Candidates Of Both Parties Ready For Elections Tomorrow

The GOLDEN FLEECE by Jason

In view of the many "Letters to Jason" which have been received and the authors asked to withdraw, Jason has attempted to determine the story behind the recent athletic dormitory news article.

Early this spring the question of an athletic dormitory was being discussed in every group on the campus. Being the editor of the campus organ, Jason printed the first letter which came to him.

Facts Enough
At this time, ARGONAUT editors felt that enough material had been published to give all students a clear view of the project.

Release Not Authorized
An Associated Press release appearing in the Spokane Spokesman-Review stated that favorable action was being accorded the plan and opposition to the project was being overcome.

Whether this breach of confidence was definite intended or whether it was merely the work of an overzealous correspondent, Jason has not determined.

Upon checking on the matter, only one point could be cleared. It was not an official release.

Whether this breach of confidence was definite intended or whether it was merely the work of an overzealous correspondent, Jason has not determined.

Whether this breach of confidence was definite intended or whether it was merely the work of an overzealous correspondent, Jason has not determined.

Vandaleers Plan Southern Idaho Tour May 1 to 6

The University of Idaho Vandaleers, student choral group directed by Prof. Glen R. Lockery, will tour southern Idaho May 1 to 6.

Visit Nine Schools
Schedule for the concerts: Monday, May 2, 1:45 p.m.—Buhl high school; 8 p.m.—Twin Falls high school.

Tuesday, May 3, 10 a.m.—Kimberly high school; 1:15 p.m.—Burlay high school; 8 p.m.—Rupert LDS Tabernacle.

Wednesday, May 4, 1 p.m.—Gooding high school; 8 p.m.—Jerome high school.

Thursday, May 5, 12:45 p.m.—Boise Rotary club, Owyhee hotel; 8 p.m.—Boise high school.

Historical Items Given University

Pictures of the 1902 University of Idaho football team, showing the players wearing nose-guards but no headgear, are among the items which have been presented the university by Harry D. Manning of Crescent City, Calif., graduate of 1908.

Also included is a picture of the burning of the Administration building in 1906 and a copy of the Idaho Argonaut, student newspaper, relating the story. The gifts will be placed in the University of Idaho library for historical reference.

Manning, a civil engineer, worked with the U. S. Engineers, and acted as consulting engineer for the Southwest Construction company in Hollywood until recently when he retired to live in Crescent City.

SUB Addition Near Reality; University Calls For Bids

The second phase of a long awaited dream, that of an addition to the Student Union building, went into effect recently when the university called for bids for construction of the momentous project.

Bids for the first unit of the Agriculture Science building, for which more than \$1,100,000 of state funds has been made available, were opened last Wednesday.

A three-story brick addition joining the present Student Union on the north will be larger than the present building, both in floor space and in height.

More than \$800,000 has been provided for the construction of two other buildings specified by legislative appropriation. They are a new engineering classroom building, to be located at Seventh and Line streets, and an addition to the engineering laboratory building at Sixth and Line.

Voters Will Select One To Head ASUI

Associated students of the University of Idaho will cast their ballots for their choice of one of these two men in the presidential election tomorrow. The candidates Herb Carlson and Bob Moulton are both members of the 1948-49 executive board. Carlson is the United candidate and Moulton is supported by the Independents.

Bench And Bar

Judge Paul Hyatt, former Justice of the Idaho Supreme Court, spoke to the Bench and Bar honorary Saturday in the Ad building.

The special meeting was held in order to hear Hyatt speak on the highlights of his career. Following the meeting, Judge Hyatt was honored with a luncheon at the Bucket.

Conclave Attended By Three Schools

The conclave for province thirteen of Alpha Tau Omega fraternity was held Saturday at Pullman. Chapters in this province are Idaho, WSC, and Montana university.

John Barinaga, president of the Idaho chapter, announced the winner of the Clark Memorial fraternity scholarship as Ron Johnston.

Little International Gets Underway; Ends With Parade

The dairy products judging contest and the soil identification contest yesterday led off a series of contests which will continue throughout the week-long Little International livestock show.

Following is the schedule of contests: April 26, 1 p.m.—seed identification and judging; 3 p.m.—entomology identification; April 27, 1 p.m.—commercial grain grading and marketing; 3 p.m.—entomology identification.

Schedule For Song Fest Eliminations Released

Eliminations for the Song Fest will begin Wednesday evening at 7 p. m. with the women's choral groups performing first. Men's choral groups elimination will be held Thursday.

BlueKey Announce Cleanup Day Plans

Blue Key today announced plans for their annual cleanup day. This year the date has been set on April 30 when the campus will be divided into areas which will be assigned to each living group in Friday's issue of this paper.

CHAPTER RESTORED

The Oregon Gamma chapter of Phi Delta Theta, after approximately five months of a probationary status, has been restored to normalcy in the society.

Horse Show

Light horses under saddle will be put through their paces Saturday afternoon at 4 in the recreation park.

The evening show will be held in the field house with the program beginning at 7 p. m. Saturday, according to Francis Flerisher, publicity chairman.

Engineers Travel To ASCE Conclave Set For Spokane

Student members of the American society of Chemical Engineers will represent Idaho at the opening session of the Pacific northwest ASCE conference in Spokane, Thursday.

Henry Aumack, Spokane city planning engineer, will discuss "City Planning" at a banquet for delegates Thursday evening in the Davenport hotel.

At WSC Friday
Friday the delegates will hear Ray Koon, of Steven's and Koon Consulting Engineers, Portland, at continued conference meetings in Pullman.

Col. William Whipple, district engineer, U. S. Army Engineers, will preside at the ASCE banquet in the Moscow Ad club that evening.

Saturday several panel discussions on "Employment Problems" will be held featuring Col. Whipple, A. J. Davidson, William Hughes, and T. H. Judd.

