Mines Dean Resigns, Reid Acting Dean

Earl F. Cook Resigned as Dean College of Mines
Rolland R. Reid Acting Dean College of Mines

Cook Ends Deanship July 1, Will Work For Government

Dr. Earl F. Cook, dean of the College of Mines at the University of Idaho and director of the Idaho Bureau of Mines and Geology since 1957, has resigned, effective July 1, President D. R. Theophilus announced yesterday.

Dr. Cook submitted his resignation from Washington, D.C., where he has been on leave the last year to serve as executive secretary of the National Council, Division of Earth Sciences. During Cook's leave, Dr. Rolland R. Reid, head of the University's Department of Geology and Geography, has been serving as acting dean of the College of Mines and acting director of the Idaho Bureau of Mines and Geology. President Theophilus said that Dr. Reid would continue to serve in this capacity during the next year.

In his letter of resignation, Cook stated that his "University of Idaho service has been extremely rewarding to me," and that he was resigning because of the opportunities offered to him in Washington to "do something for science and for government on a national scale."

A native of Bellingham, Wash. Cook holds three degrees from the University of Washington, and also did advanced studies at the University of Paris, France, and the University of Geneva, Switzerland. Before joining the University of Idaho faculty in 1951, he taught at Stanford University and the University of Washington. He also worked with the U.S. Geological Survey, and, for two years, was supervisor of Geophoto-Services in Denver.

A veteran of World War II, he served as a machine-gunner in Europe, and holds the Purple Heart.

Cook started at Idaho as an assistant professor of geology, and rose to professor and head of geology and geography before being selected to succeed Dean J. D. Forrester, who resigned in 1957 to become dean

of the College of Mines at the University of Arizona. During Cook's deanship, the Mines Building, with cost shared by the mining industry, was constructed at the University.

on the Calendar

- TUESDAY**
- ICEP — 4 p.m., Pend d'Oreille.
- New Student Days — 7 p.m., Pend d'Oreille.
- International Student Relations — 4 p.m., Russet.

- Yell Leader Tryouts — 7 p.m., Ballroom.
- Agronomy Club — 7 p.m., Agronomy 104.

Symphony Orchestra Will Present Concerto Concert Under Direction Of Bauer

The University Symphony Orchestra will present their annual concerto concert Thursday at 8 p.m., in the University Auditorium.

Soloists for the concert, selected by the music faculty, will be James Schoepflin, off campus, pianist; Pat Cannon, Kappa, flutist; Harry Betts, Campus Club, trombonist; Gav Silha, off campus, violinist; Angela Sherbenou, off campus, pianist.

The music has been selected from pieces by Beethoven, Mozart, Brahms, Haydn, Bruch and Schumann.

Each year the orchestra, under the direction of LeRoy Bauer, associate professor of music, presents three major concerts in the University Auditorium, transcribed radio broadcasts in collaboration with the Radio-TV center, assists in the production of musical shows and operas and presents occasional off campus concerts in the North Idaho area.

The annual Concerto Concert, featuring outstanding senior musicians, always draws a large audience of students and townspeople, and this year "will be one of the finest concerts in the series," said Bauer.

The group consists of approximately 65 members made up of University students and adult musicians from surrounding communities.

Idaho Argonaut

Judy Stuebbe Crowned Miss U of I

MISS U OF I — Flanked by the former Miss University of Idaho and two runners-up is Miss U of I for 1964, Judith Stuebbe, Campbell. Miss Stuebbe was crowned after competition Friday night by 1963's Miss U of I, Idora Lee Moore Eldred. Runners-up are Dolora Cook, Pi Phi, and Joanne Myers, Theta.

500 See Beauties Perform

Judith Ann Stuebbe, Campbell, was crowned Miss University of Idaho Friday night before an estimated crowd of 500 people. The annual event was held in the Student Union Ballroom and was under the direction of the Intercollegiate Knights.

The twenty-one year old queen from Aberdeen, South Dakota, and is majoring in English. She was crowned by last year's Miss University of Idaho, Idora Lee Moore Eldred.

First runner-up was Dolora Lynn Cook, Pi Phi. Miss Cook played "Deep Purple" on the piano for her entertainment.

Second runner-up in the contest was Joanne Marie Myers, Theta. Miss Myers gave an explanation of the song "The River Seine," and then sang the song in English and French.

The two other finalists were Lori Bean, Hays; and Kalle Jergensen, Kappa.

From Field of Ten
The five finalists were chosen from a field of ten semi-finalist. The five finalists were then asked two questions by the emcee of the pageant, John Mix.

The two questions were "What does the University of Idaho mean to you?" and "What do you think of the Beatles?"

Miss Stuebbe replied to the first question that the University gave "opportunities for advancement and a chance to meet many more wonderful people."

To the second question about the Beatles she replied "I love to dance to their records, but not to look at them."

In the swim suit competition Miss Stuebbe wore a turquoise one-piece suit. For the evening gown competition she wore a white satin gown with a train from the waist.

Caron Entertainments
Between the swim suit competition and the talent competition entertainment was provided by Bob Caron, Sigma Chi. Caron sang "What Kind of Fool Am I," and "These Foolish Things."

Miss Carole Farley, Junior Miss of Idaho, from Moscow, provided the entertainment between the announcement of the five finalists and the announcing of the new Miss University of Idaho.

Miss Farley sang "Summertime" from "Porgy and Bess," and "Blue Moon." She was accompanied by Bob Parish, also from Moscow High School.

Chairman of the pageant was Leonard Hart, Delta Chi.

Indian Group Will Sponsor Foreign Film

Revenue from showing of Jahanak Jahanak Payal Baaje (The Dancing Rane), an Indian film, will be used to establish a fund to reward academic excellence. Malli Rao, chairman, said Monday.

The technicolor film, sponsored by the Indian Students' Association, is an authentic Indian movie which will be shown Sunday at 3 p.m. at the Kenworthy. This is the first time it has been shown in the United States.

The dancing is unusual and the settings are "sumptuous," Rao said. There are seven musical selections, all completely and differently costumed.

The Indian Students' Association is a group of Indian students and students interested in India on campus. The organization is two years old.

Tickets are available at the ASUI office, the Tip-Top Restaurant and at Haddock and Laughlin, in Moscow. They are also available at the Owl Drug in Lewiston and at Don's Pharmacy in Lewiston.

Prices are \$1 for adults and 50 cents for children.

