## Attorney Charged Again With Assault Complaint

### Two New Research Projects Approved For University

Two research projects involving new approaches to the problem of halogeton, the sheep-killing weed which has exploded over hundreds of thousands of acres of western range land, have just been announced by President J. E. Buchanan of the University following formal approval by the University regents. Carrying on the work will be departments of the agricultural experiment station and the forestry, wildlife, and range experiment station.

One study will be to determine the extent to which insects are destroying beneficial range plants and shrubs, thus opening the way for the spread of halogeton and other weeds.

During the past three years, University researchers on the halogeton project in the Raft river valley have noted appearance of new insects on native shrubs and plants on southern Idaho ranges. Some have suspected the insects might have had something to do with the decline of natural vegetation, thus helping open the way to halogeton.

Studying the insect angle of the halogeton problem will be Dr. W. F. Barr, assistant entomologist, and a graduate research fellow. Cooperating will be the range management department of the forest, wildlife and range experiment station.

Also announced by President Buchanan was an agreement with the Bureau of plant industry of the U. S. department of agriculture under which that governmental agency becomes a cooperator in halogeton research in Idaho.

This cooperation will make possible a study of soil types and their relation to the spread of halogeton. Study plots will be established in areas where native vegetation has disappeared and either has been or rapidly is being replaced by the weed. Carrying on this study will be the department of agronomy of the agricultural experiment station and the department of range management in the school of forestry.

## Standard Company Gives Fellowships

Scholarships and fellowships that will amount to \$200,000 are being awarded this year to college students and universities by the Standard Oil company of California. Individual graduate fellowships are awarded to 31 students at 23 major universities in the U.S., according to T. S. Peterson, company president.

Standard also awards 66 agricultural scholarships to members of 4-H clubs and the Future Farmers of America, and 36 leadership scholarships to undergraduates in 10 western universities.

The program is sponsored by Standard and three of its subsidiaries, California Research corporation, The California company, and Standard of Texas.

Ted Torok cheerfully accepts his credentials as a full fledged musician at the recent costume ball held by the University band members. Ted is drummer for the University band, the "Pep" band and the SUB band.

## WSC Debate Team Wins Tournament

A WSC team undefeated after six rounds of debate was named winner of the 20th annual Junior College debate tournament held last Friday and Saturday on the Idaho campus.

Schools entering teams were WSC, Idaho and College of Idaho. Other schools were expected to attend but due to bad weather and exams only three schools participated.

Representing Idaho were Patricia Bartlett, Nancy Leek, Isabel Clyde, Dorothy Carter, Herbert Pendergast, Fred Williams, Andrew Field, Richard Johnson, Robert Huntley, James Kruger, Lee Anderson, Harry McPike and John Love.

The winners were presented with the traveling trophy. Idaho has twice before had possession of the trophy and needs one more win to gain permanent possession of it.

The question debated was "Resolved that the Federal Government Should Enact a Compulsory Fair Employment Practices Act."

Estes appeared in Justice of the Peace Power's court yesterday but the arraignment was not concluded at press time.

## Macklin Will Be Host To Visitors

Music men from the University of Oregon and Montana State University will visit the University of Idaho next week to meet with Professor Hall Macklin, head of the Idaho music department, to plan the 1953 meeting of the National Association of Music Executives in State universities.

Visiting professors will be Dean Theodore Kratt, University of Oregon, and Dean Luther Richman, Montana State university. Dean Richman and Professor Macklin are co-chairmen of the 1953 meeting.

Early in the fall of 1953 the NAMESU will convene at Montana State for two days, then move to the University of Idaho for the final two days of their four-day conference. Choice of Montana and Idaho was motivated by the fact that both universities have new music buildings. Idaho's edifice has attracted attention on a national scale. Montana's structure is now in the making.

Oregon's Dean Kratt is immediate past chairman of the music association. A former music department head at Idaho, Kratt states that this will be his first visit to the campus since he left in 1929. Richman, a newcomer to the West, was formerly director of Cincinnati Conservatory of Music.

## Lockery Directing Clinic In Oregon

Glen R. Lockery, associate professor of music and director of the Vandaleers, left Thursday for Eugene, Ore., where he will serve as one of the directors of the University of Oregon high school music clinic.

The clinic, an annual affair, will feature both instrumental and vocal training. Lockery will have charge of the vocal program.

## Invited To Dance

The ASUI has invited the WSC student body to attend the joint dance at the SUB following the Idaho-WSC game January 30. Admission will be 60c a couple.

## A Musician At Last

Ted Torok cheerfully accepts his credentials as a full fledged musician at the recent costume ball held by the University band members. Ted is drummer for the University band, the "Pep" band and the SUB band.

## Last ASUI Film Will Be "Foreign Correspondent"

As the last movie this semester the ASUI film committee will present "Foreign Correspondent" on Thursday, January 22. The international intrigue story is directed by that master of suspense, Alfred Hitchcock, and stars Joel McCrea.

## Test To Be Taken By Med Students

Candidates for admission to medical school in the fall of 1954 are advised to take the Medical College admission test in May, it was recently announced by Educational Testing Service.

Those taking the May test will be able to furnish scores to institutions in early fall when many medical colleges begin the selection of their next entering class.

Application forms and a bulletin of information are available from pre-medical advisers or directly from Educational Testing Service, Box 592, Princeton, N. J. Completed applications must reach the TES office by April 25 and October 19 respectively, for the May 9 and November 2 administrations.

## Deerkop New FFA Presiding Officer

Bud Deerkop was elected president of the Idaho collegiate chapter of the Future Farmers of America for the second semester. Other officers are Jerry Deahl, vice president; Allen Johnson, secretary; Melvin DeWitt, treasurer; Don Rydrych, reporter; and Allen Johnson, sentinel.

A work program for the second semester was presented and accepted by the members. The first item to be considered will be parliamentary procedure. Several members are now preparing for parliamentary procedure contests which will be started at the next regular meeting.

## Fred Waring And Group To Appear In Pullman Soon

Fred Waring's Pennsylvanians—35-year-old, 60-person musical and entertainment group—will be in Bohler gymnasium on the WSC campus for a concert open to all at 8:30 p. m. Tuesday, February 3.

Joint announcement of details was made today on the WSC campus by the presidents of the two sponsoring music honoraries—Nancy Scoles, president of Phi Phi Epsilon, women's, and Raymond Segers, president of Phi Mu Alpha.

