

Already Enough Responsibility

The areas of responsibility and the chain of command in student government have been established quite definitely this last year with the institution of the Activities Council and the passage of the revised ASUI constitution.

U. To Have New Center

A Computer Center will be established soon on the University of Idaho campus to be used for instructional and research purposes in addition to supplementing present statistical service center operations.

Dear Jason

Dear Jason, The letter last Tuesday from Mr. Sweet shows that he is confused as to the basic idea of the Young Americans for Freedom.

THE GOLDEN FLEECE by Jason

The new Executive Board has now concerned itself with the service citation awards recently inaugurated by the 1961-62 Exec. Board. The old Board in its last meeting found itself in a dispute as to where the awards should go.

Jr.-Sr. Activities Need More Support

Editor's note: the statistics in the following article were obtained from records in the ASUI General Manager's office. The intent of the article is to point out that a lack of support by the students to such activities as this weekend's could lead to a discontinuance of them.

4-H Confab Draws Two Coeds East

Two University Coeds, Susan Wiley and Janet Sprenger, will return to Moscow Tuesday from the National 4-H Conference in Washington, D.C.

Herndon Gets Scholarship

First recipient of the newly established \$250 Idaho Eastern Star Journalism Scholarship is James Herndon, a junior journalism major at the University.

ASME Chooses Taylor President

The Idaho chapter of the American Society of Mechanical Engineers installed new officers at a special meeting April 18. New officers are Tom Taylor, chairman; Don Bott, vice chairman; and John Schuette, secretary-treasurer.

Students Oppose New Ruling Restricting Men's Housing

Student reaction to the new ruling by the University Board of Regents requiring all sophomores and freshmen under 21 years old to live in University approved housing varied but was generally against the action.

Scholarship Is Now Available

Applications blanks for the Blue Key, a junior class service honorarium, are now available at the ASUI office.

Reception Planned For Graduates

All students receiving degrees at the 1962 Commencement exercises must have the latest in special invitations for relatives planning on attending the reception in the Student Union, 2 to 4 p.m., Saturday, June 9.

Gifts To University Receive Okay Of Board Of Regents

Gifts of cash, astronomy equipment and a beetle collection to the University have received formal Board of Regents' approval, it was announced by President D. R. Theophilus.

School Bulletin Is Prepared

The University's summer school bulletin, saluting the state's territorial Centennial - 1863 to 1963 - on the cover design, is being mailed this week to interested persons throughout the nation.

Blue Key Seeks New Members

Applications for membership in Blue Key are now available at the ASUI office and must be returned by May 7, according to Duane Allred, Blue Key president.

U. Plans Summer Session For Boise

A six-week summer session will be conducted at the University Adult Education Center at Boise.

U. Plans Summer Session For Boise

A six-week summer session will be conducted at the University Adult Education Center at Boise.

Food Is Reason

I would like to make a suggestion to our Administration in regard to the new men's housing regulation. This additional step backward into the 19th century certainly needs some investigation by someone.

Ten Chairmen Were Named

Ten sub-committee chairmen were picked Saturday for the New Student Days committee by Dick Jennings, general chairman.

# Idaho Science Confab To Hear U. of I. Grad Now With NASA

An Idaho graduate, now with the National Aeronautics and Space Administration, will speak at the Idaho Academy of Science convention tomorrow night.

Alfred M. Mayo, a 1951 Idaho graduate, will speak on education and the space program at 7:30 p.m. in the Borah Theater.

Mayo, a mechanical engineer, is president of the American Astronautical Society. He has done considerable work in the design and development of cockpits, instruments, control arrangements and environmental control in aircraft and space vehicles.

Registration for the fourth annual meeting of the Idaho Academy of Science begins today at 1 p.m. in the Student Union lobby.

Tonight at 8 p.m. there will be a science symposium titled "Conservation in Idaho — A Current Appraisal" in the middle ballroom of the SUB.

Symposium moderator is Dr. E.

W. Tisdale, associate director of the forest, wildlife and range management experiment station at the University.

Panelists include L. Boyd Rasmussen, regional forester with the U.S. Forest Service, Missoula, Mont., conservation of public land; Lee T. Morgan, state conservationist with the Soil Conservation Service in Boise, private land conservation; Dorrell Larsen, extension irrigationist with the University of Idaho in Boise, water resources; and Dr. Earl F. Cook, dean of the University of Idaho College of Mines, mineral resources.

