

The Idaho Argonaut

We want to take you on a trip with the football team.

Our story starts early Friday morning and goes like this:

The first plane load ate breakfast shortly after 6 a.m. and after Johnny Mack, center, had returned for his false teeth (actually a bridge) they boarded the plane.

An hour later the second group left. One hour and fifteen minutes are required for the trip and both groups were in Boise before noon.

The Owyhee hotel served as temporary "home" for the Vandal gridgers. After lunch there they departed for the old Boise Junior college stadium and a hour's workout.

Rest

After the workout, the team returned to the hotel to rest, meet friends, or look around. Dinner was served at 6 p.m. after which the team had two and one-half hours to carry on their late afternoon activities, then go to bed.

Breakfast was to come at 10 a.m.—then the game at 2 p.m., the next day.

During the entire course of time preceding the game there was little said about the coming contest. No false bravado in the form of loud boasts or other actions prevailed, as is often the case of a team who is scared or unconfident. The team to a man seemed to have a quiet confidence of one who knows what he can do and is only waiting to do it.

Get 'Em

A note of humor was added to Friday evening dinner when, due to a remark about Bar Flies, Coach Red Ramsey was presented a fly swatter by the rest of the coaching staff.

The game itself was probably the best we have ever seen. The first half the Idaho squad looked like giant killers. At the end of that period fans were happy and the team even more confident. Everyone felt smug and secure. But the second half proved a different story. Utah pulled ahead, the hearts sank. One fan seemed to sum up the feelings of most Idaho fans when he said: "Here we go again. Just like at Texas. We certainly play a good first half, don't we?"

But the team had lost the "old" Idaho spirit and came out of it to "put on a real show for the boys."

THURSDAY

New Spurs, 3:30, SUB.

Sigma Tau, 4:15, Engr. 110.

KUOI Wants Announcers Immediately

This afternoon at 4:30 KUOI, "The Voice of the Vandal," will hold a general meeting in the new studio quarters on the third floor of the Student Union building.

Staff heads will interview all students interested in working for the University radio station this year. Students are needed to work on all KUOI staffs.

Openings for personnel include announcers, secretaries, stenographers, script writers, typists, filing clerks, engineers and artists.

Students interested in announcing will be assigned an auditioning time at this afternoon's meeting, and those interested in other staff work will be interviewed and assigned specific duties.

Sportscast Featured

KUOI will go on the air next Saturday with a special dedication program of the new Student Union building. Also featured in the first day of broadcasting will be a sportscast of the Idaho-Montana football game.

During the first week of broadcasting, the staff of old KUOI announcers will carry on a program schedule beginning at 4 p.m. and going off the air at 12 midnight.

Programs will be for the most part of the disc jockey type, interspersed with classical, semi-classical and transcription shows.

After auditioning of announcers is completed and the new staff is oriented, KUOI will resume its full broadcasting schedule. The station will then go on the air at 12 noon, continuing until 12 midnight.

Workers Needed At Student Union

Student workers will be needed for the new Student Union cafeteria and bowling alleys, according to Jim Bowlby, manager.

Students or students' wives desiring work in the cafeteria are requested to report to Mrs. Hoffman, dietitian, in her first floor office in the new building. Either part time or full time work is offered.

Report Soon

The bowling alleys will need pin-boys and other workers, also on a part time or full time basis. Students or students' wives desiring this work should report to Jim Bowlby, SUB manager.

All persons desiring work should report as soon as possible.

Singing Waitresses

Barber shop quartets are almost a thing of the past, but singing waitresses will never go. At least that is the opinion of the students who frequented the Perch Sunday evening and were entertained by three lovely ladies exercising their vocal chords.

Buy "I" Hats

"I" hats are one dollar! Pick them up at the Student Book Store before the big game!

Soon To Go 'On Air'

Putting some of the final touches on preparations for KUOI, "The Voice of the Vandal," to go on the air next Saturday with a dedication broadcast for the new Student Union building are, left to right, Janet Fulton, Bob Burnham, and Charlotte Henry. The station is student owned and operated.

New Blot Magazine On Stands Today

Full issue of Blot, campus literary magazine, after many difficulties will at last hit the stands, stated Marie Hargis, editor of the magazine.

Containing 37 pages of humor, pathos, and drama donated by local talent, this issue of Blot has added a few different features.

Army ROTC Unit Receives New Men To Complete Staff

Four new staff members for the Army ROTC unit have arrived for duty, it was announced by Col. Charles F. Hudson, Commanding officer of the Idaho unit.

Assuming command of the new Engineer unit is Lt. Col. L. B. Wilby, who was assigned to the University in July from the New Orleans Engineers District. Col. Wilby is a graduate of the United States Military Academy, and received his masters degree in chemical engineering at the University of California.

During the last war Maj. Blewett served in the Pacific with the Infantry, and has since served at Ft. Benning, Georgia. He is also a graduate of the Command and General Staff college at Ft. Leavenworth, Kansas. Blewett is replacing Maj. Harley N. Miller, who is now assigned to Ft. Knox, Ky.

Head Infantry

Arriving from duty in Germany is Maj. Aaron E. Blewett, who will head the Infantry section of the ROTC unit. Blewett graduated from the University of Idaho in 1939 with a B. S. degree in agriculture.

During the last war Maj. Blewett served in the Pacific with the Infantry, and has since served at Ft. Benning, Georgia. He is also a graduate of the Command and General Staff college at Ft. Leavenworth, Kansas.

Blewett is replacing Maj. Harley N. Miller, who is now assigned to Ft. Knox, Ky. Captain Weldon C. McBride will serve as the Administrative Officer of the unit replacing Capt. Henry H. Zimmerman, who was recently transferred to Camp Stoneman, California for overseas shipment.

Capt. McBride came here from the Military District of Washington, D. C. Before entering the service he attended the Daniel Baker college and the Hardin Simmons university where he majored in education.

He has served in both the Pacific and European theaters and his last overseas assignment was in Korea, where he was in charge of the 24th Corps Central School System.

The new Infantry Junior Class instructor is Capt. Donald F. Powell who replaces Capt. C. R. Underdahl. Powell, who recently attended the Advance Infantry Officers Course at Ft. Benning, Ga., graduated from the U. S. Military Academy in 1943. He has had eight years of service and during the war served in the European theater.

Vandaleers To Sing

The Vandaleers, Idaho's choral group directed by Glen R. Lockery, will travel to Lewiston October 12 to perform before the northern section of the Idaho Education association at their annual fall convention banquet.

This is the third year Idaho's Vandaleers have been invited to sing before this group of northern Idaho educators.

Appear On Gridiron

Bands and directors are as follows: Sandpoint, Adair Hilligoss; Lewiston, J. Ross Woods; Moscow, Maurice Ritchey; Kamiah, Merion Merrill; Millwood (West Valley High School), Clark Evans; Potlatch, Ralph Kennard; University of Idaho, Kermit Hosch.

All bands will combine in the rendition of the Star Spangled Banner before the game. At half-time, the Sandpoint, Lewiston, and West Valley bands will appear on the gridiron, followed by the massed maneuvering of all the bands and the playing of Idaho songs by the combined group.

Football Tickets Available At SUB

Tickets can now be acquired for the Idaho-Montana game this Saturday. They can be obtained at the ASUI office at the Student Union.

