

COUGARS WALK

Idaho Argonaut

OUR 66TH YEAR OF CONTINUOUS PUBLICATION

VOLUME 69, NO. 11

UNIVERSITY OF IDAHO, MOSCOW, IDAHO

Tuesday, October 26, 1964

NEARLY A RECORD — Official attendance of 18,620 fans filling Neale Stadium was nearly an all-time stadium record. Only in 1947 when over 22,000 fans were reported to have watched WSU surpass Idaho 7-0 were there more.

Class Date Is Changed One Week

Because of petitions finally rounded up today, class elections have been changed from Oct. 28 to Nov. 3.

Petitions have been circulating for nearly two weeks to obtain the necessary 624 names, equal to 25 per cent of students who voted in the last election, to change the election date.

Nominations from Campus Union Party and Cross-Campus Alliance Party were made yesterday for the class officers. An opportunity to give the candidates an opportunity to speak before living groups and prepare for the elections was the main reason for wanting to change the date, according to Jim Johnston, ASUI president.

A total of 900 signatures was obtained by the Monday 5 p.m. deadline. The names were validated Monday evening by Ray Fortin, Phi Delt, chairman of Election Board.

Candidates will be speaking to members of all living groups this week and will be attending poster parties and working in other ways to be selected to their respective offices.

"Of all the candidates I've talked with, they all seem to be conscientiously aware of the need for good strong class government," Johnston said.

Platforms are in the process of being formed for the two parties, listing the objectives of the party and each class. The principal platform is left up to the individual candidates, however.

Ruth Ann Knapp, Ethel Steel, spearheaded the movement to change the election date.

Blood Issue Is In SUB

The Idaho Argonaut was the first paper to press with the news of the Idaho win Saturday.

In a special edition, printed in red "Cougar Blood" the Arg gave details of the Idaho win.

Twelve hundred copies of the paper were printed Saturday afternoon and were distributed Saturday night by Editor Fred Freeman at the Student Union and at the Elk's Club.

An additional 500 copies were printed Monday morning. Freeman said that the paper was not distributed to the living groups because of the limited number of copies available, but that there were still copies in the ASUI office for Vandal fans who want to see more Cougar blood.

RIDING HIGH — After the 28-13 victory over Washington State, the Vandals, riding high, decided to give Coach Dee Andros some of the same treatment. Here they mob the coach before hoisting him to their shoulders. At least to Idaho fans, the coach is tops.

U-I To Host ACU Meet; Conference In SUB, WSU

Idaho will host the Association of College Unions Region Fourteen Conference November 5 through 7 in conjunction with Washington State University.

Most of the conference meetings and banquets will take place at the University SUB. Colleges from all over the Northwest plan to attend.

The ACU is an international organization for the betterment of student union programs. Regional conferences like the one which will be held here are for the benefit of the students in the program. At this conference the delegates will exchange ideas, discuss programs, look at plans for student union buildings — Idaho's SUB in particular, elect new officers and select a site for the next conference, according to Gale Mix, ASUI general manager.

Approximately 150 students and 35 staff people will attend this conference from the various sections of Region Fourteen. This region contains 40 colleges in Idaho, Montana, Washington, Oregon, four provinces in western Canada, Alaska and Japan.

Important Meeting "This is one of the most important meetings held at Idaho in some time," said Mix.

The Spurs will handle registration for 1 to 5 p.m. Thursday, Nov. 5. That evening Nancy Grubb, Houston, conference committee chairman, will preside at the kickoff banquet.

Dr. D. R. Theophilus, president of the University, will deliver the keynote address. Entertainment will be by the Brown Mountain Four. Later that evening the Dipper will be opened for use by the delegates. At 9 a.m. Friday Larry Nye, Phi Delt, vice president of AS-

UI will preside at the opening assembly. Boyd A. Martin, Dean of the College of Letters and Sciences, will be the guest speaker.

ASUI Prexy To Speak Jim Johnston, FarmHouse, ASUI president, will address the luncheon Friday. Entertainment will be provided by the North Idaho Junior College Chorus.

A dinner dance will be held at the SUB Friday night. Si Elington, University of Oregon, national president, will be the dinner speaker. The Three D's, Capitol recording artists, will entertain at the dance.

The conference will be adjourned at 2 p.m. Saturday after a luncheon at WSU.

Idaho's official delegates to the conference will be all the area directors of Activities Council and the members of the host conference committee, including: Nancy Grubb, Houston, committee chairman; Ann Albee, Houston; Jim Fields,

FarmHouse; Joe Goffinet, off-campus; Diane Green, Kappa; Dick Jennings, Delta Sig; Larry Nye, Phi Delt.

Robert Marley, off-campus; Judy Mustard, Pi Phi; Bob Stanfield, Borah; and Mann Rudisill, staff advisor.

Colleges Attending The college which will be represented besides Idaho and WSU are: Central Oregon College; Centralia College; Central Washington State; Eastern Montana College; Eastern Washington State; Idaho State University; Lower Columbia College.

Montana State University; North Idaho Junior College; Olympia College; Oregon State University; Pacific University; Seattle Pacific College.

University of Alberta; University of British Columbia; University of Oregon; University of Puget Sound; University of Washington; Whitman College; Western Washington State College; and Whitworth College.

100 Must Sign Thursday To Make Victory Train Go

If 100 students sign for the "Vandal Victory Special" train to Boise by Thursday noon in the General Manager's office of the SUB, the victory train will chug to Boise, according to Bob Stanfield, publicity area director of Vandal Rally Committee.

As plans are thus far established, the train will leave for the Utah State-Idaho game Nov. 13 at 7 p.m. It will arrive in Boise around 9:30 a.m. and will leave for Moscow at 12 p.m. Saturday and will arrive before dress dinner Sunday.

"Because of the Vandal's tremendous victory Saturday, we are going full speed ahead with the plans. We feel that we owe it to Idaho students to give them a chance to see the Vandals in action one more time this year," Stanfield said.

According to the publicity director, anticipated passenger load will be 750 people, to include yell leaders, pom pom girls, Century Club members, Vandal boosters, student leaders and interested students. The total student contingent is expected to be around 550.

Total cost per student is expected to be around 16.50. This amount covers the round trip to Boise, transportation from the depot to the stadium, transportation from the stadium to downtown Boise after the game and transportation from downtown Boise to the depot at 11:30 p.m. In addition, two free breakfasts will be served and free coffee will be available for the whole trip.

Century Club members are selling tickets at living groups this week.

A reserved section at the game will be available to students attending. In addition, facilities for freshening up and for buying food will be available at Boise Junior College upon students' arrival in the capital city, according to Stanfield.

Band members will travel to Boise on a chartered Greyhound bus for the game, if funds can be found.

Idaho Celebration Quieter Than '54

Joyful Idaho fans celebrated the Vandal victory over Washington State University Cougars in relative quiet Saturday night, especially compared with the 1954 celebration when the Vandals last won the "Battle of the Palouse."

Moscow sheriff R. C. Lange said Monday that he had noted a few disturbances at the game. A group identified as WSU fans who were watching the game from a hill outside the stadium threw a beer bottle at his car, and an Idaho fan threw an apple at a student carrying a WSU sign. But, he said, for the most part the crowd was orderly.

Ten years ago, he said, the crowd was wild, both in the WSU stadium and in Moscow afterward.

The Lewiston Morning Tribune said that at least four fights broke out at taverns and bars over the elative merits of the Cougars and Vandals. Two sets of persons came in to the police station at 11 p.m. to sign complaints against each other for fighting.

