

Choo-Choo Homecoming Express Wheels Into Vandal Land

Dworshak Sees 'Atomic Peace'

The present atomic age and international situation that pits our form of government against Communism will require more and more emphasis on education.

Sen. Church To Give Talk On Tuesday

Frank Church, Idaho's youngest senator—and one of the youngest in the nation—will discuss America's role on the world stage when he addresses students at the third public events assembly, 11 a.m. Tuesday in Memorial Gymnasium.

Church, a member of the Senate Foreign Relations Committee, is originally from Boise, where he attended high school.

He is a graduate of Stanford, where he received his law degree, and was elected to Phi Beta Kappa.

Church was elected Senator in 1956, and became at that time the youngest man ever to take senatorial office.

On Speaking Tour Recently, Church has been speaking throughout the state since the last closing of Congress and concentrating on local issues to Idaho audiences.

In Sandpoint last Tuesday, Church told the Idaho State Grange convention that what is done with production of U.S. agriculture may well shape the course of history.

They may be on the way out elsewhere, but homecomings are still around at Idaho . . . in a big way. And praise be that they are.

Several universities around the nation have recently given up homecoming celebrations, because they are rather expensive and take a flock of man hours to be effective.

Arizona State University this year gave up its homecoming parade and Kansas State College is strongly considering it.

To our knowledge at least, the move to abandon homecoming has never been seriously considered here and we hope it never will be.

We are fully cognizant of the fact that it takes a great amount of work, effort and money to make homecoming a success (which it is year after year at Idaho).

But homecoming does perhaps the best "selling job" possible each year for the school and as long as it continues to do so, we say more power to it.

This year, guided ably by chairman Bill Agee, things seem to be in top shape.

Agee, newly-elected senior class president, has a handful of good, new ideas and many of these are showing through in his handling of Homecoming.

Take a look through all the pomp and pageantry this weekend and see what's behind the clouds . . . a function which can serve as a major block in the University's student building.

Let's give the alumni something constructive and memorable to take back to their high school sons and daughters who dream of coming to college.

The Idaho Argonaut

VOLUME 64, NO. 13 UNIVERSITY OF IDAHO, MOSCOW, IDAHO FRIDAY, OCT. 30, 1959

Homecoming Whirl

- TODAY**
- 3:00 p.m.—Alumni registration begins at SUB.
 - 6:30 p.m.—Pajama parade.
 - 7:15 p.m.—Homecoming rally at MacLean field.
 - 7:30 p.m.—Fireworks at MacLean Field.
 - 8:30 p.m.—Living group visitation.
- SATURDAY**
- 9:30 a.m.—Homecoming Parade.
 - 10:30 a.m.—Vandal Booster Meeting — SUB; Oregon Alumni Meeting and Lunch — SUB.
 - 11:00 a.m.—No-host Alumni Brunch at Moscow Hotel.
 - 12:00 noon—Vandal Booster Luncheon at SUB.
 - 1:30 p.m.—Football, Idaho vs. Oregon.
 - 4:30 p.m.—Open House at all living groups.
 - 5:00 p.m.—Idaho, Alumni Headquarters at Moscow Elks Club.
 - 9:00 - 12:00 p.m.—Homecoming Dance, Memorial Gym.

Scholastic Troubles Fell Two Idaho Yell Leaders

Scholastic ineligibility of two of its members has reduced the strength of Idaho's yell team as it prepares to make its home debut tonight at the Homecoming rally.

The petitions of Bud Dove, Fiji, and Jerry Garthe, ATO, were rejected by the Administrative Council at its Tuesday session.

Garthe was the Idaho yell king. The two remaining members, Ole Bergan, Beta, and George Volk, SAE, have denied the rumor that they will quit the team as a protest to the action.

Arnie Candray, Delta Sig, has been added to the group, which will now operate with three members.

The old team's first and last appearance at a football game was at Pullman on Saturday. Definite announcement of Dove's and Garthe's ineligibility was made Monday by the Academic Council. Their appeals were made immediately.

Bergan told the Argonaut earlier in the week he would continue as a member of the team, at least until after Homecoming.

The ineligibility ruling apparently cannot be lifted this semester.

Trenna Atchley Chosen Queen For '59 Event

Trenna Atchley, a charming blonde junior coed from Ashton,

Card Section Is Readied For Game

The colorful spectacle of the card section will be seen again, after a long absence, at Neale Stadium tomorrow . . . if 520 students cooperate.

The 520 are needed if the card section is to be resurrected, Art Lindemer, Beta, chairman of the section, said yesterday.

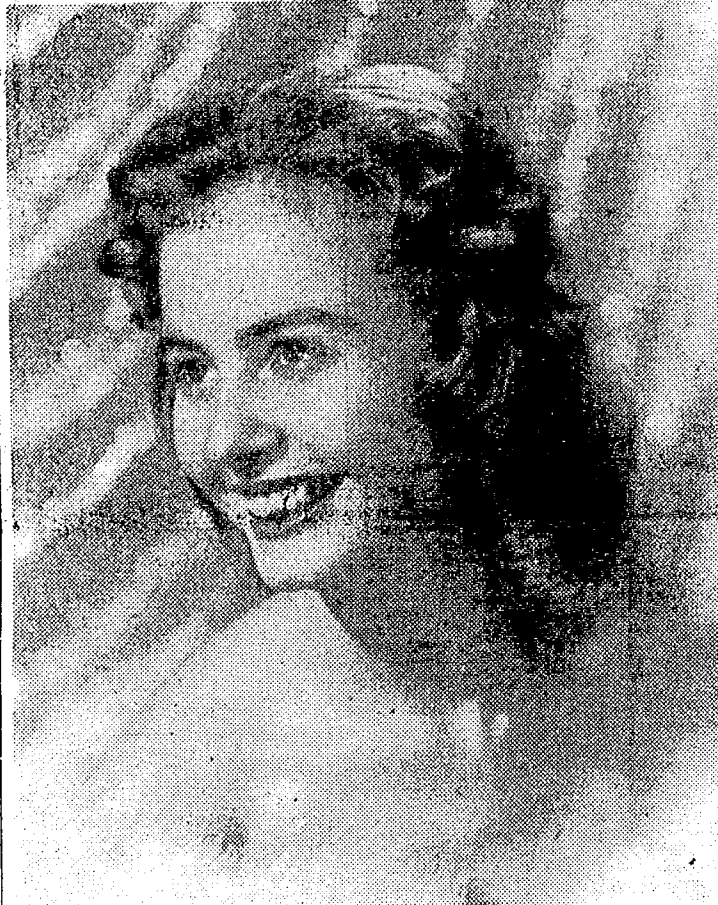

"We sincerely think that this type thing can work at Idaho again, but we need the support of the student body," Lindemer said.

Lindemer reported that "everything is ready . . . it's now up to the students."

Colored cards, part of which are red on one side and blue on the other, and the rest grey on one side and gold on the other, have been purchased.

Four stunts are planned during half-time, Lindemer said.

Students who want to sit in the section should be on hand a few minutes before half-time, Lindemer said. Operation of the cards will be explained before and during the stunts themselves.

1959 QUEEN — Trenna Mae Atchley, Forney Hall, will reign over Homecoming festivities this weekend. She was selected by a male vote of the campus.—Rudy photo.

was chosen Wednesday as Idaho's 1959 Homecoming Queen, proving for the second year in a row that Idaho males prefer blondes.

The blue-eyed Home-Ex major weighs 115 pounds and is 5' 5". She has been an Ag. Science Day Queen finalist, ATO Esquire Girl, Holly Queen finalist and last year was one of the five finalists in the Miss U of I Contest.

Four runners-up named to the Homecoming court were Carolyn Blackburn, Gamma Phi; Lynne Shelman, Pi Phi; Nadine Talbot, Kappa; and Phyllis Weeks, Alpha Chi.

Miss Atchley was chosen in an all-male campus vote Wednesday in which 1,652 ballots were cast.

The Queen will be crowned at halftime of the Idaho-Oregon football game, which will begin at Neale Stadium tomorrow, at 1:30 p.m.

Elbert Stellmon, Lewiston, Idaho alumni president, will crown her and present her with a dozen red roses. Bill Agee, Homecoming general chairman, will present her trophy, more flowers and throne at intermission of the Homecoming dance tomorrow night in Memorial Gymnasium.

