of the Ryset trailer home were destroyed.

Signed  
Mr. and Mrs. Francis Ryset.

# Five Idaho Coeds Announce Engagements Over Vacation

Mr. and Mrs. M. F. Denevan of Bovill announce the engagement of their daughter, Helen Jean, to Halilan L. Burrus, Jr., son of Mr. and Mrs. H. L. Burrus of Moscow.

The announcement was made at the Pi Beta Phi house, of which Miss Denevan is a member, during dinner December 16. A small Santa Claus as the table centerpiece displayed the ring in his hand, and sprigs of holly at place settings held cards reading "Hello, and Gubbe." Red candles continued the Christmas theme.

Miss Denevan is a sophomore majoring in home economics. Burrus, who is affiliated with Phi Gamma Delta, is a junior in pre-law, and plans to continue his training in pharmacy in Pocatello. Tentative plans have been made for a summer wedding.

### Wallace-Smith

The engagement of Jean Wallace, daughter of Mr. and Mrs. J. B. Wallace of Soda Springs, to Oron H. Smith, Jr., son of Mr. and Mrs. O. H. Smith, was recently announced at a dinner given at the Alpha Chi Omega house.

Her ring was attached to a nosegay of mistletoe and red carnations. Individual announcements of mistletoe tied with red ribbon and silver bells with name cards reading "Jean and Smitty" were at each place.

Miss Wallace is a sophomore in the school of letters and science, and Smith, a member of Alpha Tau Omega, is a junior majoring in accounting.

Plans are made for a wedding in August.

### Shenberger-Carothers

F. C. Shenberger, Twin Falls, announces the engagement of his daughter, Lois, to Lloyd Carothers of Sandpoint. Announcement of the engagement was made January 3 at a "welcome home" party at the Kappa Alpha Theta house. A poem describing Lois and Lloyd pointed to the diamond solitaire on her left hand.

Miss Shenberger is a sophomore majoring in English and is a member of Kappa Alpha Theta. Mr. Carothers is a junior majoring in psychology. No definite wedding plans have been announced.

### Green-Beitz

Mr. and Mrs. John L. Green, Tacoma, announce the engagement of their daughter, Pat, to Willard Beitz, son of Mrs. Elizabeth Beitz of Vallejo, California.

# Second Concert Set For Pullman

John Tyers, baritone, will appear at Bohler gymnasium at 8 p.m. Wednesday as a second in the series of community concert series offered to Idaho and Pullman students and townspeople this season.

Tyers has recently returned to the concert stage following a successful recital tour in 1947. He triumphed as a star of light opera productions in Los Angeles, New York, and London.

Idaho students will be admitted on activity tickets. A bus will be provided to take students to Pullman if weather conditions permit.

### TRAVELS TO BOISE

President J. E. Buchanan traveled to Boise Thursday for a conference with A. H. Reading, Idaho state budget director, concerning heating plant needs. Buchanan will return to Moscow Sunday.

Miss Kneale will graduate in June with a B.A. in English. She lives at Hays hall.

Mr. Brede was a lieutenant in the Marine Corps and graduated from Princeton securing a degree in chemical engineering in 1947.

No date has been set for the wedding.

# Students Warned Against Clipping

The library staff has recently issued a call enlisting the aid of students in preventing destruction of newspapers, periodicals, books and other reference materials.

Prior to the vacation period, announced librarian Lee F. Zimmerman, several magazines and leaflets were found with entire articles clipped out.

"People mutilating the reference material probably are not

aware that these publications are retained for reference use for later years," stated Zimmerman. "When articles are clipped, the value of the entire publication is destroyed as the copies must be complete if good reference service is to be given.

Attention is called to Idaho Compiled statutes 1919, sections 1287 and 8086, which state that misdemeanors charged from willful mutilation or destruction of library materials are punishable by imprisonment in a county jail not exceeding six months or by a fine not exceeding \$300 or by both.

### Advisors and Directors Named To Campus Groups

Advisors and faculty directors of campus organizations and clubs for 1949 have recently been announced. Following is a list of advisors for all honoraries, professional groups, church clubs, and other organizations.

J. W. Martin will counsel the ag engineers; and H. A. Winner, the ag club. Alpha Epsilon Delta will be advised by Dr. W. A. Cone; Alpha Lambda Delta, Mrs. Katie Rae Boyer; Alpha Phi Omega, Dean Ralph Farmer, T. A. Brindley, and Everett Ellis; American Society of mechanical engineers, Norman Hindle; associated engineers, Dean Allen S. Janssen; associated foresters, Dr. White and Ellis; associated miners, Joseph Newton; and Attic club, Miss Mary Kirkwood and Alfred C. Dunn.

