

AUTHOR & COMMENTATOR—Edward P. Morgan, news commentator and author, will speak at a two-day conference on "Journalism and Public Affairs in the Mass Media" at the U of I March 18 and 19. He will also present an all-University public events assembly in the Memorial Gym at 9 a.m. March 18. Morgan is a native of Idaho.

Edward P. Morgan To Visit University

Mr. Edward P. Morgan, radio and television news reporter, will be the guest speaker at the journalism conference at Idaho, March 18-19.

Morgan, also a radio and television executive and commentator, will speak at an all-University public events assembly in Memorial Gym at 9 a.m. Friday. He will also participate with other newsmen on panel discussion sessions.

Morgan holds a unique position among American news commentators and writers as being erudite as well as articulate. He has had personal experience with history-making men and events in Saigon and Moscow, Berlin and London.

His style has been compared with such mediagiants as Edward R. Murrow and Elmer Davis, but is also known for his analysis, courage to storm against stupidity, injustice and humbug.

"On occasion I am impelled to conclude that Americans are living in and contributing to a kind of modern Roman Empire. I am shocked by our wastefulness and selfish lust for things," he has said.

Morgan is also unique for having kept the same sponsor, the AFL-CIO, for ten years for his nightly radio newscasts. Although this has led some to label him the voice of labor, he denies this saying "I do not work for the AFL-CIO, I work for the network."

The radio newscaster testifies that he spoke frankly with labor leader George Meany before taking the job and was assured that there would be no interference.

Born in Walla Walla, Washington, Morgan earned a Phi Beta Kappa key at Whitman College and did post-graduate work in journalism and political science at the University of Washington.

The Seattle Star gave him his first news staff position, and from there he spent nine years of foreign correspondence for the United Press, and three years with the Chicago Daily News.

In 1951 Morgan joined the CBS news staff and transferred to ABC in 1955 where he is heard daily on radio at 4 and 4:15 Pacific Standard Time.

The purposes of the conference, entitled "Journalism and Public Affairs in the Mass Media," are:

- (1) To bring together all types of journalists from the area to discuss and evaluate their problems,
- (2) To have public affairs men offer their views and evaluations of the mass media,
- (3) To focus public attention on the problems and to provide authoritative views by bringing recognized experts to the conference,
- (4) To involve the general public in this vital matter,
- (5) To provide a profitable educational experience to Idaho students.

How Well? Questions on how well the mass media of today fulfill the needs of the citizen to understand the function of journalism in the mass media, and its role in a

E-Board Soph. Pres. Resigns

Terry Gough, Campus Club, submitted his resignation as sophomore class president at the first meeting of the Executive Board (E-Board) for this semester. Reasons given were grades, personal responsibilities, and public opinion. It was moved and seconded to accept the resignation. However, due to an error in parliamentary procedure pointed out by Mick Morfitt, SAE, the motion was tabled until the next meeting.

School Songs
Other business included a report from Ruth Ann Knapp concerning school songs. She suggested that the words to the songs be painted on signs and hung in the gymnasium. This could be done by hanging them from the rafters and thus would be out of the way for games, concerts, etc., she said.

She said that the money could be allocated from the money given to the E-Board for allocation for their own uses. She said that the cost would be \$61.

Big Names
Ken Johnson reported on the progress of the Big Name Entertainment Committee which will include The Brothers Four, March 6, Glen Yarbrough April 2, and Bill Cosby. Tickets will be \$2.00 for the lower floor and \$1.50 for the upper floor, Johnson said. Johnson also said that the Junior-Senior prom will follow the Yarbrough show.

Bill McCann reported that the Public Address system to be built for KUOI has been completed. A question was raised as to who should use it. It was suggested that the system be free to publicize University activities and that a nominal fee be charged other groups. It was moved to turn it over to the Publicity Area of Activities Council for further research on the use of the PA system.

Dave McClusky reported on his recent visit to the Job Corp in Cottonwood and suggested that an exchange be set up with Job Corp members and University students. McClusky stated that representatives from Vista will be here from Feb. 27 through March 4.

The letter that Idaho State University will release in support of the sales tax was read. Don Fry suggested that the letter from Idaho be written more in a layman's language rather than a lawyers.

McCann asked all members turn in their new class schedules so that new office hours can be established. He also emphasized the necessity for the members to make visitations.

Baker To Serve On National Panel

Dr. William H. Baker, professor of botany and head of biological sciences at the University, has been called to Washington, D. C., to serve on a special panel of the National Academy of Science National Research Council.

In Washington Monday through Thursday, Baker will aid in the selection of persons to receive National Science Foundation fellowships.

SUB Films To Show Three Nights A Week

SUB films will be shown Saturday nights in addition to Friday and Sunday, announced Kenneth A. Hall, Theta Chi, SUE films chairman.

AT THE S.U.B.

- "Dr. Strangelove"—Feb. 11, 12, 13.
- "Bye Bye Birdie"—Feb. 18, 19, 20.
- "Ashes and Diamonds"—Feb. 25, 26, 27.
- "Marnie"—March 4, 5, 6.
- "Slapstick Series"—March 11, 12, 13.
- "The L-Shaped Room"—March 18, 19, 20.
- "Man's Favorite Sport?"—March 25, 26, 27.
- "Cowboy"—April 1, 2, 3.
- "The Cardinal"—April 22, 23, 24.
- "I'd Rather Be Rich"—April 29, 30, May 1.

The Saturday show will only be at 7 p.m. Usual showings on Friday are at 7 and 9, and on Sunday at 8.

"We hope that this extra night will help alleviate the problem

University Registration Tops 5,560 Mark Second Semester

Course Repeats 'D's; 'F's Not Counted By Selective Service

The Registrar's Office counts semester hours of both repeat and review course registration towards fulfillment of the 14 semester hour requirement for undergraduate full-time student status. But neither the "D" or "F" grade received when the course is taken the first time nor the repeated course grade is included in the accumulative grade point tabulations ranking students for the draft, registrar F. L. O'Neill said yesterday.

He said this was the procedure used at the U of I until 1961 but future ranking requested by the Selective Service could change.

The registrar's office has and will continue to count semester hours of both repeat (of "D" grade) and review (of "D" grade) courses towards the fulfillment of the 14 semester hour requirement for undergraduate full-time student certification, he said yesterday.

Zero Credit
"Male students should note that zero credit and audit course registrations are not considered in determining the full-time status of a student," said O'Neill. These statements are subject to change which may be issued by the State of Idaho director of Selective Service, he added.

O'Neill said the grade reports will be available next week and each student's accumulative record will be included. The accumulative grade point averages and semester reports will be mailed to parents, wives or husbands of married students and high schools from which students come.

At a meeting of Administrative Council last month Dean Ernest Wohletz of the College of Forestry said that the projected enrollment figures could be affected to a large extent by pending Selective Service legislation.

The Council discussed the military service draft situation and the possible reduction in male student enrollments. O'Neill said that student withdrawals for first semester this year at a comparable time are less than a year ago.

Viet Nam: Banquet Topic

Senator Jordan To Visit

Sen. Len B. Jordan (R-Idaho) will speak on U. S. policy in Viet Nam and national affairs at a Lincoln Day Banquet at the U of I Monday.

John Martin, administrative assistant of Sen. Jordan, said in an interview Tuesday that the Idaho senator will meet with Young Republicans before or after the banquet to discuss campaign projects of the group.

Tickets for the banquet are available at \$1.50 for students and \$3 for adults from Bob Aldridge, Theta Chi, Linda Derr, Hays, or any Young Republican living group representative.

The banquet will be held at 7 p.m. in the Ballroom of the Student Union Building and is open to the public.

Sen. Jordan flew to Spokane yesterday and will speak to the Lewiston Chamber of Commerce today. Tomorrow he will travel to Twin Falls and later to Idaho Falls for Lincoln Day banquets.

14B Filibuster
Martin said Sen. Jordan has also called for a full Congressional debate on Viet Nam but is supporting President Johnson's policy.

"I am sure all of us hoped that the President's peace offensive would get a favorable response from North Viet Nam," said Sen. Jordan in a statement released by Martin Tuesday. "Our disappointment is deep."

For He Alone
"The President has decided that resumption of bombing is necessary. This is a judgement that he alone must make. The one hopeful note in the President's statement is his insistence that this entire matter be put before the United Nations."

In the statement Sen. Jordan said the U. S. must have the support of freedom-loving nations for the effort to contain Communist aggression to be successful.

"We must not make this a United States war, nor do we want the responsibility of maintaining a uni-lateral peace," he said in the statement.

Fair Discussion
The Idaho Senator called for frank and full discussion of U. S. policy in Viet Nam and said the Congressional approval of August last year was not a blank check for a U. S. land war in Asia.

"I want to draw a sharp distinction between support and approval," said Sen. Jordan in the statement. "I support the men we have committed because they are there and must have our full support."

Burton To Perform At Idaho Monday

The man who cultivated and encouraged the love of poetic language and vigorous portrayals which propelled actor Richard Burton into stage and screen renown as one of the greatest Hamlets of our time will perform at the University Memorial Gymnasium at 11 a.m. Monday.

Philip Burton, guardian and tutor of the other Burton, and a noted director, actor and writer in his own right, is sponsored jointly at the University by the Fine Arts and Public Events committees. His performance is titled "The Magic of Poetry." University classes will be dismissed that hour.

Shakespeare and Philip Burton are inextricably intertwined. Since 1962 he has instructed American actors in the works of

PHILIP BURTON

the Bard of Avon at the American and Musical Dramatic Academy in New York City, where he serves as its director. He has staged Shakespeare at the Library of Congress and has veritably made the dramatist's plays his own lifework.

Drop of 4 Per Cent Is Double Of '64-65

Registration figures will run over 5,650 this semester, 600 more than second semester last year. The actual figure as of Thursday was 5,560.

These figures represent a drop from first semester of about four per cent, which compares with a drop of two per cent for last year. The normal drop between semesters is about five percent but earlier predictions from the registrar's office were based on two per cent.

University registrar F. L. O'Neill said that one possible cause for the drop in expected enrollment might be the number of students waiting for reinstatement.

Crowded Classes
Some individual classes were particularly crowded beyond the instructor's expectations. Dr. Fred Winkler of the History Department said that two of his upper division classes took him completely by surprise. "In one of the classes I expected about 60 students and 90 showed up. In the other I had anticipated 20 and 35 enrolled," said Dr. Winkler.

The Bookstore reported that the selling was heavy but no more than was to be expected with the increased enrollment. Any books that are sold out are immediately reordered by airmail or wire.

University officials were faced with a greater increase in enrollment than had been predicted when 5,961 students surged on campus during the fall term just completed. The year before 5,174 students attended during the fall semester.

Two Campuses To Host Stomp

Tonight the annual WSU-U of I Border Stomp will be held at the CUB Ballroom on the WSU campus from 9 p.m. to midnight.

This annual event is co-sponsored by the sophomore classes of both schools. The outstanding bands of each school will provide music for the dance.

Representing Idaho will be the Alpacas. Members of this group are: Dave McCune, John Reed, and Bob Bassett, Fiji, Mike Barney, Phi Delta, and Rod Uglem, Beta.

The Take Fives of Pullman will provide the music in the ballroom while the Alpacas will play in Butch's Den.

Tickets are 50 cents per person and will be on sale at the door. The dress will be casual.

Hoffman Attends National Meeting

Professor D. S. Hoffman, assistant dean of the College of Engineering at the University, attended the national meeting of the American Institute of Chemical Engineers at Dallas, Tex., Feb. 6 through 9.

An authority on thermodynamics, Hoffman will participate in a panel discussion on "Thermodynamics of Fluids." He will also stop at Bartlesville, Okla., where he will consult with the Phillips Petroleum Co. on thermodynamics problems.

SCHEDULES U-J VISIT—Sen. Len B. Jordan (R-Idaho) will speak on Viet Nam and other national and international affairs at a Lincoln Day Banquet scheduled Monday at 7 p.m. in the Student Union Building Ballroom. The Senator will also meet with members of the U-J Young Republicans.

The Idaho Argonaut

God willing, we shall this day meet that old enemy
Who has given us so many a good beating.
Thank God we have a cause worth fighting for,
And a cause worth losing and a good song to sing.

The Golden Fleece

By Jason No. 78—Leo W. Jeffres

On Engineers, Accountants, and Arg Philosophies

Hugh Heffner has his Playboy Philosophy... President Johnson has his policy on Viet Nam... Dean Neely has her philosophy on women's hours... Descartes had his criterion of truth... and each Argonaut editor has his philosophy of what the Arg should be... This one is no exception.

ably in reporting the activities happening on campus. A few try; most don't. They accept the different role of commentator on issues and important events. The larger a university becomes, the greater is the temptation to accept this more comfortable role and to neglect the news almost completely.