Addressing the academy at a noon luncheon in the middle ballroom Saturday will be Dr. H. D. Buechner, associate professor of wildlife management at Washington State University. His topic will be "Remodeling Education."

More than 60 research papers prepared by Idaho scientists will

be read during section meetings Saturday morning and afternoon. Topics include science education, botany, physical sciences and zoology.

## Clocks Should Be Set Ahead

It is advised that everyone set their clocks ahead one hour before going to bed Saturday night or Sunday morning, as the case may be.

Daylight Savings Time will go into effect Sunday, April 29, at 2 a.m.

## 'Thin Man' Is SUB Movie

The last SUB movie of the year will be "The Thin Man," William Powell, Myrna Loy and Maureen O'Sullivan. This movie comes from the "Thin Man" series of private detective mysteries and will be shown Friday and Saturday.

On Friday, there will be two showings at 7 and 9 p.m., while Saturday there will be only one showing at 8 p.m.

The showing days have been changed from the usual Friday and Saturday to Friday and Saturday evenings due to the Jimmie Rodgers concert Sunday.

Admission is 85 cents for singles and 60 cents for couples.

## 14 Ag Students Achieve GPA For Honor Roll

Fourteen University College of Agriculture students earned places on the Dean's Honor Roll for high scholastic achievement during the first semester. Each student earned a 3.50 grade point average or better out of a possible 4.00 or "straight A" while taking a course load of 14 credits hours or more.

One freshman made the list. He is Paul Joe Anderson, an agronomy field crops major, who had perfect first semester grades.

One of three sophomores on the honor roll, Emory Kalbfleisch, an agricultural economics student, also achieved "straight A" first semester. Other sophomores attaining the honor are John Sutton, agricultural chemistry and Jimmy Olson, entomology.

Five of the 57 juniors enrolled in the College of Agriculture made the list. They are Roger Ball, animal husbandry; Howard Green, agricultural economics; Robert Monroe, animal husbandry; Neil Poulson, agronomy; and Clyde Trapp, agricultural education.

One senior, James Steigers, an agronomy student, had perfect grades. Other seniors on the roll are Jerry Jaeger, dairy science; Robert Messenger, agricultural economics; Larry Moore, plant pathology; and Thomas Scherer, agricultural economics.

### MIDSHIPMEN TOUR

Thirty-six University Navy midshipmen toured Navy facilities at Corpus Christi, Texas, April 9.

# Ship-Building Prof. Plans Summer Cruise In Schooner

By DOUG GOTCHER, Argonaut Staff Writer  
"The Entropy," a shiny bold looking 55-foot sailing schooner is being constructed in University Heights by a burly, adventure-seeking mechanical engineering professor.

Prof. Ted Norgord, is building his craft basically of marine alloy aluminum. The three sails will be aided by a General Electric diesel engine, as powerful as a Greyhound bus.

Norgord has studied naval ar-

chitecture and worked as a steel ship builder in Seattle. His father also worked in the shipbuilding yards. Because of his home in the port city and his father's occupation, ship building came to him naturally.

### "Explains 'Entropy'"

The word "entropy," explains Norgord, is a mathematical property of various materials. It is a measure of wasted energy.

George Bell, Kappa Sig, who worked for Norgord during the

summer of 1960, did all of the welding that has been done on the house-sized craft.

"At 17," commented Norgord, "Bell quickly learned to weld, and after two hours of experience he was able to demonstrate the process for visiting college students."

Herreshof, an internationally-known naval architect drew the plans, appearing in a magazine, for a wooden schooner. Norgord liked the plan but had a metal structure in mind. So he converted the plans

to meet the requirements of marine alloy aluminum.

### Needs Less Care

A metal boat naturally needs less care, stated Norgord, but there are problems too. At places where there is welding there might be some shrinkage. Wrinkles and "bellies" can occur leaving an unsmooth shape.

The top mast will tower 45 feet above the water level. A triangular fore and aft sailing rig will be set on a 10-foot beam. Thus, the boat for its size will be unusually narrow. It will be necessary to have three masts in order to get the proper sail area.

In a 24-hour operation time the schooner can be sailed by four or five men. The weight, including the supplies, will displace 20 long tons of water.

