THE IDAHO ARGONAUT. Official Publication of the ASUI

gason

Cougar diplomatic inconsistency come to the fore again. Idaho ents have watched this diploocy since the "Butch" incident of fall. Nearly everyone of aurity at WSC has written letters ASUI and university officials iting that they wish to consider issue closed. However, just as letters are put in closed files Idaho, another letter arrives m Pullman bringing up some ther phose of the matter.

But now comes an even better rample of the way the Pullmanes wish to cement good relations iween our school and theirs. Bill asman, sports editor of the Everren devoted his entire column last Wednesday's paper to tearng down the reputation of Nick stallworth, Vandal center. Not atisfied with this he went one slep further to indict the entire daho student body.

Writes Mr. Gasman: "With the olume of 6000 voices blended as ne the crowd cried out its disgust for the actions of Idaho's cenler, Stallworth. Even loyal Vandal supporters voiced their opinions (unfavorable) against this overhrow of sportsmanship."

Jason challenges Mr. Gasman to protest against Stallworth. Also Buchanan. Mr. Gasman would do well to look into the situation further. Aggrathings, and is not thought of as coach. the best example of good sports-

Nick Represents Us

The crowning glory of this Cougar editor's column was the fol-Jowing charges and accusations which he hurled at the Idaho students. The following is taken from Mr. Gasman's attempt to cement

"Intercollegiate competition was originally established to provide good clean, sportsmanship competition between men . . . sportsmanship was always the most important aim. Each player represents the school whose colors he wears. Not only does he represent the school, but he also represents the entire student body, the faculty and the alumni.

"This article is not written to offer an excuse for a defeat. Idaho layed a brilliant game and de served to win. The purpose of this article is to remind those who have forgotten that basketball and all other competitive sports MUST follow rules of good sportsman-

"Under fire many players forget their manners and in an attempt to win, throw out all forms of good, clean ball-playing. For-(Cont. on Page 2, Col. 1)

Professor Sounds Off

One of those professors (naturally we refer to one of the ousted professors at the University of Washington) addressed a group of students before he left the university—either temporarily or permanently.

According to "The Washingtonian," U. of W. daily, he spent nearly all of his time proclaiming that his being fired was merely another indication that the United States is falling into the hands of the fascists. Fascists, he implied, are everywhere and that is a sad day for the U.S.

At the end of the speech he asked if there were any quesfascist professors keep their positions on the U. of W. fac-

The professor's reply went something like this: "Right of chemistry, and Geneva Fergunow I wouldn't be in favor of firing them. But in the larger son Menge, teaching assistant in sense it is going to be necessary to protect the youth of the department, put 167 score America from fascist lies.'

Firing fascist professors was obviously implied.

It is an interesting commentary—not only on communists, but also on fascists. The story applies, equally, to republi cans who say Roosevelt never did any good and to demo-crats who say he never did any harm. All of them in their

And apparently it remains the character of fanatics to see only right in their cause and only wrong in the causes of

Gem Involves Work All Year

Idaho's 1949 "annual" will be just that this year, covering the activities of the entire year from registration in the fall hours, Dr. Jolley estimates. to commencement in the spring.

Formerly, no activities beyond the latter part of March have been included in the current year's "Gem of the Mountains." The result has been that spring sports and often many of the class activities have to be carried over to the

Apparently the only disadvantage to the new plan, according to Phil Schnell, Gem editor, is that the books will not school an editor, is that the books will not school and to the storing to Phil Schnell, Gem editor, is that the books will not school and to the storing to Phil Schnell, Gem editor, is that the books will not school and the storing to Phil Schnell, Gem editor, is that the books will not school and the storing to Phil Schnell, Gem editor, is that the books will not school and the storing to Phil Schnell, Gem editor, is that the books will not school and the storing to Phil Schnell, Gem editor, is that the books will not school and the school and be available for distribution at the end of the school year, sheets which are fed to the sta-He points out, however, that even with last year's March 15 deadline, the Gems did not come back from the printers until of Dr. Jolley's classes, 77 studmid-summer. Under the new system, they will be available ents started their final exams at well in advance of fall registration.

This new change in policy is in keeping with the trend in many of the nation's larger universities. W.S.C., the University of Texas, U.C.L.A., and the University of California put 3,247 individual answer are all operating under such a plan.

The change in Gem policy initiated this year is definitely ing in grading time was estima step forward.

The story of A CHEMICAL ACHIEVEMENT

How Du Pont scientists found a way to **Moisture proof Cellophane**

There's no secret to Du Pont's successful system for making chemical discoveries. It is simply research through teamwork.

As each new problem in research arises, it is tackled by men and women whose training and skill qualify them to master it. Backed by ample funds and facilities, they are continuously extending the field of scientific knowledge.

Take the case of moisture proof Cellophane. Plain, transparent Cellophane was strong, clear and protective. As a packaging material it had eye appeal. Its uses were limited, however. Perishable foods wrapped in this cellulose film were protected from contamination and were good to look at, but they did not retain their freshness. They either lost or absorbed moisture, depending on the nature of the food and atmospheric conditions.