OPPORTUNITIES UNLIMITED
Seniors! What are your plans for June 12? (Not May 29).

Music Group Formed

Pi Kappa Lambda, national music honor society, installed a chapter at the University of Idaho on Sunday.

The honorary is not a service organization, but it is a society recognizing general academic and musical achievement.

Those initiated into the honorary Sunday were Jim Schoepflin off campus; Judy Schoepflin, off campus; Judy Sinclair, Forney; Angela Sherbenou, off campus; Pat Cannon, Kappa; Dan Bachelder, off campus; Dorothy Barnes, Pullman; and Gay Silha, off campus.

President D. R. Theophilus represented the University at the ceremonies. Dean George Howerton, School of Music, Northwestern University, Evanston, Illinois, national president of Pi Kappa Lambda, served as the installing officer.

Honor Groups Hold Breakfast

The annual Blue Key-Mortar Board Breakfast was held Saturday morning in the Arboretum.

A menu consisting of steak, scrambled eggs, coffee, and assorted juices met the group when they arrived at 8 a.m.

Chiefs for the event were Mr. and Mrs. Gale Mix, and Mrs. Richard Farnsworth.

Chairman of the breakfast was Fred Freeman, Sigma Chi.

Martins "Not On" Navy C-47

Reports were apparently erroneous that Dr. Boyd Martin, dean of the College of Letters and Science, and Mrs. Martin may have been on the C47 plane attached to a U.S. Naval Mission that crashed in the Andes Friday.

The Martins and four other Idahoans in Ecuador on a "people to people" mission were rumored to have been on the plane that crashed with ten aboard, injuring one with none reported dead.

However, Mrs. Archie Martin, Moscow, daughter-in-law of the Martins, said they had not been notified and there had been no information on the story available, but that it was "more than likely a rumor."

Dr. Floyd Tollefson of the Letters and Science office said there was a coincidence of time and the number of people involved, but the story had not been confirmed.

Warren Martin, Grangeville, 1961 University graduate and nephew of the Martins, confirmed Mrs. Martin's belief saying that they were apparently not aboard for he had heard there were no civilians reported on the airplane.

'All Greek' To You?

By JANICE CRAIG
Argonaut News Editor

Is Panhellenic "all Greek" to you? Although that is what the actual Greek roots mean, more explanation than that is necessary for an understanding of the organization.

The group strives for cooperation and unity among sororities by establishing and enforcing basic policies, and plans activities which reflect the desires of the sororities.

All members of sororities are members of Panhellenic but since it is impractical for all to attend the meeting each sorority is represented by its president and one delegate. In a small way it could be compared to Congress.

5 Purposes
The University Panhellenic has five purposes:
1. To maintain on a high plane

Seminars Set By Scientists This Week

Two seminars by physical science instructors are slated this week, one fourth hour today.

Dr. Jesse H. Day, Research Corporation visiting professor in chemistry, will talk on programmed instruction at 11 a.m. today in Forestry 335.

Professor Day, head of physical sciences at the University of Ohio, is the author of several published programs for use at college level. He has lectured on teaching machines at twelve universities in the Northwest during his semester stay at the University.

Dr. R. A. V. Raff of the Washington State Research Institute at Pullman will talk on "The Degradation of Polymers" at 10 a.m. Wednesday in the Audio-Visual Building.

"A polymer is a very large molecule, either artificial or natural," explained Dr. Malcolm M. Renfrew, head of Physical Science Department. "Artificial polymers are rubber and polyethylene; natural proteins and cellulose," he said.

"We are in the Plastic age and about 25 per cent of the people employed in technology in this country are working polyethylene," Renfrew added.

Dr. Raff is internationally known for his contributions to polymer chemistry and for his books about the large molecule, Renfrew said. Raff was educated in Vienna

U. of I. Singers To Present 'Elijah'

University Singers will sing "Elijah" tonight in the University Auditorium at 8.

Because of the large number of students in University Singers, which amounts to approximately 275, the group meets as two separate sections. Tonight the two sections will combine to present the concert.

Sing "Elijah"
They will sing selections from "Elijah," a musical version of the biblical story. The numbers include numbers such as "Hear Our Cry, O Baal," "Yet Doth The Lord See It Not," "Cast Thy Burden Upon The Lord," "Help Lord," "Baal We Cry To Thee," "Thanks Be To God," "He, Watching Over Israel," "He That Shall Endure To The End," and "Lord Our Creator."

Soloists for the program will include Dorothy Barnes, graduate of the University who has also studied at the Universities of Illinois and Utah and Charles W. Walton, professor of music at the University.

Other soloists are Karen Olsen, Hays, soprano; Janet Hall, off campus, soprano; Donna Meacham, off campus, contralto; Merial Grimm, Moscow, organist; Winston Cook and Jeff Grimm, off campus, baritone; Jim McConnell, Farm House, baritone; and Patricia Folz, Theta, pianist.

University Singers, directed by professor Norman R. Logan,

Judicial Council To Select Three

Judicial Council will interview to select three new members in the Pine Room 7 p.m. Wednesday.

Students who try out must have completed three semesters of undergraduate work and be able to fill a two-year term.

Groups' Choices On Tap

Fifteen committee interviews will take place Wednesday and Thursday this week.

The following Student - Faculty committee interviews will be held at 8 p.m. Wednesday in the ASUI President's office: Athletic Board of Control, Borah Foundation, United Nation Committee, Men's Disciplinary Committee and the Recreation Committee.

Interviews for Open House Committee chairman and Parents' Day Committee sub-chairman will be held at 7 p.m. and 8 p.m., respectively, Wednesday in the E-Board room.

The Open House Committee, sponsor of two open houses a year in the Student Union Building, coordinates the functions of the building — educational, recreational, and social — and blends them with hospitality.

The Parents' Day Committee plans a day for parents to visit the campus and to attend a football game and coordinates activities of the beard growing contest, living group decorations and a no-host breakfast at the SUB.

Thursday Try-Outs
Student - Faculty committee interviews scheduled for 7 p.m. Thursday in the ASUI President's office include the following: Student Faculty Committee, Public Events Committee, Commencement Committee, Student Union Board, Educational Improvement Committee and Women's Disciplinary Committee.

Interviews for Homecoming chairman and Films Committee members will be held at 7 p.m. Thursday in the E-Board room and Sawtooth Room, respectively.