Few companies with freshmen through senior engineers would expect to build a perfect bridge. And few accounting firms would expect to balance General Motors' books with freshmen who have had only beginning accounting on their staff. Neither does the Argonaut expect to juggle thousands of words each week without making mistakes. What the accountant does with numbers and the engineer does with a slide rule, the journalist does with words.

The Argonaut compromises those roles. It believes it should not only comment, attempt to persuade and entertain, but also inform and serve as a paper of record. It is for this reason that job interviews, committee interviews, house elections, club meetings, initiation, and traffic violations are reported in its news columns. To accept only this role, however, would lead to a dry, dull homogenized product.

But the difficulty of reaching perfection stops neither the accountant, the engineer, nor the journalist. The result is an effort which often satisfies no one and ends in criticism from many corners. Perhaps this is where the accountant and the engineer differ from the journalist. A bridge may not meet the needs of motorists caught in a traffic jam, but the criticism will not fall upon the engineer. If the journalist goof, all hell breaks loose and everybody is an expert.

Long Neglected
A paper must also present views, entertain through lively features, and even arouse opposition and protest at times. Until recent years the Argonaut neglected this role. This year it has and will continue to try to atone for its past sins. In-depth sections of immorality and apathy have been published. More are planned. Future features include: "What makes coeds wiggle"; big game in Idaho by Dr. Paul P. Dalke, professor of wildlife management; the role of pressure groups in society; a bi-weekly column on all forms of entertainment entitled "We've Got the Weekend"; political commentaries, etc.

The result after any length of time is an immunity built up against vicious attacks and a feeling of gratefulness for responsible and justified criticism. During first semester the present Jason received criticism on: a dropped line from a pinning announcement; identification of Margie Felton as an Alpha Phi instead of a Kappa; his prolific production of editorials on everything from soup to nuts; and emphasis on news areas. The first two mistakes are corrected in this issue—the third is feted to the necessity and choice of a Jason who won't shut up—and the fourth is arguable.

This issue and Tuesday's will introduce many new features of the Argonaut—some small and probably not noticeable to the average reader, others larger but perhaps still hard to pinpoint. But the changes will be there and will continue to appear. Some of them include: a new flag (name plate), more prominent display of larger pictures, more articles on technical subjects ignored in the past (engineering, the sciences, detailed political issues, and University policy changes).

Perfection?
What is news? Complete objectivity in determining the length of a story, its placement and the size of the headline is impossible. No human can ignore his frame of reference for judgment. Nor does he at all times even attempt to do so. What is possible is the educated and responsible attempt to make the decision in passing judgment. This is what the Arg staff attempts to do.

But the decision to comment in a student newspaper presents a definite enticement to expound upon personal ideologies. To avoid this issue the Argonaut will present the views of many students through columns and letters to the editor, as it did last semester.

Gov't Offers \$3200 Grants

Three fellowships valued at \$3200 are each being offered students interested in government service for study at three universities. It was announced recently by the government. The fellowships are open to students who will receive their bachelor's degree in June. Information and applications can be obtained from Coleman B. Ranson Jr., Educational Director, Southern Regional Training Program in Public Administration, Drawer 1, University of Alabama. Deadline for submitting applications is March 1, 1966. Beginning this June, fellows will serve a three-month internship with a government agency in Alabama, Kentucky or Tennessee, such as TVA, Marshall Space Flight Center, a city, or a department of one of the state governments.

'Trio' Series Starts Tuesday

National Educational Televisions "Trio," a series of ten half-hour programs will premiere Tuesday, Feb. 15, at 6:30 p.m. on channel 12. Each program contains three visual essays written and delivered by critics, humanists, and outstanding personalities from the fields of music, the arts, and the sciences. The programs will feature such outstanding television essayists as John Canaday, Marya Mannes, Langston Hughes, Max Eastman, Joseph Wood Krutch, Bergen Evans, and Irving Kolodin. The essays deal with topics ranging from teaching machines to "experimental" art, from the music of the blues to the music of the drum, from modern city planning to the thoughts of an amateur naturalist. The program will be shown twice a week; Tuesday at 6:30 p.m. and Thursday at 9:30 p.m. Eric Howard is the executive producer of "Trio." It is directed by Frank Moriarty.

Letters To The Editor

Prof Hits 'Well-To-Do' E-Board, Arg on Housing

Dear Jason:
In the past few months, there have been a number of articles in the Argonaut calling for the elimination of "sub-standard" housing; at the same time, the ASUI Executive Board has sought a ruling to prevent students from living in such housing. Evidently the current drive was sparked by the fact that some students were injured in a fire this fall. The students in question were members of an LDS group who were obliged to move from the LDS Institute. They persuaded a member of their church to make the down payment on a local University Professor's house. This house had a standard, NOT a sub-standard, coal furnace. According to the fire chief, there is no evidence that the furnace was defective).
Improperly Banked
They improperly banked the fire one night and the fire was the result. If a lad takes his father's car out, misses a curve, and rolls the car over, this fact is not a reason for a hue and cry to abolish "sub-standard" cars.
Equally, this fire is not a reason for the hue and cry to abolish "sub-standard" housing. Incidentally, the only students I know of who have lost their lives in a fire at the University of Idaho were students who lived in a "fire-proof" dormitory.
Why So Vigorous?
I do not know why the Executive Board and the Argonaut staff are so vigorous in this drive. Since I do not know, I can only guess. The bulk of those involved are members of the Greeks, and so far as I know, the Independents in question are also from well-to-do families. Evidently, they are truly appalled at the housing in which some students are obliged to live.
This concern shows a kind heart. What they evidently do not realize is that poor people have always lived in "sub-standard" housing. They do so, NOT because they like "sub-standard" housing, but because their finances are sub-standard.
Rich Friends?
Probably the housing problem has come to the special attention of the E. Board because some of their well-to-do friends have been caught in the present housing shortage, and so forced to live in cheap housing. Worse, because of the law of supply and demand, they have found this "cheap" housing to be fairly expensive. The attitude of this group is nicely summed up by State Legislator Larry Mills who said: "My only point is that Moscow, as host city for a state university, has a responsibility to provide the best in housing, recreational facilities, transportation and services." Obviously, only those with money can afford the best.
Right Step
It is evident, therefore, that President Hartung has taken the right steps in seeking ways and means of building more good housing for Mr. Mills' well-to-do friends. Given time, this action will solve the problem. Then Mr. Mills' well-to-do friends will be able to live in the accommodations to which they are accustomed, and the poor students will live where they are able to live. In this way, the University of Idaho will continue to serve the rich as well as the less fortunate.
Certainly, I cannot believe that a state-supported university should cater only to those with money; the only way most of the poor can rise above their sub-standard conditions is through education. Would we deny them this opportunity to better themselves? I do not believe that in their stand on this issue, the student "leaders" on the E. Board speak for the majority of the student body.
Plight of Poor
President L. B. Johnson has been concerned with the plight of the poor, and attacked the problem at its root rather than trying to move it out of sight. The Economic Opportunity Act provides employment for the needy student. If a student works the full time allotted by the law for fifty-two weeks of the year, he can earn \$1250.
Living in a University Dormitory for the regular school session will cost \$754. His school fees are \$205., and an estimate by a member of the Business Office puts his book and supplies fees at \$175. He is therefore left with the princely sum of \$117 on which to live for the sixteen weeks of summer vacation. If he gets sick and cannot work, the sum he can earn is reduced.
Since it is customary to wear clothes, it is evident that the student has a problem. And if such a student were married (or should only students with money be permitted both marriage and school?) the problem increases.
On Moral Grounds
Finally, on moral grounds, it is appalling to see one group of students so insistent on dominating the lives of others. If the "do-gooders" lack respect for human dignity, if they cannot believe that other students are entitled to live their own lives, at least on practical grounds, the E. Board should be careful.

ful. First, it is housing; next it may be that students will be forbidden to smoke; then perhaps those "horrible dances" will be forbidden; next... Some years ago one of my students lived in a cheap apartment with an oil heater. His finances were such that he virtually turned it on. When it got cold, he put on his coat; when it got very cold, he drew some hot water from the tap and let it stand on the table. In this way, he could occasionally afford meat.
BUILT SELF-RESPECT
By succeeding in finishing school in his own way and on his own resources, he built his self-respect. At least, since the time of the Socrates (who went about bare foot and in a threadbare cloak), poverty in one who pursues wisdom has been a sign of devotion to the truth; the rights

of the student in the ancient European Universities are often listed as the rights of the student as the right to hunger, fatigue, study, and freedom. My student, mentioned just above, was certainly better off than one of his classmates who tried dog food as a cheap source of protein; the latter contracted a severe intestinal infection. It is possible that the Executive Board believes the Moscow

landlords are gouging the students. Doubtless some of them are. But I know others who have put themselves out in order to help students. President Johnson is concerned to help the poor. Why can't the E. Board and the Argonaut writers involved leave the poor student alone.

Francis Seaman
Chairman of Philosophy.

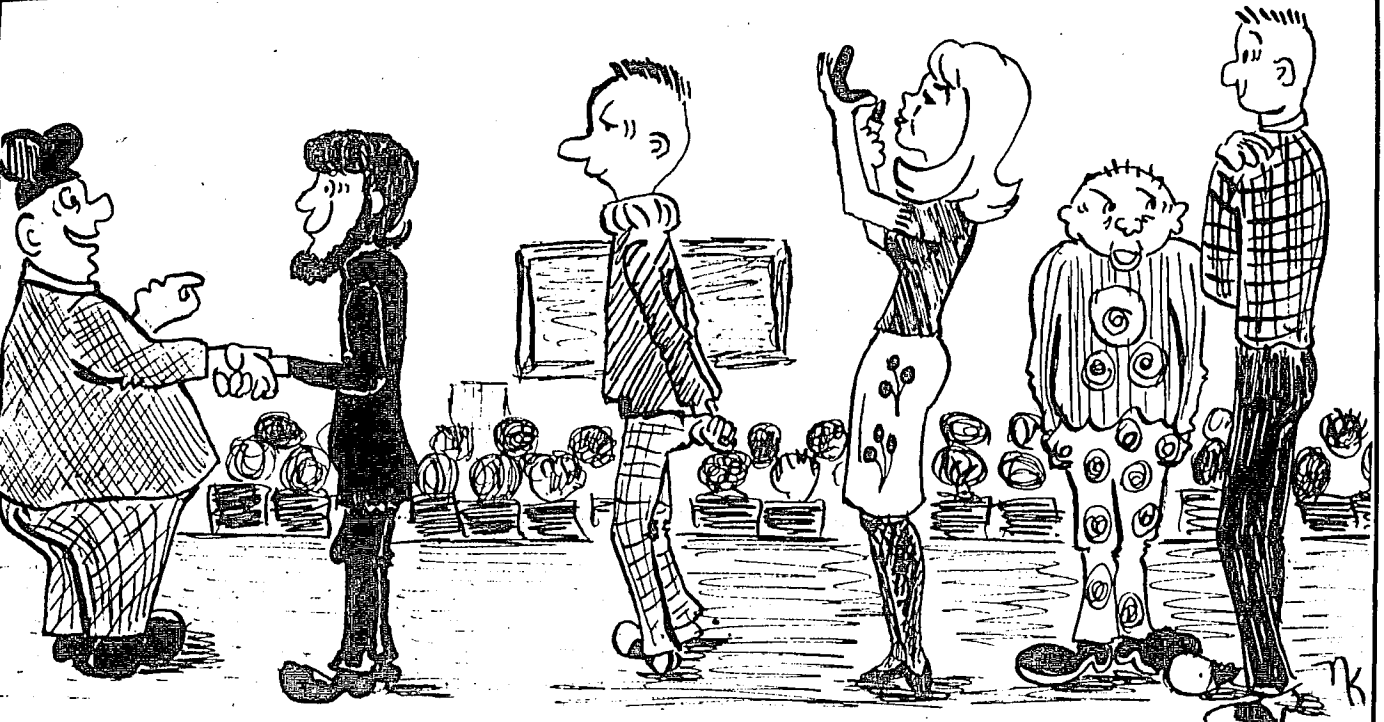

Marine Comments Before Viet Trip

Dear Jason:
It has been a great pleasure to follow the progress of the school year through reading the Argonaut.
It was with a great deal of pride that I see where the ASUI voted an appropriation for the Varsity Rifle Team recently. The birth of the Rifle Team was a dream that has become reality. Now you have made it an even more reality by voting it financial assistance. I sincerely hope this will become an annual thought. I am quite sure that the men and women who shoot on this team will bring great honors to their University. I am looking forward to the news that the Vandal Rifle Team is National Collegiate Champions in years to come.
Both Sides
Also it was with a great deal of pleasure and pride to see considerable news print used to express the views on the Viet Nam War. It was a pleasure to pass the Arg around to fellow

Marines to read the various letters. Especially graduates of certain universities and colleges which I will not name.
The Arg did a wonderful job presenting both sides of the argument. I am preparing for departure at present for Viet Nam myself. Our unit is composed of many young men who are already veterans of the Viet Nam conflict. Many of these men are returning by request.
Not Blood Thirsty
I wish that the thoughts on this question of why they want to return as well as the thoughts of those who are going for the first time could be conveyed to the fine students of the University of Idaho, as well as the other many fine institutions of higher learning throughout our fine land. They are not blood-thirsty. Nor do they seek to become heroes. They are average Americans who see the need for a job to be done and go willingly to do it.
Many of them will not return. I'm proud of the stand that

They are all well aware of this fact. They go because they love freedom enough to lay down their life for it. Not just our freedom, but the freedom of the world. The freedom of those people in Viet Nam who have never tasted freedom as we know it. People who have never had the right to choose. Who have never had the right to stand on street corners and carry signs belittling our government or to hold rallies in protest.
For this they would surely lose their life. And even more important to you, and to those who claim to be Anti-government, a solid insurance policy that this disease that seeks to strike down freedom does not break out in epidemic proportions here in America. They go to defend your right to protest and to speak out if you desire. Are those who burn draft cards and carry signs willing to die for their right to do so?
Proud Of Stand
I'm proud of the stand that

most students took regarding this matter. Although I don't have a degree from Idaho, she is my school because I left part of myself there when I departed last summer. I am also proud of many Vandal Marines that are serving their country in Viet Nam today. They are proud of their school also. Vandalland, where the ring of freedom is heard much louder than the shouts of protest. For you I am prepared to give up my life without feeling it was without purpose.
Sincerely,
GySgt. Bill Chapman,
USMC
Battalion Landing Team
3-5
Camp Pendleton, Calif.
P.S. The Arg really gets a workout here at Pendleton being passed around to our several Vandalers here in sunny California. Best of luck to Mgt. George Moffett and his Vandal Shooters.