#### Other Advisors

Other advisors include Blue Key, Fred Watson; Business school chamber of commerce, Dean Ralph A. Farmer, Dr. William Folz, Professor W. J. Wilde; Canterbury club, Rev. Norman Stockwell; Chemical Engineers, Dr. C. O. Reiser; and Civil Engineers, W. W. Tinswood. Miss Jean Collette will advise Curtain club; Delta Mu, Mrs. W. P. Lehrer; Delta Sigma Rho, Dr. A. E. Whitehead; Eagle and Anchor, Captain N. H. Carver; Electrical Engineers, Professor J. H. Johnson; French Soiree, Professor Arthur Beattie; Hell Divers, Eric Kirkland and Miss Mary Fram; Home Economics club, Miss Elsie Nielsen and Miss Margaret Ritchie.

"T" Club is directed by W. J. Wilde; Idaho Engineer, N. H. Hall; Idaho Orchestra, Miss Willa Steelman; Intercollegiate Knights, Paul Lonardo; International Relations club, Professor Robert Hosack; Kappa Delta Pi, Dean J. F. Weltzin; and KUOI, Professor Paul Man, technical, and Carl Wermine, program. Lambda Delta Sigma is advised by Dr. George S. Tanner; Mental Hygiene association, Dr. H. C. Harmsworth, and Dr. Eugene Giles; Mortar Board, Miss Jean Collette, Dr. Boyd Martin, and Dean Louise S. Carter.

#### List Is Completed

Pem club advisors are Miss Mable Locke and Leon Green; Pershing rifles, Capt. H. H. Zimmerman; Phi Alpha Delta, George Fraser; Phi Chi Theta, Miss Opal DeLancey; Phi Eta Sigma, Dr. Erwin Graue; Phi Mu Alpha, Professor Glen Lockery; Phi Upsilon Omicron, Miss Margaret Ritchie, Mrs. Melva Hoffman, Miss Adah Lewis, and Miss Elsie Nielsen; Rogert Williams club, Carlton McMullin; Scabbard and Blade, Major H. N. Miller; and Sigma Alpha Iota, Miss Marian Frykman and Mrs. Marjorie Jordan.

Sigma Delta's advisor is Paul T. Scott; Sigma Tau, Professor J. Hugo Johnson; Ski club, Mrs. Janet Taylor; Spurs, Mrs. Katie Rae Boyer; Theta Sigma, Mrs. Geraldine Wren; Vandaleers, Professor Glen Lockery; WAA, Miss Natalie Wells, Miss Mary Fram; Wesley Foundation, Rev. Ernest P. Goulder, Mrs. Mildred Bliss; Westminster Guild, Rev. and Mrs. D. W. Clayton; Women's "T" club, Miss Natalie Wells; and Women's Rifle club, Major S. L. Olson.

### Cooking Students Really Handle A Spud

Toss a potato—especially an Idaho potato—at the advanced cooking class of the home economics department and the class will come up with a tasty new recipe.

Recipes coming out of the class in recent years cover the making of such mouth-watering delicacies as chocolate potato cake, mashed potato rolls, hamburger with mashed potato, and egg potato roll.

"We are eager to share them with any housewife who wants to add to her collection a new way to use potatoes—particularly Idaho potatoes," said Miss Adah Lewis, who teaches the class.

In impressing upon her students the excellent food values of the potato, Miss Lewis has the backing of the home economics research section of the Agricultural experiment station.

### VA Warns Veterans

All veterans who will not return to the University of Idaho next semester should notify the Registrar by filling in a request for leave of absence so that the Veterans Administration may be notified.

Veteran training must be interrupted for those who are not returning, otherwise veterans will probably receive a check for January which will have to be returned to the Veterans Administration.

### Couples Meet In Badminton Rounds To Be Played Sat.

"All opening rounds of the mixed-doubles badminton tournament will be played or forfeited by 4 p.m. tomorrow," Manager Eileen Walton announced.

The women's gym is open for the game playoffs on Saturday from 11 to 12 a.m. and from 2 to 4 in the afternoon. During week days it is open from 9 to 10 a.m. on Tuesday and Thursday, and from 4 to 5:30 p.m. on Wednesday.

#### Couples Named

In the opening rounds of the competition, couples matched against one another are Thomas-Marshall vs. Hardin-Shaffer, D. Johnson-Dingle vs. T. Johnson-P. Grant, Fickling-Hersberger vs. Haener-Krey, McKeivitt-Clark vs. Stringfield-Gaut, Cortner-Carson vs. McKay-Fisk, Batt-J. Madison vs. Hlrshi-Wardell, Harrison-George vs. Schroeder-M. Madison and Mears-Butte vs. Holton-Schmid.