Gems Are Here

The final shipment of 1950 Gems arrived here Saturday. These are now available at the ASUI office in the Student Union building. A surplus of approximately 600 Gems is expected.

Check Mail

All students should check general mail boxes in the first floor of the Ad building. Mail addressed to students c/o the University has been placed in these boxes.

One Will Be Queen Of Homecoming

All 15 are queens, but only one will reign over Homecoming October 14 when the Vandal football team meets Oregon's Ducks. The field will soon be narrowed to five from whom the entire campus male population will pick the winner. Left to right are: first row—Carol Korvola, Betty Brock, Bonese Collins, and Marilyn Evans; second row—Beverly Benson, Pat Nelson, Maurine Williams, Faye Sargent, Pat Albertson, Joan Rowberry, Shirley Vorous, Marlene Hopkins, and Connie Baxter. Not shown are Clarise Goulder, Helen Daniels, and Eleanor Powell. (Photo by Hamilton)

SUB Dedication Ceremonies Planned for Saturday Night

Esquire To Select Calendar Co-ed In 1951 Contest

A chance for some beautiful Idaho co-ed to get nationwide attention will be given in the near future. Esquire magazine is sponsoring its 1951 Esquire Calendar Girl college contest.

Candidates will be selected by a committee, unnamed at this time. Women eligible for the tryouts will be notified in the next two weeks. This contest is NOT closed to freshmen women.

Some of the nation's best experts on the female figure—Bing Crosby, Kay Kyser, Milton Berle, Eddie Cantor, Horace Heidt, Fred Waring, Rudy Vallee, and Ralph Edwards will select the Calendar Girl from entries submitted.

Some of the wonderful things the winner will receive are: An all expense trip to New York; Screen test by a famous Hollywood studio; Appearances on network radio and television shows, and her picture in Esquire Magazine.

Point System Explained By AWS, Mortar Board

Last year a new activity point system was put into effect, sponsored by Mortar Board, and carried out by AWS. The purpose of this new system was to distribute offices and responsibilities among a larger number of University women.

According to this procedure each activity available for campus women, is assigned a certain number of points. A record is kept of the number of activities participated in by each coed, and she is not allowed to carry over the maximum number of points.

By curtailing the number of activities which one woman can have, it is possible to distribute the offices and responsibilities of campus organizations. In this way more may obtain experience in activity work, and through committee work, be ready to handle bigger jobs.

Must Petition

The point system limits women to one major activity, one intermediate C group activity, and one minor activity; or one intermediate A group activity, one intermediate B group activity, and one minor activity. The maximum total of points which an upperclassman may have is fifteen. For under-

New Ag Science Building Holds Expanded Department

By FRED BURTON The Prologue

Question: What goes into the construction of an Agricultural Science Building? Answer: Quite a bit. In the first place it takes money; no comment. In the second place it takes men and machines; they do the work. In the third place it takes materials; buildings are made of such. And in the fourth place it takes time; time passes.

Observation: The Agricultural Science Building is coming right along.

The story of the new structure is one of progress and expansion. Once sheltered exclusively in Morrill hall (Forestry building), the College of Agriculture has grown rapidly in recent years. First, some of the departments found themselves too large to stay in Morrill and thus moved to other or new sites. Soon, other departments found themselves against the wall with inadequate facilities.

And subsequently, plans for the new building came into existence. Now at last, the project is nearing completion and reality. The result, as can be seen by passing down Rayburn Avenue or gazing across Line Street, will be more than gratifying. Big, modern, well (Cont. on page 3, col. 2)

Idaho Establishes Expt. Station

As a part of its extensive research program, the University of Idaho will establish a new branch experiment station at Twin Falls, it was announced today by President J. E. Buchanan.

This station is being started as directed by law enacted by the 1949 legislature, with the primary purpose of serving Idaho's 30 million dollar a year bean industry. The president revealed that 80 acres of land will be used, recommended by a special committee representing the state's bean industry.

Home Ec Majors Take Over House

Each year senior women majoring in Home Economics live in the Home Management House for a period of six weeks. During this time they take care of the house exactly as they would if it were their own. Each one has a special duty for a week such as cleaning, cooking and many other tasks that go into good housekeeping.

Women moving into the house for this six week period under the direction of Miss Shirley Newcomb are Carolyn Hansen, Marilyn Peterson, Arden Johnson, Maybelle Gardner, Edith Herren, and Amelia Steiger.

Idaho Completes Major Sections Alley-Cafeteria

A bowling alley and a dining room-cafeteria, the last major sections of Idaho's new student union building to be completed, are expected to be ready to go Saturday night when dedication ceremonies to the building will take place.

James Bowlby, student union manager, stated that "the ball will start rolling Saturday night on our eight-line alleys which are equipped with all the latest installations in the bowling game." Lockers can be rented immediately with preference going to students who own their equipment. Shoes will be rented during the entire season.

"If at all possible, the grand opening of the dining room, whose estimated seating capacity will exceed 300, will take place Saturday evening," stated Manager Bowlby. Plumbing and electrical installations are yet to be completed.

Dance After Ceremonies

John D. Remsberg, Jr., president of the university board of regents, will be the principal speaker at the dedication ceremonies to be held in the large ballroom of the SUB at 8 p.m. Saturday.

Assisting with the dedication ceremonies will be other members of the board of regents, President J. E. Buchanan and Vern Bahr, ASUI president. Andy Christensen is student chairman in charge of arrangements.

Open house will be held in the new building from 8:15 p.m. to midnight. Featured events during the open house will be a dance in the grand ballroom, free bowling, refreshments, and guided tours of the new three-story building.

Executive . . . Board

Meeting will be Wednesday evening.

Agenda: Homecoming committee report Election committee Film committee (one member and faculty advisor) ASUI Budget study Committee Reorganization Leadership training program

Freedom Versus Communism

Nearly everyone has heard that truth is a thousand times more interesting and powerful than fiction (or lies).

More literature has crossed the editor's desk, dealing with communism. This information, however, is truth, for the purpose of combatting lies, and backs up a very worthwhile cause. The Crusade for Freedom is an organization of all Americans, for the purpose of driving out the Big Lies with the Bigger Truth.

This organization, headed by Lucius D. Clay, past military governor of Western Germany, hopes to enroll all Americans in a great moral crusade for freedom, faith and peace throughout the earth. Freedom scrolls have been distributed to clubs, factories, theaters, stores, offices and other public places. On October 24, United Nations Day, these scrolls will be permanently enshrined in the base of the Freedom Bell in Berlin.

The Freedom Bell, a 10-ton bronze masterpiece, is the symbol of the Crusade for Freedom. Inscribed on its rim are these words: "That this world, under God, shall have a new birth of freedom." The bell is dedicated as a tribute to those now giving their lives in the struggle for human freedom, and will stand as a symbol of the free world's determination to remain so.

Students on the campus will probably be contacted and given an opportunity to sign the scroll in the immediate future. The Crusade also operates a Radio Free Europe as a supplement to the State Department's Voice of America. The station went into operation July 4th with native language broadcasts to Czechoslovakia and Rumania. Similar programs were soon added, beamed to Poland, Hungary and Bulgaria, six hours a day, seven days a week. This program is supported solely through contributions of free people such as the Americans.

