An award honoring the memory of the late Mrs. William H. Pittman, former Moscow resident and 1931 graduate of the University of Idaho has been established by the Mortar Board Alumnae organization at the University of Missouri, it was learned here today.

The first "Elsie Pittman award" was presented to an initiate of Mortar Board at the University of Missouri this spring. Mrs. Pittman was a past president of the Missouri alumnae group, her husband being professor of law at the university.

Professor Pittman is also a former Moscow resident and a gradsity faculty from 1930 to 1935. | cream served.

Ambassador Is Military Ball Guest Speaker

"United Europe and the United States" is the topic to be presented by Dr. J. H. van Roijan, ambassador to the United and Arnold Air Society, will States from the Netherlands, at a public events assembly in the University Auditorium at 11 a.m. today.

Dr. van Roijan has served The Netherlands government in numerous positions since 1930. He was jailed three times for his resistance activities during the German occupation of The Netherlands in World War II before he was able to escape to London in 1944.

Since 1945, Dr. van Roijan has served as minister without portfolio in the Dutch cabinet, has been assistant delegate and regular delegate to the United Nations, and has served as the ambassador to Canada. He has been the ambassador to the United States since 1950.

Your picture belongs here, too. Because most of the \$1,156,757,000 Standard Oil Company of California took in last year ended up with you-the public. Whether one of the hundreds of millions of dollars worth of checks Standard wrote last year was sent to you, or spent with you, or helped make possible better gasoline and oil for your car, you and practically everyone else in the West benefited. Thousands of merchants and professional people in hundreds of towns profited from the pay checks Standard Oilers spent. Our tax payments helped finance schools for your children, parks for vacationers, and bridges for motorists. Carpenters, steelmen, lumberjacks benefited from the facilities we built and the maintenance work we did. It all fits together: 1953 was a good year for Standard because so many of you thought our products well made and worth buying.