The Homecoming Committee plans and executes the program of the Homecoming football game, coordinates the Homecoming queen pageant and the parade.

Students may try out for more than one committee.

Panhell Works For Unity, Cooperation

fraternity life and interfraternity relations within our college.

2. To further excellent intellectual accomplishments and sound scholarship.

3. To co-operate with the college administration in the maintenance of high social standards.

4. To be a forum for the discussion of questions of interest in the college and fraternity world.

5. To compile rules governing rushing, pledging and initiation on this campus and to regulate other matters of interfraternity interests at the University which are presented to Panhellenic for consideration.

hellenic is the coordination of rushing activities which take place during the fall rush period. What it amounts to is the organization of several hundred rushees for a week of rush parties and pledging.

All this takes place with the guidance of Mrs. W. H. Boyer, executive secretary of Panhellenic, and Mrs. Marjorie Neely, dean of women.

Panhellenic has other responsibilities throughout the year besides the main activities of fall rush.

Each year Panhellenic presents a scholarship tray to the sorority with the greatest grade improvements from the preceding year. This year the award will be made at the IFC Greek Awards Banquet to be held Tuesday.

Workshop
At the beginning of second semester Panhellenic holds a workshop in conjunction with in-

stallation of officers. At the workshop sorority members get a chance to discuss common problems. An alumna sorority speaker is planned as part of the program.

Panhellenic works with the Moscow City Panhellenic to hold a style show and tea for the Moscow High School Seniors. This year the tea was held Saturday. Sororities also hold coffee hours for the Moscow senior girls.

Representatives from Panhellenic speak to high school girls throughout the state and in Washington to explain the rushing procedures at the University.

Panhellenic has the following officers: president, vice president, secretary-treasurer, public relations, rush chairman, and scholarship chairman.

The vice president moves up to the office of president so she has had one year of Panhellenic experience before assuming the main office.

The Golden Fleece

By Jason

POTPURRI UNANSWERED QUESTIONS
 May Jason suggest one small improvement for the Miss University of Idaho pageant? The questions asked of the five finalists were a little silly.

The first, "What does the University of Idaho mean to you?" was predictable. For some reason, this is standard operating procedure. This type of question is a pat question which the girls answer with pat replies. I wonder what would happen if a girl got original and replied something like "men, booze and fun" That is, instead of "I just love it."

The second question, "What do you think of the Beatles?" was evidently designed as a shocker—to test the reflexes, but not the intelligence.

Why not ask a second question of a thought nature? I understand why the first question has to be asked, but the second?

Curiosity impels me to ask why a man named an outstanding professor would accept the honor when he doesn't have enough respect for it to allow his background to be published.

One professor became rude when asked for a picture and information, saying he "didn't want publicity." If he didn't want publicity, why accept an honor which, of its nature, impels publicity?

Why is it that the staff of the Washington State University "Evergreen," student newspaper, won't work unless they get credit hours? Argonaut staffers don't get credits, and the salaries range from 15 cents per hour to 25 cents per hour, so pay can't be our motive for working from 20 to 60 hours per week.

Compliment for the day: Intercollegiate Knights for their well-planned Miss U of I pageant.

Regents President Speaks At Exec-Board Meeting

Members of Executive Board sat down to an informal supper with the president of the Board of Regents Monday night and discussion topics ranged from classroom buildings through junior colleges to what students can do to improve the University.

Elvon Hampton, Genesee, president of the Board of Regents, told members of Executive Board during an irregularly scheduled meeting Monday that the student voice has more influence than is readily apparent in decisions by the Board of Regents.

"We're operating this University for the students," Hampton said, "not, as some persons may think, for the convenience of the faculty and staff."

In turn, he said, students must do what they can to improve the University image throughout the state. To do so, he added, they must act as representatives while at home.

This is a more important function than contacting legislators or lobbying for the University.

"That's getting into politics," Hampton said, "and students can't do the job."

Getting into other topics, Hampton said that he supposed that the temporary classroom buildings would be torn down upon completion of the new projected student financed classroom building.

"We're building these new classroom buildings so that students won't have to use the old ones," he said.

In response to a question, Hampton said that he felt that the restrictions placed on in-state enrollment were justified and within the power of the Board of Regents. He referred to a ruling that the lower 25 per cent of Idaho high school graduating classes be restricted in enrolling at the University.

CASTING ABOUT FROM TOPIC TO TOPIC in response to questions from Executive Board members, Hampton said that he would like to see a system of state supported junior colleges to handle the growing number of undergraduate students. He added that the Board of Regents is going to push for such legislation during the next session of the Idaho Legislature.

Touching on a recent proposal to form separate boards of education for elementary and secondary and higher education, Hampton said that his experience and that of other states had indicated that such a proposal was less effective than a centralized board as is during the meeting after the dis-

Best Profs Participate In Activities

Most of the professors picked as outstanding by the Educational Improvement Association participate in a wide range of activities, both professional and with students.

Today's backgrounds on 15 of the outstanding professors named during the May Fete complete the list started in the last issue of the Argonaut.

DR. GUY R. ANDERSON, associate professor of bacteriology, joined the University of Idaho faculty in 1946 after a stint in the Army. He works in food and soil microbiology.

Professional associations he holds include Sigma Xi, Phi Kappa Phi, the Idaho Academy of Science, American Association for the Advancement of Science, American Society for Microbiology, American Association of University Professors, Alpha Zeta and Sigma Alpha Omicron.

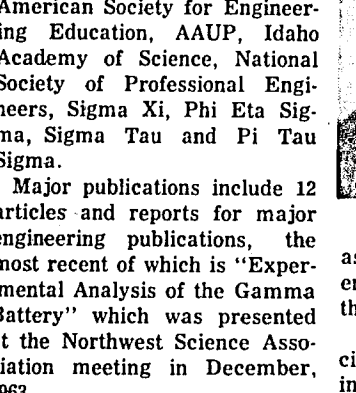

He has published nine research articles. His work with students has included advising Alpha Zeta and the Ag Council.

WILLIAM P. BARNES, professor of mechanical engineering, came to the U of I seven years ago from the University of Utah. He has 15 years of teaching experience in the fields of thermodynamics, heat transfer, internal combustion engines, jet propulsion and nuclear engineering.

He holds memberships in the American Society for Engineering Education, AAUP, Idaho Academy of Science, National Society of Professional Engineers, Sigma Xi, Phi Eta Sigma, Sigma Tau and Pi Tau Sigma.

