# Idaho To Host IFC Conclave This Weekend

Lewis Bacon, National Executive Secretary of Alpha Kappa Lambda Fraternity will be the featured speaker at the Northwest Regional Interfraternity Council Convention on campus this week-end.

Bacon will speak at the banquet on Saturday evening at 6:00 p.m. in the SUB Galena Room. He will also take part in a panel discussion, Saturday afternoon at 1:30 in the Dipper with Delta Chi President Larry Craig in a discussion on deferred rush.

Mr. Bacon is a graduate of Kansas State College, where he organized a colony of Alpha Kappa Lambda and served as their first president. He became the first full time employee of AKL

in 1949, serving as the National Executive Secretary since that time. Last year, he was the President of College Fraternity Secretaries Association, and is presently the chairman of the Regional IFC Committee of College Fraternity Secretaries Association.

The Northwest Regional Interfraternity Council meets annually at one of the ten member schools in the Northwest. "It's a workshop, where the IFC's can talk about current problems of all of the fraternities," said Jeff Crumrine, Delta Sig, public relations man for the convention. Approximately 45 delegates, plus IFC members and alumni members from the Uni-

versity of Idaho are expected to attend.

Registration for the convention is from 6 p.m. to 10 p.m. on Friday in the SUB. Late registration will be from 9 a.m. to 10 a.m. on Saturday.

The convention opens officially on Saturday morning, with breakfast at the Kappa Sigma House, at 8:30 a.m. Dr. Walter H. Stefens, Academic Vice-President of the University, will give the opening talk of the convention following the breakfast.

From 9:30 until 11 a.m. there will be a discussion group in the SUB on the subject of "Local Autonomy." Panel members will include Robert Ewalt, Associate Dean of Men at Washington State

University, John English, Associate Dean of Men at the University of Oregon, and Jody Olson, President of the Interfraternity Council, the University of Idaho.

A luncheon will be held in the Appaloosa Room from 12 noon to 1:00 p.m. The speaker will be John S. Holmes, Vice President of Area 1, Northwest Region, IFC.

Starting at 1:30 p.m. and continuing until 3 p.m. will be a panel discussion on "Deferred Rush," led by Lewis Bacon and Larry Craig. From 3:30 p.m. to 5 p.m. there will be a panel discussion on "Drugs on the College Campus." Panel members

are: Dr. William Cone, a psychiatrist from Lewiston; Mr. Robert Stevenson, College of Law, U of I; and Arthur McCarten, Dean of Men for Washington State. This discussion is open to all interested persons.

A social hour will be held from 5:00 to 6:00 p.m. for Alumni IFC and IFC advisors. The banquet will follow in the SUB Galena Room. After the banquet a dance will be held at the Moscow Moose Lodge from 9:00 p.m. to 12 p.m. to bring the convention to a close.

This is the first year that the University of Idaho has hosted the WRIFC convention.

## E-Board Prepares To Investigate Golf Course Plans

By Cliff Eidemiller  
Arg Political Editor

The proposed club house-pro house for the golf course and a motion calling for outside legal advice on the Bill of Rights dominated the discussion at the last E-Board meeting.

The golf course report calls for the construction of a new club-house and house for the pros at the approximate cost of \$90,000 to the ASUI.

The proposed structure will have 5,000 square feet of floor space which will be constructed at the present estimated cost of \$16 a square foot. Bill Gigray said that the architect had been called to investigate the possibility of scaling the building down to save the ASUI about 10-15 thousand dollars. The present bid calls for the appropriation of \$90,000.

Gary Vest, ASUI Attorney General said, "We ought to investigate this more and consider the integration of the building plans with the site. What do we want for what purpose? We don't want a country club, but a club-house. What materials should the building be constructed of and how should it be constructed?"

Vest advised the Board, "Don't accept the present figures for their face value. Investigate, say cut the present figures about \$15,000 and bring this down to a reasonable and practical aspect."

"I am now opposed to making the course better," said Roy Haney, "but the present estimated bids and prices add up to about \$282,500, all to come from the ASUI, to improve the golf course."

"Eleven years ago the ASUI promised the Snyder's a new house, and its about time we carried through," said Howard Foley. "My estimates and 'guesstimates' to remodel the present club house, adding any major improvements, would come to about \$20,000. We would be financially ahead to build a new club-house," concluded Foley.

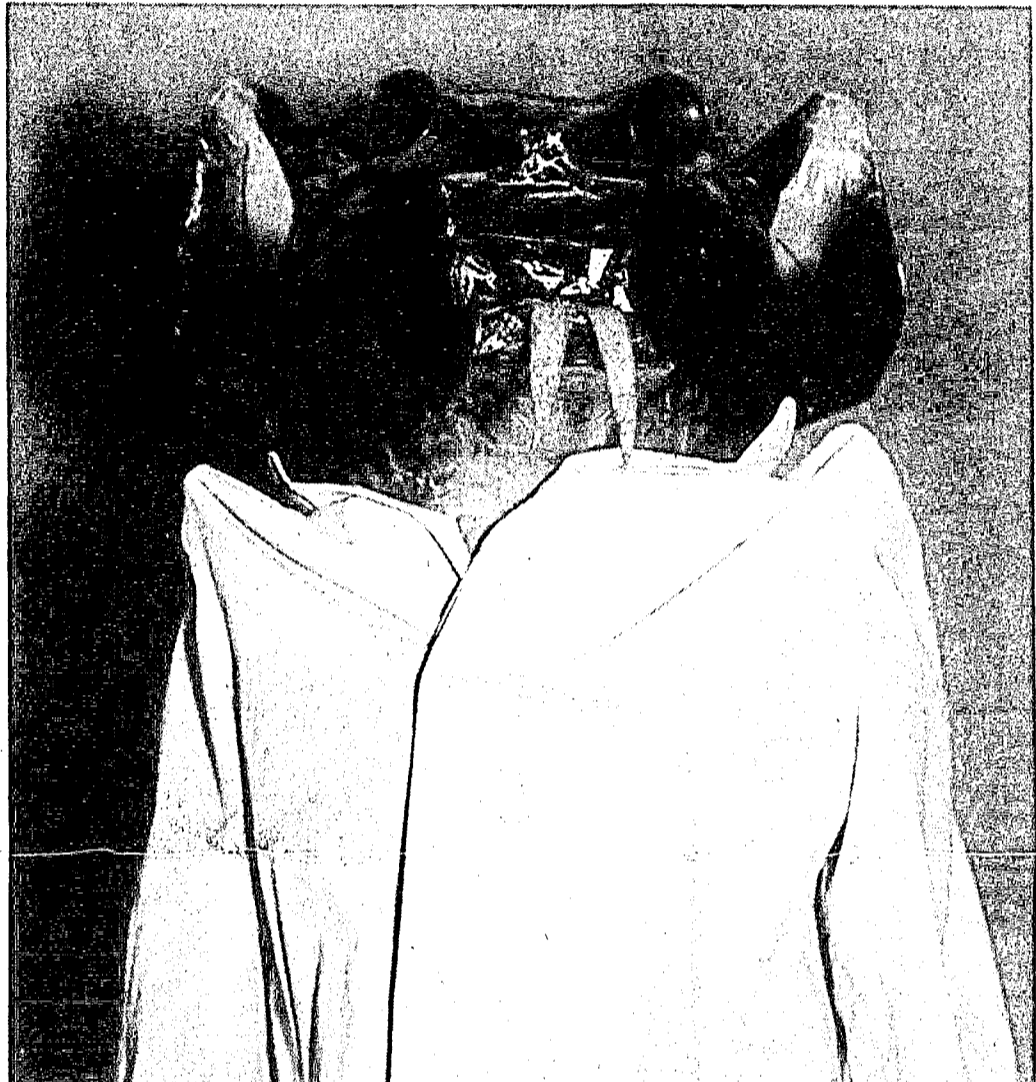

Dick Snyder, manager of the course, said, "We took in \$20,000 last year, of which \$19,081 was expenses for the upkeep of the nine hole course. When we expand the course to 18 holes, the expenses are probably going to jump to about \$50,000."