Others are Chaney-Fulton vs. Finney-Powers, Thiel-Koon vs. Frush-Oman, Sperry-Whitell vs. Scull-Evans, Komoto-Erickson vs. Smith-Bowman, Bailey-Way vs. Newland-R. Grant, Nokes-Havens vs. Shaw-Kettenbach, Miller-Tisdale vs. Olmstead-Bowden, Daily-Dammerell vs. Merrill-McEntee, and McCormack-Johansen vs. Zobel-Bradley.

If players wish to forfeit, they are asked to contact Miss Mary Fram at the women's physical education department, Miss Walton added.

### Here's More About—Executive

operation and general condition of the station.

At a board meeting just before Christmas Howard submitted the report and KUOI was again up for consideration.

To Amend ASUI Constitution Under the ASUI constitution, KUOI could come under one of the departments only by constitutional amendment. Since conditions at the station would not permit postponement of action until spring election, the board decided an emergency appropriation must be made to insure operation of the station until a more permanent arrangement can be made.

Named on the committee with Howard to determine the immediate needs of KUOI were Charles Hudson, acting chief engineer; Glenn Southworth, regional technical advisor for IBS; Carl Wermine and Paul Mann, faculty advisors for the station.

The committee is to report at the first executive board meeting in January, and action will be taken following the report.

Public Service Value In making an emergency appropriation the executive board recognizes not only the problems that KUOI faces but also the value of the station as a public service to the university and as a means of acquiring experience for staff members who go on in the field of radio.

KUOI has been operating on an average income of \$35 a month, earned by renting the station's "dance band sound systems." Even with such limited resources the station has provided several people with a start in the realm of radio and has also given Idaho students a variety of radio entertainment.

Howard is now working as a sportscaster of the Pacific Coast basketball games for the Tidewater Associated Oil company; Grant McDaniel, former chief announcer at KUOI, and Bill Denton, former KUOI sportscaster, are now with station KWSC. Orval Hansen, present business manager at KUOI, worked for station KIDO, Idaho Falls, as a result of experience at the campus station.

An exclusive service of KUOI is to broadcast all home baseball games and freshman basketball games.

The value of KUOI is evident—its needs apparent.

### Delta Chi Elects

Bob Benson was elected president of Delta Chi fraternity recently. Other newly elected officers include Don Whiteman, vice president; Frank Gaylord, secretary; Wally Pohlod, corresponding secretary; and Bob Newell, pledge master.

### Idaho Researchers Test Five Types Of Vegetables

Tomatoes, spinach, corn, cauliflowers, and snap beans have been making news in the University of Idaho's vegetable research. In both northern and southern Idaho, the university, under its special research program, has been testing varieties for canning and freezing.

A Sioux invasion of the Lewiston valley is in prospect this coming year, reports Dr. J. E. Kraus, head of the department of horticulture. These Sioux, however, are tomatoes—not Indians.

As a result of the exceptional records made by the Sioux variety in the trial grounds at Lewiston and their own tests, Smith, Frozen Foods plans to set out around 200,000 Sioux plants this spring. At about 4,000 plants to the acre this will mean at least 50 acres devoted to the new variety.

#### Earlier Processing

"We are pushing the Sioux above all others," Manager L. J. Leavitt of the Lewiston company informed Dr. Kraus. The Sioux tomato was originated at the University of Nebraska and named after the Indians that once roamed the Great Plains. Performance records at Lewiston, Dr. Kraus explains, indicate it an early producer yielding a higher percentage of U.S. No. 1 fruits than any other commercial canning variety tested.

"With Sioux, the canners can start a week to ten days earlier than with varieties now grown," he adds.

The Sioux tomato had no monopoly on big yields at Lewiston. Kaare Aamlid, a native of Norway who is doing graduate research work in horticulture at the University of Idaho, raised all of the principal cauliflower varieties now grown in the United States, plus four varieties he secured from Denmark. "Some of the yields here secured were exceptional, up to 4 and 5 tons per acre after trimming," Dr. Kraus related.

#### Bantam Corn Best

Field yields at the Parma branch station have proved conclusively that Golden Cross Bantam sweet corn is tops for both canning and freezing in that section. Processors are growing it almost exclusively, as well as home gardeners.

The vegetable research schedule for 1949 includes spinach, asparagus, and snap beans. Spinach variety trials will be undertaken to determine the possibility of using this crop for early spring processing. With a similar objective in mind, an asparagus nursery was started at the Parma branch station last year, and the permanent bed will be planted in 1949.