According to Gen. Clay, "The Crusade is a 'spiritual airlift.' By working together, we can all help to put freedom and the free world on the offensive."

The Crusade is literally the American people at last swinging into action against the lies broadcast against us by the Communists. Because the Communists are trying to make people think we started the Korean conflict and that we are imperialistic warmongers trying to conquer the world, it is important that this program receive all-out support.

Incidentally, the regional Crusade chairman is Palmer Hoyt, last year's speaker at Commencement exercises here. Mr. Hoyt is editor of the Denver Post, and an active worker in the Crusade for Freedom. Here is a reprint of General Clay's message to America's youth:

"Every time we pledge allegiance to the flag of the United States, we finish with the words, 'Liberty and justice for all.' That is because in our country we have freedom. We are free to go to schools where we learn the truth and free to worship in whatever church or synagogue we choose. When you are older you will be free to choose the kind of work you want to do.

"In many countries where there is no freedom, people are not told the truth about the United States. They are told that we want to start a war, to make them slaves. In order that all the men and women and children in the world shall know the truth about us and our country, every American is being asked to join in a great Crusade for Freedom, and to sign a Declaration of Freedom. The Declaration states our firm belief in liberty and justice for all.

"The call to liberty was first sounded in our own country by the Liberty Bell in Philadelphia. So we are sending a Bell to Berlin with the Declaration—a Freedom Bell which will carry a message from everybody who joins the Crusade for Freedom. Every day the bell will peal a call to freedom, as our own bell did in 1776. It will tell about liberty and justice for all, and it will never stop ringing until there is liberty throughout the entire world.

"By signing the Declaration of Freedom and helping the Freedom Bell to sound, you will help make Freedom ring everywhere."

Future Fashions In Men's Clothes

What will men's fashions be in the future? If women have their way according to Hal Boyle, we'll be wearing skirts. This is only the beginning. The women feel we are stereotyped, that the need for tags at conventions is because of our terrible and boring conventionality of dress.

Sure, so what? We are practical about the whole thing. We don't wear armor, although we used to. We don't go in for lace around the neck, although the women would probably be happier if we did. We just wear clothes to keep warm (and for obvious reasons complying with rules of our society.) We too went through the 'dandy' stage of laces around the necks, tight-fitting breeches and flowery designs on coats that look like maternity dresses.

Now, just because women are behind us (still wearing armor in the false name of girdles) they feel they are really ahead. What a falsehood! Sometimes they too will come around to practicality, and not worry if someone else in town has a similar dress. Let's work hard to make sure we aren't wearing skirts when that day comes!

I know somebody who has a daughter so ugly that if she played Lady Godiva the horse would steal the scene.

SAE On Its Way As Prominent Club

The Society of Automotive Engineers is well on its way to take its place among engineering organizations on the campus, reports SAE Chairman J. P. Meyers.

Necessary arrangements for chartering the student chapter were made last spring. As soon as the national society approves the charter, Idaho's automotive engineers will be on equal status with other engineering groups on the campus.

Principal objective of the SAE is the betterment of engineering ethics and principles, especially in the automotive fields. This organization is invaluable to keep engineers informed of the progress of others in their profession.

The first SAE meeting of this semester is scheduled for Wednesday at 7 p.m. in Engineering 104. The constitution, charter, and tentative future program will then be discussed. A movie will also be shown. All members are urged to attend and a cordial invitation to all engineers is extended.

Homecoming Advertising

A common sight on the campus now are the signs on cars advertising Homecoming October 14. Glen Birmingham, right, sprays paint for one of the signs as other students look on. Left to right are, Virginia Smith, Robin Fassant, Janice and Ann Morgan.

Dear Jason

Open Letter to Moscow Dry Cleaners and Laundrymen:
Dear Sirs:

You certainly work fast when the students are out of town. It was only last spring at a meeting of the Student-Business Council that you of the Moscow Steam Cleaners promised the students a reduction in price of certain laundry and cleaning items. The reason for the promise of the reduction was the data gathered by certain students that showed to the satisfaction of all—but the cleaners, that the prices charged were then too high and did not start to compete with those in the surrounding towns—except Pullman—which will be discussed later. The proceedings of that meeting were all taken down and Jason carried a story on the front page of the Argonaut, as authorized at that time, to promise the students lower prices in the fall.

Thus it was agreed at that time that prices were too high. I must say that the cleaners themselves never admitted this, but they did say that prices did not compare with adjoining areas.

Moscow's Own Little War
Then came the Korean war—A very peculiar war it does appear. This war has the singular effect of raising costs in this area resulting in "necessary price hikes" without corresponding raises in other sections.

Hats off to you of the Valet Cleaners. You have not changed your prices and mention that you do not intend to raise them in the future. Looks as if the Korean war does not even necessitate raises in all the firms of Moscow.

Students wonder why Moscow and Pullman prices are always fixed, predetermined and uniform (again excepting those of the Valet Cleaners). The reason is that the cleaners of our two fine college towns have what they call a trade association. These groups are a device whereby businessmen can fix prices, determine volume and guarantee themselves a certain income each year. In short their purpose is to prevent the law of supply and demand from operating and to destroy free competition in their area. In the past they have been successful here.

Come on students here is a chance to put into practice some of the things taught in our University, namely that if business is to serve the people it must be kept competitive. If our local cleaners cannot compete, let them get out of business. That is the basic theory of American business. We can help them to get out of business—if they don't choose to compete—by sending all of our cleaning to the campus plant which has kept its former prices. If they cannot handle your business contact me and I will put you in touch with other plants in the area who promise to do better cleaning, and cheaper, than it is done in Moscow.

Cleaners, boost the Vandals; don't bust them.

Student Extends Query On Ancient Kissing Custom

Dear Idaho males:
It is quite possible that you have never given much serious thought to what sort of condition the world would be in had the kiss never been invented (or discovered, as the case may be).

At any rate I took it upon myself recently to doubt the importance of this great old custom. For instance, I can't see why one should waste energy in osculation when a slap in the mush with a wet dish-rag would arouse just as strong an emotion.

But before we go any further, let's get one thing straight. I have nothing against the kiss, such as it is, but I would like to better our miserable lot by introducing some more exciting pastime than the old moldy kiss which is rapidly becoming outdated.

Water Could Be Stimulating
While I haven't had time to formulate any concrete plan to replace osculation, I have thought up a few tentative ideas. For instance, since a kiss is calculated to arouse an emotion, it should be quite possible to use a new stimulant and still produce a desired effect.

If one had the proper technique of transferring the emotion to fit the stimuli, he could push the lady-love in the lake (if one is handy) and make her love it. Just think how much more fun that would be than kissing a girl only to find that she has halitosis. In fact you may put me on record as being definitely in favor of reverting back to the cave-man type of love making.

For one thing it would be more economical. Instead of stopping by the florists on your way to the girl friend's house, you could simply whistle a nice new club off the old oak tree on the corner and play tic-tac-toe on your sweetie's skull. Of course this might have its repercussions in case her old man had some old fashioned ideas, and/or a shotgun in his closet. Some people just don't seem to like having their daughter coming home with her head bashed in.

Common Man Confused
But perhaps you can get the general idea of the thing. Something of this kind is definitely necessary to supplant the old fashioned ideas, and to impart a new vitality into the present love making set-up.

