

Drama presents Hedda Gabler Thursday evening

Checking costumes for Hedda Gabler are Jane Cooke, Hays and Rebecca Barnes, Ethel Steele. The performance, which is free to students with their activity tickets, will start at 8 p.m. Directing the fall production is Forest Sears.

By Brian Lobdell

Turning back the clock to the Victorian Age, Idaho drama will open its fall production "Hedda Gabler" this Thursday evening at 8:00 in the Ad. Auditorium.

Robert Thompson, designer-technician for the show, brought the intricate set to life last weekend, as he and his crews culminated long nights of work and construction.

The set is the first box set that the Idaho campus has seen in some time, but it has been uniquely designed by Thompson to avoid the appearance of a "square room."

The set actually has two rooms, a larger living room on the front part of the stage, and a smaller alcove in back is elevated from the main stage floor.

The furniture is lavish Victorian, part of which has been borrowed from Moscow establishments, and rounds out the physical appearance of the stage.

Costumes for the show have been rented, and will provide audiences with a view of the stylish dress of the Victorian Age. The women have floor-length lacy gowns, parasols, and full bouffant hair styles. The men in the show have been learning to tie their bow-ties, while they have been getting used to their suits, gloves and derby hats.

The show will be judged during one of its performances this weekend, by a regional judge for the American Educational Theatre Association. AETA is sponsoring a national play competition, and the top ten shows picked from 13 regions will be flown to Washington D.C. where they will perform for a week.

Tickets for the show, which will play this Thursday, Friday, and Saturday evening at 8:00, are available at the SUB Information desk.

Student tickets are free with a student body card, while adult tickets at \$1.50.

Director for the show, Forrest Sears, has the cast in costumes and under the lights this week as the show goes through final dress rehearsals.

The theme of the play centers around the neurotic Hedda Gabler, her problems, actions, and resulting tragedies.

Ever since the play was written by Ibsen, the role of Hedda has been considered one of the most challenging roles for a female actor. This is not without reason, as the part calls for tremendous characterization of a woman who is temperamental, sly, charming, coniving, and a host of other varied adjectives.

Playing Hedda in the Idaho production will be Corrine Rowland, Tri-Delta.

Although the entire cast consists of seven actors, the play is so closely woven that Ibsen is able to tell his entire story through these few performers.

John Naples, off-campus, will play George Tesman, Hedda's husband; John Daley, off-campus, will play Judge Brack; and Nicholas Vlachos, Sigma Nu, will play Ellert Louvborg. Leslie Leek, Tri-Delta, portrays Mrs. Elvstead; Shelly Mitchell, Oleson, plays Julia Tesman, the aunt; and Rebecca Barnes, Ethel Steele, will portray Berta, the maid.

Corrine Rowland, Iri Delta, and Nick Vlachos, Sigma Nu, practice their parts for Hedda Gabler, to be presented this Thursday through Saturday at the University Auditorium. Tickets may be obtained at the SUB Information Desk.

Volume 73, No. 13

Bill Cosby featured at Dad's Day

Bill Cosby, three-time Emmy Award winning star of a dramatic television series, will again appear at the University of Idaho for performances the evening of Dad's Day, November 2, in Memorial Gymnasium.

Cosby attracted the largest audience ever seated in the gymnasium two years ago when he gave a single performance. This year he will make two Saturday appearances — at 7 and 9:15 p.m. Prices are \$3.50 for general admission and \$4.50 for reserved seats.

With Cosby are The Pair Extraordinaire, a unique duet of the solo voice of Carl Craig and the bass violin of Marcus Hemphill.

It is difficult to say whether Bill Cosby is best known for his three years co-starring with Robert Culp on NBC-TV's spy thriller, "I Spy" (for which he received three Emmy Awards for best actor in a dramatic series), or for his six comedy record albums (for which he received four Grammy Awards), or for his two singing albums, because of his 350 radio spots in 500 cities, or for his personal appearances across the land to packed auditoriums.

He may even be remembered by a few football buffs as a promising Temple University gridder, where he attended two years on an athletic scholarship.

The Pair Extraordinaire is said to have "stripped music to its basics," instead of depending on an orchestra, echo chamber or musical embellishments for a unique sound. Hemphill's bass as the only accompaniment to Craig's voice is what sets them apart. Their repertoire ranges from lusty and vigorous songs to haunting ballads, such as they have performed on television and on four Liberty albums.