EE Students Plan To Visit Spokane

Electrical Engineering seniors will take a field trip Wednesday, Thursday and Friday of this week. Wednesday will include an inspection of the Washington Water Power installations, the Inland Empire paper mill and the Aluminum Rolling mill in Spokane.

On Thursday the group will move on to Grand Coulee dam and from there to the Long Lake plant of the Washington Water Power company. Friday will be spent inspecting the Mead aluminum reduction plant, the Spokane plant, the Spokane water works pumping station, and the telephone exchanges located in that area.

At the conclusion of the field trip, they will attend a joint meeting of the American Institute of Electrical Engineers at Spokane. This meeting is held every year by the Spokane section and the student branches at WSC and the University of Idaho. Jim Haynes will present a paper, "Utilization of Third Harmonics," at this meeting.

MUSEUM ENLARGED

The Montana State university museum was recently enlarged through donations by Stella Duncan, class of 1907, one of Montana State's alums.

'Chicken Every Sunday'

Two members of the cast of "Chicken Every Sunday" relax in the typical old-fashioned living room setting of the play. Under the technical direction of E. A. Cebull, assisted by Stage Manager Stan Schmidt, the play will be presented April 29 and 30 in the university auditorium.

Members of the men's ballet are George Tindall, Don Medley, Jim Farmer, and Tom Gentry. Jim Farmer and Tom Gentry will also present plain diving exhibitions.

Comedy diving will be demonstrated by George Tindall and Don Medley. Included in the women's ballet are Anne McKay, Jody Getty, Jan Garber, Jody Goul, and Joanne Paulson.

All Voters Must Present Student Activity Tickets

College Secretary To Address IRC Thursday Evening

Harry S. Burks, college secretary of the American Friend's Service committee at Seattle, will be guest speaker of the International Relations club Thursday evening at 7:30 in the Bucket upstairs lounge.

One purpose of his visit to the campus is to meet students interested in the International Service seminar to be held this summer. The course is one of ten such seminars to be held throughout the country as part of the committee program to foster international education and understanding as a foundation for peace.

Scholarship Offered
Scholarships are offered by A.F.S.C. to interested students who are nationals of countries outside the United States and who are qualified in other respects.

Procedure Explained
Election board members will meet this afternoon with Dr. Boyd A. Martin, head of the social science department. A discussion of the proportional representation election system will be given.

The new president and the nine executive candidates receiving the highest number of votes will constitute the 1949-50 student government leaders. They will take office on Tuesday, May 10.

May Fete Planning Nears Completion

Plans for the May Fete, annually held on Mother's Day, are nearing completion, according to Jeanne Hofmann, general chairman.

The program planned for this year's event includes the processional, awards to outstanding members of university honorary societies, and the traditional Spur Maypole dance.

Forest Students Glimpse Bighorns During Field Trip

The thrill of seeing five bighorn rams flash 50 feet in front of them came to nine forestry students and two professors of the University of Idaho on their annual field trip to Yellowstone park, it was learned here today.

The group returned this week from the park, where winter range feeding conditions were studied. All students were members of the wildlife management class. They were accompanied by Leslie Pengelly, instructor of the class, and Dr. Paul D. Dalke, leader of the Idaho Cooperative Wildlife Research unit at the university.

See Other Wild Life
The researchers witnessed the exhibition of fast footwork when they came upon the rams during a climb of 7,000-foot Mt. Everts. "We saw most of the species of wild animals in the park," said Pengelly. "A major exception was bear, but fresh tracks were found. Weather was good, and melting of the snow was far ahead of last year."

A bighorn ram skull with a 34-inch circle was discovered on a mountainside. The skull was presented by the park service to the university as an exhibit in its wildlife museum.

Students on the trip were Robert Melten, Richard Anderson, Seymour Levy, Roger Williams, Alvard Kiler, Hilton Thrapp, George Lea, Gordon Zorb and Everett Green.

Cheers For Dave

It is time, we think, to do some public praising of a man who has done a hard job and done it well—ASUI prexy Dave Weeks.

(Probably at this point, two of our readers are struck with a thought. Someone high in the Independent party probably thinks he has found some more campaign material; and someone high in the United party is probably wondering why the Argonaut is printing partial editorials.)

We should like to point out to the former that the fact Dave was nominated for his office by the Independent party proves nothing of the ability of the party to continue choosing good candidates. We should like to point out to the latter that praising anyone for a job well done is not being partisan.)

One of Dave's first jobs was co-ordination of Homecoming. He spent all summer working on plans and was plagued with suggestions for mottoes.

Second of Dave's big jobs was a walk to Pullman after the WSC football game. He made the walk and greeted the Pullman student body with a smile.

He has done a great number of things for the Idaho student body. As ASUI president, he was ex-officio member of every committee. He attended meetings faithfully, and always weighed his decisions carefully.

This feeling extended through Dave to the ASUI executive board. Not once this year has a vote been on party lines. Always the members of the board considered matters carefully before casting their vote. They then voted according to convictions, not according to affiliation. Most of them will credit Dave Weeks for that attitude of the executive board.

Dave has spent many hours doing the little things so necessary to his job—hearing complaints and suggestions and referring them to the university administration. He has taken time to talk with anyone, and has been willing to keep off the grass—or sidewalks—as the occasion demanded. At times, he has studied.

Always, he has done his job well. Always he has been conscientious. Always he has been honest. Always working for the good of the most—not Independents and not Greeks—has been Dave Weeks. To him, cheers. —H.R.

U.N. Offering Internships For International Affairs

The United Nations is currently offering internships to students who wish to get a close view of the workings of international organization.

The student intern will give his full work services to the United Nations for a period of eight weeks during which time he will have many opportunities for observation and personal contacts. A series of lectures and seminars on international problems will be delivered by competent authorities in the Secretariat.