Lange said that two WSU students ended up in jail. Steve Lloyd Bertson, 18, was sentenced to five days in jail and a \$125 fine by Mike Felton, police judge, for using false identification. Douglas Eugene Springer, 23, was committed to jail in lieu of a \$500 fine for resisting an officer.

Jim Lyle, Alumni secretary, said that the crowd was the largest in history of Idaho football. It might have been the biggest crowd ever assembled in Idaho for a single event.

Official attendance was 18,620, not counting about 150 WSU students who watched free from a hill above Neale Stadium.

President D. R. Theophilus was given special musical tributes at the football game.

Dr. Theophilus, who will retire as president June 30, 1965, was honored during half-time ceremonies when the University band dedicated to him the playing of the alma mater song, "Here We Have Idaho." Also dedicated to Theophilus was a medley of University songs, played at the end of the game by Professor Hall M. Macklin on the David Memorial carillon.

In a surprise tribute to President Theophilus, the "I" club presented him with an "I" blanket during half-time ceremonies.

Representing the athletic lettermen's organization, Chuck Kozak, basketball star from Seattle, told the president:

"We understand that back in your high school and college days you were quite a track man. For the last 37 years you have been running the good race for the University of Idaho, and the I Club wants to award you this 'I' blanket. It is

a token of esteem for your fine support of athletics and other student activities. This blanket carries with it the warmth of appreciation of the students of today and of the many years past."

The 1964 Homecoming had musical highlights throughout. Pep band members of the Twenties, headed by Al Marinneau of Hollywood, Calif., returned for some "jam" sessions.

The University band, led by Phillip Coffman, director of the marching band, Warren Bellis, director of bands, and Dan Bachelder, drum major, participated in the pre-game homecoming parade in downtown Moscow. Bands from nine northern Idaho high schools also took part in the morning parade. The bands represented the high schools of Kendrick, Kellogg, Lapwai, Bonners Ferry, Lewiston, Moscow, Mullan and Coeur d'Alene.

The half-time ceremonies featured the University band playing such old favorites as "Let Me Call You Sweetheart" and "Colonel Bogey." Johnny Reitz and his orchestra played for the Homecoming dance Saturday in the SUB.

COUGARS WILL WALK TUESDAY

The Cougars walk Tuesday. Jim Johnston, ASUI president, said Monday that the defeated Cougar fans would bring their pep band, and as much of the Washington State University body as will come, and will probably walk the nine miles election day.

The date will be passed on by the WSU Board of Controls Wednesday night. If the date is approved, the Cougars will probably arrive at Idaho at about 4:10 p.m.

Johnston said that plans were not final for the WSU welcome, but that there would probably be food for both WSU and Idaho fans.

"Now that the football team has made them walk," he said, "I hope the student body will be there to greet them."

'P' AIA Chapter Begins Activities

The student chapter of the American Institute of Architects held elections last Thursday at their first business meeting of the year.

New officers are: Bob Schaefer, Delta Sig, president; Elery Brown, Sigma Nu, vice president; Carole Crowe, DG, secretary; and Dick Owen, treasurer. Charles S. Dotts, assistant professor of architecture, is the chapter advisor.

Buchanan Emphasizes Importance Of Education

"A growing awareness that education, science and technology can bring to under-developed people all over the world a better way of life is stirring people everywhere to action," J. E. Buchanan, former president of the University and now president of The Asphalt Institute, College Park, Md., said in giving the main address Saturday morning at the dedication of Idaho's new Physical Sciences building.

Buchanan, who guided the University through the post-World War II years from 1946 to 1954, commented on the progress that has been made at the university in the last decade. He added that "this building we dedicate today has been artfully designed not only to keep

pace with progress but to foster it." The four-story Physical Sciences building, costing \$2,126,348, was voted by the 36th State Legislature. It was designed by Dropping, Kelley & Finch, Boise architects. Commercial Builders, Inc., Moscow, was the general contractor.

Governor Robert E. Smylie spoke briefly on the significance of the building to Idaho. Elvon Hampton, Genesee, President of the Board of Regents, formally accepted the building at the dedication ceremonies. President D. R. Theophilus of the university was master of ceremonies.

Stressing the University of Idaho's heritage as a land-grant college, Buchanan stated:

"The curriculum of the classical colleges of early America was narrow and restricted. It adhered so to the concepts of the Middle Ages that it refused to entertain any subject which its tradition had refused previously to honor. The content consisted largely of philosophy, theology, the dead languages and mathematics. Even literature was not approached as a living representation of man's thoughts, but as rote training for the disciplined mind.

"Although the curriculum included smatterings of science, such subjects were seldom taught in the scientific manner. As late as 1850 not a single college had a laboratory devoted to the carrying out of experiments. Equipment and apparatus for teaching were virtual-

Honorary Sells 1350 'P' Mums

Some 1350 "P" Mums were sold for Homecoming last weekend, according to Sue Nelson, Pine, Mortar Board mum sales chairman.

This was approximately 250 more than last year and more than expected, she said.

A week earlier 1150 had been ordered. Some 200 more than the original number were ordered early Saturday morning, said Miss Nelson.

"It was a long morning from 5 a.m. on," she said.

Approximately \$675 was raised through the sale of mums. Mortar Board holds the sale of mums annually during Homecoming preparations.

Convention Roundup CUP, C-CAP Nominate Officers

CUP

Lack of real issues and rule of many by the very few were listed as possible reasons for student political apathy by Dr. Ernest Ettlich, assistant professor of speech at the University at the Campus Union Party's nominating convention Sunday afternoon.

"I would urge CUP to lead in a fight for broader participation in student government at the legislative level. I would urge CUP to formulate and to support a reorganization of the Executive Board into a true legislative body, perhaps a Senate," Ettlich said.

Ettlich emphasized that Nov. 3 could be the last election day for class officers at the University because strong student factions are determined to all-

minate the class officers as unnecessary figureheads and to eliminate student government from the campus entirely.

No Active Party "Admittedly," Ettlich said, "such extremists are few in number. However, the majority of students at Idaho have already eliminated student government from the campus by refusing to have any active part in campus politics.

In closing remarks Ettlich said, "I began this speech by saying 'Class Election Day, 1964, may be recalled as the greatest defeat that student government by the majority has ever experienced in Idaho's history. The decision is your. Continue to play at politics and your playground will vanish; begin to work at politics and student government will become a vital

part on this campus."

New Members Two former United Party living groups attend the CUP convention as party members for the first time. A faction from Kappa Kappa Gamma joined CUP Friday and a majority of Delta Tau Delta fraternity members joined the party Wednesday. About 200 students attended the convention.

(Continued on Page 4, Col. 6)

C-CAP

Lack of individualism on the University campus was cited as a major problem by Charles E. Simmons, instructor of history, at Cross-Campus Alliance Party's nominating convention Sunday. Simmons, who gave the main address, said that apathy and

"frightful" mediocrity are prevalent on this campus. Apathy and mediocrity are demonstrated by a lack of intensity and complete satisfaction with the status quo, he said.

A part of the fault may lie with faculty, Simmons said. Faculty members have a lack of interest in student affairs, lack of participation and demonstrate little emotion or intensity. The town of Moscow is also an example of apathy, he said, so much so that the job of mayor has almost become an hereditary office.

