## CAMPUS QUICKENS PREPARATION FOR DAD

**The GOLDEN FLEECE**  
*by Jason*

Local campuses had better roll up their fur collars, it's going to be a long winter.

According to the U. S. Weather Bureau's long range forecast for the month of November, people living in the upper third of the United States are in for below normal seasonal temperatures and above normal amounts of precipitation, mostly in the form of snow.

In the Moscow area the mercury dipped to an even zero Saturday night, warmed up a bit Sunday afternoon and dropped to a low of 1 degree above early Monday. The Weather Bureau indicated that Palouse residents would get some relief from the record breaking cold Wednesday.

The Idaho campus has been glistening with new blankets of snow over the weekend. The fall since Friday is 5.5 inches, according to figures compiled at the weather station at the University of Idaho.

Great weather for the forthcoming Dad's Day celebration this weekend. It has been suggested to Frank Nosek, Dad's Day chairman, to change the theme of the festivities to "Winter Wonderland." Nosek had no comment.

The cold wave even had its effect on our friends from across the state line — the Washington State Cow College. They played San Jose State to a fumbling standstill last Saturday afternoon, 13 to 13.

Don't laugh—it could happen to us. With a few inches of snow on the ground, sub-zero weather and gloved hands, football games quickly turn into farces. Such will be the sad state of affairs at Idaho if the weather doesn't break.

Wait! All's not lost. We can fete Dad on a "winter sleigh-ride." That is if we can get past Nosek.

Thirty-three more shopping days until Christmas.

On to classes — mush King! Mush.

### Publicity Group Interviews Tonight

Interviews will be held tonight by the Student Events Committee for a chairman and two other members of the newly formed publicity committee, according to Fred Burrow, committee chairman.

The new committee will function as a body that various committee heads may contact with their publicity releases for major forms of communications. It will seek to coordinate all publicity and public information of the ASUI and attempt to relieve committee heads from contacting radio stations, Argonaut, Gale Mix and others. Campus publicity will continue to be handled by the separate committees involved.

Publicity for the SUB functions, dances, Dad's Day and other major organizations and events will be handled through this committee, Burrow said.

Students interested in being interviewed for the positions are invited to report to Conference Room C in the SUB at 7 p.m.

### Executive . . . Board

ASUI Committees  
NSA  
Drill Team

### NOTICE

Interviews for the Publicity Committee will be held in Conference Room C, SUB at 7 p.m. tonight. The Student Events Committee will conduct the interviews.

Arg staff pictures will be taken in the Arg office Thursday Nov. 17, at 3 p.m. All members of the Arg staff should be present.

### "Voice Of The Vandals" KUOI Holds 10th Anniversary

By Jason

At 7 a.m. this morning, the radio voice of the University of Idaho — KUOI, started a special day of broadcasting complete with chatter, records and a special two-hour live talent show featuring campus artists all in commemoration of their 10th anniversary.

Ten years ago today, a small group of students put the first Campus Radio Network program on the air from a make-shift studio in a corner of the Electrical Engineering lab in the Engineering Annex building, behind the Home Economics building.

The KUOI staff is throwing themselves a birthday party this afternoon between "spot announcements." The studios will be open to the public throughout the day for guided tours of their facilities.

From 7 to 11 p.m. an all campus talent show will broadcast from the studios atop the third floor of the Student Union Building.

Campus talent of all forms will highlight the program amid disc jockey chatter and a few pop records.

The "Voice of the Vandal" has gradually come into its own during the past ten years, serving 22 of the 33 campus living groups, said ASUI General Manager Gale Mix, KUOI's adviser. Their current facilities include a suite of five rooms, a UP teletype, a five-watt transmitter, a high fidelity tape recorder, a remote amplifier, a record turntable for 78, 45, and 33 1/2 speeds, and a new commercial "Gates" console.

According to Mix, long range plans call for expansion and erection of a new broadcasting studio with piano and necessary equipment for studio production which is estimated to cost between \$5000 and \$6000 for equipment and sound proofing.

But KUOI's future didn't always look so bright. If it hadn't been for the outstanding leadership of interested students and their determination to have a campus radio, KUOI would have fallen by the wayside.

The students' determination to have a radio station on the University of Idaho campus was realized in the fall of 1945. A group of electrical engineering majors borrowed equipment from the University, the NROTC and from private individuals. They set up shop in a corner of the Electrical Engineering lab in the Engineering Annex building, behind the Home Economics building.

For the next two years the Infant KUOI operated on an amateur basis in this location until 1947. That same year the "Voice of the Vandal," under the direction of Ted Cady, station manager, moved into an especially constructed studio on the third floor of the Engineering Annex.

The year, 1947, witnessed many other changes. Originally operating on a frequency of 650 kilocycles, its affiliation with the Intercolligate Broadcasting System. The IBS links over 100 college stations in the United States and Canada and provides information concerning engineering problems, programming procedures and a limited amount of national advertising.

The transmitter was also increased from two to five watts of power. The station started a regular schedule of programs, covering campus activities for 14 hours each day. That was also the year that KUOI made special "on the spot" broadcasts of concerts, assemblies and athletic contests for the first time.

Although the station was entirely self-supporting, it managed to build up a collection of records and obtained funds to operate by broadcasting music for living groups' dances. Another source of income was obtained from the rental of public address systems for campus dances.

Due to a regulation of the University and ASUI, KUOI is not permitted to solicit local advertising. The only advertising that the station can carry is the national commercials that come through the Intercolligate Broadcasting System.

These two sources of income soon proved inadequate to meet the costs of replacing worn out equipment and operational expenses. To insure continued operation of the radio station, the ASUI Executive Board in 1949 voted to sponsor KUOI on a temporary basis and appropriated emergency funds for replacing equipment.

Although KUOI continued to broadcast from high atop the Engineering Annex building, considerable time was spent in 1950 in

stalling the station's facilities in their new home on the third floor which was just being constructed. With KUOI moving into its new facilities, in the SUB, the ASUI decided to take it under its protecting wing and thus insured its future.