"Because both canners and freezers are interested in adding snap beans to their list of products, we will conduct trials at several points in 1949 to obtain further data as to which varieties are best adapted to Idaho," Dr. Kraus continued. "The vegetable processing industry in Idaho continued to expand in 1948 and processors are looking for new products. Our special research projects are helping them find them by testing the various varieties."

### Miners' Banquet Held Last Night

John Miller, former graduate of the University of Idaho, discussed mining operations and showed films at a banquet sponsored by the Associated Miners of the university at the Hotel Moscow last night. Members of the faculty, students, and friends attended.

Miller is one of the graduates who make it possible for the University of Idaho school of mines to point with pride to the fact that its former students are outstanding in each of the world's major mining areas, according to A. W. Fahrenwald, dean of the school of mines.

Receiving his degree in geology in 1936, Miller has for the past 10 years represented an American oil company in Colombia and Venezuela, South America. He has taken many movies concerning customs, advancements, projects, and business possibilities in South American countries.

Miller will appear before several geology and mining classes today to give them a more technical account of his activities in South America.

#### Hear Dietitian

Freshman home economics students were told of possibilities in dietetics and nutrition careers by Audrey Hartman, Hays hall dietitian, at a recent orientation class meeting.

Miss Hartman, formerly on the dietetics staff of Christ's Hospital, Cincinnati, Ohio, is an Idaho graduate.

### Students Compete Essays On Isms

Matthew Woll, chairman of the Workers Education Bureau of the American Federation of Labor, recently announced an essay contest for undergraduate students in U.S. colleges on the subject of "What Ism Do You Choose: Anarchism, Communism, Fascism, Socialism, Americanism?"

Six prizes will be awarded to winning papers March 6 at the 25th anniversary dinner in the Waldorf-Astoria hotel. First prize is \$350. Judges are professors in eastern universities.

A new autobiography, Tomorrow Is Beautiful, inspired this contest. The project is not, however, an effort to promote book sales. This book is an intimate story of four decades Lucy Robins Lang spent fighting social injustices.

#### BUSY JUNIOR WEEK

Revival of "Junior Week" has been demanded by many students at Boston college. The program for the week, which was suspended during the war years, includes a Communion Breakfast, Junior Prom, a Sports Night, a roller skating party, a banquet, perhaps a night at a concert and an informal.

### Qualified Veterans May Win Commissions In Regular Army

Reserve Army officer commissions and extended active duty tours are available to qualified college men under three plans offered by the department of the Army, Colonel C. F. Hudson, professor of military science and tactics at the university announced today.

Qualified veterans of any of the armed forces, between the ages of 19 and 32, who have completed two years of college, can apply for immediate commissions as second lieutenants in the officers' reserve corps. Successful applicants are given a 12-week training course and a two-year tour of active duty with the Army, and the opportunity to compete for a regular army commission.

Men between the ages of 19 and 28 can enlist in the Army for the purpose of attending Officer candidate school. Graduates of the 24-week course are commissioned second lieutenants in the Officers' reserve corps and begin two years of extended active duty. Outstanding OCS graduates are offered commissions in the regular army. Others may compete for regular army commissions while serving on active duty.

Former World War II army officers, who do not hold reserve commissions, may apply for extended active duty tours, provided they concurrently submit an application for a reserve commission. Applications are considered from lieutenants and captains who are under 47 years of age.

Colonel Hudson emphasized that it is not the policy of the Army to interrupt young men's education. The three offers for a commission, he explained, are directed toward men who are about to be graduated or who plan to leave school at the close of the coming semester.

#### BAC DEGREE DROPPED

The BAC degree at the University of Columbia has been discontinued. The "Bounced-at-Christmas" degree is the tag applied to students who failed in past years to make required marks on Yule tests and thus were graduated prematurely.

#### RELIGION DEPARTMENT

A new department in the field of Religious Thought, which will be part of the College of Arts and Sciences and will offer courses at both the undergraduate and graduate levels, will be inaugurated by the University of Pennsylvania for the opening of the academic year of 1949-50.

"How many kinds of wood are used in making a match?"  
"Two kinds," came the prompt reply "He would and she would."

If It's Good to Eat  
You'll Find It At  
**ROLLEFSON'S**

### NAB Offers Prizes For Best Scripts In Radio Contest

Several valuable script writing scholarships are being offered this year by the National Academy of Broadcasting, Washington, D. C., in celebration of its fifteenth anniversary. The contest, open to undergraduate college students, will close February 1.

A grand prize of 16 weeks of professional training at the residence school in Washington will be awarded. This scholarship will cover all phases of broadcasting studio work, including foreign language pronunciation, control-board operation, and music appreciation. Qualified judges will make awards on the merits of scripts submitted. All original continuity, commercial, or drama scripts will be accepted.

