

Parking Ticket Appeal Possible; Unhappy "I" Driver Recipe Listed

By JIM HERNDON
Former Arg. Editor

A recipe for an unhappy student driver—Take a parked car, add a campus policeman, complete with a summons pad, stir in the campus parking regulations and sprinkle with a touch of human nature. (Apologies to Betty Crocker).

An explanation of why a citation was issued and a chance to blow off steam at the Security-Information Center seems to satisfy most of these unhappy student drivers, according to campus traffic officials.

Those students that are still not convinced of the validity of the ticket they received can appeal to the student Judicial Council. However, the Judicial Council members wonder how many students are aware of their right to appeal and take advantage of it.

A student who receives a ticket has ten days to appeal it by submitting his request in writing. A student who gets four citations, for violations other than meter violations, receives an automatic summons to appear before Judicial Council.

"Try To Reason . . ."

"I try to reason with a student and show them where they committed a violation and if he has a good reason I generally tear the ticket up," Francis L. Perryman, the Plant Security official who processes traffic tickets, explains.

"I tell them that they can pay it or appeal it and offer them a form," Perryman said. However, Judicial Council Chairman Fred Decker believes that most of the students don't know that they have a right to appeal a traffic summons to the Judicial Council.

"Only 40 Appealed"

"We only heard 40 appeals — including automatic cases — last year," Decker said. "Students don't realize that if they don't honestly believe they have committed a violation that they have a right to appeal it."

Charles Decker, Dean of Students, doesn't think that the small number of appeals indicates students aren't aware of their rights.

"I'm surprised there are that many appeals," Decker said.

The dean of students added that the Administration was pleased with the new parking procedure, installed last fall, and he felt that the new system had cut down on the parking problems.

However, Judicial Council believes that the new parking system of dividing the campus and the students into three zones, should increase the appellate business for a while instead of decreasing it.

Students Responsible

Students should be held responsible for knowing and obeying the traffic and parking regulations found in the latest catalogue, the ASUI handbook and the yellow fly-sheet distributed during registration and available at the Information Center, according to the Council.

However, recent changes in the parking and traffic regulations should not effect the students until students are officially notified of the change, the Council believes.

The campus police must follow the edicts of Operations Council which approve the parking regulations and make the changes so the campus police issue citations in accordance with the memo they receive from Operations Council, Perryman said.

So in some instances a ticket which was properly given by the campus police will be overturned by Judicial Council. But the student must first appear and convince the Judicial Council that he did not have proper notice of the change before the Council will overturn the ticket, Fred Decker said.

"JABBERWOCKY" GROUP — The 3-D's, Dick, Dennis, and Duane will perform for Jr.-Sr. Night this Saturday. The group features folksongs and melodious interpretations of poems such as "Jabberwocky" and "Gunga Din". The singers have recently completed a tour of college campuses. Tickets are on sale at the ASUI offices.

"Bookstore Controversy"

Students Should Know Where Bookstore Profits Are Spent?

By LEO JEFFRES
Argonaut Managing Editor

ASUI presidential candidates agreed that University students should know for what projects profits from the "student bookstore" are being allocated.

"The bookstore operations are no under the jurisdiction of the students, but under the Regents. However, if the bookstore is going to make a profit, and if these profits are supposed to go to student projects, then I think students should have a say in where they go," said Craig MacPhee, Sigma Chi, independent candidate for president.

The candidate was asked if he considered it fair for the Regents to spend money profited from the students on projects the students themselves have no decision in choosing.

"No, I think we should have a say in where the funds should go or turn the book store into a nonprofit operation," he replied.

Look First

Bill McCann, SAE, CUP presidential candidate said, "We should look into the situation and talk to President Theophilus. No one seemed concerned until recently. This student faculty committee is a good suggestion but we will have to work with President Theophilus and the Board of Regents to establish something like this. It will take

study, it's not something we can decide in five minutes."

McCann said he felt students should know where the bookstore profits are going but as long as the Regents are spending the money on projects benefiting the student he approved.

Some of the projects for which the Board of Regents has authorized money include the Home Management House, part of the new band uniforms, and the parking lot behind the Gamma Phi House.

Scope Expanded

"The scope of the projects could be expanded if the funds available allow such expansion," McCann said. "Maybe some of these projects they have allocated funds for could be decided with more student suggestion."

Dave McClusky, Sigma Chi, CUP vice presidential candidate, said he didn't feel that what some students have been saying is entirely correct.

"All the control we have is delegated to us by the Regents. It is they with whom we should talk to solve this problem," he said. "I do think there could be an agreement between the Regents and the students if the students approach the situation in the proper manner."

He favored the formation of a student-faculty committee working in cooperation with the Regents to decide to which student projects the money would be allocated.

"The best way is to approach them with the problem, show them how it would work, and demonstrate that it would not take power from the Board of Regents but merely inform them of the students' opinions in helping them make their decisions," he said.

Only Solution?

Dick Tracy, Lambda Chi, independent candidate for vice president, said the only solution to increase student voice in the operation of the bookstore would have to come through student government. The control of the bookstore is in the hands of the Regents, which this year never gave a negative vote to any proposals submitted to them by E-Board, he added.

"I feel that the Board of Regents would be willing to listen to and consider any suggestions from the students at the University concerning where they felt the profits from the bookstore could be spent.

It is necessary for a student bookstore and the Regents have seen fit to locate this bookstore on the campus under their auspices, he said.