TGIF gives dance

The TGIF Committee will sponsor a dance at the Dipper Friday at 8 p.m. There will be a band.

Art exhibition shows original prints Thursday

The Ferdinand Roten Galleries exhibition of original prints by classic and contemporary artists will be displayed at the University of Idaho's Student Union building October 24.

The exhibition, including more than 1,000 etchings, lithographs and woodcuts by such artists as Picasso, Chagall, Goya, Renoir, Miro and Kollwitz, will be on display from 10 a.m. through 4 p.m.

A representative of Roten Galleries, Robert DeMuth will be available to answer any questions regarding printmaking and graphic art.

Established in 1932, Roten Galleries of Baltimore, Md., has one of the largest collections of graphic art in the country. The Galleries specializes in arranging exhibitions at colleges, universities and museums throughout the nation.

The exhibition is open to the public without charge.

Seniors from 50 Idaho high schools gathered at the University of Idaho last week to attend Senior Days. Headed by committee chairman Dennis Albers, Lambda Chi, the seniors had guided tours of living groups, went to some classes, and attended lectures at the SUB. Saturday morning, the students gathered in Borah Theater to hear the deans of the colleges talk before going back to their home towns.

Idaho mining professors attend Nevada meeting

Two University of Idaho mining professors, Roy E. Williams and William R. Green, returned from Las Vegas, Nev., where they attended the annual meeting of the American Mining Congress.

Among the major topics discussed by the 12,000 members attending the congress was the increased demand for university trained personnel, according to the professors. They stated:

"Throughout the United States, the mining industry is experiencing a shortage

of well-trained engineers. The industry is looking toward several institutions, including our own, to help meet this need.

"Industry is also looking toward universities for expansion of research in the mining related areas. The development of techniques in geophysics, nuclear energy, geochemistry, hydrogeology, and remote sensing, may very well provide the keys to successful future exploration for valuable mineral deposits."

By Penny Proctor

"Campaign Countdown" — televised presentation of the Idaho national legislative candidates — will feature a Frank Church-George Hansen and James McClure-Compton White confrontation, Thursday, October 24.

The staff of "Campaign Countdown" pointed out that the program was not a debate, but a discussion of issues by the candidates. Each program segment will use a panel of four newsmen to initiate questions, and a moderator who will place the questions with the candidates and oversee adherence to ground rules.

The program will be produced at the facilities of KUID-TV at 7:30 p.m. The show will be taped and distributed to several television and radio stations for the statewide broadcast.

Other stations carrying the broadcast are KLEW in Lewiston, KBOI in Boise, (radio and television) KMYT in Twin Falls and KIFI in Idaho Falls.

There are two segments in the 90-minute show; the first hour segment presenting Hansen and Church and the last 30 minutes with McClure and White. There was to be a third segment presenting the

Class elections held today; thirty-five percent vote needed for amendment

By Cliff Eidemiller

The annual class elections are today. The polls are open from 8:45 a.m. to 5:15 p.m. this afternoon, according to Mike Powell, ASUI vice-president.

Seniors and juniors will vote in the Physical Science Building and sophomores and freshman will vote in the basement lounge of the library.

At least 35 per cent of the student body must turn out in order for this to be a valid election for approval of amendments to the constitution if they receive a majority of the vote.

The amendment would abolish the sections in the constitution pertaining to class officers and elections and replace it with "The Executive Board shall assume the duties and the responsibilities formerly held by class officers."

Students must show their LD, cards at the polls before they can vote. The

new LD, cards will not be mutilated, stamped or marked in any way as in previous elections, for this would make them invalid.

As students vote, their names will be checked off of IBM lists of the respective classes as prepared for the election by the Business Office.

Running for Freshman Class President is Mike Keilty, Steve Russell, Steve LeRoy, Mike Keston and David Wishney. Candidates in the other Freshman contested race are Tim Curley and Paul Nelson, both running for Vice-President.

The major race of the Sophomore Class is for President, with Bill McCurdy and Lee McCollum vying for the title.

The two candidates running for Junior Class President are Mike Ransom and Jim Mottern.

In voting for write-in candidates, students must first write in the candidate's name and then place an X in the box in order for the vote to be counted.