Requirements Listed

Students must be from 20 to 30 years of age. Preference will be given to graduate students, although the minimum educational requirement is two years of university training.

Interns will be paid \$150 per month to cover the cost of living while at Lake Success. Transportation from the student's home to Lake Success will not be furnished.

Federal Nominations

Basic qualifications for internship are: (1) fluent knowledge of one of the working languages of the United Nations, and an adequate knowledge of English, in which most seminars will be conducted; (2) demonstrated interest in and knowledge of international affairs; (3) nomination by applicant's government.

Applications should be directed to Institute of International Education, 2 West 45 Street, New York 19, New York. Students may obtain more detailed information from Dr. Boyd Martin, head of the social sciences department.

ADVANCED ROTC TO MEET

All men who applied for advanced ROTC may meet the reviewing board every afternoon of this week in room 105 Memorial gymnasium.

An Adventure in Good Smoking

Sixteen Engineers Tour Coulee Dam With WSC Group

Sixteen members of the Idaho student chapter of American Society of Chemical Engineers toured Coulee Dam Saturday with members of the WSC student chapter under the direction of the tour sponsors, the Spokane ASCE association.

Beginning with an inspection of the reclamation headquarters at Ephrata, Washington, the group also made stops at points of interest on the irrigation projects between Ephrata and Coulee City. At Coulee City, the canal headworks and reservoir dam were inspected during the morning.

Present construction proceedings and finished projects were inspected in a thorough tour of all Coulee dam installations during the afternoon. The engineers were guests of the Coulee dam engineers at dinner at the Columbia school followed by a technical program presided over by F. A. Banks, district manager of the Columbia basin project.

Discusses Dam Casion

A. J. Davidson presented an outline of the general area and features covered by the Columbia basin irrigation works followed by a discussion of the importance of and the procedure of writing and awarding contracts for various projects. W. I. Morgan discussed building and operation of the 1600 ton floating caisson which will be used for repair operations on eroded sections of the concrete base of the dam.

H. C. Brunyer concluded the program with an illustrated talk on the manufacture of precast concrete for the dam spillway area.

Automobile Mishap Takes Student Life

Hugh D. Bray, 21, a former university student, was killed instantly in an automobile accident near Idaho City early Monday morning. Reports which were received by Kappa Sigma fraternity brothers of the victim did not relate any details pertaining to the actual details of the mishap.

A sophomore last semester, Bray had dropped this semester to take care of business interests at home. He was majoring in agriculture at the university and had planned to return to school this fall.

Survivors include his parents Mr. and Mrs. H. D. Bray of Nampa; a brother, Burkett, now residing in Florida; and Louise, a sister employed in Boise.

Funeral arrangements have not been made. Several fraternity brothers of the deceased plan to go to Nampa for the burial.

Pool Open

The University of Idaho swimming pool will be opened to anyone between the hours of 8 to 9 o'clock tonight, tomorrow and Thursday. The pool will not be open on Friday, because of a water show.

Knowing what everybody thinks about us makes life interesting; not knowing it makes life more enjoyable.

Red Roses For A Blue Lady Gives Lothario Much Grief

It doesn't take very many formal dances to come to the conclusion that such an affair requires the patience of Job, the sense of an intelligent horse, and the tact of America's ambassador to Russia. Roses, I thought, would be appropriate for the dance, since it was a special occasion. So the flowers were ordered, my tuxedo sent to the cleaners, and all arrangements completed. "None of this last-minute stuff," I thought to myself.

An hour before the dance was to begin, I headed for the closet. Then the thought struck me: my tux was still at the cleaners!

Found At Last

Four telephone calls, a gallon of gas, and forty-five revolutions of the minute hand on my watch finally found the owner of the cleaning establishment searching through a stack of clothing for one tuxedo. It was sighted at last, and after a struggle to get it on, I headed for Elsie's house.

Elsie had seen me coming, and greeted me holding her nose. "Roses!" she said in a frightened tone. "I'm allergic to them! Anything but ro-ro-A-CHOO!" she sneezed, in an unfeminine manner.

After we got rid of the roses, and the sneezing ended, we decided that I'd try to find the flower shop owner and get another corsage. Meanwhile, Elsie would wait at the dance.

One Orchid Left

Another round-up followed. This time I had luck, however. One corsage, an orchid, had not been picked up by the person who ordered it. "I'll take it," I said, as I visualized another ten dollar bill floating away.

"I have one of the species eypedium blepharigottis," I announced to Elsie as I handed her the flower box. She opened the carton.

"Violet!" she gasped, as if she had just seen a corpse. I'm no judge of colors, but it seems to me the orchid looked striking on her pink dress.

Counting to herself, Elsie grabbed her coat and my arm, and out the door we flew. "Got to change dresses," I heard her mutter.

The dance was enjoyable—all twenty-two minutes of it. Best of all, Elsie gave me a petal from her corsage. "A souvenir," she told me.

New Pasteurizer To Be Installed In Farm Home

Soon to be an important part of the farm home is the home pasteurizer. According to the Dairy Science department, the capacity of this porcelain enameled steel home pasteurizer is two gallons. With an approximate cost of only 2½¢ for each operation, two or three processes per week would be sufficient to meet the needs of the average family.

The home pasteurizer has a silent solenoid motor with no brushes or armatures to wear out. An electrically driven agitator keeps both milk and heating water in constant motion, and accurately controlled heat reaches all parts of the milk preventing the milk from scorching. No fatty stum accumulates on top of the milk. All undesirable odors are forced to the top and pumped out by an air expelling disc.

Needs No Watching

No constant watching is required of the home pasteurizer. It is equipped with an automatic light that indicates when to put in the milk, and a timer bell signals when to cool the milk. There are no complicated gadgets on the home pasteurizer to confuse the user.