"I believe they did this to prevent an outside commercial enterprise from establishing a monopoly on the sale of textbooks to the students. I'm sure that the Regents felt they would be more apt to consider the students' problems and needs in a beneficial

Last Section Of 80-Foot Antenna Tower Lifts Into Place At Idaho TV Station; KUID Sets Plans For April Broadcast

The last section of an 80-foot antenna tower, being constructed for University of Idaho TV station KUID-TV, was lifted into place Friday, making way for the 80-foot antenna to be erected by the end of the week.

When the antenna is in place on Paradise Ridge, about four miles southeast of Moscow, a height of 1,100 feet above the average terrain will be attained, according to Gordon Law, acting director of communications.

Expecting to first go on the air with test patterns and music, Law said the station will broadcast directly within a radius of 70 miles of the Paradise Ridge site.

When regular schedules are established, the station will operate a minimum of four hours a day, he said. Cable feeds will be available as far south as New Meadows and as far north as Bonners Ferry.

"Weather conditions are presently hampering our efforts to be on the air by the first of April, but we expect to provide the first picture and music as soon thereafter as possible," Law said.

The eventual plan for Idaho is to have educational television stations at Boise and the Idaho State university campus at Pocatello.

Both campuses have made applications to the Federal Communications Commission for channel licenses, Law noted.

With a relay tower at LaGrande, Ore., the Moscow sig-

nals would be relayed to Boise and from there to Pocatello. The Pocatello and Boise channels would be able to broadcast to Moscow via the LaGrande re-

work," Law said.

PINNING CEREMONY — Cadet Col. Richard G. Larson, Idaho Army ROTC, watches as his wife Nancy pins pilot's wings on him. Larson was the first cadet to complete the Army ROTC aviation program at Idaho during the current school year.

University Cadet Is First To Receive ROTC Wings

Cadet Col. Richard G. Larson of the University was the first cadet to complete the Army ROTC aviation program during the current school year, and received his wings March 8.

His wife Nancy pinned the wings above his left pocket during ceremonies in the Cadet Lounge of the Army ROTC offices.

Larson is a Distinguished Military Student and has been tendered a commission in the regular Army, according to Lt. Col. Ralph R. Rusche, unit executive officer.

Eight cadets are enrolled in the Idaho aviation program, but only two others have completed the course to earn their private pilot's licenses and Army wings. They are Joy Esser, Upham, and Leroy Brown, off campus.

Power System Change Planned

Because of a switch from 2,400 volt system to a higher 4,160 volt system, the entire electrical system of the University will be shut off during Spring Vacation for a 12 to 24 hour period, according to George Gagon, director of the physical plant.

The candidates were asked if the "bookstore situation" was indicative of the lack of student voice in their own affairs and the control which the Regents exercised over them.

"Yes, however, this is because of no fault of the University ad-

(Continued on page 5, Col. 8)

U-I Senior Job Interviews Scheduled For This Week

The following senior job interviews have been announced by Sidney W. Miller, placement coordinator.

TUESDAY

Haskins & Sells, Seattle, Wash., placement office.
The Firestone Tire & Rubber Co., Akron, Ohio, placement office.

Tacoma Public Schools, Tacoma, Wash., placement office.
Davis Joint Unified School District, Davis, Calif., placement office.

Stevenson Public Schools, Stevenson, Wash., placement office.
Washougal Public Schools, Washougal, Wash., placement office.

Arlington Consolidated School District, Arlington, Wash., placement office.

WEDNESDAY

Cutler - Hammer, Seattle, Wash., engineering bldg.
Camp Fire Girls, Inc., Great Falls, Mont., placement office.
American Potato Company,

Blackfoot, engineering bldg.
Auburn Public Schools, Auburn, Wash., placement office.
E. I. duPont de Nemours & Co., Palo Alto, Calif., placement office.

Seattle First National Bank, Seattle, Wash., placement office.

THURSDAY

The Boeing Company, Seattle, Wash., engineering bldg.
West Covina Unified School placement office.

Almira Public Schools, Almira, Wash., placement office.

FRIDAY

The Boeing Company, Seattle, Wash., engineering bldg.
Boy Scouts of America, Lewiston, placement office.

Othello Public Schools, Othello, Wash., placement office.
Prosser Consolidated Schools, Prosser, Wash., placement office.

MONDAY

Guy F. Atkinson, South San Francisco, Calif., engineering bldg.

GOT A MAN'S JOB TO DO?

Get it done right. Get MAN-POWER... the new power-packed aerosol deodorant! MAN-POWER'S got the stepped-up penetration power, the 24-hour staying power a man needs. Goes on fast... never sticky... dries in seconds. Try it! 1.00

BY THE MAKERS OF OLD SPICE | SHULTON

Let's talk about engineering, mathematics and science careers in a dynamic, diversified company

Campus Interviews Thursday and Friday, March 18 and 19

Young men of ability can get to the top fast at Boeing. Today, Boeing's business backlog is just under two billion dollars, of which some 60 per cent is in commercial jetliner and helicopter product areas. The remainder is in military programs and government space flight contracts. This gives the company one of the most stable and diversified business bases in the aerospace industry.

No matter where your career interests lie — in the commercial jet airliners of the future or in space-flight technology — you can find an opening of genuine opportunity at Boeing. The company's world leadership in the jet transport field is an indication of the calibre of people you'd work with at Boeing.

Boeing is now pioneering evolutionary advances in the research, design, development and manufacture of civilian and military aircraft of the future, as well as space programs of such historic importance as America's first moon landing. Gas turbine engines, transport helicopters, marine vehicles and basic research are other areas of Boeing activity.

Whether your career interests lie in basic or applied research, design, test, manufacturing or administration, there's a spot where your talents are needed at Boeing. Engineers, mathematicians and scientists at Boeing work in small groups, so initiative and ability get maximum exposure. Boeing encourages participation in the company-paid Graduate Study Program at leading colleges and universities near company installations.