The whole damned business of courting a girl in this day and age has become so cock-eyed subtle that it's almost impossible for a

poor mortal like me to know just what the score is. If my plan were put into operation on a nation-wide basis, any poor guy who lacks the necessary finesse to win a ladies love, is too darned bashful, or who just doesn't want to waste time, could win a gal's love simply by knocking her block off.

I wish one of you fellows would try this plan and tell me how it works. I would do it myself, but I don't know any girls that I can whip.

Yours truly,
Noodnick

Here's More About—
Point System

rying more activities than the maximum number of points, a standard letter will be sent to her from the Point System committee asking her to drop an activity or activities. A code may not carry any activities, except a church group, if she has less than a 2.00 grade average.

Included below is a list of the various activities and their respective points.

Major activities, 10 points; AWS president, Argonaut Editor, ASUI president, KUOI station manager, Gem editor.

Minor Activities, Group A, 8 points: House president; AWS secretary, Gem staff positions, Argonaut staff positions, KUOI staff positions, Blot staff positions; President of Mortar Board, Spurs, Pan-Hellenic, WRA, Greek and Independent Caucus.

Group B, 6 points: AWS point system chairman, president of religious groups, IRC, PEM club, Women's "I" club, President of departmental honoraries.

Group C, 4 points: Members of Vandaleers, Mortar Board, Spurs, Gem, Argonaut, president of Interchurch council, WRA clubs, Orchestras, Shutter and Lens, Chess club, Ski club, chairman of election board, chairman of all campus committees, class presidents, president of any other organization.

Minor activities—1 point: Member of any organization (without office or position), class officers, house officers.

Here's More About—

Jason

Fans saw an Idaho squad, the likes of which they had seldom before seen.—One which had the power, both in will and strength, to pull out of a tough spot and win the ball game.

Good Win
At the end of the game, both team and fans alike were glad we had won the game as we did. Perhaps it is the same principal as the moron who beat his head against the wall because it felt good when he stopped, but the Utah comeback had provided the doubt as to the outcome of the tilt, which makes sports so interesting, and Howell's Dixiecrats, as they are sometimes called, had a chance to show what they could really do when they had to.

Saturday evening everyone was happy—and shoving it.

Sunday morning the big trek home began. Shortly after 9 a.m. the team started for Moscow, in two plane loads, as they had come down.

A good lesson in Idaho geography was gained by everyone on the round trip. Whereas on the ground one cannot see the forest for the trees—so-to-speak—in the air a broad general picture can be gained of the area of our state.

What We Saw
Out of Boise, as we passed over the primitive area, we saw McCall and the Payette lakes, lost reservoir, and the vast forests of those areas. The pilot flew us over the Seven Devils on the way back. He came so close that even fearless King Block, fullback, was yelling for him to go higher. With the help of John Reager, manager, we counted the seven lakes just below the seven peaks. The air was so rough over this area that Bill Fray passed Jim Chaddband the recreational for such occasions, but fortunately he didn't have to use it. In fact no one became sick during the entire round trip.

We flew over Hell's canyon and we could well see why the Snake river through this area is called the "River of No Return."

Isolated houses occasionally spotted among the forest and mountains provided wonder as to how these people lived, and how they secured their needs.

Applicants File For Scholarship

Prospective candidates for Rhodes Scholarships may secure a copy of the requirements and of the application blank for this year's competition from Mr. Beatrice in Ad. 827. Applications should be filed with the local Rhodes Scholarship committee before the middle of October.

Rhodes Scholarships provide for a minimum of two years study at Oxford University in England. The requirements stipulate that candidates be unmarried, male citizens of the United States. Those competing must be between the ages of 18 and 24 and at least a junior at this time. Graduate students are eligible to compete. Applicants must be outstanding not only on the basis of academic record, but also in regard to character and personality.

The University of Idaho may recommend candidates for consideration by the State Committee of Selection. This committee in turn will recommend two young men to represent the State of Idaho in the regional competitions to be held in early winter. In this region, which includes the states of Idaho, Washington, Oregon, Montana, Wyoming and North Dakota, four scholars may be selected to take up their studies at Oxford a year from now.

STUDENTS! MAKE MONEY WRITING LUCKY STRIKE "HAPPY-GO-LUCKY" JINGLES!

It's easy! It's fun! No box tops to send! No essays to write! Just write a simple four-line jingle, and you may make \$25! Start today!

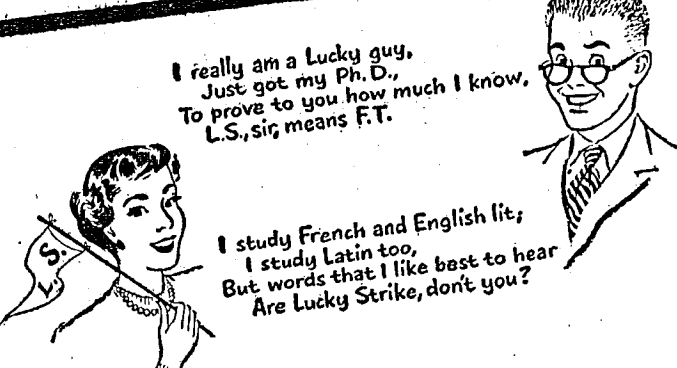

Write a "Happy-Go-Lucky" jingle, like those you see on this page, based on some phase of college life. If your jingle is selected for possible use in Lucky Strike advertising, we will pay you \$25 for the right to use it and your name in our advertising. Start today. "Happy-Go-Luckies" will soon be running in your paper. Send in your jingles—as many as you like—right away, and \$25 can be yours pronto if your jingle is chosen. Be the first to write a jingle in your school. Watch this paper for more "Happy-Go-Luckies."

READ THESE SIMPLE INSTRUCTIONS

1. Write your "Happy-Go-Lucky" four-line jingle on a plain piece of paper, or postcard, and send it to Happy-Go-Lucky, P.O. Box 67, New York 46, N. Y.

Be sure your name, college and address are included—and that they are legible.

2. Every student of any college or university may submit jingles.

Be Happy-Go Lucky!
Enjoy truly fine tobacco! Enjoy perfect mildness and rich taste!

L.S./M.F.T.-Lucky Strike Means Fine Tobacco

Firesides Begin Fall Social Calendar; Pledges Honored At Formal Banquets

Kappa Sigma gave one of the first firesides of the year last Friday night. Delta Delta Delta held an informal fireside for their pledges last Monday and Pi Beta Phi honored their pledges with a formal banquet last week.

Delta Delta Delta
An informal fireside honoring the members was given by new pledges last Monday. A skit portraying some of the personalities in the house was presented under the direction of Pat Reilly. Refreshments were served and songs were sung for the benefit of the pledges.

Janie Mathews was a Sunday dinner guest. Sunday afternoon visitors were Mr. and Mrs. J. Nordt and children, Mary and Carol, Charleston, West Virginia. Weekend guest at the chapter house was Margaret Hallock, Wallace.

Kappa Sigma
Mr. and Mrs. Charles Blanton were the patron and patroness for an informal fireside which was held Friday evening in the chapter house.

Pi Beta Phi
A formal banquet was held for new pledges Sunday. Eleanor Wilson was in charge.