According to Gale Mix, about \$4000 of ASUI funds were spent in erecting and outfitting the new studio with equipment before KUOI moved in.

The biggest problem the "Voice of the Vandal" faced in 1949 and 50 was the limitation in coverage of the campus. In June of 1950 a radiation check by the Federal Communication Commission disclosed that KUOI was exceeding the rad-

(Continued on Page 2, Col. 3)

### Many Fellowship Opportunities For Grad Applications

New opportunities for fellowships in a number of fields including nuclear physics and foreign affairs were announced today by L. C. Cady, dean of the graduate school.

The Danforth Foundation offers a fellowship to graduate students wishing to prepare for college teaching. Persons in the natural, biological, and social sciences are encouraged to apply. Applications are due by February 15, 1956.

Fellowships are offered by the Ford Foundation for graduate training in foreign affairs to persons in such fields as economics, history, political science, sociology, anthropology, philosophy, and related fields, who have completed all the course requirements for their Ph.D. degrees. Applications must be in before December 15, 1955.

Two fellowships are available to girls. The Soroptimist Foundation of Los Angeles offers a fellowship for study in the field of her choice at an institution in the Los Angeles area. Deadline for this is February 1, 1956. The Soroptimist International Association offers \$1,000 to a girl for study at the doctoral level. This particular award comes from the Rocky Mountain Region and is open to girls from Idaho, Utah, Colorado, and Wyoming. Deadline is February 15, 1956.

The Oak Ridge Institute of Nuclear Studies offers fellowships to permit graduate students who have finished their course work in certain fields of science to complete their theses at Oak Ridge. No terminal date given.

Mr. Edmond Gnoza, Readers Services Division of the Library, has information regarding fellowships and other opportunities of interest to graduate students. Additional information can be furnished by the Graduate School office.

definition of a father ...

a man who works his son's way through college.

### Razors Unused, Men Become Unkissable

Gone are the razors for the rest of the week as campus males put on a last minute drive to grow a quarter of an inch of various sorts of Dad's Day beards.

Chairman Frank Nosek assured today that in spite of a forecast of near-zero weather the activities for Dads will go on as scheduled. On the schedule are rallies, the Idaho-Montana football game, Pop's Hop, open house at living groups, and registration of Dads.

Beard judging will take place Thursday evening in living groups. Registration is Friday from noon till 5 p.m. and Saturday, 9 a.m. to noon.

Awards have been designated this year for rally posters, house decorations and beard growing, Nosek said.

According to Dale Carlisle, yell leader, a rally is being planned for Friday night, to begin at approximately 6:30. Details of where to meet will be announced later in the week.

Registration chairman Janis Archibald said Dads will be registered in the Student Union building. Dads will receive tickets to the game for one-half price, but there will be no reduced prices for Dads' tickets sold at the game. The tickets must be purchased at the registration line.

Dance chairman Jackie Lavens and Dick Clausen announced today that dress for the Pop's Hop will be informal. Admission is \$1.50 per couple with dads admitted free. Cec Heick's Notables will provide the music.

Newcomers entertain. The co-chairmen said that intermission entertainment will include the Singing Sigs, and a pair of newcomers to the campus entertainment field, pantomime specialists Dick Newell and Kent Ahlschlager, Sigma Nu, frosh.

"Trophies are on display at the Washington Water Power Co., co-chairmen Tom Warner and Ann Popma said today. They announced that exemptions for beards will only be given to havers and varsity and freshman football players.

Beard judging will begin at noon Wednesday and will continue through Thursday evening. Finalists will be notified at the first judging, and will meet Thursday at 7:30 p.m. for Mortar Board to select the longest and most novel.

House decorations will be judged beginning at 8:30 Saturday morning and winners will be announced at halftime of the football game. Judging will be on the following basis: theme, 30 points; originality, 30 points; workmanship, 30 points, and overall effectiveness, 10 points. Open house will be held after the game until 6:30.

Ralph Lindberg, committee secretary, today announced the committee members which have been assisting in the weekend plans.

Members of the publicity committee include Claudette Kerns, chairman; Gini Ward, Dick Parsell, Mary Snow, Tom Edwards, John Bradbury, Kay Benedetti, Carroll Anderson, Don Allen, Art Pierson, Dave Esser, Katherine Pugh, Alice Billman, Joyce Sinnamonaki.

Others are Shirley Long, Valerie Kroll, Chuck Tovey, Perry Lee, Cherie Bacon, Roger Thleme, Idanne Schreiber, Shirley Danielson, Kay Humming, Bill Weiss, John Herrett, Ron Ehlers, Sally Ghiglieri, Marilyn Stewart, Jo Carol Bicket, Don Neville Smith, and John B. Hughes.

More Committees. Dance decorations have been under the supervision of Miss Lavens and Clausen. Members include Karen Kreizenbeck, Shirley Long, Lois Wilson, Skip Nelson, Karol Korinek, John Chapman, Jan Williams, Art Pierson, Don Allen, Art Miller and Nancy Coutre.

Assisting Miss Archibald with registration will be La Rae Sasser, Lavita Welsh and Coralee Kracaw. House decorations chairman Ann Reading is assisted by Mary Ann Meek and Bill Deal.

Letters of the Dad's Day schedule have been distributed to living groups for students to mail to fathers. The card includes a modernistic picture of Daddy with the Vandal banner and son in his sweater. The caption—"definition of a father ... a man who works his son's way through college."

### Lapp Raps Atom Secrecy Policy In Lecture Here

Dr. Ralph E. Lapp, director of the Nuclear Science Service, asserted that the government is doing an injustice to the American people by keeping secret so much atomic information, in a speech delivered in Memorial Gymnasium Friday.

A House of Representatives sub-committee is presently investigating a similar question. Those mentioned by Dr. Lapp. Some of the nation's top news specialists told Congress a week ago that information about government activities is being suppressed or "managed" to an extent that seriously impairs the public's right to know what is going on.

