

Group Places Frats On Year Probation

Two University of Idaho fraternities, Sigma Nu and Kappa Sigma, have been placed on social probation for the remainder of the school year for violating at parties the university's no-liquor rule, university officials announced today.

The probation was made official when President D. R. Theophilus approved the recommendation of the Men's Discipline committee, which in turn backed up the recommendation of the Interfraternity Council Judicial Tribunal.

"The Interfraternity Council

has an opportunity to do its own policing, and the manner in which the council carried out its responsibilities in the no-liquor violations is to be commended," said Professor Edward C. Moore, chairman of the Men's Discipline committee.

Under its regulations, the University of Idaho does not permit the use, possession or serving of beer, wine, and other alcoholic beverages on the campus or in any university building, or in any fraternity, sorority or other offi-

cially recognized student living group.

The regulations also state that alcoholic beverages shall not be used or served at any functions sponsored off the campus as well as on by any officially recognized living group or any other student organization.

Violations occurred at a Sigma Nu dance off the campus December 13 and at a Kappa Sigma dance both on and off the campus December 7.

IFC Hearing

On December 17, the Interfraternity Council Judicial Tribunal held a hearing, at which representatives of the two fraternities were present. As a result of the hearing, the tribunal made the recommendation for the social probation penalty, which was then concurred in by the Men's Discipline committee and approved by the president.

Activities prohibited under university regulations for probation are all social affairs such as dances (on or off campus), exchanges, firesides, cruises, picnics, or any function involving women guests (not including parents of any member).

Fateful Whitebird Corner Scene Of Two Accidents

Four cracked ribs and upwards of \$1,200 damage to three student automobiles was the toll exacted by one icy corner on the Whitebird hill, Sunday, according to students' reports.

Anton Smutny, Chrisman Hall, was the first victim when he lost control of his car on the fateful

corner about 2:30 p.m. His car was not damaged however and none of the occupants, suffered injuries.

Before the Smutny car could be freed from the side of the road, however, an auto driven by John Ensunsa, Sigma Chi, rounded the corner and crashed into the back of the first car.

The occupants of both cars were unhurt but the Smutny car suffered \$200 damage, he said, and Ensunsa assessed his loss at between \$400 and \$450.

Truck Hit

About an hour and a half later, at 4 p.m., a car driven by Roger Jones, SAE, rounded the same corner and crashed into a state truck. Lee Scott, SAE, owner of the car was treated at the hospital in Grangeville for cracked ribs.

The Scott car received about \$625 damages, according to the owner, and about \$500 damage was inflicted on the state truck.

Scott was released to the infirmary following treatment.

Icy Roads

Icy roads were blamed when a car carrying five University students rolled over on its top about 10 miles from McCall, at noon Sunday.

No one was injured, Jim Holmes, Lindley Hall, driver of the auto, reported.

Damages were estimated at \$125.

Old man 1957 walked out a week ago and left a few unsolved problems and possibly troublesome situations that may continue to haunt University administrators.

A number of developments during 1957 may grow into thorns that could be trouble for the University and its students.

First, a crackdown on drinking may have a resounding effect in numerous places. The probation given two fraternities is an indication that the predicted strengthening of social regulations may result in much closer supervision of functions, and that all living group parties will be checked quite closely for a time.

Also this tightening of restrictions could be pointing already toward the all-important meeting of the legislature just a year away. Reports of excessive drinking and parties at the University of Idaho certainly will not encourage legislators to allot more money to the budget for the institution, and these reports could easily have a highly adverse effect.

Our guess is that this may be one of the more important motivating factors in the action taken by the disciplinary council.

The point is that the University needs every benefit inconsideration of a budget, and deserves all the monetary help it can possibly get. The problem is for the administration and STUDENTS to impress that upon the legislature.

Exec Board Too

Various problems left over from 1957 also face the ASUI Exec Board and student government. This Board took the step of making NSA a part of the ASUI structure and now have to make it prove whether or not it is worth while to the entire student body.

Also the Exec Board and the administration are faced with the seemingly ever-present parking problem. It wasn't only in 1957, but years before that students were having difficulty finding a place to park the heap.

Our guess is that in 1958 officials will finally begin to take steps toward alleviating the problem by assessing students with cars some type of fee.

PCC?

Athletically the University also has problems. Idaho, well on its way to building stronger athletic squads, was slowed by the trouble within the PCC.

As evidenced, for example, by the superb showing of Vandals Wayne Walker and Jerry Kramer in the East-West game and many other happenings throughout the year, Idaho is gaining greatly in athletic strength.

The question is will continued emphasis be put on athletics, and if it is where will Idaho turn for competition if the PCC folds?

So 1958 presents problems. Our hope is that they may not be as great as they seem now, but if they are student interest and cooperation will be a big help in all of the situations.

Koed Kapers Features "Ivy League" Theme

Ivy League will be the theme of the Turnabout dance sponsored by the Associated Women's Students Friday evening from 9 to 12 p.m. in the SUB ballroom, Molly Godbold, Hays, president of AWS, announced today.

In addition to asking the men, the Idaho coeds will pick their dates, up, open doors, purchase the ticket, arrange transportation, and take the men, who have to be in by 12:47, back to their living groups.

Friday night will be a closed eye on campus.

Some of the women are planning to make their dates corsages and buy them coffee after the dance, Miss Godbold said.

