

Harding Knocks Jordan; Gives Campaign Promises

By CHRIS L. SMITH
ARGONAUT STAFF WRITER

"I'm a candidate for the United States Senate," Ralph Harding Democratic nominee for the Senate said on campus Friday, "because I honestly feel that by serving effectively, energetically and tirelessly, and honestly, in this capacity that I can make the greatest contributions to building a more prosperous Idaho, a stronger America, and a better world."

Harding was on campus to meet with students and visit the University in his campaign tour throughout Idaho. He spoke at the faculty forum, addressed political science classes, and met with campus Young Democrats in a discussion session at the SUB.

Continuing his remarks, Harding said, "I'm running because I believe Idaho needs two progressive votes in the Senate. At the present time we don't have a vote on the key issues. We have Senator Frank Church casting a progressive, yes vote; and Senator Jordan casting an ultraconservative no vote, cancelling and nullifying Church's vote."

Harding also reminded his listeners that Senator Len B. Jordan has voted against the nuclear test ban treaty, the food and agriculture act, federal aid to elementary and secondary education and the higher education act of 1963. The wilderness bill, the Burns Creek project, health care for senior citizens, a 7 per cent increase in social security benefits, and minimum wage increases were also on Harding's list of complaints against the Senator.

He charged his Republican opponent with being the only senator in the Northwest to advocate giving Idaho water to California.

"Jordan advocates giving Idaho water to the Southwest via a concrete lined conduit from the Dalles in Oregon to Southern California. He said this would take the eyes of the Southwest off the Snake River."

To the suggestion of a joint debate between himself and Senator Jordan, Harding said it would be the fairest way to let the cit-

izens know who will make the best senator.

"About four months ago, I wrote Senator Jordan and proposed a series of public debates. He didn't answer the letter. Two months later I wrote him again, still no reply. Two weeks ago I sent the senator a telegram

"He asked me to write a letter opposing escalation of the war. This I refused to do, and made it clear that I would do nothing to endanger our position in Viet Nam. Since that time I have received no funds from the Council for a Livable World."

HARDING GIVES VIEWS—Ralph Harding, democratic candidate for the United States Senate, appeared on campus Friday before students and faculty members. He is seen above with University Young Democrats Vice President, Lee Davis, off campus; and 1966 alumnus of the College of Law, Jim Herndon, Salmon.

proposing joint televised debates and I have not heard from him yet."

Harding mentioned Jordan's accusation that he has received tainted funds from the Council for a Livable World.

"That group is mainly composed of nuclear scientists and college professors who endorse and support candidates they feel are qualified. Among those they have endorsed in the past have been John Lindsay, mayor of New York, and Idaho's Senator Frank Church," he said.

"Early this spring they endorsed me," Harding stated. "When they did so I made it plain to them that I was supporting the President's position in South Viet Nam. Later they sent a man to Idaho who informed me that when they endorsed me Viet Nam was not an issue, but now it is."

Here's More About ROLL CALL

a position to take away from Andrus any substantial amount of votes from progressive Democrats. He is in a situation, however, to take away from Don Samuelson that portion of the Republicans' moderate wing who might vote for Samuelson out of party loyalty.

In my opinion Swisher is contributing to, not taking away from, Andrus' chance for election. It is further my opinion that Swisher is fully aware of this fact and that it is the basic reason for his refusal to withdraw from the governor's race. I want to make it clear that this is my opinion only, and that if I am greatly wrong that Mr. Swisher, a man for whom I have a great deal of respect, takes offense I apologize to him now. Swisher is a man with great belief in the necessity of the sales tax. He is also strong-willed and I can see him doing anything to see it retained, even sacrificing himself to assure the election of a man in favor of the tax. This makes Swisher a very big man, if I am right, but it does not make him Governor.