This was the opinion of a dozen editors, publishers, writers and others who gave informal testimony when the subcommittee open an inquiry into freedom of information.

Dr. Lapp also discussed the peace-time uses of atomic energy.

Can Help Weak Nations. "Countries like India, Italy and Switzerland who are retrogressive in power capabilities, and who need power so badly, should be the countries in which atomic power should be utilized and developed the most," he said.

In speaking of present day atomic survival, Dr. Lapp stated that mutual inspection of atomic devices would be the proper thing to do.

He also said that man has to conquer, and it must still be in his power to win a crowning victory through peaceful uses of atomic energy.

"I think that we should be encouraged. There is no solution to the problem of nuclear atoms. The atomic atom is no super cure. The war-time atom is the problem, and we must realize that civilization must survive, or we will regress in our civilization," he said.

### Kampus Key Out To Houses Thurs.

The University of Idaho's all-inclusive directory of who's where on campus, the Kampus Key, will be distributed to all living groups "probably Thursday," according to Ted Frostenson, president of Blue Key, the sponsoring organization.

Keys will sell for 50 cents to students and \$1 to local businessmen. All revenue derived from the project goes to the annual Blue Key spring talent show.

Collaborating on the 100-page publication this year are members of Blue Key, Mortar Board and the University Publications office, Frostenson said.

The directory lists names, addresses, telephone numbers, living groups, majors and years of graduation of all duly enrolled Idaho students. A special feature of the Key this year is a list of living group presidents, social chairmen and intramural managers.

### What It Means NSA Is Viewed By Grad Student, Charles Oldham

By Charles Oldham

ED—This is the first in a series of informative articles concerning the National Students Association written at the request of the Argonaut following the tentative decision of the ASUI Executive Board that Idaho maintain its affiliation with NSA. This decision is being referred to the House Presidents' Council and a final decision will be reached soon.

The author is a former member of Idaho's NSA Committee and was selected in national competition to attend in 1954 the second annual International Student Relations Seminar at Cambridge, Mass., sponsored by NSA. He also attended the national NSA Student Congress the same year. At the present time Oldham is a graduate student at the University.

ones to come, I shall attempt to explain why NSA has been a part of our student government and why the student leaders have felt, despite reservations concerning NSA, that Idaho should retain its affiliation.

The National Student Association is the post war successor of the National Students Federation and the first impetus for NSA's formation came in 1946 when a group of American college students realized that there was no voice to speak for college students. There were religious groups which spoke for some college students, there were political groups, there were professional groups but there was not an organization which was non-sectarian, non-political and which was run by college students in the interests of college students.

It was felt by these students that American students had interests which were of such a nature which made necessary the formation of such an organization. The National Students Association was the outgrowth of this belief.

The University of Idaho was privileged to be a part of the formation of this association and has

been a member since its inception in 1947. It was the belief of those who founded the association and has been since, that the American college student has a role to play nationally and internationally and that NSA helps to fulfill that role.

Outlined in its preamble, the belief that college students have an interest to "maintain academic freedom, stimulate and improve democratic student governments, develop better educational standards, improve student welfare, promote international understanding, guarantee to all people equal rights and possibilities for education and foster the recognition of the rights and responsibilities of students to the school, the community and God, and to preserve the interests and integrity of the government and the constitution of the United States of America." Implicit is the belief that the scope of interests of college students and their student governments is broader than either the campus or of a single region—that it in fact encompasses "life" as the student will face it following graduation.

It may be argued that this is not really the concern of the ASUI or of college students but circum-

## Here's More About— KUOI Holds

Station limits set up by the FCC even though campus coverage was not as desirable as it could have been. This violation prevented the station from returning to the air on a daily schedule until it was remedied. A request to the FCC for a five watt free radiation license to broadcast direct from the transmitter through an antenna over the campus like a regular station was turned down. The FCC ruled that no more such licenses would be issued to campus radio stations.

To alleviate the situation KUOI decided to broadcast through its own power lines and thus pipe its broadcasts directly into each living group.

"Wire was given to us by the Electrical Engineering department and strung through the University heat tunnels and on some poles by KUOI technicians," said Mix. "As fast as possible the whole campus will be covered, but KUOI still won't be able to serve the other one-third of the students who live off the campus," he added.

During the summer of 1951 when the construction of the Student Union Building was finished, KUOI completed the big move from the third floor of the Engineering Annex building to the third floor of the SUB. The once familiar phrase, "We are broadcasting from the third floor of the Engineering Annex building," was heard no longer.

Included in the five rooms is the control room from which all broadcasts originate. It is equipped with a new commercial console and record card files and office desks. KUOI currently has a collection of approximately 3000 records.

The production studio is equipped with a piano for use in broadcasting campus talent.

The year 1953 saw KUOI forging ahead. For the first time in the station's eight year history, a United Press teletype was installed. This machine was donated by a cigarette company in return for commercials. This brought the world's top news stories to the campus and is now used daily for news broadcasts by the radio station.

In addition to the teletype, KUOI installed a new five-watt transmitter and a news bulletin board where latest dispatches from the UP teletype were displayed and changed three times daily.

This year KUOI, under the direction of station manager Jerry Chandler, is broadcasting on a schedule of 10 hours each day from 12:30 p.m. to 10:30 p.m., Monday through Friday. The station also broadcasts on Saturday if there are special events to be covered.

This year KUOI was picked as one of 20 campus radio stations throughout the country to carry the program "Old Gold Time" starring Jill Corey. The program has been broadcast every week night from 10:45 to 11 p.m.

Working under Chandler this year is Steve Clements, production director; Bob Stalley, program director; Roger Groth, technical director; Sandi Fuller, record librarian, and Jim Foley, publicity manager.

KUOI's present staff includes 35

## Business Adm. Council To Have 48-Man Council

Forty-eight businessmen from throughout Idaho and Spokane, Wash., have been named to the board of advisors for the University of Idaho's college of business administration, it was announced today by Dean Donald J. Hart following approval of the board of regents.