James Lyle, alumni secretary, yesterday estimated more than 2,000 alumni will crowd into Moscow, today for the two-day celebration.

GOOD WEATHER WISH
The weather man yesterday gave the University a better than 50-50 chance of good weather for the annual Homecoming grid clash tomorrow afternoon.

Today is expected to be clear and cold, with the probability that if any rain is to come, it will come in the next two days.

The hope for good weather is based only on the wish that today's clear forecast will hold till tomorrow.

He also expected an attendance of 8 or 9 thousand at tomorrow's game.

Homecoming festivities will begin in earnest tonight with the traditional pajama parade at 6:15, in charge of the Spurs. Coeds in a variety of flashy pj's will be divided into two groups to serpentine for an hour through all male living groups.

At 7:15 p.m. the scene will shift to MacLean Field for an all-school rally and a bigger-than-ever fireworks display. Estimated at costing \$1,000, it will be the biggest display of fireworks so far for a Homecoming celebration.

Tonight's rally, in charge of the Athletic Coordination Council, will include the introduction of Coach Skip Stahley and the Vandal team, a Pi Phi skit and a banner contest.

A trophy will be awarded for the best banner displayed.

The City of Moscow will join with

Parade Is Biggest Ever; Boasts 60 Units, 20 Floats

Always considered one of the outstanding Homecoming parades in the West and probably in the nation, Idaho's traditional main-street pageant will boast 60 units this year, more than ever before.

The 60 units, including some 20 floats from campus living groups, 16 bands, several marching and drill entries and various other displays, will form a mile and a quarter of color to greet thousands of alumni, guests and people of Idaho, expected at the two-day Homecoming celebration.

Gale Mix, ASUI general manager, noted that in the past 10 or 12 years Idaho has been considered second only to the University of Arizona in the West in parade ratings.

And two years ago, Arizona was rated first in the nation by the Association of College Unions.

Dignitaries On Hand

Several dignitaries will have a prominent place in the event, including Sen. Henry Dworshak, who is the Grand Marshal; State Rep. Hamer Budge; University President D. R. Theophilus and Elbert Stellmon, president of the Idaho Alumni Association.

State Rep. Gracie Post, will definitely not be in Moscow for the parade, Randy Litton, Beta and Bill Collins, Willis Sweet, confirmed yesterday.

This will be the first Homecoming parade she has missed since she has been in office.

The mile and a quarter pageant will form at 8th and Main tomorrow morning at 9:15 and begin winding its way through Moscow at 9:30.

Beginning at 8th and Main, the parade will proceed up Main to 1st, west on 1st one block to Jack-

son, south on Jackson to 8th, west on 8th to College and then south to Sweet and the parking area.

Be There Early

The parade co-chairmen reminded living groups yesterday that all floats must be in position by 9:15 a.m. or they will be disqualified.

Collins emphasized that floats should be parked in the lot east

(Continued on Page 2, Col. 5)

Mines Building Plans Told

By DON ERICKSON
Argonaut Managing Editor

One building that is technically two will rise on the campus skyline next year, as the College of Mines prepares to move to its new \$500,000 modern home.

A Board of Regents meeting last week cleared the way for the opening of bids in January or February, with construction scheduled to begin as soon in the spring as possible. Completion date is set for the spring of 1961.

Of modern design, the new building will be three floors and the total 30,000 square feet of floor space will contain everything that is now housed in the Mines and Geology buildings.

It will not be three complete floors, however, Earl F. Cook, dean of the College of Mines, said yesterday. Actually it will be a small building under a large one.

Cantilever Design

The large, main building will be supported entirely on columns, similar to some of the newer dormitories at Washington State. Of cantilever design, the building will extend out beyond the columns in front and back.

Like the WSU dorms, the building was originally planned to be open underneath. Then the need arose for more lab space than what had been planned for, so the simplest thing was to put a lab building under the main building.

The ground floor laboratory will bear none of the weight of the building over it, and will sport its own roof, useless as it may seem.

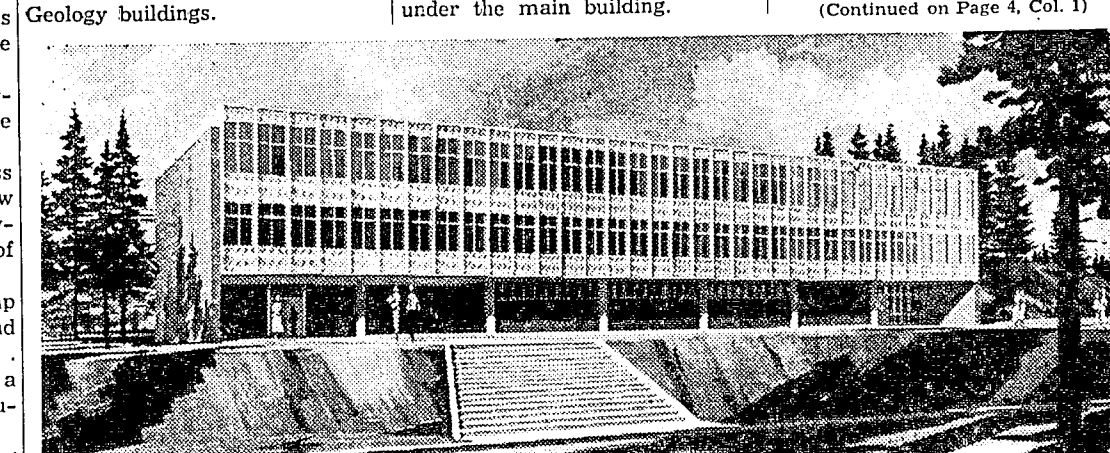

The lab will not only be for metallurgy and ore dressings and ceramics, but will also do some assay work for the Idaho Bureau of Mines and Geology.

To Fit the Future

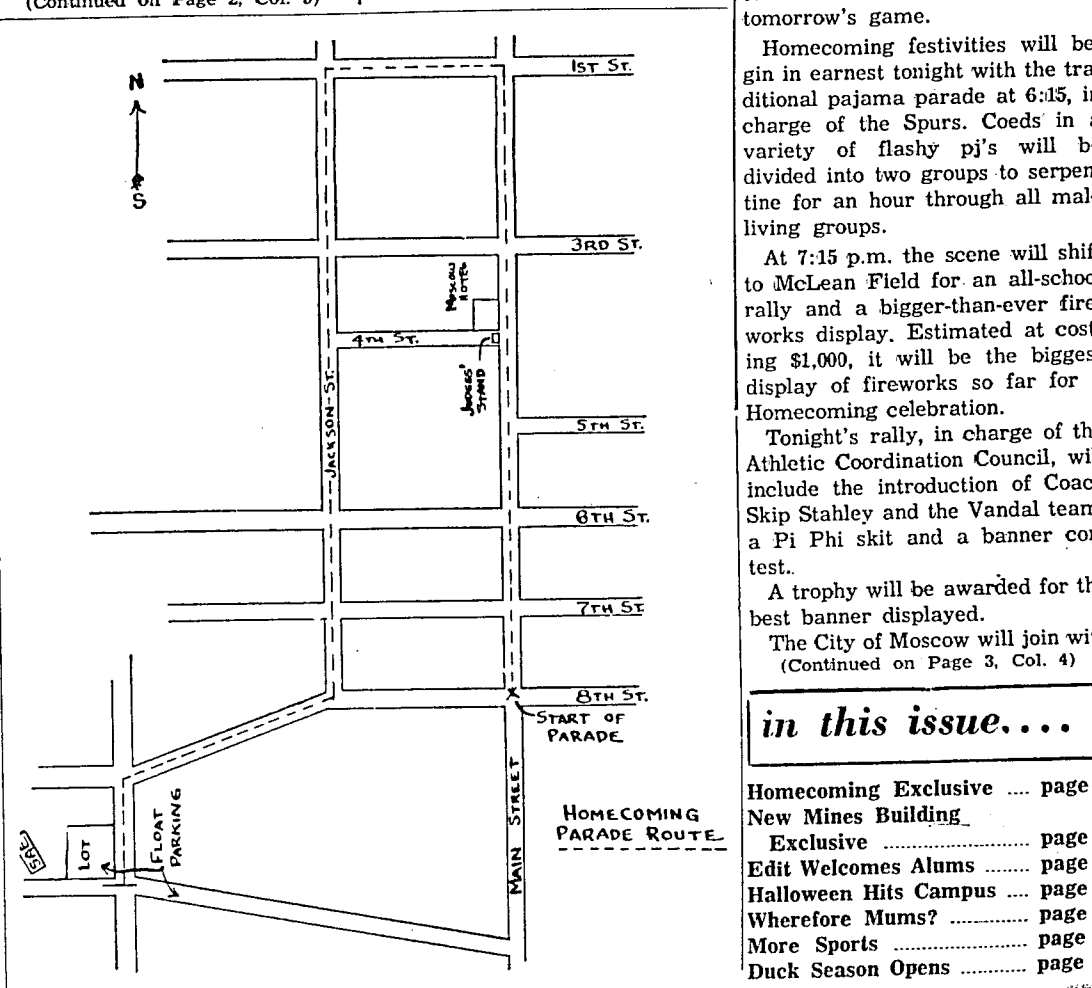

Of cast block and brick construction, the utility type building is planned to be as flexible as possible from the standpoint of possible future needs that cannot be foretold.