"Happiness is a professor who celebrates Walt Disney's birthday"

Editorial: Semester's Events To Feature Personalities, Elections, Spring

Spring semester, 1966, here we come. And so once more we start again. With finals over, registration through and most of the books bought, the semester is underway and with it comes new ideas, new activities, new courses, new books, and hopefully new minds.
There are some new faces on campus this semester and some of the old faces gone. Welcome newcomers and good luck.
The Argonaut has changed staff somewhat, with Leo Jeffres, Phi Delta, taking over as Editor. The rest of the staff has been assigned to new and old jobs and we are ready.
This semester holds a lot of promise as one that will be good. One of the biggest events which was done by the Big Name Entertainment committee is the booking of three big personalities to appear on the Idaho campus this semester. These include the Brothers Four, Bill Cosby, and Glenn Yarborough. Although it is still winter, spring will come and with spring comes good weather, picnics, baseball games and track events and a lot more of being outside.
In March the Campus Chest drive will be held, sponsored by the sophomore class.
Also to be in March are the elections for Executive Board members and student body officers, who will take office at the end of the school year. Campaigning will begin soon!
The Idaho State Legislature is to meet this month and their decisions will make quite a change throughout the state. One of the major decisions to be discussed is the reapportionment of the state. Undoubtedly some of our home counties will be no longer.
With this change will also come the campaigning of national figures for the 1966 elections. Already we have had candidates declaring their candidacy and their feelings on various issues. A big question in this

state is what will happen to the sales tax when the people of Idaho vote on whether or not they wish to keep it.
These events should make a lot of activity for the Young Democrats, and Young Republicans on campus. In fact, this activity has already started with Sen. Len Jordan, Republican, coming to campus Monday to speak at a banquet that night. He is being sponsored by the University of Idaho, Lewis-Clark Normal, and North Idaho Junior College.
Six weeks from now we will be taking (already!) midterms and two weeks from that we will be taking off for spring vacation. For the first time in many years students will not have to travel on Easter Sunday.
Back to college then and more activity. Spring dances, picnics, and spring cruises are on the social calendar. A new Miss University of Idaho will be chosen. Mothers will come to campus for the Mothers' Day weekend and groups are already preparing shows and events to entertain them.
A new addition to the year will be the showing of the Student Union Building films three nights a week instead of two. The film will be shown on Friday, Saturday, and Sunday nights.
The sports spotlight will shift from football and basketball to baseball, track, swimming, and golf.
Scheduled for May is the annual Blood Drive sponsored by the junior class. Living groups will once again see who can give the most blood.
June comes next and with June comes finals again. Afterwards the seniors will don their caps and gowns and go through the graduation line as their final act as undergraduate students at the University of Idaho.
And so ends another full semester at Idaho. It is up to each one of us to make it one we will all remember and one of the very best yet. Let's go!
—M.A.S.

NEWS OF RECORD

POLICE COURT
Struthers, Robert James; 19, Delta Chi, using false identification, posted \$20.
Landmark, James Dean; 19, TKE, Reckless driving, committed in lieu of \$75 bond.
Backstad, Donald Orville; 21, Snow Hall, driving under the influence of alcohol, committed in lieu of \$50 bond.
JUSTICE COURT
Carr, Rickard Norman; 20, SAE, failure to report accident, fined \$20.
Engr. Degrees Increase Noted; Ph. D's Gain 25%
Minneapolis, Minn., — A sharp rise in the percentage of advanced degrees granted in engineering during the past year (ending June 30, 1965) was reported recently by Ralph E. Dunham of the U. S. Office of Education at the National Association of State Universities and Land-Grant Colleges.
The greatest increase was at the Ph. D. level (24.9 percent) with a substantial increase at the master's level (11.6 percent). A smaller increase (4 percent) was reported at the bachelor's level.
Results of the survey conducted by the Office of Education and the American Society of Engineering Education was made to college of engineering administrators.
Still Coming
Although enrollment reports are still coming in from the 260 institutions included in the survey, projections indicate that enrollments at all three levels increased this fall.
Again, the largest increase occurs at the doctoral level (10.5 percent) with the increase in first year enrollment in the Bachelor's program (7 percent) exceeding the increase at the master's level (4 percent). Colleges offering at least four year programs have more than 253 thousand students enrolled in engineering this fall.

Living Groups Continue Elections

House elections and installation of officers highlighted campus activities during the past week. Living groups electing officers include the Delta Sig's, Theta's, SAE's and Theta Chi's. Also, the Sig O's and ADA's held their annual end of semester frolic.

GAMMA PHI BETA
A fireside was held after hours recently for Anna Sundby, foreign exchange student from Norway, who has been living with the Gamma Phi's for the past three semesters. A skit was given for Anna and she was presented with a piece of luggage as a going away gift.

DELTA SIGMA PHI
Delta Sigma Phi has appointed new officers including Bob Winn, pledge master; Kenny Agenbroad, social chairman; Daryl Zumhove, chaplain, and Mike Rowles, rush chairman. Also, Dennis DeFrancisco and Jim Rogers, song-leaders and Tim Long and Ron Cegnar, pledge trainers.

KAPPA ALPHA THETA
Julie Holmes is the newly elected president of Kappa Alpha Theta. Other officers for the coming year include Nadine Wright, vice-president; Carola Doyle, efficiency; Laurette Valentine, treasurer; Judy Rice, rush; Lynn Newbore, scholarship; Cookie Fancher, social; Fran Emery, corresponding secretary; Gimny Radke, recording secretary; Lynn Walker, editor and WRA; and Sue Cairnes, Pan Hellenic.

Also, Andrea Doyle, activities; Kathy McClure, alum relations; Cheryl Stewart, song leader, and Joann Bursch, housework.

ALPHA DELTA ALPHA SIGMA OMEGON BETA
The Alpha Delta Alpha's in conjunction with the Sigma O's held the annual end of semester all campus frolic, Feb. 4. An estimated 100 persons from all parts of the campus and a delegation of four from Oregon State attended and participated in the fun and festivities of the evening.

Old friends became better acquainted and new friends were

made by all. Guests may reclaim personal property by calling any members and identifying lost items.

SIGMA ALPHA EPSILON
Newly elected officers of Sigma Alpha Epsilon are Bill McCann, president; Gary Reber, vice-president; Andy McCluskey, recorder; Jack Varin, chronicle; Dave Severn, warden; Dan McFarland, correspondent; Bruce Swayne, chaplain; Fred Batt, herald, and Phil Peterson, assistant treasurer.

Also, Don Ayers, assistant house manager; Joe McCollum, financial board representative, and Al Elguren, John Whitney, Gary Nyberg and Dennis Wright, executive board members.

THETA CHI
Theta Chi installed Pat Rhodes as president for the coming year during formal chapter Thursday. Other officers include Bob Al-

Prof. To Check Tribal Claims

Dr. Alfred W. Bowers, University professor of anthropology and sociology, has been named by the U. S. Department of Interior, Office of Indian Affairs, as one of five prominent U. S. anthropologists to help the Federal Government substantiate Indian tribal claims to land in the area of the Great Plains and Western Woodlands.

Determination of original inhabitants of the central Great Plains area is being sought by the Federal Government to enable a fair distribution of payment claims for land now being made by various tribes. The 10 days of hearings are scheduled to begin Feb. 24.

"Conflicting claims by different tribes have caused the Department of Interior to call for federal hearings on the demands of the Indians that their ancestors once called a certain area their home," Bowers said.

Bowers is the author of a recent book on the Hidatsa Indian tribe, "Hidatsa Social and Ceremonial Organization," which was published by the Smithsonian Institution. The book was published as a bulletin to help mark the 200th anniversary of the birth of James Smithson, after whom the institution was named. Bowers was one of the official United States representatives at the Convocation address by President Johnson in September.

Vast Knowledge
Because of his wide study and vast knowledge of agricultural Indian groups, Dr. Bowers has been asked by the Commission to report on various aspects of the trader contacts with Indian tribes of the Plains-Woodlands area. His study will deal primarily with the tribes of the Mandan, Hidatsa and Arikara, which were agricultural Indians of the Missouri valley, and the nomadic Chippeways and Sioux.

Many Indian tribes, because of contact with Whites during our Western movement and the early White Fur Trade, became quite nomadic and migrated from one area to another, according to Bowers.

"Through their migrations, areas which once were called their ancestral home may have been occupied by another tribe, and they in turn may claim the same area as their home," stated Bowers.

The team of anthropologists selected by the Department of Interior will submit study findings to the committee which hopefully will determine the rightful claimant.

ANTHROPOLOGIST—Dr. Alfred W. Bowers, prominent anthropologist and professor at the University of Idaho, looks over a map of the area he will be responsible for in providing information about the migration movements of three Missouri valley Indian tribes. He will report his findings to the Indian Claims Commission investigating tribal claims to land areas in the Great Plains and Western Woodlands.

Here's More About Selective Service

were during first semester of 1964-65.

Academic Vice President
H. Walter Steffens stressed that the basis for determining student deferments at the time was normal progress in Idaho.

Negative Affect
Dean Allen S. Janssen of the College of Engineering expressed concern over male students' unrest resulting from draft pressure and said he felt the Selective Service will result in a negative effect on U of I enrollments.

The original testing program adopted during the Korean War used tests similar to the College was used for two or three years and students decided for themselves if they wanted to take the tests.

O'Neill released the grade point divisions used for class ranking the last year the system was used at the U of I in 1960-61. The all men's average that year was 2.39. Last year's was 2.32.

ALL MEN'S AVERAGE

1960-61	2.39
1961-62	2.32
1962-63	2.33
1963-64	2.30
1964-65	2.32

Student: Only Crime Is Loving?

(ACP) — A student at Carleton College, Northfield, Minn., has been placed on social probation for what were termed "defamatory" remarks in a letter to the student newspaper regarding statements by the college president on the college's attitude toward student sexual relations.

Jeffrey Long, religion major from Duluth, was the subject of the disciplinary action, amounting to a warning on future conduct, for a letter in the Carletonian objecting to alleged administrative interference in the private lives of students and concern about student sexual behavior.

Only Crime?
"You do everything in your power to degrade, humiliate, shame and insult people whose Big Crime is simply wanting to make love," he said. He called statements made by President John W. Nason on the subject "some of the most fatuous blather ever to slither from under an administrator's door."

In a second letter, Long claimed students should be able to choose sexual values as they do political and religious beliefs.

Defamatory
The college's Board of Publishers, consisting of four students and four faculty members, called the remarks "defamatory" to the president and demanded that Carletonian editor Peter Iverson write an editorial apology.

Iverson wrote an editorial which was rejected by the Board. The Board then voted on a motion to censure Iverson for his failure to come up with an acceptable apology. The motion failed to pass by a 5-3 vote.

Iverson was warned that publication of similar material would be grounds for censure or dismissal.

Here's More About On Sen. Views

support. This does not mean I approve of the policy that resulted in their being there."

Other Areas
Martin said Sen. Jordan's area of expertise is the conservation and use of Northwest Water.