Major publications include 12 articles and reports for major engineering publications, the most recent of which is "Experimental Analysis of the Gamma Battery" which was presented at the Northwest Science Association meeting in December, 1963.

ANNOUNCEMENTS READY
 Senior announcements may be picked up at the Student Union Bookstore for 14 cents apiece, Chester Kerr, manager, said Monday.

No Picture Available

JAMES M. BELL, associate professor of engineering, has handled courses in soil mechanics and foundations engineering since he came to the University 1 1/2 years ago from professional work as a soils and foundations engineer in California and Oregon.

Professional groups of which he is a member are the American Society of Civil Engineers and the American Society for Engineering Education.

Works in progress include a thesis on "Stress - Strain Characteristics of Cohesionless Granular Materials".

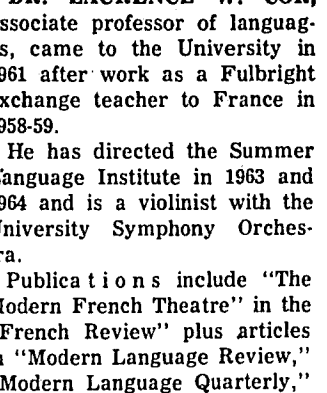

DR. LAURENCE W. COR, associate professor of languages, came to the University in 1961 after work as a Fulbright exchange teacher to France in 1958-59.

He has directed the Summer Language Institute in 1963 and 1964 and is a violinist with the University Symphony Orchestra.

Publications include "The Modern French Theatre" in the "French Review" plus articles in "Modern Language Review," "Modern Language Quarterly," and the "Journal of Aesthetics and Art Criticism."

He is currently president of the Northwest Association of the American Association of Teachers of French and holds memberships in the Modern Language Association and the Philological Association of the Pacific Coast.

DR. ROBERT E. HOSACK, professor of political science and head of the Department of Social Sciences, has been with the University since 1943.

Student organizations with which Dr. Hosack has been associated include the International Relations Club and its successor, the Model United Nations delegation. He is a former foreign student advisor and is associated with Cosmopolitan Club, plus work with Pi Gamma Mu, social science honorary.

Professional affiliations include the American Political Science Association, AAUP, Asia Society and United World Federalists. He is a member and trustee of the Northwest Scientific Association.

Publications include two chapters of books, and "The Shantung Question and the Senate" in the "South Atlantic Quarterly" in 1944.

LOUIS L. EDWARDS, JR., assistant professor of chemical engineering, was appointed to the U of I staff in 1961.

Technical and professional societies of which he is a member include Sigma Xi, Tau Beta Pi, Phi Lambda Upsilon and the American Institute of Chemical Engineers.

Courses taught by Edwards include fluid mechanics, thermodynamics and heat transfer, chemical engineering analysis,

chemical engineering material and energy balances.

He has published two works and will present "Heat Transfer in the Thermally Decomposing Ozone System: Theoretical Investigation" at the seventh national Heat Transfer Conference at Cleveland this August.

No Picture Available

D. W. FITZSIMMONS, assistant professor of agricultural engineering, has been with the University since 1959. Prior to that he worked with the Agricultural Research Service at Boise.

He is a registered professional engineer in Idaho and is a member of Sigma Tau, Phi Kappa Phi, Sigma Xi, American Society of Engineering Education and the American Society of Agricultural Engineers.

He advised the ASAE student branch in 1961-62.

Publications include articles for the Idaho Engineer and two for Agricultural Experiment Station Research bulletins.

DR. ROBERT HURLEY, assistant professor of English, came to the University last fall from study at Columbia University to teach English literature and poetry courses.

He holds memberships in the Boston Mycological Club, Massachusetts Audubon Society and the Modern Language Association.

Dr. Hurley will teach part-time during Summer School.

No Picture Available

DR. FRANCES MAIB, professor of education, came to the

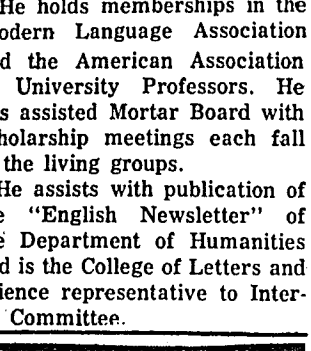

DR. J. VAIL FOY, assistant professor of English, came to Idaho in 1952 and was a graduate teaching fellow of Cornell University from 1949 to 1962.

Dr. Foy's University work includes director of English composition and advisor to English majors.

He holds memberships in the Modern Language Association and the American Association of University Professors. He has assisted Mortar Board with scholarship meetings each fall in the living groups.

He assists with publication of the "English Newsletter" of the Department of Humanities and is the College of Letters and Science representative to Interim Committee.

DR. ROBERT HURLEY, assistant professor of English, came to the University last fall from study at Columbia University to teach English literature and poetry courses.

He holds memberships in the Boston Mycological Club, Massachusetts Audubon Society and the Modern Language Association.

Dr. Hurley will teach part-time during Summer School.

No Picture Available

DR. FRANCES MAIB, professor of education, came to the

University of Idaho 13 years ago from the College of Puget Sound. She specializes in elementary teacher education.

Professional groups with which she is affiliated include Pi Lambda Theta, National Education Association, Elementary School Principals and the International Reading Association.

Her student activities include Frosh Orientation and study groups.

She has published several pamphlets.

G. A. McKean, assistant research professor in engineering, refused to allow either a picture or information about himself to be published.

WILLIAM P. SLOAN, associate professor of architecture, came to the University of Idaho in 1955 from a position as an architect with Harry Weese of Chicago.

Sloan teaches building construction, architectural design and city planning, and is a licensed architect in Illinois and Idaho.

He has nine years' experience in his profession and six in teaching. He was awarded the Inter-American Fellowship in planning from Yale and was sent to Bogota, Colombia.

DR. FRANCIS SEAMAN, associate professor and chairman of philosophy, came to the University in 1949.

Student activities include participation in the Student - Faculty Retreat in the fall of 1960. He is a member of several philosophical societies and was president from 1962-64 of the Northwest Conference on Philosophy.

He has published one article, with four more forthcoming.

No Picture Available

LEE A. SHARP, associate professor of forestry, has been with the University for 15 years, prior to which he was a research assistant in the Army.