Tickets may be purchased from woman's living group AWS representatives or in the ASUI office for \$1 per couple.

Gary Dosssett and his 13 piece band will play for the dance. Dress will be casual.

Decorations will consist of pen-nants, hats, and buckles, according to Nancy Campbell, Gamma Phi.

Committee Heads

Marge Erstad, Delta Gamma, is general chairman of the Turnabout dance. Dawn Keck, Pi Phi, is in charge of the programs.

Miss Keck and Irene Scott, Delta Gamma, are on the band committee. Ida Miranda, Alpha Phi; Marilyn Merrick, Alpha Chi, and Miss Campbell are in charge of decorations.

Sherry Walsh, Hays, is intermission chairman and Rosie Maule, Kappa, and Annette Manser, Theta, are heading publicity.

The purpose of the dance is for the AWS to buy a silver tea service for the use of women's clubs and faculty teas to be presented to the SUB.

Nobel Winner Heads Coming Public Events

A Nobel prize winner will keep in step with the world focus on space at a public events assembly on the topic of meteorites at 11 a.m. Thursday, January 16, in the Memorial gymnasium.

He is Dr. Harold C. Urey, of the Institute for Nuclear Studies at the University of Chicago. Dr. Urey won the Nobel prize in chemistry in 1934.

Recipient of 13 honorary degrees from both English and American universities, Dr. Urey will speak on "Recent Evidence in Regard to the Origin of Meteorites."

A 1917 graduate of the University of Montana, he received his doctorate from the University of California. Dr. Urey worked as a research chemist before becoming a chemistry instructor at the University of Montana. He taught at Johns Hopkins university and Columbia university before coming to the Institute for Nuclear Studies. Last year he was a George Eastman visiting professor at the University of Oxford in England.

During World War II, Dr. Urey was director of war research laboratories at Columbia university. A former editor of the Journal of Chemical Physics, he has written two books and had numerous articles in scientific journals.

Automatic Pin Setters Placed In SUB Soon

Work on the SUB's new automatic pin setters will begin on Jan. 21 and should be finished within four or five days, Gale Mix, ASUI general manager, said today.

Mechanics from the Brunswick Co. will arrive Jan. 15, to ready the equipment for installation.

Work has already started on the air conditioning of the game room. The alleys will be run through Jan. 19 and will be closed from Jan. 20 to 25. This will include the two-day shakedown period necessary to test the new mechanism, after which a grand opening is scheduled for Feb. 2.

The parts for the pin setters will be shipped from New York in sealed trailers and are to be installed by factory experts.

The approximate cost of the pin setters is \$66,000. Mix said they would be paid for in about four years through proceeds taken in.

The prices charged the students and gym classes will be the same, but others will be charged 40 cents a line.

Five Debate Teams To Defend Trophy

Idaho will defend the trophy it now holds when it meets 19 other schools in the 20th annual Inland Empire Debate Tournament to be held here Jan. 17 and 18, Dr. A. E. Whitehead, chairman of speech, announced today.

Between 40 and 50 teams, representing four states, will debate the question, Resolved: that compulsory membership in a labor organization as a requirement of employment should be illegal.

Deans Tell Procedure Of Pre-registration

Pre-registration procedures for second semester enrollment were announced today by Deans of the University's nine colleges.

Each college has set up separate procedures for students to fill out official registration forms with faculty advisors and to receive the dean's signature before registration days, Feb. 3 and 4.

Pre-registration has been established to coincide with the new procedures adopted by the University last November. The new plan requires students to enter the Gymnasium for filling out class cards and paying fees by alphabetical order.

Students with last names starting with "A" will start going through the Gym at 9 a.m. Monday.

These students will have the registration forms filled out complete with the Dean's signature before entering the Gym.

Students missing the proper alphabetical group will be required to register late and pay the late registration fees.

L. and S. Underclassmen

T. A. Sherman, chairman of the College of Letters and Science registration committee, announced a procedure for pre-registration for freshman and sophomore students not majoring in Pre-Dental, Pre-Medical, Bachelor of Architecture, Music and Home Economics curricula.

Students in these schools are to report directly to the chairman or head of the department to receive

the registration forms and work out schedules.

"If you have seen your advisor and filled out the sample registration card, get your registration blanks at the Letters and Science office," Sherman said. "Your sample registration card will be returned when you get the registration form."

Advisor's Posted

"If you have not yet seen your advisor, get in touch with him at once and make an appointment. He will help you work out a program and will give you a registration blank. A list of student's advisors is posted outside the Letters and Science office."

Sherman said sophomores who have been pre-counselled should bring an initialled copy of a sample registration card to the Letters and Science office to be issued a registration blank. Students who have not had pre-counseling can make arrangements with the Dean's office.

Dean Boyd A. Martin, college of Letters and Science, said upperclassmen in the college will fill out registration forms with major professors before final exams start.

Martin said all students in the college will receive their signed registration form at his office Feb. 3 and 4. The forms will be handed out by alphabetical order. He said the same alphabetical schedules will be used by his office as to be used to allow students to enter the gym.

College of Education officials said students could obtain registration forms from the Dean's office, starting today and lasting until Jan. 30.

Students are to fill out the form with an advisor and return it to the Dean's office. The forms will be signed and made available to students Jan. 30 and 31 as well as the days of registration.