CAMPUS CUTS: My suspicions have been vindicated. I always suspected people drank (a horrid thought at least) at football games. Now I am sure. Now, I didn't see any myself but when the rally men from "that school across the border" walked by, the bottles flew from the stands. Since I know that no self-respecting Idaho student would throw a bottle with one drop in it it must have been used at the game. Good taste in bottles too, incidentally, Ancient Age and Cutty Sark among them. The reason that I know is because after the game the campus cops descended upon them with great relish in hopes of finding some residue.

Dances, Royalty Top Week

The crowning of SAE Violet Queen, Karen Clements, A Phi and Kappa Alpha Theta Castle Cassanova, Ed Elliot, Sigma Chi, highlighted last week's activities. Students have also been "dance hopping" for the past two weeks. Among pledge dances on campus have been Theta Chi, Delta Chi, DG, Gamma Phi, Beta, Tri Delt, Delta Sig, Hays Hall, FIJI, TKE, Sigma Chi and Phi Delt.

KAPPA ALPHA THETA

"Castle of My Dreams," the annual semi-formal pledge dance, was held by the Theta members in honor of the 16 pledges, Oct. 15.

Ed Elliot, Sigma Chi, was

crowned Castle Cassanova by Phyllis Rathbun, dance chairman. Couples entered the dance through a pink napkin archway. Pink streamers, silver shields and balloons completed the decorations.

SAE

Karen Clements, Alpha Phi, was crowned SAE Violet Queen for 1966-67 at the annual ball Oct. 15. Outgoing queen, Anne Jones, Kappa, crowned the new queen.

The Scott Reed Trio furnished the music; Maj. and Mrs. Doem and Mr. Dewey Newman chaperoned the ball.

KAPPA SIGMA

Kappa Sig members wish to congratulate their pledge class on the success of their pledge dance, "A Fine Madness."

Pledge class officers, announced at the dance, include Jim Cuddihy, president; Mike Zimmer, vice-president; Gary Teuscher, secretary-treasurer, and Rick Galloway, song leader.

SIGMA CHI

Sigma Chi's honored their pledge class and the nine sororities last week by presenting an annual serenade tour. The

Sigs also held a dinner exchange with the Gamma Phi's recently.

FARMHOUSE

FarmHouse celebrated its 9th annual Founder's Day Oct. 9 by attending a smorgasboard at Carter's Log Inn in Pocatello. Daryl Snyder, National FarmHouse secretary, was the honored guest.

Following the buffet, awards were presented to Dick Moore, high grade point member, 3.7; John Baker, high pledge grade point, 3.6; and Dick Owen, high scholarship improvement. The Hector Room Scholarship Award went to Dick Owen, Bill Loughmiller and Jerry Howard for the room with highest grade point.

ALPHA GAMMA DELTA

Alpha Gam pledges recently held a surprise fireside for the members in honor of Kitty Collins and her forthcoming marriage. The pledges portrayed a mock wedding ceremony in rock-and-roll style.

Linda Bulcher, Judy Vincent, Melynda McKinney and Jane Wilson were initiated into the sorority on Oct. 15.

DELTA SIGMA PHI

Delta Sigs initiated Barry Cahill, Andy Card, Larry Burke and George Turner last Sunday. Larry Burke was awarded the Pritchard Scholarship trophy and Andy Card the Outstanding Pledge award.

Here are 7 knotty problems facing the Air Force: can you help us solve one?

- 1. Repairs in space.** If something goes wrong with a vehicle in orbit, how can it be fixed? Answers must be found, if large-scale space operations are to become a reality. For this and other assignments Air Force scientists and engineers will be called on to answer in the next few years, we need the best brains available.
- 2. Lunar landing.** The exact composition of the lunar surface, as well as structural and propulsion characteristics of the space vehicle, enter into this problem. Important study remains to be done—and, as an Air Force officer, you could be the one to do it!
- 3. Life-support biology.** The filling of metabolic needs over very extended periods of time in space is one of the most fascinating subjects that Air Force scientists are investigating. The results promise to have vital ramifications for our life on earth, as well as in outer space.
- 4. Space orientation.** The orbital problems of a spacecraft, including its ability to maneuver over selected points on the earth, are of vital importance to the military utilization of space. There are plenty of assignments for young Air Force physicists in this area.
- 5. Synergetic plane changing.** The ability of a spacecraft to change altitude can also be crucial to space operations. Where but in the Air Force could Sc.B.'s get the chance to work on such fascinating projects right at the start of their careers?

