Idahoans Go To Idaho

Students working toward degrees at the University of Idaho form one of the most unified state-wide groups. Every county in the state is represented by students at the university. The map of Idaho shows state distribution of students. Students with families, many actually from other parts of the state, account for the large number who list their home address as Latah county. Also represented at the university are 44 other states, the District of Columbia, three territories and 16 foreign countries.

WSC Player Trips Up Block And An Idaho Touchdown

King Block, stellar Idaho fullback, is shown after stumbling over an unidentified Washington State player early in the first quarter, as evidenced by the clean jerseys. Hard-driving Block nearly crashed through into the clear for a Vandal touchdown as he moved from the WSC 40 to the Cougar 26-yard line, a gain of 14 yards. Block set up a fourth period Idaho score with two 38-yard runs. His total for the afternoon was 120 yards in 14 attempts, an average of 8.6 yards per try. Rain, turning the field into soggy turf and mud, hindered runners. (Photo by Caffrey)