He holds memberships in Xi

Sigma Pi, Sigma Xi, Phi Kappa Phi, and the American Society for Range Management. He has published articles in the "Journal of Range Management" and "Forestry Research Notes."

WILLIAM P. SLOAN, associate professor of architecture, came to the University of Idaho in 1955 from a position as an architect with Harry Weese of Chicago.

Sloan teaches building construction, architectural design and city planning, and is a licensed architect in Illinois and Idaho.

He has nine years' experience in his profession and six in teaching. He was awarded the Inter-American Fellowship in planning from Yale and was sent to Bogota, Colombia.

No Picture Available

W. W. STALEY, professor of mining engineering, has taught mining engineering at the University since 1929, with two leaves of absence to the Philippines and Seoul National University.

Organizations to which he belongs are the American Institute of Mining and Metallurgical Engineers and Sigma Xi. He is a professional engineer in Idaho and faculty adviser to Sigma Gamma Epsilon.

Mineral industry experience includes work in five states and two foreign countries in jobs ranging from miner and timberman to engineer and consultant. He was mining engineer for the Idaho Bureau of Mines.

'One Must Enjoy Work,' Mrs. Erickson Tells Group

Life is not worth living when one does not enjoy his work, Mrs. Elmer H. Erickson, extension information specialist at Washington State University, said Wednesday evening, so students must choose their training carefully.

She was speaking to members of Theta Sigma Phi, women's journalism society, about the importance of finding a job that is "fun."

"Too many people lead lives of quiet frustration," she said, "and having a job they don't like is usually a major reason."

Grace Under Pressure
Mrs. Erickson emphasized the value of grace under pressure. "John F. Kennedy," she said, "was an example of grace under pressure. It can be an invaluable help — you need it for any job. If you don't enjoy your work it is almost impossible to develop that kind of grace."

She cited three essentials for enjoying work.

"I think that the key to making people respond to what you are trying to do," she said, "is enthusiasm. Of course, if people respond, you'll enjoy your work more."

"It's important, too, to really believe in what you are doing. If you don't think what you do is important you're in the wrong line of work."

'Care for People'
"Most important of all," she said, "is caring for people. Kindness is the most important attribute anyone can have."

Those three things — enthusiasm, belief in your work and genuine regard for people — will make most people forgive many other shortcomings, she said.

Mrs. Erickson is the WSU chap-

ter advisor for Theta Sigma Phi. She is the last of a series of speakers sponsored by the Idaho chapter.

Earlier in the evening initiation was held for three members of Theta Sig. They are Joyce Arthur, Tri Delta; Ann Spiker and Janice Craig, both Thetas.

Closed Nights To Begin May 28

A week of closed nights before final exams will begin May 28.

Students who promised themselves to attend a few meetings this semester still have nine days to do so. Social life will be at a minimum during closed week. No meetings or functions are to be scheduled after the 28th.

Examinations begin June 5 and run through June 12.

Greek Awards To Be Given

Presentation of the IFC Greek Awards will be held tonight 6 p.m. at the annual banquet in the Ballroom of the Student Union Building.

Awards will be given to fraternities and sororities honoring various achievements.

This year awards will be given for first place intramural sports, house scholarships award, pledge class scholarship awards and girl's scholarship award.

Outstanding Greek man, Greek woman and faculty member awards will be presented. The two outstanding Greek awards will be given to seniors C. S. Hillyard, national officer of Pi Kappa Alpha fraternity at Washington State University, will be the guest speaker for the program. Jim Johnston, FarmHouse, will be the master of ceremonies.

The dean from each college, five representatives from each Greek living group and special guests from Moscow will attend the banquet.

APO Builds Boat Docks

Twenty Alpha Phi Omega members spent Saturday in Potlatch building docks for the Lewis - Clark Council of the Boy Scouts of America.

The service fraternity built two sections of dock, each 48 feet long and added onto a dock they built last year, according to Gary Strong, Upham.

This is the second year the group has helped with the project. Next year they will probably help clean the grounds, Strong said.

The men had time to spend part of the day swimming, boating, and eating steaks.

REGENTS MEET
The next regular meeting of the Board of Regents will be on June 11 and 12 in Moscow. The deadline for having agenda material in the office of the President will be May 22.

OUTSTANDING MINING GRADUATE — James M. Macki, Gault, was named the graduating senior who shows greatest achievement and promise in his field of metallurgical engineering. Roland R. Reid, acting dean of the College of Mines, is presenting him with the J. R. Simplot award for achievement and \$100.

Theophilus, Gibbs Inform Speakers' Bureau Students

Orientation of students participating in the ASUI Speakers' Bureau will feature discussion by University President D. R. Theophilus, information director Rafe Gibbs, admissions director Frank Young and Academic Vice President Walter Steffens.

The discussion, by both administration members and students, will be at 8 p.m. Wednesday in the Borah Theatre at the Student Union Building, Gerald Huettig, Executive Board member, said Thursday.

Huettig, whose area of con-

cern includes the Speakers' Bureau, said that all students interested in participating in the Bureau's program of providing speakers to civic and other organizations throughout the state are urged to attend.

The main point of the discussion will be orientation about the University, Huettig said.

"Any student, whether or not he plans to participate in the Speakers' Bureau, is welcome to attend the meeting," Huettig said.

The Bureau, which was organized last year by ASUI President Jim Johnston, then a member of Executive Board, is designed to make available to civic groups in Idaho communities speakers authorized by the student government to inform the residents of the State about the University.

During Christmas vacation, students under the auspices of the Bureau spoke in more than 70 locations, Johnston said.

Students wishing more information may contact Carl Johannessen, Campus Club, ASUI public relations director, or Huettig at the Delta Sig House, Huettig said.

Panama To Be Discussed

Panama will be the topic of Friday's Cosmopolitan Club meeting at 7:30 p.m. in the Gold Building, Arvind Saklikar, president, said Monday.

Dr. Robert E. Hosack, professor of political science, will discuss the Panama situation and will show films.

Refreshments will be served.

AG RECOGNITION

Students and faculty in the Plant Science and the Ag Chem and Soils Departments will be recognized for scholarships, honoraries and other awards they have received the past year at the Agronomy Club meeting 7 p.m. Thursday in Agronomy 104.

SIEA Elects New Officers

Officers were elected at the Student Idaho Education Association meeting held last Thursday. Elmer Crowley, executive secretary of the Idaho Education Association, was the guest speaker.