Carol Nelson, Spokane, was a weekend guest and Mrs. Louis Boas and Mrs. Bill Logan were Sunday dinner guests.

Kappa Kappa Gamma
A formal banquet was given September 14 in honor of the 19 pledges. A fireside was held at night with entertainment and refreshments provided by the members.

Mr. and Mrs. R. S. Bell, Spokane, were guests for Sunday dinner at the chapter house.

Alpha Chi Omega
Formal pledging was held Sunday, September 17, for the following women: Frances Tate, LaVera Swope, Audrey Goggin, Dee Dee May, Barbara Greene, Margaret Alley, Phyllis Parrot, Delores Knight, Barbara Pennington, Billie Bryan, Becky Hill, Gerry Fritzley, Dona Killeen, and Rita Barker.

Dinner guests for the week were Dick Hardin, Wednesday, and Pat Dick Hardin, Wednesday, and Patsy Williamson, Thursday.

Carol Rounds, Richland, was a weekend guest.

Housemothers Are Guests
Dean Louise Carter and Mrs. H. E. Lattig were co-hostesses last week when they entertained University hostesses and housemothers at supper at Mrs. Carter's home. Sixteen guests attended the affair.

Exchanges
Exchanges for tomorrow will be Alpha Tau Omega, Alpha Chi Omega; Beta Theta Pi, Alpha Phi; Campus club, Delta Delta Delta; Chrisman hall, Delta Gamma; Delta Chi, Forney hall; Delta Sigma Phi, Gamma Phi Beta; Delta Tau Delta, Hays hall; Idaho club, Kappa Alpha Theta; Kappa Sigma; Kappa Kappa Gamma; L.D.S. Institute, Pi Beta Phi; and Pine hall No. 1, Ridenbaugh hall.

4-H Club Members Planning Barbecue

A barbecue supper for all former 4-H Club members is being planned by the University 4-H Club, according to Ray Anstine, 4-H Club president. This event will take place Thursday at 5:30 p.m. at the barbecue pit behind the L.D.S. Institute. All who are interested are urged to contact Anstine at room 115, Willis Sweet hall, phone 3261.

The principal function of the University 4-H club is to provide service projects for the state. The main project of the club last year was enacting the International Farm Youth Exchange. As a result, Don Mitchell, Idaho student and an active 4-H leader, is working in The Netherlands. Two Europeans, one Swiss and the other French, have spent the summer employed on Idaho farms.

MEETING POSTPONED
ASU Executive Board meeting originally scheduled for tonight has been cancelled till Wednesday night.

Musical Comments

By Bob Masters
Now, at last, we can hear the "Bolero" as it was meant to be heard. Capitol has recorded the Brussels Radio Symphony Orchestra in one of the finest reproductions of the Bolero since the war. Franz Andre, the able conductor, has interpreted the "Bolero" as the composer wished—not only complying with the speed but with the instrumentation. This, indeed, makes the Capitol recording good listening.

Also Popular Selection
Maurice Ravel's "Bolero" has long been a very popular selection with people of all ages. Not only in the concert hall, for which it was written, but in the neighborhood juke-box this well known rhythmic composition has achieved fame and popularity.

The "Bolero" commences with the rhythmic beat of the drum section. This gradually increases in volume and tempo into the theme which is taken up by the strings. Then the flutes, bassoons, clarinets, horns and other sections of the orchestra all combine for the stirring, climactic crescendo.

Dramatic Close
As the full force of the orchestra is attained the volume is increased not by the sheer force of numbers but by the dynamic division of the strings, reaching a new and even greater peak. The orchestra then changes key raising both the tone and the emotions of the listener to the higher level.

The "Bolero" comes to a dramatic close, creating such a feeling of amazement in the mind of the listener that there remains a short silence after the final notes have died away.

Church News

Newman Club
A meeting of the club will be held at 7:30 Tuesday evening in the church parish hall. This meeting is to be a "mixer" and all old and new members are urged to attend.

Roger Williams Club
Coach Eric Kirkland will be the speaker at the reception for Baptist students tonight at 7:30. The reception will be in the church social hall at 1st and Jackson streets and will be in the form of a mixer. Ruth Dimond is in charge and the women of the church will serve refreshments. The evening will close with introductions by Dale Douglas, president of the club; a brief word from the pastor, Rev. Kenneth L. Homes, and the talk by Kirkland. Not only Baptist students are invited, but also any others who have no particular church preference.

Westminster Guild
A reception will be held tonight for students and faculty at the Methodist church.

Here's More About— New Ag

equipped, the Agricultural Science building will be the answer to a dream and a boon to the University as a whole. Then too, the space vacated in Morrill hall will be converted for valuable use by the Schools of Forestry and Business Administration.

The Division
On the ground floor of the new building will be the Horticulture departments, the meats laboratory for Animal Husbandry, offices of the pea weevil research group, the extension publications office, and the mailing room.

The first floor will contain the administration offices, Experiment Station, and the Departments of Agricultural Chemistry, Agricultural Economics, and Agricultural Education.

The offices and laboratories for Poultry Husbandry and Animal Husbandry will be on the second floor, while on the third floor will be the offices and laboratories for Plant Pathology and Home Economics Research.

Rooms Are In Use
At the south end of the building will be a large lecture room with a student capacity of 406. Other features throughout are three classrooms, each for 100 students, and one classroom for 40 students. At the west side of the building will be a parking lot for about 130 cars.