We're looking forward to meeting engineering, mathematics and science seniors and graduate students during our visit to your campus. Make an appointment now at your placement office.

(1) Boeing 727, America's first short-range jetliner. (2) Variable-sweep wing design for the nation's first supersonic commercial jet transport. (3) NASA's Saturn V launch vehicle will power orbital and deep-space flights. (4) Model of lunar orbiter Boeing is building for NASA. (5) Boeing-Vertol 107 transport helicopter shown with Boeing 707 jetliner.

BOEING
Equal Opportunity Employer

ASUI Candidates List Qualifications, Give Statements

Vice President CUP Candidate

DAVE MCCLUSKY, SIGMA CHI

Qualifications: President of I. K.'s, Blue Key, ASUI Educational Improvement Committee, Freshman and Junior Extended Board, I. K. Holy Gralle.

As student body vice president, the job of co-ordinating the Activities Council would be my main concern. I would strive to provide a program providing more coordination and communication among E-Board, SUB Board, the area directors and the Activities Council, if elected.

I am very much in favor of placing activities council in the Constitution, so that the ASUI will have more voice in its activities. This will also enable the council to function more smoothly and efficiently.

I also think the area directors should have a large voice in the budget appropriations for the activities areas, and should provide complete records of their activities.

DICK TRACY, LAMBDA CHI

Qualifications: ASUI Activities Board Area Director, ASUI Public Relations work, Living Group officer, SUB Film Publicity Director.

The office of vice president is of vital importance to every student at the University. The main duty of the Vice President is chairman of Activities Board. This is no place for a man who is not familiar with the workings of Activities Board.

As an Area Director I have become familiar with the activities council and know its problems and would keep it functioning with a smooth transition.

Area Directors should have control over their own budgets since they are the ones who

know their area's specific need. I would also stress the importance of letting students know about events not having them fail for lack of information to the students.

E Board CUP Candidates

DON MOTTINGER, SAE

Qualifications: Men's Discipline Committee, 3 years; past vice president of I.K.'s, past vice president of living group.

Using past experience along with initiative and responsibility, I will carry out the three phases of Executive Board Operation: 1. Legislative, 2. Administrative, 3. Public Relations.

HAVEN HENDRICKS, Farmhouse

Qualifications: Freshmen, Sophomore, Junior Extended Boards, Intercollegiate Knights, IFC representative.

I feel that a member of E-Board should represent the students and provide good leadership in the things that he does. This leadership must be based on knowledge and understanding. It must be disciplined and persistent. It should be done with courage and ability to adapt to change.

RUTH ANN KNAPP, Ethel Steel

Qualifications: Sigma Alpha Iota Leadership Award, Editor of ASUI Handbook, "Gem" activities editor.

I think that E-Board should take a more definite position in regard to some of the recommendations made by students. They have been too much of a "yes and no" group and should be more responsive to student complaints. This could be done better if their position were better defined.

LON ATCHLEY, Willis Sweet

Qualifications: President of Willis Sweet, Co-chairman of the 1964 fall elections, vice president of Residence Hall Assn.

My interest in student government is the Educational Improvement Committee, of which I am a member. I have made a start toward promoting better student-faculty communication and cooperations through this organization and feel this effort can be furthered by continuing and expanding the influence of E.I.C.

I believe that a good job requires a great amount of responsible work. I pledge to do a good job if I am elected. I pledge to serve the entire student body of the University.

JOHN COOKSEY, Sigma Chi

Qualifications: Sophomore class vice president, Chairman of Holly Week, Intercollegiate Knights.

I feel that there has not yet been an adequate plan proposed to accomplish the revision of student government. It is my belief that to try to solve this problem in the current election is a mistake. This problem needs to be examined thoroughly by a committee composed of the E-Board, members of the faculty, and the new President.

DIANNE GREEN, Kappa

Qualification: Activities Area Director, AWS Handbook Editor, Associate of College Unions vice president

Through past experience in student union programs I feel I have a good understanding of the ASUI government. I have gained a strong desire to work in this government to strengthen its weakness and to continue its strong points.

BOB GORMAN, off-campus

Qualifications: RHC council chairman of Holly Week Dance Committee, CUP Party representative for Shoup

Primarily the main issues are of financial and public relations concern. The school should be publicized more widely, so that the state could be more interested in it. Then the school would grow in number and in stature.

DENNY DOBBIN, Off-campus

Qualifications: President of University 4-H Club, Vice president Alpha Phi Omega, Student Infirmary Committee

In my opinion, communication between the administration, student government and the individual student is a prime concern of every E-Board member. If elected to E-Board I hope to be able to represent all the students both to E-Board and to the University.

Specifically, I would hope to demonstrate to the incoming University administration that students are concerned about the University and are interested in seeing it provide quality education on all levels.

PRESIDENTIAL CANDIDATES

Qualifications: Blue Key, Executive Board Member, Communications Board Member, Outstanding Sophomore College of Business, 1962, G.P.A. 3.2

I seek the ASUI Presidency for

Craig MacPhee

one reason; I sincerely believe that I can do the best job. The routine requirements of the office next year will be over shadowed by the pressing need for inspired leadership in the areas of student responsibility and representation.

I will work diligently to attain greater individual responsibility for conduct and greater responsibility and thus effectiveness in student government. First I would encourage University evaluation of many restrictions. Secondly, I would make the Executive Board the focal point of student opinion, as well as that opinion's expressive voice. However, to attempt responsible action, first we must be knowledgeable. To this end, I would supply student leaders with a record of policies and procedures, which would ensure thought before action.

