\$1091 WILL GO TO IDAHO'S NANCY BENFER

Radio Student Finds Fault Debaters Tie Over 600 Students Turn Out To Aid Idaho Burn Victim

By JIM NEW
Poor reception of the Bernard DeVoto speech over the new public address system at Memorial Gymnasium Friday was caused by two "out of phase" microphones and "poor engineering."

This was the opinion of Chuck White, who has been in the public address business since 1948 in Boise. He is a junior in Radio-TV at the University of Idaho.

White, who started experimenting in the field in 1941 and who now owns and operates over \$3,000 worth of equipment, explained that much of the distortion of sound was due to the fact that the mikes were "out of phase."

He explained that if two mikes are completely "out of phase" each will cancel the other's signal and there will be no sound. However, in this case, the mikes were only enough "out of phase" to produce a serious distortion.

"But," said White, "good engineering could easily have taken care of the basic cause of the poor sound, which was the change of volume and tonal quality of the speaker's voice."

White, assistant station manager of KUOI, gave three suggestions for im-

proving the present P.A. system:

1) Place the speaker's stand about half-way back on the stage and place one mike directly in front of the stand and as close to the speaker as possible without getting in the speaker's way. The mikes should definitely not be placed to either side of the speaker as they were Friday.

2) Re-install the P.A. controls out in front of the stage where the operator can hear what is being put out over the loudspeakers. As it is now, he must sit in a small room off to the side of the stage where he can neither see nor plainly hear the speaker.

3) Remove the "ridiculous" array of 48 small speakers and install just two large ones, one on either side of the stage. Now, the sound from the speaker, traveling by electricity, reaches the listener before the sound from the stage, confusing the audience.

White added that a P.A. system is like an individual; there are not two alike. He said the system and all its individual characteristics should be learned thoroughly by one person, and then that person should operate it whenever it is used.

College of Idaho and the University of Idaho tied for the title of the fifteenth annual Inland Empire Junior College debate championship Friday and Saturday.

W.S.C. Wenatchee Junior college, C. of I. and Idaho entered a total of 16 teams to debate the question: "Resolved, that the United States should adopt a policy of Free Trade."

Thirty-two teams were expected to enter, the tournament, but bad weather prevented the other 16 teams from coming to the tournament.

Debating for Idaho were Roger McKee and Richard Blinn, Don McNeill and Bob McAlister, Jim Kruger and Lee Anderson, Stan Tate and Drew Field, Paul Schultz and Charles Oldham, and Dorothy Carter and Kay Kreizenbeck. Out of 36 rounds these teams won about 80 per cent of their debates.

Judging the debates were faculty members Professor William A. Banks, Edward A. Cebul, Howard C. Packenham, William Tenney, Thomas F. Hopkins, Clifford I. Dohler and Milton A. Voight. Varsity debaters Fred Williams, Sally Landers, Herb Pendergast and Pat Bartlett also helped with the judging.

Strong support by students, and a number of contributions from other sources hiked the Nancy Benfer benefit fund to \$1091 over the weekend. Over 600 students turned out for the Friday night all-campus dance in the SUB.

Named, "Definitely a terrific success," by Bill Parsons, ASUI president, the dance realized \$458 from admissions and donations. A partial listing of individual contributors includes, Spurs, I.Ks, Interfraternity council, Ad building office workers, Weasel Insurance agency and Pan-Hellenic.

Coeds from each of the 11 women's living groups on the campus put on skits during the dance. The audience voted for what they thought was the best act by dropping their donations into an "I" blanket. Individuals and living groups were represented in the voting.

Collecting the most money for their act and thereby winning the ballot was Nancy's old living group—Pi Beta Phi sorority. Second was Delta Gamma followed by Forney hall.

The drive was ASUI-sponsored for Nancy who was seriously burned at a September rush party. She was wearing a grass skirt for a novelty dance when the skirt caught fire from a candle. Nancy received second and third degree burns which covered two-thirds of her body.

She has been confined to Sacred Heart hospital, Idaho Falls, since the accident. Despite series of skin grafting operations and a gallant comeback, her progress has been slow. At the time of the accident, she was expected back in school during the second semester. However, present estimates place her return no earlier than next year.

Music for the dance was donated by the Suburbans. Kenny Wright was master-of-ceremonies.

DeVoto Calls 'Real Danger' Our Fear Of Communism

"Humbly, Nancy." That's the way Nancy Benfer signed her telegram of thanks to Idaho students. That's why we feel little and mean tonight.

We were elated for awhile at the huge success of the dance Friday. There was room for back slapping. But, when we read that closing note from her, we sank to our proper size and Nancy Benfer grew to a deserved high place in our estimation.

She suffered extreme pain at the time of her accident. And still she signs herself, "Humbly." She endured several skin grafting operations. Yet she is still, "Humbly, Nancy."

It must take a lot of guts to conquer such misfortune. It has taken a lot of faith to bring her as far as she has come. But it takes a lot more than guts or faith to sign your name, "Humbly." It takes superior wisdom and frank realization to make someone humble. It is hard to find in our times. It is refreshing to see it.

We do not know you, Nancy, but we hope to meet you some day. Until then, we'd like to thank you for showing us another side of life, and the real meaning of the word "humble."

Someone asked us what we thought about 18-year-olds voting, as per the Eisenhower proposal. Well, here it is.

We don't think that 18-year-olds should vote. Now, we know that some of them can think straighter than a lot of 21-year-olds. In this respect the age limit is arbitrary. But, when a good portion of the 18-year-olds are still children, can we allow them a voice in government?

The only way through this, so far as we can see, is to set up some sort of intelligence test whereby the better informed people, regardless of age, will be allowed a vote. Only trouble with this is that it would be too involved and would also be arbitrary.

And, Mr. President, don't be stampeded by this business of "Old enough to fight, old enough to vote." An 18-year-old is an 18-year-old whether he is carrying a gun or jockeying a yo-yo. Age and occupation can never be proper criteria when it comes to voting. Intelligence is our idea as an index of voting ability. But how to set it up?

Executive . . . Board

Wednesday
Agenda:
Bridge tournament.
Music awards.
Student representatives to Pacific Northwest Conference on Higher Education and Borah conference, to be held on the campus.
Open.

Snowballs Ring; Glass Crashes; Score: 14-3

The sound of shattering glass resounding in the vicinity of the Beta and the Sigma Nu houses Friday afternoon was touched off by a few friendly snowballs. In minutes the air was filled with snowballs which lasted for the better part of an hour.

(Pretty sturdy snowball, huh?) By mutual agreement both sides regrouped and surveyed the damage. The Betas lost 14 windows, the Sigma Nus 3.

Saturday afternoon the pledge classes of the Beta and the Phi Delt mixed it up in their annual snow brawl. The Phi Delt pledges were pushed back to their curbs which resulted in a win for the Beta pledges.

Contest Now Open To Photographers

The ninth annual International collegiate photography contest is now open for entries from any college student. The contest is sponsored by Kappa Alpha Mu, national photo-journalism honorary.