Purpose of the organization is to promote a closer working relationship between the businessmen of Idaho and the staff and programs of the college of business administration in teaching, research and service activities. Advisors will counsel with representatives of the college on matters of curriculum, current business problems in Idaho, research and publications, institutes and community services.

**New Members**  
 Membership in the board is determined biennially by the board of regents upon recommendation by the college of business administration. New members for 1955-57 are:

Clyde E. Bunting and Ralph U. Spaulding, both of Boise; J. A. Gipsen, Sr., and C. H. McBride, both of Caldwell; W. D. Dunlap and E. W. Largilliere, both of Soda Springs; Harry Eaton and Jack Lesher, both of Twin Falls; John M. Barker, Buhl; R. O. Hatch, Burley; W. J. O'Bryant, Idaho Falls; David Evans, Malad.

Dr. Spencer W. Hess, Montpelier; L. F. Molinelli and Josiah Work, both of Pocatello; Wayne S. Evans, Preston; George W. Beardsmore, Lewiston; Burl C. Hagadone, Coeur d'Alene; Ira A. Robson, Kellogg; James Brown, Jr., Sandpoint, and Bert M. Boyd, Spokane.

**Hold Over Members**  
 Hold-over members of the board are John L. Aram, Thomas C. Frye, C. Max Newhouse and Leon Weeks, all of Boise; Homer Davies, Charles Graybill and James W. Kalbus, all of Nampa; Jack B. Ellsworth, E. F. McDermott and

announcers and an office staff of approximately 20 students.

## Idaho, Willamette Law Men Compete

College of law teams representing the University of Idaho and Willamette University will do verbal battle here Thursday, November 17, in moot court competition to determine a regional entry in the national tournament sponsored by the New York City Bar Association.

Representing the University of Idaho will be Charles McDewitt and Donald Daiker as one team, and William Taylor, and John Reese the other twosome. The opening competition will be held in the Federal District Courthouse at Moscow at 2 p.m., with the finals scheduled for 7 p.m.

The case to be argued involves monopolistic practices by a producer purchasing retail outlets—an alleged violation of the Sherman Anti-Trust and Clayton acts.

Serving as judges for the semifinals will be Eli Rapaich and John Bengtson, Lewiston attorneys, and F. L. Stodler, Colfax, Wash., attorney. Judging the moot court finals will be Maul Hyatt of Lewiston, retired justice of the Idaho Supreme Court; Russell Randall, Lewiston, president of the Idaho Bar Association, and William Dee, Grangeville attorney, who was formerly with the anti-trust division of the U.S. Department of Justice.

The national tournament will be held at New York City in December. Judges for this event will include justices of the U.S. Supreme Court.

persons with just that problem will meet for a general coverage of dramatics. Throughout the year the group plans to do short scenes, readings and one-acts.

## Speech Tourneys Keep Group Busy

Four University of Idaho debaters will have their work cut out for them in the next few days preparing for two major tournaments between now and Thanksgiving.

The four, along with twelve other Idaho debaters, will open the 1955-56 season in the Columbia Valley tournament at Washington State College November 18 and 19. Then they will leave for the coast to take part in the Western Speech Association tourney at Pacific Lutheran College November 21-23.

Entering both tournaments will be David Cripe, Melvin Madsen and Richard Day.

The WSC tournament is expected to draw 90 teams from northwest universities and colleges. National debate question this year is: "That the non-agricultural industries of the United States should guarantee their employees an annual wage."

Teams from western states will take part in the tourney at PLC. Idaho debaters will also compete in extemporaneous and impromptu speaking. Subject for the extemporaneous contest is the role of the federal government in our economic system, and the general topic for impromptu speakers is racial integration in public schools.

## Lecture Course Draws To Close

The final course of the series of adult lectures sponsored by the home economics department will be offered Thursday, November 17, at 7:30 p.m. in H. Ec. 103.

Topic for the final lesson will be "Understanding Your Young Child."

All parents of young children are welcome whether or not they have attended previous meetings.

## Let's Stop That Slow Burn

The fire truck sirens were wailing on campus again Sunday night. And why? Just because someone was foolishly careless. Someone flipped a lighted cigarette into a hole in a phone booth wall on Willis Sweet's third floor. Pretty sensible, mature action isn't it?

This is not the only instance of childish carelessness which has occurred on campus. Last year we remember a drive to help some young ladies who lost many of their belongings in a Hays Hall fire. Also we had an ATO named Ray Fife quite badly burned. Two years ago we recall an accident at the Pi Phi house in which Nancy Benfer was hurt.

Some of these were accidents. But they could have been prevented by a little careful planning. Some degree of caution is needed when we play with fire. Certainly this sounds a bit childish to repeat. However, when theoretically mature college students insist on acting like careless kids the only way they can be treated is like kids.

Perhaps, though, a good high school session on fire prevention would be a good idea. The horrible statistics on losses due to fire don't have to be reprinted here. The cold facts probably wouldn't be read anyway. A suggestion may be to talk to someone who has been affected by a fire. Then you can get the hot facts in language worth remembering. At any rate it seems evident something must be done to force us to realize that fire is a dangerous thing and it can and does hurt people.

Here is another challenge: Get the house or hall together and have a good session on elementary fire prevention. Then be careful yourselves. Let's see if we can't at least finish this year without another fire on campus. All it takes is a little care and planning.

## Friday Rally Offers Trophy

The big kick-off for the Dad's Day celebration this year will be a Friday night pep rally. Beginning at 6:45 p.m., a parade will wind around the campus and end up at (tentatively) either the SUB or the gymnasium, according to Dale Carlisle, head cheerleader. If the current cold spell is still in progress, the rally will be held inside; if the weather has warmed up, it will be held outside, he continued.

## Poster-Banner Contest

The big event of each Dad's Day rally is the poster-banner contest which will again be a feature this year. A trophy will be awarded to the living group whose banner is judged the best by a panel of off-campus judges. It is also hoped

that a dad will be a speaker along with the coaches. A skit will fill out the program.