### Capable of Big Voyage

The yacht will be capable of sailing around the world. However, Norgord's present ideas are not quite that extensive. He doesn't think he can make the trip in a summer's vacation.

On his "maiden voyage" he plans to sail through the wilderness fiords along the Canadian and Alaskan coasts.

After launching "The Entropy" in the Snake River at Lewiston, he will steam on to the Columbia. Following the Columbia River he will travel to Seattle and then up north on the inside of Vancouver Island. Green Charlotte Sound will be the only area where the crew will be exposed directly to the Pacific Ocean, he said.

The remainder of the journey will continue northward between the coast and the numerous offshore islands.

"The trip up the inside passage to Alaska is the most beautiful cruising ground in the world," Norgord said.

Norgord's 55-Foot "Entropy"

### SORTA HEAVY

The total weight of the earth has been computed at 6 sextillion, 660 quintillion tons. That's 6,660,000,000,000,000,000,000 tons, 13,320,000,000,000,000,000,000 pounds, or 213, 120, 000, 000, 000,000,000,000 ounces, give or take a few.

## Population Growth Effects Water, Says Forestry Speaker

The effect of the population explosion on water was explained by Otis L. Copeland, Jr., chief, division of watershed management research, Intermountain Forest and Range Experiment station, Ogden, Utah, to University forestry students.

Copeland was the keynote speaker at a Forestry Week banquet held at the Moose hall last night.

"The more people we have the more water we will need," he said.

"With this is the greater likelihood of pollution of the supply we have."

Copeland stressed the importance of a better understanding of the basic principles of hydrology as great changes have already occurred in the normal functioning of Western watersheds. These, he said, have come about through man's use and abuse.

### Water Is Renewable

"Because water is a renewable resource from year to year, man's

assault on this resource is frequent and the damage is cumulative. When it comes to intensive protection and management of watersheds as a source of water, we are too prone to tolerate mediocrity when excellence is required."

He added that the United States is well endowed with water but there are attendant problems. There is poor distribution as to time and place. And, as the population increases, quality of water is likely to be troublesome.

"Water is the most vital resource at our disposal—the lifeblood of our land. The relation between man and water is simple and direct. Without water there could

be no life," said Copeland.

### Other Activities

Other Forestry Week activities throughout the week have included talks on forestry at high school assemblies by members of the Forest Service, Fish and Game Service and the Bureau of Land Management.

A special display, following the theme "It's The Water," has been set up in the Student Union Building and others have been set up in the forestry building.

Forestry Week will be concluded this afternoon with the planting of 29 trees of 12 different species on the campus.

### Tennis Star Hopes To Combine Sport, Studies As Contractor

By LARRY McBRIDE  
Howard Sealey, bulwark of the Vandal tennis squad, is an interesting young man who has visions of combining his sport and his college studies together and turning them into a profitable profession sometime in the future.  
A two-year letterman and the top seed as well, Sealey has been consistent, and he has been good. Last season, when the team was able to win but one match all year, Sealey stuck out like a diamond in the rough. There were times when Sealey would come back with the Vandals' only score of the day.  
Sealey, a civil engineering major who graduates this spring, would like some day to be a tennis court contractor.  
"I hope to one day combine my tennis experience and engineering training together and construct tennis courts," he explained.  
Sealey came to Idaho after two years at Idaho State College. "I'm in engineering and ISC only has a two year school, so I guess I just migrated North." He was ineligible his first year at Vandalville, do to the NCAA transfer rule, but played during the 1960-61 year and the present campaign. Sealey has been number-one man on the ladder both years.  
The Vandal net man started his tennis career when he was 13. "I played till I was a junior at Pocatello and then quit playing tennis and lettered in golf there. I started playing again two years later."  
Sealey says that experience and a new coach are the reasons behind the Vandals' greater tennis success this year.  
"It stems from added experience," he explains. In addition, Howard remarked, "Terry Win-