Aggies Procedure

Agriculture majors registration forms are available now in the Dean's office. After filling out the form with the advisor the student returns it to the Dean's office where it will be signed and returned to the student the first morning of registration.

After Engineering students fill out a trial schedule and a registration form with an advisor, the form is turned into a section checker at the Dean's office.

The forms will be signed by the Dean and turned back to the students Feb. 3 and 4.

Business Methods

A list of all students under the College of Business along with an advisor and his conference hours is posted outside the Business Administration office.

Before going to visit an advisor a student picks up a folder from the Dean's office which contains the students records, registration information, and a registration form.

Students will leave the folder with the advisor and will pick up the signed registration form during registration days.

Foresters Dates

Forestry students will pre-register between Jan. 13 and 17. They will pick up a registration blank from the Dean's office along with an instruction list containing the names of advisors, counselling offices, and office hours.

The advisor will return the filled out registration form to the Dean for his signature. On or after Jan. 27 the student can pick up the signed form for final registration.

A list of advisors is posted for mining students. Students are to pre-register as soon as possible, Dean Earl F. Cook said. Signed forms will be available during the registration period.

Special Law Days

Law students will pre-register Jan. 30 and 31. Senior students get forms to fill out and have them signed Jan. 30 and first and second-year students register Jan. 31.

Graduate students can pick up registration forms after Jan. 20 in the Graduate School office. After completing the forms with the major professor the students receive the Dean's signature after 9 a.m. Jan. 30.

Faculty and staff members wishing to enroll in classes will be able to register Feb. 5.

and "Sonata in G minor" by Clementi.

For her final number she will play a Schumann piano concerto accompanied by the University of Idaho Symphony Orchestra.

Idaho students will be admitted upon presentation of ASUI cards.

Following the concert, an informal reception, sponsored by Sigma Alpha Iota, will be held in the Music building. Music students, faculty and Community Concert Association members are invited.

Famed Pianist To Perform In Memorial Gymnasium

Vera Franceschi, a young pianist whose performances have been lauded as first caliber by critics from Los Angeles to Rome, will appear here as part of the Community Concert series at 3 p.m. Sunday in Memorial Gymnasium.

Miss Franceschi, a native of San

VERA FRANCESCHI

Francisco, has appeared as soloist with many of the world's outstanding symphony orchestras, including the New York Philharmonic-Symphony, Chicago Symphony, Orchestre National d'Paris, San Francisco, Boston Symphony and several others.

Her global music activity has taken her to appearances among music loving peoples throughout Europe and the U.S. She recently returned from Turkey where she was a soloist for the Presidential Philharmonic there.

Among her numbers Sunday, she will play Beethoven's "Moonlight Sonata," Chopin's "Ballade"

and "Sonata in G minor" by Clementi.

For her final number she will play a Schumann piano concerto accompanied by the University of Idaho Symphony Orchestra.

Idaho students will be admitted upon presentation of ASUI cards.

Following the concert, an informal reception, sponsored by Sigma Alpha Iota, will be held in the Music building. Music students, faculty and Community Concert Association members are invited.

Architect Chapter Sponsors Guinness Comedy Thursday

"The Promoter," starring Alec Guinness, will be presented in the SUB Borah Room Thursday at 7 and 9 p.m., according to Molly Godbold, Hays.

Idaho's American Institute of Architecture student chapter is sponsoring the film.

Tickets are 35 cents. The movie is a comedy of Guinness scheming to become mayor of a small town.

KRAUS AG CHAIRMAN

New chairman of the national potato research and marketing advisory committee for the U.S. department of agriculture is Idaho's Dr. James E. Kraus, dean of agriculture at the University of Idaho and director of the state's experiment station and extension service.

FINAL EXAMINATION SCHEDULE

First Semester 1957-58

(Two and one-half hour examinations —three examination periods each day)

Regular class rooms will be used for the examinations unless instructors make special arrangements through the Registrar's Office. Examinations in courses comprised of lecture and laboratory periods may in most instances be scheduled according to the sequence of either. Announcement of time and room should be made by the instructor for all examinations. Rooms should be reserved in the Registrar's Office for "arranged" examinations in order to avoid conflicts. Instructors will announce to their classes rooms to be used for all sectioned classes having common final examinations.

EXAMINATION DAY AND HOUR FOR CLASSES MEETING:

Keep Out Of My Sandbox?

(Editors note: DAILY CALIFORNIA-AN editors expressed these views on the Outside World.)

It is seldom that we are so aroused to wrath that we comment on the Big Outside.

There is enough, after all, going on in this royal throne of professors, this sceptered isle, this blessed plot, this earth, this realm, this University to fill up these columns.

Outside Beyond Reform?

Besides which, the Outside World, at this point, seems beyond all reform. However, we cannot let the recent action by the U. S. State department get by without saying SOMETHING.

Report from a local paper: "The State department yesterday sealed off from Russian travelers (agriculturists, soil scientists, housing experts, etc.) another 45,000 square miles of the United States—an area including San Francisco, Richmond, and all of Stanislaus county . . . The diplomatic maneuvering was in retaliation for similar steps taken by Russia last August."

In other words, if little brother Linus

won't let us have a cookie, we'll kick him in the shins.

Just because Russia is stupid, does that mean that the United States must be equally stupid? Just because Russia is trying to close all paths to future peace, does that mean that we have to help her set up the roadblocks?