"This will be the last rally of the year and if it follows the pattern of previous Dad's Days, it will be one of the best, so all plan to attend the celebration and kick it off with a bang," Carlisle concluded.

### NEWCOMERS MEET

The Newcomers club will have their November meeting on Tuesday, November 15, at 7:45 p.m. at the faculty club. Mrs. Helen Hodges will highlight the evening by giving a book review.

Co-chairman for the evening will be Mrs. James Defenbach and Mrs. Harold Powers. All newcomer faculty members are urged to attend.

# ATOs Celebrate, Pi Phi Has Harps

French's winter dance is to be "The Night Before Christmas." Last Saturday night the Pi Phis danced in a "Pi Phi Heaven" with harps, clouds and angels. ATO's pledges, that is—ignored study hours to celebrate the victory Thursday, of Jim.

**CHRISMAN HALL**  
Last Friday evening about twenty couples enjoyed Chrisman's first fireside of the winter season. The correct atmosphere was provided by "Willy, the Bulbsnatcher" until someone pulled the usual faux pas by striking a match.

Sunday evening an unscheduled second fireside was held with coffee and cookies served as refreshments.

We're all looking forward to a coming exchange with French House which came about over an election bet, but unfortunately no one seems to know who actually won.

**KAPPA ALPHA THETA**  
Many Thetas left Saturday or Sunday and slid to Spokane for a wedding—Mary Jane Phillips became Mrs. Larry Church at 2:30 p.m., Sunday.

Those that remained came to dinner Sunday with escorts, stuffed animals of all sizes and kinds. No, hashers, the gals aren't crazy, yet. Theta pledges enjoyed a Wednesday exchange with the Fijis.

Ann Copithorne, Tri-Delt, was entertained as a dinner guest. Thanks to the Delta Sig pledges for the guitar accompanied serenade—most delightful.

**SIGMA CHI**  
Sig pledges were entertained by the Tri-Delts at a Wednesday gath'ing.

Since Gerry Leigh was a weekend guest, Pi Phis, after a toboggan party, were entertained by the Singin' Sigs. Refreshments and dancing also were found at the Sig house after the slide.

Carol Swanson, WSC Sweetheart; Mrs. Magnuson, housemother; Marilyn Stewart, Gamma Eta Sweetheart; and Bill Whitman and family were Sunday guests.

**FRENCH HOUSE**  
Dad's Day is well underway with Jan Barker and Sue Dunn serving as co-chairman. Marilyn Barette, painting; Charlene Wells, work; Sally Jewett, entertainment and Marvel Gresser handling refreshments.

## Grad Gets Boost In 'Fighting 69th'

Colonel Kenneth C. Robertson, a 1937 graduate of the University of Idaho, has been appointed Assistant Chief of Staff, G-3, for the "Fighting 69th" Infantry division and Fort Dix, N. J., it was learned here today.

In his new assignment he will coordinate the training program conducted at Fort Dix where most soldiers from Northeast America begin their military service.

A graduate of Boise High School, Col. Robertson attended Boise Junior College before transferring to the University. During World War II he served in the Pacific theater with the 25th division at Guadalcanal, New Georgia and Luzon. Among his awards are the Bronze Star Medal with two oak leaf clusters, the Air Medal and the Combat Infantry badge.

**DELTA DELTA DELTA**  
Dinner guests the past week have been Jan Novak, Doris Wayland, Margo Rooney, Diane Ahlor and Carol Beck.

A rip-roaring time was had by all at the Sigma Chi pledge exchange.

New house officers recently elected were: Pat Morgan, recording secretary; Sue Brabb, marshal and Shirley Gooding, publicity chairman.

Many girls traveled south for the wedding of Sharon Cromwell and Jim Carpenter, which was Sunday. The couple is making a home in Squaw Valley.

Thursday evening we are celebrating Founder's Day with the Tri Deltas at WSC.

**UPHAM HALL**  
About 30 frosh enjoyed a dance exchange with French Hall.

With dancing at Upham after dinner, the group will have an exchange with Forney Hall.

**ETHEL STEEL NEWS**  
Bonnie Lloyd, Eula Gray, Jan Crisp, and Dena Hansen returned Sunday from the field hockey team's encounter in Canada. They report it cold—but Moscow has more snow!

The fire department held a time-fire drill last Tuesday night. A sernade of Home on the Range and other similar favorites was directed on Forney, and the Charleston proved quite popular to shivering duos.

The freshmen girls enjoyed an exchange with the Kappa Sigs, Wednesday.

Weekend guests were: Patty Webb, of Nampa and Sut Crisp, Spokane.

## K Phis Will Hold Banquet At Church

Kappa Phis are having a Thanksgiving Banquet among the usual church group activities.

**KAPPA PHI**  
A Thanksgiving Banquet is to be tonight at 8 p.m. at the Methodist Church. Banquet tickets are 50 cents.

**NEWMAN CLUB**  
In Conference Room A of the SUB this evening Father Schmidt will conduct a "dry" mass after a discussion about the Northwest Province Convention.

**LUTHERAN STUDENT ASSN.**  
Bible Study will be held tonight at the CCC, 7 p.m.

Council meeting follows at 8 p.m.

**WESLEY FOUNDATION**  
"What I Don't Like about the Opposite Sex," is to be the topic discussed at Wesley Coffee Hour.

Membership seminar will meet Thursday at 4 p.m. Rev. Seaman acquaints students with Methodist beliefs at this time.

Choir practice is at 6:45 p.m., Thursday.

**WESTMINSTER FORUM**  
Coffee Hour is from 4 to 5 p.m. Westminster is going to join the 75th anniversary party in the basement of the church after dinner at 5 p.m., Sunday.

Executive board meeting will be this evening at 9 p.m. at the CCC.