#### Trained Personnel Needed

"The demand for trained personnel in radio is growing so rapidly," announced Miss Alice Keith, president of the broadcasting academy, "that most of September's graduates were placed in stations within two weeks after commencement."

Script writers trained to announce, produce, or do public relations work are in special demand. College women interested in conducting broadcasts for women and children or in directing programs are especially needed.

Students interested may write directly to the National Academy of Broadcasting, 3338 16th Street, N. W., Washington, 10, D. C.

### Lenander Leads Idaho Marksmen

Scoring 927 out of a possible 1000 shots, team one of the ROTC small bore rifle team units recently led the other three Idaho teams firing in the national William Randolph Hearst trophy match. Team two fired an 857 score, team three made 840, and team four trailed with 834.

Individual first team scores were: Lean Lenander, 190; Walter Shaw, Dean Lelander, 190; Walter Shaw, 180; Reed Fisher, 182; Myron Hodgson, 188; and Leonard Hetrick, 187. Fred Hyland and Alex Oslund, although on the fourth team, made 183 and 182 respectively.

Results in the national match are not known as yet and are difficult to predict according to military science headquarters. The Idaho team has been regional winner in several past years.

Sharpshooter practice is now going on in preparation for the sixth army matches.

#### Need Mermaids

All women interested in participating in the intercollegiate telegraphic swimming meets scheduled for February are asked to meet at the university pool between 9 and 11 a. m. tomorrow, according to Mary Fram, instructor.

Types of swimming to be used include the back stroke, side stroke, and crawl. Women unable to be at the pool Saturday morning can contact Miss Fram in the women's gym.

### Professor And Family Find Western Life Invigorating

When Professor J. R. Williams of the college of engineering at Idaho writes his folks in Washington, D. C. about life in the Far West, they think he's stealing stuff from a movie scenario, but it's all true.

### Idaho Farms Use Spray On Grains For Weed Control

Weed control is big business on the farms of Idaho, in both the irrigated and non-irrigated sections.

"Large acreages of wheat and smaller acreages of oats and barley are now being treated with 2,4-D spray for the control of both annual and perennial weeds," reports Lambert C. Erickson and Clarence I. Seely, the special weed research workers at the university. Thirty-five counties, they report, have active weed control programs. Thirty of these counties have weed supervisors.

#### Establish Test Plots

Carrying out selective weed control in their grain fields, farmers in Latah county, for instance, operated 175 2,4-D spray rigs last year. Harry Gault, director of the Twin Falls county noxious weed control drive, reports use of approximately 10,000 gallons of 2,4-D in that county's extensive weed control campaign in 1948.

To provide information about the new chemical weed killers and how to use them the university research workers have established approximately 5,000 test plots. Practically every crop grown in Idaho and every major weed pest figures in this program, carried on in cooperation with the county weed districts, county agents, and hundreds of individual farmers.

Weed control research in the non-irrigated sections of the state last year involved 2,200 individual tests, covering 25 different crops and as many as 10 different varieties of some of these crops. Thirty different chemicals were tested.

### Get These Cars Out Of The Way

The following designated cars have been parked adjacent to university buildings for periods ranging from three to four weeks: 56458-Montana; 1L-4437; 1L-835; C-37445-Washington; and P-4482-Washington.

These cars have been a traffic hazard and have hampered workers who have been trying to keep the streets open. Furthermore, they have taken up parking space which should be open to those who drive some distance to reach the campus.

Unless the owners find other space for dead storage before January 10, steps will be taken to remove these cars from the campus.

### Change Announced In L And S College

Effective second semester, the department of English and allied subjects, one of the largest departments in the college of letters and science at the university, will consolidate and become the department of humanities. The change was announced recently by Dean T. S. Kerr, college of letters and science, following approval by the board of regents.

The result of recent consolidations in the college of letters and science, the new department of humanities brings together five fields of study. Included in this group are the department of English headed by Professor John Cushman; dramatics, Miss Jean Collette; journalism, Professor Paul Scott; languages, Dr. Arthur H. Beattie; and speech, Dr. A. E. Whitehead.

Professor Kenneth A. Hoag will head the new department of humanities. Hoag came to the university in 1935 as associate professor of English and for the past two years has headed the department of English and allied subjects.

For years and years, the two sexes have been racing for supremacy. Now they have settled down to neck and neck.

### Church News

**Westminster Forum**  
Mike McCormack, from W.S.C. will lead a discussion on: "Where will you hide?" and show a movie in connection with the A-bomb question, Sunday at 5 p.m.

**Wesley Foundation**  
A recreation and worship meeting will be held Sunday at 5, at the Methodist church. Lonnie Williams will deliver a speech on "Problems of a Country Minister."