"Things change fast in the technical field," Dean Cook said, "so we are putting in all different

(Continued on Page 4, Col. 1)

A Hand Shake And A Request

Welcome home, alumni. Included in our hand-shaking, back-slapping greeting is an offer to you to study your campus as it is today. We hope that during your Moscow stay you will see the changes, brought on by the passing years.

To be specific, your alma mater in 1959 is over populated, because it lacks the necessary academic and recreational facilities of a state university. It is also an institution staffed with under-paid instructors.

Don't get us wrong. We aren't griping. We're asking for help; not sympathy, but help from the Idaho alumni. They are the people who, because of their emotional tie to the University and their position of influence in the state, can, if they understand the need, help us correct our deficiencies and make the University a first-rate educational institution.

How have things changed? If you want, charge our educational awakening to the apparent Russian lead in learning.

Maybe change should be attributed to the prolific World War II adult group. (You, alum, may be a part of this productive faction.)

However, when you view the problem, you must admit our University, in 1959, is confronted by an unstable present, a shaky future.

Today we are burdened with an overcrowded campus. If you doubt this then try to shoulder your way down "hello walk" between classes. During your homecoming visit, queue with the masses in the SUB to get a cup of coffee. Better yet, give a student the opportunity to tell you how he was discouraged from signing up

for a course because the class room wasn't big enough.

Our enrollment for the fall term is less than 100 short of 4,000. The predicted student population in 1965 is 5,500.

Our classroom buildings are near overflowing. In five years, unless Idaho improves its facilities, the only alternative is curtailed enrollment.

The alum's role in the race to expand our educational facilities, is to act as a liaison between the University and the men who shape its future — namely the legislators.

You are our good-will representatives, our channel of communication in this plea for aid.

Specifically, the University needs a new science building, more class room space, an enlarged student union, and of course, more pay for its faculty.

The SUB facilities were designed to accommodate 2,800 students.

Our science building was erected in 1925, when the total enrollment was about 1,600. By 1965 it is predicted that over 3,300 students will be enrolled in some science course.

University President, D. R. Theophilus has said, "the salary situation at the U of I is serious — in fact is becoming alarming."

These are our most immediate needs. During your weekend stay on the campus we hope you will look around and see if you don't agree. If you do agree, how about giving us a hand in insuring a college education for the young citizens of our state. — J.C.

The Key Hole

By PETE REED

Let's Show Mr. and Mrs. Alum That the Traditions Still Last

Even a university as comparatively new as this one has its traditions, and this is the time of year when they are most in evidence.

First of all we have the walkathon for the losers of the Palouse Battle, which will take place on Tuesday. That it is Idaho that makes the trip is almost as traditional as the walk itself, but at least we seem to have good heart about this, and it does tend to restore relations with our neighbors to a friendly rivalry after the flare-up of the game.

Homecoming is probably our biggest single traditional activity, and the most important.

Here we have the opportunity to bind ourselves together in the spirit of the school, not just our living groups, and through the bringing together of students, alumni and families, to realize the continuous pattern of life through the University.

The value of tradition lies in the acceptance of some thing tried and proven in past generations by the present one as being meaningful and worthwhile.

At the same time it gives us the pleasant assurance that when our school days here are ended, at least something that we held dear will be continued by those who follow us.

At Homecoming we bring together the past and the present, and the future is not very remote from us. We are, in fact, paving the way for our successors. Therefore, the more heart and spirit we put into this Homecoming, the bigger our contribution to the school and to the future.

Let us try to show to our returning alumni, and to our families whose interest is deep and sincere, that the traditions they started have stood the test of time, mean as much to us as they did to them, and are thriving stronger than ever.

At the parade, at the game, at the dance and in our welcome to them, let us show them that despite what may have been said to the contrary, our school spirit is higher now than it has ever been.

I hope that the women will enjoy the game, even if they do have to scramble over the bleachers in high heels and put white patches on the seats of their suits. I'd like to wish the team good

Editorial Page

PAGE 2 THE ARGONAUT

— Dear Jason —

Dear Jason: Does the University of Idaho represent the student body?

The answer to this is apparent. The answer is no. Not only does one party sweep the elections but the cheering sections at an athletic event are also opposed. This shows no school spirit.

To have a school united instead of a party united there has to be a cohesion of two factions. To have a strong school the student body must work together. How can two factions work together if both factions represent a different way of living?

The solution: A third political party which unites the two factions into a solid group which after campus elections are over, pulls the whole ASUI into a driving force that supports its elected officers and ASUI events.

Let's make offices and activities not a contest between Independents and Greeks, but a job with responsibility with loyal followers. Name on file.

Dear Jason: "Give credit where it is due" is certainly in order after attending the game at Pullman Saturday.

Having attended the majority of games played between these two teams, I have never witnessed such fine cooperation, pep, enthusiasm and support which you leaders and student body gave to your team that day.

It was magnificent and you never gave up until the final gun. We alumni are pleased with your fine school spirit, and keep it up!

Those boys need you and they never give up regardless, so why should you? You showed that Saturday that you were supporting them 100 per cent.

The chap who controlled the "mike" was dynamic, and your yell leaders were too.

We'll join you Saturday at our Homecoming. Mrs. A. P. Hansen.

Col. Strozier Visits Idaho

Col. B. A. Strozier, representative of Headquarters, Air Force ROTC, Maxwell AFB, Ala., visited in Idaho AFROTC Wednesday and Thursday on a tour of inspection, pattern with that of the headquarters unit.

Strozier attended a briefing with Pres. D. R. Theophilus, and Dean Walter Steffena. Later he attended a briefing by the corps staff and members of the detachment.

Engineers Society Sets Joint Meeting

The Society of Automotive Engineers will hold a joint meeting with the SAE chapter of WSU on Monday, November 2, 1959.

The meeting will be at 7:30 p.m. in conference room B of the SUB.

E. W. Rentz, manager of the Western Branch of the Society of Automotive Engineers, will be the guest speaker. Coffee and donuts will be served in the Frontier Room following the meeting.

OSC REQUEST REFUSED

Oregon State College will remain primarily a science institution as a result of an Oregon State Board of Higher Education refusal this week of a college request to grant liberal arts degrees.

Convicts Hold Family In Next ASUI Drama

By NANCY GRANGE Argonaut Staff Writer

An ordinary day in the life of a housewife turns into sudden terror as three escaped convicts seek refuge in her home. That is the beginning of the next ASUI play, "Desperate Hours," which was cast this week and will be presented on Nov. 20 and 21.

The plot is taken from the true life experiences of the James Hill family who live about 10 miles from Philadelphia, and were held prisoners within their own home by three desperate convicts.

The cast chosen for the local presentation include as members of the besieged family, Bob Candler, off-campus, as the father; Dona Newman, Pi Phi, as the mother; Charles Hosack, off-campus, as the boy and Orinda Hamon, French, as the daughter.

The three convicts parts will be taken by B. J. Schaffer, Sigma Chi and Tony Matson, Lambda Chi, as Griffins, and Mike Lewis, Chi, as Robish.

As members of the law forces will be Ken Bartlett, off-campus; Phil Hanel, Phi Delta; Gary Edwards, Upsilon; Jim Kay, ATO; and Fred Otto, Lambda Chi.