Representation, of the students in the ASUI, as well as by the ASUI on behalf of the students, can best be performed by the present Executive Board system. With Inspired leadership Executive Board could be far more representative than a cumbersome gerrymandering senate.

Fulfilling the needs I have outlined will require hard work, dedication, and initiative; but my record will show you that I'm both willing and able to meet the task. I hope that you will give me your support on March 17.

Joe Goffinet, off-campus

Qualifications: Student Union Board, Vice president CUP, Upham Hall officer

Qualified leaders provide the quality of student government. My past experience in student government has given me a working knowledge of the problems and responsibilities of E-Board. I hope to use this knowledge to serve you.

C-CAP Candidates

MICK MORFITT, SAE

Qualifications: President of Phi Delta Theta, Homecoming parade chairman, 2 years, Greek Week chairman

Executive Board must put student voice back into student government. The ASUI must be prepared to present its programs to the new president of the University backed by 100 per cent of the student body. Without this backing we can never achieve autonomy in student government.

KEN JOHNSON, Phi Delt

Qualifications: President of Phi Delta Theta, Homecoming parade chairman, 2 years, Greek Week chairman

I think that it is time for the Executive Board to take the initiative and make sure that the administration is aware of the ideas and demands of the students as well as try to put the student in control of activities which should be in the realm of "student government."

PAT COBB, Hays Hall

Qualifications: Past president of C-CAP, Drill leader for Vandalettes, secretary for ASUI Public Relations Director

Executive Board members must strive for Personal Contact with all students whether the students appear to want it or not.

BOB DUTTON, Delt

Qualifications: Blue Key, Past MUN chairman, Religion in Life chairman

These changes necessitate, even more than in past years, sincere, experienced, mature leaders in student government, particularly in the student body presidency and vice presidency.

At breakfast he could be heard roaring at the new maid and frightening her out of her wits, stamping on the floor three times to summon the cook from the kitchen and delivering a long, irate speech about taxes and politics that would scare the daylight out of anyone who took the trouble to listen.

Bill McCann

Qualifications: Executive Board member, Blue Key, Freshman Class president National Officer of ASG (associated student governments)

Two year member and chairman of EIC, (Educational Improvement Committee)

This will be the most crucial year student government has faced in many years, it will be a year of change on the administrative level; I believe it should be a year of change in student government.

Public relations is one of the main functions of the ASUI and of any student government, whether it be in building fair booths, organizing student leader-banquets or working on promoting a student speakers bureau.

RON TWILEGAR, FIJI

Qualifications: Jr. Class vice president, I.F.C. rush chairman, Alpha Kappa Psi

Campus politics, no matter how criticized by non-participants, does give the candidates a chance to express their ideas and possibly learn how political campaigns are carried on at the national level.

BOB ALDRIDGE, Theta Chi

Qualifications: C-Cap vice president, Sophomore Extended Board, I.K.'s

The most important issue in the coming election is without doubt the area of the ASUI budget and "Student Bookstore". The budget needs to be more general with much more flexibility; in the area of the Bookstore I am advocating substantial changes in present policy.

DON FRY, Delta Sig

Qualifications: Blue Key, Past MUN chairman, Religion in Life chairman

Most of the candidates have listed as their qualifications the same few committees. I feel this is fine, but, being on the same committee is bound to narrow their point of view. Everybody is talking of the "nonconcerned" students on this campus. I know this isn't true, there are many students who haven't voiced their opinion but the problem is they just don't know how.

If elected I plan to devote my efforts to this large block. I am concerned and feel I can help others, who like me have not been particularly active to express their interest in student government.

BOB DUTTON, Delt

Qualifications: Junior Class president, I.K. officer, Student IEA president

These changes necessitate, even more than in past years, sincere, experienced, mature leaders in student government, particularly in the student body presidency and vice presidency.

At breakfast he could be heard roaring at the new maid and frightening her out of her wits, stamping on the floor three times to summon the cook from the kitchen and delivering a long, irate speech about taxes and politics that would scare the daylight out of anyone who took the trouble to listen.

These changes necessitate, even more than in past years, sincere, experienced, mature leaders in student government, particularly in the student body presidency and vice presidency.

These changes necessitate, even more than in past years, sincere, experienced, mature leaders in student government, particularly in the student body presidency and vice presidency.

Independent Candidate

JUDY MANVILLE, PI Phi

Qualifications: Panhellenic president, Sophomore, Junior Extended Board, Secretary of Pi Beta Phi

I don't think the campaign can be won or lost on one single important issue—there are a number of areas of concern that should concern the students and their E-Board. They are: 1. Vandal Rally Committee, 2. A more efficient smooth flow of finance, 3. A more positive image of E-Board's co-operation with the administration.

BOYD YEE, Beta

Qualifications: Blue Key, Past MUN chairman, Religion in Life chairman

Most of the candidates have listed as their qualifications the same few committees. I feel this is fine, but, being on the same committee is bound to narrow their point of view. Everybody is talking of the "nonconcerned" students on this campus. I know this isn't true, there are many students who haven't voiced their opinion but the problem is they just don't know how.

U-I Comedy Scheduled For Staging March 25-27

A series of family sketches, strewn with crises natural to a house full of growing boys and tiresome relatives, is the basis for the comedy presentation "Life With Father" to be presented on the University theater stage March 25-27.

The story of "Life With Father" gives an inside view of family life of the 1880's, according to the late Clarence Day as written by Russell Crouse and Howard Lindsay. The play ran for five seasons in New York.

The three-day university production is under the direction of Prof. Jean Collette, chairman of drama.

The basis of the comedy provides a rounded portrait of Clarence Day's father, Miss Collette said.