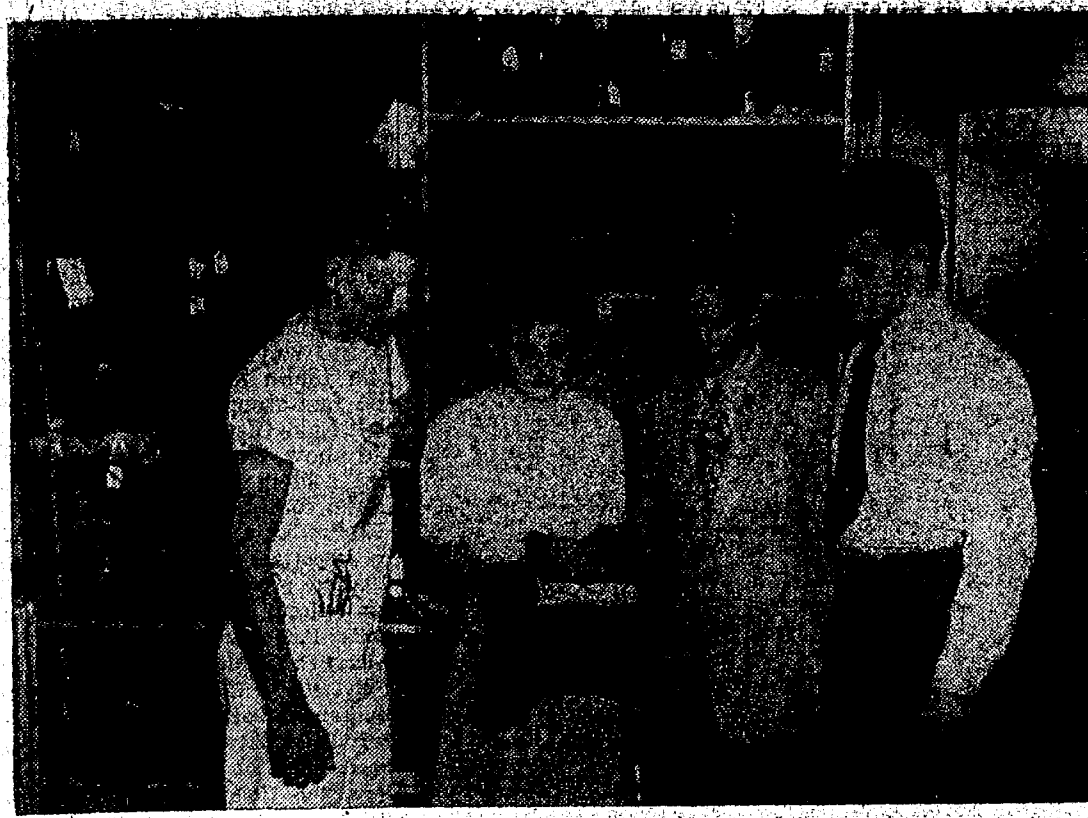

Retarded by unfortunate delays, the exact date for total completion and utilization of the building is uncertain, but not far away. Three of the classrooms have already been finished and are in use.

Honor Society Elects Officers

Officers for the coming year were elected Saturday by Pi Gamma Mu, social science honor society, at the first meeting of the year. Elected to fill positions in the new organization were Alfred Prince, president; Kent Lake, vice president; Mr. James DeVeau, secretary-treasurer; and Amie Kalsaki, reporter. Faculty adviser is Mr. Sverre Scheldrup.

An executive committee of faculty and student members was also elected by the group. The committee includes Dr. C. J. Brosnan, Mr. James DeVeau, Dr. Harry Harmsworth, Dr. Eoyd Martin, Dr. E. C. Moore, Mr. Scheldrup, Shirley Rae Longelgig, and Margie Kinney. Also selected were committees to draw up by-laws for the organization and to prepare for the installation of the chapter and initiation of the members.

Scholarship Winners

Scholarships of \$500 each have been awarded four students to attend the University of Idaho by Standard Oil Company of California. The scholarships are awarded to one member of each class by the company. Looking at part of the historical collection in the university's Northwest Room, the winners are (left to right) Rex Elkum, freshman; Lois Bush, sophomore; James Patterson, senior, and Ralph DeMarr, junior.

NROTC Units Add Three Men To Idaho's Staff

Three new staff members have reported for duty with the Idaho NROTC unit. Two are replacing staff members who left last year, and one is an addition to the number of base personnel. Commander H. E. Davey reported for duty with the unit from Key West, Florida, where he was in command of the Submarine Cubera. Comdr. Davey replaces Comdr. Pugh, who served at Idaho for the past two years. Davey, who will serve as Executive Officer of the unit, lives in Moscow with his wife and three children. Comdr. Davey previously served as an instructor at the Harvard NROTC unit.

Reports For Duty
Teaching freshman naval science courses is Lt. W. K. Bickenbach, who reported here for duty from the Navy General Line School at Newport, Rhode Island. Bickenbach is a graduate of Stanford University, where he was active in football and wrestling. He has a wife and two children, and lives in Moscow. Replacing Chief Storekeeper E. E. Fenno, who served at Idaho for a year and a half, is Dispersing Chief Petty Officer James Hesketh. Hesketh has served 16 years with the Navy, and reported for duty here from Mare Island, California. Moscow is the new home of Hesketh, his wife, and three children. Lt. W. R. Anderson, who has served with the NROTC here for the past year, recently received a promotion to Lieutenant Commander. Comdr. Anderson graduated from the Naval Academy at Annapolis in 1942, and has eight years of commissioned service to his credit.

Wedding Bells Ring For Idaho Duo

Saint Francis Xavier church, Trail, Canada, was the scene of the ceremony which united Betty Ann Biker, daughter of Mr. and Mrs. J. B. Biker, and Norman Clark Lodge, son of Mr. and Mrs. N. C. Lodge, in marriage.

Miss Janet Biker was her sister's only attendant and John Mathews served as best man.

The couple will reside in Caldwell. The groom is a graduate of the School of Business Administration at the University.

Mrs. Lodge also attended the University where she was a member of Delta Gamma.

AWS Announces Membership Rules

The AWS council has announced a revision in membership rulings. In the future the council will be made up of the following persons:

1. One representative from each women's living group elected by the members of that group.
2. One representative elected or appointed from the following women's organizations: Mortar Board, Pan-Hellenic Council, Spurs, Women's Recreation Association. These representatives must not be serving on the council in any other capacity.
3. The duly elected officers of AWS shall be: president, vice president, secretary, treasurer, and orientation chairman.

Vandals Win 26-19 Heartstopper From Utah Redskins

Brogan Drives Over Final Period Score

By Phil Johnson
Coming with the dedication of Boise's new Bronco stadium, 12,500 football fans, not fully realizing they were about to witness two football games for the price of one, sat frozen to their seats as they watched one of the wildest games in Idaho sports history. With the first contest going to Idaho 13-0, Utah's Redskins amazed the crowd as they bounced back after intermission, to outscore the Vandals in the second half 19-13. After the smoke had cleared and the statisticians began to add the two scores, they found that Idaho had taken the game 26-19.

Comfortable Lead
Off to what appeared to be a good start and a possible romp, Coach Howell's charges hammered away at the Utah defense time and time again, and in taking advantage of the breaks and the baffled Redskins, did walk from the field with a comfortable 13-0 lead at intermission.

Idaho's first score came with but four minutes and thirty-four seconds remaining in the first period. With John Brogan, Glen Christian and Jim Chadband leading the way, the Vandals started a sustained drive of 67-yards, later completed by Christian from the six yard marker. Bud "the toe" Riley booted the extra point, but a fifteen yard penalty nullified the play. Christian's attempt from the 17 found the ball to be both low and to the right.

Starting a second drive from their own 11, the Vandals ate up 89 yards in 10 plays as the clock indicated eight minutes and forty-one seconds remaining in the second quarter.

Block Runs and Runs
Upon entering the game for the first time, fullback King Block proceeded in fooling the opposition as he ran for 11-yards on his first running play from scrimmage. On the next play he rambled for 10 more. Incidentally it was Block who contributed to the Vandals second touchdown as he reeled off the final two yards of the long drive. Riley's conversion attempt was to perfection, as the scoreboard read 13-0 for Idaho.

The statistics for the first half of play were astounding. Idaho, featuring a stiff defense, held the Utes to a minus-six yards by way of the ground and air — while in turn showed offensive power as they compiled a total of 222.