"It will take five to six years to get the course to where we want it," said Vest. "The golf course must be kept up with the times. If the ASUI isn't responsible enough to keep up the course, maybe they ought to turn it over to someone who is."

"We need a different type of bid for this construction," said Board member Randy Stamper. "I say it should be around \$70,000, and we ought to put a limit on the amount to be spent."

The Board decided that some more definite plans needed to be drawn up, so they will meet with Mr. Cline, the club-house architect from Boise, in order to decide what is needed and what can be done.

The last two sections of the "Student Bill of Rights" were voted on in other E-Board action. Several editorial changes were made to the document. Dave Leroy moved to strike Article Three from Section Five. The article said that "information and results of judicial proceedings will not be made available for public consumption." Leroy said the

THIS STRANGE CREATURE has come to the University of Idaho campus to compete in this year's Ugly Man contest during Campus Chest Week. Presently, 24 men are competing for the coveted title of 1968 Ugly Man. The new winner will be announced at the Campus Chest dance to be held March 8 in the SUB Ballroom.—(Bower Photo)

## CUP To Nominate For ASUI Offices Sunday In SUB

Campus Union Party will meet in con-vention Sunday, February 25, for the purpose of selecting nominees for the ASUI offices in the March 6 general election. Registrations for all delegations who have not turned in their revised membership rosters will begin at 1 p.m. At this time the final determination of delegation votes will be made. Delegations will receive 1 convention vote for each twenty dues-paying CUP members. A major portion of 20 members will also entitle a delegation to an additional vote.

The convention will be called to order at 1:31 p.m. by President Larry Duffin. Following the invocation by Father Schumacher the keynote address will be given by Professor Barnes of the history department.

The proposed platform and convention rules will then be adopted by the convention. Each delegate will also be informed of the official number of votes they may cast.

Nominations will start for the office of ASUI president. Each candidate will receive a short nomination speech from the floor and then give his acceptance of nomination speech. The delegations will then vote by roll call until one nominee receives a majority of the votes cast. The vice

presidential nominee will then be chosen in the same manner. Albers, Lambda Chi, and Mike Powell, Delt, for ASUI vice-presidents will be conducted in a slightly different manner. Since there are nine positions to fill, Taylor Gudmundsen, Beta; Chuck Wardle, Lambda Chi; Ron French, Delt; Allison Miller, Alpha Phi, Roger Anderson, Delta Sig, and Jim Williams, Upsilon

Craig, ASUI president, Dennis Bodily, Lambda Chi, and Mike Powell, Delt, for ASUI vice-presidents will be conducted in a slightly different manner. Since there are nine positions to fill, Taylor Gudmundsen, Beta; Chuck Wardle, Lambda Chi; Ron French, Delt; Allison Miller, Alpha Phi, Roger Anderson, Delta Sig, and Jim Williams, Upsilon

After the convention there will be a short orientation meeting for all the CUP nominees and their campaign managers. This year's nominees will receive CUP funds to help finance their campaign. Vice presidential and presidential nominees will receive \$40 and Executive Board nominees will receive \$25. Candidates who have announced their intention to run are Larry

## Campus Chest Drive Begins

Beginning March 4th and continuing till the 8th, the sophomore class will sponsor the Campus Chest Drive. The list of activities include: Miss Campus Chest and her counterpart, the Ugly Man contest, ending in their coronation at Friday night's Campus Chest dance. Also scheduled during the drive are a treasure hunt March 4th, house and professor auctions March 7th, and a co-ed dance contest March 8th.

A candidate for Miss Campus Chest has been nominated from Gamma Phi; Sue Jones, Forney; ballot box.

Arlene Arbuckle, Alpha Phi; and Pat Tippet, Tri Delt.

Also running are: Roxie Stevens, Houston; Joellen Wright, Hays; Robyn Remaklus, Alpha Gamma; Sally Carlson, Kappa; and Anita Dallilo, McCoy.

Once again this year the Ugly Man on campus will be determined by money votes. The candidates may begin collecting votes prior to the official balloting on March 4th. Each candidate for Ugly Man should provide a large jar to be used as a ballot box.

## Indian Sitarist To Play Tomorrow

Shyamadas, a young sitarist from India will introduce his art to the University of Idaho this Saturday in the Ad. Auditorium. His concert will begin at 8 p.m.

Shyamadas resides near Calcutta and has been invited to tour the United States. He has played his sitar in movies and at many public concerts. He has been a disciple of Ravi Shankar since 1958.

Also in the concert will be tabla player Nava Kumar. The sitar is a guitar-like instrument, but it has a larger gourd belly and a longer neck which carries six main strings and thirteen sympathetically vibrating strings.

The sitarist is usually accompanied by a drummer who plays a set of two drums known as a tabla. The larger one has a bass sound and the smaller produces treble sounds.

Indian music is not orchestral. It is unwritten and highly improvised. A performer has the added responsibility of being a composer as well as a conductor. The basic melodic framework of Indian music is known as a "raga." Many of these are centuries old, but each new performance creates new moods and emotions.

# Bennett Chosen Prexy, Harris V.P. of AWS

The Associated Women Students installed their new officers Wednesday night, just a few hours after the results of the balloting were known.

In the voting that was conducted Wednesday from 8 a.m. to 5:15 p.m., Carol Bennett, Gamma Phi, defeated Twyla Brunson, Hays, for president and Sally Harris, Campbell, over-pulled Jackie Culp, Pi Phi, for the vice-president position.

Donna Stevens, Theta, was elected secretary over Janet Perri, Kappa, and Phyllis Unzicker, Alpha Phi, topped Carol Heimgartner, Tri Delta, for the treasurer spot.

Break down of the balloting was not released but Joan Eismann, retiring president, did announce that 455 ballots were cast in the election, which she pointed out is a better percentage than the ASUI elections draw and even bettered last year's turnout for AWS elections.

Miss Bennett has been active in AWS affairs and also served as vice-president of Gamma Phi. She was co-chairman of the AWS State Hospital North committee and has served on the AWS Women's Hours Committee, AWS Reference Board, and was committee chairman for the AWS state convention.

Sally Harris was also a member of the AWS Reference Board and has been active in many campus activities. She is a member of Spurs, Phi Upsilon Omicron, Valkyries, and was also

ASSOCIATED WOMEN STUDENTS voted Wednesday and elected Phyllis Unzicker, Alpha Phi, secretary; Sally Harris, Campbell Hall, vice-president; Carol Bennett, Gamma Phi, president; and Donna Stevens, Theta, secretary. 455 women participated in Wednesday's voting.

# Editorial Opinion

## Time For Something New

Campus elections are here again, and once again there is only one functioning political party on campus. The fact is inexcusable.

Political parties, it is true, do run a course. They are born from a small group of malcontents in an existing party who feel that the party is out of tune with the times. They die when their own philosophy, once new and aggressive, is itself outdated, and a new group of malcontents arise.

The total triumph of one political party over all others is a rarity. It is even more of a rarity for the triumphant party to endure triumph and unchallenged.

The process of political rise and decline is a healthy one. It insures that there will always be a viable and responsive political structure to meet the needs of the electorate. Generally, since opinions differ on what is best for the electorate, there are a number of political parties in existence.

But, with Idaho's monolithic Campus Union Party the usual life processes have not taken place. It has not reproduced its own kind. It has not begun to sink to that final resting place of all good old parties.