- 6. Space propulsion.** As our space flights cover greater and greater distances, propulsion—more than anything else—will become the limiting factor. New fuels and new propulsion techniques must be found, if we are to keep on exploring the mysteries of space. And it may well be an Air Force scientist on his first assignment who makes the big breakthrough!
- 7. Pilot performance.** Important tests must still be made to determine how the pilots of manned spacecraft will react to long periods away from the earth. Of course not every new Air Force officer becomes involved in research and development right away. But where the most exciting advances are taking place, young Air Force scientists, administrators, pilots, and engineers are on the scene.

A good way to start is through Air Force ROTC. Superior students may qualify for Air Force scholarships. Many colleges and universities also have a special 2-year Air Force ROTC program. For details, contact your nearest Air Force representative, or mail the coupon today.

Argonaut Sports Editor

Can you believe those Cougars? According to the latest national statistics, Washington State's head mentor, Bert Clark, has the hottest rabbit foot in the country.

Last Saturday, Clark was standing like a wooden Indian on the sidelines staring in bewilderment at the Idaho assault when by chance he reached into his pocket and latched on to his prized rabbit foot.

Like magic, Washington State tackle, Bill Kennedy, scoops up a loose ball and rambles into the end zone like a wounded duck for the first Cougar score. Luckily the Vandals overcame their gloom for the moment, thwarting the extra point attempt.

Vandal fans shouldn't feel too bad though. Thirty-one years ago today, Idaho was playing Washington State and the Vandals had the ball on their own 25-yard line. All of a sudden, the ball was neatly snapped over the field general's head and some fortunate Cougar picked it up and put 6 points on the scoreboard for Washington State. Seconds later it was 7-0 and that is the way the game ended.

Then of course there is Cougar halfback, Glen Shaw. At 5-10, 170, he is hardly noticeable among the Vandal headhunters. Not only that, but he is a sophomore, a rookie you might say. Well, anyway, he sure made himself scarce when he slushed through the mud enroute to an 84-yard scoring jaunt which is most likely the longest scoring play by rushing in Cougar history.

This was the first time that he carried the ball the entire day. I only wish that Butch Slaughter would have had beginner's luck like that especially in regards to scoring. Poor Butch runs through the Cougars all day like a dose of salts and all that he gets in return is a soggy uniform.

In their last two games, the Vandals have literally mauled their opponents in all the statistical columns, but the scoreboard has treated them like a tilted pinball machine.

Next weekend is the Boise bash and that should prove to be colorful in many respects. Once again the Vandals will be canvassing the terrain in search of a football victory.

You can bet that coach Musseau and his charges will try to add another notch to their guns. Bert Clark and his Cougars evaded an ambush, will Len Casonova and his Oregon crew do the same?

Cougars Survive Luckily, 14-7

Upham Hall New Football Champs

Upham Hall came charging back in the second half of play to defeat Phi Delta Theta, 13-8, to win the campus intramural football championship.

After being blitzed by the Phi Delt defense in the first half, Mike Lamb unlimbered his arm to fire two touchdown passes to bring Upham Hall to the win. In the first half, a bad pass over Mike Lamb's head went into the endzone where John Wales fell on it to give the Phi Delt a 2-0 advantage.

Later in the first stanza of play, Phi Delt quarterback, Tim Rarick fired a pass that was deflected into the grasp of Jim Avery to increase the Phi Delt lead to 8-0 ending the first half.

In the second half Doug James intercepted a Tim Rarick pass that set up the first Upham score. From there Mike Lamb completed the first of four passes to Tom Staab who made a fine reception.