**VET COUNCIL MEETS**  
The Vandal Veterans' Organization executive council will meet tonight at 7 in the Pine Room in the SUB. Issues to be discussed include the membership campaign, plans for the next meeting and the arrangements for an address to the VVO by Leslie McCarthy, State Commander of the American Legion.

His wife lay on her deathbed. She pleaded, "Jerry, I want you to promise me that you'll ride in the same car with my mother at the funeral."

He sighed, "Okay, but it's going to ruin my whole day."

## Oslo School Has Summer Sessions For U.S. Students

Announcement was made this week by the University of Oslo Summer School of the Tenth Jubilee summer session to be held June 23 to August 4, 1956, in Oslo, Norway.

Course offerings include: The humanities and social studies, education system of Norway, graduate seminars in Norwegian education, literature and social and political problems. A new course on international relations (from the Norwegian viewpoint) will be taught. Featured for the second summer will be two courses in physical education in Scandinavia, with special emphasis on Norway.

Classes will be conducted in English and an American member is on the administrative staff. The University provides outstanding lecturers and maintains highest educational standards.

Six semester-hour credits may be earned in the six weeks course and the session is approved by the U.S. Veterans Administration for veterans under P.L. 346 and P.L. 530. Applicants should have completed

## Senior Placement Interview Planned

The Placement Bureau has announced interviews for interested seniors. On November 15 the Bureau of Public Roads will have representatives at the Engineering Building to interview civil engineers.

The government agency will have representatives at the placement office on the 15th and 16th to speak to people interested in confidential work for the government. Also on the 16th, Price Waterhouse representatives will be at the placement office to interview accountants.

On November 30 engineers can be interviewed by representatives of Radio Corporation of America in the Engineering building. Also on the 30th, representatives from Monsanto Chemical Company will be at the placement office.

their freshman year not later than June, 1956.

For catalogue of courses, preliminary application material, or any further information, write: Oslo Summer School Admissions Office, in care of St. Olaf College, Northfield, Minnesota.

# FIRE-UP VANDALS SWEEP TO FIRST WIN

## Idaho Jump To 35 Point Lead At Half-Time As Stahley Empties Bench

Seven defeats later the Vandals made everything click Friday to stun Brigham Young University 49-6 in Provo, Utah. For Idaho it was the first win of the season, a sparkling manner in which to do it.

The Vandal line ripped savage holes in the Cougar line to lead Idaho back to a total yardage of 450, and rushed the BYU passers that three of their passes were intercepted, and others were hurried too much for completion. One of the interceptions, by Cal Hilgenberg, was returned for a touchdown, the other set up the second for Idaho.

Coach Skip Stahley, a firm believer that the game is won in the early stages, found the Vandals inspired to the point of a 21-0 first quarter lead.

**Favored BYU**  
Utah newspapers either favored BYU or called it a tie. A national predictor said Idaho was the favorite. Few fans expected the tremendous outburst on the part of the Vandal offense, the first real threat in that department this season.

Wilbur Gary, Ron Braden, and Cal Hilgenberg played well in the backfield, and Dick Foster at right tackle and Jerry Kramer at right guard, were outstanding in the line.

Coach Stahley said following the game "that this victory was a team effort. This will make a great difference in our football pictures."

The Vandal offense worked like a charm all the way, with only a pair of attempted passes in a row failing to gain good yardage. Every signal call appeared to go for yardage. Mel Schmidt, Lloyd Fenton and Warren Hawley all added to their yardage figures.

**BYU Threat**  
Phil Oylar, a 173 pound halfback, was the BYU threat on offense, with other backs pretty well bottled by a hard charging Vandal defense. Lack of contact work in previous practices was evident as the Idaho team didn't start their real work on defense until into the second half when BYU marched to the Vandal eight yard line after the kickoff, but lost the ball on downs.

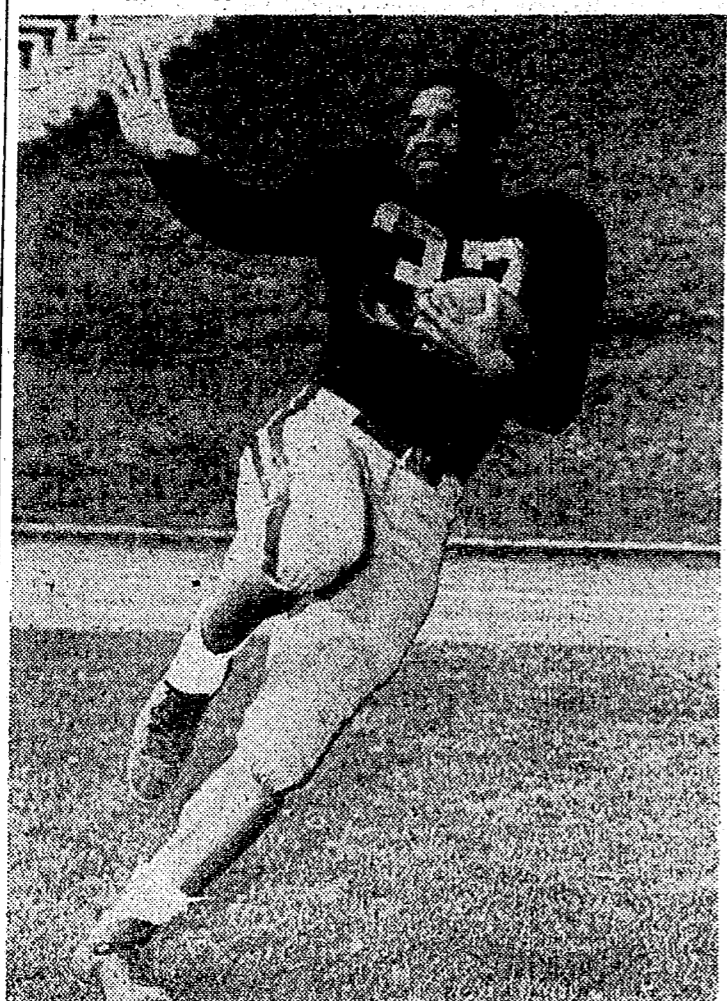

Coach Stahley emptied the bench except for the injured halfback Larry Norby, and found his third team giving up the lone BYU score, an end zone pass with 11 seconds to go in the game. A holding penalty put the Cougars on the doorstep and two plays later the pass play worked.

