Last week we mentioned that some people were talking up a "has been organized by a group of students who feel that the prequeen at the Ag Club show April Card Players

One of these girls will regular the Ag Club show April Card Players quate student participation and representation."

Officially the group is now headed by Dean Holt of Lindley Hall and Bill Nixon of Sigma Chi, that is, they are the only ones that claim to be leaders of the movement.

Of course, this party will have a slate up for the April 20 elections mals is set for April 2 in order be among more than 4,000 men and along with a platform. Personally, we feel that it is a healthy move for campus politics having a third party. As for the student participation, etc. they mention, it tinges a bit on the order of a snow job.

The status quo of the campus with the Independent and United Caucuses is ideally set up for good representation and participation. The big throuble with them is that being a caucus member soon gets to be a dull job so the majority of caucus membership is made up either of people who don't have anything else to do or the "campus busybody type."

In this writer's estimation, if the Student's Party gets a solid platform and includes such issues as the skating rink, fraternity segregation and preferential voting, they might swing their way into a few ASUI government