To the farmer this is decidedly a good invention to insure his family against contacting undulant fever, typhoid, tuberculosis or other diseases contracted through the use of raw milk.

Home Ec Class Takes Field Trip

The institutional management class composed of junior and senior women in home economics will complete a two-day field trip to Spokane today.

As part of the tour they will visit St. Luke's hospital where three former Idaho graduates are employed as dietitians. Miss June Stein is head dietitian and the Misses Nadine Commick and Alice Fulton are on the staff.

The class will also visit the demonstration kitchen at Centennial Flour Mills. Miss Marion Eishenhower, a graduate of Idaho last year, is in charge of the demonstration kitchen there.

IK Delegates End Three-Day Confab; Lewis Named Duke

Approximately 250 persons from 23 universities and colleges in the Pacific Northwest attended the national convention of Intercollegiate Knights at WSC last Thursday, Friday and Saturday.

New chapters totalling four were taken in during the three-day confab. They are Mustang chapter at Lewis and Clark, Portland, Oregon; Rimrock at Rocky Mountain college, Billings, Montana; Rainbow at Branch Agricultural college, Cedar City, Utah; and Humbolt Knights at Humbolt college, Arcadia, California.

Rewrite Constitution

The national constitution was rewritten and passed in final form on Saturday morning and three trophies were awarded. Beno chapter at Utah State was awarded the expansion plaque along with Old Oak chapter at Linfield college. The improvement award was given to Claw chapter at Central Washington college and the efficiency cup went to Wigwam chapter at the University of Washington. The site for the next national convention was set at Montana State college in Bozeman, Montana.

Newly elected officers for the coming year are Wally Walker, WSC, Royal King; Jack Lewis, Idaho, Royal Duke in charge of expansion in California, Arizona, Colorado, Wyoming, British Columbia, Alberta, Minnesota, Dakota, Illinois and Indiana; and Ralph Tucker, Idaho State college, Royal Chancellor.

Students In Favor Of Teacher Rating

Almost nine out of ten students on the Idaho campus favor the use of the teacher-rating plan, according to the ASUI student opinion poll. Of the 1156 students polled, 80 per cent expressed favor with the plan as it now stands, 9 per cent indicated their disapproval of the present plan, with 5 per cent not answering the question.

Approximately one-third of the students polled made suggestions for the improvement of the plan, 18 per cent stating that its use should be made compulsory. 12 per cent of the students saw a need for better and more concise questions, and 4 per cent stated that the present plan does not accomplish anything.

Of the tabulations made to date, the teacher rating plan ranks second only to Gem in percentage of favorable answers. The Gem received a "vote of confidence" from 89 per cent of the students polled, according to Dryden Hiller who compiled data for this question.

CORNER DRUG & JEWELRY

It serves her right!

MARY JANE gives the telephone in her house a real work-out.

But we're not worried a bit. We know Mary Jane's telephone is going to keep right on delivering good service year after year. Because the Bell System puts a lot of time, thought, and testing into making telephone equipment as rugged and trouble-free as possible.

Tests are constantly under way at the Bell Telephone Laboratories. There, for example, new types of telephone instruments are put through a school of hard knocks. Dials and other parts are given strength and wear tests. Even the bottom of the telephone set has been designed and checked to make sure that it will not scratch or stain furniture.

Such tests—on little things as well as on big things—help give you the world's best telephone service at the lowest possible cost.

BELL TELEPHONE SYSTEM

Two things every college man should know!

1. This is a judge. Cold-hearted, bench warmer. Known as fine man in a pinch. Would sell you up the river, but softens at the sight of a "Manhattan" shirt.

2. This is a "Manhattan" Range shirt. Summons lady witnesses. Extreme widespread collar. Stays keep points in perfect shape. Size-Fix (fabric residual shrinkage 1% or less).

Firesides And Initiations Hold Weekend Interests

House firesides were held recently by Kappa Alpha Theta, Ridenbaugh hall, and Gamma Phi Beta. Sigma Alpha Epsilon held initiation for three Sunday and Delta Delta Delta presented a brother and son banquet. Forney hall had a faculty dinner Sunday.

Sigma Alpha Epsilon
Warren Johanson, Thomas Rowland, and Jim Asker were initiated into the fraternity Sunday morning. A formal dinner was held following the ceremony.

An invitation was received from the WSC chapter to attend their annual masquerade dance last Saturday evening.

Dan Gardner is in charge of decorations for the spring formal to be held May 21.

Gamma Phi Beta
Mrs. Fred MacDonald was a house guest last weekend.

Jan Garber told of her recent trip to Albuquerque, New Mexico to attend the Association of College Women Presidents convention, at a fireside held Friday evening. Eating Mexican grown pinon nuts was an added enjoyment.

Beta Theta Pi
Dinner guests Thursday were Frank Bales and Darrel Congdon. Saturday dinner guests were Jack Hutchinson, Cliff Heston, Frank Granset, Jr., Bob Emple, Walt Eaton, E. H. Sandig, Bob Rost, Glen Compton, Bill Chapman, Bud McDonald, and Bruce Whitner from Boise Junior college.

Dinner guests Thursday were Gerry Fox, Betty Ann Biker, Joan Raymer, Jody Rundstrom, Geri Belknap, Beverly Diamond, Margaret Austad, and Polly Packenham.

Plans are being made for the annual spring formal to be held May 13.

Delta Delta Delta
Guests at the brother-son banquet held Sunday were Warren Johnson, Phillip Johnson, Wesley Uhlman, Wilson Bowlby, and Hal Ryan.

June Savage was the general chairman of the Paddle Dinner given Thursday. The pledges gave paddles to their "big sisters" and served a chicken dinner. A pirate theme was used. Guests were Grant Foster, Bruce Scranton, Clayton Turner, and Sam Kersey.