He followed up with two side line passes to Vic Gormley and Robin Stanley. This set the stage for the touchdown strike gathered in by Vern Bengston. The extra point attempt was unsuccessful.

The second Upham score was also set up by an interception. This time it was Vic Gormley who did the honors. Quarterback Mike Lamb kept the ball on the ground the first two downs of the series and then tried a pass to Larry Hansen which was broken up. On fourth down Lamb threw a perfect strike to Robin Stanley which wrapped it up for Upham. The extra point was good on a pass from Lamb to Vic Gormley.

This left Upham Hall with a perfect mark of 12-0 for the season.

RAY McDONALD CRASHES over Cougar forward wall for the Vandals in the first half. It wasn't quite enough as the Cougars rallied for two second-half tallies.

Idaho Vandal Babes Romp To Victory, 36-0

The Idaho Frosh football team Meridian's Gordon Dewaard put on an awesome display of power in their opening game of the season drubbing the University of British Columbia Jayvees, 36-0, in a driving rain.

In the first quarter, the Frosh opened their point barrage on a 6-yard run by quarterback Steve Olson.

This was followed up by a Vandal safety that gave the Vandal Babes a 9-0 advantage at the end of the first quarter. In the second stanza of play, an 84-yard run-

Fumble Recovery Proves Key Factor

The Idaho Vandals dropped another tough decision over the weekend as the Washington State Cougars edged them, 14-7 on a cold and rainy day.

The Cougars taking advantage of a fumble recovery and a long touchdown run gathered momentum in the second half to overcome the Vandal lead.

With 6:19 remaining in the first half, Ray McDonald cracked over from the one to give the Vandals the lead. Darrell Danielson followed with his tenth consecutive point conversion for the score.

Quarterback Hank Granda's pass to Doug Flansburg for the 2-point conversion was unsuccessful leaving the score at 7-6.

The Vandals had several drives in the second half highlighted by the running of Butch Slaughter but they could not punch the ball across the goal line.

Slaughter racked up 89 yards for the afternoon which was perhaps his greatest day as a Vandal.

With 3:19 remaining in the game, Sophomore halfback, Glen Shaw sprung loose for 84 yards and the clinching score. Dave Peterson ran for the 2-point conversion giving the Cougars the 14-7.

BUTCH SLAUGHTER racked up 89 yards for the afternoon which was perhaps his greatest day as a Vandal.

UPHAM HALL'S QUARTERBACK, Mike Lamb, is seen here throwing one of his many passes yesterday as Upham Hall rallied in the second half to win the campus football championship, 13-8, from Phi Delta Theta.

Vandal Cagers Open Tough Drills This Week

Wayne Anderson, newly appointed basketball coach for the Vandal Cagers, has greeted a squad of 21 hopefuls as the first workouts were underway in Memorial Gym.

Anderson, who plans a change from the fast-break type of offense used by the Vandals in past seasons, hopes that with his limited material and lack of height, to play a control-break type of offense which he feels will be suited to his players.

Anderson said that the team does not lack from hustle and desire as they have been working hard on individual talents before and after the regular practice sessions and some of the boys that have average height are showing a great talent in drills on the boards.

Leading the turnout of players will be four senior veterans who should form a nucleus of the starting team. Dave Schlotthauer, 6'7" center from Post Falls, Mike Wicks, 6' guard from Coeur d'Alene, Bob Pipkin, 6'3" forward from Alquippa, Penn, and Rod Bohman a 6' guard from Troy should be figured as starters at the present time.

There will be a fine group of sophomores up from the freshman team of last year including Kirk Williams, 6'1" guard from Twin Falls, Phil Waddell a 6' guard from Russiaville, Ind, and Gary Logsoon a 6'2" guard-forward from Concord, Calif.

Larry Kaschmitter, a 6'10" center from Grangeville will be returning from a "redshirt" year and if this big boy shows improvement, he could add much to the board control for the Vandals.
