

Move To Cut Finals Started

A proposal that would excuse seniors from final examination week second semester was given to the Administrative Council Wednesday, Bill Agee, senior class president said yesterday.

Jason has had about all he can take on the SUB issue.

The facts have been presented three or four times in this newspaper and the offices of the ASUI president thrown open to students with questions.

Still most of the opponents of the proposed SUB addition bleat that they are unable to obtain the "facts" and someone is trying to pull the wool over their eyes.

A great number of those we personally have talked to still believe, after numerous explanations to the contrary, that the money available for the new union addition could be used for the building of a new science or forestry building.

For the last time, it cannot be. Money is available from the Federal Housing Authority for a student-financed project, which the science and forestry buildings would not be.

Jason thinks that those who are loudest in their protest of the new SUB would likely be just as vociferous against new science or forestry buildings, if they weren't majoring or taking courses in those particular areas.

Written protests to the ASUI President, Executive Board members and others concerned have been coming in only in trickles. If any of you feel you're still not being heard, then have the guts enough to come out in the open and say so.

Jason almost totally disagrees with Lloyd (Red) Taylor of Willis Sweet Hall on the SUB issue, but respects him for the positiveness of his stand.

Any more cries of "wolf" from people who won't make themselves known are going to fall on deaf ears, as they should.

State Economy Has Jumped Since 1946

A significant step in the advance of Idaho's economy was noted today by Dr. Norman Nybroten, associate director of the Bureau of Business and Economic Research at the University.

His comment was based on a report in the January issue of The Exchange, monthly publication of the New York Stock Exchange, that, between 1946 and 1957, Idaho registered the greatest spurt in dividend income of any state. Tax returns show, the report stated, that in 1946 this income to Idaho residents totaled only \$4,960,000, but by 1957 it had jumped to \$30,625,000 plus \$50-per-taxpayer exclusion in federal tax returns.

Short of Money

"The pioneers who entered the relatively new state of Idaho were typically short of money needed for developing farms and other industry," said Nybroten. "When investment money became available it was put primarily into self-owned enterprises.

"Also, there is the factor that rural residents have traditionally been inclined to avoid investing in securities. Today this attitude is changing. This change, plus the evidence of more available capital, holds promise for the state's industrial future.

"Some of the 26,000 Idaho residents who are security shareholders will no doubt have a profound effect on instilling confidence in development of large industry in Idaho."

Male Rushes Must Register

All male students interested in going through semester rush must register on or before Jan. 22 at Office of Student Affairs in the Ad building annex, said Scott Culp, Fiji, rush chairman yesterday.

No formal rush will be held. There will be no registration fee, or tours. Each fraternity will be sent a list of rushes which they may snap pledge or invite to their houses. Snap pledging may begin Jan. 30 for those registered while those not registered who wish to pledge must wait till Feb. 14.

Hall deposits will be refunded until Feb. 7. About 8 or 9 students have already registered.

Agee said the proposal, a senior class project, was brought up in the Executive Board before Christmas and was last week presented to Executive Dean Walter Steffens. The petition sent to the Administrative Council will probably be discussed next Wednesday in the Academic Council.

Under the recommendation, seniors would be excused from finals and instructors would have discretionary power in giving seniors their final grades.

Teachers could still give final tests but they would have to be before the beginning of final week. Or they could base their grade on other tests during the semester.

To Free Seniors

The main object is to free seniors from tests during the rush of activities preceding graduation.

The petition also stated that this would allow seniors to get their grades and tests back before commencement ceremonies. Now, only about 30 per cent of the graduating class knows their grades at graduation time, Agee noted.

Instead, grades are mailed out a few weeks after school. The proposal would also be appreciated by the marginal student who might have to make plans for summer school.

Another argument stated that in reality, only a very small percentage of semester grades are changed because of final exams. This is based on the assumption that a student's grade pattern is usually set through his previous work in the semester, and a final test grade would seldom deviate.

The proposal, if passed by the Academic Council next Wednesday, would have to secure approval from the faculty and Board of Regents before such a catalog change could go into effect.

282 Received Grants In 1959

Scholarships amounting to \$71,315.00 have been awarded to a total of 282 University students this year, Charles O. Decker, dean of students, reported.

This is an average of about \$253 per student.

Decker said that the scholarship holders include 230 students from 78 different communities in Idaho; 45 from 15 other states and seven from six foreign countries. The countries are Canada, England, France, Hungary, Korea and Norway.

The biggest number of scholarships, 116, are held by students in the College of Letters and Science. All divisions of the University are represented, however.

Although men outnumber women at the University about three to one, the women hold scholarships in the higher proportion. The men have 171 and the women 111.

Adult Education Claims Large Number Of Total Enrollment

State-wide enrollment in University classes and courses is more than 7,500 students — and growing, Dr. Thomas Dahle, director of the adult education and summer school at the University, said today.

The figure includes more than 3,600 participants in adult education programs and the resident student enrollment of just under 4,000.

"Adult education is an extremely valuable supplement to existing school systems," said Dahle. "What makes an adult program a success? Apparently it is the realization that learning is a never ending process."

"The major portion of field services are the educational extension courses. We have a field service administrator whose function it is to contact school authorities and local groups and individuals throughout the state to determine their interest and needs for university level instruction."

Where interest warrants, arrangements are made for a meeting place and a qualified instructor who organizes the course outline to parallel the course offered on campus.

Other Centers

Services of the division also extend to instruction offered at Adult Education Centers like those recently opened in Boise and at Mountain Home Air Force Base. The correspondence study pro-

MISS JONES . . . take a letter. Remind me to begin making up those semester exams next week. Work, work, always work. This teaching is a dog's life. (Bruce Wendle photo.)

Band, Orchestra, Choir To Combine For Concert

The University Concert band, Symphony orchestra, and Vandaleer concert will combine efforts to present a program for those attending the Conference on Music Education and interested students.

The concert will begin at 8 p.m. in the University auditorium.

With a two-day coaching clinic for superior music students of northern Idaho, the conference opened this morning at 8 a.m.

Sessions for the delegates will include instructional meetings on orchestra performance, instrumental and choral sessions and special meetings for elementary educators and education majors.

Also featured as part of the program will be performances by the Lewiston High School chorus, Coeur d'Alene High School orchestra and the Moscow High School band.

The Idaho Music Teachers Association will sponsor a luncheon Saturday in the SUB for the conference attendees.

An honor band composed of musicians chosen from District No. 1 and 2 of the Music Educators Association will climax the conference with a concert on Saturday evening in the Moscow High School Auditorium.

Exhibits by six music publishers, three instrumental manufacturers and music stores in the Moscow area will be on display in the Music Building during the conference.