Tri-Delta held its annual "Sunrise Dance" Saturday morning at 6:30. Pastel umbrellas and flowers were in keeping with the theme of the dance, "April Showers." Breakfast was served at 7:30; Marilyn Clark was in charge. The dance was a joint affair with the Theta Nu chapter at WSC. About 25 couples attended the affair.

Patrons and patronesses were Mrs. John C. Graham, Mr. Paul Lonardo, Miss Loretta Franks, and Mr. and Mrs. Kenneth Bergquist. Music was furnished by the Rhythmaires.

Sigma Nu
Norman Walker was a dinner guest Wednesday, April 20. Sunday dinner guest was Betty Tarr. Jim Brown of Montpelier was a weekend guest.

The annual upperclassmen's dinner-dance was held Friday night at the Farmers Club. Music was furnished by Six of a Kind. Jewel box favors were presented the guests. Patrons and patronesses were Capt. and Mrs. Jones, Mr. and Mrs. Harold Cornelson, and Mr. and Mrs. John Evans.

Kappa Alpha Theta
Thursday dinner guests were Dr. and Mrs. Eugene B. Giles and Wilma Martin.

Mr. Arthur H. Beattie, faculty advisor, was a dinner guest Sunday.

Joan Spencer, Coeur d'Alene, and Martha Sue Neal, Euphrata, were house guests last weekend.

The cabinet entertained the house with a fireside before Easter. Bette West was in charge of arrangements.

Kappa Sigma
Tom Neal, Euphrata, Wash., and Glen Compton, Boise Junior college I.K., were dinner guests last week.

A weekend guest was Bill Hachstraner, an Intercollegiate Knight. Bob Bimis is the general chairman of the spring formal to be presented Saturday, April 30, Ridenbaugh Hall.

Bob McManaman and Don Smith were dinner guests April 20. Luncheon guests last week were May Lynch and Irene Horning.

Murphy, Kirch Speak Vows At Gamma Phi House

In the presence of immediate family and close friends, Miss Patricia Murphy, daughter of Dr. and Mrs. T. B. Murphy, formerly of Pottlatch, and Edward Kirch were united in marriage Thursday evening at the Gamma Phi Beta sorority house. He is the son of Mr. and Mrs. T. M. Kirch of Pottlatch.

The bride, attired in a navy blue crepe suit with pink accessories, was given in marriage by Hugh Pettis. Her only attendant was Miss Norene Dygert, who wore a street length dress of gray and pink silk with pink accessories. George Drinker acted as best man for his brother-in-law. The Rev. Dean Stockwell solemnized the wedding.

Married At House

The bridal party stood before the fireplace which was decorated with a spray of white snapdragons and white daffodils with two three-branch candelabra. Tall baskets of pink snaps and white gladiolus and lilies and tall seven-branch candelabra flanked the fireplace.

Before the ceremony, Miss Jean Taylor sang Schubert's "Ave Maria" and "Because," accompanied by Miss Joyce Becker. Miss Becker also played the wedding march.

After the ceremony a reception was held at the house.

Mrs. Kirch graduated from the Pottlatch high school and attended the university last fall. She was a pledge of Gamma Phi Beta.

Kirch, a graduate of Pottlatch high school, also attended the university and is now employed in Pottlatch where the couple will make their home following their honeymoon.

Here's More About— Song Fest

Phi, "Speed Thee My Arrow" and "Ziegnerer"; and 8:40 p.m.—Ridenbaugh hall, "I Dream of You" and "Kashmir Song."

Men's choral groups will appear in the following order on Thursday evening: 7 p.m.—Beta Theta Pi, "Beta Mother's Day" and "Night and Day"; 7:10 p.m.—Delta Tau Delta, "Delta Girl of Mine" and "The Battle of Jericho"; 7:20 p.m.—Idaho club, "Sylvia"; 7:30 p.m.—Kappa Sigma, "Deep in My Heart, Dear" and "Come Gather All Ye Merry Men"; 7:40 p.m.—Phi Delta Theta, "Comrade Song of Hope" and "Finlandia."

Remaining Singers
Other living groups and their selections are 7:50 p.m.—Phi Gamma Delta, "Smoke Dreams" and "Play Gypsies, Dance Gypsies"; 8 p.m.—Sigma Chi, "The White Cross" and "When Day Is Done"; 8:10 p.m.—Sigma Alpha Epsilon, "SAE Marching Song" and "Prayer"; 8:20 p.m.—Sigma Nu, "White Star of Sigma Nu" and "Lord's Prayer."

Concluding the eliminations will be 8:30 p.m.—Tau Kappa Epsilon, "Dream Girl of TKE" and "I Got Shoes"; 8:40 p.m.—Willis Sweet, "Friendship" and "In the Still of the Night"; and 8:50 p.m.—Delta Chi, "Fovens Mater" and "Rain in the River."

Gypsy Rose dressed very thin. Gypsy Rose sat on a pin. Gypsy Rose.

Ag Show Queen And Her Court

Cecl Aldaffer, manager of this year's Little International, crowns Beverly Bressler queen of the event during intermission of the dance in Memorial gymnasium Saturday night which started off a week of activities to be concluded by a parade Saturday. The other two finalists in the queen contest, Marilyn Anderson, third from left, and Irma Troutman, far right, also received awards from Aldaffer and will reign as princesses over the show.

Hailey Area To Be Subject Of Summer Geologic Study

The Hailey area, second only to the Coeur d'Alenes in mineral production, will receive a thorough geologic study this summer. "The history of the area and its geology, which is insufficiently understood in detail, mark it as a logical one for new ore body discoveries," according to Dean A. W. Fahrenwald of the University of Idaho school of mines.