That was a challenge to Du Pont research people. They set out to find materials that would moisture proof Cellophane without materially affecting its thinness or transparency. After developing a basic test to meas-

and women with many types of training. Explains how individual ability is recognized and re-warded under the group system of operation. Address: 2518 Nemour's Building, Wilmington 93, Delaware.

Dr. Hale Charch, Ph.D., Ohio State '23, re enacts discovery of moistureproof Cellophane film. Bag at far right held water for weeks; other control bags showed evaporation

ure moisture proofness, they tried various procedures-adding ingredients to Cellophane dope before casting, impregnating sheets in baths and coating the film.

Coating showed the most promise. Had you been a member of the research team on this job, you might have helped mix and test several hundred different coating formulae over a 10 months' period. With successful coatings in sight, a small pilot operation was set up. Thento make sure the new Cellophane was right-doughnuts, cookies and cakes were wrapped in it and sent to market. Finally, engineers were called on to design machinery for full-scale operation.

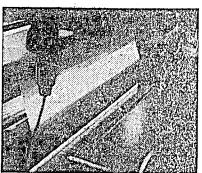

Now everything from chewing gum to porterhouse steaks is being sold in moisture proof Cellophane. Another scientific achievement is helping change the food packaging and food buying habits of America!

Using your training at Du Pont

Diverse problems call for diversified talents. At any one time, there are hundreds of interesting projects under way in the Du Pont laboratories. You may be trained in chemistry, engineering or physics. You may have studied in the fields of botany, entomology, parisitology, pharma-

for modern packaging. Since 1927, continuing research has developed over fifty different types

is made by extruding viscose through a slit into an acid bath where it coagu-lates into sheets. Moisture proofing follows.

Idaho's unpredictable Vandal cage team lived up to their League 1 role of "giant-killer" over the weekend by felling the touted ATO Oregon State college Beavers 51-39 in the first of a two-SN game series Friday night before a capacity crowd in Me-C Cafe

On the following night, the Beavers bounced back into the League 2 win column, nearly reversing the previous night's score in TKE handing the Vandals a rough-and-tumble, 47-35 decision—KS the seventh Vandal loss in conference play, and 13th defeat TV of the season.

Wins Twice In Week

It was the second time within a week that the Idaho quintet had emerged triumphant over one of the leading teams of the northern division of the Pacific Coast conference. On Saturday, January 29, mad scramble under the basket fol- League 4 the rampaging Vandals toppled lowing a foul shot may be elimi- WSH No. 2 high-flying WSC from the ranks nated before next season, if the LH No. 2 of the unbeaten in conference National Association of Basketball CH No. 2

Idaho's second string on the floor, 1000 coaches over the nation this Coach Slats Gill offered his own month. answer to the sturdy Vandal defense. With the Beavers checking all over the floor, making it dif- pling the mentors' attitudes toficult for Idaho to bring the ball ward limiting the height of all WSC; Hannula, WSC; and Barinto forecourt in the allotted ten players, giving each team six bee, Idaho. 1:54.2 seconds, the Oregon State team time-out periods per game, allowbegan to narrow the gap. The ing each player six instead of five score was 39-33, and five minutes fouls before he must leave the remained in the ball game when game, and several other changes the first team re-entered the contest. From that moment, the issue ent rules. was never in doubt and the Vandals were able to increase their lead by six points by the time the final gun sounded.

Beavers Take Vengeance

On the following evening, the to the national rules committee. Beaver crew exacted revenge for the defeat in a ragged contest the 100-yard breast stroke; his which featured far more misses than hits under the basket. The Orangemen took an early lead, lost it momentarily during the first stanza, and then moved ahead to establish a shaky 22-19 advantage at intermission. OSC's Alec Petersen, forward, who was high scorrer for the evening with 14 tallies, was badly shaken up in the final seconds of the first half, and Damascus, WSC. 2:28.5 didn't get back into the game until the last few minutes.

In the second half, Glen Kinney, replacing Petersen, sparked the Beaver attack, netting his eight points in that period. The OSC team built up a 35-26 lead midway through the second frame, and then fell back on their maneuver of checking all over the floor to protect their lead.

For Idaho, it was again Pritchett, Brimhall and Stallworth who did most of the scoring.

Idaho Swimmers Fall Before WSC

Hard luck hit the University of Idaho swimming team last Saturday afternoon as they dropped their first meet of the season to the power-laden WSC tankmen 64-20 in the Idaho pool.

A new pool record was established by the Cougars in the 300yard medley as three-tenths of a second was clipped off the old record of 3:17.8. Molock, Dolphin, and Werner garnered scoring honors in the meet by placing first in an individual event and also all three held down a spot on the winning relay team. All three men are from WSC.

Jim Farmer placed first in the 220-yard free style with a time of 2:28.5 for the Vandal's, while Gust did likewise for Idaho i