**NAME CHANGED**  
Personal Hygiene, a course offered by the university, has been given another title, "Healthful Living," and is to be given twice a week for one semester for two credits.

### New U. Publication Sent To Schools

A new University of Idaho publication, written in five different languages, was sent this week to high schools of the state.

Called the Idaho Language Teachers' Forum, the mimeographed news letter is published as a service to the teachers of foreign languages. It contains discussions of problems and new developments in instruction. Publication plans call for four issues a year.

The Forum is edited by Professor Arthur H. Beattie, chairman of languages. Getting out a mimeographed news letter is no novelty to Professor Beattie. Throughout World War II, he edited and distributed it throughout the world to GI's who had studied at the university under the army's special training program.

# Vandals Split With Oregon; Loom as PCC Dark-horse

## Pritchett, Rainey Rated High-scorers For Idaho

### NORTHERN DIVISION STANDINGS

Team	W	L	Pct.	Pf	Pa
IDAHO	1	1	.500	108	102
Oregon	1	1	.500	102	108
WSC	0	0			
OSC	0	0			
Washington	0	0			

A free-throw in the opening minutes of the first game of the double-header between Idaho and Oregon scored the first point of the conference season, and started the Ducks on the road to a thrill-packed 50-48 victory over Idaho. The Vandals found the range in the night-cap, however, and trounced the Oregon team, 60-52.

Don Peterson, a 19-year-old sophomore guard, played an inspired game in the second half, scoring 13 points to put his team out in front with the winning points soon after the second period began.

## Time Out

By ALLEN DERR

With the Bowl games New Year's football for 1948 ended, only one of the three Pacific Coast teams to play in Bowl games came home victorious. That was Oregon State who traveled to Hawaii to soundly trounce the University of Hawaii 97-27 in the Pineapple Bowl.

Northwestern and California had a battle royal in the Rose Bowl with Aschenbrenner sparking the Wildcats to a 20-14 triumph. It took a touchdown in the last three minutes of play to do it though.

Down in Texas in the Cotton Bowl Oregon and SMU featured a match between two stellar backs, the Ducks' Van Brocklin and SMU's Doak Walker. As expected Walker outclassed Brocklin, the victory going to the Mustangs, 21 to 14.

### Idaho Ranks High

Prior to the Oregon series, Idaho ranked 4th nationally in defense having allowed their opponents an average of 40.1 points per game in 16 games, winning 10 of 12. Since the Oregon series, which they split to tie the Ducks for first place honors in the Northern Division, their opponents' average has risen to 42.8 points per game. The Vandals have averaged 46.7 points per game. So far this season Idaho has tallied 840 points to their opponent's 771.

### Second Game Different

The second contest was a complete reversal from the first, with Oregon jumping into a commanding lead in the early stages 21-12 after 12 minutes of play. The Vandals, who seem to have that "never-say-die" spirit, began to hit the hoop and within 8 minutes were leading 31-30 as the gun sounded the end of the first half.

### Pritchett paced the scoring

Pritchett paced the scoring for the evening, annexing a total of 17 points for the Vandals. Peterson was second high in leading the Ducks with 13.

### Second Game Different

The second contest was a complete reversal from the first, with Oregon jumping into a commanding lead in the early stages 21-12 after 12 minutes of play. The Vandals, who seem to have that "never-say-die" spirit, began to hit the hoop and within 8 minutes were leading 31-30 as the gun sounded the end of the first half.

### Rayley Claims Honors

As the gun sounded the end of the contest, the score board read 60-52 for the Vandals. Jack Rainey, who failed to get into the contest on the preceding night led the Vandal cagers with 15 points, all of which were scored in the first half. Oregon's 68 points were scored in the second half.

### Johnson; Skis was held

Johnson; Skis was held by Taylor; Spurs, if of the game; Theta scoring 30 points. Wren; Van Lockery; Skis; Johnson; Skis was held by Taylor; Spurs, if of the game; Theta scoring 30 points.

### Box score, second game.

Team	G	F	PF	TP
IDAHO	7	1	1	18
Rainey, f	1	1	1	13
Pritchett, f	1	1	1	13
Reed, f	1	1	1	13
Geister, f	1	1	1	13
Irons, f	1	1	1	13
Stallworth, c	1	1	1	13
Wheeler, c	1	1	1	13
Grove, f	1	1	1	13
Brimhall, f	1	1	1	13
Jack, f	1	1	1	13
Christensen, g	1	1	1	13