A part of the education of the whole man is that of his political education and political drivers. A two party system is an important part of the University system, Simmons said. Students must act as realists

"GIVE HER A KISS" — Jim Johnston, ASUI President (not shown) coaxed Alumni President Dean Miller after he had crowned Queen Lorna Kipling and given her a dozen roses. It didn't take much coaxing.

The Golden Fleece

By Jason

I saw the true spirit of the University of Idaho Saturday. Our football team played hard and well, and gave us a decisive victory over Washington State University. Our students in the stands showed the spirit which helps foster victory, but had the good judgment not to let that spirit get out of hand and cause incidents that could have detracted from the perfect day. I wish to extend the warmest congratulations to the team members and to their fellow students who supported them in such an exemplary manner.

D. R. Theophilus
President

The President's statement above summarizes pretty well what I want to say. Only a few names and salient points remain to be told.

Few things could have made our Homecoming more complete than the Vandal's convincing defeat over the Cougars. Ray McDonald, Joe Chapman, Rich Naccarato, Tom Morris, Coach Dee Andros and all the team and coaches did a terrific job.

"It was about as perfect as we could have asked for." President D. R. Theophilus commented to us yesterday.

Joyce Arthur

Thanks Also To

Indeed it was, but it would not have been so perfect if it weren't for the detailed planning by Joyce Arthur, Homecoming chairman, Miss Maun Rudisill ASUI Program Director and the Homecoming committee.

Maun Rudisill

Miss Arthur and Miss Rudisill willingly sacrificed their time and as the big weekend neared, they literally worked almost around the clock preparing for the celebration.

The Alumni and fans who came to the University to give us the biggest homecoming crowd ever also made the occasion one that will live in our memories for many years. The enthusiasm shown by the fans both at the games and the other activities provided for us an example that we should hope to follow as we join the ranks of Idaho Alumni. They showed what it means to be proud of Idaho.

These pages are dedicated to memories of that weekend and to those who made it possible.

Arg Boosters Too

Special thank yous to those who provided the extra manpower to put out the 8-page color issue Friday and the "extra Cougar-Blood Edition" Saturday night, are also due.

With the color edition, the Idahoian press could only print a four page color section. This necessitated stuffing the second section by hand. Professor Walter Stewart and members of his journalism 107 class (Problems of Newspaper Production) helped us out of our problem—that being too few bodies to do the work.

Problems with keeping the colors aligned and the paper tearing before the issues were fully printed, delayed the issue and made us over an hour late for delivery. In addition to our regular staff members, John Lundy, Sigma Chi, gave an extra hand in distributing the paper.

On the "Cougar-Blood" extra, our thanks to Al Hofmann, "Beanie" Hassler and Ken Hutchinson, who were willing to come back to work and help get the special paper off the press, and to former Argonaut editor Jim Herndon who wrote the Frosh game story.

"Still The Mountain Wind" Is Set For Author's Appearance At "I"

When the ASUI drama production "Still The Mountain Wind" is produced in the University of Idaho Auditorium on October 29-31 a special critic will be watching.

Capt. David L. Wright, author of the play, will attend the opening of his western-life drama. The 35-year-old Air Force man whose short stories and poems have received praise in literary

articles is a native of Bennington, Idaho. He is currently stationed at Maxwell AFB, Alabama.

"Still The Mountain Wind," directed by Professor Jean Collette, chairman of dramatics, involves a cast of seven in the life of a Mormon community in the 1930's. The play was first produced in 1956 at Utah State university. Capt. Wright's alma mater. It has been staged also at the "Poet's Theater", Harvard university, the University of Minnesota, the University of Massachusetts and has been taken on tour of southern Utah communities.

"Garry Owens" Sharing the stage on the same nights will be a second play, "Garry Owens," by Talbot Jennings. A one-act play, it is related to Custer's last stand. Jennings is an alumni of the University of Idaho.

Short stories by playwright Capt. Wright include "A Summer in the Country" published in Mutiny magazine in 1960 and later by Best Articles and Stories magazine. In 1961 the story was placed on the Roll of Honor in Best American Short Stories, a book-length anthology. His work has also been published in the Arizona Quarterly, Inland, and the Humanist magazines. His poetry has appeared in several literary journals.

He has been on active duty with the USAF since 1953 when he was put in charge of writing curriculum materials and training literature at the Aircraft Controllers School at Eglin AFB, Florida.

Activities Council Will Hold Three Committee Interviews

Interviews for three Activities Council committees will be held this week. Mother's Day Committee will be tonight, at 7 p.m. in the Sawtooth Room; Seasonal Decorations, Oct. 28, at 7 p.m. in the E-Board Room; Publicity Committee and Student Opinion Poll, Oct. 29 at 7 and 8 p.m. in the E-Board Room, according to Bob Stanfield, area director.

committee serves as the main coordinating committee of the Publicity Area. Several of its functions are gathering information from the various areas needing publicity, writing up press releases, arranging for art work or Radio-TV advertising, releasing publicity to local news media, and working with the Department of Publications and the A.S.U.I. Public Relations Director, he said.

Opinion Poll Committee Student Opinion Poll Committee is organized to measure the success of Activities Council publicity and to provide a means of transmitting ideas from the student body to Activities Council.

The committee conducts weekly survey polls of the campus to measure advertising effect and to probe student opinions on Activities Council areas (Example: What do you think of Blue Bucket Inn? What changes would you suggest in Frosh-Faculty Forum? etc.) Stanfield continued. A summary of the results is drawn up and presented to the Publicity Area Director who presents the pertinent facts to Activities Council Board.

Mother's Day Committee is organized to coordinate the various activities of the traditional Mother's Day weekend in the spring. Coordination and publicity are the major tasks of this committee. The committee meets with all the sponsors of activities and helps set the time each activity will occur. The committee also publicizes the weekend activities and publishes a program, Stanfield said.

Seasonal Decorations Committee is organized to put up decorations in the SUB throughout the year. Publicity Committee Publicity Committee is organized to publicize all Activities Council events, distribute all publicity materials, and to work constantly to improve publicity, for without publicity there is no event, said Stanfield. The

MOONLIGHT OVER IDAHO — University students, parents and alumni danced to the music of Johnny Reitz and his band from Portland as they celebrated the Homecoming victory over WSU. Lorna Kipling, DG, Homecoming queen and her court were introduced during intermission as well as Joyce Arthur, Tri Delta, Homecoming chairman.

Color Girl Finalists To Be Chosen By Cadets

The finalists for Navy Color Girl will be chosen after a tea held tonight for the contestants to meet the cadets. One of

these finalists will reign over the annual Navy Ball which will be held Friday night from 9 to 12 p.m. in the SUB Ballroom. Contestants will wear evening dresses and the Cadets will wear dress blues to the tea, which will be held in the Galena Room of the SUB.

Rings N' Things

ENGAGEMENTS

CHILTON-MAY Carol Chilton, Ethel Steel, passed a fall candle and floral arrangement at a fireside last week to announce her engagement to Larry May, Lindley.

SPENSER-WISECAVER Donna Olson, Pine, claimed a pink candle entwined with red rosebuds at Pine Hall dress dinner Wednesday evening, and Sandy Stickle, Pine, announced the engagement of Lynda Spenser, Pine, to Joe Wisecaver, Theta Chi.

PINNINGS

THOMPSON-WILKS Kathy Thompson, visiting for the weekend at the Alpha Chi house, announced at Sunday dress dinner the pinning of her sister Patty Thompson to Bob Wilks, Phi Tau, by claiming a gold candle entwined with baby red roses.