For entry forms or additional information, write to: Print Chairman Mabel Stewart, Room 114, School of Journalism, University of Houston, Houston, Texas.

There is no entry fee.

Little International May Be Affected By Amendment

A constitutional amendment was proposed at the Agriculture club meeting Thursday, January 14. If passed it will make official the appointment of Dr. W. P. Lehrer, associate professor and associate animal husbandman, as the Little International faculty advisor.

It will also change the constitution to read Agricultural Science building, rather than Morrill hall as meeting place for the club.

COMING EVENTS

Tuesday
Radio-TV guild meets at 7:15 p.m. at the Radio center. Afternoon guild meets at 4:15.
Wednesday
Junior class representatives, 7:30 p.m., conference room A.
Spurs, 12 noon in Syringa room.
Waddle practice at 5 p.m. in Women's gym.
Thursday
SUB committee, 4 p.m., Pine room.
Ski club meeting 6:45 p.m. in SUB. Meeting place will be posted.

The American people are now in a "cold civil war" over our freedoms, Bernard DeVoto told a large crowd at the University gymnasium last Friday. DeVoto is a well-known historian and author of "Across The Wide Missouri."

He said we Americans are doing exactly what Russia wants us to do; we are suppressing the freedoms basic to our society in our effort to stop all subversive actions.

DeVoto cited a case in Vermont where a school board threw out a textbook because it was "liberal." The book had already been passed by the state board.

"Never before has the danger to the Bill of Rights been so great as it is now," he said.

Against Bill of Rights
The Communists, he charged, are against any kind of Bill of Rights, and those who try to diminish the freedom of the American people are playing the Communist role.

He warned that Americans are living in an "age of fear." They are becoming afraid of their own traditions. Any group of people has to fight for its freedom, and freedom is worth fighting for.

DeVoto asked that the people of this country take another look at some of the symbols of our history. He recalled symbols like the cabin in the clearing and the barefoot boy. The country has been known to be the home of virtue, and the city the home of sin.

Changed Picture?
"Has our picture of ourselves changed?" He does not believe it has, but for the first time he is afraid it can.

The Bill of Rights is being construed differently, he said. The United States has fallen so low that merely calling something subversive makes it so.

DeVoto noted that the Constitution specifically forbids the congress and the state legislatures from abridging any of the freedoms for any reason. The Constitution allows no exceptions, he said.

He said the congress is even trying to suppress books by Quakers, just because Quakers don't believe in war. We need an escape into fantasy, he said, and the cause might be the image of fear.

Decker Announces Award-Winners

Charles O. Decker has announced the recent presentation of scholarships totaling \$975 to three Idaho students. The awards were received from the Hecla-Bunker scholarship fund.

Those receiving the award are Howard Braden, senior in mining engineering; Mohammed Rafiee of Iran, sophomore in mining engineering; and Heungwon Lee, Korean graduate student in geological engineering.

Staff Newcomers Hear of Culture In Foreign Lands

Six students from abroad will be guest speakers tonight at the regular monthly meeting of the Faculty Newcomers club.

Po Ping Wong, of Hong Kong, China, will introduce Elfriede Garvens of Bremen, Germany, Esther Prins of Amsterdam, Holland, Sa-ard Boonkrid of Siam, Constantinos Laskaris of Salonika, Greece, and Gurcharnd Singh Sidhu, of Punjab, India.

They will describe some of the culture and customs of their native lands especially with regard to the status of women.

Mrs. Earl F. Cook, and Mrs. Ellis T. Austin, faculty wives, are in charge of the program which will be held tonight at 7:45 in the Home Economics building. The senior group of Faculty Women and faculty wives will be special guests at the meeting.

All students from abroad and members of the Cosmopolitan club on campus are also invited to attend.

It Just Might Be Ours

(ACP)—A nine-year-old Seattle schoolboy has returned a piece of property to the University of Washington, and university officials don't know what to do about it.

The boy, a fourth grader, found an old sundial almost buried in a bank of ivy near his school. On the dial was the university seal and the words "Tempus Fugit."

At first authorities believed the dial was the missing face from the Class of 1912's gift to the university. But the president of the Class, summoned especially to identify the sundial, tossed out that idea after comparing the new find to an old photo.

So if you happened to leave a sundial in Seattle a few years back . . .

Winter Concert Held Sunday

The overture to Mozart's opera "The Magic Flute" opened the annual winter concert of the University symphony orchestra last Sunday. Featured on the program was Ruth Krieger, cellist, who performed Haydn's "Concerto for Violincello."

The third group of works consisted of Handel's "Water Music," one of his best known works.

Concluding the program were the "Nordic Symphony," by Howard Hansen and "Die Fledermaus," by Johann Strauss.

Fellowships To Be Given

College seniors majoring in chemistry, physics, or engineering may now apply for graduate fellowships in radiological physics for the 1954-55 school year.

The fellowships are sponsored by the Atomic Energy commission. As many as 75 may be awarded.

Students interested may see science department heads for information, or may write the University Relations Division of the Oak Ridge Institute of Nuclear Studies, P. O. Box 117, Oak Ridge, Tennessee.

Calked Boots Prohibited At Dance

Chairman Bob Emmons of the Foresters' ball committee stated yesterday that calked and hobnailed footwear will be prohibited at the ball to be held Saturday, February 20.

However, Emmons said that pole climbers will be allowed time at the all-U affair. "But lay off the pillars!" he added.

Attire, other than the footwear, will be of the backwoods, dress-up type: clean levis and clean plaid shirts for the men, and clean backwoods dresses of the square dance nature for the girls.

"Holy cow!" said Emmons. "We like to dress up once a year."

Assisting Emmons in planning the ball are Jack Olson, decorations; Bill Wallace, foresters' razzam-taz publicity band; Charlie Ohs, tickets, and Ralph Kizer, publicity.

Naughty Jokes Stop Magazine

(ACP)—Publication of Snipe, humor magazine at the University of Wyoming, has been stopped by the university board of trustees. The trustees said the jokes were too off-color.

The magazine can continue to publish only so long as it is not university-sponsored. Several college magazines are operating without subsidization, but Snipe, which has just gotten in the black after four years of deficit, hasn't decided yet whether or not to try to come out without university aid.

Meanwhile, at Cornell University, the Writer magazine appears to be heading for the same trouble. A faculty committee is considering its "obscenity."

STAFF OPEN TO COEDS

(ACP) — Pennix, humor magazine at the University of Pennsylvania, has taken a radical step. It has opened its staff to women students. The editors say they hope to attract a larger and more varied group of writers by going co-educational, and the business manager agrees.

NOTICE

When registering for the second semester, students are asked to bring their old ASUI cards with them. Cards will be marked so that they can be used for admission to second semester activities.

H. E. Slade

The cafeteria will serve lunch from 11:30 to 12:30 p.m. during final examination week. This will enable students and faculty members to have lunch before the second examination period.

Musicians To Present Program

The Music department of the University of Idaho will present the Julliard String Quartet Sunday, January 24 at 8 p.m. in Recital hall of the Music building.

