

Indian Summer On Campus

Although fall is slowly slipping around the corner, about to touch the campus with its multi-colored paint brush, the Idaho student can still appreciate the final green hues of Indian summer.

University buildings and grounds personnel should be commended for their fine job of keeping the rolling campus hills and landscape green and fresh in opposition to the ugly yellow decor of past years.

Contrasted against Gothic buildings and modern structures, the green trees, grass, and shrubs offer a picture of beauty that is hard to beat on any other American campus.

This patchwork of greenness — which

ranges from the chartreuse in the leaves of a maidenhair tree on the administration lawn to the forest green of a pine tree in the Arboretum — is the reason the Idaho campus has proved a photographer's haven.

Coeds and their beaux walking to class on a crisp fall morning set the Indian summer greenness off in a rainbow of color.

Gold and black uniforms and a green field set off by white markings creates another pattern of color.

We could cite many other examples of this college beauty. But we suggest you take a look for yourself. You, too, can appreciate it. — J.C.F.

Demand Great For 1959 Gem

More than 2,250 copies of the 1959 Gem of the Mountains, student yearbook, have been given out to University of Idaho students and the demand is still great, Gale Mix, ASUI General Manager, said yesterday.

A total of 960 copies were given out Monday, the first day of issue, and 500 were processed Tuesday, 540 Wednesday and more than 250 Thursday.

All old students may pick up a copy of the Gem Monday through Friday from 8 a.m. to 5 p.m. in the ASUI offices of the SUB. About 450 copies have been mailed to last spring's graduating seniors, Mix said. A total of 3,700 copies were printed, he said.

This year's Gem, edited by Kay Conrad, Gamma Phi, is a solid, well done production, patterned on the theme, "Letters." Featured are two color page layouts.

Handbooks Available

Student handbooks and copies of the ASUI constitution are also available, free upon request to all students, in the ASUI offices of the SUB.

Copies were mailed to all incoming freshman students, but not to upperclassmen.

Grad To Study In Germany

Edward W. Laird, who was graduated from the University in June with a major in physics, has been awarded a Fulbright grant to study in Germany during the next year.

Laird, who also served as a teaching assistant in the physics department, will do advanced work at Friedrich Alexander University at Erlangen. He left the United States by boat September 7, and, after an orientation period at Bremen, will begin classes at Erlangen.

University Participates In Classroom Television

The University of Idaho will participate in the Continents Classroom television program which will bring the laboratory

Grants Given To Students Of University

More than \$7,000 in scholarships, fellowships and grants to the University of Idaho have been formally accepted by the Board of Regents.

The Idaho Heart association presented the University with \$500 for undergraduate research. A \$1,200 grant for 4-H and FFA youth awards was received from the Idaho Cooperative council.

Nearly \$1,030 was received for the continuation of the E. J. and Maud R. Iddings fellowship for the 1959-60 school year. The late Mr. Iddings was formerly dean of the college of agriculture.

Dean James E. Kraus of the college of agriculture and his son, James R., presented \$50 for the Marion Kraus Memorial scholarship for a student enrolled in pre-nursing or medical technology. The General Henry H. Arnold Educational fund gave a \$120 award to Mark S. Holbrook, Lake Worth, Fla. Perpetual Security Life Insurance company of Boise has established a \$900 scholarship for a member of the University of Idaho football squad for the current school year.

Janet Sprenger has been awarded a \$150 scholarship from the Idaho State Honey Producer's association. Six students will share in \$300 in funds made available by the Moscow Lions club. They are Delores Llewellyn, Lewiston; James Archibald, Troy; Gary Doty, Pothatch; Marilyn Sather, Genesee; Leonard Eldridge, Kendrick; and Burton Dennis, Deary. Winner of the Pottlatch Forests \$1,500 scholarship in chemical engineering is Alvin Taten, Moscow. Herbert Gibson, Grace, was presented a \$500 award from the Ralston Purina company.

The Sears-Roebuck Foundation presented \$100 scholarships to Angie Arrien and Marie Brodeen, and a \$250 award to Edward Wood. Twin Falls Bank and Trust company presented a \$250 award to R. Dean Riggs. The Washington Water Power company gave \$130 to cover the first year of a two-year scholarship for Laura Doty.

into the living room when the series starts Sept. 28.

Viewers may take courses in Modern Chemistry and Introduction to Atomic Age Physics and Atomic Age Physics for university credit, if properly qualified.

"The University's participation in the programs is part of its continuing aim of bringing teaching, research and service into the homes of Idaho's citizens," said Dr. Thomas Dahle, director of adult education.

The programs, which will be aired over NBC-TV stations, are designed primarily for high school teachers of science. Their purpose is to expand the knowledge of chemistry and physics, and to improve teaching methods.

In addition, the courses have also stimulated interest from university students, gifted high school students and adults. They serve as excellent "refreshers" for engineers, scientists and other professional people, Dr. Dahle added.

Conducting the Modern Chemistry classes will be Dr. John F. Baxter, professor of chemistry and head of the general chemical division of the University of Florida. Guest lecturers will include Nobel Prize winners. Physics courses will be taught by Dr. Harvey E. White, who has earned the Peabody award in education for his video presentation of the subjects.

Persons interested in enrolling for University credit may write Dr. Thomas Dahle, director of adult education, University of Idaho, Moscow.

Student Awarded Three-Year Grant

A University of Idaho language student has been awarded a three-year grant to study Spanish-American culture at the center for Ibero-American Studies at the University of New Mexico.

Recipient of the National Defense Education scholarship is Marybel Lill, a 1959 graduate. A Spanish major, Miss Lill was recently elected to membership in Phi Beta Kappa, national scholastic honorary.

Poems By Tenney Are Published

A new booklet of verse written by Dr. William H. Tenney, associate professor of humanities at the University, is just off the press.

Entitled "Summer Light Verse," the 26 poems follow a similar project called "Summer Poems" written in 1957. In addition to his own verse, Dr. Tenney's nine-year-old daughter Melissa, has written two short pieces which appear in the booklet.

Dr. Tenney, who joined the Idaho faculty in 1949, received bachelor and master degrees from Oberlin College and his doctorate from the University of Michigan.

Joseph: How's that new college girl?
Dennis: Not so good.
Joseph: You always were lucky.

Ad Building Gets New Face-Lifting

In approximately six weeks the renovation of the outside of the Administration building will be completed.

Now the sand-blasting is almost done, and the crew is well along with the job of refilling the joints between the bricks with mortar. Finally the walls will be given a waterproof Silicon coating.

Sir Isaac Newton is struck by another great idea!

IT'S WHAT'S UP FRONT THAT COUNTS

As sure as little apples, Newton knew that what goes up must come down.

But when it comes down to a really pleasurable filter cigarette, it's what goes up—in front of the filter, that is—that makes the difference!

And there's where Winston had an inspired idea — Filter-Blend! Winston specially selects choice, mild tobaccos, then specially processes them for filter smoking. The result: Filter-Blend up front of a modern filter. That's what makes Winston a complete filter cigarette.

Filter-Blend also makes Winston America's best-selling, best-tasting filter cigarette. Take it from Sir Isaac:

"You don't have to be hit on the head to know that Winston tastes good like a cigarette should!"