Singers To Join In Music Concert

University Singers and Vandaleers will join voices Tuesday night in a combined presentation of "Elijah," by Mendelssohn.

The concert will be at 8 p.m. in the University Auditorium. Norman Logan, associate professor of music, will direct the combined choirs.

Debaters Set Tournament

The 25th Inland Empire debate tournament is being held here today and tomorrow.

Seventy debaters from Oregon State College, Whitman, Washington State University, University of Montana, Gonzaga University, College of Idaho, Boise Junior College, Columbia Basin, and the University will argue the national debate topic, "Resolved, that Congress should be given the power to reverse decisions of the Supreme Court."

Idaho, defending champion from last year, will be represented by four teams including Marsh a 11 Hauck, Fred Decker and Don Howard, Lambda Chi; James Herndon, and Gary Woolverton, Sigma Chi; Marvin Heileson, Willis Sweet; Charles Nicholas, McConnell Hall; and Larry Grimes, Beta Theta Phi.

Functions To Stop Until Finals Over

All living group extra-curricular functions will stop today and will not resume until after registration on Feb. 1 and 2.

The Forester's Ball on Feb. 5 will be the first dance after registration.

Evaluation Week Gets Rejection

A "Teacher Evaluation Week" has been turned down by the Inservice Training Committee, but plans are moving ahead for use of teacher evaluation forms this semester.

The evaluation week was tentatively approved by the Executive Board, but at its meeting Tuesday, the Board was told by President Laird Noh that the Inservice Training Committee had rejected the idea, at least for the present.

Noh said, however, that the work done by the Board in setting up new evaluation sheets would likely be carried through this semester, if possible.

"We hope that more instructors, especially those who haven't taken advantage in the past, will use the evaluation sheets," Noh said.

Felt Not Feasible

Dr. Dwight Kindschy, chairman of the Inservice Training Committee, reported that several members of that group felt that an evaluation week wouldn't be feasible but most were for some sort of teacher evaluation, he said.

In other business Tuesday night the Board:

1. Heard a report on a proposed new Public Relations Committee from Rafe Gibbs, University director of information. Gibbs said he was in favor of the committee, chiefly organized by Board member Leo Tafolla. The matter was referred to committee for study.

2. Took under advisement an amendment to the ASUI constitution which specifies that any amendment to the constitution should be originated by a 2-3 vote of the Board or by a petition signed by at least 10 per cent of the student body. If accepted, the amendment probably will be put on the spring election ballot.

3. Noh appointed a committee Bruce Summers, chairman; Dennis Hague, Beta; Paul Kroge, Chrisman; Neil Leitner, ATO; Bill Pasley and Harry Stunz, Sigma Nu; Garth Sasser, FarmHouse; and Dave Trail, Sigma Chi.

Coordination Cited As Key To U. Harmony

Pointing to a record of co-operation in University planning, Executive Dean H. Walter Steffens told an AAUP-sponsored faculty meeting last night that he feels all suggestions for school improvement programs must be co-ordinated through the President's office.

In the past, Steffens said, the faculty and the AAUP have been used in preparing budget requests, as well as aiding in the presentation of information of the University's well being.

"It is my observation," he said, "that the help of the faculty has been sought and given careful consideration."

Steffens' comments were prompted by an AAUP committee request, asking for investigation into the possibility of using the faculty more directly in solving legislative problems.

Takes Issue

Steffens took issue with the idea of using the faculty as a lobbying agent.

"I have really never pictured our faculty in the role of lobbyists," he said.

"It is my personal opinion," he added, "that University efforts on behalf of such programs as the budget, building, recruitment and public relations must be a co-ordinated effort."

Steffens said that some of the state controlled schools in Oregon have worked together through their AAUP organizations in helping with budget determination and making salary studies.

This joint group, he said, was authorized by Oregon's chancellor to meet with the ways and means committee of the state legislature.

However, Steffens added, this was possible in Oregon because the AAUP forces of all the state institutions of higher learning were banded together.

Man-Made Icicle Work Of Students

CAMBRIDGE, Mass. — Out of necessity, fads these days have to conform to their environment. Massachusetts Institute of Technology students aren't at a loss for ideas just because winter weather keeps most people indoors.

Three men of Baker House boast the world's largest man-made icicle. It was formed by dropping a string with an ice cube tied at the bottom from a fourth floor window ledge. Then a trickle of water was siphoned from a barrel down the string.

And what's more, the icicle was in three colors — red, white and blue. At one point it was about 14 inches wide.

An unscientific janitor, who evidently didn't appreciate the trio's accomplishments, abbreviated the four-story icicle by clipping it at the top, however.

20 Initiated By Blue Key Service Group

Blue Key, national upperclassman's service honorary, formally initiated 20 men Wednesday night in the north ballroom of the SUB.

The initiation lasted about fifteen minutes followed by a banquet. Rafe Gibbs, publications director, was the after-dinner speaker.

Those initiated were Bill Agee and Bruce McCowan, off campus; Bob Bernard, John Fitzgerald, Dick Rene and Bob Shumaker, Delt; Dwight Chapin and Gordon Powers, Willis Sweet; Gordon Chester, Kent Harrison and Gary Randall, Phi Delt; Jim Flanigan, Theta Chi.

Denny Hague, Beta; Paul Kroge, Chrisman; Neil Leitner, ATO; Bill Pasley and Harry Stunz, Sigma Nu; Garth Sasser, FarmHouse; and Dave Trail, Sigma Chi.

Each new member received a gold key and a membership card.

Initiation Of 2 Slated By Frat

Formal initiation of two Idaho coeds into the University chapter of Theta Sigma Phi, women's professional fraternity, will be held at 7:30 p.m. Monday in conf. room D of the SUB.

The new members will be Neela McCowan, DG, co-editor of the Gem, and Sonja Carlson, Ethel Steel, one of the few women agricultural majors.

Student eligibility for membership in Theta Sigma Phi is limited to women who have shown an active interest in journalism and have participated in publications work during their college career.

The organization is national in scope and includes both student and professional chapters.

Kroge Believes SUB Addition Issue Was Decided In 1958

By NEIL LEITNER
Argonaut News Editor

"The SUB expansion issue has already been decided positively in a vote two years ago; we should let it stand at that."

This is the opinion of Paul Kroge, Chrisman, one of the four independent members of the ASUI Executive board.

Kroge, a quiet, unassuming junior electrical engineer on the five year plan, is in favor of SUB expansion, which he believes is for the general betterment of the school.

Kroge thinks that one of the functions of a University is to provide the student with a well-rounded viewpoint and education, and the main function of a union building is to provide these benefits."

"However," he said, "I'm glad the skating rink was left out of the revised plans for the building. I don't think there is a crying need for a student ice skating rink, and the money involved in creating one was a little too much for what we could get out of it."