Gary Tusberg, Lambda Chi, will play the boyfriend; Walter Locke, Delta Tau Delta, will be the garbage collector, and Roberta Scott, Alpha Gam, will be the school teacher.

Miss Jean Collett, dramatics in-

structor will direct the play with Jo Reese, DG, and Sally Wilbanks, Pi Phi, assisting her.

Miss Collett, speaking at try-outs Monday evening, stressed the play as being "technically difficult," with lighting being of prime importance to putting the show over.

She added, "This is a play of precision, every single person contributes to the suspense and time is tremendously important, as any break in continuity could be disastrous to the feeling of the whole play."

SDX Honorary To Celebrate

Sigma Delta Chi, professional journalism fraternity, will celebrate its 50th birthday next month both on the National and State levels.

The University undergraduate chapter is sponsoring the State-wide observance and has set Nov. 6 as Idaho's Sigma Delta Chi Day, with papers all over the State taking part.

The Idaho Argonaut will present a special Sigma Delta Chi issue containing information on journalism at Idaho as well as the purpose and history of the National organization.

Two delegates, Jim Flanigan, Arg associate editor, and Bruce Wendle, chapter president, will participate in the National con-

vention to be held in Indianapolis, Nov. 11-14.

The chapter tapped its largest pledge class in several years yesterday in observance of the anniversary.

Tapped were John Beckwith, Delta Sig; Dave Iverson, Delta; Henry Gabel, McConnell; Peter Reed, SAE; Tom Kale and Jim Okeson, SAE; Allen Parkins, off-campus; Herb Hollinger, Kappa Sig; George Christensen, Delta Chi; Dave Patton, ATO; Larry Ayer, Sigma Chi; and Jack Carter, off-campus.

VETERANS TO REPORT

Veterans in training under PL 550 should report to Counseling Center between Nov. 1 and 5 to make out monthly certification for the Veteran's Administration.

Week Will Be Highlighted By Homecoming-Halloween

By MARSHA BUROKER
Argonaut Society Editor

Homecoming and Halloween will be wrapped up into one activity-packed package for students and visitors this weekend.

Busy practicing for entertainment for the Homecoming rally and building a float with Farm-house are the PI PHIS, SAEs and beatnik Betas serenaded. Sigma Chi taught the Pi Phi songs at noon Tuesday. Sunday dinner guests were Jack Harris, Spike Nysmith, Ron Powell and Steve VanHorne, SAEs; Stan Martin, ATO; and Dan Davis, off campus.

Paper mache, crepe paper, paint, nails, hammers and saws are flying as LINDLEY HALL works on their float for Homecoming. An exchange was held with Forney Hall Wednesday evening.

The SAE Chapter House is a hive of activity this week with refacing work being carried out on the exterior walls, while float building and Homecoming preparations are keeping the members busy. Pi Phi, Alpha Gams, and Alpha Chi seniors serenaded during the week.

Pledges, hashers and DELTA GAMMA housemother took a sneak at the first of the week to leave the members on their own for a day. Exchanges were held with Sigma Nus and Betas. A surprise fireside was the setting of the announcement of the big and little sisters. Sunday dinner guests were Mrs. Reese, Mrs. Torsen, Sigma Nu housemother, and Butch Farnworth, Sigma Nu. A beatnik dance was given for the pledges Friday night.

Wednesday evening CHRISMAN HALL heard the music of the "Academics," Ardith Porter and Shiria Calaway, Forney, and Bonnie Scott, Alpha Gam. Dinner guests Wednesday were Eleanor Warnstrom, Forney; Joan Mercer, Hays; Joan Brands, Alpha Phi; Kathy Krogue, WSU; and Susan Trail, Hays.

ALPHA PHI pledges received their pledge pins at formal pledging Monday night. Delta Sigs, Sigma Nus and the Six Bo's serenaded. Weekend guests were Jackie Bates, Walla Walla, and Mrs. Stoddard, Salmon. Dinner guests were Sue Cox, Hays; Karen Nye, Moscow; John Fitzgerald, Bob Schini and Tom Nelson, Delt; Spike Nysmith, SAE; Jim Burns, Delta Sig;

John Fox, Ralph Nelson, Jeff Wombolt, Dave Tracy and Eddie Exum, ATO; Jerry Bacon, Upham; Don Scott and Steve Wood, Willis Sweet; and Roy Hargraves, off campus.

Four new members were initiated as members of LAMBDA CHI this week: Tom Joy, Merrill Oaks, Steve Schaub, and Gerry Jones. The annual pledge dance will be held Nov. 14. During the past week Lambda Chi and Alpha Gams have combined their efforts on a float.

UPHAM HALL is still recovering from falling ducks and falling fellows. Bill Kobs and Marvin Krueger are co-chairmen of the new publicity committee. Dinner guests this week were Mr. and Mrs. William Kobs and Mrs. Clovella Reid, all of Coeur d'Alene.

Chosen for "Girl of the Month" at FRENCH HOUSE was Pat Schleuter. Exchanges have been held with Willis Sweet and Shoup Halls.

The theme, "Blue Moon," was used for the TKE pledge dance last weekend. Secret plans for construction have been underway for the last two weeks, concerning the Homecoming float to be built with the Gamma Phi. Dinner guests Wednesday were Mr. and Mrs. Keith Evans, Twin Falls; and Jim Doll, off campus.

The KAPPA SIG's activities for the week were highlighted by the pledge dance, which carried the theme "Bali Hai." The dance was decorated in South Pacific style, with "The Five" supplying the music. Fifty-two Kappa Sigs and Tekes were in a block seating at the game Saturday, with their band, to help support the Vandals.

Friday night a fireside at FORNEY HALL was given by freshmen. Forney coeds exchanged with Lindley Wednesday. Forney and Willis Sweet are combining efforts on a Homecoming float. A weekend guest was Margaret Wagner.

Sweat and elbow grease have become constant companions of

BETA's this week as they worked on their float with the Alpha Phis and readied their house for the Homecoming weekend. Weird entertainment and an eerie obstacle course highlighted the Betas' all-house Halloween exchange with the Delta Gamas Tuesday. Guests at the Beta house this past week have been Jill Sammie, Hays, and Bob Culbertson and Pete Morbeck, Lewiston.

SIGMA NU initiated three men Sunday at fall initiation. The new brothers include: Gib Wright, Nampa, Idaho; Thomas Tucker, Santa Barbara, Calif., and Mark Wendle, Sandpoint, Idaho. Sigma Nus and Thetas are hard at work this week on their Homecoming float.

Britain Offers Scholarships

Would you like to go to Britain? The Marshall Scholarships, awarded by the British Government will not only provide this, but a free education also.

The scholarships, made available by the British people in gratitude for Marshall Plan aid, have been given for nine years.

Any American student under the age of 28 as of Oct. 1, 1960, provided he or she has earned a first degree at a university, is eligible to apply for this scholarship.

Awards totaling \$1400 each are given for two (and occasionally three) years, plus tuition, at a United Kingdom University.

Students wishing to apply for a scholarship must have their applications in before tomorrow, when the lists close.

Entries can be obtained from C. H. Decker, Dean of Students.

THE ARGONAUT PAGE 3

HERE'S MORE ABOUT— Queen Trenna's 1959 Reign

students, alumni and guests tomorrow morning at 9:30 when the Homecoming parade kicks off a full day of excitement and activities.

The parade is one of the biggest links with the University that many townspeople have, Agee said. Many people from North Idaho follow their home town high school bands to Moscow for the event.

A special attraction is provided for alumni this year, according to Bob Brown, Beta, registrar and chairman. All alumni are invited to a no-host brunch at the Moscow Hotel immediately following the morning parade.

Tables will be divided according to graduating class so age-conscious alumni will get together with former class mates.

Highlight of the day, of course, will be the Idaho-Oregon clash in Neale Stadium. A special stunt card section is planned this year to add color after being discarded several years ago.

About 700 students are needed in the section to make it a success. Besides crowning of the Queen, the halftime show will include the Idaho marching band and Vandalettes, women's drill group.

Recognition will be given to the oldest Homecoming Queen present, the Queen from the farthest distance, the oldest alum present and the alum coming from the farthest distance.