Dr. Kemble Stout, chairman of the WSC music department, arranged the details of the concert with Roy Goodman, Spokane. Goodman was planning a Spokane appearance of the group, but changed his plans to move the locale to Pullman at the request of the two state college honoraries.

Waring's 60-piece group will fly directly to the Pullman-Moscow airport. Coming are all the stars and supporting cast that have made Waring's name synonymous with entertainment for the past four years in television, for many years in motion pictures and for 35 years in radio.

The Waring appearance will be on the first evening of second semester registration at WSC, and it will be in the same building where registration will be conducted. Sherman C. Markley, superintendent of buildings and grounds, and a special crew will pull out the tables and other equipment and install chairs on the main floor. Markley asks the cooperation of the crowd not to come too early, so that the chairs can be arranged. The building will probably be reopened at 8 p. m. for the crowd.

Ticket offices have not yet been set up, but they will soon be available in several Inland Empire towns.

## WSC Coeds Threatened

Two WSC coeds have been threatened by a knife assailant during the past week.

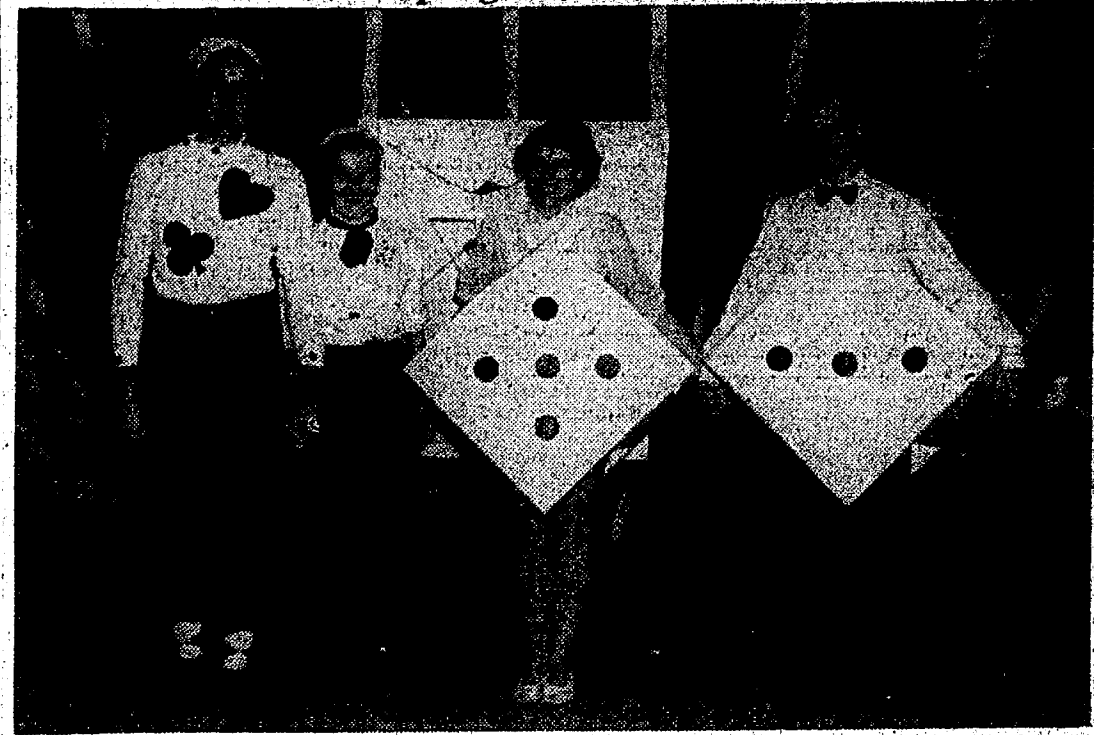

The first coed was walking to the library between the student bookstore and the women's gym. The second was threatened while walking on the unlighted sidewalk next to Rogers field.

Police have requested all victims to report attempts immediately to enable the police to check the reports soon after they happen.

## I Club Aids Drive

Pat Duffy, president of the I club has announced that approximately \$100 was collected for the March of Dimes at the basketball game Saturday night.

## Galloping Dominoes Win

Joann Dittmer, Al Arrivee, Billy Vanell and Ed Armstrong (left to right) are shown after the two couples were judged tops in costume competition at the Black and White ball Friday night. The Vanell-Armstrong combo won top honors with the Dittmer-Arrivee team runners-up.

## Black, White University Music Groups Dance Held Friday Night

Completion of the first annual Black and White Costume ball was marked by members of the University band Friday night, as they successfully put over their unusual masquerade dance under the leadership of chairman Melvin Curtis.

The dance, which was originally slated during the football season was postponed until last week due to the heavy schedule of events during the fall.

Intermission entertainment was furnished by Mr. Warren T. Bellis, Stan Blackwell, Ted Torok, Mr. Hall Macklin, and Melvin Curtis. The group held a jam session for the dance goers, while music for the dancing was furnished by records.

Billy Vanell, Forney, and Ed Armstrong, Chrisman, won first prize for their black and white costumes consisting of huge dice. Joann Wittmer, Ridenbaugh, and Al Arrivee, Willis Sweet, won second with combination costumes carrying out a winter and playing cards theme.

Costumes were judged for originality and uniqueness, although no prizes were awarded.

Committee heads for the dance held at the Moose hall, were: Melvin Curtis, chairman; Stan Blackwell and Helen Murphy, decorations; Penny Wheatley, refreshments; and Bob Spurrrows, cleanup.

Chaperones were Mr. Macklin and Mr. Bellis.

## Graduate Student Studies In Mexico

A 1951 University graduate, Shirley Karau of Troy, is one of 17 United States scholars selected to receive Mexican government scholarships to study in Mexico during 1953, according to announcement made this week by the Institute of International Education.

Reporting to the American consul in Mexico City on March 1, beginning of the academic year in Meximo, Miss Karau will be assigned to a university where she will study Mexican history. The scholarship will provide for tuition and living expenses.

Miss Karau majored in Spanish language while attending the University of Idaho.

## Father Of Former Idaho Boxer Will Be Awarded His Son's Bronze Star Medal

It was a warm, balmy spring day last June 13, up there just north of Pokkae, Korea.

The corporal, deployed at the base of "Hill 191", let his thoughts wander back two years to 1950, when he was doing a different kind of fighting. That was the year when his hammering fists and fancy footwork helped the University of Idaho to the Pacific Coast Boxing championships.