The Idaho Senator supported the Wild Rivers Bill after it had been amended to protect Idaho's water rights, said Martin.

Four-Year-Terms
Sen. Jordan will support whatever the members of the House of Representatives decide on the proposed four-year terms for House members, said Martin.

"His general feeling on the War on Poverty is that there is a need for helping the less fortunate, but he places more emphasis on education and job training rather than public doles," said Martin.

College Expenses
In the last session of Congress Sen. Jordan helped introduce the Manpower Training Act and supported the proposal which would allow tax deductions for college expenses.

Martin said Sen. Jordan would probably oppose the "reverse income tax" mentioned in the President's State of the Union address. The proposal would guarantee citizens a specific income and reverse funds from the treasury to those who made less than the specified amount.

When questioned about the John Birch Society, Martin answered that Sen. Jordan feels that anyone who wants to work in the Republican party and support its platform should be allowed to unless they become a detriment to the party.

Martin is in charge of Sen. Jordan's staff and represents the Senator when he is not available. He maintains offices both in Boise and Washington, D. C.

NROTC To Begin New Plan

A special two-year contract Naval ROTC program, primarily for students with two years of college remaining, will begin this summer, according to Captain H.E. Davey Jr., professor of Naval Science at the University.

Applications for the program will be accepted after first semester grades are available.

Candidates for the program will attend a six-week summer session July 11 through Aug. 9 at selected regionally located NROTC universities. Idaho students will probably be sent to UCLA. Candidates will receive courses of instruction in Naval Science similar to those required of NROTC students during their freshman and sophomore years.

At Junior Level
Successful completion of the summer session will qualify the candidates for enrollment at the junior level of the contract NROTC program.

Applicants may apply for one of the following options under the two-year program: Surface Line Officer, aviation, Marine Corps, technical supply, or science and engineering.

Requirements
Applicants must have a "C" average; be unmarried, and agree to remain unmarried until commissioned; be at least 18 years of age at enrollment and not have reached his 25th birthday before commissioning.

They must be physically qualified in accordance with the physical standards for Contract NROTC students except that the visual acuity standards have been relaxed in some of the options to 20-200-correctible to 20-20.

Selected candidates for the program will be paid transportation to and from the special summer session. They will also receive pay of \$87.90 a month during the period of training. In addition, the cost of tuition, room, and board will be borne by the Navy.

Captain Davey emphasized that interested sophomore and junior students should apply at the University Navy Building as soon as possible. Applications must be filed by May 1, 1966.

Graduates of this program will be commissioned Ensign, U. S. Naval Reserve or Second Lieutenant, U. S. Marine Corps Reserve and will be obliged to three years of active service.

Fashions That Keep Women In Vogue Today

By VALERIE SOUTH
Argonaut Feature Editor

The uppermost question in every woman's mind is "What shall I wear?" and must be answered with an eye on the latest fashion news of the month. If you're going to appear vogue with the 1966 trends for the winter, amuse yourself with the following hints.

It's the accessories which either make or break a costume. Colored gloves in contrasting shades lend interest to the plain dress, especially when accompanied with a matching bunch of flowers. Sulphur yellow is a forerunner in this group.

Shorter Skirts
The return of shorter skirts appalls the average coed but the girl who wears her school dress fourteen inches from the floor is definitely sure of being dressed correctly.

Instead of reserving your rhinestone clip for evening wear, surprise your classmates in placing one at the neck of your woollen sweater. And speaking of sports wear, invest those extra dollars in a metal flecked sweater.

ROOMMATES: THEIR CAUSE AND CURE

You'd think that with all the progress we have made in the education game, somebody would have found a cure for roommates by now. But no. Roommates remain as big a problem today as they were when Ethan Mather founded the first American college.

(Contrary to popular belief, Harvard was not the first. Mr. Mather started his institution some 100 years earlier. And quite an institution it was, let me tell you! Mr. Mather built schools of liberal arts, fine arts, dentistry and tanning. He built a lacrosse stadium that seated 200,000. Everywhere on campus was emblazoned the stirring Latin motto *CAVE MUSSI*—"Watch out for moose." The student union contained a bowling alley, a weighing machine, and a sixteen-chair barber shop.)

(It was this last feature—the barber shop—that, alas, brought Mr. Mather's college to an early end. The student body, being drawn chiefly from the nearby countryside, was composed almost entirely of Pequot and Iroquois Indians who, alas, had no need of a barber shop. They braided the hair on top of their heads, and as for the hair on their faces, they had none. The barber, Tremblatt Follicle by name, grew so depressed staring day after day at 16 empty chairs that one day his mind gave way. Seizing his vibrator, he ran outside and shook the entire campus till it crumbled to dust. This later became known as Pickett's Charge.)

But I digress. We were exploring ways for you and your roommate to stop hating each other. This is admittedly difficult but not impossible if you will both bend a bit, give a little.

I remember, for example, my own college days (Berlitz '08). My roommate was, I think you will allow, even less agreeable than most. He was a Tibetan named Ringading whose native customs, while indisputably colorful, were not entirely endearing. Mark you, I didn't mind so much the gong he struck on the hour or the string of firecrackers he set off on the half hour. I didn't even mind that he singed chicken feathers every dusk and daybreak. What I did mind was that he singed them in my hat.

To be fair, he was not totally taken with some of my habits either—especially my hobby of collecting water. I had no jars at the time, so I just had to stack the water any-old-where.

Well, sir, things grew steadily cooler between Ringading and me, and they might actually have gotten ugly had we not each happened to receive a package from home one day. Ringading opened his package, paused, smiled shyly at me, and offered me a gift.

"Thank you," I said. "What is it?"

"Yak butter," he said. "You put it in your hair. In Tibetan we call it *grec see kidstuff*."

"Well now, that's mighty friendly," I said and offered him a gift from my package. "Now you must have one of mine."

"Thank you," he said. "What is this called?"

"Personna Stainless Steel Razor Blades," I said.

"I will try one at once," he said. And did.

"Wowdow!" he cried. "Never have I had such a smooth, close, comfortable shave!"

"Ah, but the best is yet!" I cried. "For you will get many, many smooth, close, comfortable shaves from your Personna Blade—each one nearly as smooth, close, and comfortable as the first!"

"Wowdow!" he cried. "Personna Blades come both in Double Edge style and Injector style!"

"Sort of makes a man feel humble," he said.

"Yes," I said.

We were both silent then, not trusting ourselves to speak. Silently we clasped hands, friends at last, and I am proud to say that Ringading and I remain friends to this day. We exchange cards each Christmas and firecrackers each Fourth of July.

MASTER PAINTER—Rhys Court, graduate student in fine art at the University of Idaho, is the creator of works displayed in two one-man exhibitions on campus this month. A large collection of his oil paintings is currently on exhibit in the University Museum, open Wednesdays through Saturdays from 2 to 5 p.m., through March 5. Monday, February 14, additional paintings will be hung in the Student Union Lounge, displayed through February 28. Court was grand prize winner of the recent student art contest. He is shown here with the winning painting, titled "Wheat."

Science Speaker

Topic Is Quantifying Radioactivity

Dale G. Olson, of the Atomic Energy Commission Health and Safety Division in Idaho Falls, will speak to the American Chemical Society Student Chapter, at the University of Idaho, Tuesday in the Physical Science 112 building at 7 p.m.

Olson's subject will be, "New Techniques for Quantifying Radioactivity in Various Sample Types". He will develop his subject on a base which will be comprehensible to the undergraduate, as well as to the graduate student. The material will

also be of interest to chemistry faculty members and to students and staff from other disciplines. He is Chief of the Radiochemical Section, of the Health and Safety Division of the Atomic

Energy Commission in Idaho Falls and has had extensive experience as a radiochemist and section leader of the Radiochemical Special Analysis Section of Phillips Petroleum Company at the National Reactor Testing Station until he transferred to the AEC. Since 1963 he has served in his present position with the Atomic Energy Commission.

Olson pioneered in developing multi-channel analyzer instrumental techniques for analysis of radioactive mixtures of isotopes and has made significant contributions to this work. Presently, he is devising better techniques for measuring radioactivity in the human body.

LIBRARIAN SETS VISIT

Dr. Irving Lieberman, director of the librarianship at the University of Washington, will visit the U of I March 4 to answer questions about library school. Students interested in talking to him should contact Richard Beck, associate librarian at 6534.

NEW TECHNIQUES — New Techniques for Quantifying Radioactivity in Various Sample Types" is the topic discussed by Dale G. Olson at a meeting of the University student chapter of the American Chemical Society Tuesday at 7 p.m. Olson is from the Idaho Falls Atomic Energy Commission Health and Safety Division.

Military Queen Finalists Chosen

Military Ball finalists, chosen yesterday from the three ROTC components, include three Angel Flight members, the Navy Color Girl and a single representative from the Army sponsors.

Angel Flight members include Nancy Andrus, Gamma Phi, Peggy Reed, D.G., and Carolyn Larson, French.

Carol Anderson, Pi Phi, was the single Army Sponsor and the only Navy representative was Navy Color Girl Andy Kanta, Alpha Phi.

The Air Force ROTC is in charge of the Military Ball, scheduled Feb. 19 in the SUB Ballroom at 9 p.m. The 13th District Naval Band from Seattle will play.

Members of the three services are invited to attend and witness the coronation of the Military Ball Queen for 1965-66. Last year's Military Ball Queen was Tena Gresky, D.G.

Classroom Trick Used To Expose Student Cheaters

(ACP)—Should cheaters be exposed and expelled?

An education professor at North Texas State University, Denton recently accused one of his students of cheating, reports the Campus Chat.

John M. Jones told his class he had evidence that one of them had cheated on a test. "I have quite a bit of experience with this sort of thing and after several years have come to the conclusion that it is best for all concerned if the teacher exposes the cheater before his classmates," he said.

"It's a terrible thing to do," he continued, "but it makes the person involved think twice before doing such a thing again and should illustrate to the rest of the class the futility of trying to get away with cheating."

Looking directly at a coed in the front row, he accused her and asked, "Well, what do you have to say for yourself?"

"Mr. Jones . . . I didn't do it," the coed replied excitedly. "How can you accuse me of such a thing?"

Leave Room
The professor insisted that she leave the room, report to the registrar's office, and drop the course. He opened the door and said "good riddance" to her as she hurried out.

Returning to the class, he asked if he had done the wrong thing. Every hand was raised. Then he

went outside and brought the accused student in.
He told the students they had just witnessed an incident prepared to illustrate how a class can be made to feel shock, surprise, embarrassment, and astonishment.
The students were asked to write a paragraph on their reactions. In the paragraphs they wrote, most students said they felt the method was cruel and rude. They also agreed that open exposure would eliminate or reduce cheating.

FROSH WEEK INTERVIEWS
Frosh Week committee chairman interviews are scheduled Tuesday at 7 p.m. in the Sawtooth room of the Student Union Building. Thirteen positions are open.

Senior Job Interviews

FRIDAY, FEB. 11

PHILLIPS PETROLEUM COMPANY. (Atomic Energy Division—Idaho Falls, Idaho) Will interview candidates with degrees in Chemical, Electrical, and Mechanical Engineering; degrees in Chemistry, Mathematics, and Physics. U.S. Citizen. Interview at Placement Office.

FMC CORPORATION. Will interview candidates with degrees in Agricultural, Electrical, Mechanical, and Chemical Engineering. U.S. Citizen. Interview at Engineering Building.

HOWARD, NEEDLES, TAMMEN & BERGENDOFF. Will interview candidates with degrees in Civil Engineering. Interview at Engineering Building.

GENERAL FOODS CORPORATION. Will interview candidates with BS and MS degrees in Agricultural, Chemical, and Mechanical Engineering. Will interview candidates for openings in Production and Engineering. U.S. Citizen. Interview at Engineering Building.

ST. REGIS PAPER COMPANY. Will interview candidates with BS degrees in Accounting and Marketing; BS and MS degrees in Forestry, Chemical Engineering, Mechanical Engineering, and Chemistry. U.S. Citizen. Interview at Placement Office.

PUGET SOUND NAVAL SHIPYARD. Will interview candidates with BS and MS degrees in Mechanical, Civil, and Electrical Engineering. U.S. Citizen. Interview at Engineering Building.

NORTHWEST PAPER COMPANY & POTLATCH FOREST, INC. Will interview candidates with BS and MS degrees in Chemical and Mechanical Engineering. Will interview Juniors in Chemical Engineering for summer employment. U. S. Citizen. Interview at Engineering Building.

MONDAY, FEB. 14

SAN FRANCISCO BAY NAVAL SHIPYARD. Will interview candidates with degrees in Civil, Mechanical, Electrical, Metallurgical, and Chemical Engineering and Chemistry. U.S. Citizen. Interview at Engineering Building.

