ly ,it is a pleasure to work with ing body. men like that. Some other groups could do well to take a few tips from the Aggies. They at least seem to know where they are going and what they are going to do when they get there.

Jason received a letter from President Buchanan recently. He expressed a feeling that Jason heartily agrees with. Following is the letter:

To the Student Body:

I wish to express the thanks and appreciation of our faculty and students did on the campus clean-up project last Saturday. We do have a beautiful campus, and your efforts on Campus Cleanup day, together with your continual care As Educators Discuss War, Peace efforts on Campus Cleanup day, and awareness of this beauty throughout the year, are very sincerely appreciated."

Since Idaho launched the in itial "college drive" last fall, such schools as WSC, UCLA, Arizona and OSC, all larger schools, have All groups which have not en- failed to top our mark. But Ida-

"The appointment blanks are ming in at a pretty good rate." stated Lloyd, "but it is still rather slow, considering the two great needs of the drive." He referred to critical use of blood overseas and to the need of maintaining the launching the "College blood drive" program.

Giving Is Easy

Lloyd also added that the pro cess is entirely painless, due to a shot of novacaine which deadens the arm. "Many people are holding back because they think it is going to hurt, when the entire operation is absolutely painless," commented Lloyd.

All living group presidents or blood drive representatives are urged to turn in all the completed appointment forms by 4 p.m. today, requested Jerry McKee, in chargé of scheduling the expected 700 donors. Turn In Blanks

These filled appointment blanks can be brought to the General

Manager's office in the Student Union building. Any additional forms that are completed after today can be turned in there also, or in the Gem of the Mountains office, third floor, Student Union.

The legal releases, which are required of all donors under 21 should be brought with the donor when he comes to give his pint of

As last November, the blood staion will be set up in the middle al construction program now make Knights, Spurs, and Alpha Phi semblies. Omega will handle the registration and canteens.

For Final Concert

be heard in Bohler Gymnasium in Pullman tonight at 8 o'clock.

Paul Schreiber, founder and conductor, organized the St. Louis Next Jam Session Sinfonietta in 1937. Every instrument of a full symphony orchestra was represented and this proved have been many personnel changes, this same instrumentation has been maintained since the group was organized.

audiences everywhere. Although string orchestras had already been is free. touring limited sections of the country, Schreiber's contribution was a chamber orchestra with the delicacy and refinement of stringed instruments, and an ensemble with instrumentation to permit presentation of the classic symphonies, impressionable composiions, and modern orchestrations.

In sharp contrast with its first tour of one engagement, the St. Louis Sinfonietta was soon greeted with unanimous praise that has been awarded it ever since. The tours gradually expanded until now the orchestra, traveling in its own custom-built bus, brings a new experience in symphonic music to audiences throughout the United States, Canada and Mexico.

If you have a Student Opinion Poll that you haven't filled out, do so immediately and turn it in at the ASUI office in the ·SUB or to your nearest IK or

Open Letter To High School Seniors

Hi visiting Seniors: Welcome to the Idaho campus! Today is the day the University is swinging wide its doors to show you a good time. The entire Student Body and Faculty are combining to make this day one you will want to remember.

We are turning the campus over to you, lock, stock and barrel, and we hope you take advantage of every opportunity to really look it over.

Remember, this is YOUR University also. Bill Chetwood All U Day Chairman.

Preview For Visitors

High school seniors visiting the campus this week-end for Theatre. the annual All-University day will get a preview of life at the University going full blast.

An estimated 500 visitors will be on the campus during with their respective unnatural vance of the ASUI Film Commit-

one of the busiest and most hectic week-ends on the calender and natural deaths, the world lost tee in changing the place of the sciousness. He burned twice in this year. Among the things going on this week-end are two great masters. The unani-showing of the Cinema Series. We the Little International livestock show, golf and tennis mous approval given "Pygmalion" have suffered through most of matches with WSC, open house at all living groups and de by Idaho students was truly a fit- those presented in the Borah Room, partments, and Forestry week.

We hope the visitors will feel welcome to our University, but we also hope they won't be scared away by the furious Xi Sigma Pi pace of the many events going on this week-end. Really, it only happens half the time.