Following the game, campus living groups will open their doors

She's Your Aide, But She's My Sis

Two Army ROTC officers were recently discussing the merits of the corps' respective female "sponsors."

One of the officers, a first lieutenant, smiled approvingly as two girls strolled down the walk toward them.

Noting the grin, the other officer, a lieutenant colonel, boasted:

"That girl's my aide."
"Which one, the fat one on the left," the first lieutenant remarked sarcastically.

"No, the other one," the lieutenant colonel said. "The fat one's my sister."

President Named To Commission

President D. R. Theophilus, has been named a member of the National Commission on Accrediting. It was announced recently in Washington, D.C., by Albert N. Jorgensen, president of the commission.

As a member of the commission concerned with accrediting of the nation's universities and colleges, Dr. Theophilus will be the representative of the National Association of State Universities.

McCown Suffers Injury To Back

Dana McCown, Phi Delt, suffered back injuries Sunday evening when he slipped and fell from a truck while working on a Homecoming float.

He was taken to the Infirmary and X-Ray pictures were taken to determine the full extent of his injuries.

Because of a previous back ailment, McCown wasn't able to walk for about two days, but is fully recovered now.

FOREIGN STUDENTS CALLED

Foreign students are requested to come to the Registrar's office to fill in reports that are required by the Immigration Service.

Flick, Talks On Church List

By CHARLENE PETERS
Speakers and a full-length movie highlight the discussion topics for this Sunday's church groups.

CANTERBURY CLUB

Canterburians will hear a report from Bob Stevenson, president of Idaho Canterbury, regarding his recent trip to Portland where he and other Canterbury leaders planned the spring conference of the Northwest Regional Canterbury Association at Menucha, Ore. The supper and meeting will be at 6 p.m.

The chaplain will give the second talk in a series entitled "Interfaith Marriages." The chapter for Sunday evening consideration is "The Problem of Birth Control."

WESTMINSTER FOUNDATION

The full length feature movie "Hatful of Rain" will be the program for Westminster Forum Sunday at the Presbyterian Church at 5 p.m. Rides will be available at the CCC at 4:50 p.m., and the price of dinner will be 45 cents.

A breakfast Bible study group is being held Wednesday morning from 7 to 7:50 at the CCC. Luke — Acts is the subject for study and breakfast will be served free of charge. All are invited to attend.

WESLEY FOUNDATION

"How Much is a Kiss Worth?" and other questions raised by the topic, "Dating and Christian Ethics," will be discussed at the regular meeting of Wesley Foundation at the Methodist Church this Sunday. In addition, there will be a student-prepared, 40-cent supper, singing and worship. Those wishing rides meet at the Campus Christian Center between 4:45 and 4:55 p.m., November 1.

DSF

"Conviction or Convenience?" is the subject which will be discussed by Howard Hake, pastor of the First Christian Church at Nez Perce, Sunday morning. DSF meets at 5:15 p.m. at the First

Christian Church and anyone desiring rides may contact Fred Lydum, FarmHouse.

LSA

Sunday, Nov. 1st, Mr. Wayne Weissenbuehler, seminary intern of the Trinity Lutheran Church at Pullman, will deliver the main topic of discussion on Christian groups, including LSA, who seek to maintain their identity, and are concerned mainly with their own members. The discussion will be held preceding a cost supper at Our Savior's Lutheran Church. LDS

"Creativity in Religious Life," is the lesson to be presented at MIA tonight and it discusses the question: "How do we keep our religious life from becoming stale?" Harvest Hoedown follows the lesson. Western dress is in order with a talent surprise in store for all.

Mine Construction Slated To Start In Early Spring

(Continued from Page One) kinds of outlets, such as gas, electricity, compressed air and distilled water, in all rooms because we never know when we may have to change the function of a room in the future.

There will be plenty of room for expansion, too.

Easy to Expand
The beauty of this type of raised construction, Cook continued, "is that you can expand easily on the ground floor."

In the architect's drawing, the lower floor appears to occupy the whole area under the main building.

Actually the ground floor takes up only about half of the building size because there are wide stairways on both ends.

Excluding corridors and entries, the usable area is 22,000 square feet, and most of this is laboratory in nature.

One Lecture Room
There will only be one straight lecture room in the whole building, Cook noted. The biggest room will be used for drafting and cartography, a map making course. The exact overall size of the building will be 63' 8" wide by 189' 4" long, he said.

Cook had originally hoped for a museum room also, but since that was necessarily excluded he plans to have display facilities in the lobby and along corridors.

This will not only include easel displays but also pictures and some paintings from the mining regions of Germany that are about 300 years old, Cook continued.

Appropriate Colors
An interesting feature of the new building will be visible from the front.

Similar to the University's new library, there will be two rows of solid windows on the front. Below each row of windows will be a row of appropriate in two ways, the dean mused.

Idaho's mining industry donated \$250,000 for half the cost and the University will match this fund.

Old Building To Go
The site is on 7th St., facing the south side of the Engineering building. To be torn down is a small, old frame temporary class building that was originally used for

Romanio To Be Contest Judge

Steven Romanio, member of the piano faculty of the Department of Music at the University, has been chosen to judge an intra-college piano competition at Whitman College, Walla Walla, Wash., on Sunday, Nov. 1.

Winner of the college-level piano contest will perform at a concert later in the year, appearing as soloist with the Whitman College Symphony.

Norman R. Logan, associate professor of Music at the University, will serve as guest conductor of the mixed chorus of the Idaho Fourth District high school music clinic, to be held Nov. 6 and 7 at Jerome, Idaho.

Logan is a member of the University's vocal-and-choral staff and directs the University Singers.

3 To Deliver Keynote Talks

A Department of Agriculture official from Washington, D.C. and two Idaho editors will deliver the keynote talks at the annual Ag. Extension Conference, in the Borah Theater and The University auditorium next week.

Over 135 extension agents and guests will spend the four days discussing topics on the theme, "Meeting the Challenge of Change in Extension."

The keynoters are — C. M. Ferguson, Federal Extension Service Administrator, from the nation's capital; Cecil Hagen, Managing Editor of the Idaho Farmer; and Sandor Klein, Executive News Editor for the Statesman newspapers.

On the social schedule are a reception by President and Mrs. D. R. Theophilus in the SUB North Ballroom on the opening day of the conference, and a party at the Moscow Elks Temple on Nov. 3.

Idaho's extension service personnel are located in 42 of the state's 44 counties. They work closely with community agriculture leaders and 4-H groups in solving current farm problems.

'Mademoiselle' Representative Arrives Nov. 6

Catherine Mundorff of Mademoiselle's College and Career Department will arrive on the Idaho campus Nov. 6 to meet and talk to undergraduates about the magazine's College Board Contest. Girls interested in writing, art, fashion, design and the other areas allied with publishing can arrange to meet her through Dean Marjorie Nealy.

The contest offers an opportunity to be sent to New York for a salaried month in June to work on "Mademoiselle's" August COLLEGE issue.

During her visit at the University of Idaho, Miss Mundorff will also talk to English and art professors and to undergraduates about "Mademoiselle's" current Fiction and Art contests. Two prizes of \$500 each are being offered in each category.

Aching Tootsies Get A Reprieve

The pain may be the same but at least the feet of the Vandal faithful bless the extra week given them in their trek to the fair of the WSU Cougar.

Tuesday, has been set as the new date for the Vandals to walk the eight miles to Pullman. Traditionally the loser of the WSU-Idaho football tilt has walked the distance to the winners campus. Of Man Winter and the large number of tests given this week prevented the colorful walk from starting Wednesday.

Who knows? Maybe if the inclement weather keeps up the Cougars may call it off since they don't weather storms well.

Union Pictures Are On Display

Actual photographs of Student Union Buildings throughout the nation's colleges and universities are now being shown in the mezzanine of the SUB.

Both old and new Unions are pictured with an exterior and interior shot of each provided by the national publications office at the University of Wisconsin.

More than 50 colleges are represented, such as the Indiana Medical Center, whose SUB has a swimming pool for the students' use.

"The exhibit is well worth seeing and timely in connection with our new SUB," noted Charmaine Tourville, SUB Program Director.

A free movie on Unions will be shown Wednesday at 7 p.m. and 8 p.m. The showings include "The Living Room of the Campus," a movie of the Union of the University of Wisconsin, and "Frontier of Learning," pictures in color, views of the University of Alaska.