The results of the situation have been twofold. First, CUP appears to be the only route that a campus politician can take who desires party backing. Secondly, CUP has little or no philosophy. It serves primarily as an election machine, and as such it stands as little more than an arena for the exercise of political influence. Neither of these conditions make for the best or most responsive campus government.

Those in CUP must bear the blame. The CUP members who have not been happy with the party should have long ago broken away from CUP and formed another party. Such an undertaking would not be an easy one, but it would be a meaningful one.

C.L.S.

"NOW FOR A SPECIAL DISCUSSION ON THE MOST DEADLY, VICIOUS AND DANGEROUS ENEMY EVER TO FACE U.S. TROOPS, THE AMERICAN PRESS."

### The Golden Fleece II

## Apathy, Why?

By Chris L. Smith, Acting Editor

Once again the political season seems to have descended upon an unwary and unprepared campus. As the weather warms, and the Moscow Monsoons begin, hibernating campus politicians begin to crawl out from under their rocks, and other safe warm places, to pit their political prowess against the fates directed by the often fickle populists.

The political activity reaches its height at the campus political conventions. At those Machievellian confrontations the aspiring politicians pit themselves against each other in a flurry of vote trading, double dealing, and political backstabbing. At times on the convention floor the double deal looks like a paragon of virtue, when compared to the treble, quadruple, and other multiple R.F.'s that are pulled.

The fact that the process does result in the selection of a slate of campus candidates is undisputable. As in nature, the strongest, and in CUP often the most corrupt, survive.

Social Darwinism seems to be the rule of the day at the campus political conventions. But not in accord with Darwin, the strongest who survive are not always the fittest. When Darwinism is applied to any human society the results are not always the same as when applied to a general ecology. Although the strongest in the society eventually survive, in society where value judgments are hopefully made on a basis other than strength, the strongest is not always the best suited to survive.

This is especially true in politics. The environment of the campaign, which is easy for some to master, is considerably different than the environment of governmental activity, which comes after the campaign and may not be easy for those same people to master.

Boiled down to the basics: The best campaigners may not always be the best public officials, and the best potential public officials may be poor on the campaign trail. That is why Democracy is not a perfect

system, although it appears to be the best for this nation. It therefore falls to the citizens in a Democracy to do what they can to correct the fault of the system. Since the ideal of Democracy can be approximated, it is the responsibility of the citizens to try to copy that approximation of the ideal by taking part in the political process.

The sad fact of campus politics at Idaho is that few do take part in attempting to make the system work, and perfecting the Democratic ideal. Less than one-third of the student body votes in many elections. Apathy may be more than a myth in campus politics. It seems to be the absolute reality to a good portion of the campus.

However, to merely scold those who do not participate would be useless, and illogical. A deeper look at the problem is required to arrive at an understanding of why Idaho students do not feel it important to take part in the process of electing their campus leaders. If the cause underlying the problem can be found, the problem can be solved at the basic level, rather than treated symptomatically.

Logically, people are not generally predisposed to go through any more motions than they can see would benefit them in some way. The human race loves leisure (Editors more than most) and does not go out of its way to make useless movements.

Therefore one could assume that if people are not taking the time and energy to vote, and if they are not likely to do anything that does not have a favorable effect on them, then it would be safe to conclude that the small turnout of voters really indicates that student government is doing little that effects the majority of the students.

That conclusion is probably true. More next week.

INTERESTING! A U.S. Government publication states that Uncle Sam is paying \$24.00 each (sic) for ram rods for the M-16 rifle. The catalog states that the rods give "precision shafting." The fact is undeniable that Uncle Sam gets what he pays for.

### The Golden Fleece

## Politics Now

By Roger Anderson, Jason 82

If you turn to the candidates statement page you will see that I have declared myself as a candidate for a CUP nomination to Executive Board. As long as I am a candidate, it is no longer possible for me to be in control of the "Argonaut." "The Argonaut" should not be used. For that reason I am turning over control of the "Argonaut" for the duration of my campaign to Chris Smith. The political sections of the Argonaut will be handled by the Arg's normal political editor, Cliff Eidemiller. This issue was produced without me.

In this final Fleece before the campaign begins, I would like to outline the kind of Board I would like to see elected. Regardless of what one thinks of my views or candidacy, there is only one type of Board to elect: an active and vocal one. Executive Board, in reality, has no power other than to lobby with the administration on the students' behalf and interests. This should not be, but it is.

The criterion that should be used in judging E-Board candidates should therefore be: How effective a lobbyist will the individual make? How vocal has he been, or will he be on behalf of the students? How active has he been in supporting student causes? Some people will say that I am setting up criteria to fit myself. Maybe so, but I genuinely believe that the only effective Executive Board will be one that is willing to be "radical" on occasions.

It is one thing to spout generalities, and another to be specific; so here are some cases in point: Dave Leroy significantly failed the student body when he told the Board of Regents that the number of Idaho students that opposed the hike in fees was just a small, vocal minority. Idaho students were better represented by

ISU's student body president. No one knows exactly how many students were opposed to the increase, but the chances of a referendum being held to find out were certainly not helped by Leroy's bland dismissal of the noise.

The U of I's Mr. Conservative is another example of what I'm talking about. I don't agree with Jim Willms. In fact, few students do. But Jim Willms has certainly made his position on the issues very clear, and quite well known. Can that much be said for E-Board? The Wipe's recent tally of the number of reports submitted by each E-Board member does not entirely measure the work done by each, but it is an indication. Willms is up there.

All effective lobbying is not necessarily public. Gary Vest, burdened though he is by his image, certainly was effective. Much of the credit for the revision of the judicial structure and the creation of the office of Attorney General is due to him. The Student Bill of Rights is an effort to complete an impartial system of justice. (The Student Bill of Rights was started on the initiative of another campus "radical," John Orwick. Orwick proves the point that a thorn in the side at least draws a scratch.)

It again is one thing to describe a man, and another thing to find him. General elections at Idaho in the past have usually not determined anything. The first step is for the student to make every candidate he meets take a stand on the issues. If he'll take a stand for a student, he might take a stand to the regents. The candidate probably won't do this willingly, but he can be forced. While the candidates run, the students must search. Best of luck to the students and may the best E-Board win.

### Dear Jason

#### Houston Coed Offers Apology

Dear Jason, I want to apologize for the undirected "thank you" that I wrote, I realize that I generalized too much in crediting the deeds to "animals."

If you who are "concerned" would send me a name list, I'd gladly give praises to each individual as an individual. However, as it is, most of you are so bashful, you just quietly pass by one, hanging your heads in humbleness. You can thank the

### Dear Jason

holder ones, though, for calling the fact to my attention. Anyway, I'm sorry that I wasn't more specific, D.D.—you probably deserve most of the credit. With sincere regrets, Laura Shikashio, Houston Hall.

P.S. A guilty conscience sure gets heavy, huh!

## T. H. E. Column

By Marty Peterson

From time to time, I have shared with you some of the more choice pieces of mail that have crossed my desk. Some time back, I received some inside information from a gentleman in Chicago which I thought was just too good to pass up. The gentleman is Mr. Larry Klein and he has, in his possession, all of the inside scoop on what's going to be happening here on earth in the future. Some of you may be skeptical of these claims, and there might even be a few of you will be tempted to laugh, but Mr. Klein assures me that all of the information which he has come to him directly from God. Due to the possibilities of libel suits, I won't be to share some of these prophesies with you but here are just a few of those which don't libel anyone.