At breakfast he could be heard roaring at the new maid and frightening her out of her wits, stamping on the floor three times to summon the cook from the kitchen and delivering a long, irate speech about taxes and politics that would scare the daylight out of anyone who took the trouble to listen.

Student Named Contest Winner

Ernest P. Brown, off campus, has been chosen the local winner of the Current Affairs Contest sponsored by TIME magazine.

These changes necessitate, even more than in past years, sincere, experienced, mature leaders in student government, particularly in the student body presidency and vice presidency.

At breakfast he could be heard roaring at the new maid and frightening her out of her wits, stamping on the floor three times to summon the cook from the kitchen and delivering a long, irate speech about taxes and politics that would scare the daylight out of anyone who took the trouble to listen.

At breakfast he could be heard roaring at the new maid and frightening her out of her wits, stamping on the floor three times to summon the cook from the kitchen and delivering a long, irate speech about taxes and politics that would scare the daylight out of anyone who took the trouble to listen.

These changes necessitate, even more than in past years, sincere, experienced, mature leaders in student government, particularly in the student body presidency and vice presidency.

GENERAL ASSEMBLY CONVENES — The students here are "representing" their countries at a Model United Nations session held on the Idaho campus this weekend. Students from seven campuses gathered here to practice for the actual MUN session to be held at Claremont College April 7-10.

Northern Regional United Nations Ends Practice Session At Idaho

Representatives from seven schools attended the Northern Regional session of the Model United Nations here Saturday.

The session was a practice for the MUN session to be held in Claremont College near Los Angeles April 7 through 10.

Dr. Boyd Martin, Dean of the College of Letters and Science, spoke at the luncheon Saturday.

Topics at the session were a review of the UN charter, the Apartheid situation in South Africa, diversification of developing economies, international and regional trade agreements, the population problem, and the problem of British Guiana.

Dr. Borning
Dr. Bernard Borning, head of political science, was chairman of the plenary session.

Schools and the countries they will represent include: Northwest Nazarene College, the Philippines; Washington State University, Czechoslovakia and the USSR; Gonzaga University, Union of South Africa and Gabon; Spokane Community College, Luxembourg and France; Wenatchee Valley College, Dahomey; Whitworth College, United States and Brazil and the University, Laos.

The Idaho Delegation, consisting of 12 members will represent Laos at both of the MUN sessions. Members were selected last November and have been holding weekly practice sessions to learn about Laos and the United Nations.

Members of the delegation include Laddie Tlucek, Shoup, chairman; Donna Gibson, Alpha Phi; Lindarae Wats, Forney; Judy Rice, Theta; Keith Erickson, Phi; Pat Morris, French; Larry Munden, off-campus; Bill Halleck, Shoup; Mike Rowles, Delta Sig and Frank Callahan, Willis Sweet.

All of the delegates to the Idaho meeting will go to Claremont except Miss Wats and Rowles.

The delegation will be accompanied by Rev. Don H. Lee, MUN

'Seventh Seal' Film Scheduled

"The Seventh Seal" a film by Ingmar Bergman will be shown March 19 and 21, according to Denny Taggart, Sigma Nu, director of SUB films.

The movie stars Bibi Andersson, Nils Poppe, Max Von Sydow, and Bengt Ekerot.

It is the story of the Black Plague in England and also a knight returning from the crusades who is full of doubt and uncertainty about God, Taggart explained.

Idaho Professor Attending Meet

An Idaho professor is one of 90 deans and professors from universities across the United States attending a pre-school program of the War on Poverty at the University of Maryland.

Dr. Raymond I. Kool, director of adult education and summer school, is attending the meet sponsored by the Office of Economic Opportunity.

The professors will discuss the training of professional staffs for "Project Head Start."

The aim of the conference is to help children from needy families to compete successfully with their more fortunate classmates when they start kindergarten or first grade.

Lambda Chi Start Crescent Girl Search

Sunday the Lambda Chi's will serenade the five finalists in their Crescent Girl contest at 11 p.m.

Since last Monday the various candidates have been entertained at dress dinners. An informal dance will be held Friday at 5:30 for all of the candidates.

Candidates include, Marcia Ramey, Alpha Phi; Nancy Love, Alpha Gam; Pat Nikkola, French; Pat Siverly, Ethel Steel; Phyllis Rathbun, Theta; Barbara Schulte, Kappa; Judy Butenas, Housin; Janette Higgins, Forney; Connie Hoffbuhr, Pi Phi; Dawn Shepherd, Gamma Phi; Dolores Philleo, Campbell; Nancy Nelson, Pine; Joan Eismann, DG; Kathy Stone, Hayes; Marilyn Jones, Tri-Delt and Carla Henning, Alpha Chi.

March 27 the five finalists will be entertained at dinner, and the Crescent Girl will be crowned at the dance that evening.

Here's More About—Candidates

feelings and opinions to the E-Board, he added.

Dave McClusky, Sigma Chi, CUP candidate for vice president, said the situation boiled down to the fact that a system of representatives elected from specific districts would result in more direct representation from the district and the campus as a whole.

"When the final system is decided upon, the size of the body must be chosen. A small body of ten would be more effective than a body of 40 representatives from different districts," said McClusky.

Large Group
The name senate connotes a large group, but this wouldn't necessarily be the case if the campus were divided into 10 districts rather than a large number, he said. Students would feel closer to their government since they would be closer to it through their district representative.

Recruiter Plans University Visit

A national recruiter for Camp Fire Girls, Inc., will visit the Idaho campus Wednesday and Thursday to find and interest qualified college women for a career in the national youth organization.