Bob Dutton, Delt, was elected president. Other officers are Hugh Langlois, off campus, vice president; Nadine Wright, Theta, secretary; Kathy Nelson, Forney, treasurer; and Jan Jackson, Tri Delta, reporter.

Buy Slaves Or Smacks At Auction

All women's living groups, or individual women, who need menial chores done may obtain Tau Kappa Epsilon slaves at an auction Saturday from 10 a.m. to 5 p.m. in the Campus Christian Center parking lot.

Suggested chores for the slaves include car washing, lawn mowing, flower bed weeding, cleaning trunk rooms, shampooing rugs and waxing hardwood floors.

The slave auction and a car smashing party are being held by the TKE's to raise money to support a boy in Bogota, Colombia.

The car smashing will also be held at the CCC lot. Sledge hammers will be provided at the rate of \$.25 per smack or \$1 for 6 whacks. Anything knocked off the car may be kept by the person wielding the hammer.

Money from both events goes to support Steve Jorge Rique Sanchez, a 10-year-old with five brothers and sisters. He uses the money to help support the family and to buy school supplies for two sisters who are in grade school.

SENIORS! NOTE DATE

It has been noted that the date of the leap year annual get-together is the second Friday night in June, four miles east of town.

Rings N' Things

ENGAGEMENTS

RIDDLE - NIELSEN

The engagement of Pat Riddle, Alpha Phi, to Dave Nielsen, Delta Chi, was announced after spring vacation as 12 of her sorority sisters quoted a passage on "Love." The nosegay holding the ring was made of lavender mums. Those assisting included Toni Riddle and Ann Thompson.

The wedding will be August 8.

KESLER - KRIPPENE

The engagement of Karin Kesler, Alpha Gam, to Brett Krippene, Oakland, Calif., was announced by Karin's mother at a mothers' fireside on Saturday night. The ring was passed on a yellow candle entwined with red and yellow roses.

PINNINGS

ZAMZOW - TRAIL

A white candle entwined with pink rose buds was passed at Wednesday dress dinner and claimed by Rosie Marler, Alpha Chi and then Penny Thornock.

The pinning of Karen Zamzow, Alpha Chi, to Dusty Trail, Sigma Chi, was later announced by Laina Phillips and Sadie Evans, Alpha Chi.

VEDDER - COX

At a Tuesday night fireside Connie Vedder, Ethel Steel, blew out a white candle covered with garnet red roses to announce her pinning to Joe Cox, Lindley Hall.

HUMPHREY - RICE

Jay Baldeck, Theta Chi, armed with a shot-gun, burst into the dining room Sunday at dress dinner to announce the pinning of Dave Humphrey, Theta Chi to Carol Rice, Perham Hall, Washington State University.

Yell Leaders To Be Chosen

A Yell King and two yell leaders will be chosen 7 p.m. Thursday in the Student Union Ballroom. A meeting for those interested will be held 7 p.m. tonight in the Ballroom.

This year there will be men yell leaders going back to the traditions of the straw hats and the old jalopy associated with yell leaders, according to Arlen Marley, Vandal Rally chairman.

SOB SWEETHEART

Linda Kinney has been named the Sigma Omicron Beta Sweetheart of 1964.

Ed TV Will Be On 'Probe'

Educational television at the University will be the subject discussed on Probe 6:30 p.m. Thursday.

Gordon Law, head of the Department of Communications, and Mrs. Elna Grahn, professor of mathematics, will discuss the problems connected with television teaching, according to Jay Gaskill, moderator.

The two will also discuss the scope of the program at the University and its effectiveness; the situation which makes this teaching increasingly necessary; and the plans for an Idaho educational television network in Moscow.

Mrs. Grahn currently teaches more than 80 students via the facilities of KUID television. The station is operated by the University Communications Department.

The program will be on campus channels 7 and 12 and on channel 5 off campus.

PHI DELT BELL

The Phi Delt built their victory bell in 1947.

Key Meeting Set For Wednesday

Women who plan to use the senior key privilege next year will meet 7 p.m. Wednesday in the Student Union Ballroom.

Attendance will be taken at the meeting and only those who attend will be allowed to use the keys, according to Carole Husa, AWS president.

Student Chemists Elect Officers

New officers for the student affiliate chapter of the American Chemical Society at the University include:

Leslie Heasley, Willis Sweet, president; Ronald Hanson, Upham, vice president; Mary Oliver, Houston, secretary-treasurer; and Marilyn Ravenscroft, Ethel Steel, program chairman.

Retiring officers are Curtis Sutton, off campus, president; Ruth E. Anderson, Forney, vice president; James Buckner, off campus, secretary-treasurer; and Fred Hohorst, Gault, program chairman. Dr. Malcolm M. Renfrew, head of physical sciences, has been advisor to the group.

Deadline Set For Calendar Of Activities

Organization and department heads are asked to turn in dates, times and places of campus activities for next fall's calendar to the Activities Office in the Student Union Building, according to Jane Watts, Campbell, head of Calendar Committee.

The calendar committee publishes a semester calendar containing a schedule of all-campus events, which students received at the time they register at the University. "The calendar is very useful to students planning their activities," said Miss Watts.

"We are asking that campus organizations turn in a list of first semester activities, including times and places, to the Activities Office in the SUB by noon on May 27," she said.

Public events, concerts, SUB films, Campus Chest, Holly Week, drama tryouts, and the Spur Nickel hop are a few of the activities listed on the calendar. "We hope that the addition of times and places will make the calendar more valuable to the student," she said.

Biochemist Will Present Lectures

Dr. G. W. Brown, Jr., assistant professor of biochemistry at the University of Texas is lecturing on campus.

He is sponsored by Phi Sigma, biological sciences honorary, and Xi Sigma Phi, forestry honorary. He will be speaking on "Bioenergetics" at 10 a.m. today in Science 105. Other lectures will be "On Being Biological" at 4 p.m. today in Science 110; "Enzymes, Excretion and Evolution" at 11 a.m. tomorrow in Forestry 334.

MILLION DOLLARS

WILL BE LOST IN THE INLAND EMPIRE

Damages to crops, equipment and additional processing costs and losses total over \$2 million yearly because of the carelessness of those who toss refuse and bottles into roadside fields. The next time your friend throws something from your car remind him that we all have to pay the litter bill. "Every Litter Bit Hurts" is more than a slogan, its an economic reality.