Glib Talkers Oppose SUB

"Opposition to the expansion movement," he continued, "may be sincere, but I think much of it is generated by glib talkers and word-smiths who merely say that if we get a new SUB, our bills will immediately go up \$15 a semester. They leave out the other side of

Leaders Move To Solve SUB Building Snarl

University officials and student leaders have made moves to untangle the confusion surrounding construction of a new addition to the present Student Union Building.

A house presidents' meeting was held last night to explain the progress of the project to date.

Laird Noh, ASUI president, said that the relation of the Executive Board and the SUB Council in connection with the building program was pointed out.

At the same meeting, the annual instructor evaluation project and library losses were discussed.

Concerning the SUB addition, Noh said:

"The Executive Board will keep informed on the subject and will be open to all questions."

Noh noted that only one petition containing 26 names has been turned in to his office in connection with the recent controversy on going ahead with the addition.

The petition, from Campus Club, requested that "the students of the University of Idaho should be allowed to vote on the issue."

Several straw votes have also been taken to see if a vote would be desired.

At the request of Dr. D. R. Theophilus, University president, C. O. Decker, dean of student affairs, has prepared a report showing the growth of the program from inception to the present time.

Decker's report shows that the fact that an addition would be built has been before the campus nearly four years. He pointed out each action taken on the program and how it was publicized.

Decker said that literature, news stories, diagrams, and informed people were available during the addition's promotion period to explain the project to anyone interested.

At the time the project was being discussed on a campus-wide basis, Dr. Theophilus made the following statement in the Argonaut and a brochure on the SUB addition:

"Wide experience has established that an adequate, functional, attractive Student Union is essential as part of the integrated educational program of a modern college or university.

"It serves as the focal point for recreation, social, and cultural activities of the institution, and is invaluable in centralizing student extra-curricular interests.

"It is my earnest hope that every student will give serious consideration to the merits of the proposal and will express his or her opinion."

Two Parties Hold Meeting

The last "summit" conference of the United-Independent coalition committee was held last night in the SUB.

Leading the group were Dan Watson, Lindley, president of Independent Caucus and Bob Bernard, Delt, president of United Caucus.

Problems concerning Greek-Independent relations were discussed and suggestions to promote better campus harmony were considered for definite action.

Some of the ideas previously suggested were dinner exchanges between members of Greek and Independent living groups and a new system of frosh orientation to allow both sides of campus to become acquainted at the beginning of college life.

Knight Is Eligible For Scholarship

A general scholarship for any past or present Intercollegiate Knights is available.

Applicants for the \$100 scholarship may apply to Dean C. O. Decker's office in the Ad Annex. The scholarship, awarded once each year, went to Bob Schumaker, Delt, last year.

(Continued on Page 2, Col. 5)

'Food For Thought' In SUB

By BRUCE WENDE
Argonaut Staff Writer

It would take eight prize milk producing cows one full year of milk-giving to produce the amount of milk necessary to keep up with the Student Union Building's bucket.

The average milk produced in the U.S. in 1957 was approximately 6,000 lbs. per cow. The amount of milk thrown down the hatch by "moo juice" drinkers in the SUB during one average day is 22.5 gallons.

In the hamburger department the buns used for this favorite dish in one college semester would pile up as high as a three story building and the amount of actual hamburger used totals some 60 pounds per month.

The beef used for this hamburger as well as other beef dishes would be enough to start up a small ranch. Last year, 11 beef steers averaging 1,000 pounds apiece ended up as juicy steaks and other not quite so glorious food for the bucket.

One big item everyone is always wondering about is how much of that brown caffeine ridden life saver, known as coffee, is guzzled. Approximately 30, 50-gallon barrels would just keep the University functioning correctly for

one month. More than 780 cups were tipped in an average day and 11 quarts of half-and-half used to dilute it down.

Other interesting items disappearing in the glass lined cafe regularly are 290 pounds of tuna fish per year, 250 gallons of milk shake and 1,250 gallons of pink lemonade per year.

Last year, 31 big turkey wish-bones were all that was left of

31 of these 20-pound birds which were tipped in turkey sandwiches and creamed dishes.

Up to now, the record for meals served in the bucket in one day rests at 2,200. At this rate it would only take five days to feed every man, woman and child in Moscow one square meal.

All of these statistics are food for thought.

Dear Jason:

This is a gripe. To the loud-mouths of the University of Idaho: I have just returned from an Idaho basketball game, almost ashamed to admit that I am a member of the University of Idaho student body.

The University of Idaho is said to be lacking in school spirit. It is. And when traveling teams come to play us here, they take back this information to their respective schools.

This is bad enough, but think of what else they are saying about us. Mainly about how the Idaho students conduct themselves at the games. About how we "boo" the referees from the starting whistle on. About how we make loud, ridiculous remarks at the other team's players. And how we even chop our own players down when they do something wrong!

This is my gripe. I have never seen anything like this anywhere else. The fellows playing the game are showing good sportsmanship. Why don't we?

Let's act our age and give the visiting teams something good to say about Idaho when they return to their schools.

Jim Zander

SWASTIKAS HIT BY U
Swastikas appeared this week in downtown Provo, on Brigham Young University and even on a security police car. Officials said it was doubtful that the acts were an expression of anti-Semitism but referred to them as "a dirty prank."

HERE'S MORE ABOUT... Krogue

average freshman was confused about much of what was going on during the week.

"The Board has taken this into consideration and will attempt to improve the week next year."

Krogue was one of the Board members voting in favor of Leo Tafolla's proposed Public Relations committee.

The PR committee basically is designed to permit the broader dissemination of news by student workers. Many people, however, believe that Tafolla will have trouble getting students to put in the amount of time required to do the job well, and that once the students are weeded out who are in the program for "glory seeking," the project will fail.

"Not so," Krogue said. "I think that the overall viewpoint of the committee is more important than the individual work, and that if the committee heads under the PR project are allowed to work at their own speed, there is no reason why they would want to quit."

"I believe Leo's work in organizing this committee was the best job done by any member of the Board so far this year. A lot of planning and thought went into the organization of the public relations committee."

One of Krogue's pet ideas is a concrete plan to sell the University more to the students and the state, to make many of them realize that Idaho is a first-rate institution. "One of the better ways of doing this," he said, "is by mentioning achievements of Idaho graduates and making known to the people of Idaho that many men from the institution achieved fame after graduation."

'Li'l Abner' Production Staff Selected, Work Starts Soon

The production staff for "Li'l Abner," was selected recently announced Miss Jean Collette, head of dramatics, co-director. They will begin work within the week for the Mar. 3-5 production, she said.