WENINGER-SMITH

The pinning of Dianne Weninger, Alpha Chi, to Troy Smith, Christian, was announced by her little sister, Mariann Ausich, Alpha Chi, at a fireside Friday evening.

Voting for the five finalists will take place Wednesday during class. The finalists will be announced that night by tapping ceremonies at the girls' living groups.

Final selection of the Color Girl will be made Friday during class. Capt. Harry Davey, prof. of Naval Science, will crown the cadets' choice during intermission at the dance.

Open To Public This year the Navy Ball is open to the public and all students are invited to attend as guests of the University Naval unit, according to Dick Tracy, Lambda Chi, publicity chairman.

Music for the semi-formal dance will be provided by the 13 piece University orchestra and photographs will be taken after 9:30 p.m. Girls who are vying for the Color Girl title are Gwen Tolmie, Gamma Phi; Pat Nikkola, French; Stephanie Hull, DG; Norma Hagerman, Ethel Steel; Joy Ewing, Forney; Judy Boyer, Hays; Sheri Moltke, Pi Phi; Carla Hennings, Alpha Chi; Carol McFee, Houston; Gail Walker, Alpha Gam.

Committee Members

Committee members for the Navy Ball are Ricky Hicks, SAE, and Carl West, Phi Delta, co-chairmen; Mike Everett, Sigma Nu, band; Bill Schmidt, SAE, finance; Dave Grieve, off-campus, queen contest; Kris Kirkland, Beta, refreshments; John Barnes, Christian, invitations; Jim Crockett, Upham, advertising; Chuck Birchmiere, Fiji, decorations; and Don Fry, Delta Sig, clean-up.

Adult Education Director Describes Department Work 'Omnibus Job'

By JANICE CRAIG Argonaut Contributor

"An omnibus job" are the words the director of the Adult Education Division used to describe the work of the office located at the University of Idaho. Adult Education is divided into five areas: extension, correspondence courses, summer school, special programs and the placement service.

Raymond Kooi, director of the division, describes the program as one of continuing education. Where U-I Left Off The University takes the student through until graduation and then Adult Education takes over for the rest of his life, he said. It is not a replacement for a college education.

Although the program of the division covers five areas, there is much that it has hardly touched, Kooi said. Television education is an area that will be developed as the University develops its television station and the general classroom building is completed.

Education for those in business and community action programs have not been explored to any extent. Community action provides towns with guidance to solve their own problems.

Other areas which become more important in the field include family life, liberal arts for adults and education for the retired and aged, Kooi said.

Predicts Full Future "There is more in the future for Adult Education at the University than you think," Kooi said.

The program has grown from three staff members to ten in its five years of existence. In 1959 the University consolidated its program for adult education under the one division that operates it now.

Kooi has been director for two and one half years. Before coming to the University, he held a similar position at the College of Idaho.

Constant Changes As a program develops, revision is necessary to help it meet the needs of the times, Kooi said.

Correspondence study is an example of this. The program was changed from 170 courses in the summer of 1962 to 125 in the summer of 1964. Old courses were eliminated and existing courses were changed.

During this two-year period, 3,892 students registered for 4,208 courses in the levels of college, high school and non-credit.

Since the spring of 1963 the division has participated in the

University Extension Civil Defense Program. This area has two divisions: conferences for community leaders and shelter management classes for instructors.

The conferences have had 864 participants and 861 of these received certificates. The classes had 93 students and 68 received certificates.

Includes Civil Defense The Civil Defense program was the chief undertaking of the special programs division.

Other programs held under this area include the Letter Carriers Workshop, Farm Forester Short School in Communication, Water Works School, Private Pilot Ground School, Creative Rhythms for Children, and Hospital Management Conference.

Summer school grew from 1678 students in 1962 to 1772 in

1963. Increasing number of high school students are participating in the summer study sessions.

Several centers of adult education have been built in the state. The Boise center had 333 registered for the summer of 1963.

Atom Program An undergraduate resident program at the National Reactor Testing Station in Idaho Falls had 69 students enrolled in the spring of 1964.

The placement service is the area that is most closely related to the regularly registered students at the University. It is through this area that the Adult Education Division contacts both students interested in part-time employment and regular placement.

Art Professor To Be Guest

Miss Mary Kirkwood, professor of art, will be the guest at a tea sponsored by the SUB Coffee Hours and Forums Committee tonight at 7 p.m. in the Student Union Building lobby.

The collection of paintings on display in the Blue Room will be discussed by Miss Kirkwood during the coffee hour.

The collection, painted by Miss Kirkwood in Mexico, depicts the every-day life of the Mexican people.

APPLICATION FORMS DUE Blue Key will interview applicants for membership and choose new members at its meeting Wednesday night at 7:30 in the Ee-dah-hoo Room of the SUB.

WINNING FLOAT — The slogan "Cougars Delt With, Vandals Kap-a-Win" was a winner in more than one way for Kappa Kappa Gamma and Delta Tau Delta. They proved that they were better forecasters of the game than Spokesman-Review Sports Editor Harry Misseldine.

Talent Needed By Committees

A search for campus talent has been initiated due to the expanded program planned by the Jazz in the Bucket and the SUB Dance committees, according to Bob Stanfield, off campus, publicity director.

The committee will be scheduling talent presentations every other week in the SUB Bucket or Dipper on Friday or Saturday evenings, according to Clen Atchley, Willis Sweet, Jazz in the Bucket chairman.

Dance Committee The SUB Dance committee will be hiring bands to play for one dance a month and will also use them for weekly exchange dances.

The exchange will be an hour and a half long and will provide an excellent opportunity for bands to establish a reputation on campus, according to Leonard Hart, Dance Committee chairman.

Anyone who is interested in participating in this program should contact Clen Atchley, Willis Sweet (6222) or Maun Rudisill, SUB (6484.)

Upham, Forney Selected For Outstanding Halls

Upham Hall and Forney Hall have been selected as the outstanding residence halls for 1963-64, and the Residence Hall Association Disciplinary Board appointees have been announced.

The regular members are Bruce Campbell, Chrisman, and Gary Strong, Upham, mens representatives; and Janet Walker, French, Murial Vermass, Ethel Steele, womens representatives.

Alternates are Dave Hyde, McConnell, mens alternate; and Judy Benscoter, Forney, womens alternate.

There will be an organizational meeting of the board at 7 p.m. tonight at the Residence Hall Association Office in the Wallace Complex.

Upham, chosen the outstanding mens residence hall, and Forney, the outstanding womens hall, were selected on the basis of their activities and the activities of their men or women on campus.

Bob Cameron, RHA president, said that in the past the outstanding residence hall was selected on a brief submitted to the RHA Executive Board by the hall presidents. This year, he said, a running tally is being kept of the halls activities.

The Disciplinary board includes, in addition to the four

voting members, RHA Vice-President Bob Marley, Upham, as chairman, and RHA Secretary Diane Williams, Houston, as non-participating recorder.

Here's More About C-CAP

were seated at the convention. The grass roots party had representatives from Houston, LDS, Campbell and off-campus.

C-CAP Nominees Nominees for senior class officers on the C-CAP slate are Chuck Kozack, ATO, for president; Jim Berry, Delt, vice president, and Kathie Hostetter, Kappa, secretary - treasurer.

Bob Dutton, Delt, was nominated for junior class president. Other juniors nominated were Ron Twilliger, Fiji, vice president and Lou Benoit, DG, secretary - treasurer.