His day-dreaming ended as the Communists started pouring heavy mortar and rifle fire into the company's position.

The order to withdraw came down.

The corporal started to move back to safer territory. Then, a wounded rifleman, being carried back to the aid station, mentioned that the platoon's radio man had been hit.

Moved Forward

The corporal unhesitatingly moved forward, instead of to the rear.

Reaching the dangerous open ground, he found the radioman dead. Only one course was left—save the vital radio.

He removed his protective vest and improvised a sling to transport the valuable radio back to the security of friendly lines.

## University Music Groups Presenting Joint Concert

For the first time, the University Orchestra and University Singers will present a joint concert scheduled Thursday evening at 8 o'clock. The orchestra, conducted by Carl Claus, and the singing group, directed by Norman Logan, usually give separate concerts near the end of the semester.

In the first part of the program, the orchestra will present the Messiah by Handel (Overture and Pastoral Symphony); King Stephen Overture by Beethoven; Sarrabande by Barlow, and the Christmas Night from the Polonaise by Rimsky-Korsakov.

In the second part, the University Singers, accompanied by the Orchestra and Cynthia Huguenin, pianist, will sing Missa Solemnis in D Minor (the Nelson Mass) by Haydn.

Soloists will be Margaret Fox, soprano; Nancy Shelton, contralto; Rex Eikum, tenor; Robert Nixon, baritone, and Robert Line, bass.

The program will be held in the University auditorium.

## More Lost Articles Held By Registrar

The Registrar's office repeats its request for persons to come in and claim lost articles at the Information window in the Administration Offices building lobby.

This week several more pairs of gloves, two high school class rings, note books, textbooks, scarves and other items have been turned in. The list of articles is increasing each day and many are valuable. Seven pairs of valuable glasses are now in the collection.

Several post cards have been sent to owners of textbooks turned in with the owner's name listed in them but the owners still have not come in to get their books.

Textbooks remaining in the Lost and Found file at the end of the year are turned into the bookstore and money received from them is placed in the Student loan fund.

## Club Seeks Talent

The Radio-TV guild has announced they are seeking talent for a forthcoming March of Dimes program. They need a quartet, a hillbilly band and an accordion player for the show which will be held Thursday, February 5 at the Moscow Elks club.

If you are interested please call the Radio center, 8541.

## Wins Cigarettes

Stan Swanson, Sigma Nu, and winner of the first Chesterfield basketball contest, was presented with a carton of Chesterfield cigarettes for his prediction of last Saturday night's game. His prediction was Idaho 73—Oregon 65, which came closest to the true score of Idaho 73—Oregon 56.

Another carton of Chesterfields will be given away to the student predicting the closest score of the Idaho-OSC game this Saturday. Enter your guess on a Chesterfield wrapper and place it in the ballot box in the SUB before game time Saturday night. Remember, you may enter as many times as you wish.

## Club Seeks Talent

The Radio-TV guild has announced they are seeking talent for a forthcoming March of Dimes program. They need a quartet, a hillbilly band and an accordion player for the show which will be held Thursday, February 5 at the Moscow Elks club.

If you are interested please call the Radio center, 8541.

## Pictures for Gem of the Mountains

Pictures for Gem of the Mountains will be taken tonight at the Arnold Air Society meeting. Uniforms will be worn and talk will be given Col. Mosman. Meeting time is 7 p.m.

## Worried About Those Exams? See Typical Questions Listed

By Ken Korner  
 Scoop! Straight from the files come these exam questions to help harassed scholars cramming for finals. Some of the questions (or answers) may be changed, so look for reasonable facsimiles. Questions have been selected to apply to several fields of subject matter.

1. How many aliens became U. S. citizens last year?  
 A. 88,393  
 B. 88,394  
 C. 88,395  
 D. 88,396
2. A recent President of the United States was:  
 A. Richard Nixon  
 B. John Steinbeck  
 C. Marilyn Monroe  
 D. All of the above
3. True or false?  
 4. Criticize the makeup, writing, advertising, features and editorials from the January 27, 1947 issue of the New York Times (from memory). Discuss and evaluate.
5. A twin engine aircraft embarks from the Moscow-Pullman airport carrying 2400 gallons of 90 octane gasoline. What is the pilot's middle name?
6. Give the counterclockwise moments of plow.
7. What was Edgar Allan Poe's grade point when he left West Point?
8. What is the third word in the third paragraph on the third page of the third edition of the text?
9. What height is attained by a Pinus monticola after five years of growth? (One centimeter error allowed).
10. Review briefly (one paragraph) the history of the world. Good luck!

Idaho recently started something with a challenge to WSC to a blood-letting contest. University of Washington students will line up to have their veins tapped next week in an effort to beat WSC's world record for blood donations in one week.

"Are you a good little boy?"  
 "Nope, I'm the kind of boy my Ma won't let me play with."

From there the third stage literally glides uphill to the 1075 mile orbit where it breaks or increases its speed slightly to permit it to remain in space without any further power use.

Of course, the human factor must be considered. Such things as extreme temperatures, cosmic bombardment, ultraviolet light, the great increase in gravity of the take-off, and the weightlessness of free fall of space must be considered. Suffice it to say that these things have been an important point in the plans. For this limited discussion the subject cannot be broached. However, a December announcement by the air force's space medicine research center, headed by Doctor Heinz Haber, says that experiments have been concluded which guarantee the survival of men in space.

The next step to the moon is a man-made satellite—a refueling and observation station in space. Will students at this college be the Columbus of space? There's a challenge. (Next issue: The Space Satellite.)

## Down To The Sea In Ships

We extend our deepest sympathies to those students who had occasion to go along Sixth street afoot on Saturday or Sunday. It must have been an exceedingly trying experience with the numerous ponds decorating the alleged sidewalk.

We congratulate those of you who made it by fording these tributaries of the now roaring Paradise Creek. We also congratulate those of you who had sense enough to walk in the street and were lucky enough to avoid being nailed by an automobile.

But, why should we need Red Cross senior life-saving badges just to scrounge up Sunday night vittles? Why must we paddle through these landlocked oceans which cover the sidewalks in several spots? Are we fish? Are we Frogmen? Must we equip ourselves with snorkel tubes and paddle-wheels in order to make it to Main Street without foundering?