# Track Coach Places Idaho In 'Favorite Role'

## Vandals Compete With EWC, Whitworth At Cheney Sat.

By Larry McBride  
Argonaut Asst. Sports Editor  
The Idaho track team, favored to win its first meet of the season, will be out to live up to that advanced billing Saturday when they tangle with Whitworth and Eastern Washington College at Cheney.  
"We should be favored to win," said coach Bill Sorsby. Whitworth should come in second and EWC last, according to the Vandal coach. "EWC has their weakest team in several years."  
Being cast in the favorite's role is something new for the Vandals, as they have been facing top competition all season, according to Sorsby. The squad was faced Oregon, OSU, Washington, WSU, and Southern California. Sorsby said that USC, Oregon and OSU could be the best three in the nation.  
**Strand In Hurdles**  
Whitworth tracksters should do well in several events, according to Sorsby. Pirate Rich Coasta is a favorite in the hurdles. Bob Avera gets the nod in the javelin and discus. Denny Driskill is a co-favorite in the 440.  
Eastern's top threat, according to Sorsby, will be Bob Gunderson. Gunderson has hurled the javelin over 200 feet this year. "Gunderson is their only individual likely to score well," said Sorsby.  
The varsity mentor will vary several events for this meet. Crack miler Dick Douglas will move down to the half mile. Douglas lost his only mile race of the year last Saturday.  
**Vandal Placements**  
Curt Flisher, a half miler last week at Pullman, will enter the quarter mile and the low hurdles.  
Rolf Prydz will again carry a heavy load. The frosh thincled in the broad jump, javelin, 220 and 440 relay. Don Mottinger gets the call in the sprints and relay, as does Stan Karr. Carl Nagy is in the same capacity.  
**Frosh Entrants**  
High jump: Larry Nelson, Dave Rambeau.  
Broad jump: Bill Graham, Rolf Prydz, Joe Chapman.  
Pole vault: Rambeau, Ron Albright.  
Shot: Max Leetow, Jim Bros-

## Intramural Track Meet Sat.

The annual intramural track meet will be held Saturday at Neale Stadium. The finals will take place on Monday. For the Saturday fray, both running and field events will start promptly at 1:00 p.m. The finals will begin at 4:00 p.m.  
A total of nine running events and five field events are on the card. All entrants are requested to be at the track Saturday at 1 p.m., as there is no time schedule for the preliminaries.  
**Softball**  
Monday in softball, the Deltas gained ground in League I with a 5-0 shutout win over the Kappa Sigs. Larry Minor hurled the Delta crew to victory. Farm House handled the Theta Chis 18-8 in a free swinger. Bill McVaine was the winning pitcher.  
The red-hot Fijis ran their record to 2-0 with a big 17-14 victory over the Phi Taus. The Fiji crew was never pressed in their winning effort. Dick Seeley was the winner. TKE won one from Sigma Chi 11-6. Lambda Chi whalloped the Delta Sigs 14-2 for their second win of the year. Ron Fairchild hurled strong ball to gain the win. Over in League IV, they are still having forfeit trouble. Two games were scheduled and both were forfeited. GH2 won over CC2 and CH-2 beat SH2. Both Gault and Chrisman pushed their records to 2-0. The losers are both 0-2.  
Campus Club ran roughshod over Gault in a game that was never close. The winning score was 19-3. In another lopsided one, Chrisman took Shoup 22-7. John MacArthur was the winning chucker.  
In one of the best games of the day, Upham defeated Lindley by an 8-5 margin. It was tight all the way. Rusty Vaughn hurled his club to the win. In the final Wednesday game, TMA nosed out Willis Sweet. These games were in League III.  
Wednesday, UH2 defeated LH2 in a tight one. The losing Lindley team is now 0-2. TMA earned its second straight triumph with an easy 15-0 win over WSH2. The win gave TMA2 a co-hold, on first place in League IV. That was all the action in this league.  
The Deltas ran their record to 3-0 with a 22-6 win over the Phi Deltas. Sophomore Larry Minor gained his third straight win. The SAEs finally got on the winning track with a 5-2 victory over Sigma Chi. They are now 1-2. Stan Ayers was the winner.  
The ATO club stayed right with the Deltas atop League I as they dropped Sigma Nu 10-6. They are now 3-0 while Sigma has dropped two straight after an opening win. Dean Lundblad was the winning hurler. In the final contest of the day, Kappa Sigma beat the Tekes, 5-3.  
Intramural director Clem Parberry warned house managers that the deadline for entries for both horse shoes and golf are today at noon. Each team may enter three in horse shoes and five in golf. The names for golf should be listed in the order of ability.