Assistants to the director for the musical are Ed Vandervort, off-campus, and Orinda Hamon, Forney. Stage manager is Jack Starr, off campus.

The costume committee chairman is Mary Tsudaka, Forney, with committee members Billie Sommers, Tri-Delt; Cookie Goodwin, Alpha Chi; Robbie Maughan, Forney; Joanne Gartland, Tri-Delt; Angie Arrien and Linda Ensign, Kappa.

Skip Jones, Beta, will head the light committee with assistants Tom Kerr, off campus, and John

Cantele, Lambda Chi.

Sally Wilbanks, Pi Phi, is in charge of properties. Bill Line, Upham; Jeannie Rau, Alpha Phi, and Susy Wilson, Forney, will assist her.

Gay Graham, Alpha Gam, is chairman of the makeup crew. Crew members include Ramona Legg, Alpha Gam; Sally Wilbanks, Pi Phi; Jeannie Rau, Alpha Phi; Bonnie Scott, Alpha Gam; Orinda Hamon, Forney; and Vandervort. Lynn Snider, off campus, is house manager.

Linda Talbot, off campus, will head the paint crew, with assistants, Nancy Welker, DG; Sharon Houck, Alpha Gam, and Peggy Shelton, off campus.

Tom Baldwin, Gault, is head of publicity for the production. His

Former Vandal Signs Pro Contract

One more ex-Idaho football player signed a professional football contract as former end Wade Patterson added his name to the Denver team of the new American Football League roster.

Patterson, a three-year letterman for the Vandals who graduated in 1959, played his prep ball for Moscow. Patterson currently weighs in at 225 pounds and stands 6-2. He is now stationed in an army post in Colorado.

Other committee members are Terry Messenger, Lindley; Vandervort; Jack Starr, off campus, and Skip Jones.

crew members include Jeannie Rau, Alpha Phi; Jill Mattheis and Suzanne Best, Gamma Phi.

Euclid Lee, Lindley, will head the building and staging crew. Other committee members are Terry Messenger, Lindley; Vandervort; Jack Starr, off campus, and Skip Jones.

Kent Reports Idaho's Potato Production Leads 50 States

Idaho is getting a progressively larger share of the nation's potato market and now is the largest potato producing state, Cecil E. Kent, Caldwell, general manager of the Western Idaho Potato Growers reported at the University Agricultural Research Conference.

The state, he said, has increased shipments of fresh potatoes while showing a tremendous growth in processing.

Last year, Kent noted, Idaho accounted for 23 per cent of total national potato production. Ten years ago Idaho was credited with 12 per cent of total United States production. Potato acreage has increased from a 1949-57 average of 149,800 acres to 200,000 acres in 1959. Carot shipments increased from 32,860 in 1949 to 47,602 in 1958. Per cent of the total crop processed increased from 13 per cent in 1949 to 38 per cent in 1958.

"Some sources predict that 50 per cent of Idaho's potato crop will be processed in 1960," he commented. "Processed potato volume is expected to reach 75 per cent by 1970."

Adjustment problems facing potato growers, shippers, and pro-

cessors point up the need for a state potato research center, Kent declared.

"The feasibility of such a research center for our industry should be studied immediately," he recommended. "Surely Idaho, as the leading potato-producing state, can well afford to develop and operate such a center to point the way in competing with and staying ahead of other producing areas."

Recovery Of Fuel, Topic Of Lecture

New techniques in the recovery of reusable nuclear fuel from atomic reactions were explained yesterday by Leslie Burris, Jr., head of the pyrometallurgical development for Argonne National Laboratory.

Speaking to some 100 chemical and mechanical engineers, Burris used several excellent slides to emphasize his topic. A new pyrometallurgical process which will be utilized at a new Idaho reactor was discussed.

A Campus-to-Career Case History

Ken Murphy meets with Revenue Accounting people to discuss a new statistical formula. This will be used to proportion the billing time spent on interstate and intrastate Long Distance calls.

He's making math and telephones add up to a fine business career

During his senior year in college, math major Kendall T. Murphy had job interviews with several firms, but none of them appealed to him. "I wasn't interested in doing pure mathematics," he says. "I wanted to apply math and statistics to everyday business problems and have management responsibilities, too."

At a professor's suggestion, Ken talked with a Bell System representative and was "surprised to learn how many practical applications statistics had in telephone company operations." The thorough and varied training program and opportunities to advance as a member of management also impressed him.

Ken joined the Pacific Telephone and Telegraph Company at Sacramento, California, in June, 1956. Two years of rotational training familiarized him with company equipment, services and commercial procedures. Then he was assigned to the Chief Statistician's Office in San Francisco.

Today, as a Staff Statistician, Ken is applying his math background to a variety of statistical studies dealing with: rates and revenue, inventory and obsolescence of equipment, customer opinion, personnel administration, quality control and auditing.

"This is a big, fast-growing business," says Ken. "and I feel I'm helping it operate more efficiently every day. That's a mighty satisfying way to put my college education to work."

Ken Murphy got his B.A. in Mathematics from the University of California's Santa Barbara College in 1956. He's one of many young men building interesting careers in the Bell Telephone Companies. There could be one for you, too. Be sure to talk it over with the Bell interviewer when he visits your campus.

BELL TELEPHONE COMPANIES

Semester Elections Held; Finals Are Set

By MARSHA BUROKER
Argonaut Society Edition

Elections at French House, Phi Phi, Chrisman Hall, Alpha Phi, and Forney during the week produced a new slate of officers for the coming semester. Traditional before finals, cramming begins in full force with the closed week end.

PHI PHIS elected Carolyn Kudlac their president during elections last Monday. Other officers are: Diane Smith, vice president; Marsha Buroker, corresponding secretary; Barbara Brooks, recording secretary; Nancy Hubbard, treasurer; Judy Rogers, assistant treasurer; Jan Alden, rush captain; Sharon Nieland, assistant rush captain; Dona Newman, historian; Sharon Nieland, assistant historian; Linda Haight and Joan Carnexif, censors; Jan Alden, Panhellenic delegate; Sharon Price, scholarship chairman.

New officers of **CHRISMAN HALL** are: Malcolm Alexander, president; Dee Walker, vice president; Lawrence Chipman, secretary; Gene Lawrence, treasurer; Ralph Baughman, social chairman; Mike Lewis, intramural manager; Bob Cochran and Dave Paepke, assistant intramural managers and Jim Fischer, reporter.

Taking over this term as officers of **ALPHA PHI** are: Janice Crane, president; Winifred Unzicker, scholarship chairman; Shauna Gylli, pledge trainer; Lois Manweiler, treasurer; Nonni Norman, house manager; Christine Hauff, hostess; Mary Evans, social chairman; Lyndal Williams, corresponding secretary.