Sophomore nominees were Jeff Anderson, Lindley, president; Bob Anderson, Sigma Nu, vice president, and Brooke Clifford, Gamma Phi, secretary-treasurer.

Officers nominated for the freshman class are Gary Vest, Fiji, president; Jan Harms, Lindley, vice-president and Sue Carnes, Theta, secretary - treasurer.

This is the week to do something about your future!

This week the Bell System recruiting team will be on your campus.

They're here to talk to people who want to put their education to work in the fast-growing, fast-moving communications business.

Maybe that includes you. We're interested in engineering, business and liberal arts seniors who have done well and who expect to keep on doing well.

We want people who are acquiring the habit of success. We can strengthen it.

The Bell System is where people find solutions to exciting problems. Bell System companies are equal opportunity employers.

If you haven't done so already, you owe it to yourself to find out what the Bell System can offer you. Sign up now at the Placement Office for an appointment with our representatives.

DEDICATION PARTICIPANTS — Elvon Hampton, President of the Board of Regents; Jesse Buchanan, former University President; Governor Robert E. Smylie and President D. R. Theophilus were major participants in the dedication of the new \$2.1 million Physical Sciences Building Saturday.

Board Of Regents Approves Gifts, Scholarships, Grants To University

A gift of 1,000 shares of mining stock by Mrs. Grace P. Featherstone, Spokane, for the establishment of a scholarship in the College of Mines, boosted to more than \$58,000 the total amount of new grants, gifts and scholarships accepted this week by the University Board of Regents. President D. R. Theophilus announced today.

The mines scholarship will be established in the name of Mrs. Featherstone's late husband, Albert Hall Featherstone for "a deserving graduate student in the College of Mines."

Salvage of the mining stock amounted to \$8,800, and the principal of the amount is to remain as a perpetual endowment to be awarded on the basis of financial need, scholastic ability and promise of professional achievement.

Nicolls Request Raises

The Board of Regents also recorded that the principal of the recent Mary Walker Hall Nicolls bequest now amounted to \$465,620.75. This total is about \$32,000 more than had originally been known to exist in the bequest.

Checks totaling \$15,475 were received from the Potlatch Forests Foundation, Inc., Lewiston. The checks will be used to provide 60 individual scholarships.

The Union Pacific Foundation provided \$7,500 to the College of Mines for deposit in the mines equipment trust.

Checks amounting to \$2,000 from the Sperry and Hutchinson Co., New York, will provide a \$1,000 grant to the university and a \$500 scholarship to Phyllis Nedrow, Tri Delta, and a \$1,000 scholarship to Leo Jeffers, Phi Delta. Checks of \$1,407.70 from BASEBALL, New York, one for \$907.70 will go to Gary J. Peters, and one in the amount of \$500 for John C. Thomas, both Sigma Nu.

Other Gifts

A gift of \$100 from Professor Emeritus Howard E. Pacenham, Moscow, to the Department of Humanities. A check of \$50 from Dean J. E. Kraus of the university and

his son James R. Kraus, Moscow, as a gift to the Marion A. Kraus Memorial scholarship. A check for \$30 was accepted from the General Electric Foundation, Ossing, New York, which represents matching funds for money given the university by their employees during the second quarter of 1964.

The Western Electric Co., Pittsburgh, Penn., gave a Tektronix Model 316 Oscilloscope valued at \$300 for the mechanical engineering department. The Army Reserve Officers Training Corps was designated as the recipient of a \$123.99 check from the local Reserve Officers association. A check for \$75, to be utilized in the student emergency fund, was accepted from John A. Scott, editor and publisher of the Journal Lafayette and Courier, Lafayette, Ind.

A check for \$200 was accepted from the Phelps Stokes Fund, New York, for use by Mrs. Rahab W. Mwaniki, Houston. The Moscow Lions Club check for \$250 was accepted for use by five Latah county students, including: Sandra Gates, Irene Rohn, Janet Eldridge, Donald Hasturth, and Dell May.

Records Given

A collection of records from Capitol Records Distribution Corp. was given to the Department of Music. A picture of Kathryn Kennard Vaught was accepted on a long-term loan from Mary B. Kirkwood, Moscow, for use by the Department of Music.

A grant for \$2,850 was accepted from the Sears-Roebuck Foundation, Chicago, Ill., for support of Sears-Roebuck Foundation agricultural freshman scholarships. The Idaho Honey Producers Assn., Gooding, gave \$300 to support its scholarship program at the university.

Also accepted were checks for \$200 from the Presser Foundation Philadelphia, to support the first half of its scholarship grant for the current year, and a check for \$10 from Professor R. Bruce Bray, Moscow, as a contribution to the Department of Music scholarship fund.

African-American Institute

Money accepted for scholarships was approved from African-American Institute, New York, in the amount of \$3,684 for \$921 each to W. G. Kawamba, Lindley, Tedesse Meja, Shupe, Faust B. Kaviwa, Lindley, and Alfred A. Suesu, Shupe. A check for \$600 was accepted from American Foreign Service Assn., Washington, D. C. for use by Stephen F. Waylett. A check for \$1,200 was accepted from the government of American Samoa, payable to the Eperone Moanana Scholarship fund.

The Boundary county scholarship committee, Bonners Ferry, presented a check of \$400 for use by Karen Watts and James Dickison. The Burley Rotary club sent a check for \$200, \$100 each for Jack Cameron and Connie Hoffbuhr, Pi Phi. Two checks were accepted from the Colville Indian Agency, Nespelem, Wash., to be used for a \$600 scholarship for Vern R. Covington and \$200 for Bertha C. Russell.

TV Panel To Answer Questions

Problems of the University will be asked to a panel including President D. R. Theophilus Thursday night over KUID television at 7 p.m.

The program will discuss the visit of state legislators to the Idaho campus Nov. 12 and 13 at a meeting of the state legislators and members of the North Idaho Chamber of Commerce.

Members of the panel include D. R. Theophilus, ASUI President Jim Johnston, FarmHouse; Vice President Walter Stephens, and Larry Grimes, Beta, E-Board, moderator, according to Gerald Huettig, Delta Sig, E-Board member.

"The purpose of the television program is to familiarize students with what the legislators are here for, what the University's needs, and what the situation of the University is," said Bill McCann, SE, E-Board member.

Approximately 80 legislators are expected to visit the campus, he said.

Legislators To Eat In Living Groups

Members of the legislature will have breakfast with students Nov. 12 in the different living groups, said McCann.

"Questions will be on what the University's problems are now, where we're going, and what it'll take to get there," he said.

More Scholarships

Other scholarships include \$75 for Delores Philes from the Soroptimist club of Colville, Wash.; a \$100 check from the Coulee Dam, Wash., Rotary club for use by William N. Keefe; checks of \$450 from Dollars for Nampa Scholars Committee to be used to provide \$100 for Jess Boicourt, \$150 for Robert Wade, \$150 for Carol McKee, and \$50 for Susan Daniels. The associated students of Emmett High school gave a \$75 scholarship for Jerry Cates. A check for \$100 was accepted from the Estarl Central Committee, Boise, for use by Loretta E. Taylor, and a check for \$50 for use by Svetlana Puryear, was accepted from the Grangeville P.T.A.

Three Genesee youths will divide \$300 from the William J. Gray scholarship trust for use as first semester scholarships. The three students are: Kurt Blum, Jerry Linehan and Russell Zonner. Karl Kleinkopf will receive \$300 from the Green Giant Foundation, LeSeuer, Minn., and Daniel R. Reed will receive \$100 from the Idaho Bank and Trust Company, Burley.