BOISE CASCADE. Will interview candidates with BA and BS degrees in Accounting, Liberal Arts, Civil Engineering, Chemical Engineering, Mechanical Engineering, and Electrical Engineering. U.S. Citizen. Interview at Placement Office.

U.S. NAVAL MISSILE CENTER & U.S. NAVAL SHIP MISSILE SYSTEMS ENGINEERING STATION. Will interview candidates with BS and MS degrees in Electrical Engineering, Mechanical Engineering, and Physics. U.S. Citizen. Interview at Engineering Building.

IDAHO FIRST NATIONAL BANK. Will interview candidates with degrees in Finance, Accounting, Marketing, Agricultural Economics, General Business and Liberal Arts with course work in Accounting and Economics. Interview at Placement Office.

PACIFIC GAS AND ELECTRIC COMPANY. Will interview candidates with BS and MS degrees in Electrical, Mechanical, and Civil Engineering. Will interview Juniors in Electrical, Mechanical, and Civil Engineering for summer employment. Permanent Visa required. Interview at Engineering Building. (Monday & Tuesday).

TUESDAY, FEB. 15

E. I. DUPONT DE NEMOURS & COMPANY. Will interview candidates with BS, MS, and Ph.D. degrees in Chemical, Civil (construction), Electrical, and Mechanical Engineering and in Chemistry. Will interview Juniors in Chemistry, Mechanical Engineering, and Chemical Engineering for summer employment. Permanent Visa required. Interview at Engineering Building.

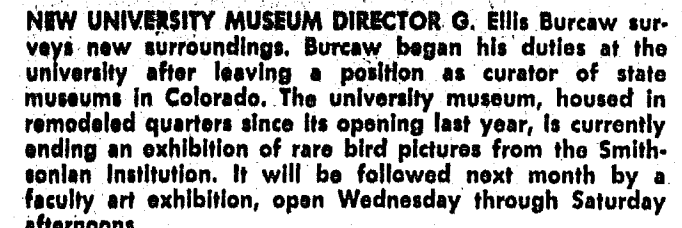

KENNEWICK, WASHINGTON PUBLIC SCHOOLS. Will interview teachers for elementary and secondary positions. Interview at Placement Office.

U.S. NAVAL ORDNANCE TEST STATION. (Pasadena, California) Will interview candidates with BS, MS, and Ph.D. degrees in Electrical Engineering, Mechanical Engineering, Physics, and Mathematics. U.S. Citizen. Interview at Engineering Building.

PETER KIEWIT SONS' COMPANY. Will interview candidates in Civil and Mechanical Engineering. Will interview Juniors in Civil and Mechanical Engineering for summer employment. Interview at Engineering Building.

STANDARD OIL COMPANY OF CALIFORNIA. Will interview candidates with BS and MS degrees in Accounting or Business with Accounting interest. U.S. Citizen. Interview at Placement Office.

LOMPOC, CALIFORNIA PUBLIC SCHOOLS. Will interview teachers for elementary and secondary positions. No openings for Social Science, Music, and Boys' Physical Education. Interview at Placement Office. (Tuesday & Wednesday).

New Museum Director Has Vivid Pedigree

G. Ellis Burcaw, a man who has dug for remains of an ancient city in a desert of Arabia and for voices of the Neanderthal man in a cave of France, today became the first director of the U of I museum.

The museum was opened in 1965 in remodeled quarters that had served for more than a half-century as the Geology building. While awaiting the appointment of a director, members of the Faculty Museum committee have been supervising activities.

Burcaw began serving as director of the museum at a time

when it is featuring an exhibit of rare bird pictures from Malaysia, India and New Guinea. He has sought relics of the Mayan culture in southern Mexico besides exploring in Arabia and France. The Arabian expedition was in quest of the stone city of Timna, capital of the ancient kingdom of Qataban on the spice-trading route. A native of Houston, Tex., Burcaw was graduated from Maryville college in Tennessee, and did graduate studies in anthropology. He was trained in museum work at the Chicago Natural History museum, at the University of Chicago and University of Arizona.

March 25 Is Date Of Blue Key Show

The annual Blue Key Talent Show has been scheduled this year for Friday, March 25.

Talent divisions in the show are single act, group act and living group act. Any Idaho student or living group is eligible to participate.

Auditions for the show will be held in Memorial Gymnasium in early March, according to Gary Mahn, Sigma Nu, Blue Key talent chairman.

Mahn said that he hoped all persons of the student body who have capabilities in the field of entertainment will participate in the try-outs in order that the show may be a true measure of the school's talent.

School Music Conference To Start With Choral Students Arrival Today

The annual School Music Conference sponsored by the University Department of Music will get under way today with the arrival at the Music Building of 250 high school choral music students from Northern Idaho.

"The Conference, of which District II of the Idaho Music Educators Association is co-sponsor, will attract students to both mixed chorus and girls' chorus," announced Jack Gregory, director of music in the Lapwai Public Schools. Gregory said that District I is also a

participant on an invitational basis, and students from both Districts will be participating. Mixed Chorus

The mixed chorus will rehearse Friday and Saturday under the direction of Professor Glen R. Lockery, director of the Vandaleers. The girls chorus will be directed by Professor Norman R. Logan, professor of music.

An informal concert, open to the public, will be given at 2 p.m. Saturday at the Music Building Recital Hall. An added special feature of the concert

will be the appearance of the University Woodwind Quintet, a new group this year made up of music faculty members and students. As a special interest feature on the program, which otherwise will be choral in nature, the Quintet will perform a group in the middle of the program.

Educational objectives of the conference include demonstrations of vocal-choral techniques for high school groups, as evidenced in the conducting and organizational work of Lockery and Logan, with the assistance of the music directors from the various high schools participating. The Conference will end at the conclusion of the Saturday afternoon sessions.

ALAS POOR YORICK HE COULD HAVE MADE IT WITH CLIFF'S NOTES

HAMLET isn't hard when you let Cliff's Notes be your guide. Cliff's Notes expertly summarize and explain the plot and characters of more than 125 major plays and novels — including Shakespeare's works. Improve your understanding — and your grades. Call on Cliff's Notes for help in any literature course.

125 Titles in all — among them these favorites:
Hamlet • Macbeth • Scarlet Letter • Tale of Two Cities • Moby Dick • Return of the Native • The Odyssey • Julius Caesar • Crime and Punishment • The Iliad • Great Expectations • Huckleberry Finn • King Henry IV Part I • Wuthering Heights • King Lear • Pride and Prejudice • Lord Jim • Othello • Gulliver's Travels • Lord of the Flies

'Andorra' Tryouts Set Monday, Tuesday

Tryouts for "Andorra" by Max Frisch will be Monday and Tuesday at 7 p.m. in the Ad Auditorium.

All regularly enrolled students are eligible to try out and those wishing to work on crew should also come to the tryouts, according to Julie Martineau, Houston.

Toronado will get you if you don't watch out!

Don't look now. But a keen machine called Toronado has designs on you. Out to get you with front wheel drive that puts the traction where the action is! Extra stretch-out room for six. (Flat floors, you know.) Full-view side windows. Draft-free ventilation. Front and rear seat belts, back-ups and a raft of other standard safety etceteras. Like we say, Toronado has designs on you. Or is it the other way around! LOOK TO OLDS FOR THE NEW!

STEP OUT FRONT IN '66 ... in a Rocket Action Car!

Thirteen Seniors Are Commissioned

Thirteen University graduating seniors were commissioned second lieutenants in three military branches after completing four years of reserve officers' training. Captain Harry E. Davey, Jr., commanding officer of the University of Idaho Naval ROTC unit, administered the oath of office at a commissioning ceremony in the University Student Union.

Those commissioned second lieutenants in the U. S. Army Reserve include: LeRoy R. Brown, Charles J. Hurst, III, Dennis L. Kriegel, and Vernon R. Leyde, all off campus. They will report to military schools this spring for basic training. Roy B. Bentson, SAE, was commissioned a second lieutenant in the U. S. Marine Corps. He will go to Quantico, Va.

Those commissioned in the U. S. Air Force Reserve as second lieutenants include: OROFINO: Dale W. Bening, and William M. Burke, both off campus; PAUL: Stelvin L. Downs, Delta Sig; Carl P. Johannesen, Kenneth J. Knoblock, John C. Osgood, Donald R. Simonson; Las Cruces, all off campus, and Dennis J. Thomas, Campus Club.

Capacity Crowd Sees U-I Opera

A nearly full house viewed the Community Concert presentation of the Goldovsky Opera production of Puccini's "La Boheme," Tuesday night at the Memorial Gym. The fully-staged opera was under the direction of Boris Goldovsky and featured a large cast and full orchestra. The company is making its thirteenth national tour.

The opera sung in English, told the story of Mimì, her lover, Rodolfo, a poet, vicarious Musetta and Marcello, a painter. The setting was the Bohemian section of Paris. The audience warmed to the lyrical singing of the Puccini arias and the emotional intensity of the tragic plot.

Students of the University, cooperating with the Community Concert Association in the presentation, were admitted on student activity cards, as were persons belonging to the Pullman Community Concert Association.

Beer Ass'n Awards Senior Scholarships

Two seniors in the College of Agriculture at the University have been awarded the Idaho Beer Distributors Association, Inc., scholarships for 1965-66. The two \$250 cash awards were presented to Virgil John Stevens and Haven B. Hendricks, both FarmHouse according to an announcement today by Dr. Don A. Marshall, associate dean of agriculture.

Stevens, an agricultural education major, has earned a grade point average of 3.23 (4.0 is A) for his first three years at the university. The son of Mr. and Mrs. M. M. Stevens of Julietta, he is active in Alpha Zeta honorary, Ag Council, Dairy Club and Collegiate FFA, and is a member of the dairy judging team.

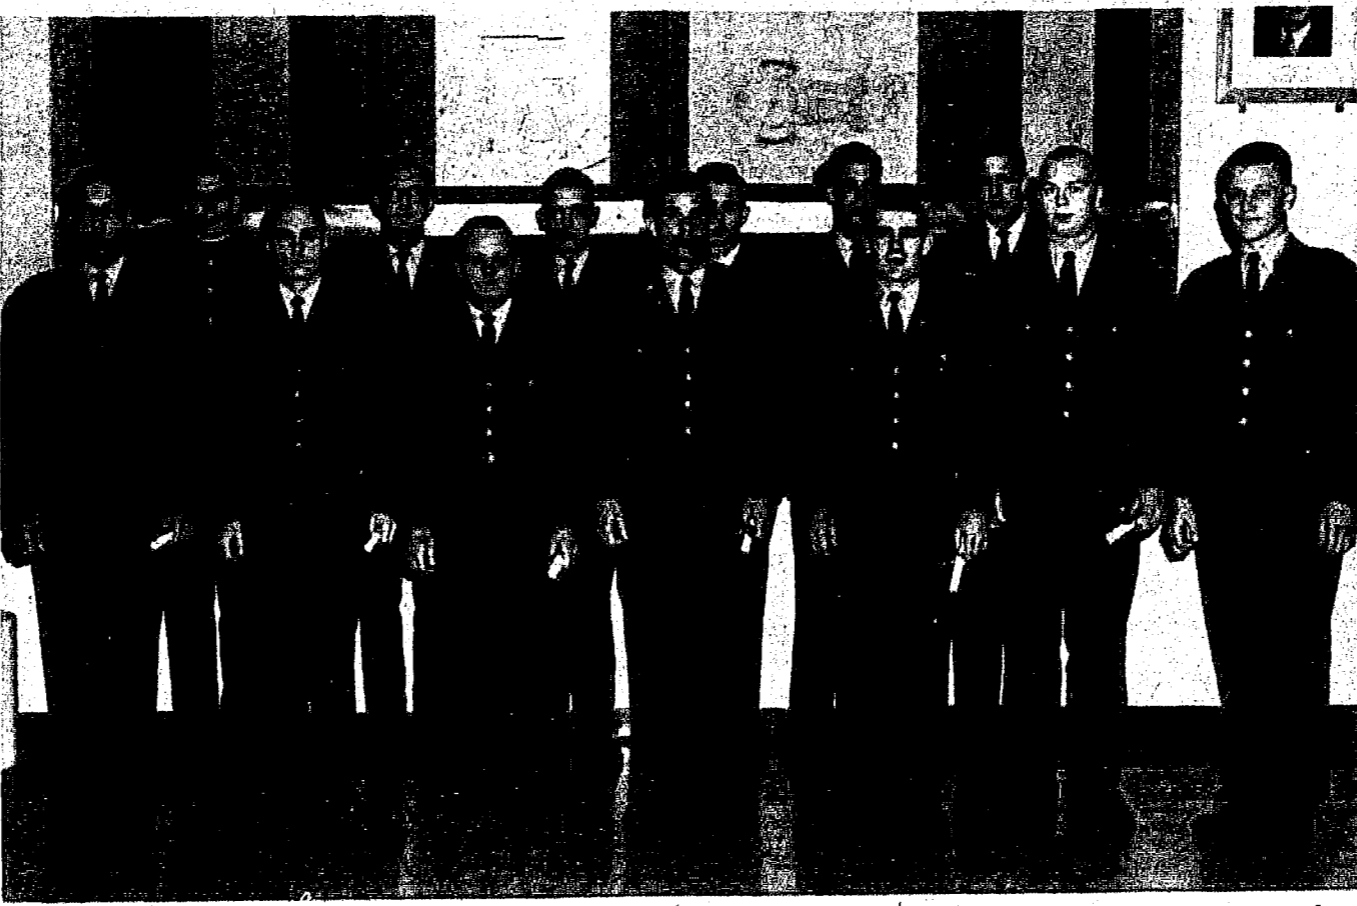

The Idaho Beer Distributors Association established the two scholarships in 1962 for deserving students in the College of Agriculture, Dean Marshall noted. Selection is based on academic accomplishments of the students and on financial need.