Cal already sealed off

Notice that the State department edict does not seal off the University from Russian visitors. It doesn't have to. The University was sealed off in another edict last year.

Russians can still visit Stanford University, however. If they can get there, that is. The entire area around Stanford has been sealed off.

How are we going to have some kind of an international understanding if two children are going to start playing "keep out of my sandbox"?

Both Russia and the United States are once again taking gigantic strides toward that beautiful day when this poor old earth will become one big mushroom cloud.

National Student Opinion Finds Urban Preference

Minneapolis—(AOP)—Large cities seem to have more appeal to college students than do smaller towns. This is the finding in initial tabulation of a survey conducted by Associated Collegiate Press.

ACP's National Fall of Student Opinion gathered the information by asking the following question of a representative cross-section of college men and women in the United States:

"AFTER YOU FINISH YOUR EDUCATION, DO YOU THINK YOU WILL WANT TO WORK IN A SMALLER TOWN OR A LARGE CITY? WHY?"

The results:

	Men	Women	Total
Smaller Town	42%	29%	37%
Large City	46%	66%	54%
Undecided	12%	5%	9%

The only apparent explanation for the fact that many more men than women would prefer to work in a small town seems to be that men's occupations sometimes demand a small-town setting. One student majoring in forestry and park management, for example, feels most of his opportunity lies in smaller places.

More Friendly

A general factor mentioned frequently by those preferring smaller towns was the more friendly and personal atmosphere usually found there. A South Georgia College (Douglas, Ga.) sophomore coed commented: "One thing I get out of life is association with people, and one doesn't get this opportunity in a large town to as great an extent as in a small town."

Another sophomore coed, from the University of Kentucky (Lexington, Ky.) agrees with this point of view. She comments: "I like smaller towns. People are more friendly, and the life is not so hectic." A Missouri School of Mines (Rolla, Mo.) sophomore prefers small towns because they are usually near "facilities for hunting and fishing . . ."

Another reason quite frequently mentioned by persons favoring smaller plans was that they were originally from small towns. They didn't think they would like life in large cities.

A senior coed from Biola College (Los Angeles, Calif.) sums up her philosophy by saying, "Large cities are most disagreeable in every way. I want to live where there is sky, ground, trees and shrubs, and good clean air!"

In addition to the fact that they

Twelve Men Initiated Into Ed Society

Twelve Idaho students were formally initiated into Phi Delta Kappa, men's national education honorary, here Dec. 12. Dean J. F. Weltzin of the College of Education was guest speaker at a dinner following the initiation.

Dean Weltzin identified a number of current issues which are a matter of concern to educational authorities.

He emphasized the necessity for competent leadership to cope with such problems as planning a broad school curriculum which meets multiple needs of students, maintaining high quality education for all children, securing skilled teaching despite a teacher shortage, and providing adequate finance for an expanded school program.

An initiation ceremony was conducted for the following: Dr. Anand Malik of Pakistan and visiting lecturer in education; Raymond Alcock, George Carmie, Carl Hendricks, Henry Jones, John Pearson, Arthur Roberts, Larry McDonald, Richard Roche and Milan Tresnit, off campus; Wade Patterson, ATO; and Edward Berreth, Upham.

WHAT IS A MARCHING BAND THAT NEVER GETS A LUCKY BREAK?
(SEE PARAGRAPH BELOW)

MEMO TO MAESTROS: is your band dawdling instead of tootling? Is it full of feeble fifers and drooping drummers? Well, this musical slowdown may be traceable to lack of Luckies. Better give your band a break—and make it a Lucky one! A Lucky, you see, is a light smoke—the right smoke for everyone. It's all cigarette—all naturally light, wonderfully good-tasting tobacco. And Luckies' fine tobacco is toasted to taste even better. Now then, what's a marching band that never gets a Lucky break? Why, it's a *Sore Corps!* (Wasn't that cymbal?)

STUCK FOR DOUGH? START STICKLING! MAKE \$25

We'll pay \$25 for every Stickler we print—and for hundreds more that never get used! So start Stickling—they're so easy you can think of dozens in seconds! Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (Don't do drawings.) Send 'em all with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

Vacation Brings Activity Lull

WILLIS SWEET HALL
Willis Sweet came back after vacation to find that two new doors had been added.

Thanks to the sophomores and various Moscow groups who came during the recent yuletide season. Also thanks to the Alpha Phi for the freshman exchange and for aiding us in the decoration of our Christmas tree.

SIGMA ALPHA EPSILON
Sylvia Chase, Alpha Phi, saved Duane Thompson from a cruel, wet slapping Saturday.

Sunday afternoon a tea was held in honor of our housemother Mrs. Reginald Coleman. Over 150 guests, including faculty, and staff visited the chapter house during the course of the afternoon.

Many thanks to the Kappas for their novel Christmas serenade Tuesday.

Our Violet Queen Linda Jones and our house mother were here Thursday evening for our annual Christmas present exchange.

DELTA DELTA DELTA
All the girls returned safe and sound after a wonderful two-weeks vacation.

We miss Anne Copithorne, however, who married Dave Campbell in Calgary, Canada, on Jan. 2. Congratulations, Anne and Dave.

The girls are looking forward to an exchange with Lindley Hall.

PINE HALL
John Perubbi became engaged.