Anderson Heads Survey

Heading the party making the Hailey area survey will be Dr. Alfred L. Anderson, former geologist at the University of Idaho and now professor of geology at Cornell university. Work will start in the area about the middle of May, Dean Fahrenwald reports.

Other geologists on the project will be Thor Kilsgaard, assistant geologist with the state geological bureau, and Verne Frylund, assistant professor of geology in the university school of mines. Assistants will include James Grant and Carl Milner, graduate teaching assistants in the department of geology; and Melvin Stinson, graduate student in geology.

Old Mining District

Within the 100 square miles to be studied are five separate mining districts, Camas, Galena, Mineral Hill, Little Wood River or Muldoon, and Wain Springs. Production in these areas includes lead, silver, gold, copper, and zinc.

"The Hailey area has produced metal probably in excess of \$30,000,000 worth in its history," commented Dean Fahrenwald. "More than 75 percent of that production, however, was prior to 1900. The future of the district lies in the discovery of new ore shoots at depths below a few hundred feet, the lower limits of the early workings."

Vandaleer Group Composed Of 18 In 1930 Debut

Nineteen years ago at the University of Idaho, a new singing organization of 18 students—10 men and 8 women—made its debut. Not all of these students were music majors, but all had one common interest—a love for singing. The new organization was given a name that embodied the title of Idaho's athletic teams, The Vandaleers.

Their purpose is expression through song, their composition is made up of students from all walks on the campus. They have grown in number and in fame. They have sung over national radio hookups, and each Yuletide their "Candlelight Concert" is a regular feature of the west's airways, while capacity audiences flock to the university auditorium to hear the program.

Directing the Vandaleers again this year is Glen R. Lockery, who formerly sang with the famed Robert Shaw's professional choral organization in New York City.

The Vandaleers will leave May 1 on their south central Idaho tour. They will return May 8, and on May 10 will present their home concert in the university auditorium.

Baseballers Meet WSC There Today

Seeking their first win in northern division competition, the University of Idaho Vandals are ready for the first game of the Washington State series this afternoon in Pullman. On the road trip the Vandals hit .292 as a team, and averaged almost eight runs per game but didn't win a single contest.

One of five Vandal hurlers will get the starting call to face last year's conference champion Washington State team, but Coach Chuck Finley was still very much doubtful as to which one of the quintet would hear the "Play Ball" call.

It will be one of the following to get the starting call against the Cougars: Arnold Beebe, Ozzie Kanikkeberg, Robert Linck, Bob Fritchett or Chuck Triggs. Red Fodrea and John Dailey may also be given consideration as possible starters.

For the road trip, Tobe Masin-gill, outfielder, was the leading hitter with eight hits in 17 chances for a .470 average followed by Harley Williams, also an outfielder with a .438 average.

Idaho's first home games in conference competition will be May 2 and 3 when Oregon visits the Idaho campus.

Church News

Canterbury Club
Due to Rev. Stockwell's absence, there will be no Communion at the rectory Wednesday morning. Lutherans

The Lutheran Students Association will meet Tuesday evening at 7:30. New officers for next year will be elected. Final plans for the annual spring banquet will also be made.

Chemists in Pictures

How Du Pont and studio scientists solved the problem of noisy film

Who'd ever expect to find Du Pont chemists in Hollywood? When motion pictures suddenly started to talk, a whole new series of perplexing scientific problems was born, not the least of which was "noisy" film.

As you know, sound is usually recorded directly on film. If you hold a strip of motion picture film to the light, the sound track is seen as a narrow band of irregular lines. A light ray passing through the moving sound track falls on a photocell with rapid interruptions or changes in intensity. The photocell converts these interruptions into electrical impulses which, amplified, reach the theater audience as voice and music.

If the film has a coarse grain structure, it tends to give lines that are not sharp and uniform in density. Such irregularities interrupt the light ray—come out as distracting noise.

What could be done about it? Du Pont scientists of the Photo Products Department started a program of research, in cooperation with technical experts from the studios in Hollywood. They made and tested scores of film coatings. Finally there were developed films of exceedingly fine grain structures.

M-G-M and Paramount were among the first to use the new type Du Pont films. The development was heralded by the press as "another milestone in the technical progress of the industry," and in 1943 Du Pont received an Academy Award of Merit for its achievement. Now the use of fine grain films is practically universal in Hollywood. Actors, actresses speak their lines, with no technical restrictions to cramp their artistry.

You may have a place in Du Pont research
Had you been a member of a Du Pont Photo Products research team since 1931, you might have shared in many

Don't miss reading this new booklet about Du Pont
Send for your copy of "The Du Pont Company and the College Graduate." This fully illustrated, 40-page booklet answers your questions, describes many fields which may be new to you. Tells about opportunities in research, production, sales, etc. Explains how recognition of ability is assured. For free copy, address: 2518 Nemours Bldg., Wilmington 98, Delaware.

Write Today for The Du Pont Company and the College Graduate

W. L. Foy, Ph.D. in Physical Chemistry, Clark University, 1947, and A. C. Lapsley, Ph.D. in Physics, Virginia, 1947, discussing details of Color Densitometer Wiring Diagram used in connection with research on color photography.

outstanding achievements, two of which have been recognized by "Oscars."

In coarse grain films, the particles of silver are large and scattered. Compare with Du Pont fine grain film, right. (Magnified 1000 times.)

The Photo Products Department, however, is just one of ten Du Pont manufacturing departments, all of which engage in continuous research. Operated much like separate companies, each holds challenging opportunities for young, college-trained chemists, engineers and physicists. Du Pont not only tries to select young men and women of promise, but makes a conscientious effort to help each one develop as rapidly as possible. Whatever your interests, you will find here the cooperation and friendly interest you need to do your best. As a member of a small, congenial working team, your ability can be seen, recognized and rewarded.