Election and installation of new officers was held at **FRENCH HOUSE** Wednesday evening. Exchanges have been held with Lambda Chi and Phi Taus.

National **THETA CHI** president, William Frantz, visited the local chapter Monday on a tour of Pacific Northwest chapters of Theta Chi.

Members of **DELTA GAMMA** had an exchange with the Delta Upsilon from WSU. Gale Conard was a mid-week guest for the celebration of his birthday.

In a chapter meeting held this week, the **KAPPA SIGS** elected new officers. They are: J. E.

Greenstreet, president; Lee Townsend, vice president; Lewis Meeks, scholarship and pledge trainer; Leon McConville, secretary; Herb Hollinger, assistant secretary; Ed Schultz, treasurer; Bill Thompson, assistant treasurer. Formal pledging was held for Jim Doll and Ken Turner. A Senior banquet will be this Sunday. Alumni advisor, Bob Blanton, gave a report on the bond drive for house remodeling to be done this summer.

Members of **ALPHA GAM** and friends surprised Mrs. Dave Anderson and Connie Harding at a breakfast bridal shower Saturday morning.

Judy Johnson, Alpha Chi, entertained at an exchange with **UPHAM HALL** Wednesday evening. Election of new Upham officers will take place Friday. Wade G. Wells, Boise, and Wade G. Wells, II, Upham, were dinner guests Wednesday. Roger Falen is new president of the Block and Bridge Club.

Dinner guests of the **SAEs** were Bill Joa, Larry Teplay, Upham, and Doug Allman, Gualt. Injunction was held for the new members of Little Sisters of Minerva. Roger Jones was chosen SAE of the Month.

FORNEY HALL elected the following new officers: Marjean McNeal, president; Orinda Hamon, vice president; Bonnie Baum, secretary; Brenda Brown, treasurer; Evelyn Peterson, social chairman; Sharon Tremay, culture chairman; Ludel Boyd, scholarship chairman; Rosie Bruce, song leader; Jackie Curtis, WRA; Ann Yorkhinda, activities; Karen Cann and Rose Renton, AWS; Myrna Leatham, Senior representative; Judy Abernathy, junior representative; Donna Finker, sophomore representative; Yolanda Lewandowicz, reporter; Chris Hajest, historian.

Special guest of **SIGMA NU** during final week will be T. H. Wade, Whitman College, who will work with President Gary Farnworth on a fraternity project.

BETA song leader, Larry Grimes and 16 Beta vocalists are practicing for the annual Beta Songfest and Conclave at Seattle February 13.

Rings 'N Things

MARRIAGES

SNOOK-SCOTT
Dress dinner Wednesday at the Alpha Phi House revealed the marriage of Mary Snook and Don Scott, San Jose, Calif. They were married New Year's Eve at San Jose. The rings were placed in a nosegay of pink rosebuds and white freizas.

REESE-RANDOLPH
During the Christmas holidays, the marriage of Jo Ann Reese, Delta Gamma, and David Randolph, Phi Delt, took place at Twia Falls on Dec. 28.

WARREN-ANDREWS
Dec. 27 Sherri Warren, Alpha Gam, was united in marriage with Dave Andrews, Lindley. The wedding took place in the afternoon at Weiser.

ENGAGEMENTS
RENTON-NEIBAUER
Rose Renton, Forney, announced her engagement to Jim Neibauer, Gault, at a fireside Thursday evening. The ring was passed among the girls and was mounted on a red heart and telephone with the phrase, "It started with a kiss." A poem was then read and

DAVIDSON-TODD
A pink candle floating in a crystal bowl was passed at an Alpha Gam fireside Sunday night to announce the pinning of Lila Davidson to Mark Todd, Teke.

SHERN-TRAIL
As a poem was read by Blanche Blecha, the traditional candle was passed to reveal the pinning of Suzie Shern, Alpha Phi, to Dave Trail, Sigma Chi.

LAWHEAD-NYBY
Chris Nyby, Teke, disclosed his recent pinning to Sue Lawhead, University of California, Santa Barbara, with cigars last week.

BEREITER-PURCELL
Darrell Purcell, Teke, announced his pinning to Sallie Bereiter, WSU, last week with a box of cigars.

cookies served.
BRUCE-CHRISP
The theme "a special package" was used to announce the engagement of Rose Bruce, Forney, to Clarence Chrisp, WSU, at a candlelight dinner Sunday.

BECKSTEAD-POTTER
Mary Beckstead, Salt Lake City, has announced her engagement to Glenn Potter, Delt.

SHUTE-CHRISTY
Dave Christy, Teke, revealed his engagement to Ruth Ann Shute, Ohio State, with the traditional box of cigars last week.

PINNINGS
DAVIDSON-TODD
A pink candle floating in a crystal bowl was passed at an Alpha Gam fireside Sunday night to announce the pinning of Lila Davidson to Mark Todd, Teke.

SHERN-TRAIL
As a poem was read by Blanche Blecha, the traditional candle was passed to reveal the pinning of Suzie Shern, Alpha Phi, to Dave Trail, Sigma Chi.

LAWHEAD-NYBY
Chris Nyby, Teke, disclosed his recent pinning to Sue Lawhead, University of California, Santa Barbara, with cigars last week.

BEREITER-PURCELL
Darrell Purcell, Teke, announced his pinning to Sallie Bereiter, WSU, last week with a box of cigars.

13 Candidates Told By Navy

One of 13 candidates will reign as Navy Color Girl over the Navy Ball, to be held Feb. 13 in the SUB ballrooms.

The candidates, announced yesterday by the Navy department, are Linda Campbell, Alpha Chi; Linda Lewin, Alpha Gam; Barbara Fowler, Alpha Phi; Sue Greenleaf, Tri Delt; Rosie Curteman, DG; Shirley Anderson, Steel; Karen Bell, French; Janet Kayler, Forney; Georgia Marshall, Gamma Phi; Jeanine Ball, Hays; Jo Ann Tatum, Kappa; Georganne McDowell, Theta; and Bette Vickerman, Pi Phi.

Contrary to past Balls, finalists will not be announced until the dance, to keep everyone happy till the last minute.

Brody Conklin, Delt, is general chairman of the dance. Upperclass members of both the Air Force and the Army will be issued invitations, but will still have to pay the \$2 a couple admission.

McLVAINE SPEAKS
Dr. Harold McLvaine, professor of botany, spoke on "Nucleic Acid and its Effects on Heredity" last night before Psi Sigma Pi, forestry honorary.

LOST ENCYCLOPEDIA
Volume 14 of the Encyclopedia Americana has been turned into the Lost and Found collection in the Registrar's office. There is no name in the book.