Hittin' The Hi-Lites

By Fred Freeman

Seven points—That's the margin that Idaho State beat us by in the Big Sky all-sport championships. Never-the-less we did manage to pile up a considerable record to our credit in the first year of the new conference.

Going into the final conference sport action last weekend with four championships on the line at Missoula, we claimed the baseball title in a two-game playoff and placed second in tennis, track and golf.

Idaho State's big win in rack and their narrow victory over us in tennis made the difference. Still we at least lived up to expectations in track and Coach Doug MacFarlane found some surprises where he hadn't expected them. Sprinter Joe Chapman qualified in the hundred with a 9.8 right behind ISU's highly rated John Briggs who qualified with a 9.7 and later won with a 9.6.

What MacFarlane terms his best unexpected time was the 21.8 set by Bill Bryson in the 220. Although Bryson only placed third he was beaten by Briggs with a 21.4 and by ISU's almost equally ranked Bill Harvey.

Surprise In Tennis

In tennis Idaho State was highly favored to take the tournament. What's more Gonzaga who led the first day action had beaten the Vandal netters twice before. However, on the second day, Vandal coach Marsh Reynolds team pulled in several singles match victories and was tied with the ISU bunch going into the doubles. For the tennis team this was a fitting time for their best performance of the year.

Montana's golf victory was perhaps the only turn against the Vandals of the weekend. Favored in the golf match, we led the first day but dropped behind on Saturday and lost by five strokes.

Fair Warning

If we didn't take the crown this year, we at least gave fair warning not to count us out. Going into the weekend round of action, we trailed Montana State by 29 1/2 points for fourth place. Given a difficult task to catch MSU and ISU, we passed the former and gave the latter a run for their money.

Fair warning flags might be in store to go up again for some of the returning talent next year. Besides Dee Andros' wider and deeper 1964 version of the Vandals in football, Coach Reynolds informs us that he will have a tennis team to watch next year.

Reynolds will only lose two of his six man traveling squad to graduation. Better yet, one and two men are only freshmen. Also calculated to help our tennis program will be two more scholarships available for the first time next year. No wonder Reynolds smiles when he says "We're Building."

Track Team Takes Second At Big Sky Championships

The University track team closed out its season by taking second place in the Big Sky Conference track and field meet at Missoula Saturday.

Idaho State, with John Briggs leading the way, won the meet with 164 1/2 points. Idaho had 91 points, Montana State 77, Montana 73 1/2, and Weber State 3.

Idaho, taking only three first places, placed second in the 880, triple jump, 440 relay, and mile relay and combined several other place finishes for their point total.

Max Leetow won the discus event with a throw of 1 feet 10 1/2 inches. Nick Carnefox won first in the 440 with a time of

48.7 seconds, and Jim Jackson cleared 13 feet 2 inches to win the pole vault.

Briggs scored 35 points by taking first in the 100 yard dash and the 220, second in the broad jump, fourth in the triple jump, and running on the winning 440 and mile relay teams.

Montana got its biggest boost from the efforts of Doug Brown, who won the mile and three-mile events. He received a standing ovation after lapping the field in the three-mile from the nearly 4,000 fans.

All final marks set in the meet were Big Sky records, as this was the first such event ever held.

Full Sports Weekend Set For Finale - Champion Baseball Team To Meet WSU

Tennis, Golf And Football Action Set

The curtain will ring down on the 1963-64 athletic season at the University of Idaho late Saturday afternoon, but it will be a full final day with action on four fronts on the Moscow campus.

The Vandals will host the Far West tennis championships on Friday and Saturday with all of the major Northwest schools entered.

The golf team will close out its season with a match against Washington State on the University course.

Coach Dee Andros will get a final look at his potential 1964 grid team with the second game in the Picnic Bowl series in Neale Stadium on Saturday morning. It will be a test of rookies against veterans again as it was last weekend. The upcoming sophomores are pushing for jobs now held by lettermen.

John Foruria of Emmett at quarterback, Dick Arndt at quarterback, Dick Arndt at Sandpoint at tackle, and Ray McDonald of Caldwell are among the top rookie candidates.

The Vandal baseball team, Big Sky champions, will try to climb a notch or two in the Northern Division base ball standings with a two-game series against Washington State. The teams play in Pullman on Friday and Moscow on Saturday. WSU holds a 2-0 edge in the four-game series this season.

Tournament Ends Tennis Season Here

The University of Idaho tennis team, after turning in their best performance of the year at the Big Sky championship last weekend, will end the season Saturday in the Far West tennis championship, here.

The Vandals, holding their Idaho State, went into the final afternoon of play in the championship tied with the Bengals at 10 sets each.

At the end of the semi-final doubles play, ISU had gained three points over the Vandals, and pulled out a 15-12 victory to win the championship.

Gonzaga finished close behind the Vandals with 11 points. Only the week before, Gonzaga beat Idaho 8-1. The Bulldogs had beaten Idaho 6-3 in earlier season action.

"Idaho has had the potential all year and it finally showed up in the championship," Marsh Reynolds, tennis coach, said.

Two Vandals, Terry Winter and Scott Rustay, went all the way in the tournament without losing a single match. Winter won his final championship match 9-4, 7-5 over Ken Sullivan of Gonzaga. Rustay beat Emerson of MSU 6-2, 8-6 in his final match.

Four of the six team members will return next year, Reynolds said, and both the number one and two men are freshmen.

I CLUB MEETS

I Club will meet today at 7 p.m. in the Student Union Building Vandal Lounge to plan for the annual picnic. A meeting called for May 11 was poorly attended and the meeting had to be re-scheduled, according to Karl von Tagen, publicity chairman.

BREAKIN' FOR A LONG GAIN — Ray McDonald, (40) fullback for the white team in Saturday's scrimmage breaks away from his would-be tacklers for a long run. Preparing to block for McDonald is Vern Leyde (86). Trying to catch up to McDonald are Ray Miller (77) and Dick Litzinger (53). The Blacks won the game over the Whites 21-14.

Blacks Win 21-14

Whites To Try To Overcome Black Lead In Picnic Bowl Saturday

Dee Andros and the University of Idaho football team will end spring drills in Saturday's second game of the annual "picnic bowl" intrasquad scrimmage series.

Last Saturday in the first "Picnic Bowl" game, Line Coach Dick Monroe's Blacks moved one game and seven points ahead of Backfield Coach John Easterbrook's Whites with a 21-14 win. The two teams are balanced with eight lettermen on each team.