BETTER THINGS FOR BETTER LIVING THROUGH CHEMISTRY

Achievements of Du Pont scientists over the years have won two "Oscars" from Academy of Motion Picture Arts and Sciences.

Cindermen Stop Beavers In First Home Contest

Upset By Vandals Beavers' 1st Loss

A victory-hungry band of University of Idaho trackmen toppled the previously undefeated Oregon State college Beavers 67½ to 63½ in a dual Pacific Coast conference northern division track meet held on Idaho's McLean field last Saturday afternoon.

The meet, close all the way, was decided in the final event—the mile relay, as veteran Dick Armstrong gave Idaho a 10-yard lead and his teammates held it to win the event and the meet.

Despite the efforts of Oregon State's Len Rinearson, who won the discus, the shot-put, and tied for the high jump, the Vandals were able to win the meet.

Won By Chance
The meet could easily have been Oregon State's had not a judge's ruling cost the Beavers five points in the mile run. Dick Peterson of the Beavers crossed the finish line first, but was disqualified when judges ruled that he had fouled Idaho's Warren Johanson on the last turn. Judges related that he cut in front of Johanson without allowing the full stride required by the rules.

Rinearson's 12½ points earned him high-point honors for the meet. Keith Bean, Idaho's sophomore, won both hurdle events to top his team with 10.

A steady drizzle fell throughout the meet, and along with a strong wind kept the times down.

Results were as follows:
Mile run—First, Johanson (I); second, Farnham (I); third, Allison (I). Time 4:31.2.

High jump—Tied for first and second, Rinearson and Elliott (both OSC); tied for third, Pollard and Jones (both of Idaho); and Laddlaw (OSC). Height—5 feet 10 inches.

Javelin—First, Hodgson (I); second, Randall (I); third, Delay (OSC). Distance—181 feet 1¼ inches.

Shot-put—First, Rinearson (OSC); second, Eby (OSC); third, Morse (OSC). Distance—29 feet 6½ inches.

440-yard dash—First, Armstrong (I); second, Miller (I); third, Matthews (I). Time—1:08.8.

220-yard dash—First, Cole (OSC); second, Christian (I); third, Armstrong (I). Time—2:22.

100-yard dash—First, Christian (I); second, Miller (OSC); third, Sparks (I). Time—1:10.

120-yard high hurdles—First, Bean (I); second, Turner (OSC); third, Taylor (I). Time—1:35.1.

880-yard run—First, Bolter (OSC); second, Leonard (OSC); third, Farnham (I). Time—1:58.1.

Broad jump—First, Laidlaw (OSC); second, Walker (I); third, Williams (I). Distance—22 feet 1 inch.

Discus—First, Rinearson (OSC); second, Hiner (I); third, Morse (OSC). Distance—140 feet 3½ inches.

Pole vault—First, Hunter (OSC); second, Keating (I); third, Miller (OSC). Height—12 feet.

Two-mile run—First, Fullerton (OSC); second, Harper (I); third, Spetz (ASC). Time—10:13.3.

200-yard low hurdles—First, Bean (I); second, Cole (OSC); third, Taylor (I). Time—24.8.

Mile relay—Won by Idaho (Armstrong, Matthews, Johanson and Miller). Time—3:32.3.

Vandal Golf Squad Beaten In Oregon

Coach Frank James and his greensward boys returned Sunday afternoon from a coast trip in which they opened their 1949 Pacific Coast conference golf schedule. Opening the season on the Eugene Country Club course, the Vandals were held to ½ point in the morning. In the afternoon competition the Webfoots took all but four points to register a final score of 22½ to 4½. On the following day the Vandals met the OSC Beavers and were trampled 23-4.

Coach James and the team consisting of John Morley, Jack Keenan, Mac Niebur, Chuck Mansius, Dale Fayler, and Bill Ames left for the coast Wednesday afternoon. The team had an enjoyable trip and fine hospitality was extended to them by the other teams.

The Pacific northwest was first explored by Lewis and Clark, both captains in the U.S. army. This time was spent doing Atlantic duty on a communications ship.

The arrival of summer gives "Ozzie" one of those dream-jobs we'd all like to have—swimming pool lifeguard.
A Fiji and "T" club member, Kanikkeberg plans to become a coach after graduation in 1951.

The first town "Ozzie" ever saw was Fargo, North Dakota, that was back in 1926. He led the life of a nomad during grammar school days and attended so many schools that we can't list them on a one page sport sheet. However, he stuck around Kendrick through four years' high school. Before graduation in 1944 "Ozzie" placed himself in the position of an All-District basketball guard during three consecutive years. In high school baseball he played short stop for Kendrick and held the same spot on a Lewiston Junior American Legion team that won state and regional championships in 1941-42.
During two years' navy life Kanikkeberg attained Radioman third class rating. Nine months of

Time Out

By DON RICE

Those persons from Idaho who witnessed the NCAA boxing tournament in East Lansing, Michigan, a few weeks ago, registered a lot of disappointment after seeing the way things were handled there. Main points of contention seem to be (1) the almost total lack of interest shown by Michigan fans, and (2) the method of judging used at Michigan State.

The immediate area has a population of 100,000 to draw from, yet the largest crowd which attended the bouts numbered less than 7,000. This fact made the Michigan State site unfavorable from the financial standpoint, and didn't give the tournament the credit it deserves. Furthermore, the large number of unpopular decisions cast a bad light on the entire proceedings. So the NCAA committee is looking for a new location for next year.

LSU Probable Site

Although several sites have been mentioned, it looks as though Louisiana State university, this year's team champions, is on the inside track in 1950. For the past two years, the tournament location has been in the home stomping grounds of the current national champion squad.