Won't someone in authority part this modern day Red sea and let us into town on dry land? Suppose we are raided by the Pullmanites some rainy night and have to make a strategic withdrawal, what then? We will be at the mercy of the enemy as we desperately tread water in the irrigation canals which pass as sidewalks on Sixth street.

How about it, boys? And please hurry, these water wings are uncomfortable.

—A. G. D.

## Coeds Have Problems, Too

It seems that most of the literature concerning college life today stems around the Korean situation and the draft. Writers are either pitying the draft-conscious college boy or are out carrying on a crusade to draft them all. Here's a new twist on the situation.

Quick magazine (Jan. 9, 1953) devoted four pages to the problems of the modern day college girl. They took a survey of some of the leading U. S. college campuses and came up with six main problems confronting the average coed.

They were: getting married, finding independence, getting the most out of college, choosing a job, social life and the cost of a college education. They emphasized the problem created by men leaving college to go out and fight, that is, their pessimism towards the war and their growing shortage on campuses.

One prize statement came from a Texas university coed when she said, "The average college girl knows nothing of world affairs unless she's taking a modern history course." What about it girls, are you ignorant of world affairs?

Whether the article put over its point or not, it was very comforting to see that someone is concerned about the girls who are left behind.

—F. D. W.

## Giant Rockets Are Required To Conquer Outer Space

(Second in a series of articles on space travel by Joe Corless.)  
 Only on the fourth of July do rockets usually soar across the night sky. The time when huge, grey bulks of passenger and cargo rockets in great numbers rip through the thin upper atmosphere is still far off. However, if men are to conquer space a rocket of such stupendous proportions will be required that it will dwarf the German V-2 as the B-36 dwarfs Wright's first plane.

Picture a shimmering cone of 7000 tons of metal as high as a 24 story building with a base of only 65 feet. Four small wing stubs extend to the four winds from the base for balance in atmosphere. Three-fourths of the way up the hull two more wings protrude. This rocket is the first step in Werner von Braun's projected plans for the conquest of space.

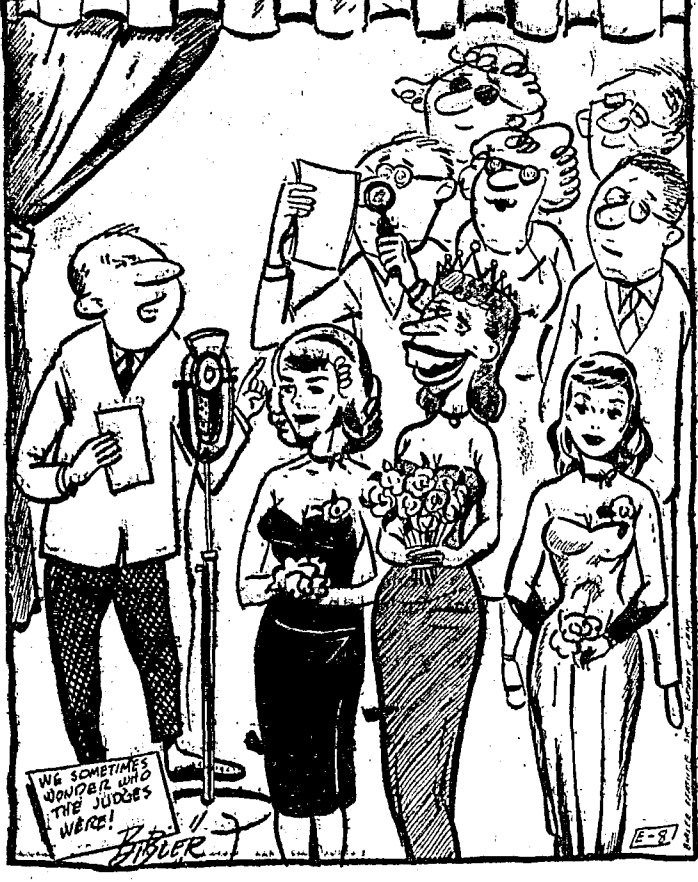

Doctor von Braun, developer of the V-2 rocket and head of air force guided missile research, has set up a step by step process for reaching the moon. First the rocket carries men and a 40 ton cargo to an altitude of some 1075 miles where it assumes a speed just sufficient to permit it to orbit around the earth. After bringing up several more cargos, which are left in the orbit, the assembly of the second step, a space station, can commence.

**Fire Over the Pacific**  
 Polynesians will gaze in wonder at a streak of fire across the sky as von Braun's rocket soars in a gradually rising curve on a tangent to the surface of the earth. This rocket will not take off straight up.

Actually the machine will be a nest of three rockets, one on top of the other. As each stage exhausts its fuel it drops into the Pacific to be recovered later, and the next stage begins firing. Each stage comprises about one-third of the length of the cone. The final stage carries the crew and cargo. When the crew returns to earth they use the third stage as a glider. The third unit includes the one set of wings already mentioned and a set of control and balance surfaces.

**Glides Uphill**  
 Over a 705 mile course from Johnson island in the direction of Hawaii the ship's three stages accelerate from 5,255 to 14,364 to 18,468 miles per hour reaching an altitude of only 63.6 miles.

## LITTLE MAN ON CAMPUS by Dick Bibler

"And now the chairman of the judging committee to introduce the queen and her attendants."

## DEAR JASON

Att. Mr. Kyle:  
 For some time I have labored through your criticisms of the drama department productions, and finally being able to stand no more I wish here and now to criticize the critic.

The basic purpose of the critic is to say what is good and bad in light of the public taste. Now this particular function of the critic does not make him God, Actors may well give a bad performance because of the fact that they do not like the part, or because they are not suited for the part. But a critic cannot ever be excused for poor taste.

I find your criticism of the "Scenes from Shakespeare," long, boring, hypercritical and lacking of discerning judgment. It is filled with such unfortunate clichés as, "The frosting on the evening's cake," and "rolling in the aisles."

If an actor does turn in a poor performance and you feel it necessary to crucify him—please do so—but spare the reader your excuses why he was not up to the level of his ability. And Mr. Kyle, if you praise an actor do so without qualifying your statement. As a drama critic it only reflects on the uncertainty of your judgment.

By the way, Mr. Kyle, I suggest you try, one bell, two bells, three bells.

Alan Cranston

## Wicks Says "Fine Job"

Guy Wicks, University field agent, said yesterday that he would like to commend the University students on the fine job they did during Christmas vacation in contacting prospective college students. He said he has received many letters since that time requesting information about the University.