Dog Livens Up French Class

A new student livened up a usually sleepy 8 a.m. class this week by wanting to learn how to say "Woof" in French.

Immediately named Pierre by his delighted classmates, the intruder was utilized by the teacher as a training aid. Holding Pierre firmly under his arm, the teacher, in French, described his color, paws and long, red, curling tongue.

Upon completion of the lecture, the teacher firmly ejected him from the class.

All of Pierre's classmates agreed that it was a "dog-gone" shame.

Carlsbad Queen Is A Chipper '72

OCEANSIDE, Calif. — A 72-year-old Hungarian widow was chosen to reign as homecoming queen at Oceanside Carlsbad College recently.

Mrs. Irene Day Horvath, a 4-foot, 10-inch sophomore English major, was elected by a large margin over nine teenage candidates.

"At first I thought they were kidding," Mrs. Horvath said. "But now I know they really like me. This is the greatest thrill of my life."

McLean Field To Become Site of Display

Idaho's baseball diamond on MacLean field may be a long way from Cape Canaveral, Fla., but tonight at 7:30 it will be converted into a launching pad for the biggest fireworks display in Homecoming history.

The rapid-fire explosions of almost \$1,000 worth of fireworks will begin right after the 7:35 p.m. rally.

The display will be conducted by Herb Sutherland, a Seattle fireworks expert with over 25 years of noise-making to his credit.

Just to make sure, Sutherland will wear an asbestos suit, and the University has taken out a \$1,000,000 insurance policy to protect the spectators.

Standing by to guard the area from "fallout" will be the Moscow Fire Department.

The IK's will assist Sutherland in setting up the display, which is to be fired from mortar tubes imbedded in sand buckets.

Dad's Day Entries Due By Monday

Campus living groups must have their entry in the Dad's Day Musical Contest ready by the first of next week, said Pat Nelson, Alpha Phi, yesterday.

The contest, to be held Nov. 21, may consist of up to four persons from each group.

It's A Full House

Homecoming at the University is full house day for one Idaho family.

When all the Idaho alums of the Merwin Harding family of Nez Perce, gather in one place they make a good sized reunion themselves.

Mr. and Mrs. Harding both went to Idaho back in the "good old days." Both are in their fifties and live on a farm near Nez Perce.

The five children are alums of the University as well as the husbands of three of their daughters. Mary and her husband, Paul Blanton graduated in '33 and '35

respectively. Mary's twin sister, Ann and her husband, Miller Smith both attended Idaho in '50-'53. The third sister, Phyllis graduated in 1955 and is married to Gordon Howard who graduated in 1954 and is presently holding an assistantship in history here at Idaho.

The remaining brother and sister are Donna Harding, 1947, and Merwin Harding who attended the University from 1946 through 1948.

The Hardings, the five children and their husbands plus 14 grandchildren will hold a family reunion Saturday in what truly will be a Homecoming celebration.

Former Student Is Ill At Air Base

Word was received here yesterday that Barbara Haight, wife of airman Larry D. Haight of Spokane, has been seriously ill at Fairchild Air Force Base Hospital, Spokane, for two months.

Mrs. Haight is the former Barbara Brewer. She is a former president of Pi Beta Phi sorority and was graduated from the University in 1957.

She probably will be confined to the hospital for several months.

Homecoming Mums Not Only Flowers That Cost A \$1.50

By MIKE SULLIVAN
Argonaut Staff Writer
Ask someone what significance a Mum has for them, and you'll probably get answers such as: "Something for your date to wear for Homecoming." Or "a big flower that the Mortar Board sells." From some you might get "a buck fifty I could have used for something useful."

To the florists in Moscow, it means five months of hard work.

The Mums you see on Idaho coeds and mothers, during Homecoming, don't just pop up three days before the game. The labor of preparing the corsages starts way back in the first part of June. It is then that certain crops of chrysanthemums are reserved by Scott's and Moscow Florists.

Various growers in California are contacted to set aside their best flowers for the Idaho Homecoming.

The idea behind contacting more than one grower, is that only the best of the Mums will be shipped to Moscow. If only one grower reserved his crop for Idaho, the Mums would vary both in size and quality.

The correspondence between Moscow and California does not stop with the reservation of crops. All through the summer the florists keep in touch with the growers to see how the flowers are coming; so that if one grower could not supply his part of the order, another grower would be contacted before it would be too

late. Acquiring of Mums are but a small part of the work for the Homecoming corsages. The backing, the ribbons, the leaves, the letter "I", and the bags to pack the corsages in must be ready when the flowers arrive.

The I's, placed in the center of the Mums, are prepared during June and July. Each letter is hand cut to fit the specifications by one thirty-second of an inch. They are then covered with shellac and sprinkled with silver glitter. With each florist making close to 1,000 of these, it adds up to a lot of tedious work.

The backing consists of a circular piece of cardboard with gold and silver leaves connected to the edges. Metallic ribbons, also gold and silver, are tacked to the lower side of the cardboard. The backing is then ready for the flowers. To insure freshness, the Mums are not placed on the backing until Friday night before the game.

Why a Mum for Homecoming? The major reasons are that Mums bloom during the football season and their size and color is very popular with football crowds all across the U.S. In the East, you may be forgiven for not carrying a wool blanket to a football game, but to come to a Homecoming game without a Mum is unpardonable.

So when you get your Mum Saturday, be proud that it's made with your school colors, but give

Fijis Aim For Points In All Sports; Eye Top Four

Phi Gamma Delta aims for the top four in intramural points this year, trying to pick up points in the minor sports that cost them a seventh place finish last season.

The Fiji group picked up 193 points in IM football for the season, sweeping to a first place finish in league IV behind the sure-fingered pass receiving of Jim Wicks.

The "Islanders" are expected to continue adding up points, with prospects good for swimming competition. Dan Slavin heads the Fiji fin stalwarts, followed by Jim Glenn and Dick Chaffin.

Tennis is going against Phi Gamma Delta. Strongman Bob Tunniff dropped from the unbeaten ranks this week.

Wicks and Mike Southcomb head the "Fiji" basketball team, expected to be one of the strongest in hoop competition during the winter months.

On the "B" basketball teams Tunniff will head a number of promising freshmen expected to bolster the minor sport.

The bowling outlook at this point is only fair for the Fijis, Steve Tracy expected to carry the load against reportedly strong and better balanced competition from other living groups.

Although the Fijis lost their star pitcher from last year's softball team, veterans will fill every other position on the field. Currently a search is on to locate a replacement for last year's hurler, Bob Tresnit.

Freshmen are being counted on to "bring home the bacon" in track for the Fijis, with Ron Candary and Weldon Tovey heading the veterans list.

Bill Warner will lead the fresh squad and will team with Candary and Tovey for coming "Turkey Trot" action.

The golf team for the Fijis is expected to be particularly strong this year with the return of Gary Floan, one of the strong national amateurs last year. Floan, however, may pass up intramural golf for the varsity link squad.

Behind Floan on the golf squad are John Davis and Dave Bryan, both expected to rank high in IM golf play.

Smiths Battle For Golf Title

The University of Idaho Golf Championship will be decided this weekend as Robb Smith and Dave Smith battle it out for the tourney crown in the championship flight.

Dave Smith, last year's runnerup in this annual competition, eliminated Robb Smith in the 1958 tourney in their semi-final match to gain a berth in the finals against Ray Kowallis.

Robb Smith should give Dave Smith quite a stiff battle as his hot putting could cause the Coeur d'Alene golfer plenty of trouble in his scheduled competition.

Dave Smith's overall tournament experience and strong play on last spring's Northern Division championship Vandal links crew rate as some of his top golfing assets.

The contest between the two golfers is rated to be about a tossup with Dave Smith rated as perhaps the slight favorite to grab the tournament title from the Twin Falls slugger.

A late professor may be considered a man of distinction. In fact, he is usually in a class by himself.

THE ARGONAUT PAGE 6

Gary Randall's SIDELINES

Outlook Bleak For Vandals

"Oregon's prospects for a successful season are good — IF." Leading off the University of Oregon "varsity prospects" in the Duck press book, that first sentence evidently has already been pretty well backed up.

Right now the Ducks have a solid 5-1 record, indicating the "IF" materialized for Oregon. The big question centered around Oregon's replacements in the middle of the Webfoot interior line, a question mark at the start of the season but by now a question mark no longer . . . there the Ducks are strong.