CF Girls Select Mrs. Hauge As Year's Mother

Mrs. Adolph G. Hauge, Delta Gamma housemother, is pictured on the front cover of the current issue of the national Camp Fire Girls magazine.

This honor was bestowed upon her for being chosen "Mother of the Year" by the Horizon club of Coeur d'Alene, Idaho. She is posed with two Camp Fire Girls, in front of the University of Idaho Administration Building.

to Miss Silvia Boring during Christmas vacation.
Guests of our Proctor and Hostess Mr. and Mrs. Chuck Battles were Dr. Ronald Bow of Athens University and his wife Clara. Dr. Bow is on a world wide lecture tour concerning love and marriage on college campuses entitled "Who's True at Athens U?"

PI BETA PHI
Our annual "Wassil Hour" was held Sunday before Christmas. Among those in attendance were President and Mrs. D. R. Theophilus, faculty guests, and alumnae.

Many thanks to the Delta Tau Delta pledges, Lindley Hall, Tau Kappa Epsilon, Phi Kappa Tau, Sigma Chi, and Kappa Kappa Gamma for the Christmas serenades.

Caroling, skits, and dancing were on the agenda at the annual Phi Phi-Delta Tau Christmas exchange.

SIGMA CHI
The Sigs would like to thank the Kappas very much for the wonderful time had by all on the Christmas serenade.

Thanks to Marie Jones, our cook, for the wonderful asstays; to Mrs. Magnuson, housemother, and the mothers for the trophy stand and hassock; Delores Hormaechea for the big box of cookies; and Joyce Weaver for the candy.

Former Instructor Donates To Alumni Scholarship Fund
The gift of \$5,000 to the University of Idaho alumni scholarship fund by Dr. Thomas C. Galloway of Evanston, Ill., well-known for his developments in the treatment of bulbar poliomyelitis, was announced here today. The gift brings the fund, started in recent years, to about \$16,000.

A former chemistry instructor at the University in 1907-08, Dr. Galloway holds both a B.S. and an honorary Doctor of Science degree from the University.

Dr. Galloway's research in medicine has brought him international fame.

At the 1955 annual meeting of the American Medical Association he was cited as "the first to demonstrate conclusively the value of tracheotomy in the treatment of bulbar poliomyelitis. Widespread use of the methods devised and taught by him has been responsible for the saving of hundreds of lives."

In 1955, he also received the Newcomb award presented by the American Laryngological Association for his work in the treatment of polio.

Prof.: "Why were you late this morning?"
Student: "Class started before I got there."

Alpha Lambda Delta to Hold Tea
Members of Alpha Lambda Delta will be hostesses to 11 freshmen women who received a 3.00 grade average for the first nine weeks.

The tea is scheduled for this Saturday afternoon in the Home Economics lounge. Cake and punch will be served while the guests learn what the requirements and purposes are for being in Alpha Lambda Delta and meet the sophomore women who are in the honorary.

"Woman Of Year" Topic of Speech
"Woman of the Year" will be the topic of a speech by E. S. Schwartz, associate professor of music, at this week's meeting of the Dames club, Janel Russell, historian, reported today.

The meeting will be held at 8 p.m. Wednesday in the Faculty club, Mrs. Russell said.

European Tour Slated For Students Of French
Bringing the old and new worlds closer together, Idaho will join this coming summer with the University of Caen in France to provide a European study tour for students interested in intermediate and advanced work in French language and civilization.

President D. R. Theophilus said today that arrangements had been completed with the university in Normandy for Dr. W. J. Wolfe, chairman of languages at Idaho, to bring a group of students to the French institution for four weeks of study. Besides visiting various areas of France, the students will study and travel in England and Switzerland.

The study-tour group will leave Montreal by steamship June 17 and will return by boat to Quebec September 12. Students who have completed two years of high school French or two semesters of French in college, or the equivalent, are eligible for registration.

They may receive six semester credits from the University of Idaho upon satisfactory completion of course work at the University of Caen.

Dr. Myrra A. Minnis of the University of Idaho sociology faculty will also conduct a European study tour, which was announced earlier. This one, which will give emphasis on community life, will extend from June 24 to August 18, and will take students to France.

Six Methodists Attend Meet, Unitarians Hear Power Talk

Six Idaho students attended the sixth Quadriennial National Methodist Student Conference held at the University of Kansas, Dec. 27 to Jan. 1.

Students attending were Lowell Martin, Willis Sweet; Larry Hobson, Sigma Nu; Bill Hutchinson, Upsilon; Ed Kale, Beta; Jean Steele, McConell; and Liz Hoffmann, off-campus. They were accompanied by the Rev. Ron Hummel, director of Wesley Foundation.

The conference featured the World premiere performance of the oratorio "Invisible Fire" by Cecil Effinger, University of Colorado, and the Rev. Tom Driver, Union Theological Seminary, which gave a presentation of the life of John Wesley.

Over 3400 students attended the conference representing every country in the world except the Communist nations.

CHANNING CLUB
"Hell's Canyon and Columbia Basin Development" will be discussed by four leading authorities on power resources in the Pacific Northwest Sunday at 7 p.m. in the Unitarian Church building at Pullman.

The panel members are A. B. Martin, consultant and manager-coordinator of new projects, Washington Water Power, Spokane; Dr. Dan Ogden, political scientist from WSC, who spent the past year as water resource advisor to the Senate Commerce Committee in Washington, D.C.; Dr. Harry Caldwell, geology department, University of Idaho; and Dr. E. Roy Tinney, head of Albright Hydraulics Laboratory, WSC.