Wicks urges students to drop in to his office and tell him what information would be of interest to the prospective students whom they have contacted.

At the present time a trip is being planned to the larger schools in central and southern Idaho for the second and third weeks in February. Making the trip with Wicks will be Dean Louise Carter and two University students.

## Shepherd Named Assistant Manager

Howard Shepherd was named assistant manager to the annual Ag club sponsored Little International celebration to be held next spring. He will assist Don Mitchell, manager for the week-long event.

Shepherd replaces Bob Parks, who is going into the army next semester. Clyde Murphy was named treasurer to replace Shepherd.

## EUROPE BY BICYCLE

 3865 39th St., Seattle 8, Wn.

## Research To Begin During Summer

A research study suggested by the Idaho Mining association and the Idaho Department of Public Health has been approved by the board of regents of the University and will be undertaken next summer, President J. E. Buchanan announced today.

Objective of the study will be to develop micro-analytical methods for determining trace amounts of various metals in water. The study will be carried on by Dr. R. C. Thielke, professor of chemistry, under the direction of Dr. W. H. Cone, head of the department of physical sciences.

"Papa, there's a woman peddler at the door."  
 "Tell him to beat it, I've got one too many already."

## AN OPPORTUNITY FOR GRADUATE ENGINEERS WITH GOODYEAR

Representatives of the Goodyear Tire & Rubber Company and the Goodyear Atomic Energy Corporation will be on your campus to interview Seniors with B.S. and advanced degrees in the following fields of technical study:

- CHEMICAL ENGINEERING
- INDUSTRIAL ENGINEERING
- MECHANICAL ENGINEERING
- CIVIL ENGINEERING
- ELECTRICAL ENGINEERING
- CHEMISTRY

Opportunities for graduates with the above degrees now exist in the following fields:

- PLANT ENGINEERING
- RESEARCH
- PRODUCTION DEVELOPMENT
- MACHINE DESIGN
- PROCESS DEVELOPMENT
- FACTORY MANAGEMENT
- TECHNICAL SALES

Contact your student placement office now for your interview with the Goodyear representative on Feb. 11th.

**THE GOODYEAR TIRE & RUBBER CO. and GOODYEAR ATOMIC CORP.**

Dad (sternly): "Another bite like that, son, and you'll leave the table."  
 Son: "Another bite like that and I'll be finished."  
 Barber: "Do you want anything on your face when I finish shaving you?"  
 Customer: "If you don't mind, I'd like to have my nose."

## CLASSIFIED

LOST:—One roommate (male). Height, 6 feet 2 inches, weight, 190, age 22. Dark brown hair, brown eyes, dark complexion. Driving a light colored sedan. Disappeared Saturday evening. Intentions unknown but believed to be honorable. Coeds use caution in approaching this man; he is known to be human. Informers phone 2258. Reward: one pair of holey socks. (He left 'em).

WANTED:—Used portable typewriter not more than two years old. Howard H. Braden, 424 West A, Moscow, Idaho.

FOR SALE:—Established photo finishing business, price \$3,000. Call Moscow 2-7593.

# Social Events Slow Before Finals As Calendar Empties Until February

Social events were fairly nil over the weekend in view of the impending finals. About the only social activity engaged in during the week was having dinner and luncheon guests. The next events scheduled on the social calendar are not until the weekends of February 7 and 11.

**Kappa Alpha Theta**  
Wednesday evening dinner guests were Eleanor Long and Joan Redford.

Mrs. Maxine Banner has been a house guest over the weekend. She is visiting her daughter Barbara.

Sunday dinner guests included Rena Allen, Frances Breon, Pat Stewart, Lauree Buck, Mrs. Bonner and Bill Boyden. After dinner Ann Pool and Darlene Duffy played "Nata" and "Tea For Two," piano duets, and the girls sang songs.

Tau Kappa Epsilon serenaded Jane Querna for her recent pinning to Ed Kenworthy.

**Delta Delta Delta**  
Jean Buchanan, Kathleen Gray, and Phyllis Gestrin have been chosen for chairmen of the initiation dance.

Recent dinner guests have included Lorraine Deagle, Cherrie Wood, Alice Rhoades, Juno Buchholz, Clara Armstrong, Shirley Maynard, and Janis Jolley.

**Ridgeway Hall**  
Sunday evening a fireside was held to turn duties over to new house officers. The new officers are Betty Westerberg, president; Mary Belle McVickers, vice president; Betty Brooks, secretary; Betty Jester, treasurer; Carol Rojan, social chairman; and Jo Dettmer, house activities chairman.

The old officers gave short skits as they relinquished their jobs. Refreshments were served by the old officers.

**Hays Hall**  
Luncheon guests Thursday were Robert Greene, director of dormitories; Kenneth Dick, business manager of bursar; Donald Dusaull, registrar, and Jim Lyle, alumni secretary.

Saturday's luncheon guest was Lucille Seger. Dean Louise Carter and Albert Giles were dinner guests on Sunday.

Guests over the weekend were Rita Crane, Joyce Kern, and Barbara Gamby.

**Alpha Phi**  
Nineteen girls were dinner guests of the Alpha Phis on January 13. They included Betty Hall, Jean Weston, Lillian Clark, Clara Armstrong, Shirley Maiyard, Marian Hoover, Joanne Wittmer, Norma Borden, Dorothy Jabara, LaVonne Wilson, Shirley Almberg, Geneva Sarvis, Joann Reynolds, Eleanor Hathaway, Virginia Nallion, Georgene Trembath, Nancy Jutila, Pat Jones, and Dorothy Warren.

**Sigma Chi**  
Girls living at the Home Management house were dinner guests Wednesday evening.

Pete Gerfridie from Spokane was a weekend house guest.

Nancy Lyle was presented with the traveling Sweetheart trophy at Sunday dinner. Sweetheart finalist trophies were awarded to Jackie Thorson, Eleanor Long, Billie Jacoby, and Janet Campbell.

**Forney Hall**  
Forney hall held its formal dinner Wednesday night and their Faculty dinner Sunday.

Thirteen faculty members and wives attended the dinner Sunday. They were Dean and Mrs. H. Walter Steffens, Mr. and Mrs. Dean B. Doner, Prof. and Mrs. William C. Banks, Mr. and Mrs. Robert L. Peters, Miss Mabel Locke, Miss Margaret Coffey, Miss Miriam Little, Miss Marian Frykman, Mrs. Evelyn Akkerman, and Prof. and Mrs. William S. Greever.