Combined Ecumenical Retreat Is Being Planned By Five C's

As a follow-up to the recent Student Christian Movement conference in Athens, Ohio during Christmas vacation, the Campus Christian Center Coordinating Council (representing Presbyterian, Lutheran, Baptist, Methodist, and Christian church student groups on campus) will hold a retreat at Camp Spaldin at Davis Lake, Washington between semesters on January 29-31. The announced theme of the retreat is "Frontiers of Christianity." Idaho students who attended the conference in Ohio will be the speakers and discussion leaders. Sign up sheet is in the Campus Christian Center.

NEWMAN CLUB
Sunday, following the 9:30 Mass, the Newman Club will have a breakfast and short business meeting. At this time the club will have its annual election of officers.

WESTMINSTER FORUM
Dr. Malcolm Rentrow will speak to the Westminster Forum on Sunday about "Religion in the Space Age." The meeting begins at 5. Super is 45 cents.

"Compulsory ROTC and the Christian Student" will be the main topic of discussion by Col. Glenn Owen of the Army ROTC department at this Sunday's LSA meeting. He will present some thoughts and ideas on the Christian and military implications concerning ROTC. The meeting will begin at 5 p.m. at the Lutheran church. Supper will precede the talk and open discussion period. A short devotional period will close the meeting.

WESLEY FOUNDATION
Stan Thomas will lead a discussion on the topic, "Prayer and Reality," this Sunday at 5 p.m. at the Methodist Church. The discussion will be preceded by a filmed television program entitled "Prayer," which features a panel discussion with national religious leaders. The film and discussion will deal with the nature of prayer, what it can do and cannot do for us. There will also be an installation of the newly-elected officers.

Student Dies After Gym Fall

BOISE — A Boise Junior College student died last week after doctors had kept him alive for an hour by massaging his heart. The student was Claude Eugene Reinhart, 18, of Meridian.

Police said he was exercising in the BJC gymnasium when he fell and suffered a slight cut. Later in a doctor's office he suffered first a convulsion and then a heart attack.

Doctors used immediate surgery when the youth quit breathing and were able to keep him alive for an hour.

WHEAT TRADE STEADY

World trade in wheat is not expected to change much next year, according to economists. Imports by European countries may be less, but imports by South Asia and Latin America are likely to increase.

World trade in wheat is not expected to change much next year, according to economists. Imports by European countries may be less, but imports by South Asia and Latin America are likely to increase.

Director Returns From Convention

Warren Bellis, director of University bands, has returned to the campus from the 15th annual Midwestern Conference on School Vocal and Instrumental Music held last week at Ann Arbor, Mich.

As guest conductor, Bellis directed the University of Michigan Symphony band in a performance of "American Overture for Brass" by Joseph Jenkins.

'60 CHEVY! ONLY WAY YOU CAN BUY A CAR FOR LESS IS TO BUY A LOT LESS CAR!

THRIFTIEST 6 IN ANY FULL-SIZE CAR — Chevy's Hi-Thrift 6 is the '60 version of the engine that got 22.38 miles per gallon in the latest Mobilgas Economy Run—more than any other full-size car.

NEW ECONOMY TURBO-FIRE V8 — Here's a V8 with the "git" Chevy's famous for—plus a new economy-contoured camshaft and other refinements that get up to 10% more miles on a gallon of regular.

EASIER-TO-LOAD LUGGAGE COMPARTMENT — The trunk sill is lower and the lid opening is more than a foot and a half wider than Chevy's nearest competitor's. There's over 20% more usable space! *Based on official data reported to the Automobile Manufacturers Association.

MORE ROOM WHERE YOU WANT MORE ROOM — Chevy's trimmed down transmission tunnel (25% smaller) gives you more foot room. You also get more head and hip room than in any other 2- or 4-door sedans in the field.

WIDEST CHOICE OF POWER TEAMS — A choice of 24 engine-transmission teams in all—to satisfy the most finicky driving foot. There are seven engines with output all the way up to 335 h.p. and five silk-smooth transmissions.

CHEVY SETS THE PACE WITH LOWER PRICES — All Bel Air and Impala V8's are lower priced, as are many options. Example: a Bel Air V8 sedan with Turboglide, de luxe heater and push-button radio lists at \$65.30 less for '60.

EXTRA CONVENIENCES OF BODY BY FISHER — No other car in Chevy's field gives you crank-operated ventpanes, Safety Plate Glass all around and dozens of other Fisher Body refinements.

QUICKER STOPPING BRAKES — Long-lived bonded-lining brakes with larger front-wheel cylinders for '60 give you quicker, surer stops with less pedal pressure.

SOFTER, MORE SILENT RIDE — Chevy's only leading low-priced car that gentles the bumps with coil springs at all four wheels. Noise and vibration are filtered to the vanishing point by new body mounts.

NOT CHANGE FOR CHANGE'S SAKE, BUT FOR YOURS — There's only one person we consider when we make a change—and that's you. That's why we don't think you'll find anything more to your liking at anything like the price.

The more you look around the more you'll find to convince you that no other low-priced car has so much to show for your money as this new Chevrolet. Here's the kind of styling sophistication and subtle detail that only Fisher Body craftsmanship can create. Here's the kind of Full Coil comfort that neither of the other two leading low-priced cars—and only some of the smoothest riding higher priced ones—build into their suspension systems. Here's more room inside (where you want it) without an inch more outside (where you don't want it). And with all these advances Chevy has managed to hold the price line! Your dealer will be delighted to fill you in on all the facts.

See The Diner: Shore Chevy Show in color Sundays NBC-TV—the Pat Boone Chevy Showroom weekly ABC-TV.

Now—fast delivery, favorable deals! See your local authorized Chevrolet dealer.

HAIL TO THE DEAN!

Today let us examine that much maligned, widely misunderstood, grossly overworked, wholly dedicated, campus figure—the dean.

The dean (from the Latin *deanere*—to expel) is not, as many think, primarily a disciplinary officer. He is a counselor and guide, a haven and refuge for the troubled student. The dean (from the Greek *deanos*—to skewer) is characterized chiefly by sympathy, wisdom, patience, forbearance, and a fondness for homely pleasures like barn-raising, gruel, spell-downs, and Marlboro Cigarettes. The dean (from the German *deanemacht*—to poop a party) is fond of Marlboros for the same reason that all men of good will are fond of Marlboros—because Marlboro is an honest cigarette. Those better make's are honestly better, honestly aged to the peak of perfection, honestly blended for the best of all possible flavors. The filter honestly filters. Marlboro honestly comes in two different containers—a soft pack which is honestly soft, and a flip-top box which honestly flips. You too will flip when next you try an honest Marlboro, which, one honestly hopes, will be soon.