Elsewhere, with Dave Grosz and Willie West in the backfields and Alden Kimbrough at end, the Oregon crew is particularly strong, so strong in fact that currently Oregon is locked in a Rose Bowl battle with Washington and possibly WSU. Idaho, unhappily, is far out of that particular struggle.

So tomorrow, one of the strongest teams on the coast comes visiting and Coach Skip Stahley faces the problem of whipping his injury-riddled charges into the same fighting spirit they displayed against the Cougars last weekend. If Skip can do the job the Vandals will have a chance against the depth-laden Ducks. If not, tomorrow afternoon could be mighty bleak.

Rose Race Tightens As ND Schools Move For Bowl Bid

A nip and tuck race still rages in the West as the Race for the Rose Bowl roars down the backstretch. Washington, Oregon, and Washington State, who have been leading the pack, are finding themselves challenged. When Saturday's grid results are posted new faces may dot the picture.

The once beaten Washington Huskies after squeaking by formerly first ranked Oregon, 13-12, last week will leave Friday for California. The Huskies will meet UCLA at the Los Angeles Coliseum. Ten juniors and sophomores and sophomore end John Meyers will start with Bob Schoredt calling the signals.

Stanford, plagued with injuries, draws San Jose State this week. The Indians are on the warpath after losing to USC in the closing minutes of play, 30-28. Meanwhile, powerful USC meets another home-state rival, the California Golden Bears who dropped a close 24-20 decision to a pass-minded Oregon State team.

The OSC Beavers hope to chill Washington State's Rose Bowl hopes when the Beavers meet the Cougars in Corvallis.

The Air Force Falcons after stopping UCLA 20-3 to make up for their only loss by the identical score to Oregon, used their Falcon wings to carry them to West Point and Army for the first meeting of the two military teams.

COP, riding on the short end of a 1-4 record after a 21-14 setback by Cincinnati travels to Hawaii to battle the Islanders.

The inland scene sees Utah State, victor last week over Montana State, 22-13, playing an intrastate school rival, BYU; Utah testing Arizona; and Idaho's Dad's

Day foe, Montana, after being moved farther down the ladder into the Skyline Conference cellar with New Mexico's 55-14 scalping of the Grizzlies, trying to tally a win against Colorado State.

Tennis Champ Takes Third Title Despite Skiing Injuries

Jorgen Bryhn, twice winner of the intramural tennis championship and twice the victim of a skiing accident leaving him on crutches, roared back to take his third tennis yesterday, downing Bob Hentges TKE 6-2, 6-3.

Bryhn took his initial crown as a Phi Delt pledge in 1957, then suffered a broken ankle the following winter forcing him to forego varsity tennis competition in the spring.

Bryhn's leg healed, leaving him able to compete again last year, and the slightly limping Norwegian repeated as intramural tennis champ, evidently ready for var-

city competition the following spring.

Came winter, Bryhn tried the ski slopes again and again suffered a broken leg, again keeping him off the tennis squad.

Yesterday Bryhn made history repeat itself, the first three time intramural tennis winner on the Idaho campus.

SCIENTISTS AND ENGINEERS: THE MEN BEHIND THE HEADLINES

NAA's On-Campus Interviews NOV. 9

NEARLY EVERY DAY you read of another advance in science . . . whether it's a space vehicle streaking toward Venus or a submarine gliding beneath the polar ice. These are the events that make headlines . . . but even as they are announced to the world, engineers and scientists are planning new and greater achievements — and research shows them the way.

Scientific research always has had an important role at North American Aviation. Today, research projects are underway at more than 185 laboratories in the six North American divisions. They encompass the full scope of modern science.

Is air stiffer than steel? Not all research has the headline appeal of a space ship or nuclear power. For example, research engineers at the Aeronetics Division, which designs and manufactures space-age navigation systems, found new and different ways of building rotating bearings . . . and found that air is stiffer than steel for some purposes. Improved gyroscopes and magnetic recordings were important results of this research.

A cigarette's place in research Even the ordinary cigarette has a role in scientific research. Scientists at the Aero-Space Laboratories, an organization within North American's Missile Division, use a burning cigarette in a still room to illustrate the difference between laminar flow and turbulence in the boundary layer, the very thin air space that lies along the outer skin of an aircraft or missile. This research is part of a program to find ways to protect missiles, satellites and space ships from burning when they re-enter the earth's atmosphere.

Toward the conquest of Space The Rocketdyne Division has designed and built the bulk of today's operating hardware in the high-thrust rocket field. Explorer I, America's first satellite, was boosted into orbit by a Rocketdyne engine. . . and three-fourths of the power for Able IV-Atlas—man's first attempt to reach toward another planet—comes from liquid-propellant engines designed and built by Rocketdyne. Researchers at Rocketdyne delve into

the chemistry of propellants, the physics of engine components and what happens within them, ignition of fuels, combustion of fuels, and the transfer of heat.

2,000 mph manned weapon system The Los Angeles Division is the home of next-generation manned weapon system, the Mach 3 B-70 Valkyrie strategic bomber, and America's first manned space vehicle, the X-15. Research engineers in this division investigate manufacturing techniques, conduct studies in aerodynamics, materials and processes, and thermodynamics. They also work with physiologists, biotechnologists, biophysicists, and psychologists to solve design problems concerning human capabilities and limitations that arise from modern weapons and research systems.

Building better Navy aircraft Analysis of aircraft carrier operation is a major research project at the Columbus Division. This division designed and built the Navy's T2J Buckeye jet trainer and the Navy's supersonic, all-weather A3J Vigilante. Research activities are diverse here—from how to illuminate an aircraft cockpit to developing unmanned vehicles and systems to perform within the earth's atmosphere.

Developing the peaceful atom The work at the Atomics International Division of North American is part of a large national research effort aimed at the peaceful atom. Success in the development of economical power from the atom depends on thorough knowledge in every phase of atomic power systems and their materials of construction. Atomics International research reactors are in service in Japan, Denmark, West Germany, West Berlin, and Italy.

Opportunities for college graduates Today at North American there is outstanding opportunity for young engineers who want to share the unusual creative problems that face science. You can rapidly build a sound engineering career by working on the top-level projects now underway. Visit your placement office where you'll find all the facts about a challenging and rewarding future with North American.

Idaho Varsity, Yearlings Face Football Action

Injury Riddled Vandals Host Powerful Webfoots

Oregon coach Len Casanova brings his flying Ducks to Neale Stadium at 1:30 tomorrow where they battle the Idaho Vandals in the Idaho eleven's homecoming struggle.

The Ducks, who were undefeated until last Saturday when Washington upset them 13-12, are currently ranked 16th nationally by the AP poll.

Idaho and Oregon have both played several of the same opponents, Washington, Air Force and

Vandal Finmen Begin Practice

With the beginning of swimming season just a month away the Vandal finmen have started working hard on their land drills and exercises.

The Idaho finmen elected Sam McNeill captain for the 1959-60 season, picking last year's "Most Inspirational Swimmer" of 1958-59 to head the squad.

The team will be sporting seven lettermen and some ten other candidates.

The swimmers out at this time are Ken Goodwin, senior distance man; McNeill, senior 220-440 yard man; Chuck Thomas, senior backstroke; Bill Overholser, senior diver; Dave Damon, senior distance man; Al Ray, junior distance man.

Three junior lettermen who are back and will be a great help to the team include Cliff Lawrence who took third in the Northern Division championships last year; Al Hansen holds the school record in the 200 yard butterfly; and Dale Dennis who, if he improves as much this year as he did last year, will be breaking records.

Sophomores who should bolster the team are Van Baser, sprinter; Rob Tyson, individual medley; Chris Nyby, sprinter; Modell Christianson and Bill Stancer.

A transfer from Orange Coast Junior College who has shown good speed thus far is junior Paul Breithaupt.

Three football players who have shown interest in coming out after football season are junior Darrel Vail; Judd Worley, senior, and Rick Dobbins.

"There still is time to tryout for anyone that is interested," head coach Clark Mitchell stated.

WSU ranking as common foes on both teams' schedules. The Webfoots outpointed the WSU Cougars 14-6, upset the Air Force Academy 20-3 and barely lost to the Huskies 12-13.