Joyce Molstead, junior dietetics major who contracted polio on Christmas day, is recovering steadily. Joyce graduated from the Iron Lung in St. Luke's hospital in Spokane to the new rocking bed which the hospital has recently installed and is now out of that also.

**SAE**  
Clara Armstrong, 1952 Queen of Violets, was a dinner guest Wednesday evening.

Clyde Lynn, Kellogg, was a weekend guest.

New officers elected were Vaughn Jasper, president; Bill Parsons, vice president; Bill Sorenson, warden; Jerry Reid, herald; Don Westfall, social chairman; and Chub Williams, rush chairman.

The 1951 Oregon basketball team had a busy time at the free throw line, scoring 542 times on charity tosses to set Webfoot record.

A Bismarck, N. D., husband has plans for a new home. One door of the garage will be painted "Hers"—the other one "His." "Hers" is two feet wider.

Serious Young Man: Do you enjoy Kipling?

Giddy Girl: I don't know—how do you kipple?

### Church News

**Canterbury Club**  
Communion service will be held Wednesday at 7 a.m. at Canterbury house. Breakfast will be served afterwards with plenty of time to make first period classes.

There won't be any Canterbury Sunday evening. Canterbury will resume its program after the beginning of the second semester.

**Newman Club**  
The Newman club will have its usual social meeting at 7:30 Tuesday night in Parish hall.

**Kappa Phi**  
There will be a regular meeting of Kappa Phi at the Christian institute at 7 p.m. tonight. Informal pledging will be held at this time.

**Fund Set Up For Support Of Athletics**  
Taking a long-range view on athletics and physical education, the University of Idaho has established an endowment fund for the perpetual support of these activities.

President J. E. Buchanan has announced that the regents have approved establishment of the fund so that there would be a means whereby individuals and organizations could make gifts for the general advancement of athletics and physical education over many years. Only interest from monies contributed would be utilized, and the fund itself would be kept perpetually intact.

"Building of strong bodies as well as strong minds is vital in the development of youth," said President Buchanan. "The University of Idaho feels that a perpetual endowment fund for athletics and physical education is a worthy cause. The University has many endowment funds for many purposes, but it has never had one for athletic and physical education. The current action is taken to fill this gap in the educational program."

**Direct Commission Open in Air Force**  
Direct commissions as second lieutenants in the U. S. Air Force have been authorized for college and university graduates who majored in chemistry, engineering, mathematics or physics, Lt. Colonel O. J. Mosman, head of the University of Idaho Air Force ROTC, has announced in releasing a communication from the Commanding General, Fourth Air Force.

Students who have completed a minimum of three and one-half years work toward a degree in one of the fields may apply and have their applications processed toward this appointment. After a basic training course at Lackland Air Force Base, San Antonio, Texas, it is planned that these officers will be given further training in the military aspects of their educational major and then be given an assignment.

**Requirements Listed**  
To qualify for an appointment as a second lieutenant, Air Force Reserve, under this program, an applicant must meet the educational requirements outlined above, must be 18, but less than 27 years of age at the time application is made, be of good moral character, and must be physically qualified for general military service.

Applicants may be either married or single, and are not required to have had prior military or technical experience. Reservists of other branches of the Armed Forces are eligible to apply, providing they are not on active military service; and providing they secure a conditional release from their parents service.

Interested students may secure further information and application forms by writing to the Commanding General, Fourth Air Force, Hamilton Air Force Base, Hamilton, California. Attention: PRPA. Students should indicate in their request for application forms, or additional information, their educational major, age, and expected date of graduation.

**Japanese Girl Tells Of Ideas Behind International College**  
(Ed. Note—Shizuko Morikawa is a student of the Language Institute of International Christian University in Japan. This university is in the experimental stage and is largely supported by funds donated by students throughout the world.)  
By SHIZUKO MORIKAWA

Thinking of the days I have spent as a student at the ICU Language institute, my heart is filled with gratitude and hopes for the future. No word is sufficient to express my appreciation of what has been done by those who are interested in this institute.

Half a year has passed since the Language institute was established as a part of the educational program of ICU. As a student of this institute, I realize that this program is too great to be carried out by the effort of only one nation or one religious denomination. It is possible only when there is cooperation between nations and denominations.

We are under the sympathetic care of instructors from this and other lands, and have available in the library books which have been sent from abroad as a token of good will. Still more, when we think of the immense program which is being prepared for ICU, whose regular course is to start next April, we realize how much we are indebted to all who have given spiritual and financial help to make the ICU program possible.

**Of All Peoples**  
We have some famous colleges and universities in Japan which, though their history may not be as old as that of Cambridge and Oxford, have many years behind them. But I doubt if there are any other schools for which so much time and thought have been spent in preparation as for ICU. I should not say this is a university exclusively for the Japanese, but rather that it is a university for all the peoples of the world, as the name indicates, binding them together in the spirit of brotherhood.

Though there are many mission schools in Japan which are supported by Christian churches, I believe none of them is supported by as many different denominations as ICU. It is our great privilege to be able to study in the atmosphere of united nationality and race for constructive purposes. At the same time, we realize that it is our duty to cooperate with others to complete this end.

**Seek For Truth**  
I think the best way for us as college students to achieve this purpose is to seek piously and earnestly for the truth of humanity.

We never used to be able to find Grandma's glasses, but now she's just leaving them where she empties them.

### Graduate Trains At Signal School

Pvt. Frank A. Cochran, 1952 University graduate, is enrolled as a student in the Southwestern Signal school, Camp San Luis Obispo, California.

A graduate of Cambridge high school, and the University of Idaho, Pvt. Cochran entered the army in August of this year at Fort Lewis, Washington, and arrived at Camp San Luis Obispo in early September. He completed his basic training on November 8.

Pvt. Cochran's wife, the former Barbara Line, is residing at the Morro Bay Trailer court, Morro Bay, California, while Pvt. Cochran is attending school.

Don't push a sophomore down the stairs,  
Or kick his teeth in unawares,  
Or with a hammer bash his bean;  
We want to keep our building clean.

Coeds: That portion of the student body not classified under squirrels, dogs, men, or faculty. A beast of prey.

On a bus the other day, a freshman offered a lady his seat and she fainted. When she was revived, she thanked him—and he promptly fainted.