Faculty forum meets

Faculty Forums will meet tomorrow noon downstairs in the faculty club room. The program will include Dr. Deward Walker, Jr., chairman of sociology-anthropology on contemporary research on American Indians.

Low bids opened for construction

Low bids for the installation of wiring in Hays Hall on the University of Idaho campus and for irrigation improvements at the University's Aberdeen Branch Agricultural Experiment Station were opened October 17 by Business Manager Joe W. Watts.

Improvements for Hays include outlets for electric blankets on three sleeping porches. Watts classified it as a "minor job." He also noted, "some electrical improvements had just recently been completed, but it was cheaper to open new bidding." The Aberdeen Station's improvements include landleveling, new ditches and culverts. The project should be completed by Jan. 3, 1969, if contracted.

Low bidder for the installation of wiring in the dormitory is Johns Electric of Lewiston at \$2,580. Other bidders are Tri-State Electric, Boise, \$2,768; Babbitt Electric, Idaho Falls, \$3,450 and Spence Electric, Moscow, \$4,196.

The only bidder for the irrigation improvements is Grover Construction of Shelley at \$17,820.

The bids must now go to the Board of Regents for approval.

Hilby delivers speech

"There is a great difference between hiring a teacher and hiring an engineer. The educational process is much more complex," H. Lyman Hilby, manager of school and college placement, University of Washington, told more than 70 educational placement officers at the University of Idaho.

Speaking before the joint meeting of the Northwest Association of School, College and University Staffing, the Pacific Northwest School Personnel Administrators and the Community College Personnel Officers, Hilby continued:

"The educational process is more complex because teachers must work with

kids, parents, school boards and the public."

Hilby also presented his views on the future of teacher placement. He stated:

"I think we'll see the use of computers on a regional or state basis to place teachers in the future. The data on the teachers will be fed into computers along with the needs of the school districts.

"We are also going to have to better define and describe the qualities of a good teacher. Then, we're going to have to develop new techniques to discover these qualities."

The meeting continues through Friday with additional speakers and panel discussions. Other speakers and their topics include Dr. Warren B. Knox, president of the College of Idaho, "The Thermofax Society;" Ray Giles, director of field services, Eastern Washington State College, "ASCUS Services," and Eugene Kerr, supervisor of data processing, Washington State University, "Computer Horizons."

Bridge lessons given

Those interested in learning how to play bridge can receive lessons from William R. Cook at 2:30 p.m. Sunday for beginning bridge and 2:15 p.m. for an intermediate course. The cost is \$5 for 10 lessons.

'Campaign countdown' features candidates

three candidates for Representative District Two. Manning, however, showed disinterest and because of the equal time laws that segment had to be scrapped.

Moderator for the show will be Gene Shumate. Retired from ownership of the radio station at Rexburg, Shumate now writes a column for the Idaho Statesman. He was chosen for this post by the administrative assistants for each candidate as well as the two four-man panels.

Serving on the panel for the Hansen-Church segment are Bill Hall, editor of the Lewiston Morning Tribune; Pete Hackworth, editor of the Caldwell News-Tri-

bune; Dick Eardley, news director of Boise's KBOI radio and television station and Lyle Olson, editor of Pocatello's Idaho State Journal.

The second segment panel is composed of Gary Pietsch, editor of the Sandpoint News-Bulletin; Robert Hammes, editor and publisher of the St. Maries Gazette; Vern Moore, news director of Boise's KIDO radio station and Oren Campbell, editor of Nampa's Idaho Free Press.

The panelists were selected for their outstanding accomplishment in political journalism and to represent all areas of Idaho.

of Nampa's Idaho Free Press.

The panelists were selected for their outstanding accomplishment in political journalism and to represent all areas of Idaho.

Peter Haggart, associate professor of Radio-TV at the University, is director of the program. The show's producers are Jeffrey L. Lamy, Manager of the Moscow Chamber of Commerce, and Gordon Law, head of the University Radio-TV department. "Campaign Countdown" is co-sponsored by the University of Idaho television station and the Moscow Chamber of Commerce.

Editorial Opinion

Bag Class Officers

Vote today to abolish class officers. This might seem to be a very destructive move, but it's not. It's a step toward more efficient student government by eliminating duplication and rechanneling existing activities and funds through the ASUI system.

each fall, "I've got some new ideas for class government . . ." It would conserve a tremendous amount of energy that could be spent studying, or at least doing something constructive.