Pepsi-Cola Grant

Miss Judith Stuebbe, winner of the 1964 Miss Idaho title, is the recipient of a \$1,000 scholarship by the Pepsi-Cola Bottlers scholarship foundation, Boise. John Froeming will receive a \$250 scholarship made available to him by the International Brotherhood Pulp, Sulphite, and Paper Mill Workers, Lewiston; a check for \$500 from Royal and Mrs. B. Irving, Tuxton, was accepted as a scholarship for Kenny Davis; Mary Ann Hancock will receive a \$50 scholarship from the Kennedy Ford Grange, Potlatch. Karen June Hamer, Joseph M. Ferguson, Katherine J. Brewer and Sharon R. Swan will receive \$175 each from a \$600 check made available by the H. B. Kingsbury Scholarship fund. A check for \$250 was accepted from the Isaac Broncheau Memorial Foundation, Lapwai, for a scholarship award for Richard H. Pawaukee.

The Kamiah P.T.A. presented a \$50 check for use by Gordon Gihler, and a check for \$150 was made available by the Kent Public schools, Kent, Wash., for use by Peggy Bauman, Jary E. Christens, Kenneth Regan and Dianna Jacobs will each receive a \$250 scholarship made available by the \$750 check from Kimberly Hansen, Murlaugh Educational Trust, Inc., Kimberly.

Paul Strand will receive a \$100 scholarship from the Kootenai Co. Pomona Grange No. 7, Post Falls, and William D. Haight will receive a \$600 scholarship from the Marathon Oil Foundation, Inc., Findlay, Ohio. Peter Vallego will receive a \$450 scholarship from the Montana State Elks Association, Polson, Mont., and Andrea L. Ford Campbell will be recipient of a

Visiting Prot Speaks At I

Dr. Norman Adams, visiting professor in physics, gave a general outline of the progress made in physics from Galileo the present at a student meeting of the American Institute of Physics.

Adams placed special emphasis on the important men who have made these scientific advancements and discussed progress expected in the future.

The group talked over various projects, speakers, movies, and reports of member's projects which could be used later in the year.

Membership is open to all physics majors and all students with potential professional interest in physics. All meetings, however, will be open to the public.

Students interested in learning more about the organization can contact the group's officers. They are Bryon Anderson, president, Chrisman; Steve Merlan, vice president, off campus; Gary Booth, treasurer, off campus; and George Peck, secretary, off campus.

Officers in charge of membership are David Nartonis, off campus; Don Marshall, Chrisman; and Bob Aldridge, Theta Chi. R. J. Kearney is the group's faculty advisor.

English Teachers To Meet Frosh

"Popcorn and English Teachers" is the theme of an informal coffee hour sponsored by the Coffee Hours and Forums Committee Nov. 10.

According to Jim Freeman, Sigma Chi, committee chairman, all freshmen are invited to have an opportunity to get to know English teachers on a little more informal basis.

Former 'U' Prexy Speaks To Asphalt Conference

Over 200 representatives attended the fifth annual Asphalt Conference Friday and Saturday in the SUB.

The conference was primarily for Idaho and Washington delegates. However, because J. E. Buchanan, president of the Asphalt Institute and former president of the University, attended the meeting, representatives were presented from several states, according to Gale Mix, Student Union manager.

Highway and research engineers were informed at the University Saturday that through automatic cross-slope control, a near perfect riding surface can now be achieved on bituminous covered roadways.

Frank Drake, District Engineer of the Asphalt Institute, Bismark, N.D., opened the Friday afternoon session with the paper on "Improved Rideability Through Automatic Grade Control."

In making an analysis of the methods of paving, Drake said that better methods and applications will prevail, and with automation the riding quality should be considered just as much as any other work performed in the contract.

Speakers

Under the chairmanship of V. N. Richardson of the Idaho Department of Highways, the conference got under way at 8 a.m. Friday, with Ellis Mathes, State Highway engineer of the Idaho Department of Highways, officially welcoming those in attendance.

Asst. Regional Engineer, B. J. McClarty, Bureau of Public Roads from Portland, Ore., projected "What Happens After 1972" with respect to the present Interstate highway system.

"Even without any large expansion of the Interstate System, there is much to do and much to plan in order that the present 41,000 mile system may continue to perform the service for which it was developed," McClarty said.

Challenge to Roads

"There is no question but what the answer to What To Do After '72 presents a real chal-

lenge to the states and public roads. However, it also provides a real opportunity to shape the future highway program of the nation," McClarty said.

"It will not be an easy job; but I have complete confidence in the ability of the state highway departments to conduct a study of this magnitude and to come up with a recommended highway program that will be acceptable to Congress and will shape the federal assistance highway program perhaps to the end of the century," McClarty concluded.

President of the Asphalt Institute and former president of the university, J. E. Buchanan, was on hand for the Friday noon luncheon meeting held in the ballroom of the Student Union building. He also met with members of the conference during their afternoon sessions.

Here's More About— CUP

Nominations for the senior class slate included Carl "Ingo" Johannesen, off campus, president; Jerry Howard, FarmHouse, vice president, and Claudine Becker, French, secretary-treasurer. All were selected by acclamation.

Junior Nomines

Junior nominees included Clen Atchley, Willis Sweet, president; Dick Owen, FarmHouse, vice president, and Carolyn Stevens, Kappa, secretary-treasurer. The first two were nominated by acclamation.

Nominated on the sophomore class slate were Dick Rush, Delta, president John Cooksey, Sigma Chi, vice president, and Margaret Felton, Kappa, secretary-treasurer.

Roger "Speedy" Gonzales, Uplham, was nominated from a field of six candidates for the office of freshman class president. From six nominees, Dave Schmirler, Sigma Chi, received the vice presidential nomination. Pat McCollister, Houston, was nominated for secretary-treasurer.

Here's More About— Buchanan

ly nonexistent. These would be the experimental, and experiments were intolerable to the prevailing educational thought. The college had no concern for research to improve the future.

Land Grant Colleges

"Even as late as 1862 — the year the land-grant college movement began — perhaps only twenty institutions could be classified as scientific. In most colleges, science was still studied for its own sake. The colleges treated science in somewhat the same manner as they treated literature—to be studied but not used.

"Unquestionably, the land-grant colleges which added mechanical arts and agriculture to the cultural subjects, were the major force in the new education which led to the 'new age.' Always to the credit of the University of Idaho will be the fact that, from the very beginning,

TOP BOOSTER — The annual Vandal Booster Award presented by "I" Club each year at Homecoming was given to President D. R. Theophilus this year. Presenting the award are Chuck Kozak and Tom Moreland, both starters on the Vandal basketball team.

Here's More About— Buchanan

it successfully blended the traditional cultural subjects with the new scientific ones. And it is highly important that they be blended.

"So marked have been the effects of the new university education in our advanced industrial society that one farmer now produces enough food for himself and 30 others, and the average American works less than one day out of five to feed his family."

Approximately 300 people were present for the dedication ceremonies which were held in a lecture hall of the new building.

The student chapter of AIA is associated with both the state chapter of AIA and the National Organization of the American Institute of Architects, he said.

The Challenges of the Future

The challenge: lunar soft-landing. The launch vehicle: NASA selects liquid hydrogen-fueled Centaur, developed by Astronautics, shown in test launch.