The Quartet, composed of four American musicians, Robert Mann, violin; Robert Koff, violin; Raphael Hillyer, viola; Arthur Winograd, cello, has been praised by many music critics throughout the nation.

They specialize in chamber music, and have established themselves as one of the most popular groups in this field of music.

Selections will be Schumann's "Quartet in F Major, Op. 41, No. 2," Bartok's "Quartet No. 3," and Beethoven's "Quartet in E Minor, Op. 59, No. 2."

A few adult tickets are still available although the student tickets are sold out. Everyone is asked to purchase them as soon as possible.

General admission is \$2.40. The tickets may be purchased at the University book store, Mezzanine music shop, and the University music department.

Dr. Cecil Hinshaw Expresses Opinion On World Peace

Dr. Cecil E. Hinshaw will speak at the Christian Institute at 4 p.m. January 21 on the subject "Moral Alternatives to Modern War."

Dr. Hinshaw is a Quaker minister, teacher, author, lecturer, and former president of William Penn college. He is sponsored by the American Friends Service committee.

Dr. Hinshaw rejects the concept that peace can emerge from an arms race, or that problems can be solved by dropping "A" or "H" bombs.

He has expressed concern about people's easy acceptance of the doctrine of force and the forgetting of moral values. He believes there is an answer to peace consistent with the law of God and the precepts of democracy.

Official Notice

With record crowds expected for the Oregon State-Idaho basketball games next Friday and Saturday, Bill Bowby, ASUI ticket manager urges all students who wish to attend the games be in their seats in the student section by no later than 7:00 p.m. on those two nights.

Bowby, who stated he expects better than 4400 people for the two games, said today that after 7:00 student seats in the balcony would be open to the public at general admission prices.

"Unless we have a blizzard like we did last year for the Washington series, we will have complete sellouts both nights," he said. . .

All reserved seats have been sold out and most of the general admission seats are now gone. Unless students cooperate with the ASUI ticket office and come to the game early they will lose their seats.

Bowby also stressed that any student who did not have their ASUI activity card would DEFINITELY not get into the game. This includes band members and workers.

Mousetraps Used To Represent Cyclotron

Monday morning students of the educational department witnessed a moustrap demonstration of how chain reaction takes place. The demonstration climaxed reports on how science will be taught in the secondary and primary schools of the near future.

The demonstrator is a large wire cage about three feet square. In it are placed approximately 90 armed mousetraps on which are placed pellets which are catapulted to the top of the cage, bounce off and come down setting off others until all of the traps have been discharged.

It took about 1 1/2 seconds for the cycle to complete itself. The fire cage represents a cyclotron which starts the reaction by firing a neutron, which is represented by a small pellet which is dropped onto a trap and starts the reaction.

It is demonstrations like these that will teach our children about the complicated processes science brings forth.

Program Scheduled By Students

The Department of Music will present a student recital on Wednesday, January 20, at 3:10 p.m. in the Music building auditorium.

Featured on the program are Richard Mansfield, organist, who will play "In Dulci Jubilo" by J. S. Bach; Arlene Taylor, soprano, singing "Nachtviolen" accompanied by Keith Forney; and Golden Arrington, pianist, playing "Nocturne in F Sharp Major" by Chopin.

Included on the program are Edwin Armstrong who will play "Concerto for Trumpet" accompanied by Richard Mansfield.

Mendelssohn's "Sonata in C Minor" will be played by Deloris Bloomquist, organist. Keith Forney will accompany LaVonne Willson, contralto when she sings "Florian's Song."

"Reflète Danc l'eau" by Debussy will be played by Judith Crookham, pianist. Joyce Sumsion and Ernestine Gohrband accompanied by Judith Crookham will play "Concerto for Two Violins" by Bach. Janice Radovich will sing Woodforde-Finden's "Till I Wake," and Beverly Greggerson, pianist, will play "Toccata," from Pour le piano by Debussy.

Korean Colleges Open Once More

(ACP) — Korean colleges, for two years exiled in Pusan, have returned to their old homes in Seoul.

Scenes of devastation greeted the returning universities of Ewha and Chosen Christian. At Ewha, students found the two top floors of the administration building gone, and every building was in need of window glass.

But, dilapidated or not, the old campuses were a welcome sight. Students and faculty members moved by boxcar every bench, table, scrap of lumber and piece of electrical equipment that had been utilized in the Pusan campuses of huts and shacks improvised from crating lumber.

THANKS

The Associated Students, again, did a new and wonderful thing for one of their classmates when they cooperated so fully in making the Nancy Benfer Benefit dance such a terrific success, not only in financial support, but also with the thoughtfulness with which it was supported.

Many thanks are extended to the girls who put on the skirts; the band, who donated its time; the Student Union committee, for the free use of the ballrooms; the faculty for their contributions, and above all, the student body for their fine spirit and willingness to help Nancy.

Bill Parsons
ASUI President.

Course Organized In Communications

A graduate program in public communication has just been organized by the Social Science Division of the University of Chicago. The degree offered is Master of Arts in Communication.

The program is designed for students interested in journalism, public relations, propaganda, or communication research. College graduates with an undergraduate major in a social science can normally complete all the requirements in one year.

Further information may be obtained from the Committee on Communication, University of Chicago, Chicago 37, Illinois.

Navy Has Television

Idaho's seagoing ROTC, the Navy, now boasts a television set in their wardroom for the use of Naval students and faculty. The set came from the recreational fund for the thirteenth Naval district.

Besides the TV set Naval students enjoy the use of two pool tables and numerous magazines.

The Idaho Argonaut

Official publication of the Associated Students of the University of Idaho issued every Tuesday and Friday of the college year. Entered as second class matter at the post office at Moscow, Idaho.

P.A. System Has "Bugs"
 We went to hear the noted writer, Bernard de Voto, last Friday. Unfortunately, the speech was interspersed, subdued, and ruined by the blatantly lousy conditions of Memorial gymnasium which are not conducive to either listeners or speakers. Besides competing with squeaking chairs and hoisted-up basketball nets, DeVoto was forced to use a public address system that garbled many of the highlights of his versatile speaking voice. And so the audience missed many of the points of his talk, as well as the descriptive phrasing and comments which are typical of DeVoto's style. In a feature article by Jim New in this issue, we find the pertinent facts and figures about our public address system in the gymnasium. Essentially, the equipment is good; however, it would appear that it is not properly used. There are several authoritative recommendations made in New's article, and we would like to urge that these recommendations or something comparable to them be seriously studied and considered. It is apparent that to fully enjoy and understand public events or community concerts in our gymnasium, definite correction must be made in the P. A. system. Otherwise, we don't feel that it is worth our money to have public events, if they are to be scheduled in Memorial gymnasium. J. C.