**Infirmary**  
Admitted to the infirmary this week were Kathryn Laven, Glenmar Hoke, Beverly Bowers, Sally Landers, Helen Gehrke, Carolyn Harper, Lynn Budge, Ray Bienz, Harry Vars, Robert Lee, Norman Starr, Edward Thorhaug, Harriet Kruse, Charles West, Betty Blain, Jackie Hansen, and Eleanor Horsman.

Discharged were Kathryn Laven, Jackie Hansen, Sally Landers, Helen Gehrke, Tom Flynn, Jody Ennis, Charles West, Bruce Sweeney, Joe McDonald, Bill Rigby, Harry Titus, Lee Anderson, Peggy Lou Horn, Harlan Melton, Vernon Lowry, Donald Olanson, Robert Holder, Arthur Andraitis, Janice Foedish, Pauline Lamson, Joan Alexander, Ora West, Robert Lee, Beverly Bowers, Gertrude Mills, Lynn Budge, Eleanor Horsman, and Donald Bryant.

# Summer In Mexico Open To Students

Stanford university faculty members and the University of Guadalajara will sponsor a bi-lingual summer school to be held in Guadalajara, Mexico, June 28 through August 8, 1953. They will offer courses in art, folklore, history, language, and literature.

Board, room, and six weeks tuition amounts to \$225. Those interested should write Professor

Juan B. Rael, Box K, Stanford University, California.

Salesman: This model has a top speed of 130 miles an hour, and she'll stop on a dime.

Prospect: What happens after that?  
Salesman: A little putty knife comes out and scrapes you off the windshield.

Beer: A local term for the staff of life.  
Likker: Something that than beer is quicker.

**YOU NAME IT** by Reddy

A trading place for trappers Was this cabin built of wood. At this spot there grew a city. For t'was here stood.

Built in 1810 by David Thompson, Spokane House was the first building of the pioneer settlement that grew to be Spokane. Nearby is another "pioneer"—Washington Water Power's Long Lake Dam which was completed in 1915 to provide better living with electricity for the people of the Inland Empire.

# ARE YOU TOUGH ENOUGH FOR THIS JOB?

If you can make the grade, the U. S. Air Force will award you a commission, your wings and pay you over \$5,000 a year!

**CAN YOU "take it" 6 days a week? For 52 weeks? Can you meet the high standards required to be an Aviation Cadet? If you can—then here's a man-size opportunity! An opportunity to serve your country and build a personal career that will fit you for responsible positions both in military and commercial aviation.**

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard—especially for the first few weeks. But when it's over, you'll be a pro—with a career ahead of you that will take you as far as you want to go. You graduate as a 2nd Lieutenant in the Air Force, with pay of \$5,300.00 a year. And this is only the beginning—

your opportunities for advancement are unlimited.

**ARE YOU ELIGIBLE?**

To qualify as an Aviation Cadet, you must have completed at least two-years of college. This is a minimum requirement—it's best if you stay in school and graduate. In addition, you must be between 19 and 26½ years, unmarried, and in good physical condition.

**YOU CAN CHOOSE BETWEEN PILOT OR AIRCRAFT OBSERVER**

If you choose to be an Aircraft Observer, your training will be in Navigation, Bombardment, Radar Operation or Aircraft Performance Engineering.

**New Aviation Cadet Training Classes Begin Every Few Weeks! HERE'S WHAT TO DO:**

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
2. If application is accepted, the Air Force will arrange for you to take a physical examination.
3. Next, you will be given a written and manual aptitude test.
4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

**Where to get more details: Visit your nearest Air Force Base or Air Force Recruiting Officer. OR WRITE TO: AVIATION CADET HEADQUARTERS, U. S. AIR FORCE, WASHINGTON 25, D. C.**

**U.S. AIR FORCE**

# Oregon State Hoopers Are Here This Weekend; Idaho Divides With Oregon Vandals Are Third; Could Move Second By Taking Beavers

Currently (and we hope temporarily) ranked third in Northern Division standings, Idaho's basketball Vandals will try to move another notch up the ladder when Oregon State's Beavers roll into town for two games at Memorial gym Friday and Saturday.

Idaho can vault into second place by sweeping a pair from Slat's Gill's Corvallis five. That would put them one-half game ahead of Oregon who will play non-conference tilts with Universities of San Francisco and Portland.

Oregon State has lost two to Washington and divided with Washington State in Division play. For the season they have won five while losing ten.

The visiting team will be sparked by all-Northern Division guard Danny Johnston, and high scoring sophomore center Tony Vlastelica. Johnston scored an even 200 points in ND action last season.

As it looks now Harlan Melton will still be out for the coming series but Tom Flynn and other flu-stricken Vandals are expected to be back in action.

Coach Chuck Finley's hoop hackers split with Oregon last weekend in a brace of high scoring tilts. Coach Bill Borchers' club took the first one 79-76 in overtime after Idaho had led all the way. The next night the Vandals turned on the heat 73-57.

In the first home conference game of the year Idaho streaked to a 24 to 13 first quarter lead and were in front until Bob Hawes knotted the score 70 to 70 in the final 10 seconds of regular play.

Morrison and Falash gave home fans hope with three free throws between them but it soon faded as with the score 76-73 Oregon sank two baskets and a pair of gift tosses.

Standouts for Idaho were Bob Falash who substituted for the ailing Tom Flynn and Bill Mather who dropped in long one-handers from far out.

Next Night Still using a modified fast break Idaho came from behind in the second stanza of the next night's contest to outscore the Webfeet 26-9 and win going away.

Hartly Kruger and Ken Wegner tied for point honors with 19 each. Dwight Morrison was high on the backboards for the Vandals and collected 10 tallies in the process.

## INTRAMURAL

There will be an I-Club meeting Wednesday at 7 p.m. in conference room A of the SUB. Business will be election of officers and discussion of the Vandal Booster banquet. All old and new members are asked to be there.

NORTHERN DIVISION STANDINGS				
	Won	Lost	Pct.	PF
Washington	6	0	1.000	458
Oregon	3	3	.500	418
IDAHO	2	3	.400	321
Oregon State	1	3	.250	194
Washington State	1	4	.200	236

### One-Two-Three Jump

Agile, able Chet Noe, varsity center for the Oregon Ducks, was one of the main reasons the Webfoots split the weekend basketball series with the Vandals at Memorial gym. Chet, 6-7, 216-pound senior, speared more than his share of rebounds and chalked up 35 points over the two-night stand. His 23 tallies in the first game led Oregon to a 79-76 win over Idaho. Above, Noe grabs a rebound as Idaho's Morrison (42) and Totten (5) try to tie him up.