The Idaho pass attack clicked for touchdowns for the first time this season. Nick Uglesich and Gary Johnson at quarterback hit Pete Gerpheide both times. Ron Braden, Howie Willis and Bill Baxter scored on line plunges, Wilbur Gary ran off tackle 89 yards for a score and Hilgenberg went 65 yards on an intercepted pass all the way. Jerry Kramer converted five for five to give him a total on the season of 11 for 11.

**Heads Up**  
Willis' heads up play on one conversion attempt gave the Vandals a perfect day. When the pass from center was low, he picked the ball up and dove for the goal line, bouncing off two tacklers and driving into the end zone.

Gary chewed up more yardage in this game to break a Pacific Coast Conference record for rushing in a single game carrying the ball 5 times for a total yardage of 144 and 38.0 yards per carry. The old record was 26.7 per carry. The BYU game was Gary's best performance this season, as he has had only mediocre luck in previous action.

### Breaks Own Record

After playing a rather listless seven games Wilbur Gary, speedy Vandal fullback, finally broke loose Friday flashing some of the form that was expected of him at the start of the season. Gary broke his own PCC yards per play record against BYU, carrying the ball 5 times for 144 yards, an average of 38 yards per carry. Gary set his previous record of 26.7 yards per carry against North Dakota, here last Dad's Day.

## Shakey Beforehand, Team Pulls Through

(Ed. Note: Mr. Hughes, former sports editor of the Argonaut, travelled to Provo with the team and expresses his opinions of the trip thusly.)

By John B. Hughes  
The day's events were going shakily and nerves were at near end Thursday night when the Vandals finally pulled into Provo's Hotel Roberts, but head coach and "team housemother" Skip Stahley, wasn't to be denied.

Olaf Anderson and captain Marsh Jones, both had rooms with five foot, roll away beds, to rest their big hulks in, and room assignments were balled up a bit in the cramped quarters.

"This reminds me of a Chinese Fire Drill," the Skipper commented, as he hustled the last player to his room for sack time. "All we have to figure out now is who to give the medal to for being the most mixed up."

**Quite An Experience**  
A trip with the Vandal football team, coaches, and athletic personnel, is quite an experience. At least it shines the light on the difficulties a visiting team has in getting situated, to and fro, and then manage to play a football game on the side.

We were considering whether the main objective of the trip was to play ball, cement public relations or just what? Neither, apparently, looking at four steak dinners, and a roast beef snack on the return plane ride. Man, how those athletes store away the grub.

**Travels Slowed**  
Our travels were slowed and stuttered Thursday morning in Lewiston after arriving at 9:30 by bus. The chartered DC-4 dropped in with a flat tire, and there were no facilities at the Lewiston airport for repair. A plane, DC-6, was called from San Francisco. The second plane took off at 5:45 p.m. In the meantime, restless players waited about the terminal, playing the pin ball machines, believe it or not, but some had studies to catch up on, and others just waited.

The plane tossing and rolling a little more than when firmly planted on terra.

The plane had tailwinds and made the trip to Salt Lake City in an hour and 45 minutes. The bus ride to Provo took as long, over 45 or 50 miles. En route by wheels the coaches planned a loosening up workout at all costs before retiring. It didn't work out when the busses pulled into Provo at 10:30.

Coach Stahley veered from the itinerary slightly and sent the charges to bed.

**Not Loose**  
Morning came soon for the 37 men who hadn't loosened from the long wait and then plane ride, then bus trip, nor had any too much sleep. At ten the squad walked two blocks to a cafe for a steak breakfast. Their orders were taken systematically the night before as each checked into their room.

Trainer Packey Boyle had a schedule tacked up on the door of his improvised training room, and began taping weak ankles and knees following the meal.

Last minute preparations were made at a chalk talk before the squad left for Cougar Stadium. The team filed from the bus to dressing room and readied for the tussle. Incidentally things went pretty good for Idaho, to the tune of 49-6.

**Chins Up**  
The Vandals picked their chins from their chests this weekend after losing seven earlier games.

Line coach Earl Klapstein summed up the victory smiles later at a restaurant in the winner's circle with the comment, "a lot can happen in a week." The news also came that the frosh team had won their ball game.

The plane trip home was a cheerful one. Pranksters roamed the aisle of the plane patting one another on the back for a good day's work. Coaches got off a few side remarks, joking with team and selves over a big football victory.

**Field Hockey Team Return From Meet**  
The Idaho WRA field hockey team returned Sunday after a four-day trip to the Northwest Regional Hockey Conference at Vancouver, B. C. Eleven colleges from Idaho, Oregon, Washington and Canada were represented. Each team played three games.

### Anyone For Snowballs

With several inches of snow covering the field, many plays like the one shown above resulted, in Friday afternoons' clash between the frosh of Idaho and the yearlings of WSC. Steve Hinckley, (68) 6' end for the Vandal Babes is shown going after a loose ball in the second half of the game. Big Jim Prestel (40) 6'5" tackle is also closing in on the elusive pigskin. WSC players appearing in the picture are guard, John McPhee (62), closest to the ball, end Phil Mast (82), Alan Williamson (66), 6'3" 195 lb. guard and Ron Hare (33), a halfback.

## CHALK TALK

with Don Neville Smith  
"It was a great team victory, all the way," commented coach Skip Stahley happily after his Idaho Vandals had romped to their first win of the year.

The win will really boost the Vandals' morale for their coming clash with Montana Saturday. However, in this type of weather anything can happen, as witnessed at Pullman last weekend when WSC lucked out a 13-13 tie with San Jose State.