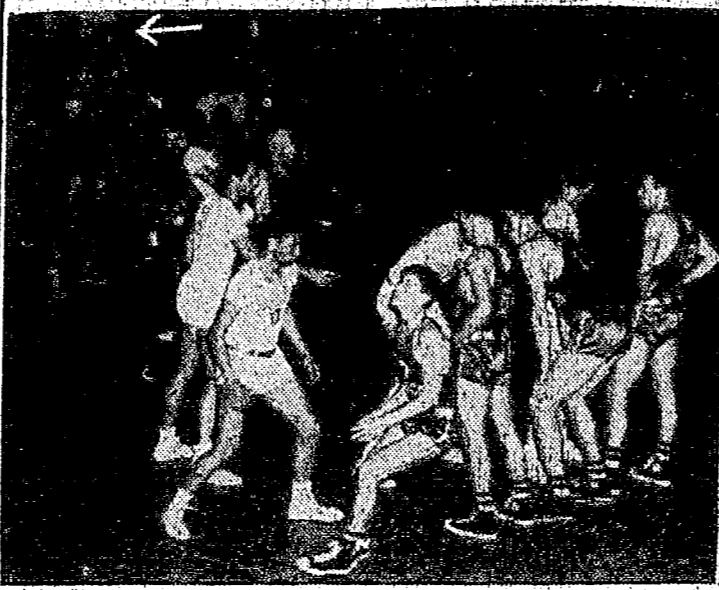

### Half-time score: Idaho 31, Oregon 30.

Free throws missed: Oregon—Urban 3, Wiley, Neeley, Stallworth, Brimhall, Grove 2, Wheeler, Irons 2, Christensen, Geister 2.

### STUDENT FEES AID

Finance secretary Charles Hoff of the University of Omaha, announced that money received from student fees is the only thing that has enabled the university to balance its budget. He pointed out that ten years ago, student fees provided 30 percent of total income, today, 63 percent.

## Action Shots Of Idaho-Oregon Basketball Game

At left, Oregon's Forward Will Urban takes the ball (see arrow) out of bounds in Tuesday's game, as the teams line up opposite one another in the key-hole beneath the Idaho basket. The purpose of this novel maneuver is to break up the Idaho defense and put an Oregon man in the clear for a shot at the basket. At right, Dex Linnick sits this one out after stumbling while dribbling up the floor.

Racing up to recover the ball for Oregon are: (left to right, in dark shirts), Forward Will Urban, Center Roger Wiley, and from the other direction, Forward Lynn Hamilton. The Webfoot quintet squeezed past, 50-48, in the opener of the two-game series Tuesday night, and dropped the second game to an inspired Vandal squad, 60-52, on the following evening.

## Freshman-Varsity Boxers Train For Coming Matches

The Idaho boxing annex has little lacking but experience these days as Coach Frank Young sends his ringmen through their paces in preparation for their first cards of the season. Only four veterans will crawl through the ropes for the Vandals this season, and two of these, Ted Diehl and Don Ellis, are fighting in the 175-pound division.

The freshmen belters meet the frosh from Washington State here on January 15, and the following Saturday night, January 17, Eastern Washington College of Education will invade the Idaho campus to test the strength of Idaho's varsity lineup for 1949.

### Wallace Popular Home Town

The town of Wallace will be well represented on the squad this season with Herb Carlson and the Walker brothers, Norm and Len, all spelling trouble for the

### Tovey-Bahr To Star

Another pair of promising punchers from last year's frosh aggregation will go into action in the 125 and 155 pound divisions. DeForest Tovey, flashy bantam weight from Malad, is expected to go a long way, as is another undereated freshman, Vernon Bahr, Weiser, who will fight in the 165 pound bracket along with Thane Johnson, a two year veteran from Idaho Falls, and Denny Bryan, a sophomore from Boise.

Coach Young turned Woodie DeLorme, Plummer, and Wilbur Ruleman, Memphis, Tenn., a pair of 200 pound football players, in-

## Six Teams To Meet In Volleyball Play

Volleyball playoffs among women's living groups will begin Monday, January 10, at 4 p. m. in the women's gymnasium.

Opening rounds of the play will see Forney hall matched against Delta Gamma, Tri-Delta vs. Ridenbaugh, and Alpha Phi vs. Alpha Chi.

Following the first rounds, a chart of winners, losers, and playing time for following games will be posted in the gym.

If a team does not appear at game time, the match will be forfeited, according to Helen Way, volleyball manager. Last year's winner of the tourney was Forney hall.

Said Billy Rose to Sally Rand: Why don't you dance without your fan? So Sally danced without her fan. Billy Rose and Sally Rand.

A weather man is one who can look at a girl and tell weather.

### Girls with hiccoughs seldom are pickaugh.

## ATO Wins Volleyball Crown; WSH No. 2 Named Runnerup

ATO took the University of Idaho intra-mural volleyball championship with a win over WSH No. 1 just before Christmas vacation, clearing the way for the 'mural basketball which began last night. The scores for the play-off were: 15-17; 15-6; 15-7.