1. China will bomb Russia before May 30, 1968 (Someone on the U of I staff must have the inside scoop on this, since classes are dismissed that day.)
  2. Ronald Reagan will quit politics around February-March of 1968.
  3. George Romney and Edward Brooke will be elected President and Vice President of the U.S. in November, 1968.
  4. Robert Kennedy will be the Democratic candidate for President in November, 1968.
  5. The United States and many other countries will unite as a federation called the United States of Christ... or parish at war.
  6. The U.S. under the Romney administration (unless sooner) will capture three or four flying saucers.
  7. Russia now has a crippled flying saucer it is studying and has been for some time.
  8. Flying saucers are not from any "civilized" planet in space and are not from any country on earth.
  9. Soon the fallen angels (including their leader Satan) will be proven to be non-human and shown to be in many powerful positions in various governments.
  10. (Exceedingly libelous—he names the person in the U.S. who is really Satan in disguise).
  11. Before 1983 there will be an en masse flying saucer landing near Egypt.
  12. Before 1972 the star "Wormwood" will fall from the skies onto the earth.
  13. Before 1984 the Archangel Michael (as President of the U.S.) will battle Satan in the heavens in flying saucers and Michael will win... driving Satan and all fallen angels to earth.
  14. After 1984 the U.S. will go downhill.
  15. Huge famines are coming, beginning immediately after China bombs Russia in 1968.
  16. Jesus Christ was born on January 17, 4 A.D.
  17. Jesus Christ is coming again. Midnight, December 24-25, 2004.
  18. All murderers of John F. Kennedy will be exposed and the world will see the investigation re-opened under the Romney-Brooke administration.
  19. James Garrison is a strong angel of God; and the John F. Kennedy murder is of spiritual and supernatural meaning and consequence.
  20. (More libel—the names of those who murdered President Kennedy).
  21. November, 1976, Michael, the Archangel, will be elected President of the U.S.
  22. On two planets, Venus and Jupiter, there are magnetic space guns continuously beamed down at Earth and this weaponry (combined with the sin factor in mankind and all animals, flora, etc.) literally has mankind imprisoned. This has been going on for about 6,500 years.
  23. Since God created the world, not yet 7,000 years have gone by.
  24. Soon, five flying saucers and their crews will make contact with the United Nations and pose as "peaceful outer space beings."
- Well group, now you know what all of the big happenings are going to be. Don't say that you haven't been warned.

### Sigma Chis

#### Revise Records

Dear Jason: On behalf of the men of Sigma Chi we would like to set the records straight concerning the Argonaut printing of the letter by Bill Hoene, president of Shoup Hall, on Feb. 20.

In his letter, Hoene accused Thomas G. Crimp and Robert G. Jones as falsely giving their addresses to the Moscow Police Department at Shoup Hall (as was printed in the Feb. 16th Argonaut) instead of Sigma Chi.

If Mr. Hoene would care to check the Moscow Police Department's records, he will discover that Mr. Crimp and Mr. Jones did give their addresses properly as that of Sigma Chi. The error must have taken place at the Police Department or between the Police Dept. and the Argonaut. Perhaps his "Dear

#### Writer Defends Fred Maher

Jason: In regards to Mr. Fred Maher's letter Feb. 20, 1968, in "Dear Jason": Well, the Argonaut keeps shining through. No matter how wrong the Argonaut has been shown to be, it still throws in its "Editor's Note" to prove even further its lack of intelligence and insight and good humor. Editor's Note of Feb. 20, 1968: "The Argonaut would like to thank Fred Maher for the box of chocolates that he gave the staff for Valentine's Day. What a friend we have in Maher!" The Argonaut staff could not have admitted that perhaps finally someone (Mr. Maher) has seen and understood and tried

to correct the apathy, the low grade of value and idiocy of the Argonaut and its staff. Probably never will the Argonaut staff know Maher's true interest.

I'm sorry, Argonaut (and staff); you may not ever again get the opportunity of having someone bother to criticize you to your face—which is the only way that matters. The students will continue to read the Argonaut, chuckle in disgust, and line their waste baskets with it. (Even then, the paper isn't that good.)

This isn't kindergarten, people! Open your eyes. Why must we be subjected to a kindergarten paper?

My only purpose in reading the Argonaut was to search for a column under which was signed "Maher."

My only worry now is that Mr. Maher has given up on the Argonaut, and will not read my contribution of a paragraph or two.

The apathy on the campus (U of I) is strained so finely, and is so apparent in the Argonaut. There is only one thing left to say:

"Mr. Maher, you have tried, and that is all you can do. Don't forget, you can't teach an old dog new tricks, and our dog is just about dead."

Sincerely,  
 Jerri Moser

## "Sex on Sunday," Yes or No

Opinion Poll Committee  
 By Pat Tracy

This column is designed to show the opinions of students who are picked randomly to comment on certain questions and controversial issues. This column is not intended to show trends or support stands. Hopefully, the reader will take his own stand on the issue presented and thusly create a trend.

The question for this week is: "Do you think it is ethically and morally acceptable to have sex on Sunday at the University of Idaho?"

Marlene Vaughn—Olesen Hall  
 "I really don't see what difference it makes. I really don't. If you want to have sex, Sunday is just as good as any other day."  
 Jackie Bodenhofer—Campbell Hall  
 "I can't think of anything to say. I really can't."  
 Mike Nelson—Sigma Alpha Epsilon  
 "Certainly, just use the back pew."  
 Vickie Taylor—Alpha Gamma delta  
 "No!"  
 Ken Hale—Chrisman Hall  
 "Why sure, I don't think there is anything wrong with sex on Sunday. Anytime, Sunday isn't much more special to most people than any other day. Sex is fine, and sex on Sunday is fine also."  
 Jo Gushenoven—Hays Hall  
 "No. Never!"  
 Judy Terry—Alpha Phi  
 "No comment."  
 Tyra Davis—Delta Gamma  
 "It is probably as ethically and morally acceptable on Sunday as any other day varying with the individual's ethics and morals."

# C.U.P. Slates Convention Feb. 25

## CUP Platform

**Preamble**  
We, the members of Campus Union Party, assembled in convention do hereby ordain this platform as our official position for the 1968 ASUI general election. Our acceptance of this platform obligates us to work in behalf of the principles herein expressed.

**Issues**  
Campus Union Party recognizes its position as the only political party on this campus. It therefore realizes that as a mass party differences in opinion must exist within the party. Campus Union Party will therefore support the legitimate expressions of student opinion by its candidates.

There are certain areas, however, that are so crucial they cannot be ignored. Campus Union Party therefore supports the issues enumerated below:

1. We recognize the major role that Activities Council plays in student activities and urge that it receives the consideration it deserves. We also support a closer relationship between Activities Council and Executive Board.

2. In line with the recent legislation passed by Executive Board, Campus Union Party supports a continuing review of the ASUI judicial system.

3. Campus Union Party urges that any administrative body that makes policy of direct interest to the students make provisions to insure responsible student opinion is heard.

4. Campus Union Party recognizes that student recruitment programs are crucial to the Universities existence. It therefore urges a consolidation of the various recruitment programs into a single comprehensive one.

## Craig Runs For Pres. 2 Announce for V.P.

President

Vice President

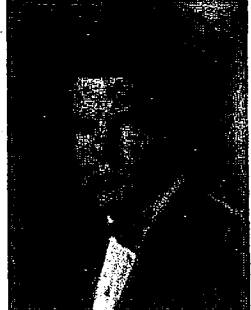

Vice President

Larry Craig

Mike Powell

Dennis Albers

Are you in favor of a community council type of government for the University of Idaho?

Yes, in any academic community where thought flow between student, faculty and administration is of vital necessity, community council type of government is a very feasible form.

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

I would feel obligated as their representative to speak for the majority opinion Idaho students desired.

Are you in favor of the present Student Bill of Rights proposal?

Yes, it has been a long time coming, too long, but now that the student bill of rights is here, I think it is basically sound.

Do you feel any changes are necessary in the University Bookstore?