If University students have that fagged look, it is only because of the spring weather—not because we have been the Forest Insect laboratory in the projection booth, the comparatively superb sound system, the labers. or less representative cross section of university life. engineering building—While doing class work and not out from Idaho have always held a high priority with large concerns on the campus surveying, Idaho Engineering students hang their hais such as General Electric and Westinghouse. in the above structure recently completed. Engineering graduates

AGRICULTURAL SCIENCE BUILDING—Home of the "campus dollars, the building is completely modern in every respect and comaggies," the Agricultural Science Building rates at the top among plete with an auditorium seating over 300 persons. A large parking classroom buildings throughout the nation. Cotings over a million lot is placed in front of the Ag Science building.

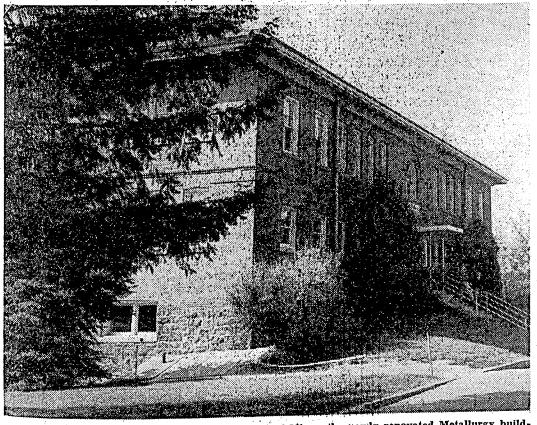

STUDENT UNION BALLROOM — Located on the second floor of the Student Union building, the huge ballroom is reputed to be the only place in the entire state where four separate dances can be held at the same time with a minimum of "strain." Each ballroom within the large ballroom boasts a distinctly different color scheme.

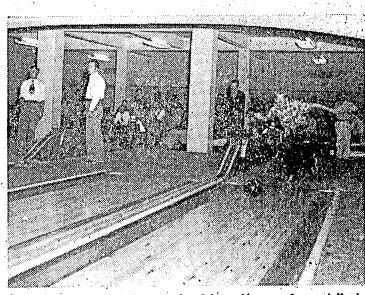

STUDENT UNION BUILDING—High school seniors visiting the campus today probably recognize this modern lounge or lobby where they first met to register for All-University Day. When an Idaho athletic team is away on a trip, many students gather around the radio to find out the score.

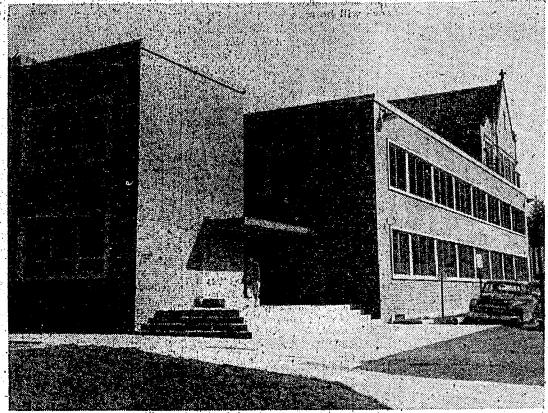

KIRTLEY ELECTRICAL LABORATORY—Pictured above is the building where electrical engineers really get down to the "finer points" in their studies. All modern electrical equipment is contained within the building.

METALLURGY BUILDING—Housing the School of Mines, the newly renovated Metallurgy building with its sloping lawns is the scene of many between-classes "buil sessions." Mining majors call this building home during class time.

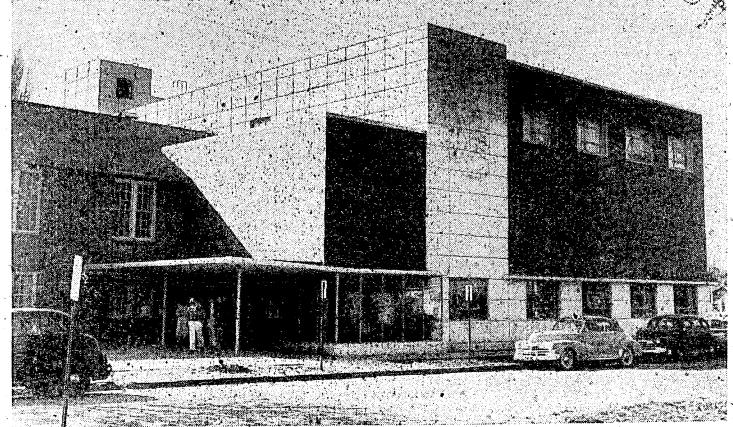

SUB BOWLING ALLEY—During leisure hours and especially in the winter, Idaho students find the SUB bowling alleys an excellent place to get a little exercise and at the same time relax.