Final tabulations show that 420 students participated in the volleyball play and more than that are expected to see action in the basketball play-offs.

Basketball illuminated the spotlight last night as twelve teams took to the courts. The results were KS 30, PGD 26; ATO 29, SC 17; DTD 29, PDT 14; LDS 52, PKT 32; SN 38, BTP 23; Campus Cafe 36, Townsman 18.

Monday—TKE vs. DC, court 1; SAE vs. TV, court 2; and CC No. 1 vs. WSH No. 2, court 3. 8:30—CH No. 1 vs. PH No. 3, court 1; IC No. 1 vs. LH No. 1, court 2; and CC No. 2 vs. WSH No. 2, court 3.

Tuesday, 7:30—CH No. 2 vs. PH No. 4, court 1; IC No. 2 vs. LH No. 2, court 2; and ATO vs. TMA, court 3. 8:30—SC vs. BTP, court 1; CAFE vs. DTD, court 2; and SN vs. PDT, court 3.

Wednesday, 7:30—PGD vs. PKT, court 1; KS vs. DC, court 2; and

## Members Report

Reports from the international relations conference held last month in Portland were presented by local delegates at a meeting of the International Relations club last night. Delegates also submitted a resolution to achieve a stronger United Nations through federation.

Our grandmothers believed that there was a destiny that shaped their ends. The modern girl puts her faith in girdles.

LUCKY ME! ABOUT TO BEHOLD THE KALIDOSCOPIC UNDULATIONS OF GRETA GAYHEART—AND ESCORTING THE MOST GLAMOROUS GAL ON THE CAMPUS

**Johnny**

LIFTS DAVE FROM LOVE'S NADIR TO CORYBANTIC ECSTASY

ROMANCE CERTAINLY SEEMS TO BE ON THE HORIZON, MY GAY LOTHARIO

OH, MY ROMANTIC ODALISQUE EVEN GRETA'S BEAUTY CAN'T COMPARE WITH—HRUMPH! ULP—HRUMPH! PARDON ME FOR CLEARING MY THROAT SO MUCH--

ROMANCE MY FOOT! YOU'VE BEEN HARRUMPHING AWAY ALL NIGHT LIKE A FULMINATING FOGHORN!

O-O! HE'S GOT CIGARETTE HANGOVER

SKIP THE SODA, DON JUAN, AND GO HOME AND DO SOMETHING ABOUT THAT BARKING OF YOURS

PLEASE, PRINCESS—HRUMPH—HRUMPH—PARDON ME--

I'VE GOT TO SAVE THAT BOY'S ROMANCE

SOUNDS SENSIBLE, JOHNNY, I'LL TRY IT

DAVE, YOU'VE GOT CIGARETTE HANGOVER. WHY NOT CHANGE TO PHILIP MORRIS, THE ONLY LEADING CIGARETTE PROVED DEFINITELY LESS IRRITATING?

DARLING, EVER SINCE I CHANGED TO PHILIP MORRIS MY THROAT HAS FELT AS SMOOTH AS YOUR OWN IRIDESCENT AURIOLA

THANK YOU SO MUCH ROMEO, I NEVER ENJOYED A MORE DELICIOUS EVENING

I'M IN SEVENTH HEAVEN WITH YOU GORGEOUS, BUT DON'T LETS FORGET TO THANK JOHNNY AND PHILIP MORRIS TOO

THE WAY YOU'RE PITCHING WOO, I'D SAY YOUR VOICE WAS NEVER MORE EUPHONIOUS

**BUILD YOUR VOCABULARY**

NADIR—As low as you can get; directly under foot.

ODALISQUE—An Oriental dancer.

KALIDOSCOPIC—Many-colored; technical, in fact.

UNDULATIONS—What panther women and serpents do, looping around gracefully.

LOTHARIO—the greatest "maker of time" before Balzac.

HRUMPHING—An Oriental charm.

FULMINATING—Exploding, thundering.

CIGARETTE HANGOVER—that stale, smoked-out taste; that light, dry feeling in your throat due to smoking.

IRIDESCENT—Changing colors, under light.

AURIOLA—Golden hair.

EUPHONIOUS—Pleasant-sounding.

**Our Story Points a Real Moral**

Our campus story has a definite purpose: to make you realize the genuine DIFFERENCE that PHILIP MORRIS possesses. We have full proof of that, but too extensive to be scientifically detailed here. We cordially invite interested students engaged in chemistry and pre-medical work, to write our Research Department, Philip Morris Company, 119 Fifth Avenue, New York, N. Y.

CALL FOR PHILIP MORRIS
