I loved Harry though she was far too expensive a girl for me. She liked to eat at fancy restaurants and dance at costly ballrooms and ride in high priced cars. But worst of all, she was mad for wishing wells. It was not unusual for her to drop coins into a wishing well for two or three hours on end. My coins. Bit by bit I sold off my belongings to pursue this insane courtship— first my books, then my clothes, until finally I was left with nothing to wear buta "suit." One night I came calling for her in this garment. "What is that?" she gasped, her lip curling in horror. "What is a 'suit." I mumbled, averting my eyes. "Well, I can't be seen around campus with you in that," said she. "Please, Harry," I begged. "It's all I've got." "I'm sorry," she said firmly and slammed the door. James Bowle of the Class of 1836 invented the Bowle knife, but do you know of the many other important contributions to cutlery that were made by classmates of Colonel Bowle's? Are you aware, for example, that Colonel Harry Clasp invented the Clasp knife? Or that Colonel Harry Jack invented the Jack knife? Or that Colonel Harry Putty invented the Putty knife? Or that Colonel Harry Cannon invented the towal?

Cannon invented the Putty knife? Or that Colonel Harry By a curious coincidence, every member of the graduating class at the U. S. Military Academy in 1836 was named Harry, save for Colonel James Bowie. This coincidence is believed unique in the history of American education, though, of course, quite common in Europe.)

But I digress. We were talking about men's campus fashions. Let us turn now to a persistent rumor that a garment called the "suit" is on the verge of making a comeback. Some of you older students may remember the "suit." It was an ensemble consisting of a jacket and trousers, both of which – this'll kill you – both of which were made out of the same material! The last "suit" ever seen on an American campus was in 1941 –

The last "suit" ever seen on an American campus was in 1941 — and I ought to know, because I was wearing it. Ah, 1941! Well do I remember that melancholy year. I was an undergraduate then and in love—hopelessly in love, caught in the riptide of a reckless romance with a beauteous statistics major named Harry Signfoos. (She is one of the two girls I have ever known named Harry. The other one is her sister.)

I slunk home and lit a Philip Morris and sat down to think. I always light a Philip Morris when I sit down to think, for their mild vintage tobacco is a great aid to cerebration. I always light Philip Morrises when I don't sit down to think too, because Philip Morris is my favorite cigarette, and I know it will be yours too once you try that crazy vintage tobacco. Well sir, smoking and thinking thus, my eye happened to fall on an ad in the campus newspaper. "WIN A COMPLETE WARD-ROBE" said the ad. "Touhy's Toggery, the campus's leading men's store, announces a contest to pick the best dressed man on campus. The winner of the contest will receive, absolutely free, a blue hound's vest, gray flannel trousers, argyle socks, and white buck shoes with My mouth watered at the thought of such a splendid wardrobe.

two inch crepe soles." My mouth watered at the thought of such a splendid wardrobe, but how could anybody possibly pick me as the best dressed man on campus—me in my "suit"? Suddenly an inspiration struck me. I seized pen in hand and wrote a letter to the editor of the campus

Army sarrage trace in the subscription. "I submit that a vote for me is a vote for reason, a vote for equity,

in short, a vote for the American way." With a flourish, I signed the letter and sont it off, somehow feeling certain that very soon I would be wearing a complete new wardrobe. And I was right – because two weeks later I was drafted.