Yes, with qualifications: Under its present set up it is being operated well. The bookstore questionnaire will come out next week. This could reflect students desire for change.

Are present parking facilities and policies in need of change?

Yes, with Complex X consuming a major parking lot and more cars coming on campus every year, adequate available parking is a problem. New facilities with liberal policies must be made available.

What action would you take in regard to student fee increase?

I would run an opinion poll to test student attitude on fee increases. The student government could then act in accordance with majority student opinion.

Should the ASUI student recruitment program be revised? If so, how?

At present it appears to be workable. But, student recruitment should be a university sponsored program with students participating.

Are you in favor of a community council type of government for the University of Idaho?

Yes; the Committee on Campus Affairs has had very vague responsibilities and duties this year; however, with the establishment of the new Faculty Constitution and Campus Affairs By-Laws students will have a newly found voice in the role of all campus activities.

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

Are you in favor of the present Student Bill of Rights proposal?

Student opinion will be felt by all of these agencies merely by the representatives we put on Campus Affairs. This body is in key position if students will only use it advantageously.

Are you in favor of the present Student Bill of Rights proposal?

Yes but more than that I'd like to do all I can to get it approved by all bodies concerned as soon as possible.

What action would you take in regard to student fee increase?

Nothing, let's just make sure that students have a say the next time.

What special plans and programs would you like to see Activities Council carry out??

Activities Council involves approximately 60 per cent of campus activities with only 9 per cent of the ASUI budget, so my desire would be to acquire increased budget coverage to strengthen and expand Activities Council.

Besides next fall's upcoming Senior Day, Activities Council could research the possibilities of further competitive activities with WSU, eg, Intramural Championships and College Bowl Playoffs.

Are you in favor of a community council type of government for the University of Idaho?

No. As well as being tremendous, nearly impractical, work responsibility for the elected student member, effective checks and balance system would be virtually lost.

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

Are you in favor of the present Student Bill of Rights proposal?

Representative petitions from campus-wide living and interest groups, administrative and organized through class officers, are very effective and easily publicized to represent campus opinion.

Are you in favor of the present Student Bill of Rights proposal?

Yes. A cataloging of student rights is and has long been necessary. However strict care must be exercised by E-Board to insure that inherent constitutional parallels are followed.

Should the ASUI student recruitment program be revised? If so, how?

The recently passed recruitment program can work, provided that Recruitment, the Admissions Office, Senior Day, and all other student recruiting groups work collectively toward their expressed common goal.

What special plans and programs would you like to see Activities Council carry out??

In what capacity should student government be involved in campus physical planning?

If students are to be billed for the building of new facilities they should at least be represented on the planning commission.

## Board Candidates

E-Board

E-Board

Allison

Miller

Ron French

Are you in favor of a community council type of government for the University of Idaho?

This structure provides equal representation for and clear communications among all university segments. This facilitates total efficiency in achieving government goals.

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

As the official delegate, the President should represent and express student opinion. As an E-Board member, I would ascertain the President's knowledge of student views.

Are you in favor of the present Student Bill of Rights proposal?

The bill guarantees students their inalienable rights; however, we must realize future implications and possible interpretations. Therefore, legal clarification is needed before passing the bill.

What action would you take in regard to student fee increase?

First, it is necessary to determine how the majority of the students feel on this issue. Then, parties such as the Board of Regents, the legislators, etc. must be informed of this opinion they must know the opinion before they can respond to it.

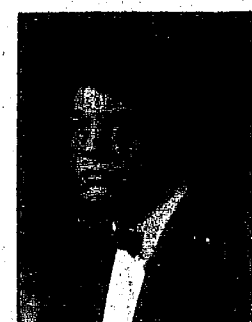

## E-Board Candidates Seek Nomination

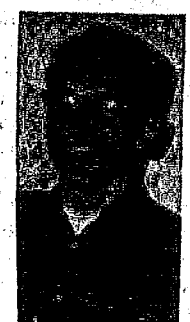

E-Board

E-Board

E-Board

Taylor Gudmundson

Roger Anderson

Jim Willms

Are you in favor of a community council type of government for the University of Idaho?

It is in my opinion that the nature of the problems, the tenure of student offices, and the varied interest that lie with the different departments would not comply with an overall community council type of government, for the University of Idaho. However, in many areas I think the combined efforts of faculty, administrators, and students can best accomplish the desired goals.

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

Student opinion expressed on the state level can only be represented through newspaper articles and possible correspondence with state legislatures. Student opinion can be expressed to the regents through the President of the University, and opinion expressed to the administration and faculty can be accomplished through the faculty council committees.

Are you in favor of the present Student Bill of Rights proposal?

I definitely am in favor of the student bill of rights and I feel its accomplishments can only be felt through the student awareness and enactment of the stated rights.

Should the ASUI student recruitment program be revised? If so, how?

The most serious problem the University of Idaho will be facing within the next several years will be that of recruiting in-state students. With this in mind, I firmly believe a comprehensive program should be instituted under a separate committee that should come under public relations.

Are you in favor of a community council type of government for the University of Idaho?

Community government is the only way students are going to gain some real power over their own affairs. The Administration is never going to give the students all the power, but we could at least share in the decision.

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

Executive Board must be extremely vocal in the defense of the students. Student government must press forward vigorously in every area of the students' interest. Only in this way can a compromise be reached that will be of significance to the student.

Are you in favor of the present Student Bill of Rights proposal?

The Student Bill of Rights now under consideration is a good one. The student government must press for its adoption with as little change as possible. Executive Board should appoint an Attorney General, not to prosecute, but to jealously guard the rights outlined in the bill.

Are present parking facilities and policies in need of change?

The university is presently constructing new dormitories without constructing parking lots for those students. In the future the middle of the campus will be cut off from traffic and parking. If Idaho students are going to keep their privileges of having a car on campus, E-Board is going to have to act now, either through lobbying or appropriation.

Are you in favor of a community council type of government for the University of Idaho?

I am in favor of a community council government in a limited sense. A relatively autonomous student government must be preserved if only to administer the ASUI budget.

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

Valid student opinion can be represented to the public only on the basis of appropriate referendums, opinion polls, or petitions. This can be done through official ASUI communications media.

Are you in favor of the present Student Bill of Rights proposal?

I am not in favor of the present student bill of rights proposal as certain sections of it seem destined to replace order by anarchy.

Are present parking facilities and policies in need of change?

In addition to the present crisis in parking construction of new buildings and dormitories will eliminate many spaces. Planning for practical as well as aesthetic value is in need.

E-Board

Chuck Wardle

Are you in favor of a community council type of government for the University of Idaho?

No. The community council would have too preponderous a jurisdiction. Therefore, it would be physically unable to consider each proposal in depth.

How would you represent student opinion to the state, the regents, the administrations, and the faculty?

Through responsible student governmental proposals, these absences would become cognizant of student opinion. Therefore, mature student government is the key.

Are you in favor of the present Student Bill of Rights proposal?

Unofficially, we enjoy most of the rights enumerated in the bill. However, this official statement will obviate many future discrepancies. But the present bill needs a legal reading.

In what capacity should student government be involved in campus physical planning?

The administration should definitely consult student government in campus physical planning. Because students are the most effective measure of physical plant usefulness, the University would profit from such consultation.

# Party Convention Rules Announced

The following rules of procedure will be used by the Delegates at the Campus Union Party Convention Sunday. They have been approved by the CUP caucus and officers.

**A. DELEGATIONS**  
The convention shall consist of one delegation from each of the dues-paying member organizations. Each delegation shall be composed of dues-paying members of the Campus Union Party and of the member organization.

Each member organization shall have voting power as related to the number of members involved in each academic class. This relationship shall be:

1. One vote per 10 members or any major portion of 10 for members of the Soph., Jr., Sr. class, respectively, and,
2. One vote per 20 members or any major portion of 20 for members of the Fresh class.