Alpha Kappa Psi Sets Initiation Sunday

Alpha Kappa Psi, business honorary, will hold initiation Sunday at 3 p.m. in the Appaloosa Room at the SUB. A banquet will follow at 4:30 p.m.

There are now about 30 members in the honorary and 12 initiates, according to Phil Peterson, SAE.

Argonaut Classifieds Sell

THIRTEEN graduating seniors at the University of Idaho stand at attention in the University of Idaho Student Union after receiving commissions in three branches of the service. Captain Harry E. Davey, Jr., commanding officer of the Naval ROTC unit, administered the oath of office. From the left in the back row are: Roy B. Bentson, Sidney, Mont., commissioned second lieutenant in the U. S. Marine Corps; Carl P. Johannesen, Emmett, Donald R. Simonson, Las Cruces, N.M.; John C. Osgood, Boise; Kenneth J. Knoblock, Parma; Dennis J. Thomas, Council; Dale W. Bening, Orofino (front row from the left); William M. Burke, Bend, Ore., and Stelvin L. Downs, Paul, all commissioned second lieutenants in the U. S. Air Force Reserve; Charles J. Hurst, III, West Covina, Calif.; Dennis L. Kriegel, Milwaukie, Ore.; Vernon R. Leyde, Spokane, Wash., and Leroy R. Brown, Caldwell, all commissioned second lieutenants in the U.S. Army Reserve.

Idaho's MUN Delegation Aims To Gain Influence

Idaho's delegation to the Model United Nations will be more influential than the country Idaho is representing would indicate. Dr. Bernard Borning, MUN advisor, said.

The country that Idaho represents, Paraguay, will have more influence at the MUN session than the real delegation to the UN has at the UN, he said.

"Much more important than the particular country is how on the ball a delegation is, how well it presents its arguments, and how much knowledge the delegation shows," Dr. Borning said.

This year the Idaho delegation will have a greater opportunity to exert influence than last year because Paraguay is a member of the MUN Security Council, he said.

Studies Country The MUN, Dr. Borning, said, studies a particular country each year and the United Nations. "MUN takes a sharp look at international relations through their relation to the United Nations," Dr. Borning said.

"Which suggests MUN's purpose: to enable students in various fields, whether letters and science, business, and so on, to do some studying in world affairs and the part a country plays through the UN.

"Certainly a subsidiary purpose is to give students training in working in an organization." The MUN replaced the International Clubs on the Idaho campus and on many other Western campuses.

Conference On April 27 to 30 delegations from over 100 Western Colleges and universities will gather at Stanford University to hold a mock session of the UN, he said.

Among this region schools participating, Dr. Borning said, will be Washington State University, representing Greece, Whitworth, representing Guatemala, Boise College, representing Israel, and the College of Idaho, representing the Ivory Coast.

The Idaho delegation is studying Paraguay in order to accurately represent its position accurately.

Position Dr. Borning said that Paraguay's position is governed by these facts:

- 1. It is a Latin American country and has similar interests with other Latin American countries.
2. It is underdeveloped.
3. It is very small and militarily weak, which means it is inclined to be interested in reducing world tensions.
4. Being a Latin American country it feels itself under the protection of the United States with both good and bad reactions.
5. Paraguay is hardly a democracy; it is pretty much a military dictatorship.

Given these conditions, Dr. Borning said the Idaho delegation intends to introduce resolutions calling for a solution to the Kashmir Crisis and the Cyprus situation.

Since Paraguay is a landlocked nation, the Idaho delegation intends to introduce a resolution calling for the internationalization of certain waters and access to the sea for landlocked nations.

MUN Members Chairman of Idaho's MUN, Pat Morris, French, and vice chairman Judy Rice, Theta, will lead the delegation at San Francisco. Members of the Committee are: Glen Schorzman, Delta Chi, Larry Seale, off campus, Sandi Hutt, DG, Kirk Schmulz, Sigma Nu, Dennis Wiese, Borah, Robert Wise, SAE, Charles Yoder, Lindley, Hazel Perks, Hays, and Ron Yankey, McConnell. Others are Mike Bradley, Fiji, Pat Pullen, Alpha Gam, Larry Frazier, John Konen, Jim Gilman, off campus, Pat Duecy, Lambda Chi, Orval Nutting, TKE, and John Neale, Beta.

Grad Named To U.S. Post

Research Chief Dr. George M. Jemison, a 1931 graduate of the University in forestry, has been appointed Forest Service Deputy Chief in charge of research. Secretary of Agriculture Orville L. Freeman announced recently.

A native of Spokane, Dr. Jemison was first employed by the Forest Service in 1931 as a Junior forester in forest fire research at Priest River. In 1937 he transferred to the Southeastern Forest Experiment Station at Asheville, N. C., where he was in charge of forest management research.

Responsibilities In his new assignment, Dr. Jemison will be responsible for all Forest Service research activities. As associate deputy chief for the past nine years, he helped plan, direct and coordinate all Forest Service research programs and activities.

Dr. Jemison received his master's degree from Yale in 1936 and was awarded his doctorate in plant physiology from Duke University in 1942. He is a Fellow of the Society of American Foresters and is serving his third term as a council member of that organization.

Plant Bids Opened Three bids on the cost of revising the University Dairy Science refrigeration plant were opened and will be submitted for Regents' consideration, said Financial Vice President Kenneth A. Dick.

Brown-Johnston Co., Spokane, was the apparent low bidder with a base bid of \$10,427. Krueger Sheet Metal Co., Spokane, bid \$13,337.86, and Lewiston Refrigeration Sales, Lewiston, bid \$13,834.

Chest Interviews Slated Monday Campus Chest committee interviews will be held in the Pend Oreille room of the SUB, Monday, Feb. 14 from 6 to 10 p.m., according to Terry Gough, campus club president of the sophomore class.

The committees include publicity, uggle man, house auction, car smash, charleston, dance, funds and collections, and light, sound and clean-up.

Campus Chest Week, March 7-12, is a money raising project sponsored by the sophomore class each year. The money goes to charitable organizations.

Among the events that occur during the week are a house auction, in which each living group raffles itself off for an exchange; and a car smash. In this event, an old car is set out and each person can try his luck hitting it with a sledge hammer for 25 cents a smash.

An Ugly Man candidate is chosen from each men's living group and the winner is elected at the dance, held Mar. 12. As an added attraction at the dance, the freshman girls will do a charleston at intermission.

School Administrators Eligible For TV Training Public school faculty and administrators from 10 northern Idaho counties are eligible to become specialists in instructional television by enrolling in a special institute offered at the University of Idaho this summer.

The NDEA Institute for advanced study in educational media-instructional television will be offered at the university June 20 to July 29. Supported by a National Defense Education Act grant, it is provided in cooperation with the U. S. Office of Education.

Eligible to apply are public school personnel within the transmission range of KUID-TV, the university's educational television station.

According to Professor Gordon A. Law, acting head of communications and director of the institute, transmission range includes the counties of Benewah, Bonner, Boundary, Clearwater, Idaho, Kootenai, Latah, Lewis, Nez Perce, and Shoshone.

CORRECTION The Inland Empire debate tournament was held Jan. 14 and 15, not Tuesday and Wednesday as printed in the last edition of Argonaut.

At the bottom, it says 'A First National Bank Representative will be on campus at the University of Idaho on Wednesday, February 16, 1966. Ask Mr. Sidney Miller for an appointment.'

Banashek Serving In Nepal With Peace Corps

PEACE CORPS—James Winterstein, Tonasket, Washington, has named a Peace Corps Volunteer, having completed 13 weeks training at the University of Missouri at Columbia. His group will join the 10,000 other Peace Corps Volunteers now working in 46 nations of Asia, Africa, and Latin America.

Bob Banashek, former Idaho student columnist for the Argonaut, was recently named as a member of the Peace Corps and is now serving in Nepal. Banashek, past president of Lindley Hall, wrote the weekly column last year for the Argonaut, entitled, "Esos Fables."
Banashek completed 10 weeks of training at the University of Washington, after which he went to Hawaii for further training; then on to Nepal, where he and 150 others will work in agriculture, education, and community development.
During training, his group studied the Nepali language, the history and culture of the country, U. S. history and world affairs. They also had special training in teaching math, science, English and forestry.
Banashek's group now joins the 10,000 other Peace Corps volunteers working in 46 nations of Africa, Asia and Latin America.

TO NEPAL—Robert Banashek, former U of I student, has been named a Peace Corps Volunteer, having completed 10 weeks of training at the University of Washington. Banashek, who was president of Lindley and writer of the "Esos Fables" column in the Argonaut, left for Nepal February 1.

Woodwind Quintet Featured Tuesday

Quintet will be featured in a unique pastorella quality. The finale of Anton Reicha's "Quintet No. 2, Op. 88" will close the first half of the concert. The trio will conclude the program.
The concert is open to the public without charge.

Music faculty members Warren Bellis, oboe; Martin Pachey, clarinet, and Ronald Wise, French horn, will be joined by graduate flutist Patricia Merrill, off campus, and bassoonist John Lind, off campus, to form the quintet.

Also included on the program is a trio for violin, French horn and piano, composed of music faculty LeRoy Bauer, violin; Ronald Wise, horn, and David Tylor, piano. They will perform Johannes Brahms' "Trio for Piano, Violin and Horn, Op. 40."

The quintet will open the concert with a performance of Haydn's "Divertimento," a classical style work for wind instruments. It will be followed by a contemporary quintet by the Scandinavian composer Carl Nielsen, a composition characterized by a mixture of 19th Century lyricism and 20th century harmonic treatment forming

'Bookmark' Lists State Stats, Etc.

Idaho leads the nation in silver and potato production and ranks second with sugar beets. Deaths from motor vehicle accidents decreased in Idaho during the past decade while the national percentage increased.

These varied facts, suspected by many, were gleaned from the 1965 edition of the Statistical Abstract of the United States and published today in the U of I Library quarterly publication, "The Bookmark."

Panorama
"A panorama of progress in America and in Idaho State is unfolded in the . . . Statistical Abstract . . ." write the editors of The Bookmark. "The nation's and the State's steady march into the age of technology and expansion is chronicled in detail in this book."

In 1964 there were twice as many people in the United States than there were in 1910, and Idaho State's population more than doubled from 326,000 to 692,000 during the same period. Life expectancy nationwide is up from 51.1 years in 1910 to 69.9 years in 1963.

Other Statistics
Other statistics recorded in the December issue of The Bookmark include Idaho's production of potatoes in 1964 — 41.6 million cwt. Maine, second-ranking potato producing state, put out only 39.9 million cwt.

Motor-vehicle accident deaths decreased by 16.5 percent from 1950 to 1963 while the national trend was up 25 percent.

In 1960, there were 102.9 men to every 100 women in Idaho. Per capita personal income in Idaho increases 313 percent from 1940 to 1963 and 50 percent from 1950 to 1963. But Idaho ranks 39th in personal income among the 50 states.

Manufacturing
Idaho's manufacturing value rose 94.4 percent from \$179 million in 1954 to \$348 million in 1963. Principal crops in Idaho in order of value in 1964 include potatoes (first in the nation in production), hay (15th in the nation), wheat (11th in the nation), and sugar beets (second in the nation).

We've Got The Weekend

By JULIE ANDERSON
Argonaut Social Editor

And suddenly it is Friday and you've got a glorious weekend ahead of you. What to do? Plenty!

The Idaho and WSU sophomores plan their annual Border Stomp tonight. Music will be furnished by the "Take Five" from WSU, who will play at the SUB ballroom. The "Alpacas" from Idaho will play at Butch's Den on the WSU campus. Dancing begins at 9 p.m.

Supreme Court Justice William O. Douglas will speak at 3 p.m. today at the Wilson Compton Union Building at WSU. His talk is sponsored by the ASWSU political union.