Cars will leave the Idaho campus Christian Center at 6:30 p.m.

NEWMAN CLUB
The Newman Club will have a meeting tonight at eight in the Newman club house. The nominations for new officers will be presented at this meeting.

Architect Degree Will Be Offered
A professional degree in architecture is being offered for the first time this year, Prof. Theodore J. Fritchard, head of the department of art and architecture, announced today.

The Bachelor of Architecture will be awarded upon the completion of a five-year, 144 credit program which was initiated in the University last fall.

Two new instructors have been added to the architecture faculty to assist in developing the new program. William H. Trogden, Spokane, is serving as visiting assistant professor of architecture art, and G. H. Roberts has joined the faculty as an instructor in art.

The new program will put Idaho on a par with many of the larger universities through the granting of the professional architecture degree.

Scholarships Abroad Open To University Students

Competition for 165 scholarships for young Americans to study in thirteen foreign countries will close January 15 it was announced by the Institute of International Education.

These awards are for study in Austria, Brazil, Cuba, Denmark, France, Germany, Iran, Israel, Italy, the Netherlands, Sweden, Switzerland, and the United Kingdom.

Most of these scholarships do not cover travel expenses but persons applying for Austrian, Danish, French, German, Italian and Netherlands awards may apply for a Fulbright travel grant to supplement the scholarship. Applications for travel grants must also be submitted by January 15.

Most of these scholarships are open to candidates in languages and culture, fine and applied arts, sciences, social sciences, philosophy, history and theology.

The awards in the United Kingdom are open only to candidates from labor unions.

Eligibility Requirements
General eligibility requirements are U.S. citizenship, a bachelor's degree by the time of departure (applicants in the field of medicine must have an M.D. degree), knowledge of the language of the country unless waived, a good academic record and good health.

Generally, the age limit is 35 years. The Cuban award and certain French awards specify that candidates must be under 30 while the Netherlands awards are for persons under 28.

If she played Lady Godiva, the horse would steal the show.

WRA Plans Busy Spring, Volleyball Tourney Continues

WRA finds a busy program ahead for the new year. Volleyball tournaments will continue on Jan. 9 with Alpha Phi II playing Delta Gamma I, Hays Hall I, playing Gamma Phi I, and Delta Gamma II playing Theta I at 4:10 p.m.

At 4:30 p.m. Tri Delt I will play Ethel Steel I for the championship of the Thursday league.

On Jan. 10 at 4:10, Pi Phi III will play against Delta Gamma II, and Tri Delt II against Ethel Steel II. Games played at 4:30 p.m. will include Hays II vs. Alpha Phi II and Kappa III vs. Pi Phi III.

Forney Hall forged ahead to win the co-recreational volleyball tournament in the final games played before Christmas vacation. In second place was Kappa II, Delta Gamma III third, and Theta IV, fourth.

Wednesday at 4 p.m. will be open volleyball practice for girls interested in being picked for a team to play WSC.

June is the month of weddings and cooing. The billing follows later.

A Campus-to-Career Case History

John Reiter (right) discusses the route of signals from the wave guide through the IF stages of a microwave receiver.

"This was the kind of challenge I was looking for"

Here's what John A. Reiter, Jr., B.S. in Electronics, Arizona State College, '54, says about the biggest project so far in his Bell System career.

"This was the kind of challenge I was looking for—a chance to assist in planning a microwave radio relay system between Phoenix and Flagstaff, Arizona. Five intermediate relay stations would be needed, and I began by planning the tower locations on 'line of sight' paths after a study of topographical maps. Then I made field studies using altimeter measurements, and conducted path-loss tests to determine how high each tower should be. This was the trickiest part of the job. It called for detecting the presence of reflecting surfaces along the transmission route, and determining measures necessary to avoid their effects.

"Not the least part of the job was estimating the cost of each of the five relay stations. All told, the system will cost more than \$500,000. When construction is finished in December of this year, I'll be responsible for technical considerations in connecting the radio relay and telephone carrier equipment.

"This assignment is an example of the challenges a technical man can find in the telephone company. You take the job from start to finish—from basic field studies to the final adjustments—with full responsibility. To technical men who want to get ahead, that's the ultimate in responsibility."

John Reiter is building his career with Mountain States Telephone and Telegraph Company. Find out about the career opportunities for you. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office, or write for a copy of "Challenge and Opportunity" to: College Employment Supervisor, American Telephone and Telegraph Company, 195 Broadway, New York 7, N. Y.

CAGERS SPLIT HOME CONFERENCE OPENERS

Lightning Break Scalps Stanford Indians, 67-59

Idaho rode a lightning fast-break attack to victory Friday night as the Vandals took their ninth game in 11 decisions with a 67-59 PCC opening win over Stanford.

The taller Vandals controlled the backboards throughout but had to have some sharp shooting from guard Gary Simmons and center Gary McEwen to defeat the troublesome Indians.

Stanford guards John Arrillaga and Paul Neumann couldn't seem to miss. Arrillaga's work in the first half and Neumann's in the second kept the Indians in the game.

Stanford led only early in the second half when Neumann rapped

The first sport on the 1958 intramural calendar, "A" basketball, took over the limelight last night and will continue until Feb. 12, when "B" basketball takes over.