Each class within a dues paying organization is entitled to one vote regardless of size.

**B. PROXIES**  
No proxies are allowed.  
**C. ALTERNATES**  
No alternates are allowed.  
**D. FLOOR**  
Only delegates and officials of the convention may be allowed on the convention floor.

**E. ADJOURNMENT**  
A motion to adjourn may be made at any time. Motion is not debatable and may not be placed on the table.  
**F. CHALLENGING VOTE**  
On roll call by member organizations, a delegation shall be polled on challenge by any member of the delegation. The demand must challenge the accuracy of the vote and must be made before the next delegation is called.  
**G. DEBATE**  
Recognition for debate is within discretion of the chair, but

members of committees reporting the proposition under discussion or those entitled to the floor under prevailing order of business, take precedence. Debate is not in order during roll call.

**H. DIVISION**  
A division of the question, and a separate vote on each substantive proposition contained in a committee report or any pending question, may be requested by any delegate and is in order even after the previous question is demanded.

**I. MOTIONS AND RESOLUTIONS**  
Delegates must secure recognition from the chair in order to offer a motion and chair may inquire the delegate to state his purpose. After hearing the motion, the chair may decline recognition.

After an order of business is adopted, no motions are admissible unless in order under the pending item of business or at

that particular state of the proceedings.

**J. NOMINATIONS**  
Delegates may vote for any candidate whether nominated or not. A delegation, when reached in the call of member organizations for nomination to any office, has three options:

- A. To pass
  - B. To nominate a candidate or candidates
  - C. To yield to another member organization
- Candidates shall be nominated from the floor by official delegates. The nominees shall be dues-paying members and may be a delegate to the convention. The nominating speeches for Sr. Officers shall not exceed three minutes in length. Speeches for Jr., Soph., and Fresh officers shall not exceed two minutes in length.

In order to receive the nomination, the nominee must receive 50 per cent of the votes cast by the convention delegates present.

After the second ballot, the one receiving the smallest number of votes shall be eliminated from the ballot. On each following ballot, this practice shall be maintained. Acceptance shall not exceed three minutes in length.

Demonstrations for the nominees are permissible but must not exceed three minutes in length. No confetti is to be used during these demonstrations.

A nominee is allowed only one demonstration for each nomination he may receive. Demonstrations shall take place immediately after the nomination speech. The nominee's reply shall follow the demonstration and shall not exceed three minutes in length.

**K. POINTS OF ORDER**  
Points of order against a proceeding come too late after debate has begun or other business has intervened. Points of order arising during a roll call are

decided pre-emptorily and are not subject to appeal.

**L. PREVIOUS QUESTION**  
Previous question, when ordered, precludes both debate and amendment. Committee members presenting reports may move previous question but if ordered before any debate has taken place, a maximum of 20 minutes is allowed, 10 minutes on each side.

If debate is commenced and motion is made and agreed, it precludes further debate.  
**M. RECESS**  
Motion to recess is not debatable.  
**N. SUSPENSION OF RULES**  
Motion to suspend the rules interrupts the regular order of business and is in order at any time, except during roll call. Recognition to move suspension is within the discretion of chair and requires a 2/3 majority. Motion to suspend may not be amended, reconsidered, or laid on the table.

**O. UNANIMOUS**  
Any action may be taken and any proceeding made by unanimous consent regardless of the rules or under exceptional circumstances.

**P. VOTING**  
On a roll call of the member organizations, the vote of this organization is announced by the respective chairman of the several delegations. In the absence of the chairman, the vice-chairman or a person delegated by the chairman shall announce the vote.

Delegations not prepared to vote may be passed and called at the end of the roll. Each delegate retains his full vote throughout the convention, even if he is nominated to a position as a candidate. Votes may be charged at any time prior to final announcement.

**R. AMENDMENT**  
These rules may be amended by a 2/3 majority of the convention at any time.

TO THE CALIFORNIA POLICEMAN, it's an affront against order; to the Mexican migrant laborer, it's a fight for survival. The conflicting passions aroused by the two-year grape pickers' strike is subject of "NET Journal-Huelgal!"

Any student interested in being selected as a representative to go on the People Ambassador Program to Europe this summer should contact Lesley Hervey, DG, by 5 p.m. today or turn in his name to the SUB Information Desk.

The University of Idaho chapter of Spurs will award a \$100 scholarship to be used for the coming school year by a former Spur. Applications may be made through the Office of Student Affairs and are due March 1.

### U-I Arnold Air Society To Host Eleven Schools

Eleven universities representing four states will be hosted by the Eugene H. Beebe Squadron, Anne Morse Jones of Boise is the leader of Idaho's Angel Flight.

Arnold Air Society is a national professional service organization composed of outstanding Air Force ROTC cadets. With squadrons located at 170 colleges and universities, the society presently has a membership of more than 6,500 members.

Dr. Ernest W. Hartung, will address more than 300 students at the area conclave on Saturday afternoon. Also in attendance will be members of Individual Angel Flights composed of college coeds.

The Angels participate in an active program of service projects of their own as well as serving as hostesses at their respective university, civic, and Air Force ROTC functions.

Heading the Arnold Air Society at Idaho is Robert C. Wamstad, Wamstad is the cadet commander of the 29-member Eugene H. Beebe Squadron.

Taking part in the activities will be the Universities of Washington, Washington State, Montana, Montana State, Willamette, Portland, Oregon, Oregon State, Puget Sound, and Central Washington State College.

Guest speaker at the banquet on Saturday afternoon will be Col. Ronald Severson of Spokane, who is known as "The Human Echo," and is the Air Force Academy liaison officer for the Spokane area. Also addressing the group will be Col. Robert C. Ogletree, commandant of Air Force ROTC Area 2.

Awards will be presented at the luncheon, and later on in the afternoon, the "Little Colonel" candidate will be selected for the National Conclave from 11 candidates.

NEWLY INITIATED ANGEL FLIGHT MEMBER is Pat McGinnis, Pi Phi, who receives congratulations from retiring flight commander Rosemary Baldwin, DG, and a new flight commander Nancy Coe, Gamma Phi. Initiation was held Tuesday night.

## Grape Pickers Strike Documentary Subject

"Huelgal," the prize-winning chronicle of the California grape pickers strike has its television premiere on "NET Journal" Mon. and Wed. at 6:30 p.m. and 9:00 p.m. on Channel 12.

The hour-long documentary, applauded by Variety for its "stirring revolutionary form," charts the inception of the strike in September of 1965 against 35 growers in the vicinity of Delano, California. The strikers, Mexican-American migrants with

a docile history, dramatize their demands in the fields, encouraging other workers to join them.

The film depicts their growing unity as they march to the capitol at Sacramento, form their own satirical theater group, Teatro Campesino and finally succeed in drawing some foremen and "scabs" into their camp.

Prominent in the film are the two men who have led the cry of "Huelgal," (the Spanish word for "strike") Caesar Chavez and Luis Valdez. Their efforts continue to date, as only three of the 35 growers have acceded to

demands for a minimum wage, the right of collective bargaining, and unemployment compensation.