But I digress. We were learning how a dean helps undergraduates. To illustrate, let us take a typical case from the files of Dean S. . . . of the University of Y. . . . (Oh, why be so mysterious? The dean's name is Sigafos and the University is Yutah.)

Wise, kindly Dean Sigafos was visited one day by a freshman named Walter Aguincoort who came to ask permission to marry one Emma Blenheim, his dormitory laundress. To the dean the marriage seemed ill-advised, for Walter was only 18 and Emma was 91. Walter agreed, but said he felt obligated to go through with it because Emma had invested her life savings in a transparent rain hood to protect her from the mist at Niagara Falls where they planned to spend their honeymoon. What use, asked Walter, would the poor woman have for a rain hood in Yutah? The wise, kindly dean pondered briefly and came up with an answer: let Walter punch holes in the back of Emma's steam iron; with steam billowing back at the old lady, she would find a rain hood very useful—possibly even essential.

Whimpering with gratitude, Walter kissed the dean's Phi Beta Kappa key and hastened away to follow his advice which, it pleases me to report, solved matters brilliantly.

Today Emma is a happy woman—singing lustily, wearing her rain hood, eating soft-center chocolates, and ironing clothes—twice as happy, to be candid, than if she had married Walter. . . . And Walter? He is happy too. Freed from his liaison with Emma, he married a girl much nearer his own age—Agnes Yucca, 72. Walter is now the proud father—stepfather, to be perfectly accurate—of three fine healthy boys from Agnes's first marriage—Everett, 38; Willom, 43; and Irving, 55—and when Walter puts the boys in Eton collars and takes them for a stroll in the park on Sunday afternoons, you may be sure there is not a dry eye in Yutah. . . . And Dean Sigafos? He too is happy—happy to spend long, firing days in his little office, giving counsel without stint and without complaint, doing his bit to set the young, uncertain feet of his charges on the path to a brighter tomorrow.

We don't say that Marlboro is the dean of filter cigarettes, but it's sure at the head of the class. Try some—or if you prefer mildness without filters, try popular Philip Morris from the same makers.

INTRAMURALS

Basketball Action Waxes Hot In Intramural Leagues

Greek action gets into full swing this afternoon as hoopers from League I and II play their third round matches in intramural basketball at the Memorial Gym.

Top-rated team of the League II, Delta Tau Delta, sends its tall cagers into action against the strong Phi Deltas.

Other tilts of League II play finds the once beaten Phi Gamma Deltas taking on the charges of the Lambda Chis.

Tau Kappa Epsilon, defending campus hoop champions, heads the slate of League II contestants as the Tekes battle with the Delta Sigs.

Others Face Action

The time of 4:30 p.m. sends six more Greek loop I fives onto the maple court.

Other League I features pit the five of the Sigma Chis meeting the Sigma Nus, Delta Chis against the Kappa Sigs, and the Betas playing the ATO netters.

Eight Independent and four Greek teams battled it out last evening in hoop league play in scheduled intramural basketball at the Memorial Gym in their quest for their respective league crowns.

Independents Clash

Four games are on tap for Independent League IV as eight of the nine hall crews fought for their championship trophy.

Scheduled contests at 7:30 p.m. sent into battle the forces of Willis Sweet 2 taking on Lindley Hall 2, Upham Hall 2 versus the Town Men's Association, and Chrisman Hall 2 meeting McConnell Hall 2.

Remaining tilt of the Independent loop found the charges of the Shoup Hall 2 five tangling with Gault Hall 2 at 8:30 p.m.

Two featured contests of the fraternity League II headline the crew of the LDS house against the Theta Chis, and the Phi Taus versus the SAE cagers.

Vandals Tilt Seattle U. Cage Crew

A fast improving Idaho quintet invades Seattle Saturday, as the Vandals clash with the Seattle University Chieftans in the Seattle Municipal auditorium at 8 p.m.

This contest, featuring a tall Chieftan five, and the comparatively smaller Norsemen will be the first meeting between the two hoop squads since Idaho defeated Seattle U. 74-71 here in 1953.

The Chieftans' overall six win-five loss record of this season does not stand as impressive as their last season's 20-6 standing.

The Seattle five, usually tough at home, have dumped a weak Hawaiian team and bowed to Utah State for a 1-1 home standing.

The Utah State quintet is the same five that split a doubleheader with the Vandals. The Norsemen won the first 57-56, dropping the second 73-61.

Jumping Joe King will again lead the Vandals into battle with help from 6-7 Ken Maren at center; Rolie Williams and Dean Baxter at forwards and Dale James at the other guard position.

"Even though it is hard to win at Seattle, I'll be disappointed if we don't play a good ball game," Vandal Mentor Dave Strack commented yesterday.

"If our shooting picks up five per centage points watch out — we'll knock some one off."

The Chieftans will counter with pre-season All-American candidate Dan Ogorek, standing 6-6, at one forward and 6-5 Tom Mills in the other forward spot.

Tim Cousins at 6-8 starts at center for the Seattle team and 6-2 Don Piasecki along with speedy 5-8 Tom Shaules, control the backcourt.

Wednesday night the Chieftans were drubbed 94-58 by the Idaho State College Bengals in a tussle at Pocatello.

Shaules, after a cold first half, sank 14 points to lead the Seattle squad in scoring with 18 points.

Radio station KRPL will carry tomorrow's Seattle-Idaho basketball game at 8 p.m.

Babes Dumped By Rampaging Whit Cagers

The battered but unbowed Whitworth JV's overcame two Idaho freshmen rallies in the second half of a basketball clash played in Kellogg Wednesday night, and held on for a 75-72 victory.

The Whitworth squad shot a sizzling 55.8 per cent from the floor in the first half, while the stunned Vandal yearlings netted a meager 26 per cent of their tries. Whitworth went down to the WSU freshmen 102-31 last week.

Dean McGuire and Steve Weiting did most of the damage for Whitworth, hitting 12 and nine points, respectively, in the red-hot first period and moving the victors to a 36-25 halftime lead.

In the second half the Vandal babes finally found the range and began to hit, grabbing the lead twice on the strength of their suddenly blazing 54 per cent floor average. Whitworth fought back each time, taking the final edge on one and one shots at the foul line in the waning minutes of the ball game.

Babes Fight Back

Two featured contests of the fraternity League II headline the crew of the LDS house against the Theta Chis, and the Phi Taus versus the SAE cagers.

SKI SQUAD — Nine members of Idaho's powerful slat squad and their temporary coach are pictured above after ski trials during Christmas vacation. Pictured standing left to right, Ebbe Evensen, Larry Schaaf, coach Tom Anderson, Halvor Grosvold, Chuck Rank, Henrik Beaker and Truls Astrup. Kneeling, left to right, Arnstein Friling, Howard Gerrish and Hilmar Lunde.