Idaho, on the other hand, has lost to the Huskies 23-0; the Air Force 21-0 and WSU 27-5. On the comparative basis the Vandals definitely lose out.

Idaho however, has been on the road for her first six games while the Ducks have had the advantage of playing all home games so far this season.

Speedwise the Ducks are very fast, relying on Cleveland Jones or 5-3 halfback "Wee" Willie West to skirt end. Dave Grosz, the Oregon quarterback is considered an extremely slick ball handler and a fairly good passer, currently ranked 40th nationally in total offense.

Last season the powerful Duck field general completed 39 passes for 421 yards, then added 152 ground yards to rank 6th in the PCC.

The Vandals are going to play on their home soil for the first time this season, but coach Skip Stahley indicated that Idaho might attempt to stay off the ground and take to the air-ways against Oregon. Gary Farnworth and Joe Espinoza, along with LeRoy Johnston have been doing the pitching in practice with Hal Fisher, Jim Norton and Reg Carolan, their prime targets.

The line will remain the same with one exception as Tom DiNunovo takes over Prestel's place at tackle. Stan Fanning and Lee Shellman, who both played tremendous ball against the Cougars last week, will again be in the Vandal front line.

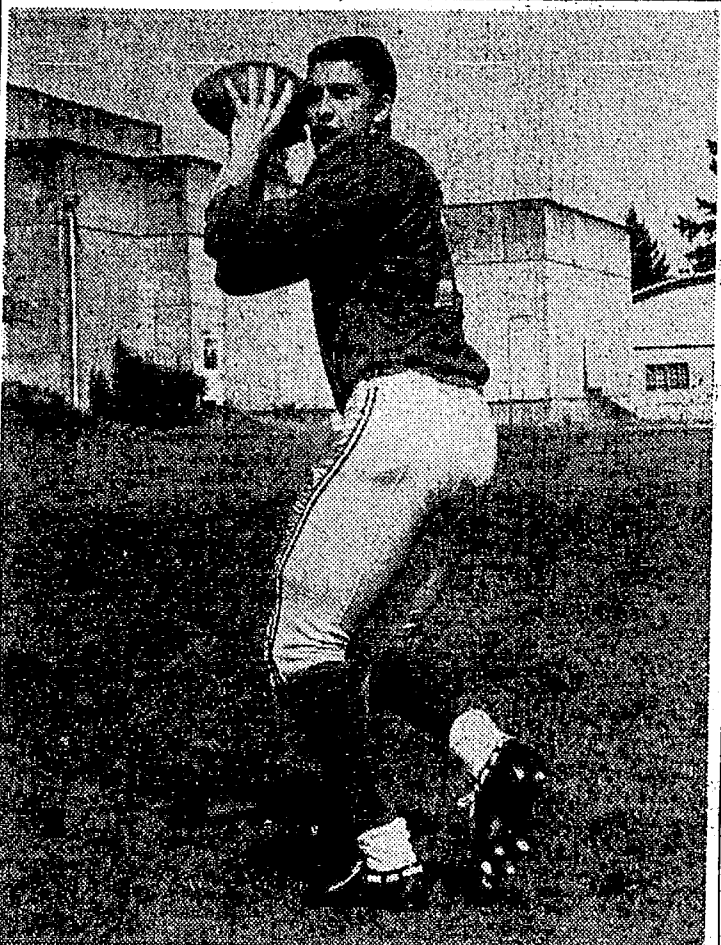

Jim Neibauer and Ron "The Toe" Ismael will also probably join the starting ranks. Ismael's long, long field goal last weekend against the Cougars traveled 45 yards in the air for what is reportedly the longest collegiate field goal for the 1959 season.

Ismael's five three pointers this season leave him in direct line to tie or surpass the NCAA record of seven for one campaign.

John Kyle and Theron Nelsen join June Hanford in the backfield, along with starter Farnworth for tomorrow's contest. Hanford replaces injured Judd Worley.

PAGE 6 THE ARGONAUT

FIELD GENERAL — Dave Grosz, Oregon's rifle-armed quarterback, may be the man to watch tomorrow when the Ducks tangle with the upset-minded Vandals in Neale Stadium. Grosz has spearheaded the Webfoots to a 5-1 season record.

Harriers Try Postal Meet

The Vandal Harriers will take to the track this afternoon in a postal competition run sponsored by Field and Track News.

The Vandals will be competing with WSU locally and other national crosscountry teams by mail.

The meet will be run on the track over a three mile distance.

Frank Wyatt, old PCC title holder of Idaho's record will be out to defend his 14:35.5 timing.

Ray Hatton, Ron Adams, and frosh Ray Allen along with WSU's Don Bertoia will be out to beat Wyatt's time.

Babes Invade Seattle; Try For First Victory

Coach Wayne Anderson and his win-hungry Yearlings left for Seattle yesterday, bound for a clash with the Washington Pups.

Anderson's squad, some 27 strong, will be directed by quarterback Gary Mier against the hosting Husky frosh, as the Vandal babes try for their first win of the season.

Bob Tennyson and Larry Ritter, babe tackle and guard, respectively, will head the frosh front wall against the junior Huskies, reportedly one of the stronger Husky freshman squads in recent years.

Dawn Fannin and Phil Steinblock, the frosh break-away pair, are expected to keep the hosting Washington crew on their toes. Fannin last week broke away for a 97 yard punt run-back against Wenatchee JC, while Steinblock owns a :09.8 timing in the 100 yard dash.

Sports Shorts

Nowhere in football is there an epic that approaches the Saga of Sewanne, the team that played five games in six days and traveled a distance of 3,000 miles to do it.

In November, 1899, Sewanne kicked off its road tour with a game on the 8th against the unbeaten Texas University team. Sewanne won 12-0.

On November 9, Sewanne played Texas A&M. Sewanne won, 32-0.

Sunday gave the Sewanne squad a break, but on Nov. 12 Louisiana State met the Sewanne crew. Sewanne won, 34-0.

Mississippi State was last on the roster. Sewanne won, 12-0.

The final tabulation found Sewanne with a total of 113 points in six days, Sewanne's opponents with none, completing the most amazing glory junket in football history.

But stranger still, that incredible undefeated football squad consisted of only twelve players, and came from an institution with a student body of only 97 men!

Second in a series of sports oddities—

NCAA Slaps Four Schools

Wyoming and Montana State joined Arizona State and Mississippi on the NCAA "bad boys" list yesterday with promise that "more would follow."

According to one source an estimated 13 additional schools are subject to scrutiny by the NCAA discipline committee.

Wyoming, now leading the Sky-line Conference in football, drew a one year probation sentence and lost any chance to appear in a post-season bowl game. The Cowboys last year appeared in the Sun Bowl and were considered a solid favorite to draw a bid again this season.

Montana State is an old member of the probation list, having been removed only last year after a year penalty for playing in an unauthorized bowl game.

Arizona State, one of the first to earn the dubious honor of probation, drew a two-year term for a long list of infractions, most of them boiling down to illegal recruiting and aid to athletes.

Mississippi, unlike Arizona State, will be eligible for bowl games and television appearances and earned only a one year probation. The Rebels were convicted of illegal aid to only one athlete, thus falling out of the Arizona State class of "aid to all."

In other NCAA action an amendment was proposed and passed (subject to approval by the national convention) that would limit alien students to 10 or 15 quarters of eligibility and in addition limit the eligibility of older foreign athletes.

The latter amendment might cut into Idaho's nationally ranked cross country team as all of the runners are over the 22-year age limit, and thus might be held to only one year of further eligibility.

INTRAMURALS

Many "splishings and splashings" were seen last night at the University of Idaho Memorial Gym as intramural swimming began its second night of preliminaries.

The preliminaries determined the qualifiers for the semi-final berths and the final heat postings that will be held next week for the championship in intramural swimming.

Events scheduled for last night's competition of the "aqua aces" were competition in the 100-yard freestyle, 150 yard medley relay, 200-yard relay, and the diving crown.

Some 48 swimmers qualified for semi-final competition last Wednesday night in intramural swimming in three events with Beta Theta Pi and Phi Kappa Tau grabbing the early point lead with 27 tallies.

Following the Betas and Phi Tau were the Tekes and the Fijis. Close behind the front runners are Delta Tau Delta and Delta Sig with 18 and Kappa Sig at 17 marks.