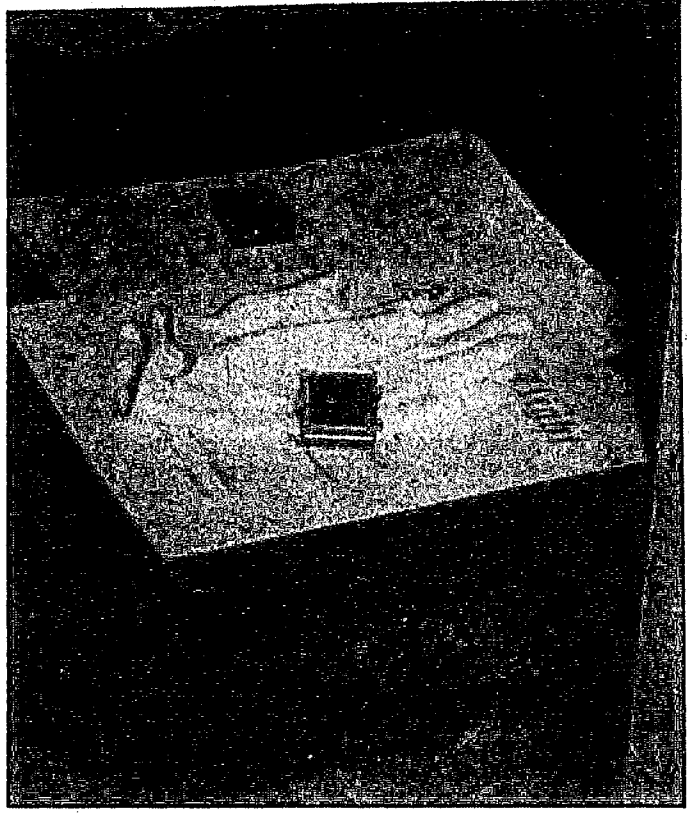

"Huelgal," filmed in color by King Screen Productions, is a presentation of National Educational Television. It has appeared at several film festivals, winning awards at the International Labour Film Festival in Montreal, International Film and Television Festival in New York, and Vancouver International Film Festival. Mark J. Harris is producer and writer. Director is Skeets McGrew. Narrator, Paul Herlinger. NET producer, William Weston.

### Sigs Slate Derby Day

Sigma Chi's annual Sweetheart contest begins this Sunday when the contestants go to the house for dinners and entertainment. The girls will be invited to the house all week with Derby Day culminating the activities on Saturday. If the weather is bad the Derby Day activities will be held in the Field House.

The following girls will be representing their living groups: Carolyn Keithly, Alpha Phi; Trudi Bennett, Carter Hall; Rosie Pittenger, Olsen; Ginny Wood, Tri-Delta; Susan Goplerud, Kappa; Susan Gardner, French; Candy Cain, Alpha Chi; Rozanne Gardner, Steel House; Bobbie Ash-to, Hays Hall; Kristi Visnes, Houston; Kerry Lockhart, Alpha Gamma; Cathie Morgan, Delta Gamma; Muriel Beckwith, McCoy; Christy Elguren, Gamma Phi; Fern Stevens, Campbell Hall; Rachelle Meenach, Theta; Jeanne Ganquet, Pi Phi; and Patricia Gagon, Forney.

The finalists will be voted on after Derby Day and announced by serenade March 3. The Sweetheart Ball will be March 9 and will be held at the Spokane Club in Spokane.

SIGNS OF BEING A FULL FLEDGED ANGEL include certificates and a pair of wings, plus white gloves. Twenty-two cherubs were initiated into Angel Flight, a branch of Arnold Air Society, Tuesday night at the SUB. (Bower Photo)

**Idaho Graduate Attends AF School**

Captain James D. Buckley, 1957 graduate of the University of Idaho, is attending the Air University (AU) academic instructor course at Maxwell AFB, Ala.

Captain Buckley was specially selected for the intensive six-week professional training that is conducted as part of the AU Academic Instructor and Allied Officer School, the teachers college of the U.S. Air Force.

The captain is an instructor for the Strategic Air Command at Vandenberg AFB, Calif.

A German Coffee Hour will be held today at 3 p.m. in the Burning Stake. The featured film will be "Jesusalem."

**Opera Workshop Draws Audience Of 200 People**

The Opera Workshop, presented last Tuesday by music and drama students, drew an audience of about 200 people who heard scenes from five famous operas recreated on the stage in the Music Building.

Director Charles Walton, Music Dept., used three comic scenes and two of a more serious nature for the production. "Hansel and Gretel," by Humperdinck; Mozart's "Marriage of Figaro," and "The Merry Wives of Windsor," were used for the comic scenes, while "Catalina Rusticana" by Mascagni, and "Aida" by Verdi were the straight scenes.

Principles in the workshop were Twyla Brunson, Hays; Dorothy Neuer, off-campus; Karen Bauer, off-campus; Kris Berg, Forney; Dave Knutson, Sigma Chi; and Peggy Sharp, Kappa.

Other principles were: Richard Wilson, Delt; Carmen Powers, off-campus; Dale Uhlman, Alpha Kappa Lambda; Jerry Benton, off-campus; Larry Gee, off-campus; and Diana Alcorn, off-campus.

Dale Uhlman, who sang in the "Merry Wives of Windsor" and the "Marriage of Figaro," said that he felt the workshop was a big success. "It went real well," he said. "The audience was real receptive to them." (The scenes).

Uhlman, director Walton, and the rest of the cast in "The Merry Wives of Windsor" also presented this scene at the Idaho Music Educator's Association banquet last weekend in Boise. Uhlman said that the Educator's seemed to enjoy the scene.

This spring, the workshop will be doing two chamber (one act) operas.

## No Negative Culture Here

By SANDY HUTT  
 Arg. Social Editor

"The Idaho campus is not as culturally negative as most believe. Each student has his own interest and must be able to find that area. If through the committees under Educational and Cultural Area some of these students can be reached, then the Area has been a success," stated Michelle Dumas, ASUI Educational-Cultural Area Director.

The committees under Miss Dumas offer a great variation for the Idaho student to find an area of interest that suits his personal needs. One of the newest committees just passed at a recent E-Board session is Theology. This religious discussion group is replacing the Religion in Life Committee with this more liberal committee, which is sponsored and mainly financed by the Religious Directors Associates. Big-name speakers will be asked to talk to the group and campus on a subject of a theological nature.

College Bowl is at work this semester sponsoring the living group competition. For next year a regional tournament is in the planning. People to People Committee will be busy the next few weeks in arranging plans for their International Bazaar. Each foreign group will be participating with their native costume and entertainment. The Bazaar will be April 7.

MUN also is under the directorship of Michelle and are in the process of organizing their first on-campus Mock U.N. session. The session slated for March 3 at the SUB has had great response from the living groups. In future years students will know what to expect and the sessions will become annual activities of the living groups.

When asked if she would like to continue in the activities area or other ASUI branches Miss Dumas replied that now that she has the time she would simply like to enjoy the coffee hours, bazaars, and activities that she had always been too busy working with to enjoy.

The tryouts for the new Educational-Cultural Area director will be the second week of March. The main qualifications will be a willingness to learn and the patience needed to cooperate.

Friday night there will be a dance in the SUB Ballroom. Sponsored by the student musicians belonging to M.E.C.O., the dance will be held from 9:30 p.m. to 12:30 a.m., following the basketball game. Admission prices are 75c for couples and 50c for singles.

"Great Decisions 1968" will be shown via KWID-TV at the Campus Christian Center Sunday, Feb. 25, and consecutive Sundays, at 7:30 p.m. It will also be shown consecutive Tuesdays beginning Feb. 27 at 12 noon. Both faculty and students are invited.

Some say we specialize in power... power for propulsion... power for aircraft, missiles and space vehicles... power for marine and industrial applications...

... they're right. And wrong.

It might be said, instead, that we specialize in people, for we believe that people are a most important reason for our company's success. We act on that belief.

We select our engineers and scientists carefully. Motivate them well. Give them the equipment and facilities only a leader can provide. Offer them company-paid, graduate-education opportunities. Encourage them to push into fields that have not been explored before. Keep them reaching for a little bit more responsibility than they can manage. Reward them well when they do manage it.