Senator Len B. Jordan, R-Idaho, will speak at a dinner sponsored by the Young Republicans at 7:00 p.m. Monday night at the Student Union Ballroom. Jordan plans to speak on the draft, Viet Nam and other national issues. Tickets are \$1.50 for students and \$3.00 for adults.

Skiing this weekend should be excellent following the snow and cold weather of the past few days. The only danger would be in freezing to death while riding the lift to the top of a run.

The SUB film this week is "Dr. Strangelove, or How I Stopped Worrying and Learned to Love the Bomb." This satirical comedy starring Peter Sellers, will run three nights. Showings on Friday will be at 7 p.m. and 9 p.m., on Saturday at 7 p.m. and on Sunday at 7 p.m.

The SUB Blue Bucket will feature a pancake supper Sunday from 5 to 7 p.m.

Edward Albee's controversial play, "Who's Afraid of Virginia Woolf?" is being presented at 8 p.m. at Bryan Hall Arena Theatre tonight and tomorrow night. Starting Monday it will run through next Saturday. The Pulitzer Prize winning play is sponsored by the Pullman community players and is for adults only.

Movies to see this weekend include "The Loved One" at the Kenworthy; "The Nanny," starring Bette Davis, at the Nuart; "Do Not Disturb," at the Cordova at Pullman, and "The Spy That Came in From the Cold," starring Richard Burton, at the Audian at Pullman.

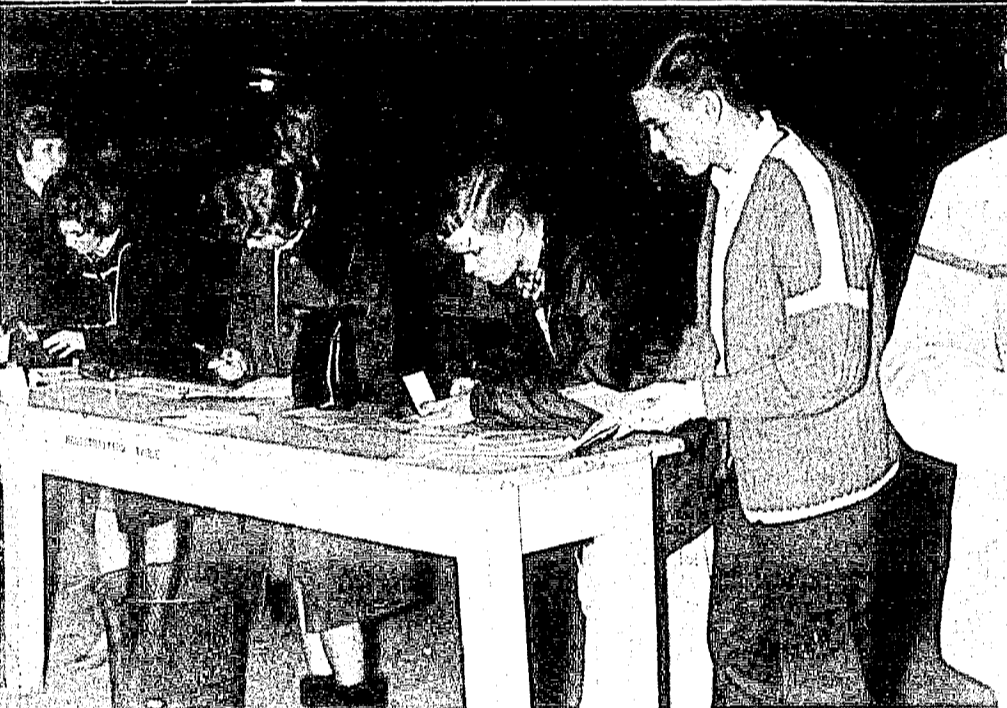

Saturday at 2 p.m. at the University Music Recital Hall, 260 choral high school music students will present a program open to the public. The concert follows a two-day seminar.

Or you could study this weekend.

The Civil Service Test for employment in Federal government positions was administered in the Administration Building last Saturday.

The general aptitude and achievement test was taken by 127 students.

The local post office was in charge of the administration of the test.

OUCH—This probably is the feeling of most students as they write out their checks for second semester tuition. Registration which was held Monday and Tuesday totaled 5,650 students at the end of the two days with additional late registration figures not yet counted. And so more money out of the pocket and a new semester begins. (photo by Campbell)

Frosh Bible

The University handbook used to be known as the "Frosh Bible."

Watch Joe Vandal Bargains

Students Serve On 'Mademoiselle'

Nine Idaho students have been chosen to serve on the Mademoiselle magazine's College Board.

They are Helen Black, Alpha Gamma; Jane Derr, Campbell; Barbara Doll, Kappa; Maxine Frei, Forney; Margaret Gamble, DG; Loretta Homsey, Campbell, Ann McClintick, Tri Delta; Peggy Price, Shoup; and Sharon Swenson, DG; will report regularly to Mademoiselle magazine on campus events, write research articles, and help Mademoiselle fashion editors select models for college fashion features.

NEW OFFICERS
New officers of the India Students Association elected recently include: Krishan Gupta, off campus, president; Pradeep Sonawala, off campus, vice president; Vernon Curtis, off campus, secretary; Ashwin Patel, off campus, treasurer. President Ernest Hartung spoke to the group Jan. 23.

Tom Thomsen wanted challenging work

He found it at Western Electric

T. R. Thomsen, B.S.M.E., University of Nebraska, '58, came to Western Electric for several reasons. Important to him was the fact that our young engineers play vital roles right from the start, working on exciting engineering projects in communications including: electronic switching, thin film circuitry, microwave systems and optical masers.
Western Electric's wide variety of challenging assignments appealed to Tom, as did the idea of advanced study through full-time graduate engineering training, numerous management courses and a company-paid Tuition Refund Plan.
Tom knows, too, that we'll need thousands of experienced engineers for supervisory positions within the next few years. And he's getting the solid experience necessary to qualify. Right now, Tom is developing new and improved inspection and process control techniques to reduce manufacturing costs of telephone switching equipment. Tom is sure that Western Electric is the right place for him. What about you?
If you set the highest standards for yourself, enjoy a challenge, and have the qualifications we're looking for — we want to talk to you! Opportunities for fast-moving careers exist now for electrical, mechanical and industrial engineers, and also for physical science, liberal arts and business majors. For more detailed information, get your copy of the Western Electric Career Opportunities booklet from your Placement Officer. And be sure to arrange for an interview when the Bell System recruiting team visits your campus.

"Irregular Verb To Love" Is Scheduled on KUID-TV

Northwest television audiences will get a taste of Broadway when production "The Irregular Verb To Love" will be shown on KUID-TV, at 6:30 p.m. on channel 12.

FUNNY AND LOVABLE—Cyril Ritchard plays the part of Felix Rankin, funny and lovable zoo-curator in National Education Television's presentation of "The Irregular Verb to Love" Friday at 6:30 p.m. on University Channel 12, KUID-TV.

U-I Tea Honors Freshman Women

The annual Alpha Lambda Delta tea honoring freshmen women who had attained a 3.0 or better average at nine weeks was held Jan. 16, in the SUB. Mrs. Lalla Boone, an English instructor at the University, spoke to the group on the setting of goals. Marjorie Neely, dean of women, Mrs. Ruth Anderson, advisor, and Joan Eismann, Delta Gamma, Alpha Lambda Delta president, served punch, coffee, and cookies. Over 100 faculty members, Alpha Lambda Delta members and freshmen women attended.

Cornelia Otis Skinner and Cyril Ritchard head the cast. The comedy concerns a family and the situations in which the wife and mother, Hedda Rankin, played by Miss Skinner, finds its members when she returns home from prison. The mother had been serving a sentence for setting off bombs in fur shops in protest against trapping animals.

Miss Skinner is noted for her starring roles in "Candida," "Major Barbara," and "The Pleasure of His Company" as well as for her books—"Our Hearts Were Young and Gay," "Nuts in May," and "The Ape in Me."

Cyril Ritchard, a lively stage and television comedian on either sides of the Atlantic, plays Miss Skinner's zoo-curator husband, Felix.

This production is another feature of N. E. T.'s acclaimed "Festival of Arts." It was written by Hugh and Margaret Williams, and was produced by Majestic Productions. Cyril Ritchard directed the original stage version.

Helldivers To Hold Tryouts Thursday

Helldivers, the University's swimming honorary, will hold tryouts Thursday at 6:45 p.m. in the pool at University gymnasium.

A practice session will be held at the pool at 6:45 p.m. Tuesday. Strokes and stunts will be demonstrated.

Students trying out must furnish their own suits, towels and caps.

IRREGULAR VERB—Cornelia Otis Skinner, actress and author, stars in "The Irregular Verb to Love," a Broadway stage hit which will be shown on KUID-TV Friday night. Miss Skinner is noted for her starring roles in "Candida," and "The Pleasure of His Company" as well as for her books including "Our Hearts Were Young and Gay."

Foresters Set Meeting Topic

Nez Perce National Historical Park will be the topic at the Associated Foresters meeting, Feb. 14, at 7 p.m. in the Student Union Building.

Mr. Robert Burns, park superintendent, will speak on the organization, operation and purpose of Idaho's new park. The public is invited to attend the meeting. Refreshments will be served.

The date of the Forester's Ball has been changed to March 4. It was originally scheduled for tonight.

A purebred Jersey cow, the first animal owned by the College of Agriculture, was a famous figure on the University campus in 1896.

Moltke Is Queen

Always a finalist—finally a queen; Miss Cheryl Moltke, who finished for about three queen contests at Idaho last year was made queen last weekend at Oregon State where she now attends school.

Crowned queen of the 1966 Junior-Senior Prom, Miss Moltke topped a group of four other OSU co-eds who represented chapters of Pi Beta Phi, Kappa Kappa Gamma, Delta Gamma and Tri Delta.

A Home Economics major, Miss Moltke was a pledge at Pi Beta Phi at Idaho last year.

Officers Installed

Installation of new AWS officers was held Feb. 10.

New officers include Margie Felton, Kappa, president; Brooke Clifford, Gamma Phi, vice president; Joan Eismann, DG, secretary; and Donna Morris, Carter, treasurer.

Retiring officers are Paula Spence, Gamma Phi; Mike Gagon, DG; Gail Leitchner, Alpha Phi; and Margie Felton, Kappa.

The installation was organized by Kathy Stone, Hays, Cultural Committee chairman.

Keys Meeting. A meeting for all new girls that are eligible for keys will be held Feb. 17 at 7 p.m. in the Galena Room, according to Marg Hogler, Alpha Phi.

Applications are being accepted for AWS contact. The job entails keeping the national organization, Intercollegiate Associated Women Students, informed of all AWS events in Idaho.

This officer also receives ideas and suggestions used by other schools throughout the nation.

Application forms are in the General Manager's office and must be returned by Feb. 18. Applicants may be freshmen, sophomores, or juniors.

Interviews Scheduled

Wednesday interviews will be held for the New Student Days committee, the Loyalty Day committee, and the Homecoming committee.

Interviews for the New Student Days committee will be held from 6:30 p.m. to 10 p.m. A chairman and eight sub-committee chairmen will be chosen. This committee helps incoming students orient themselves on the university campus.

The eight sub-committees will arrange for: the frosh-faculty forum, the president's convocation, publicity, facilities, exchanges and a picnic, information booths, publications and name tags, and the foreign students open house.

The Loyalty Day interviews will be held from 6:30 p.m. to 7:30 p.m. This committee coordinates campus activities with the Chamber of Commerce's activities on Loyalty Day early in May.

The Homecoming Committee interviews will be held from

7:30 p.m. to 10 p.m. This committee has the responsibility of planning and carrying out the activities of the Homecoming weekend held each fall.

Snow Machines Cannot Be Licensed

Various types of self-propelled snow machines now being sold in Idaho cannot be licensed as motor vehicles and they cannot be driven on streets, roads and highways, it was announced by the Department of Law Enforcement.

Commissioner E. R. Hopper said that most of the snow-machines are gasoline powered, but are propelled either by a propeller or by chain-like tracks, or both. Such machines cannot be registered or licensed as motor vehicles and are for off-highway use only, he stated.

committee chairmen will be chosen.

Civil Service Test Given Saturday

A nationwide competitive examination for temporary summer employment in a number of larger post offices throughout the country was recently announced by Postmaster General Lawrence F. O'Brien and Civil Service Commission Chairman, John W. Macy, Jr.

The examination will be used to select the best qualified applicants for employment as seasonal post office assistants between May 1 and September 30, 1966.

Applications for the positions, which pay \$2.37 an hour, will be accepted through February 24. The one hour written test will be held in March in over 1,000 cities.

Applicants to take the written test must be filed with the post office board of examiners having jurisdiction over the locality where the applicant desires to take the test.

Those interested in applying are required to get Form 5000AB, or information about where to obtain it, from their local post office, college placement office, or any Civil Service Commission Office.

Seasonal assistants are hired during the summer to assist the regular postal work force in handling the mail.