Wilbur Gary broke loose Friday for the first time in ages, breaking his own conference rushing record. Incidentally, speaking of Mr. Gary, the Negro speedster performed in a pretty fair backfield at West Contra Costa Junior college, Richmond, California, two years ago.

**Backfield**  
Picture if you will a backfield containing these stars: Doug Peters, UCLA senior, who so capably filled the shoes of Bob Davenport, the Bruins' All America fullback candidate when Mr. D. was on the injured list.

Sam Brown, UCLA senior, ace tailback for Red Sanders Bruins, who is more than filling the shoes of Ronnie Knox, much-heralded UCLA tailback.

Credell (Incredible) Green, Washington junior, who earned a starting backfield assignment for UW after only spring practice experience at Seattle; and Wil.

**Giant Scare**  
Speaking again of the Washington Huskies, the boys from Seattle threw more than a giant size scare into the undaunted record of UCLA Saturday losing only on a last minute (19 seconds to be exact), field goal off the talented toe of Jim Decker.

The armchair quarterbacks were given plenty of fuel for their fires when with 2 minutes and 51 seconds remaining in the game and UW leading the Bruins 17 to 14, Steve Roake, Husky quarterback intentionally let himself be tackled in the end zone, giving UCLA two points.

The Huskies had the ball inside their own five yard line, 4th down and more than 20 yards to go when Johnny Cherberg, Husky coach came up with his brilliant decision, hoping that with his team kicking off from their own 20 instead of punting from deep in their end zone they would be able to contain the Bruins for the remaining minutes.

**Backfired**  
However, the strategy backfired and the Bruins drove to the Washington 19 to set up the winning field goal situation.

The Bruins are now cinches to go to the Rose Bowl as they have only one remaining conference game, that, their traditional battle with USC in the LA Coliseum this coming Saturday.

UCLA can now sit back and relax (if you call tangling with Southern Cal relaxing) and wait for the winner of the Big Ten to emerge ready for the Rose Bowl battle.

**Homecoming**  
The Homecoming clash at Ann and were entertained by the University of British Columbia at a banquet and dance. Idaho lost to Victoria College, Victoria, B.C., and College of Idaho but managed a tie with Linfield College, Portland, Oregon.

## Babes End Season With Revenge Win Over WSC

By Tom Harvey  
A hard-hitting Vandal Frosh grid squad rounded out their season Friday afternoon with a 12 to 6 victory over the WSC Couababes. Although the Vandal Babes went into the contest as the underdogs, they showed a much better offensive game than their opponents.

The many fumbles, caused by a snow covered field and bone jarring defensive plan on the part of both team, were contributing factors to all three touchdowns scored that afternoon. All told there were 17 fumbles during the contest, with WSC bobbling 11 times and losing possession 9 times, and Idaho losing 2 of its 6 fumbles to the other squad.

**Recovered Fumble**  
Early in the first period, after having recovered an Idaho fumble, WSC fumbled on the next play giving the ball back to Idaho.

Idaho put speedy John Misetich to good use soon after, sending him off tackle for six yards and a touchdown. WSC scored their second period touchdown after Idaho fullback Ken Hall bobbled on his own 22. Fleet Couababe halfback Armando Alvarado picked up 17 yards for a T.D. after one play had pushed the ball over the 20 yard marker.

It was a see-saw battle throughout the third period, with Idaho seemingly having possession most of the time. Idaho twice came within scoring distance only to miss two field goals attempted by Hall.

**Another Fumble**  
Another WSC fumble gave Idaho possession of the ball on the Couababe 25 yard stripe and six plays later Misetich went off tackle again for 14 and the final tally of the ball game. Misetich romped over the Couababes, gaining 85 yards in 19 carries to lead all ball handlers for the afternoon.

This last victory marked the first time in five years that the Vandal Frosh have won their annual "Little Battle of the Palouse" with our neighbors from the cow college to the west.

THE YARDSTICK			
IDAHO		WSC	
First downs	6	4	4
Yards gain rush	188	75	75
Yards lost rush	38	31	31

FOR RESULTS TRY A WANT AD

## Phi's Cop Swim Meet

Sparked by a win in the 150 yard medley relay and Kim Larson's first in the 50 yard breast stroke Phi Delta Theta stroked their way to a first place in the intramural swimming meet completed, last night at the MG pool.

Larson also had a second in the 50 yard backstroke Jim Lund picked up a second in the 100 yard free style and third in the 50 yard free style, Jim Chrisman placed second in the diving and their 200 yard free style relay team came in second to account for the Phi Delt's 117 total points in the meet.

**Major Sport**  
Swimming is a major sport and the win will give the Phi Delt's 200 points in the overall total point race. Lindley Hall came in second in the meet with 66 points and Delta Tau Delta, Gault Hall and Sigma Nu tied for third place honors with 53 points apiece.

What young people are doing at General Electric

## Young engineer decides what colors are best for G-E reflector lamps

Which color of light makes people look natural? Should a blue light be used more often than a red? What kind of effect does a violet light have on merchandise?

In recent years, color lighting has become so important in stores, restaurants, theaters, and displays that General Electric developed a line of new easy-to-use color-reflector lamps for this market.

The man responsible for deciding which colors are most effective for users of these lamps is 29-year-old Charles N. Clark, Application Engineering Color Specialist for General Electric's large lamp department.

**Clark's Work Is Interesting, Important**  
In a recent series of tests, Clark made a critical appraisal of literally hundreds of color-filter materials to find the ones that produced maximum results but were still suitable to high-production techniques, practical stocking and simplified selling. This experimental work also had to take into account all the information on human perception of color.

**25,000 College Graduates at General Electric**  
When Clark came to General Electric in 1949, he already knew the work he wanted to do. Like each of the 25,000 college-graduate employees, he was given his chance to grow and realize his full potential. For General Electric has long believed this: When fresh, young minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

CHARLES N. CLARK joined G.E. in 1949 after receiving his B.S. and M.S. (in E.E.) from the University of Wisconsin. He served two years with the Navy during World War II.

Progress Is Our Most Important Product