In League I, Phi Delta Theta will attempt to recapture the crown it won in 1955 and 1956. Last year's winner, Tau Kappa Epsilon, may have other ideas, however.

Kappa Sigma, last year's League II champion, will try to retain its crown. Campus Club 1 will defend its title in League III while Christian Hall 2 will be trying for its second straight win in League IV play.

Several new rules have been added for the 1958 season, with 12 foot lanes for the three second rule, a new one-and-one free-throw set up after the fourth foul in each half, jump ball in the event of double fouls, and the touching of the ball over the basket definitely prohibited.

home his third jump shot of the half to give the Indians a 40-39 margin.

After a tip by McEwen and a free throw by Stanford's Doug Warren, however, Simmons hit four consecutive free throws to give Idaho a lead they never relinquished.

Freeze Works
Idaho froze the ball for the last four minutes holding the harried Indians at bay while the clock ran out.

Early action was marked by a tight Vandal zone defense which the Indians managed to break only when Arrillaga got red hot from outside with long one-handers.

Idaho shot a torrid 48 per cent of their shots in the first half and ended the game with a 43.1 per cent overall. The Indians had a good night from the floor with 39.3 percentage but could not match the Vandals' height and ball control.

Simmons was high for the Vandals and the game, with 21 points. McEwen had 16 while forward John Liveious had 12.

Arrillaga topped Stanford with 19 points. He was followed by Neumann with 17 counters. Three other Stanford men tied with six points each.

Stanford committed 17 personal fouls, to only 12 for the Vandals. Idaho made good on 17 of 24 free throw attempts while the Indians hit 11 of 16 from the charity stripe. The Vandals led at the half-time intermission by a 36-29 count.

Stanford guard John Arrillaga seems preplexed as he looks for a man to pass to in Friday's game won by the Vandals, 67-59. Forward Chris Burford (35) circles as Hal Damiano (arms outstretched) and Whaylon Coleman (behind Arrillaga) defend. Vandal Gary Simmons (white) and Indian Neal Brockmeyer (behind Coleman) close in.

Trojans Make Free Throws Count; Take 83-77 Win

The University of Southern California Trojans took advantage of some cool Idaho shooting Saturday and defeated the Vandals 83-77 at Memorial Gymnasium in a bruising PCC battle.

The score saw-sawed back and forth in the second half and was knotted 11 times before the Trojans began to hit on free throws.

USC, which has never been beaten by Idaho, connected on 12 straight free throws late in the game after the Vandals had been forced to press to catch up. The win evened the Vandals' PCC record at 1-1, putting them into a third place tie, and gave Idaho a 9-3 overall season record. It was the second straight conference victory for USC.

Wouldn't Go In
Time after time, the Vandals shot only to see the ball come caroming off the backboard or hoop. The Trojans kept a tight defense reign on top Vandal scorer Gary Simmons and poured baskets through at a 48 per cent rate.

Guard Monte Gonzales and forward Jim Pugh each tallied 17 points to take scoring honors for the winners. Center Gary McEwen hit 18 for Idaho, followed by forward John Liveious with 14.

The squads had battled on even terms throughout the first half but Pugh hit on a 40-foot jump shot as the buzzer sounded. This put USC in the lead 42-40.

The second half was nearly a carbon copy of the first with rugged board play marking the action. The Vandals were in the game until their shooting eye went awry and then pressing tactics forced fouls and the Trojans connected.

Idaho's captain Gary Simmons leads the Vandals in total points after 12 games. Simmons, 5'11" guard, has netted 82 field goals and 50 free throws to compile 214 points, 96 more than Whaylon Coleman, who has 118 so far this season.

Right behind Coleman is Gary McEwen with 116. Following McEwen is Hal Damiano with 90, Jim Branom and John Liveious with 78 apiece, Bob Walton, B. E. J. Schaffer with 51, Bill Wilson, 50, and Dick Gilberts, 11.

Varsity, Frosh Swimmers To Meet EWCE Saturday

Idaho's "flashing finmen" will meet an Eastern Washington College of Education squad which Vandal Coach Eric Kirkland calls "the best team they've had since I've been here," at Cheney Saturday.

Kirkland said he expects that EWCE will give the Idaho swimmers stiff competition in all events, especially in the butterfly and diving.

Backstroke aces Dan Belton and Larry Nelson, along with Chet Hall and John Price in the breaststroke events could mean the difference for the Vandals, according to Kirkland.

He also noted that Idaho's top freestyle swimmer, Len Law, had been looking very good in recent practices.

The Idaho frosh will get their first taste of dual meet action at Cheney Saturday, and Kirkland said he expected the yearlings to do fairly well against the EWCE frosh.

Last year, the EWCE yearlings slipped past the Vandal Babes for the first time in recent years by a 42-39 score.

Neutral Corner Idaho Linemen Star As West Upsets East "All-Americans"

The East-West Shrine game at San Francisco Dec. 28 proved two things to this reporter. First the "press-clipping" All-American ratings don't mean a thing and second the University of Idaho's football players rate with any in the country.

As had been the case in past years the East came into the game heavily favored, largely because they supposedly had all the stars.

But also, as in recent years, when the final gun had sounded the West squad was a resounding winner, 27-13.