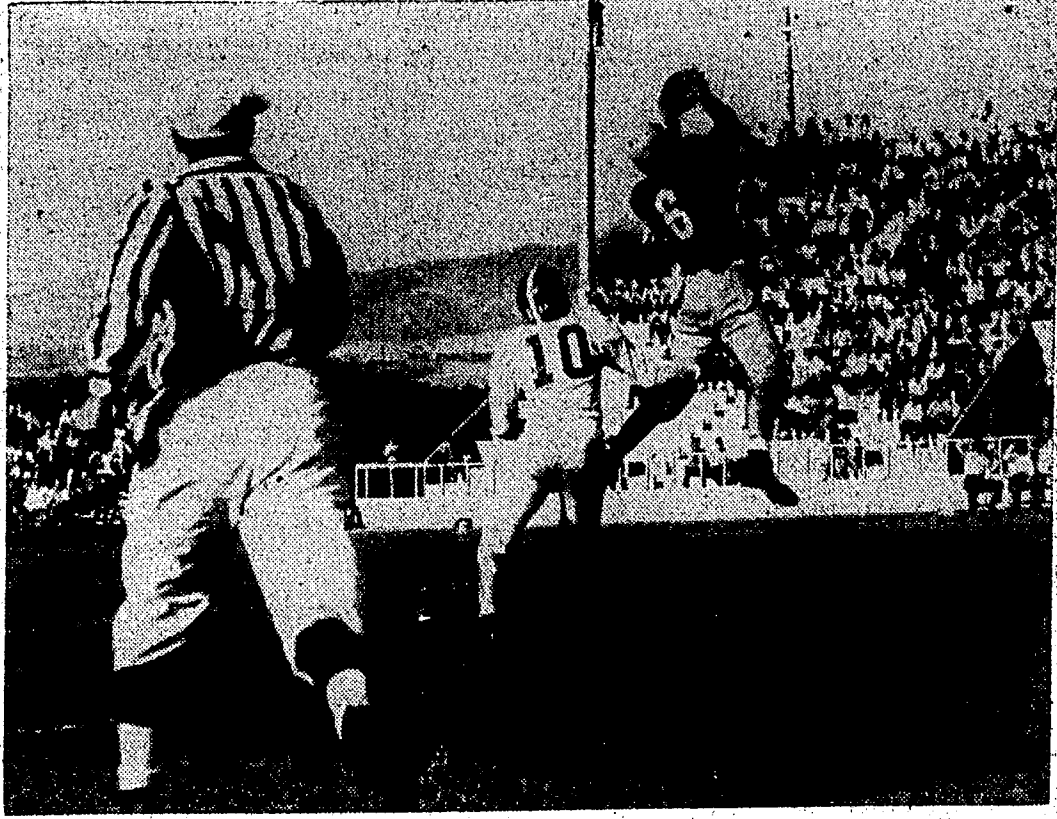

New Team
When Utah came back to the field after intermission they were an entirely new team. Whatever Curtice told his squad at halftime, it had results. The Redskins moved 76 yards on a drive that culminated just two yards short due to a costly fumble recovered by the Vandals on the seven. A penalty on the next play cost the Vandals 15-yards for illegally using their hands — thus placing the ball on their own one. Bud Riley's punt was received by Bob Matthews and returned to the Vandal 15. On third down with Utah in possession on the three Dave Cunningham hit Matthews with a pass for the first Redskin touchdown. The point after touchdown attempt by Don Sukowicz was blocked by Idaho's fast charging line.

Fumble Costly
A costly fumble by Idaho's King Block on his own 47 following the kickoff was recovered by Utah's Sandy Morris. Matthews' 10 yard romp on the next play carried the ball to the Idaho 37. Cunningham took command again as he flipped one pass to Sukowicz for nine yards and on the next play squarely hit end Jim Lasseter behind the goal line 29-yards away. This time Don Peterson in his attempt for the extra point, kicked the ball squarely between the uprights.

All three of Utah's touchdowns were scored within six minutes. The Vandals wasted no time in getting back into the ball game. From their own 40, Idaho raced down the field for 60 yards and the tying touchdown in eight plays. Here's how it happened. Christian went for nine... Block rambled for 10... Christian circled end for 11 more... Brogan collected four... and Block carried five to place the ball on the Utes 21. Two scrimmage plays later the ball was on the 15. Reserve quarterback Wayne Anderson fired a flat pass to Block on the nine, from which point the Idaho fullback carried it over the final stripe. Riley's kick was wide.

Vandals Move
Not satisfied with a tie, the Vandals were on the move again. Starting from their own 30 the Idahoians ate up 70 yards in eight plays climaxing by a 23 yard pass from Brogan to end Jerry Ogle. This catch shown in a picture above was the most sensational of the game and connected with this

Ogle Snags Vital Idaho Pass

Jerry Ogle, Vandal end, makes a brilliant catch of Johnny Brogan's pass late in the last canto to set up the winning Idaho score. Mitt Smith, Ute quarterback, moves in to tackle Ogle on the 10-yard line. The next play Brogan rambled across into the end zone.

Little Brown Stein Game Saturday

The University of Idaho football squad will make their 1950 debut on the Neal stadium gridiron Saturday afternoon by accepting the University of Montana challenge for the coveted Little Brown Jug.

Montana lugged home the jug with a 21 to 0 win three years ago, but the Vandals recaptured the prize in 1948 and 1949.

Saturday's contest will be the 35th grid meeting of the two universities with Idaho holding 24 to 9 edge in victories with one tie. Since the war Idaho has won three and Montana two with each team taking two successive victories in the last four meetings. If history repeats, the Vandals are in for a rough afternoon.

No Injuries
Both elevens came through last week's battles unscathed, and barring no injuries in practice this week, should be in top condition come 2 p.m. Saturday.

Tickets for the game are going at a brisk pace, but Idaho officials report that many excellent reserved seats are still obtainable through the graduate manager's office in the Student Union building.

PEM CLUB MEETS
The girls physical education club plan to hold a food, fun and frolic meeting in the University field house this evening between five and seven o'clock. The election of officers for the coming year will be part of the program. Levis are to be worn.

How We Won

	Ida.	Utah
Total yardage gained from running plays	320	172
Number of yards lost from running plays	2	34

play was the deciding play of the game as Brogan went over from the 10 on the next play.

Frosh Football Team Looks Good In Intrasquad Tussle

With their first game of the season scheduled for October 6, the Vandal freshman football team, under the guidance of Coach Art Smith, went through an intra-squad scrimmage Saturday afternoon in Neale stadium.

The hour and one-half tussle produced no injuries and gave the junior varsity aspirants a chance to show their stuff. Smith was especially pleased with the team's offensive action, which produced five touchdowns.

Mentioned by Smith for their individual performances were halfback Ted McDade, halfback Larry Morrison and quarterback Katsianes.

Up Front
In the forward wall Smith cited tackle Norman Thomas, end Walt Hardin and guard Ray Faraca for their outstanding skill.

The opening game for the freshman aggregation will be played in Moscow against the Montana State University Cubs in October 6.

This is Smith's first year as a member of the Idaho coaching staff. He was formerly head football coach at Boise high school.

Duck Defeated
The Oregon Ducks, homecoming opponents October 14, were battered by the Bruins of UCLA in L.A. 28 to 0.

Washington State started their season off on a sweet note by dropping Utah State 46 to 6 in Logan.

At Laramie, the Wyoming Cowpokes revenge their lone 1949 defeat by upsetting Baylor 7 to 0.

Oregon State trekked across the county to drop a 38 to 13 decision to the mighty Michigan Spartans. Boston college was idle over the weekend.

Down at Tempe, Arizona, the Sun Devils from State trampled a weak Brigham Young squad 14 to 13.

Quackenbush Posts 69 In Qualifying For Golf Tourney

First round play-offs for the seventh annual ASUI Flight tournament are now underway for Idaho divot diggers and must be completed by Oct. 1.