News Briefs
 The report that few of the students of the 1953 graduating class from Kellogg high school are attending the University of Idaho has been disproved. It has been found that of the 30 graduates of Kellogg now attending college, 17 are at Idaho, two are at Idaho State college, four at Washington State college, two at Montana State university, and five at various other institutions. Golden Delicious apples will be available until Friday for \$2 a box. They will be on sale in room 18 in the Ag science building from 3 til 5 p.m. About 30 boxes are left. The faculty square dance which was scheduled for January 15 will be held on Friday, January 22 at 8 p.m. in Faculty club. The club would be very happy to see more of the faculty participate in this recreation. Everybody is welcome! KUOI will cease regularly-scheduled broadcasting at 10:30 on Wednesday evening for the duration of finals. Special broadcasts during the period will be offered. Regular second semester broadcasting will begin on Wednesday, February 3, according to an announcement from the KUOI management. President Buchanan has turned over to the Library some early records of the University, including Regent's minutes, presidential correspondence, and even correspondence from the "missing" Regent, Philip Tillinglast. Some of the material was removed from the old Administration building during the fire of 1906.

ART'S CAMPUS BARBER SHOP
 FOR CAMPUS MEN
 IT PAYS TO LOOK WELL

YOU GROW IT... WE MOW IT!
Nepean's Barber Shop

YOU NAME IT BY REDDY

EWCE

CHENEY'S early quarrel with Spokane over rail terminal rights was a typical dispute of our early pioneers... but such disputes were healthy so long as the people retained positive control of their communities, never letting any one group gain too much power, whether it be government itself or individuals.

Cosmo Club 'The Great Lover' Returns Newly Elects As The Son Of A Sheik Officers

Constantinos "Gus" Laskaris, metallurgical engineering student from Salonika, Greece, is the newly-elected president of the Cosmopolitan club. As leader of the international student group, he succeeds Po Ping Wong who was president during this semester. Other officers elected Sunday at the Cosmo meeting were Tony Dumhart of Munich, Germany, vice president; Shirley Lent, Bremerton, Washington, secretary-treasurer; Emma Randler, corresponding secretary, and Sa-arad Bookbird, Siam, historian. All students from abroad have been invited to be guests of the Newcomers' club of Faculty Wives during their regular monthly meeting, held tonight at the Home Economics building at 7:45. Culture and customs, especially with regard to the status of women in other countries of the world, will be discussed.

Out Of The Past

1 Year Ago
 January 20, 1953 — University students will have the opportunity to see and hear Fred Waring and the Pennsylvanians in Pullman next week.
5 Years Ago
 January 20, 1949 — The University is now the possessor of three prize blooded Arabian mares, received from the US Remount service, Pamona, California. President J. E. Buchanan and Karl Bonham, president of the Idaho State Alumni association will be guest speakers on a stateside radio broadcast January 30, marking the 60th anniversary of the University's founding.
10 Years Ago
 January 20, 1944 — The Associated Students will be led by a woman—Edith Jonew—the second semester. She steps into the post from the vice-presidency to replace Carl Minden, who will graduate at the semester.
25 Years Ago
 January 18, 1929 — The Vandal basketball squad is sporting bright new garb. The following is quoted directly from the Arg: "...what- ever the material, it was red, a flaming scarlet that challenged and delighted the eye. "And the style of the garment was fascinating. It would have been a credit to young Lochinvar himself; or any of the romantic figures dear to the feminine imagination. The thing was a kind of glorified overall reaching from neck to ankle, tight about the body, with a wing collar at the top, and the whole garment edged in black. A black "I" decorated the chest, and the word, "Vandals" in black letters formed a graceful arc over the shoulder blades. "Vandals? Yes. They were that in the strictest sense of the word. A mere handful was enough to plunder every feminine heart in the audience."

CLASSIFIED

1953 FORD V-8 RANCH WAGON. Purchased September 1953. 400 miles. Superb condition. Cost \$2650. Will sell for only \$1975. Bank will finance. Must sell, going East. Call 28403. Professor Howard.

'The Great Lover' Returns

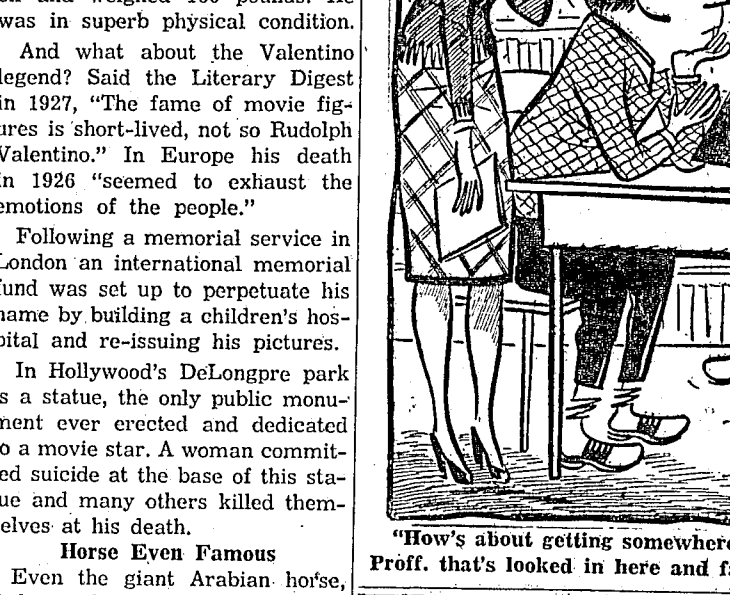

"The great lover," Rudolph Valentino, returns in what critics call his most romantic role as "The Son of the Sheik" Thursday at the Borah theater. This ASUI movie will be shown at 4, 7, and 8:30 p.m. Valentino sweeps across the Great Sahara desert in his last role before his death in a film filled with romance, excitement, and tempestuous love-making. His female lead is Vilma Banky, gorgeous star of the twenties, whose young passion and wild dancing to desert strains masters the heart of the fierce, handsome Valentino. Valentino was born in 1895 at Castelaneta, Italy, as Rudolph d'Antonguilla. In 1913 he emigrated to the United States and became a citizen in 1925. His rise to fame was like a slow fuse which suddenly exploded a brilliant bomb. First he danced in night clubs and hotels. Then he managed to get to Hollywood on a free Pullman ticket given him by Al Jolson. It took movie people eight long years to discover him, but even then he played second leads as bewhiskered villains. Finally, on the hunch of a screen writer, June Mathis, he was given the starring role of Julio in "The Four Horsemen of the Apocalypse." He was a sensation. His later successes included "Blood and Sand," "Monsieur Beaucaire," "The Sheik," and "The Son of the Sheik." **Fair of Face** What did the man look like? "Like a panther—velvety black hair, smoldering dark eyes, catlike grace," says Colliers. "Valentino doesn't walk, he flows. His animal-like illusion was sharpened by flaring nostrils and a mysterious sulkiness." He was five feet eleven and weighed 160 pounds. He was in superb physical condition. And what about the Valentino legend? Said the Literary Digest in 1927, "The fame of movie figures is short-lived, not so Rudolph Valentino." In Europe his death in 1926 "seemed to exhaust the emotions of the people." Following a memorial service in London an international memorial fund was set up to perpetuate his name by building a children's hospital and re-issuing his pictures. In Hollywood's DeLongpre park is a statue, the only public monument ever erected and dedicated to a movie star. A woman committed suicide at the base of this statue and many others killed themselves at his death. **Horse Even Famous** Even the giant Arabian horse, Jadaan, that Valentino rode in "The Sheik," has been glorified. For eleven years after Valentino's death the horse pranced around a corral and drew huge crowds. What was Valentino's attraction to women? Some guess that he came along at the right time in our culture with a new kind of way to make love. Life magazine says that "women clutched to their hearts with a collective frenzy." In describing his love-making methods, Life said, "He bent women back from the waist like lilies to kiss them and when he whispered to them it was a breath of pure passion." The London Daily Express commented that there has never been anything like the devotion that