Mrs. James Durkin, who has been active in the youth group since 1950, will interview Idaho students who are interested in careers as executives or administrators in a youth movement.

Mrs. Durkin is one of a staff of national recruiters visiting colleges throughout the country.

FOLKLORE GALORE — The international Spanish dancing troupe of Susana and Jose will perform in a public events program Thursday at 8 p.m. in the Memorial Gymnasium. The troupe will demonstrate dances based on a study of the folklore in the various Spanish provinces, at the U-I performance of their tour of the United States.

Spanish Dancing Troupe In Public Events Thursday

An internationally known Spanish dancing troupe, Susana and Jose, presently on tour of the United States, will perform for University of Idaho students and guests in a public events program, Thursday, at 8 p.m. in the Memorial gymnasium.

The "pocket size" dance company has received press acclaim as the world's best Spanish dance team. Since forming in 1961, the dance troupe has toured Europe and the North American continent and is presently touring the United States for the third time.

Spanish dance, as it is known today, stems from century-old traditions, yet Susana and Jose have adapted their program and their interpretations to the emotional needs of today, and for this reason, they are able to present a conventional program, always fresh and exciting.

The dances by Susana and Jose are all based upon a thorough study of the folklore in the various Spanish provinces, and are in fact choreographed by both artists and translations of still living folkloristic art into artistic creations. Both artists each year spend some months traveling through the provinces of Spain, not only to learn ancient vigorous folk dances, but to observe and understand the life and customs of the people who dance them.

U-I Army Unit Holds Practice

The Chrisman Raiders, Idaho Army ROTC counter-insurgency training unit, held a rappelling session March 6 at the fire training tower on Gormley Field, near the Sixth St. entrance to the campus.

Rappelling, according to Capt. Albert C. Cooper, Raiders advisor, is a method of using ropes to get over otherwise impassable vertical surfaces, such as cliffs.

"The men make a sling from a short piece of rope and hook a snap-ring to it. They use the sling as a make-shift seat and go down the surfaces on longer ropes which are made fast at the top," said Capt. Cooper.

Rappelling is only one part of the counter-insurgency training which the Chrisman Raiders receive, according to Lt. Col. Ralph R. Rusche, Army ROTC executive officer.

Here's More About—Bookstore

ministration. The fault lies in the past student government and students themselves who haven't been willing to accept the responsibilities that are involved in assuming this voice of control over their own affairs," said MacPhee.

"I definitely think that the students at Idaho are beginning to want this increased responsibility and if their student government provides the initiative and leadership, they will succeed in getting it," MacPhee added.

McCann said that the bookstore was set up to be privately managed under the control of the Regents. The money does not go to the ASUI, as specifically stated in the student handbook.

More Interested?
"Since students have become interested, we should look into the situation before we take any definite actions," he added.

McClusky answered by suggesting that the question was not one of increased power for students but one of increasing the effectiveness of student voice to the administration and Regents in helping them make their decisions.

Tracy said he felt that there was a lack of student voice in on the campus.

"I feel that many of these are from the administration rather than the Board of Regents," he said.

Major Receives Badge From Idaho Army Unit

Maj. John G. Couris, assistant professor of military science at Idaho, received the Army's Marksmanship Badge in ceremonies Friday at the ROTC unit.

Maj. Couris earned the badge for excellence in competition while at Camp Perry, Ohio, during the summer of 1964. Lt. Col. James L. Rimlinger, Idaho professor of military science, made the presentation.

The award is earned on a point system and is second only to the Distinguished Shooting Badge as recognition for outstanding marksmanship.

"After we finish this set..."

let's head for 'Charlie's'... Don't call a cab. I want to show you my new wheels—a new Dodge Coronet."

"Who's the guy who keeps waving? My Dodge salesman... good people. Clued me in on all the jazz that comes standard on a Coronet 500."

"Like bucket seats, full carpeting, padded dash, console, spinners, backup lights and a wild V8 for kicks... oops, there's my cue..."

"Black is the color of my true love's Coronet..."

Coronet makes your kind of music, and the price won't leave you flat.

Dodge Coronet 500

Idaho Harriers Prepare For Meets

Coach Doug MacFarland and his Vandal track team hope to follow suit behind the Idaho King Spud cagers this season in Big Sky competition by upsetting last year's league leading cindermen, the Idaho State Bengals.

Second Best
Last year's competition saw the Idaho crew finish second best to the Pocatello harriers in championship competition held in the southern Idaho city.

"We don't have any of the so-called potential record breakers on this year's squad," MacFarland said. "However, we do have a lot of tough, steady competitors who should give all comers a run for their money."

Record Holders Return
Only two Big Sky record holders will return to the Idaho squad this season. Nils Jebsen will be out to better his league mark of 1:58.2 in the 880. Pole vaulting teammate, Jim Jackson, has set his sites a little higher for the coming cinder season — and rightly so. Last year, his vault of 13' 2" was good enough to bring him the league title.

However, at the present time, it appears that Jackson will have to add a little more than a foot to last year's vault if he expects to retain his title. Frosh teammate Dwayne Turpin, who comes to Idaho by way of Medford, Oregon, cleared the crossbar at 14' 6" during his pre-collegiate career.

Regardless of the fact that the pole vaulting crown may change hands, the Vandals are indeed fortunate to have Turpin wearing the black and gold instead of the Bengal stripes.

Hopes on Thunder Ray
When Coach MacFarland and his cinder crew head for Washington State and an indoor meet with the Cougars on March 20, a great deal will hinge, at least partially, on the performance of one man — Ray McDonald. Big Ray is slated to compete in four separate events — the broad jump, shot put, discus and the high hurdles.