In last year's contest Easterbrook's Whites took the first game 15-8 but lost the second to Monroe's crew 12-8. Coach Easterbrook and his team however enjoyed the fruits of their efforts as they collected the most points in the two games and were treated to a picnic by the Blacks.

Stop White Drive
Saturday the Blacks scored late in the final period and stopped a last minute White drive to take a touchdown lead in the "Picnic Bowl."

"I was very pleased with the progress of our younger kids," he said. "Some of them displayed real poise and showed that we have good depth this year."

Monroe, who has yet to win a Bowl series in three tries, watched his sophomore-studded Blacks build a 14-7 halftime lead, only to have the Whites tie it in the third quarter.

Dale Meyer bucked over from the one-yard line for the Blacks' winning tally and sophomore Jerry Ahlin kicked the extra point. The Blacks started to roll with about six minutes remaining in the last period from their own 40.

Mike Monahan, quarterback for Easterbrook's Whites, nearly got the score back for the Whites with a passing attack which carried the Whites 45 yards before time ran out.

Whites Score First
The Whites had opened the scoring in the first quarter. Monahan had rolled out for ten yards and then pitched to senior wingback Bill Scott who scampered 49 yards for a touchdown. Letterman Jerry Campbell, his

hand in a cast, kicked the extra point.

Sophomore Joe Foruria passed for two touchdowns, however, to give the Blacks the halftime lead.

Foruria hit sophomore wingback Pat Daily from the 18, mid-way in the second period and then just before the half, he looped another 18-yarder to junior end Bob Bassett, who scored. Ahlin missed with the first PAT, but after a penalty Meyer ran for the two-points and made it.

In the third quarter, halfback

Rich Naccarato recovered a fumble on the Black 37 and the Whites scored seven plays later. Sophomore fullback Ray McDonald set up the score with a 17-yard off-tackle play and later ran the ball over from the one. Campbell again kicked the extra point.

Vandals Host Tennis Meet

The University will play host to the Far West tennis championship this weekend, for the first time. The Far West event is the biggest meet of its kind in the Northwest this season.

University of Washington is favored to win, with an undefeated record so far this year. Idaho is the only opponent who has won a set against the Huskies this season. Idaho lost 8-1 in that match.

Other school participating in the championship will be Washington State University, Oregon State University, and University of Oregon.

This will be Idaho fans' last chance to see the Vandals in tennis action against the big Northwest schools, Tennis Coach Marsh Reynolds said. Next year Idaho will limit its tennis competition to Big Sky and area schools.

Golfers Take Conf. Second

The University golfers host Whitman College today at the ASUI Golf Course. The Vandals defeated Whitman 11-7 earlier in the season.

The Vandal golf team, paced by Terry Gustavel and Bill Goss with 229's placed second in the Big Sky Golf Championships held Friday and Saturday at Missoula.

The Vandal golfers were tied for the lead with Gonzaga after the first day of competition, but the Montana State University team shot a sensational 297 Saturday to move into the lead. Team scores are based on the four lowest scores of each team's six members.

Medalist for the tournament was MSU's Don Waller who fired a 218 for the 54 holes. Waller shot a 9 for the final 18 holes on Saturday.

Final scores for the five teams in the tournament were: MSU, 918; Idaho, 923; Gonzaga, 932; ISU, 941; and Montana State, 955. In addition to their second place finish Saturday, the Vandals have won 10 matches while losing two. They also won a tournament earlier in the year.

Only five points separated the scores for the six-man Idaho team in the Big Sky tournament. Gustavel and Goss tied with Hosmeister of Gonzaga for fifth. Larry Kirkland placed eighth with a 232, and Rick Jensen and Dick Trail ended in a three-way tie with Truscott of Gonzaga at 233. Tom Sampson tied with Clark of Montana State for twelfth with a 234.

Andy's Men Collect Two From Weber For Title

The Big Sky Conference baseball champion Idaho Vandals are set to play their final two games of the season against the Washington State University Cougars at Pullman Friday, and here Saturday.

The Cougars have beaten the Vandals in three previous meetings this season and, are pressing the University of Oregon for top spot in Northern Division play. WSU split with Oregon in a two-game series at Pullman last week.

Idaho claimed the Big Sky title in a two-game playoff against Weber State College at Missoula last weekend.

Friday Win 7-6
Friday with the game tied 1-1 and two Idaho men out in the bottom of the ninth, Idaho's leading batsman Jeff McQueeney blasted a double to bring home teammate Tom Hoagland for the winning score. Hoagland was sent to first on a wild pitch and he stole second to set himself up in scoring position before McQueeney's blast.

Sophomore pitcher Gary Peters started for the Vandals and held his own until the eighth when he was relieved by Bill Stoneman.

The Vandals opened the scoring in the second with two runs, and held the lead until the eighth when Weber tied it up. Glenn Goes Ten Saturday big Mike Glenn went all the way for the Vandals in a

10 inning thriller as the Vandals won 2-1 and collected the Championship.

The Vandals opened the attack in the second when outfielder Jim Carmichael crossed the plate. Carmichael had singled and stolen second base. He came home when Gary Luce hit a long ball to the left field which was muffed for an error by Weber's Bill O'Dell.

The Wildcats from Weber scored their lone run in the eighth when Chuck Howes gained first on a bunt down the third base line. He advanced to second on a fielders choice and was singled home by O'Dell.

In the ninth it was up and down in order for the Vandals and a lone Wildcat Tim Hodson was stranded on third after drawing a base on Balls.

McQueeney, the second man up for the Vandals in the tenth singled and was brought home two batters later on a single by Carmichael, giving the Vandals the win.

FIRST GAME	
Weber	000 013 020— 11 2
Idaho	020 103 001—7 8 3
SECOND GAME	
Idaho	010 000 000—2 7 1
Weber	000 000 010—1 7 2

Team Leaders

Catcher Jeff McQueeney continues to lead the Idaho club at the plate and veteran Mike Glenn and rookie Gary Peters carry the load on the mound. Curve-baller Bill Stoneman will be on hand for relief duties, too. Stoneman came on in relief against Weber in the first game of the championships at Missoula to get the win striking out five of the seven batters he faced. Glenn won the title game, 2-1 in 10 innings as he fanned 18.

In 1947 a "Sexy Sarah" and "Swooning Sam" contest was held.