Idaho Slat Squad Faces Second Test; Home Grown Talent Thin On Ski Team

By JOHN BECKWITH
Argonaut Sports Assistant

The ski team that will travel to Wenatchee this week end fields only three skiers from the United States. The other six skiers hale from the vicinity of Oslo, Norway.

The three slatmen from the U.S. are Chuck Rank, sophomore from Cashmere, Washington; Larry Schaaf, another sophomore, from

St. Anthony, Idaho; and Howard Gerrish, a freshman from Twin Falls, Idaho.

The six skiers from Norway are Truls Astrup, a junior; Halvor Grosvold, junior; Ebbe Evensen, junior; Hilmar Lunde, senior; Arnstein Friling, frosh, and Henrik Beaker, also a junior.

Events Listed

The events that the Vandal slat

team will participate in this week end have Astrup, Rank, Grosvold, and Schaaf in the slalom; Grosvold, Evensen, Lunde, Astrup, Friling, and Beaker in the cross-country event; Grosvold, Rank, Gerrish, Schaaf, Astrup in the downhill; Grosvold, Friling, Lunde and Beaker in the jumping event.

"The team will be competing against about the same competition as the first meet in British Columbia, so they must show at least as much strength as they did in that meet to come through again," coach Bill Sorsby stated.

Sports Shorts

Frank Selvy, University of Furman forward and Darrell Floyd, also of Furman, rank as the only two hoopers from the same school to rank in the top nine college point-getters.

Selvy pumped in 65 points against Mercer in 1953, then went all out to top all college scorers in 1954, sinking an even 100 points against Newberry.

Floyd hit for 67 points against Morehead State in 1955 and followed up the next year with 62 points against Citadel.

Vandal Swimmers To Meet Savages

The Idaho frosh and varsity swim teams leave Vandaland tomorrow for Cheney, Wash., and a double-dual meet with the Eastern Washington Savages.

The Vandal finnen will include Paul Breithaupt, Bill Stancer, Al Hansen, Dale Dennis, Sam McNeill, Dave Damon, Cliff Laurence, Bill Parson, and Mile Watson.

Dennis Higman, Jerry Zaph, Cris Nyby, Robbie Tyson, Tucker Cole, and Bob Giden will fill the Vandal Babes' squad.

Cinder Records Totter As Team Plans Attack

Idaho track records may take a beating this spring, according to cinder coach Bill Sorsby, with the distance records in particular danger.

Approximately 40 athletes, one of the largest turnouts in Idaho track history, have been taking part in early track conditioning workouts. Another 20-30 prospective cindermen are expected to turn out after semester exams. Last year only 17 men were on hand for varsity action for coach Joe Glander's squad.

Two current record holders, Ray Hatton and Frank Wyatt, are expected to lower their respective times in the two and three-mile runs of 9:10.4 and 14:23.5.

Sprint Records in Danger

Sprint standards of :09.7 and :21.5 for the 100 and 220 yard dashes are also in danger for the first time in many years, with a number of varsity and frosh speedsters eyeing a place in the Vandal record book.

Don Miller's 1951 time of :48 in the 440 also is on the danger list, with Norm Luke and football ace Jim Norton both ranked as prime candidates for a record-lowering session.

Almost certain to fall, Sorsby said, is the nine year old mile relay mark of 3:18.9. Norton and Luke will be joined by Jay Doyle and Bill Pasley for the effort.

A top group of frosh quarter milers may push or even beat the

varsity foursome to the record however, as Sorsby noted the promising crop of yearling speedsters who will be running for the freshman squad this season.

Phil Liebowitz's 19 year old mark of 4:09.3 in the mile will have to face possibly the hardest test of all, with several of this year's coast champion cross country team members regarded as potential record-smashers.

Two year letterman Bill Overholser could write his own record in the Idaho score book this year, Bill Squance's 1934 :14.7 mark for the 120 yard high hurdles, tied by Bruce Sweeney in 1952, going up for grabs.

The field events may also provide some new marks, with the shotput and discus records having to stand an assault by Reg Carlson who has already exceeded the 52' 4" shot record of former Vandal football star Jerry Kramer.

Jack Ashbaugh, Tom Tucker, Larry Burns and Joe Davis also should do well in one or both of the weight events, Sorsby believed.

LUCKY STRIKE presents
Dear Dr. Frood:
MARRYING FOR MONEY—IS FROOD IN FAVOR?
(see below)

Dear Dr. Frood: The other day I stopped at my boy friend's house unexpectedly and I found Lucky Strike butts with lipstick on them in the ash tray. What should I do?
Observant

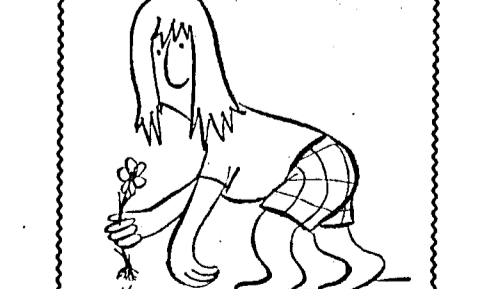

Dear Observant: Go ahead and smoke them. A little lipstick won't hurt you.

Dear Dr. Frood: I am a 267-pound tackle on the football team, cleanup hitter on the baseball team, champion shot-putter and captain of the basketball team. Where can I find a job when I graduate?
Athletically Inclined

Dear Athletically Inclined: Look in the Want Ads under "Boy—strong."

Dear Dr. Frood: Recently, while collecting ants, I happened upon this strange creature in the woods. I enclose a sketch. What is it?
Nature Lover

Dear Nature Lover: It is *socia ignota* (blind date). Do not go near. Poisonous.

Dear Dr. Frood: I am a math professor. Over half my students are flunking their tests. What can I do about this?
Discouraged

Dear Discouraged: Use Frood's Formula: Divide distance between students' chairs by 2. Since chairs will now be closer together, result should be a 50% improvement in exam grades.

Dear Dr. Frood: Last Saturday my girl told me she couldn't go out with me because she had a cold. Next day I found out she was out with my roommate. Think I should stay away from her?
Disillusioned

Dear Disillusioned: Better stay away from your roommate. He's probably caught the cold now.

Dear Dr. Frood: I understand that your hobby is cooking. Mine is, too. But my girl friend says any guy who cooks is a sissy. How can I make her stop laughing at me?
Cooky

Dear Cooky: Place a large cauldron of oil over a high flame. When it comes to a boil, add your girl friend.

Dear Dr. Frood: Should a man marry a girl who makes more money than he does?
Old-Fashioned

Dear Old-Fashioned: If it's at all possible.

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.