Bug May Kill Weed

Goatweed is the major range weed in north-central Idaho, and its present abundance decreases forage production on thousands of acres of range land in this area, reports the Forestry department. Min Hironaka, graduate student of the College of Forestry in range management, has tagged 350 individual goatweed plants from Higgins north to Coeur d'Alene to determine specific effects of the goatweed plants. Hironaka has used many techniques other than plant tagging for his range research during the last two years to determine the vegetational changes following removal of goatweed by the introduced goatweed beetles. There has been marked change to the better in the two 1948 sites where the beetle was planted to destroy goatweed plants. Passing a door in the wee hours of the morning, a drunk noticed the sign which read: "Ring the bell for the caretaker." He did just that and a sleepy-eyed man came to the door. "Whadda you want?" asked the man. "I want to know why you cant ring your own bell!" Pledge: (At the dinner table) Must I eat this egg? Member: Yer narnright. Silence.... Pledge: The beak too?

DEAR JASON

Dear Jason: We wish to thank the Kappa Alpha Theta sorority and the Spurs for their contributions to our recent Christmas basket project. The contributions were greatly appreciated.
 Sincerely,
 Epsilon Sigma Alpha

DAVIDS'

Pinnings Are Numerous; Snowball Season Here

It looks as though Cupid couldn't wait until February to strike the unsuspecting, for announcements of pinnings are numerous. Prospects for tubbings look mighty cold!

The Thetas report grand success of their costume dance, "Once Upon a Tune," last Friday night and the Deltas have registered the same amount of approval of their Odd-Ball Dance.

Other events of up-and-coming importance were the many snowball fights . . . scheduled and unscheduled.

DELTA TAU DELTA

Last Saturday night was the date which had been set for the annual Delt Odd-Ball dance. With the music of Ed Alverti and the odd atmosphere provided by the clothing of the guests, the party was, to say the least, a success.

Thanks go to Steve Boyle, Tom MacGregor, Dale Becker, Thatch Jameson, and Rich Orme for their efforts. Chaperones were Capt. and Mrs. Talbot, Mr. Livermore, Mr. and Mrs. Pat Duffy, Mr. and Mrs. Bernard York, and Mr. and Mrs. Ralph Lehman.

An unexpected boost was given in the entertainment field by DG pledge Sally Gighlieri who sang a fine impromptu rendition of "Frankie and Johnny" with the Alvetti band.

Sunday, January 10, the pledges held a fireside with the Theta pledges. From what the members of Delta Tau could gather, the theme of the fireside must have been an interesting one, as the pledges were seen strutting around in sweat shirts, derbys and loud ties.

Recently Tom MacGregor was elected house treasurer and Jerry (Zip) Zimmerman was selected as his assistant. Also receiving honors via the ballots was Tony Durnhart who was elected vice president of the Cosmopolitan club.

PI BETA PHI
Newly appointed officers are Vonda Jackson, standards chairman, and Suzanne Moore, house manager.

On January 12, Helen West was honored by a Fiji serenade in honor of her recent pinning to Bob Hanson.

Recent dinner guests have been Joan DeShazer, Alyce Rae DeShazer, Jackie Baker, Pat Harrington, Darlene Knapp and Barbara Snuin from Lewiston.

On January 16, Nancy Nelson announced her pinning to Don Broughman, Phi Kappa Tau.

Chosen as candidates for ATO Esquire Girl are Jody Baldwin and Sonia Henriksson.

Those taking part in the benefit skit Friday night were Lucy Spencer, Jo Murelaga, Kathy Laven, Joan Redford, and Pat Reichow.

DELTA SIGMA PHI
Richard Heffel was pledged informally last Sunday.

Approximately 35 couples attended the annual Sailors' Ball last Saturday night. The decorations were cleverly carried out in an underwater theme. Dr. and Mrs. Pratt and Mr. and Mrs. Eugene Slade were chaperones.

Thursdays dinner guests were Russ Brown, Paul Barker, and Spencer Greenhill.

On Wednesday evening the SAE pledges had an exchange with the Gamma Phi pledges.

Saturday afternoon the Thetas challenged the Sig Alphas to a snowball fight. Afterward Theta snowgirls accompanied the SAE's to the Perch for coffee and bridge.

Sunday Dixie Kroushi, Queen of Violets, was special dinner guest.

PHI KAPPA TAU
Dinner guest Sunday was Charlene Rose, Hays, who recently received a Phi Tau pin from Jake Kinyon. It was discovered during dinner that carnations will have to be sent also to Janet Berry, Alpha Phi at WSC, and to Nancy Nelson, Pi Phi, who were pinned Saturday to Tom Dolson and Don Broughman.

There has been talk of the starting a Bachelors' Protective league for the preservation and encouragement of male independence.

Our bulletin board this week is taking on a poetic nature. Last week's section on native humor was devoted to cartoon exposés of the members. For those who are concerned about finals is this selection by Popsie . . . an ode to finals, is elsewhere in the Arg.

KAPPA ALPHA THETA
Thetas and their dates danced in costume Friday night at their annual dance, this year entitled, "Once Upon a Tune." Mary Ann Evans as chairman of the affair had the chapter house, decorated with records and music notes. Couples dressed as song titles. Chaperones were Dr. and Mrs. Albert Stlinger, Mr. and Mrs. Dick Reed, and Mr. and Mrs. Phil Kinnison.

The senior home economics majors had an unexpected day of practice Saturday when Mrs. Browning, the cook, became ill. The group of three cooked both lunch and dinner for forty-four other Thetas.

The pledge exchange last week was with Lindley hall. The LDS house will come over for this week's exchange.

SAE's and Delta Chis proved to be victorious over the Thetas this week in snowball fighting.

LAMBDA CHI ALPHA
Dave Holmes, LCA "dark horse," has challenged the DG's of Washington State college. If the Idaho Vandals can beat the Cougars in the forthcoming basketball duel by ten points, the DG's will entertain.

However, if the Vandals win by less than ten points, then the Idaho LCA boys will serve dinner to the WSC DG's. We are confident of Idaho victory.

Marvin J. Swan, Lambda Chi's traveling secretary, was a recent visitor.

Doug Aurnhammer is planning on leaving college at the end of the semester and going east. It is rumored that the eastern office of "Frankster Inc." has given Doug a better offer. We will all miss him.

BETA THETA PI
Last Saturday at 1 p.m. the Betas and the Phi Deltas went at it again. The pledges of both houses got together for their annual snowball fight. The crowd formed a large circle around the combatants as they stood on their respective curbs awaiting the handkerchief to drop.