ADMINISTRATION ADDITION—Even the faculty gets a new building. This Ad building addition houses various offices of the administration. Here is where new students next fall will obtain information for the Registrar's offices are located here. This is the fifth addition since the Ad building was originally built in 1996.

NEW MUSIC HALL—Not yet completed, but well on the way is Five" construction program for which the 1949 state legislature apthe new three-story Music building. This is the last of the "Big propriated funds. The building will be ready for use next fall.

STUDENT UNION BUILDING—With a total cost well over a halfmillion dollars the Student Union building shown above is the latest
thing in every respect. Multi-colored rooms mark a striking contrast to the old "Bucket" of bygone days. "Joe," the burly Vandal,

Today the University of Idaho. with \$4,000,000 in beautiful stone and brick buildings rising among a veritable forest of trees, offers ical Schools, by the Engineers' the finest in educational facilities to a student body of about 3,000. The student body this year is almost wholly composed of Idahoans, for enrollment has necessarily are accepted by every university been limited to residents of the in the United States. state and to former students returning to complete their education, a large number of them vet-

The campus once consisted of 15 acres. Today the University, including its adjoining farms, covers 1/100 acres. The University also the Pacific Coast Conference, Idacut-over lands a few miles from the campus, which serve as a winter sport and general recreational area. There is also a summer camp in forestry at Payette Lakes.

Before the war, virtually all the students lived "on the hill"—in dormitories and in 22 fraternity and sorority houses. Now they live "on the hills." The great influx in recent years of returning veterans sent students scurrying for lodging in towns and on farms within a 15-mile radius of Moscow. Every morning, on highways leading to Moscow, there is a commuter's parade of students.

President J. E. Buchanan, himself a graduate of the University, pledged himself during the recent educational emergency to seek out all possible housing space for students. That pledge has brought about the housing of students in such temporary locations as the Memorial Gymnasium and the Infirmary.

A \$700,000 veterans' housing project also provided new quarters two years ago for 736 veterans and their families. These quarters included reconstructed prefabricated houses from former war projects and a 100-unit trailer city. Many students have also brought their own trailers' to

The students, however, didn' seem to mind the postwar crowding. Grinned one veteran to another, "Move over, Joe, I want to go to school, too."

This tirge of Idahnans to advance their knowledge is the same urge that sent their grandfathers by pack train over the mountains from southern Idaho to the University in the northern part of the rived at the Washington State Colstate. It sometimes took those early students weeks to make the life could be found. Up on the hill, trip. Now the students are sped to school was going on as usual, and the University in hours from the despite the letters which the Idafar corners of the state by train, ho team produced, no one seemed car and plane, but they come for to know about the game. Tabbed as the underdog, but still very much in the picture, Coach Stan Hiserman's pathpounders may enact another drama Saturday afternoon when they match endurance and intestinal fortitude with the Washington State cinder crew at Pullman.

- Last week on the home track. Idaho staged a story-book finish when they tripped Oregon State college 67-64 by capturing the final mile relay event. Disregarding all 'if' and 'but' calculations, the mile relay may again be the final deciding factor between victory and defeat for Idaho at Rogers Field Saturday.

The 1946 season marked the last time these two cross-state rivals ran a dual meet neck and neck to the wire, Idaho, then under Coach life in the late events and held a 64 1/3 to 61 2/3 margin with only the mile relay remaining. Ryan the final relay, for as usual, Idaho was short in depth. The Staters' boasted an outstanding baton crew, but in the crisis, four tired Vandal runners volunteered to try Hiserman's tracksters will invade and win the relay and the meet.

in the mile, two-mile and quarter ington State team. mile races; Bob Pruitt had run the mZile and half mile and Ray Halloran had competed in the quarter and half mile; but they agreed only fresh quarter-miler.

With the bark of the gun Halloran found himself running into the meet cold. . against Paeth, the Cougars' best 440 man.