ENGINEERS & SCIENTISTS: General Dynamics' Astronautics offers you the challenges of the future — today. As the space-oriented division of the great General Dynamics Corporation, Astronautics has a heritage of leadership in the development of our nation's current space capabilities. We continue to build on this strong background as we design and develop new systems and devices that will help to shape the future course of space technology. Your alert response to the fascinating challenges we offer will establish guidelines for your successful career at Astronautics.

Scientific and technical opportunities exist at all degree levels in activities that include RESEARCH, DESIGN, DEVELOPMENT, TEST, COMPUTER PROGRAMMING, RELIABILITY, and ADMINISTRATION.

For General Dynamics/Astronautics career information, see your placement officer and watch for campus interview schedules, or write to Mr. B. L. Dobler, Chief of Professional Placement and Personnel, Dept. 130-90, General Dynamics/Astronautics, 5898 Kearny Villa Road, San Diego, California 92112. An Equal Opportunity Employer.

GENERAL DYNAMICS | ASTRONAUTICS G | D

We Will Visit Your Campus November 4

FROM THE PAST — The Idaho marching band showed various formations and marching steps popular in bygone eras to the 18,600 Homecoming fans at halftime Saturday. The band demonstrated the quick step, dance step, and formations like the modern marching-band, concert formation to the crowd. The show was their second appearance this year.

SOMETHING TO YELL FOR — Pom-pom girls Mary Ellen Fairchild and Melane Fruechtenicht and yell leader Mike Puttano had something to yell for Saturday as the Vandals broke the ten year dry spell since they last beat WSU. As an extra twist, Puttano, a sophomore at the University, transferred from WSU where he played frosh ball.

SMILES THAT DIDN'T END — Argonaut cameraman Randy Morton caught happy expressions on the faces of these Idaho fans in the crowd Saturday. Looking closely, you may see a couple who look as if they came from WSU.

THIS IS COUGAR COUNTRY — But Cougar Coach Bert Clark and his growling friend, Assistant Coach Red Smith, don't look much like Baron's of their fiefdom. The Cougars, although a sound ball club had their problems as they only had the ball for 35 rushing plays and 18 pass attempts.

GOOD GAULT — They are a noisy bunch. Among the most boisterous of the Idaho fans each home game are the crew from Gault Hall. Saturday they brought in tin pans and even an oil drum.

FIRST IN TEN — The first Idaho victory over Washington State University since 1954 is pictured on the scoreboard at Neale Stadium. With only one minute and twenty-five seconds left the Vandals had the game on ice, but as one Vandal fan said, "I didn't have any doubt after the first minutes of the opening quarter."

OUT OF A HOLE — A pitchout from Quarterback Mike Monahan (on the ground) to Tom Morris helped the Vandals out of a hole deep in their own territory in the third quarter. The play was a useful weapon for the Vandals as they used it throughout the game.

DRIVE — Rich Naccarato lowers his head and drives into a Cougar defenseman as WSU's Tom Hedemark tries to help a teammate out. Naccarato, only 5-7 and 170 pounds is a consistent ground gainer for the Vandals using this method. He led the team in rushing the past two seasons.

THUNDER — Big Ray McDonald, the Vandal's biggest threat, rolls from the five to set up Idaho's first touchdown in Idaho's convincing win over Washington State, 28-13. The picture shows McDonald's teammates Joe Dobson (79) and Ron Porter (66) giving a hand as Cougar John Forbes (84) is blocked and Wally Dempsey (66) can just stand and watch.

UNIVERSITY OF IDAHO LIBRARY

Dee's Vandals Walk Over Clark's Cougars, 28-13

Naccarato And Lavens Injured, May Not Start

By FRED FREEMAN

Both the Cougars and the Vandals seem to hit harder in the annual Battle of the Palouse. But Idaho hit the hardest as they walked over Washington State, 28-13, Saturday.

The hard-hitting, however, may have temporarily cost the Vandals the services of two more of their starters. Halfback Rich Naccarato and End Tim Lavens are both listed as doubtful starters against University of Pacific Saturday.

Naccarato is out with a slight shoulder separation and Lavens has a bad knee, according to Head Coach Dee Andros. They Litzinger on the ailing list. Litzinger was injured against Utah Oct. 3.

"Don't Let Down"
After the Vandals' decisive victory over the Cougars, Andros had words of warning against his team's letting down against UOP.

"Pacific's record isn't as good as the teams we've played. They've won only in their opener against Montana. But I've been around football long enough to know that when you are not up for a game, anybody can knock you off," he said.

The Vandals return to practice for Pacific today after a lay-off Sunday—their first since the season began.

But while the Vandals took a breather the Cougars were going through one of their toughest workouts yet this year. They face an Oregon State team Saturday, which has lost only in its opener to Northwestern. Two weeks ago the Beavers skinned by the Vandals 10-7, but Saturday they dumped always powerful Syracuse 31-13.

Saturday, the Vandals were up for the game. After a first quarter burst by the Cougars which ended in an unsuccessful field goal attempt, there wasn't much doubt as to who the winners were.

Greatest Victory
"I feel that it was one of our greatest victories. I'm happy for the kids, the student body and the fans. Saturday was one day we were never to be denied. We were determined we were going to win," Andros said.

"In the first quarter, it took us a little while to adjust to the Cougar defense, which is nothing unusual. They were playing their linebackers a little deeper than usual, so they could close the gaps, in the line, and the secondary was up closer."

The Cougars were laying for Big Ray McDonald — as well they might, he set a new record for the number of carries, 34,

beating the old record of 30 set by Larry Nordby against Oregon State in 1950.

But by laying for McDonald, the Cougars left themselves open for the medium and long passing game from Quarterback Mike Monahan to Ends Joe Chapman and Vern Leyde.

Bullseye
Two of the passes to Chapman worked perfectly. The first of these opened the lane for the first Idaho score as Chapman collected 44 yards and got to the one before three Cougar defenders pulled him down.

"That first time we faked McDonald into the line freeing Chapman," Andros said.
But it was no fake on the next play as McDonald was the one elected to punch the ball through the Cougar belly and give Idaho a 6-0 lead.

The other pass to Chapman on a bootleg pushed the Vandals to their second highest score in the series against WSU which began in 1893. This one, a 77 yarder, made the margin 27-7. The play also was Idaho's second longest touchdown pass play. Only an 80-yard touchdown pass by the same pair against Iowa five weeks ago was better.

Other Vandal tallies came in the second and third quarters as the Vandals built up a 21-0 lead before Washington State could cross the goal line.

"Although there were some stars, the game was the team's victory," Andros said. "Tom Morris did a terrific job of blocking and carrying the ball, the whole team did well."

WSU 0 0 7 6-13
IDAHO 0 14 7 7-28

Scoring Run Down
Idaho — McDonald 1 run (Campbell kick)
Idaho — McDonald 2 run (Campbell kick)
Idaho — McDonald 5 run (Campbell kick)
WSU — Eilmes 7 run (Ebel kick)

Idaho — Chapman 77 pass from Monahan (Campbell kick)

WSU — Kelley 9 pass from Petersen (Kick blocked)

CLOSE BUT NOT ENOUGH — Cougar Bud Norris came close to tackling Idaho fullback Ray McDonald, but the big sophomore's powerful arm interfered with the Cougar's plans. McDonald set a record for number of carries with 24. The old record was set in 1950 by Larry Nordby against Oregon State.