### Intramural Basketball And Bowling Near Playoff Time

Phi Delta Theta established themselves firmly atop the League II standings by dumping Sigma Chi from the unbeaten ranks, 42-33, in a fast, well-played tilt last Thursday night. Combining backboard control with B, followed by results of four of last week's matches:

League III		
	Won	Lost
LH	11	1
DC	8	4
TKE	7	5
CM	5	11
PKD	1	11

League IV		
	Won	Lost
IC	7	5
KS	7	5
SC	6	6
SAE	5	7
ATO	3	5

Other Action The fight for first place in League II was still undecided after last week's action. Sigma Nu knocked TKE out of a tie for first place and took top spot themselves as they trounced the TYKE's 40-31. George McCarty tanked 17 points to pace the winners.

In another League II tussle, the SAE's squeaked the Beta's title hopes by beating them 30 to 21. In other games Thursday, the Kappa Sigs whipped the Fiji's, 45-27; ATO swamped Phi Kappa Tau, 40-12; and the Delta Tau's won a forfeit victory over Delta Sigma Phi.

Bowling Division B bowling is drawing to a close, with the final regular matches scheduled for Thursday. The playoffs between the four leagues are not slated until the first week following semester exams. Here are the standings of Division

Score by quarters:	1	2	3	4	T
Idaho	24	18	18	16	76
Oregon	13	22	19	16	70

### Kruger Leads Hoop Team In Scoring; Morrison Follows

Hook shot Hartly Kruger continues to cruise along as the number one point-dunker for the Vandal basketball team. In 15 games the big center has meshed 202 points on 71 field goals and 60 free throws for a 13.6 record per game.

Right behind the Spokane senior is Idaho's other skyscraper, Dwight Morrison with 157 counters. Tom Flynn, who led the early season scoring parade has dropped to third after missing the Oregon series due to flu.

As a team the Vandals are currently hitting the bucket at a 61.2 clip per game while holding the opposition to 56.7 points a contest. Idaho has scored 979 markers in 16 games to 998 for the opponents.

From the field Finley's quintet is firing a creditable 343 on 342 goals out of 999 attempts. At the free throw line it's a different story. Idaho has sunk a measly .593 of its gift tosses on 299 out of 504.

Scoring Parade				
	fga	fgm	fta	ftm
Kruger	211	71	95	60
Morrison	156	57	67	43
Flynn	85	47	58	36
McIntosh	130	44	63	32
Mather	113	42	24	15
Totten	69	21	54	29
Melton	66	15	28	25
Lilibrige	56	13	41	26
Falash	41	13	34	20
Price	22	8	13	6
Sather	11	4	12	1
Fulton	18	3	9	2
Monson	11	3	0	0
Domke	7	1	2	0
Others	3	0	4	4

### Babes Snag A Pair Of Casaba Clashes

The Vandal hoop frosh added two more victories to their credit in encounters over the weekend. Friday night they met the Moscow American Legion five in a preliminary to the Idaho-Oregon tussle and won 66-44. Sharp shooters for the Babes were Jay Webb and Elmer Fuller with 16 and 15 points respectively.

Gene White, ex-Moscow high school center had 16 for the Legion. The following night the junior Vandals outscored the Astoria town team of the Lewis-Clark amateur league. Leading the way was Bill Bauscher and Keith Hall who combined for 14 and 11 each for the Vandals.

Coach Art Smith has scheduled two games this weekend prior to OSC-Idaho tilts. He has been happy with the hustle and enthusiasm of his short club but still laments the lack of backboard height.

### ISC BOXERS WIN

Idaho State College opened its 1953 dual meet boxing season Saturday night with a 5-3 victory over Washington State at Pullman.

### Fencers Will Meet Again

It looks like the sport or art of fencing may once again find a place on the Idaho campus but the road will be a hard one.

Over 20 people showed up at the first meeting held by Frank Mullerkarger and many more, including numerous girls, have inquired about possible participation.

The next meeting of aspirants will be tomorrow night at 7 p.m. in room 101, Memorial gym.

Only Those Interested Mullerkarger was Venezuelan national foils champion in 1951. He is studying here on a scholarship and has consented to give his time to help those interested.

In order that Frank can best help individuals and make the use of his time, the group will necessarily have to be kept small. It is urged that ONLY those people who are really interested in fencing and will stay out the whole year come to the meetings.

Another Problem Another problem presented itself when Frank checked the equipment. There are enough masks and jackets for men but the jackets are in need of repair as are the available foils.

Also there are no gloves which Frank considers essential. It is very likely that the fencers will have to buy their own.

At present the fencers have no room in which to practice. The gymnastics room can be used for

the time being but there is much work in preparing the small room for fencing instruction.

24-HOUR SERVICE STATION 626 So. Main Phone 2476 YOUR CHRYSLER-PLYMOUTH DEALER

Original home of Union Oil Company in Santa Paula, Calif. The company was founded here in 1890. The California Oil Museum is now located in this building.

## WHY DO YOU EARN 2 1/2 TIMES AS MUCH AS YOUR GRANDFATHER?

Most people do. And they earn it with 1/2 fewer hours of work.\* The average factory employee in the U. S. earned 19¢ per hour in 1890. Today the average factory employee earns \$1.65 per hour. When you convert these earnings into real dollars,\*\* today's factory employee earns 2 1/2 times as much as his counterpart of 1890.

Because of these tools, he can produce more and thus create many times more wealth with his day's work. And the more wealth he creates, the more he earns.

For only in that way can we Americans continue to produce more, create more wealth, and thus earn more than any other people in the world.

The reason for this is that today's factory employee has far better and more elaborate tools to work with. For example, the average Union Oil employee of 1890 had only about \$5,000 worth of tools. Today's average Union Oil employee has over \$60,000 in tools at his disposal.

The tools that make this possible are provided by Union Oil's 38,600 share owners. Therefore, the employee's earnings are directly related to how much money the share owners put into tools. These "tool providers" aren't apt to put more money into tools unless they can anticipate a reasonable compensation. That's why the incentive to put money into tools must be preserved.

## UNION OIL COMPANY OF CALIFORNIA