The taste of defeat still was near to the Phi Deltas minds as they thought of the football games last fall. Perhaps a glimmering of confidence passed through the strong bodies and stronger hearts of the Beta pledges as they thought of their gridiron victory.

The handkerchief dropped and in less than 10 minutes, sixteen Phi Delt pledges lay prone on their curb as the Betas had scored another victory. The fight ended with a party where old friendships were renewed, but the competitive spirit still runs high.

Recent guests of the Betas were Mr. and Mrs. C. W. Daigh, parents of Larry Daigh.

The DG pledges and Beta pledges got together last Wednesday night for an exchange. Nancy Backstrom was the "life of the party" as she planted a kiss on each cheek.

Snowballs have been flying between the Sigma Nu and Beta houses and heating bills have gone up as windows have become glassless.

SIGMA NU
Last Wednesday evening a formal dinner was held in the chapter house. Guests included Arline Snay-

der, Nan Nelson, Jean Luedke, Marsha Jensch, Martha Davis, Susie Oberg, Judy Hodgins, Shirley Brixen, Dorothy Warren, and Alenor Hathaway.

Chaperones were Mr. and Mrs. Terry Hanson.

Saturday morning the pledge class engaged in a snow ball fight. Recently pledged was George Durkee. Plans are underway for all members and pledges to hit the finals.

ALPHA PHI
The Delta Sigis emerged victorious in the snowball fight between Alpha Phi and Delta Sigis last Thursday night.

Nancy Backstrom and Mrs. Don Ringe were Sunday dinner guests. Jean Moran was elected secretary of Radio TV Guild at their last meeting.

Thanks to Sheri Fox, Maureen Maxwell, Phyllis Payne, Nan Nelson, and Harriet Duckworth and all the others, for the extra time put on the Benfer Benefit entertainment.

Church News

LDS
MIA will be held tonight at 7:30. An interesting lesson has been planned. Afterwards there will be dancing and entertainment in the recreation room.

LSA
Bible study this evening at 7 in the Christian center.

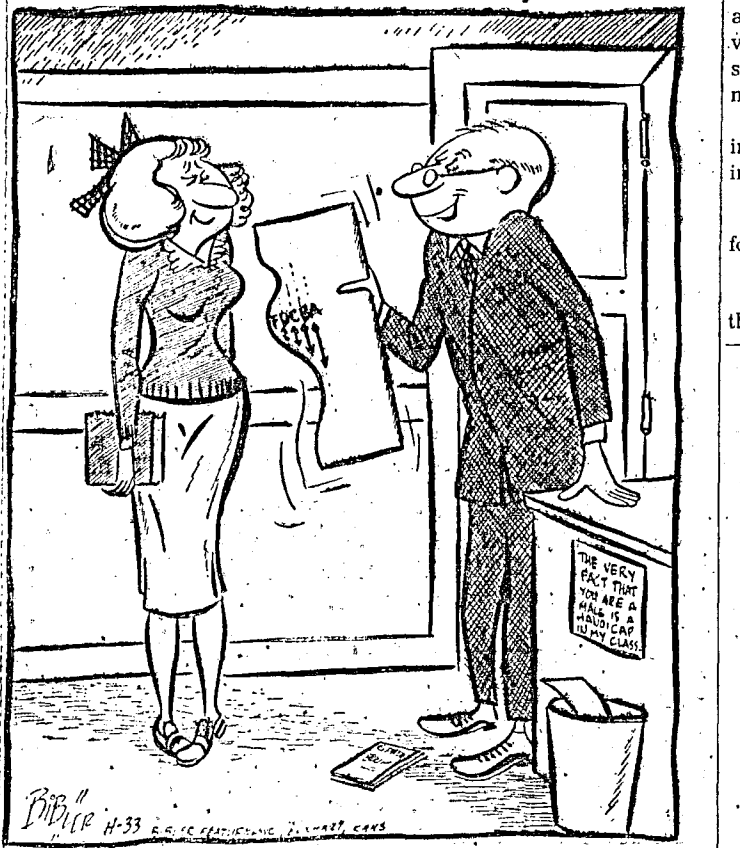

Dames Club Elects New Officers

The University of Idaho Dames club elected new officers January 13 at the Faculty club. Mrs. J. E. Buchanan, Mrs. Kenneth Dick, and Mrs. V. A. Cherrington were honorary guests.

INFIRMARY
Admitted to the infirmary were Joan Smith, Diana Hampton, Marilyn Robbins, Edward Dix, John Zwioner, Gertrude Mills, Carolyn Harper and Larry Church.

Discharged were Joan Smith, Audrey Strong, Bonnie Hix, Edward Johnson, Edward Dix, Richard Buetner, Mary Waterpaul, Gertrude Mills, Josephine Fouch, Marilyn Robbins and Diana Hampton.

FINAL EXAMINATION SCHEDULE

First Semester 1953-54

(Two and one-half hour examinations—three examination periods each day)

Regular class rooms will be used for the examinations unless instructors make special arrangements through the Registrar's Office. Examinations in courses not included in the schedule will be arranged by the individual instructors during scheduled examination week. Examinations in courses comprised of lecture and laboratory periods may in most instances be scheduled according to the sequence of either. Announcement of time and room should be made by the instructor. Rooms should be reserved in the Registrar's Office for "arranged" examinations in order to avoid conflicts with scheduled examinations. For those courses in which a two and one-half hour examination period is not considered adequate, the final class hour or laboratory period could be used for additional examination purposes.

EXAMINATION DAY AND HOUR FOR CLASSES MEETING:

Examination Time	Saturday Jan. 23 5th Period MTWThF to 10:30 a.m.	Monday Jan. 25 1st Period MTWThF to 12:00 n	Tuesday Jan. 26 3rd Period MTWThF to 2:30 p.m.	Wednesday Jan. 27 3rd Period TThS to 3:00 p.m.	Thursday Jan. 28 4th Period MTWThF to 5:30 p.m.	Friday Jan. 29 2nd Period MTWThF No Exams

WRA NEWS

The volleyball tournament will be completed this week with the playing of semi-finals on Thursday and the finals Friday.

On Wednesday, the Forney B and Gamma Phi B teams are scheduled to play the last quarter-final match. Thursday the following semi-final matches are scheduled.

Kappa A vs. Hays A; Gamma Phi A vs. Alpha Phi A.

Wednesday afternoon plans have been made to play a freshman-junior vs. Sophomore-senior practice game. Everyone is invited to play. This promises to be quite a volleyball game. The frosh in previous matches have been able to slide by the upperclassmen, but vengeance has been sworn for this game.

Friday the remaining four battered, but undefeated teams will play for the championships.

The badminton singles tournament is in the second round. Girls scheduled to play today at noon are:

Crisp vs. Randall; Keller vs. Olsen; Mann vs. Pelleberg; Hamilton vs. Wilkes; Ison vs. Crookham.

The winners of these matches will play again Wednesday noon. Betty Huber and Janis Loren are also scheduled to play Wednesday noon.

All girls who are interested in skiing on the women's ski team are requested to contact Patricia Rowe, adviser, before Wednesday noon.