## Frosh Look For Revenge At Pullman

The frosh track team goes after a revenge win over the WSU frosh, but isn't expected to get it, according to Coach Bill Sorsby. The Vandal Babes meet WSU and Lewis-Clark Friday in Pullman.  
"WSU is an overwhelming favorite in the field events," says Sorsby. He feels the Babes should show up best in the field events. The Couabes dumped Idaho 114-52 1/2 last week at Neale Stadium.  
Sorsby feels that Dave Rambeau will be strong in the pole vault and high jump. Ron Albright will also be a pole vault threat.  
Jerry Howard gets the call in the hurdles again. Top Vandal Babe sprinter should be Jo Chapman, the trackster-football player. Chapman was called upon for heavy duty last week against the Couabes. Friday should prove no different. Nick Carnefix and Bob Johnson remain in the 440.  
Pete Lutrop will compete in the 100 yd. dash for the first time this year. The Vandal co-captain's best effort is a 9.8 and has the top time of any Idaho sprinter.  
Reg Carolan, who has tried just about everything thus far, will enter the pole vault this time. In addition, big Reg will compete in the shot and the high hurdles, along with Jerry Pressey and Zura Goodpaster.  
Louie Olaso steps down to the mile this week. Ordinarily a two miler, Olaso is described by Sorsby as "one of our better sophomore runners." Dick Borneman and Dick Rankinen are scheduled for the 880.  
Top scorer for the Vandals is miler Dick Douglas. Douglas has garnered 38 points. Following Douglas is sprinter Bob Johnson with 30 1/2. Rounding out the top five are Jerry Pressey, 26 1/2; Reg Carolan, 26; and Curt Flisher, 22.

## Idaho's Entrants

- Shot: Carolan, Bob Smith, Larry Johnson
- Pole Vault: Mike Free, Zura Goodpaster, Carolan
- High jump: Goodpaster, Glen Smith
- Broad jump: Ed Jacoby, Bob Ruby, Jerry Pressey
- Discus: Joe Davis, Carolan
- Mile: Bernie O'Connell, Louis Olaso, Paul Henden
- 440: Carnefix, Bob Johnson, Flisher
- 100: John Pasley, Lutrop
- 120 highs: Goodpaster, Pressey, Carolan
- 880: Douglas, Dick Rankinen, Borneman
- 220: Carnefix, B. Johnson, Flisher
- 220 lows: Pressey, Lutrop, Goodpaster
- 2 mile: Douglas, Henden, Olaso, Gunter Amtmann
- Mile relay: No. 1 Pasley, Carnefix, Flisher, B. Johnson

## Football Clinic For Coeds May 4

Football for the fairer sex will be the highlight of a somewhat offbeat grid practice planned by Idaho's new football coach Dee Andros, Friday, May 4, on the Moscow campus.  
Andros has set up a special clinic to interest the student body—primarily those members of the female persuasion—in the rudiments of football as it will be played by the Vandals next fall.  
Idaho gridgers will be used in the demonstration of basic football moves such as blocking and tackling in the manner that Andros will have the Vandals doing during the coming season.  
Principal offensive moves will be demonstrated along with the defensive counter for each of the forms of attack.  
The clinic idea is one of Andros' innovations this spring and he has indicated that the spectators need not be females to attend the demonstration, which is billed for 4 p.m. in Neale Stadium.

## Vandals Lose To Whitman; Face Husky Netters Today

Idaho's tennis squad, 6-1 losers Wednesday to Whitman, face their sternest test of the year today when they take on powerful Washington. The Vandals will play the Huskies at 2 p.m. on the Ridenbaugh courts. Washington is described by Coach Bill Logan as "easily the best team in the Northwest."  
Net man John Ferris was the only Vandal to win as the Missionaries almost pulled off a shutoff. Howard Sealey, Idaho's top man, fell by the wayside in a three set struggle.  
**2-3 Mark**  
The loss gives the club a 2-3 mark for the season. The Vandals have now lost three straight after winning their first two matches.  
The Vandals hold 4-3 triumphs over Gonzaga and Whitworth, but Coach Logan's boys have fallen 5-2 to Eastern Washington, 6-1 to Washington, and 6-1 to Whitman.  
Idaho's doubles team of Sealey and Winter extended Whitman's
