One of the provisions states, "The Faculty shall have the authority to establish, and the responsibility to maintain, regulations@governing the conduct of students on the campus and at authorized University activities." Interpreted, this means that the Faculty legally has complete control over all activities—with no recourse on the student side of the issue.

Fortunately, the present Faculty Council has been far-sighted enough to allow the students to play a fairly active part in determining their own afafirs. But after the Constitution is adopted it is very difficult to change (a 2/3 majority of the whole Faculty would be needed). The students will be legally eliminated from having the voice—a true voice. The membership of the Faculty Council will change and the next members may not choose to allow the students to have any voice in determining our future.

We do need and should have a voice in of authority. The document goes a long determining our future. This has been way toward providing a means for what evidenced again recently by the Student is needed on the Idaho campus and is a Bill of Rights and the proposed athletic

But the document fails in one extreme- lack of responsibility and the student plish anything. Students then lose interest. This has been complicated even further by the haphazard bureaucratic way in which the entire governmental structure of the University has been set up. Students are interested in many aspects of campus life and they do not want and have a right to have a voice.

Student government can be an excellent training ground for students. But not so if that student government is a mere farce, or if everything that students try to do is not listened to or accomplished.

Students are now better prepared than ever to meet life. They are also better prepared to have a voice in governing themselves. Now is the opportune time for students to be firmly established with a voice in their campus lives—one that really means something. But we need the help of the Faculty.

'TIS THE SEASON TO BE JOLLY

Yuletide is almost upon us. Let's stop wasting time in classes and get on with our Christmas shopping. Following are a number of gift suggestions, all easily obtainable at your nearest war surplus boutique.

First, a most unusual gift idea, brand new this year and certain to please everyone on your list—a gift certificate from the American Veterinary Medicine Association! Each certificate is accompanied by this charming

Merry Christmas, north and south, Does your cow have hoof and mouth? And your dog, fidele semper, Here's a cure for his distemper. Little kitten, cute and squirmy, Bring her in. I think she's wormu. To bunnies, turtles, parrots green,

Are you wondering what to give that extra-special man on your list? Stop wondering. Give him that extra-special shaving combination, Personna Super Stainless Steel Blades and Burma Shave. Each gift is accompanied by this charming poem:

Christmas merry, New Year bonny, From your friendly blade Personny. You will have the ladies fawning, If you're shaving with Persawning Injector style or double edges, Both are made by good Persedges. And Burma-Shave in plain or menthol, Leaves your face as smooth as renthol.

(NOTE: As everyone knows, renthol is the smoothest substance ever discovered. You may not know, however, that renthol is named after its inventor, Ralph Waldo Renthol, who developed it by crossing a swan with a ball

(Interestingly enough, Mr. Renthol did not start out to be an inventor. Until age 50 he was a Western Union boy. Then fate took a hand. One day while delivering a singing telegram to a girl named Claudia Sigafoos, Ralph noted to his surprise that the telegram was signed "Claudia Sigafoos!" She had sent herself a birthday

(When pressed to explain, Claudia told Ralph a heart-rending tale. It seems that when she was only six weeks old, her parents were killed in an avalanche. The infant Claudia was found by a pair of kindly caribou who raised her as their own. They taught her all they knew-like how to rub bark off a tree and which lichens are better than other lichens—but in time they saw that this was not enough. When Claudia reached age 18, they entered her in Bennington.

(Unused to people, Claudia lived a lonely life-so lonely, in fact, that she was reduced to sending herself birthday greetings, as we have seen.

(Ralph, deeply touched, married Claudia and tried his best to make her mingle with people. It didn't work. They went nowhere, saw no one, except for an annual Christmas visit to Claudia's foster parents, Buck and Doe. To while away his long, lonely hours, Ralph finally built a work bench and started to futz around with inventions, as we

(It is pleasant to report that the story of Ralph and Claudia ends happily. After the birth of their two children, Donder and Blitzen, Claudia joined the PTA and soon overcame her fear of people. Ralph joined the Elks.)

But I digress. Merry Christmas to all and to all a good night! Ho-ho-ho!

The makers of Personna and Burma Shave join Old Max in extending greetings of the season

Twas the night before Christmas, and all through the house, not a creature was stirring, not even a mouse.

Fooball coaches Troxel, and Adams, and Davis, and Hughes, were wondering who Santa would bring them to fill Musseau's

shoes.

Dr. Leon Green had just hung his Christmas stocking, when down through the chimney, Santa came a knocking, "Merry Christmas, Dr. Green," said the jolly fat man, "I've brought you a P.E. Program better than anyone ever ran."

Mr. Kringle said to football players Pearsall, Garman, Hendren, and all the rest, "Next year you Vandals will be the very best."

Baseball coach Smith said to Athletic Director Paul Ostyn,

Santa's last stop was the House of Theta Chi, For varsity skiers Skogland and Brady . . . skis they wouldn't have to buy. The old gent pulled out of his bag skis so magnificent, that even LBJ could learn to ski with tehse, and maybe we'd have a betall president.

As he left in his sled, you could hear him say, "Merry Christmas to all, and to all a good night."

Here are your vacation bowl speicals,
ROSE BOWL. On paper ,USC looks like a 12 point favorite,
however, the Trojans could be in trouble if Indiana plays the
game they did against Purdue. I like the dope sheet, Trojans,
28-14.

ORANGE BOWL. Many sport writers feel Tennessee is as good as USC. I'll take Oklahoma, 14-3.
COTTON BOWL. Wyoming was the only undefeated major college team this year. They will pit their reputation against an LSU squad which put togeher a 6-3-1 record. Cowboys, 18-14.
SUGAR BOWL. 'Bama won a lot of squeakers this year, while Texas A&M played a better 60 minutes of ball. However, Crimpon Tide will steel this one 17-10. son Tide will steal this one, 17-10.

THAT'S THIRTY FOR 1967!

The Delta Chis took their second straight campus volleyball championship Wednesday night as they top-ped Lindley Hall. The DCs had downed the SAEs the previous night to win the Greek title and the right to face the Independent winner.

Intramural Manager's Meeting #5

Thursday, December 7, 1967

The meeting was called to order by Jim Avery, President. Absent were BH, CH, GH, KS, McH, TC,

A committee was appointed to set the date for skiing. Those on this committee include Don Hadley, SnH, and Clyde Coon, BTP.

A motion was made concerning the substitutions in the first round of such sports as pool, handball, paddle ball, and tennis. One substitution will be allowed for each team.

Pool and bowling will start on Thursday, January 4, 1968, and will be played on Tuesdays and Thursdays nights. A motion to make bowling a scratch sport rather than handicap was defeated. Also defeated was a motion to require the use of only those people on the roster for bowling during the last three matches. Leagues were drawn for bowling and "A" Basketball. "A" Basketball will start on Monday, January 8.

Motions concerning player eligibility were passed on two people: Randy Herman, ATO, and Roy Lundeen, WSH. They will be eligible to play for their respective living groups.