You could be one of the reasons for Pratt & Whitney Aircraft's success... if you have a B.S., M.S. or Ph.D. in:  
 MECHANICAL • AERONAUTICAL • ELECTRICAL  
 CHEMICAL • CIVIL • MARINE • INDUSTRIAL  
 ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY  
 CERAMICS • MATHEMATICS • STATISTICS  
 COMPUTER SCIENCE • ENGINEERING SCIENCE  
 ENGINEERING MECHANICS.

And we could be the big reason for your success. Consult your college placement officer—or write Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

# Vandals Need Wins To Stay Alive

The Vandals will be fighting for their lives this weekend as they take on the Grizzlies of Montana twice and Montana State's Bobcats once.

They continue conference action tonight when they host the Grizzlies in the first of their two game series that will be completed Saturday night. The Bobcats will play in Spokane tonight and Saturday and then trade places with the Grizzlies and play the Vandals here on Monday to finish the weekend.

Three losses in a row last weekend dealt a staggering blow to the Vandal's title hopes but they can stay in the running with three victories this weekend. After Monday they will have one conference contest remaining. It will be played March 2 in Spokane against Gonzaga.

The Vandals played a similar three-game road trip in Montana

and came back home with two victories and only one loss to put them in contention for the Big Sky title. At that time they defeated Montana 76-69 in Missoula and then moved to Bozeman where they split with Montana State. The Bobcats rebounded from their 84-83 loss the first night to take the second game 87-71.

Jim Thacker is currently leading the Vandals in the scoring department with 17.5 points per game average. He is also rated 20th in the nation for his accurate freethrow shooting.

The league leading Weber State Wildcats will play one conference contest this weekend as they travel to Pocatello to play Idaho State. League action will be completed next weekend as the Vandals play Gonzaga and Idaho State and Weber moves into Montana for three game series with the Montana schools.

Argonaut Sports Editor

Spring is just around the corner and that means one thing—track season is just around the bend. Shown in the picture on the right is head track coach Doug McFarlane posing in a nearby lake. The lake is actually located right in the center of the University of Idaho's track.

For many years now this lake has been well kept up and there has been speculation that the Wildlife Division of the Forestry Dept. would be interested in making it a tourist attraction by the planting of fish in the lake and doing some necessary landscaping to provide beaches for the Spring student loungers.

Now their plans have been shattered after many centuries since the passing of the athletic complex has provided for a new track which will be started this summer and finished in time for next year's track season. This also means that McFarlane will have to alter his whole spring sports program. This means no more issuing of pontoons for his track squad to keep afloat during competition which also brings up the cold hard fact that his thinclads will have the opportunity to run on solid ground for a change.

MacFarlane is no politician but for many years he has had his group of "muckrakers" and I refer to them in the literal sense. For many seasons their job has been to get up bright and early on the day of a home meet and stack mud bricks on the perimeter of the track to provide a pathway for the tracksters to run in. This will all be eliminated now since a new innovation will be introduced, a relatively new innovation to the University—that being a drainage system.

Although forestry is one of the main industries in Idaho, it will no longer provide sawdust for the field event pits. Idaho is one of the unique universities in the use of sawdust. At most schools which have not changed since 1921 and are still using sawdust, the fine prickly powder serves as a cushion for competitors in the field events. At Idaho, sawdust serves an absorbent function—it mainly absorbs the excess water so when you land in the pit, you slide instead of making a big splash. They did realize one thing and that is that sawdust absorbs moisture more readily than track uniforms.

In addition, the new track will eliminate all inquiries about using the lake for an outdoor swimming pool. It is strictly a judgment play whether the outdoor lake on the track is larger than our present sanctioned bathtub for swim meets or whether the fish pen is the larger of the two. There is almost a majority vote that the outdoor lake is actually deeper in spots and would provide for safer diving competition and less hospital bills since the lake has a soft bottom and the fish pen is solid cement.

Actually the Vandal finmen will be provided with adequate swimming facilities since the athletic complex also provides for some swimming pools. The only repercussion that the Athletic Department might have to face is the complaints of the humanitarians who may be upset when the natural wonder on the University's track is destroyed. It may also bring in that dreaded thing that all native Idahoans hate and that is commercialization. Commercialization will be introduced from the standpoint that more people may attend a track meet at Idaho and Idaho may have an opportunity to schedule more than one home track meet during the Spring season.

Idaho is fortunate that they have one home track meet this year with Montana on April 27. For obvious reasons this meet has been scheduled late in the spring to allow for the "Great Lake" to recede. In the event that it is a wet spring, MacFarlane will be forced to gather a bucket brigade to help bail out both the water and his trackmen out of the lake. The only useful function that the lake can fulfill in relation to track is that it may be used for a jumping off point in the steeple chase, because nobody can be expected to jump forty feet over an obstacle and still clear the lake.

A word to the wise. If you want to enjoy the comfort of the "Great Lake", you had better do it this Spring since it will be a thing of the past in the near future.

Charles Fletcher poses in front of the MG that he drove to first place in the C-production class in the Autocross held yesterday at the Moscow-Pullman Airport and sponsored by University of Idaho Sports Car Association. His time of 60.8 secs. was the best time of the day.

# Vandals On The Road For Conference Meets

The Idaho swim team, with a dual-meet record of nine wins and only four losses, moves to Ogden, Utah, this weekend as they take part in the Big Sky Championships.

Coach Chet Hall, in his first year as coach, feels that there are some members of the Vandals team who could come up with good performances in this annual meet. Dan Kirkland, Moscow, who set a new Idaho record last week in the 1000 yard freestyle, is rated a top performer. Kirkland's record of 11:20:3 is also the fastest time in the conference this year. Marc Greenwell, freshman from Hawaii, added a new backstroke record of 2:09.5 over the 200-yard course and this also is tops in the Big Sky this season.

Stein Buer, freshman from Sacramento, Calif., is another top performer with a 1:55.4 clocking in the 200-yard freestyle.

Meanwhile Coach Ron Stephenson and his nine-man wrestling squad, head for Pocatello and the

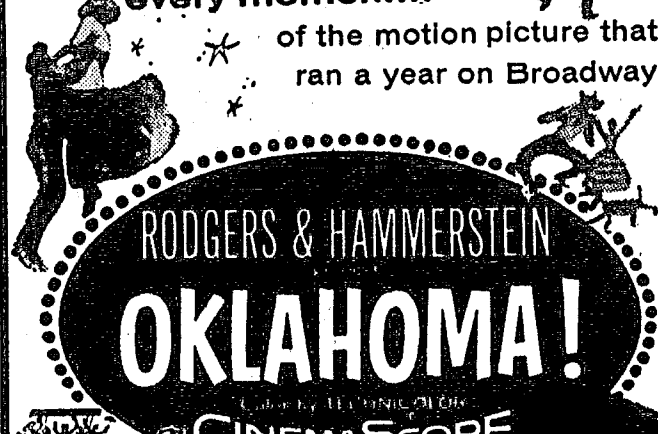

Big Sky championships this weekend.

Tim Lape, from Santa Clara, Calif., is rated a good chance in the 130-pound division. Lape has an 8-9-1 record this season. JIM Lemmon, Mt. Home, has been a consistent performer in the 177-pound class and has a season record of 11 wins and five losses. Ed Clauson, Spokane native, has a record of eight wins, five losses and a tie, rates as a top contender in the 191-pound division. Brian Metheny, from Phoenix, Ariz., will be taking a 3-1 record into the heavyweight division.

The Vandals were hurt when Dave Mohler, a 115-pound class wrestler, suffered a broken rib and will not see action. Mohler was rated as one of the best in the conference. Other wrestlers who will compete include: Mike Ford, 123-pound; Dan Bender, 137-pound; Dale Mowrer, 145-pound; Mike Boeck, 152-pound; and Butch Mitchell, 160-pound.