"Ray should be quite an asset to the team this season," the Vandal harrier mentor noted. Sometimes I doubt whether or not there is anything connected with athletics that he can't do and do well. McDon-

ald will be out to break ex-Vandal harrier Max Leetow's 1964 league record toss of 166' 10 1/2" in the discus event. Rumor has it that he has a good chance of doing just that too.

Speedsters Back
Idaho's two speedsters, Joe Chapman and Bill Bryson, will also be on their marks when the Vandal squad inaugurates the coming season. Both Chapman and Bryson will run the 100-yard dash. Chapman will combine his talents in the broad jump with those of Thunder Ray. Bryson will team up with Bob Johnson in the 220.

Johnson will also compete in the 880. He will be joined by Jebsen, holder of the Big Sky record in that event.

Vandal distance hopes for the coming season rest on John Myntott and Ted Quirk. MacFarland describes both of them as being "very capable runners."

Many Vandal Coaches Have Disappeared

Take a good look at the athletic offices and one will wonder if the University has any coaches. They are gone!

Recruiting either makes or breaks an athletic program and with this in mind the Idaho Athletic Department has issued an outstanding campaign on high school and junior college talent.

Steve Musseau, new football coach, and his colleagues are in southern Idaho looking for prominent high school players. They have been gone for a week and will return Wednesday. The majority of football recruiting must be done prior to spring practice which starts immediately following spring vacation.

Goddard's East Bound
Jim Goddard is even harder to locate. Since basketball ended March 8, he has been on the road. First, it was to San Mateo, Calif., for a junior college tournament. Now, he is in Hutchinson, Kansas, for the National Junior College Tournament.

Then, it is on to Portland, Ore. for the NCAA National Championships this weekend, and finally Moscow, Sunday.

Wayne Anderson, baseball coach, has had a dual role. Currently he is planning for season opener, a doubleheader, against Columbia Basi in Pasco. March 20. He just returned this past weekend from Pocatello and Twin Falls, observing the state's 1-A and 2-A basketball tournaments.

Additions To Staff
A pair of Vandal veterans will be handling coaching chores this spring, athletics director, John C. Thomas said.

Roy Schmidt, former Idaho catcher from Greencreek will work with coach Anderson's baseball program. Schmidt played a season of professional baseball after the 1961 Idaho season.

Stickmen Tom Hoagland and Jim Carmichael demonstrate the agility that Idaho Baseball coach, Wayne Anderson, hopes will bring the Big Sky crown to Vandal country again this season.

IM 'B' Basketball Competition Toughens

With the halfway-mark in "B" basketball approaching intramurals have taken a serious note in the attitude of many living groups.

Several games have been close and the competition has become keen. Last Thursday, Phi Kappa Tau-1 squeaked by Delta Sigma Phi 2, 21-20. Another heart-breaker was the Willis Sweet-7 loss to Delta Chi-4, 15-14. Phi Gamma Delta-2 and Sigma Alpha Epsilon-4 had a cliff-hanger before the Fiji's ended on the winning side, 17-14.

Lindley-3 trounced Delta Chi -2, 51-8, in the only exhibition of scoring finesse. In non-intramural action the Physical Education team beat the Foresters, 41-7. In last Tuesday's action, Farmhouse -2 wallpiped Kappa Sigma-5, 111-7.

Other scores reported were:

Commissioner Vandal Stickmen Slated To Play Tough 30 Game Season

A Washington law which requires persons to retire from the state's higher education system at age 65 will never become a rule in the Big Sky Conference. It was this law that made one of the nation's most knowledgeable athletic men—Jack Friel — available for the job of commissioner of the Big Sky conference.

Friel coached Washington State basketball teams for 30 years (1928-58), winning three Northern Division titles and finishing second in the nation in 1950. He is a member of the Helm's Hall of Fame for basketball coaches and for the past five years has been Northern Commissioner of officials for the Pacific Coast Intercollegiate Officiating Bureau.

If the new commissioner brings any innovations to the conference they will be earth-shaking ones — Friel is the man who invented the two-platoon substitution basketball.

Jack was born in Waterville, Wash., and attended high school there earning letters in basketball and baseball. After service in the Field Artillery 1917-19, including overseas duty in 1918, Friel enrolled at Washington State college. He was a basketball regular for three years and captained the Cougars as a junior.

After graduation Friel coached at Colville high from 1923-25. He moved on to North Central high in Spokane for a stint from 1925-28. He joined the Cougar staff in the fall of 1928 and remained until his retirement last July.

The Commissioner is married and has four grown children. He still resides in Pullman and has the league offices in the Washington Hotel building. In addition to his work with the league he still supervises officials and keeps an eye on his farms in the Big Bend country in central Washington.

Banana Belt March 27
The Idaho squad will host the first annual Banana Belt Relays in Lewiston on March 27 in Vollmer Bowl.

A meet with Central Washington College is scheduled for April 3 in Ellensburg. The Idaho cindermen head west again the following weekend for a meet with Southern Oregon College in Ashland, Oregon.

The Vandals travel to Humboldt State during the week of Spring Vacation for a clash with the California school. April 17, the Idaho squad returns to Moscow for the first home meet of the season and the first conference tilt as they clash with Montana State College.

A meet with the University of Washington is slated for the following Saturday in Seattle. May Day will find the Idaho crew in Boise for their second league meet when they battle with the Idaho State Bengals.

The Idaho Vandal stickmen begin defense of their Big Sky crown in Moscow, Saturday, April 17. Idaho, 8-0 in the circuit last season, swept through the playoffs with two straight wins over Weber State.

Hawk Double Header
Baseball season, however, begins for the Vandals on March 20 with a double header against the Columbia Basin Hawks in Pasco.