Former sports editor and Time Outer Al Derr comes up with a suggestion that we feel is worth plenty of consideration. Why not bring the 1951 tournament west, where boxing is really appreciated?

And if you bring it west, where else but to the Pacific Northwest, where seven of the eight Pacific Coast champs hang their hats? How about a tournament jointly sponsored by Idaho and Washington State?

The first round, quarterfinals, and semifinals could be split up between the two schools, while the final bouts could be held in WSC's Bohler gymnasium, which we understand has a fairly adequate seating capacity. Even Memorial gymnasium could be made to hold about 8,000 persons, with the addition of bleachers all over the gym floor.

The nine miles separating the two schools would probably leave just enough space to park all the cars driven to the fights by Inland Empire fans.

Bean Breaks The Tape

Just as he breaks the tape in the 120-yard high hurdles, Idaho's ace hurdler, Keith Bean, looks back over his shoulder at Turner of OSC (dark shirt, right), coming in second, and Taylor of Idaho (far right), who wound up in third place. Bean won both hurdle events, and the ten points he personally accounted for aided materially in bringing about the 67½-63½ upset victory over the Beavers.

Boxing Mentor Frank Young Natural-Born Irish Pugilist

As head boxing coach for the University of Idaho, Frank Young has ended another highly successful step in his boxing career. Born in Ireland, he came by his boxing naturally. His father provided him with background by winning the northern Ireland championship. He was also a leading contender for the championship of the British Isles, an ambition never quite achieved.

The Youngs moved from Ireland in 1924, and settled in Michigan, North Dakota. Although in new surroundings, the love for boxing still ran strong. Young Frank and his six brothers were often engaged in pugilistic bouts in their home-made ring. Frank has been deeply interested in boxing ever since, fighting in college and semi-professional bouts.

Majored In Chemistry

His college ring efforts were for Jamestown college in North Dakota for four years, acting as ring coach in his senior year. He got his degree in chemistry and a minor in physical education; then he turned to high school coaching until the recent war intervened. In 1944 and 1945 he was an athletic specialist for the navy at various stations in this country.

Out of the service late in 1945, he taught chemistry at Minot State Teachers college in North Dakota, but he still longed for his boxing. After coming to Oregon to get his master's degree in physical education in 1947, he joined the Idaho athletic staff, serving in 1948 as assistant to boxing coach Ken Butler. Butler, a Navy officer, was assigned to sea duty

Idaho Net Squad Suffers Defeats By Montana, WSC

After downing the Gonzaga Bulldogs Wednesday afternoon, Idaho's tennis squad went into the matches, Friday afternoon with high hopes but Montana stopped the Vandals cold and defeated the entire squad. Saturday's matches with WSC turned out the same way leaving the Vandals with one win and two losses at the end of the week.

Coach Kirkland attributes the losses to the inexperience of the Idaho squad. Montana has had six matches already this year but Kirkland still rates WSC over the Grizzlies. With more practice within the squad, Kirkland hopes to build up the team to a more experienced level.

Meet Whitman Thursday

Thursday the squad will tangle with Whitman here at 2 p.m. Saturday will see them in Seattle where they will meet the University of Washington, rated as one of the top teams in the division.

Results of the Friday matches with Montana were: Wayne Cummings over Baxter (6-4) (6-2); Kramer over Rainey (6-2) (6-1); Jardine over Barnes (6-0) (6-2); Holstrom over Dollinger (6-2) (6-3); Parent over Berger (6-2) (6-4). In the doubles Cummings and Kramer defeated Rainey and Dollinger (6-2) (6-3) and Holstrom joined Jardine to defeat Berger and Barnes (4-6) (6-4) (8-6).

Saturday's matches with WSC showed Witt over Rainey (6-2) (6-4); Soth over Baxter (6-1) (6-1); Richardson over Barnes (6-0) (6-1); Hazelwood over Dollinger (7-5) (6-4) and Kalko over Berger (6-0) (6-1). Before the doubles matches were finished, it began to rain so both games were conceded to WSC who won the first set in each of them. Witt and Scott defeated Rainey and Dollinger (6-1) and Brewer with Richardson downed Baxter and Barnes (6-3).

The division is the basic unit of the army team, and the army is a part of the national defense team.

INTRAMURAL

Every man in Willis Sweet's number 2 team lineup scored at least 1 run in the 6th inning as they walloped Pine hall Number 1. Pine pitcher Kline was touched for a total of 27 runs while his teammates scored in a tipsy-turvy, runaway softball game Friday afternoon on the old football practice field. Meanwhile on the greenhouse lawn Chrisman hall number 2 defeated Pine hall number 2, 23 to 14. These Willis, Sweet and Chrisman hall teams are the two remaining undefeated teams in league IV.

In a much more exciting, though less strategic, game on the ad lawn, approximately 80 spectators witnessed Lindley hall number 1 and the Campus club play two extra innings to decide their contest. Lindley finally came out on top by the score of 10 to 9.

Sweet Leading League

Willis Sweet hall number 1 won their fourth straight game at the expense of Pine hall number 3. The score was 10 to 7, and placed the winners in the leadership of league III. In the league's other game, they called it quits and a 17 to 4 victory for Idaho Club over Pine hall number 1 after 3 innings.

In league I, Alpha Tau Omega is tied with the Trailer Village for first place. TV defeated Sig Chi 15 to 7, while ATO pitcher Wirth pitched his team to an 11 to 1 triumph over Kappa Sigma on the ad lawn. Also in league I, Delta Tau Delta rapped out a 9 to 7 victory over LDS.

Horseshoes Started

Intramural horseshoes began last week when each men's living group held qualification tournaments to determine their 4-man teams. Those teams have been chosen and they began competition Thursday afternoon north of the old football practice field in a single elimination tournament. Each team is composed of one