Posting excellent scores for the qualifying rounds, which began Sept. 16, were Bud Quackenbush with a 69 and Bob Lyons who tallied a 70.

Last year's champion, Sonny Hiskey, did not return to school, but Charles Mansius, the 1948 champ, is paired in the championship flight.
Championship Flight
Paired in the championship flight as a result of qualification rounds are: Quackenbush vs. Hamilton, Batt vs. Miller, Mansius vs. Stringfield, Faylor vs. Farmer, Lyons vs. Coombs, Jenkins vs. Behre, Drips vs. Sparks and Nelbar vs. Barbee. Losers drop to the first flight.
 Second flight pairings are: Parish vs. Candie, Atchison vs. Kramer, M. Blume vs. Dent, Glover vs. Meuser, Kass vs. Chaney and Langness vs. Fereday. Losers drop to the third flight.
 Fourth flight contestants are: T. Blume vs. Carbuln and Moore vs. Wilson. Soderberg and Hoblett drew byes. Losers in this flight are eliminated.
 The tourney will proceed through most of October.
 Sleep is when you don't get enough of the night before, you wake up half a.

Utah, Idaho Musicians Thrill South Idaho Football Fans

Execute Formations Precisely At Half

By BUD HAGAN
Those who attended the Idaho - University of Utah game in Boise over the weekend found plenty of top-notch entertainment awaiting them in the way of college bands. The Idaho band, along with the fast-stepping outfit from Salt Lake City, put on a splendid show, the equal of which has seldom been seen by an Idaho football fan.

Following a few brief speeches by important dignitaries, Eugene Chaffee, president of Boise Junior college; Gov. C. A. Robins, Foster P. Howard, mayor of Boise; Albert R. Olphin, president of the University of Utah; President Jess Buchanan; Earl Glade, mayor of Salt Lake City and Lyle Smith, head coach of Boise Junior college, the Utah band with their 180-step-per-minute cadence marched onto the field and formed the word "howdy," then "Idaho," and played the school alma mater. In tribute to their own state, the band, led by their drum major and majorette, spelled out "Utah," followed by the formation of an Indian tepee.

Hi Neighbor
The Idaho band welcomed Utah by forming the word "hi" followed by the playing of "Hi Neighbor." They next honored the visitors by an Indian "dance of the sabers," expertly performed by Majorette Bonese Collins. The band then formed the letters "GOV." in honor of Governor C. A. Robins and played "For He's a Jolly Good Fellow."

Rated as the third best collegiate band in the nation last year by Warner Bros. Studios, the Utah band appeared with 120 members. Both bands performed extremely well and received much applause from the near-capacity crowd.

Both organizations were kept busy over the weekend. They played for the Boise Junior college-Modesto game Friday night and also participated in a parade through Boise Saturday morning.

Coed: "I'm not asking anything for myself, God, but please bring another son-in-law."

Intramural Teams Start Schedule

Although "Old man weather" poked his nose into the picture yesterday afternoon, he didn't hamper the first games of the 1950 Intramural football season.

In one of the most important games of the day, the ATO's, last year's Greek champions, turned on the heat and sent the DTD home on the short end of a 20 to 0 score. The PDT's placed a big mark in the win column by allowing the SAE's only one touchdown and extra point while racking up 26 counters themselves.

In other games the SN scored in the second period to turn back a hard driving TKE squad 7-0. PGD had to score a safety before the DC were downed 9 to 6. SC scored two touchdowns and made their extra tries good to rack up 14 points while holding the LDS to a safety. In the last game played yesterday the LCA edged the Eagle and Anchor in the last minutes of play 8-7.

Tonight's Contests
Tonight's games will pit DSP and BTP on field 1, South Ad lawn; KS and PKT on field 2, North Ad lawn; CH No. 1 vs. PH No. 3 on field 3 north of the varsity tennis courts; LH No.1 vs. IC on field 4 north of Neale stadium; and CH No. 2 vs. CC No. 3 on field 6 northwest of Neale stadium.

Tomorrow afternoon will find LH No. 2 meeting PH No. 4 on field 1; PH No. 2 against WSH No. 2 on field 3; LCA vs. SN in field 3; SAE vs. E & A on field 4; TKE vs. ATO on field 5; and PDT squaring off against DTD on field 6.

Thursday's slate sends LDS against PGD on South Ad lawn; BTP vs. SC on North Ad lawn; DC meets PKT on field 3; DSP tackles KS on field 4; CC No. 1 vs. PH No. 3 on field north of Neale stadium; and CH No. 1 vs. WSH No.1 on field northwest of Neale stadium.

'T CLUB

The I-club will hold a meeting Wednesday evening, September 27, at 7:30 at the Idaho club.

Overgaard's Orders Are Cancelled

Will Overgaard, former Vandal tackle, known better by sports fans as one of the "Double A Boys," received good news from Uncle Sam today.

The Moscow high school football coach will be around for the entire season, or so the 13th naval district has informed him. Overgaard, who was to have reported for his physical and immediate return to the marine corps, had his orders cancelled this morning when he received a long-awaited commission in the same order.

The Bear grid mentor was to have reported at Portland October 3 for his physical and the Lewiston-Moscow game Friday was to have been his last coaching job until he returned from service.

News Welcomed
The news was a welcome in two ways in that he received a commission as a second lieutenant when he does report.

Overgaard said he and his teammate on the Vandal football machine a year ago, Carl Kilsgaard, applied for commissions last May. It was not known whether Kilsgaard, who was to have reported for a physical September 29, has received similar word. He is believed to be in Bonners Ferry but could not be contacted this morning.

Late yesterday afternoon, Idahoian Sports Editor Al Barackman had a telephone conversation with Carl Kilsgaard in Bonners Ferry. As yet, the former Idaho tackle has not received the commission he had applied for along with Overgaard. Kilsgaard said as far as he knows, he still has to report for duty Friday.

Basketball

Head basketball coach Chuck Finley announced that there would be a meeting for all freshman interested in turning out for basketball. Those concerned are asked to meet in the gymnasium at 7:30 Wednesday evening.

Vandal Boosters Report Grid Battle

A report on the Idaho-Utah grid battle and a forecast of expectations for the game with Montana next Saturday, will be featured at the first fall meeting of the Vandal Boosters in Moscow tonight. The meeting is scheduled for 6:30 at the Idaho Ad club.

One or more members of the Vandal coaching staff will participate in the program. Reports on the first portion of the annual Booster drive are also slated.

W. F. Schnell, president of the organization, announces that this meeting is open to all persons interested in Idaho athletics.

DO YOU KNOW?

... which college football team played in the Rose Bowl twice and won both games by identical scores?
 ... where a referee had a whistle knocked out of his mouth by lightning?
 ... when you had your choice of rolling or throwing the bowling ball?

You'll find the answers to those and many other sport facts in the new 1950-51 Sports Show Book.

Brogan Crosses Ute Goal Line With Winning Tally

An unidentified Utah player attempts to stop Johnny Brogan, star Idaho halfback, from plunging into the end zone with the winning touchdown late in the fourth quarter. Brogan's jaunt gave the Vandals a 26-19 victory over the aerial minded Redskins. Other Utah players rushing in to attempt a tackle are Ken Palmer (47) and Brian Mooney (38). The official is Jimmy Cain of Rose Bowl of-claating fame.