Saturday morning several enthusiastic girls won the basketball game with WSC.

Idaho lost the volleyball match after leading at the half time.

Now is the time to be thinking about partners for co-recreational volleyball! The tournament will start soon after the beginning of next semester.

There will be a WRA board meeting Wednesday night at 6:45 p.m. in the Women's gym.

Joe: I ate lobster last evening for dinner and dreamed all night.
Moe: Bad dreams?
Joe: I'll say. I dreamed I paid the check.

Large Seed Production Distributed

Foundation and registered seed distributed in Idaho in 1953 totaled 137,159 pounds, Carl T. Blackburn of Boise, secretary-manager of the Idaho Crop Improvement association, reported to the state foundation seed stocks committee.

This seed consisted of three varieties of alfalfa, two varieties of red clover, three varieties of grass, four varieties of beans, nine varieties of grain and two varieties of potatoes.

Meeting in connection with the annual experiment station-extension service conference at the University of Idaho last week, the committee reviewed the state's foundation seed program and outlined activities for the coming year.

Membership includes superintendents of the six branch experiment stations, the University's agricultural experiment station and extension division, the crop improvement association and the U.S. department of agriculture.

Practically all of the foundation and registered seed was produced at the University's branch experiment stations. Tetonia, Aberdeen and Twin Falls stations were the principal producers of this seed.

"Idaho was one of the first states to give its branch agricultural experiment stations a service assignment in the statewide foundation seed program," explains Hugh McKay, superintendent of the Tetonia station and acting chairman of the seed stocks committee. "Idaho's foundation seed program is now in its fourth year and has been highly successful."

CAMBRIDGE GETS 3-D

(ACP) — The Cambridge, England, student newspaper, Varsity, came out recently with a three-dimensional picture supplement, produced by the American "microscopic" process.

Soil Conservation Nursery At Aberdeen To Be Closed

A five-point plan under which the University of Idaho Agricultural Experiment station will take over the most essential parts of the Soil Conservation service grass nursery at Aberdeen was announced today by Dr. J. E. Kraus, associate director, in accordance with authorization by the University board of regents.

The SCS nursery at Aberdeen, along with similar nurseries in other states, is being discontinued by the U. S. Department of Agriculture.

"While the grass work at Aberdeen can not be continued on the same scale which characterized SCS operation, because of insufficient funds, the most essential research and seed production services needed in Idaho will be continued," Dr. Kraus explained.

The Idaho station is taking over the work conducted on the branch station and on other farm land under its jurisdiction. Federal grant funds allocated to the University for agricultural research make it possible for the institution to take over the research phases of the nursery operation.

To Reactivate Land
3. Continue work being done by the SCS on establishment, maintenance and evaluation of grasses and legumes on dry land, including range and abandoned farm land. This will involve plantings established some time ago on the Aberdeen airport and adjacent dry land areas.

To Reactivate Land
4. Insofar as funds and personnel available will permit, the station will study cultural methods with various grasses, as related to establishment of stands, fertilizer responses, seed production and harvesting methods.

To Reactivate Land
5. The branch station will continue to produce limited stocks of foundation grass seed of the principal varieties used in Idaho. These stocks will be distributed to registered seed growers through regular channels in cooperation with the Idaho Crop Improvement association.

Dr. Kraus indicated the University will secure a man trained in the field of genetics and plant breeding who has had experience in the field of grass production. Although stationed at Aberdeen, he will work under the supervision of Dr. K. H. Klages, head of the department of agronomy of the University. Following is the five-point plan outlined by Dr. Kraus.

1. Emphasis will be placed on the breeding and improvement of species or strains of forage crops most important in Idaho. Principal ones will include the brome grasses, orchard grasses, and wheat grasses.

2. New species of forage crops will be evaluated for adaptability to Idaho and as possible parent material in breeding and improvement.

3. Continue work being done by the SCS on establishment, maintenance and evaluation of grasses and legumes on dry land, including range and abandoned farm land. This will involve plantings established some time ago on the Aberdeen airport and adjacent dry land areas.

4. Insofar as funds and personnel available will permit, the station will study cultural methods with various grasses, as related to establishment of stands, fertilizer responses, seed production and harvesting methods.

5. The branch station will continue to produce limited stocks of foundation grass seed of the principal varieties used in Idaho. These stocks will be distributed to registered seed growers through regular channels in cooperation with the Idaho Crop Improvement association.

Pranksters Swipe Part Of Bell

(ACP)—Two seniors at Valparaiso University (Ind.) brought the editor of the Torch, student newspaper, a strange gift. It was a bell clapper, stolen at 1 a.m. on a Sunday morning.

With the clapper was a note that began: "For four years (that's 720 days) this chunk of mineral has summoned us to classrooms. Our sleepy eyes have opened and wobbly feet have stepped onto cold floors to the monotonous clang of this clapper. It creates the early morning Frankenstein of the bathroom mirror. Tardinesses have been recorded because this thing hit the bell before the student hit the classroom."

Adding that "this old chunk of iron is a pretty important hunk of iron," the seniors said they simply had to see it firsthand before they graduated. They gave it to the editor to put in his window for all to see, and they decorated it with aluminum paint and a ribbon "for posterity."

Vandal Skiers Nab Invitational

Feigning poor snow conditions, Idaho's ski team went on to defeat six other schools and win the Whitman invitational ski meet at Spout Springs, near Walla Walla, Saturday and Sunday and bring home three trophies.

Just Chatter

By JOHN McDERMOTT

Oh for the life of a ticket manager!

First In Years
Combining two jumps of 117 feet and 113 feet, Reidar Ullevaseter placed first in jumping. He came in fourth in cross country to nab second place in the Nordic combined.

Stavik, who placed second in jumping, made two leaps of 113 feet. His winning time in the six mile cross country race was 31 minutes.

Whitman Takes Slalom
Whitman's Dean Lodmell placed first in the slalom while Torre Kristoferson of Idaho placed third. Idaho's Muddy Numbers placed fifth in the slalom and tenth in downhill.

Leads First Day
Idaho, after getting a healthy four point lead at the end of the first day, drew steadily ahead during the second day of competition to end up with a strong 11 point advantage at the end of the meet.

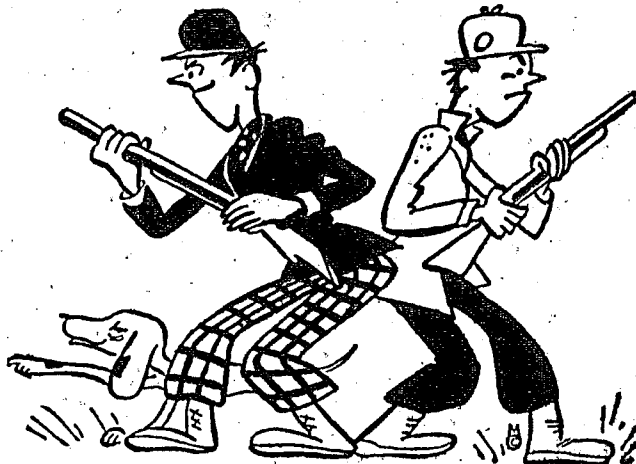

"The fellows did very good at the meet," said Burnett. "We had the edge on them in the cross country and that was a big help in winning the meet."