The Idaho nine is slated to play a 32-game schedule this season. Their contests will be confined exclusively to the Big Sky.

Vandals Pick All-Opponent Cage Squad

A wide variety of talent is represented in the University of Idaho's all-opponent basketball team this season as selected by the Vandal Cagers.

Leading the parade is Big Dan Anderson from Augsburg, who tossed in 34 points against Idaho. Another sharp shooter is Tom Lee of Santa Barbara, who scored 31 for the Gauchos. Jim Jarvis of Oregon State had 18, but was picked as a top floor leader for the Beavers.

Tom Workman of Seattle U., made the all-star club on the strength of 29 points in two games and a total of 22 rebounds. Kermit Young was the only Big Sky player to be selected by the Vandals. The Montana State veteran had a total of 37 points and 21 rebounds in two meetings between the conference teams.

Young, Gary Lechman of Gonzaga, and Gene Visscher, Greg Harrop and Jon Silber-nagel, all of Weber State, were named to Idaho's all-Big Sky opponent team.

Sky. Idaho has dropped out of the Northern Division because of difficulties incurred in scheduling and playing in two different leagues.

Banana Belt in March
The Vandals journey to Lewiston on March 25, following their games with the Hawks, for the three day Banana Belt Tournament. A return bout with the CBC nine is slated for April 2 in Moscow. Coach Anderson's crew will host Whitworth College April 3 and 6.

Six During Vacation
The Idaho club has six games slated for the week of spring vacation. They travel to Seattle University on April 12 for a game with the Chieftain club. The Vandal crew will remain in Seattle for an April 13 clash with the University of Washington. Then they fly to Spokane on April 16 for a game with Eastern Washington. They return to their home diamond on April 17 to meet with the Gonzaga University Bulldogs.

Ten To Go
Anderson's club play their final 10 games after spring vacation. They host the Cougar club on April 21, then they journey to Spokane April 24 for a return match with the Bulldogs. A second meeting with the WSU crew is slated for April 27. The Idaho club takes a three-day holiday before flying to Bozeman to meet with the Montana State Bobcats.

Last year's Big Sky champs then head west for a game with the Montana State University in Missoula. The second in a three-game series with WSU is scheduled for May 5. A return match with the Eastern Washington nine is slated for May 8. The Vandals play their only season game against the Idaho Bengals in Moscow on May 10. The final match with the Cougars is slated for May 12 and the final game of the season will be a return bout with the MSU Bobcats on May 17 in Moscow.

Weber Picks Two Vandals

Jerry Shaife and Tom Moreland, the short and tall of Idaho's basketball prowess, were named recently to the first team of Weber State's All-Opponent Big Sky teams.

In the initial meeting at Ogden, Utah, Shaife scored 17 in a losing cause, 105-71. At Moscow in a real close contest, Moreland canned 28 but the Vandals were stymied by the Big Sky champions, 106-103.

The two Vandal cagers were flanked by Wade Hughes, Montana, Kermit Young, Montana State, and Gary Lechman, Gonzaga, on the Big Sky selection.

Weber State's All-Opponent team includes players from the major and small college ranks. The Wildcats also tabbed Moreland to this honor. Shaife was nominated for an alternate guard position by the team and coaches.

Lincoln did not originate the phrase "Of The People, By The People, For The People"—Theo. Parker in his address before the Anti-Slavery Society on May 13, 1854, used the phrase, "Of all the people, by all the people, for all the people." Later he condensed the phrase to the form in which it is now known and in which Lincoln used it. Daniel Webster, in 1830, used a similar phrase, "The people's government, made for the people, made by the people, and answerable to the people." 1—Handy Book of Literary Curiosities, W. S. Walsh, page 425. 2—Facts and Fancies, C. Bombaugh, A.M., M.D., page 176.

A message of importance to sophomore men
If you've got what it takes to be an Army Officer, you may qualify for this new on-campus training program
A new Army ROTC program starts this coming Summer for sophomore men who apply prior to May 1—only 3,000 applicants to be accepted
If you're a sophomore now attending one of the 247 colleges and universities that offer Army Officer training—or you plan to transfer to one of these schools next Fall—you may qualify for the new two-year Army ROTC program.
This new program—designed especially for college men who have not taken Army ROTC during their first two years—will commence with six weeks of field training this coming Summer, beginning June 14. Then you'll have on-campus training during your junior year . . . six additional weeks at camp during the following Summer . . . and more on-campus training during your senior year. Even flight training is offered at some schools.
ROTC training is really a process of learning to organize and direct others—to be a leader. Consider how important this ability can be to you throughout life; yet, to acquire it you will spend relatively little time in the ROTC classroom. You'll obtain valuable junior management experience . . . a fuller and richer campus life . . . extra spending money (\$40 per month during your junior and senior school years, and even more during Summer training) . . . and, when you graduate, an Army Officer's commission as Second Lieutenant. Then you'll normally spend two interesting years on active duty, often abroad with opportunities for travel.
Talk to the Professor of Military Science on your campus about this opportunity. Ask him to describe this new short program in detail.
Or send in the coupon below for complete information. There's no obligation involved, and you'll not be subjected to any "hard sell" recruiting effort. The kind of men the Army wants can decide for themselves if this new opportunity is right for them.
If you're good enough to be an Army Officer, don't settle for less. Sign up now for Army ROTC.
Send in this coupon for more information on this new two-year on-campus Army Officer training program.
U.S. Army ROTC, Post Office Box 1040, Westbury, New York 11591
Please send me complete information on the new two-year Army ROTC program. I understand there is no obligation involved.