Vandal Frosh Hand Pups 24-14 Loss, Grizzly Cub Battle Coming Up Next

The Idaho Vandal Frosh boosted the Homecoming weekend off to a successful start with a hard-fought 24-14 grid win over the University of Washington Frosh, Friday.

Playing what coach Bud Riley described as consistent and sturdy football, the Vandal Babes recovered three UW fumbles, outgained the Pups by 189 yards, held the visitors to one pass completion in eight attempts for seven yards, and dominated most of the day's action.

The Vandal Frosh scoring in the first half came by the way of a one yard plunge by Denny McCanna and a 55 yard pass run play initiated by quarterback Mike Mitchell and completed by wing-back Pat Davidson.

A 19-yard field goal by Darrell Danielson and another effort by McCanna rounded out the Frosh's scoring for the day.

Team Effort
"The team played a very good game, Riley said, "they sure looked a lot better out there than I thought they would at the first of the season."

One thing that made the game, Riley commented, was the fact that it was Washington's first game. "They were of about the same caliber," he added.
Last week when the Vandal Frosh fell under the hooves of the Boise Junior College Broncos, 33-10, they were playing a team with more experience and five games under their belts this season, according to the coach.

Take On Cubs
Next week the Frosh will take on the Montana University Grizzly Cubs at Missoula. "I don't know how tough the Montana Frosh will be, Riley

CLANCEY CONTAINED — One of the keys to the Vandal success Saturday was in stopping Cougar scoring ace Clancey Williams with only 50 yards in 12 carries. Shown are Larry Strohmeyer (20) and Max Leetzow (80) as they move in to help a teammate with the Cougar gun.

Jebesen Paces Harriers In Montana As Idaho Downs MU, MSC In CC

With Nils Jebesen leading the way the University of Idaho crosscountry team met, tested, and defeated Montana and Montana State, Saturday, in a meet that track coach Doug MacFarlane said would show where the strength is in the Big Sky.

Jebesen won the 2.9 mile cross-country event with a time of 14.36 minutes by spurting from

some 60 yards back with ¼ mile to go to take the lead from Montana.

Paul Hendon and Ted Quirk kept Idaho on top by finishing fourth and fifth with times of 14.48 and 14.52 minutes.

These efforts plus the ninth place finish of Kirt Fleisher, tenth by Bruce Swayne, and eleventh by Tommy Dietrich

gave the Vandals the winning score of 32. MSC collected 37 and MU 51.

Stronger
"The team is stronger this year than last, when we won the Big Sky and I have some real fine freshmen on the squad, MacFarlane said, "And I am very pleased with the effort they have shown."

Even though the Vandal harriers did not run the Montana squads, they did not do it as well as Idaho State did, MacFarlane added.

"ISU is as strong as they were last year, or maybe stronger," the track coach said, "they have everyone on their last year's team back plus two frosh who have been finishing on top for them."

Rough Road Ahead
The Vandals barely squeezed past ISU to win the Big Sky last year.

Balancing merit against merit and weakness against weakness, MacFarlane said, "our hopes of retaining the Big Sky crown rests in the hands of three freshmen."

10,000 Meters
Facing the harriers at Spokane this Saturday is the Junior Mens 10,000 meter event. Teams from most parts of the United States are expected, with hints that the Los Angeles Stridders, world known for their fine runners, may attend.
MacFarlane did not have any comment on the possibilities of the up coming meet, but did say it would be nice to bring back a few trophies. "They're loaded with them up there," he said.

Big Sky
Following the meet in Spokane is the Big Sky Championship in Ogden, Utah. "This will be the big one for us this season, the harrier coach said, "and we will be all out for it."

Final Chance For MUN Spot
Final interviews for those interested in taking part in the Model United Nations will be conducted in the Sawtooth Room of the Student Union Wednesday, 7 p.m.
Those selected will have an opportunity to go to a mock convention in Los Angeles in the spring, according to Pastor Don Lee, program adviser.

WSH And SAE Advance To Championship Game

Willis Sweet won the Independent league touch football championship over Willis Sweet-2 yesterday, while SAE was performing a similar task in the Greek league by defeating the Phi Dels.

Willis Sweet scrambled by their team number two by a 7-2 score to earn a shot at the Intramural championship Wednesday.

SAE shut out the Phi Dels 6-0 to become the first team since 1962 to turn the trick. The Phi Dels had a 17 game winning streak going into yesterday's game.

The time for Wednesday's final game will be at 4:05 p.m. on a field yet to be chosen, according to Clem Parberry, IM director.

Other Results
As football play enters into the final day of action, not much time remains for records to be improved.

Yesterday Lindley beat Upham 21-0; Delta Chi took Lambda Chi by one penetration; and Gault won over Chrisman by a forfeit.

Swimming
Intramural swimming is slated to get underway Thursday at 7

p.m. in the Memorial Gym pool, Parberry said.

All entrants should be at the pool on time, he added.
IM pool is on schedule to begin in the near future, but so far no date has been set for the opening, the IM director said.

- Schedule
- 1 DTD - BTP
 - 2 SC - PGD
 - 3 TKE - KS
 - 4 CC - TMA-2
 - 5 SH - MCH-2
 - 7 SN - ATO

Vandals To Meet UOP Tigers

The Idaho Vandals, fresh and inspired from Saturday's romp over Washington State, will don traveling garb and head for Stockton, Calif., and a gridiron clash with the University of Pacific, Saturday.

The Vandals with a 2-4 record will be out for another win as they meet UOP. The Tigers have a 1-5 season mark.

The Stockton squad has been beaten by Montana, 23-7; Colorado State, 7-0; Los Angeles State, 32-13; Washington State, 50-0, and Brigham Young, 21-0.

The Tigers took on San Jose this weekend in preparation for the Vandals, but lost 37-13.

The UOP-Idaho series began in 1953 with UOP running over the stands at 6-1-1, with the Tigers out in front.

Team Gets A Holiday

After the Vandals smacked WSU 28-13, Dee Andros declared a day off from practice for the team.
"We've got four games left," he told the team in the dressing room, "and you know what that means. I'll see you Monday at 5 p.m."

"When you play as long and hard as we have, you deserve and need a day off. I'll have the scouting reports on UOP Monday and we'll see you then."

New Ground-Gaining Mark In Reach For McDonald

Thunder Ray McDonald appears headed for a new one-season ground-gaining record for the University of Idaho with less than three complete games in the book.

The sensational sophomore from Caldwell has gained 279 net yards on 68 carries to lead the team in both departments. The record is 579 set by Wilbur Gary in 1954. The mark for most carries is 116 set by quarterback Mike Mosolf in 1961. At his current pace of 110 yards per game, McDonald should add another 440 yards to his total in the Vandals' final five games.

Leads Scoring
McDonald also is the team's leading scorer with 24 points. The pass catching race remains the same with veteran Vern Leyde one reception ahead of junior Joe Chapman. Chapman, however, leads in yards, 326 to 159. It is also possible

that Chapman will break Reg Carolan's 1960 record of 498 yards receiving. With Leyde and Chapman sharing the split end duties it is unlikely that Carolan's record of 33 catches will fall.

Rice Keeps It Up
Mickey Rice held his 42.8 punting average in last weekend's 28-13 victory over Washington State and should stay in the top five among the nation's punters. (He was third last week).

The Vandal defense continues to mount as the alert Vandals have pounced on 15 of their opponents 19 fumbles and picked off nine passes (four more than they grabbed during the entire '63 season).