For positions involving operation of motor vehicles, the applicant will be required to demonstrate ability to drive safely.

Applicants must be at least 18 years old at the time of appointment.

Sons and daughters of postal employees will not be eligible for appointment to these jobs.

COPPER ENAMELING—Dr. Leon Green, director of men's physical education, helps a group of students with their copper enameling projects in the Arts and Crafts Room in the basement of the Student Union Building. Other projects included plaster of paris, plastics, weaving, puppetry, and block printing.

(If you call from out-of-town, call Tucker 3-0110 first, then give the extension number.)

NOW! *the ideal Checking Account for*

U. of I. STUDENTS

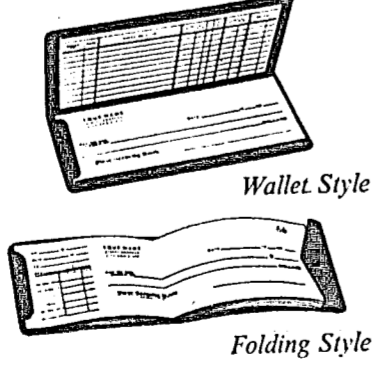

First Security Bank's
"College-minded" Checkway Plan

College students have found that a First Security Bank Checkway account is the ideal way to pay college expenses. As a student, you can easily see why. By providing a record and receipt of all expenditures, it helps you keep track of your money and lets you budget for future campus events or expenses. Meanwhile, your money is available immediately without the risk of carrying cash.

NO MINIMUM BALANCE REQUIRED. You may keep as much as you want on deposit, or just enough to cover the checks you write.

Here's what you receive FREE!

- Free!** 100 checks imprinted with your name and address. You have a choice of an individual or a joint account. Only one signature is required on checks.
- Free!** A handsome wallet-style checkbook or a folding-style checkbook. And either red or blue color.
- Free!** Deposit slips, too, are imprinted with your name and address. Deposit can be made by mail. We pay the postage and supply the envelopes.
- Free!** Statements are mailed to you quarterly — containing your cancelled checks—plus an itemized record of your account.

Write as many or as few checks as you wish. The cost is just 10¢ deducted from your account when the check clears through the bank. You pay nothing more. There is no monthly service charge or any other cost.

Every Science, Engineering and Math student should know about CSSTP before he makes up his mind about a career.

Sign up now at your placement office to get the story on CSSTP—from the IBM interviewer

CSSTP means Computer Systems Science Training Program. It's an extraordinary IBM program that enables you to use your technical knowledge and problem-solving skills in new, exciting ways. Ways that may never occur to you unless you talk to the IBM interviewer.

He'll show you how CSSTP leads to exceptional career opportunities with IBM Data Processing.

He'll tell you about the vital role of IBM's Marketing Representative. How he goes into major businesses to help solve their urgent management and control problems. He'll spell out the challenges which face IBM's Systems Engineer.

How he studies customer needs and computer requirements, and develops systems solutions to their problems.

In short, he'll describe all the unusual assignments in IBM's more than 200 offices from coast to coast. All are places where you can grow with IBM, leader in America's fastest-growing major industry: information handling and control.

So don't miss your IBM interview. Visit your placement office and sign up now. If for any reason you can't make it on campus, feel free to visit your nearest IBM branch office. Or write: Manager of College Relations, IBM Corporate Headquarters, Armonk, N.Y. 10504.

Whatever your plans, before you hit upon a career, see if IBM doesn't make a hit with you.

Whatever your area of study, ask us how you might use your particular talents at IBM. Job opportunities at IBM lie in eight major career fields: (1) Marketing, (2) Systems Engineering, (3) Programming, (4) Research and Development, (5) Engineering, (6) Manufacturing, (7) Finance and Administration, (8) Field Engineering. IBM is an Equal Opportunity Employer.

Vandals Clash With League Leading Gonzaga Tonight

Idaho Out To Improve 11-8 Season Standing

Idaho cage coach Jim Goddard has already assured himself his best season at Idaho, but the Vandal mentor is determined to finish out the '66 campaign with a winning mark.

The Vandals have only had one winning season (20-6 in 1963) and one break-even season (13-13 in 1962) in the past 10 years. Holding an 11-8 record with seven games to go, Idaho does have a shot at a mark over .500.

Captain Jerry Skaife has taken over the scoring lead for the Vandals with a 17.4 average and 313 points. He is currently 12th among the all-time scorers and has only played 44 games. He is also the leading free throw shooter with a .798 mark. Bob Pipkin is second in scoring average with a 16.2 mark and third in total points with 276.

HASKINS SEVENTH SCORER
Ed Haskins, who has already established himself as one of the all-time scorers at Idaho has 296 points and a 15.6 average. He is currently seventh in the all-time list the 11 points away from sixth spot held by Dwight Morrison at 844.

John Rucker is the top rebounder with 202 and is fourth in scoring with 264 points. With a career total of 549 he can move into the top 15 within the next two games. Dave Schlotthauer is the team's second rebounder and fifth scorer with 252 points and 163 rebounds.

BOHMAN LEADS FIELD
Sixth player in double figures is Rod Bohman who has 202 points and a 10.8 average. Bohman is the leading field goal shooter with a record-breaking .540.

As a team the Vandals are a cinch to break the season scoring average of 75.8 set last season. They are currently sixth in the nation at 94.2. Field goal shooting is ahead of the record with a mark of .440 against .419. They have scored 732 field goals and the record is 771.

What is it about college wrestling that has brought it into public focus both as a participant and a spectator sport?

Rick Williamson, Idaho's unbeaten 130-pounder, has a pretty good answer. "It's the only completely individual sport where one man is pitted against another in contact."

The former state high school champion continued, "In team sports you have help. I know that I wouldn't get as emotionally ready for a football game because I would know that there would be 10 other people to help me. In track and swimming, which are also individual sports, you compete against time not against another individual in contact."

"You've got to go out by yourself and compete for a full nine minutes. Some people can run two miles in less time than that."

Prep Champion
The sturdy sophomore transferred to Idaho this fall after a year at Boise college. He finished second in the Intermountain Junior College tournament last year and is headed for a top spot in the Big Sky meet later this month. Rick is now in his fifth season on the mats. He rolled to the state 115-pound title at Boise high in 1964 with an unbeaten record as a high school senior.

A history major, Rick transferred to Idaho this year primarily to get an education. "I had heard rumors that there was going to be a wrestling program started at Idaho," he said, "but mainly I wanted to get away from home and get an education."

Williamson's plans are indefinite, but he does have a commitment to the Marine Corps upon graduation. "I'll serve my time in the Corps then I'll decide what I want to do," he said. Rick is in the Marine Platoon Leader program which will qualify him as a second lieutenant upon graduation.

He's "Jacked"
He approaches wrestling with a firm dedication. "Rick is the only person I have ever seen," assistant coach Ron Stephenson said, "who get 'psyched up' for practice. Everything he does in practice is done under meet conditions."

Wrestling, according to Rick is similar to other sports in basic fundamentals. Speed, conditioning and proper mental attitude are the primary requirements in wrestling as they are in all other sports.

"The main way to improve in wrestling is to compete against someone better than you," he said. "It is also the hardest way to improve." Rick credits his development to an off-season weight program and the help given him by Dwaine Marten of

the university's physical education staff. "Mr. Marten knows a lot about wrestling and he has helped me to improve my techniques," Rick said.

Best Defense
While there can be no formal plan going into a wrestling match, Rick said that he believed that the best defense is a good offense. "I'll plan to do certain things before a match," he said, "but things happen out there so fast that you may have to change without thinking about it. You may plan to wrestle a man a certain way, but when the match starts he may have a different style that forces you to change."

No matter what the plan, it still comes down to two individuals battling for nine minutes or as long as the match lasts in individual contact.

Foresters' Bonfire
New forestry students in the 30's got acquainted with their instructors at an annual fall bonfire and wiener roast.

The 6-4, 240-pound junior from Caldwell, set a new Idaho shotput record of 57-3 1/2 last Saturday night at the Seattle Indoor Invitational. The old record was 56-0 3/4 set in the Big Sky Championships at Pocatello last May.

In addition to the shotput record, McDonald holds the discus record of 177-3 1/2, set in the NCAA championships at Berkeley last spring.

He has two game records in football, four season and four career records and he still has an entire season to play.

INTRAMURAL "B" BALL TO FEATURE 120 TEAMS

Intramural Director, Clem Parberry, announced today that 120 teams have been scheduled to participate in Intramural "B" basketball competition.

Parberry also announced that "A" basketball is progressing along smoothly and here are some scores recorded in different intramural activities occurring just before semester break.

Vandals Seek Revenge Against Zags Tonight

It's all uphill for the Idaho Vandals in the race for the Big Sky basketball crown as they turn into the second half of the season.

Coach Jim Goddard's Moscow crew makes its last home league appearance tonight in Moscow against Gonzaga. After that it's four on the road against a quartet of teams which they have managed no better than 2-2 record.

With a 2-3 league mark Idaho has to win 'em all to figure as a contender for the loop title. Gonzaga holds one win over Idaho, a 94-79 bombing in Spokane last month. The Zags are currently leading the loop with a 5-0 mark. They have yet to play a league contest on the road. Since the conference opened in January of 1964 Gonzaga has won three games in Spokane and the Vandals have won two in Moscow.

VANDALS HAVE EDGE
Idaho holds a 46-25 edge in the series that goes back to 1916. The last time the Spokane club managed to put together a win in Moscow was on Dec. 2, 1949 when it downed Chuck Finley's crew, 54-48. Idaho reversed that loss with a 45-35 win on Dec. 31 in Spokane.

Goddard feels that rebounding strength will be the key in Friday night's game and has returned 6-8 Dave Schlotthauer to the starting lineup for the first time in four games. The junior from Post Falls has slipped to second in rebounding with a total of 163 in 19 games.

FRONT LINE
Teaming with Schlotthauer in the front line will be John Rucker, 6-3 senior from Troy, N.Y., who is the top rebounder with 202, and Bob Pipkin, another 6-3 jumper, who has 141 rebounds in 17 games. Handling the backcourt duties will be veteran Jerry Skaife, the team's leading scorer with a 17.4 average and Rod Bohman the top field goal shooter with a 54 percent average.

The two schools' Frosh teams will play a preliminary at 5:50 with the varsity action billed for 8:05.

Bullpups, NIJC On Frosh Tap
Idaho's freshmen will try to reverse a pair of previous defeats this weekend when they host the Gonzaga Frosh tonight and travel to Coeur d'Alene for a match with North Idaho on Saturday. The rookie cagers are 5-4 on the season with an 86-84 loss to Gonzaga in Spokane and an 88-76 clipping by North Idaho two of the setbacks. Johnston Leads Scorers Little Jim Johnston from Clackamas, Ore., continues to lead the frosh scoring with a 16-point average. Bob Haney from Colville has the top field goal percentage with a .694. The leading rebounder is Gary Logsdon from Concord, Calif., with 50. He is also second in scoring with a 15.1 average. The top free throw percentage belongs to Phil Waddell of Russtville, Ind. with a mark of .923. Waddell is the number three scorer with a 10.2 average.

Big "Mac" Sets New Track Mark

Ray (The Wrecker) McDonald, Idaho's two-sport All-American, has improved in another of the dozen records he holds in football and track for the Vandals.

The 6-4, 240-pound junior from Caldwell, set a new Idaho shotput record of 57-3 1/2 last Saturday night at the Seattle Indoor Invitational. The old record was 56-0 3/4 set in the Big Sky Championships at Pocatello last May.

In addition to the shotput record, McDonald holds the discus record of 177-3 1/2, set in the NCAA championships at Berkeley last spring.

He has two game records in football, four season and four career records and he still has an entire season to play.

Careers/in Adventure at General Electric

TO: General Electric Company 570 Lexington Ave., Rm. 801-C New York, N. Y. 10022

Gentlemen: Show me what it's like to be one of the new generation of idea men at General Electric. Where I might work. What I'd do. What kind of people I'd work with.

Send me my free copy of the 20-page booklet "Careers in Adventure," filled with full-color photographs that show G.E.'s young men—and women—at work in today's most challenging fields: electronics, urban lighting and transit design, aerospace and computers, jet propulsion and nuclear power and all the rest.

Name _____ (PLEASE PRINT)
College or University _____
Address _____
City _____ State _____ Zip _____

Got a pencil?

Frankly, General Electric is after the cream of the 1966 crop of graduates. Not just the top engineers. And not just the top scientists. But the outstanding graduates in other fields: economics, business, law, accounting and the liberal arts as well.

See for yourself what you could be doing next year. Fill out the coupon for a copy of our booklet "Careers in Adventure."

And talk to the man from G.E. during his next campus visit. Come to General Electric, where the young men are important men.

Progress Is Our Most Important Product
GENERAL ELECTRIC