It was apparent even from watching the game from the comfort of a living room chair that the West had entirely outclassed the East. Idaho linemen Wayne Walker and Jerry Kramer played no small part in this.

As the game drew into its final minutes and the outcome was no longer in doubt, television announcer Braven Dyer was asked why he thought the West had so dominated the East.

Dyer Explains
He replied that West players from small schools, namely Idaho, who had entered the game unheeded, proved tougher than such bannered All-Americans as Lou Michaels, Alex Karras, and Walt Kowalczyk.

Vandal center Walker, who seemed wrapped in obscurity all season long, was, at least in this reporter's mind, the top lineman of the game.

He played nearly all the game on defense, where he was credited with five tackles and three assists from his linebacker post, and was in the contest much of the second half on offense.

In addition, he did all the West's kicking off, called defensive signals, and broke through to block the second East point-after-touchdown attempt.

Idaho guard Kramer was hardly less spectacular. It was he who insured the West victory by booting three extra points and it was Kramer, big number "64," who helped open gaping holes in the East line for backs Jim Shofner and Gerald Nesbitt to drive through.

Army ROTC Unit 64 Anniversary Thursday

The University of Idaho Army ROTC will take note of its 64th anniversary Thursday, Col. Glenn B. Owen, PMS&T, said today.

Idaho's unit was organized in 1894 with Lt. E. R. Chrisman as head of the Corps of Cadets.

The unit operated as the Corps of Cadets until 1917, when the ROTC training over the entire country was reorganized. An Infantry Unit of the Reserve Officers Training Corps was established here at that time.

"I wonder why people always refer to a canoe as 'she'?" "Evidently, you never tried to guide one."

Show Features Top Athletes

Don Weiskopf, University of Idaho physical education instructor, announced yesterday that several of the nation's top athletes will be heard on his weekly radio show, "Tops In Sports," during the next few months.

The show, heard every Saturday morning over Moscow Radio KRPL, will feature such personalities as the Rev. Bob Richards, top Olympic pole-vaulter, and world pole vault record holder, Bob Gutowski of Occidental College.

Also included in the newest series of interviews taped by Weiskopf are Milwaukee Braves' catcher, Del Crandall; UCLA football end, Dick Wallen; St. Louis Cardinal outfielder, Irv Noren; San Francisco Giants bonus pitcher, Mike McCormack, and former Los Angeles Ram fullback, "Deacon" Dan Towler.

Walker Calls Shrine Win "Team Victory"

By Dwight Chapin
"It was a team victory all the way. No matter what the Eastern sportswriters said about us, I guess our spirit meant more than the experts thought."

These were the words of Idaho center Wayne Walker, as he discussed the East-West game with this reporter yesterday.

The West which had gone into the game a two to three touchdown underdog completely outclassed the East eleven in a 27-13 win.

The spirited play of Walker and Vandal guard Jerry Kramer played no small part in the upset, something which has grown to be a habit for the West team in the annual clash.

"It's hard to explain what a lift the players get out of the visit to the Shriners' Hospital," Walker said.

He explained that the day after the players from both teams arrive the Islam Temple, which sponsors the game, arranges a tour of the crippled children's hospital for them.

USC Coach Sees Basketball Future In PC Conference

USC coach Forrest Twogood, while speaking at a University of Idaho booster luncheon recently, expressed his hopes that PCC basketball would survive regardless of the future of PCC football.

Twogood said "This season should be a great one for PCC basketball, and let's hope it isn't the last one."

Concurring with Twogood was coach Howard Dallmar of Stanford who noted that, "Everything seems to hinge on football, with apparently little thought of other sports, including basketball."

Both Twogood and Dallmar added that their opinions were strictly their own.

USC plans to withdraw from the PCC in June 1959, along with UCLA and California. Such a move leaves both the future of PCC football and basketball in doubt.

Who Will Control The Rebound?

Rival forwards Jim Pugh (23) and John Liveious (4) fight for a rebound in action Saturday night. USC closed fast to defeat the Vandals, 83-77. Idaho center Jim Branom (31) and Trojan center Jim Hanna (51) look skyward as they await the rebound.

McCowan Paces Vandal Babe Hoop Squad In Scoring

Bruce McCowan, last year's all-state high school pick from Moscow, leads the Vandal freshman basketball team in scoring after five season games.

McCowan, who has a 16.8 points per game average, has accumulated 84 points for the Idaho Yearlings. The only other Vandal Babe to average over 10 points a game, Ron Hunt, has 65 for the season and a 14 point average. He is followed by Ken Maren, 43, Theron Ward, 36 and Ron Switzer, 31.

Substitute Bill Scholes is next in scoring with 23, followed by Larry Parberry, 9, Ron Lichau, 7, Kent Angerbauer, 4, and LeRoy Farley, 4.

Coach Wayne Anderson noted that Ward is consistently a top rebounder, and attributed his success to his quickness and persistency.

Ron Hunt, a 5'9" speedster from Baker, Oregon, drew praise from Anderson for doing a good job leading the fast break.

The Babes' bench strength is considered quite strong, with Scholes, Parberry, Angerbauer, and Farley being hard pressed by Chuck Bertrand, Larry Bryant, Melvin Gates, Dale Petersen, and Bob McGinty in the scramble for playing time.

The young Vandals play Lewis & Clark Normal at Coeur d'Alene Friday, and clash with the WSC frosh Jan. 17th and 18th.