Mittmen Drop Matches To San Jose State--6-2

Idaho's boxing squad, who slugged their way to a 4-4 tie with Cal Poly last Thursday, fell Saturday 6-2 at the hands of the San Jose State Spartans at San Jose.

Highlighting the evening's bouts was Lynn "Sam" Nichols' TKO over Jack Montgomery in the second round. Nichols, who battles in the 147-pound class, fought a game bout with the Spartan boxer, but inexperience on the part of Montgomery proved his downfall.

Ray Ragan, fighting his second collegiate bout fell to John Hernandez in a decision that was almost a toss up.

Ken Connell, who picked up a case of the flu while in San Luis Obispo was unable to keep pace with Joe Rodriguez and was KO'd in the first round.

In one of the closest bouts of the evening, Ron Titus, also fighting his second collegiate battle lost to Allan White in a toe to toe match that could have gone either way.

Bob McBride forfeited to San Jose's Dick Bender after he became ill and was running a fever.

Don Anderson, decisioned Lou Stern, after Stern kept coming back for more in a fight that saw the Spartan slugger on the canvas in the first round.

Bruce West lost to Danny Hayes after a technical knockout was declared in the second round. West and Hayes, who are both football players were standing toe to toe battling it out, when Hayes hit West in the jaw with the side of his head causing West's jaw to swell.

In the heavyweight division, Hal Solinsky was knocked out by Dave Fenner in the second round. Fenner, a lefthanded fighter packed a terrific left punch that was too much for Solinsky.

Frank Young, boxing coach, said he was pleased with the team's showing even though they lost the matches.

"San Jose has the strongest team they've had in years," he said. "The bouts were all good ones and I believe we will have a good team."

Summary:
125 pounds — John Hernandez, San Jose, decisioned Ray Rangan, Idaho.

132 pounds — Joe Rodriguez, San Jose, knocked out Ken Connell, Idaho, first round.

139 pounds — Allan White, San Jose decisioned Ron Titus, Idaho.

147 pounds — Lynn Nichols, Idaho. TKO over Jack Montgomery, San Jose, second round.

156 pounds — Dick Bender, San Jose, won by default over Bob McBride, Idaho.

165 pounds — Don Anderson, decisioned Lou Stern, San Jose.

178 pounds — Danny Hayes, San Jose, scored a technical knockout over Bruce West, Idaho, second round.

Heavyweight — Dave Fenner San Jose, knocked out Hal Solinsky, Idaho, second round.

just dream of flashing blades and beautiful figure "g's".

It seems a shame that the school couldn't flood an area for the students to skate on.

Ski Coach Is Man Of Varied Talents

Olympic equestrian, nationally-ranked tennis player, specialist in mountain warfare and professional soldier are some of the qualifications of the young army officer who is coaching Idaho's ski team to what promises to be the best season in Vandal history.

Capt. Henry H. "Jim" Burnett, a wiry 130 pounds on a five-six frame, has assumed the ski coaching duties in addition to his regular assignment as assistant professor of military science.

Burnett's experience with skis came immediately after his graduation from West Point in 1944, when he was assigned to the famed 10th Mountain Division. Until the end of the war, the 33-year-old officer fought with that division on skis and snowshoes through the mountainous campaign of northern Italy. During the years of peace that followed, Burnett continued skiing during a three-year assignment in Europe, on the slopes of Switzerland, Austria and Bavaria.

While at West Point, Burnett was tabbed as one of the best left-handed tennis players ever to represent the Black Knights of the Hudson, and was a mainstay of the fencing team. His highest proficiency, however, lies in the field of horsemanship. As the son of a regular army cavalry officer, the captain rode from the time he could walk, and his equestrian ability won him a berth on the U.S. Olympic team in 1948.

Burnett is in his second season as ski coach at Idaho, and when spring thaws arrive, will switch to coaching the Vandal tennis team.

TILT MAY DECIDE FATE

The ski club will take a trip to Chewelah during the break between semesters. The facilities at the area include a beginners tow, a mile long double chair lift, and two runs each approximately a mile long. Tow tickets are \$2 a day. Skis and boots are available for rent at the ski lodge and light lunches are served. Rooms are available at the Yale Hotel for about \$1.50. There will be a meeting Thursday at 6:45 p.m. in the SUB to discuss further plans for the trip. All skiers interested are urged to attend.

California	4	0	1.000
Southern California	2	2	.500
Stanford	1	3	.250
U. C. L. A.	1	3	.250

Making their first conference appearance on their home court tonight, the Idaho Vandals clash with Washington State College Cougars in a game that may be all-important in deciding where the Vandal quintet will ride in the Northern Division standings.

Colorado A-M, Wyo., Unbeaten

DENVER — The Skyline conference's two top basketball teams, Colorado A&M and Wyoming, continue traveling this week after fatiguing their joint league lead on the road last week.

However, the Aggies journey to the Pacific Northwest for Thursday and Friday games with Seattle university will have no bearing on their conference won-lost record of 5-0.

Wyoming (4-0) hits the trail to Albuquerque for a league game Monday night with New Mexico (1-4).

Third place Brigham Young 3-1, is at home in Provo for games Friday with Montana (1-3) and Saturday with Utah State (1-3).

The Cougars fell out of a three-way tie atop the league by dropping a 73-68 decision to Utah State at Logan last Thursday.

Utah (2-2) will be host in Salt Lake City Friday for Utah State and Saturday for Montana.

Frosh Swimming Schedule Set

A definite three meet schedule has been set for the freshman swimmers and includes:

- Feb. 9 at WSC
- Feb. 20 at Idaho
- Mar. 9 at WSC

All three meets are with Washington State College's frosh tank men.

"Freestylers Bruce Buckman, Mike McKay, distance man Dennes Jensen and backstroker Jack Helle have shown much improvement and should add a great deal of strength to our squad," said Coach Eric Kirkland.

Two new men, sprinter Norm White and diver Ed Russ, should also help out considerably, the tank coach said.

"Just because my eyes are red doesn't mean I'm drunk. For all you know I may be a white rabbit."

SMOKE REGULAR OR KING-SIZE CHESTERFIELD... AMERICA'S MOST POPULAR 2-WAY CIGARETTE

THE QUALITY YOU WANT THE LOW NICOTINE YOU WANT THE PROOF YOU OUGHT TO HAVE

No matter which size Chesterfield you buy you get the same premium quality cigarette, and all the flavor and mildness that goes with it! You get the world's best tobaccos, selected by Chesterfield buyers with the help of our research chemists... and proven, by actual tobacco tests, to be highest in quality.

Before we buy tobaccos for Chesterfield, our laboratories take samples from all over the tobacco country and analyze them for low nicotine content. The extra care pays off! In recent "tobacco tests," the six leading brands of cigarettes were chemically analyzed. The findings: of them all, Chesterfield is highest in quality — low in nicotine.

Enjoy the **TASTE** and **MILDNESS** you want