Is Hansen For Real?

It's a lucky candidate who receives the endorsement of more than one political party. Sometimes, however, the luck is more with the electorate than the candidate because the second endorsement does more to define the candidate's position than his original party affiliation.

George Hansen's foreign policy views seem to be afflicted with a bad case of paranoia. In a house speech he once said that he "saw no difference between communists and the most ardent doves."

In a printed sheet Hansen quotes the American's of Democratic Action and the American's for Constitutional Action ratings of Church and himself. Church ranked high on the liberal ADA scale and low on the more conservative ACA rating.

THE DARKER SIDE

To The Editor

A-Phi backs officers
Dear Jason: Well, I suppose one or two students could possibly be influenced by the pointless flyers of Mr. Willms and Mr. Powell, and I would hate to see that happen!

Class Officers?

The Pros

By Ron French
With the election being today, the big question is whether or not to retain class officers. The controversy has not arisen from the discontentment of the student body, but rather, the discontentment of a few Executive Board members who are jealous of a body which could potentially rival their power.

The Cons

By Jim Willms and Mike Powell
On today's ballot you will find an amendment to the ASUI constitution entitled "Abolish Class Officers." Passage of this amendment is being promoted by an organization known as S.O.T.E.C.O. Certainly this change in the ASUI structure deserves some explanation.

OUT OF MOSCOW Campaign Countdown

By Jeff Lamy

A milestone in public service to the people of Idaho will be achieved this week on the University of Idaho campus. Through the medium of educational television and public-spirited commercial television and radio stations, the Idaho voter will be given an opportunity to compare the candidates and their platforms.

eral barriers placed the program in the realm of popular impossibility. One of these was the well-known political affiliation of one of the key staff members. Another was the practical reality that candidates would view "Campaign Countdown" as a political tool, to be used if advantageous, to be avoided if potentially detrimental.

In southern Idaho and Lewiston are able to broadcast the program at no production cost. These stations will incur normal broadcast expenses, and the time thus devoted to the public service counts toward each station's commitment to that cause.

Art work of Seawell exhibited in gallery

Art work of Thomas Seawell, associate professor of art at the State University of New York, will be exhibited in the Vandal Gallery October 25. Seawell was born in Baltimore, Md.

Seawell received his BFA at the St. Louis School of Fine Arts, Washington University, St. Louis, Mo. He earned his MFA at Texas Christian University, Fort Worth, Tex. and attended Baylor University and Yale-Norfolk Summer Art Workshop.

In 1959 he started teaching part time at Texas Christian University. He then taught at Arkansas-Henderson State College from 1960 to 1962 and is presently at the State University of New York.

Seawell was awarded the Edmond Wuerpel Scholarship at Washington University from 1957 to 1958. He was selected by the State of Louisiana Art Commission for a one-man exhibition in the commission galleries and spent 12 months touring Louisiana. He has also been invited to exhibit at various universities throughout the nation.

He has numerous one-man exhibitions including ones in Texas, Arkansas, Nebraska, New York and now his first one in Idaho. He has participated in seven two-man exhibitions and some twenty-four group exhibitions, other than competitive, throughout the United States. The latest is George O'Connell-Thomas Seawell Prints, State University of New York, College at Oswego and the University of Miami, Coral Gables, Fla (1967). He is also a member of Boston Printmakers Society, Hunterdon County Printmakers, Print Council of America.

Seawell also won a couple of 1st Print Prizes and his work is represented in many collections. Just this year, his work has been exhibited in 9 different exhibitions.

ART EXHIBIT—The Thomas Seawell (seated above) art show is presently on display in the Student Union Building Lounge. The display will be featured until Oct. 25. Seawell, who is seated above, has had exhibits displayed all over the country, and was recently awarded the first print prize from the City of Fort Worth Art Center.

ASUI Billiards

The ASUI Billiards Tournament begins Saturday, Oct. 26 at 1 p.m. in the SUB game room. Entry fee for the double elimination tournament is \$2.50. Anyone interested is requested to sign up in the game room immediately.

Indian elected to Parliament

Leonard Marchand, a native of British Columbia who obtained his master's degree in range management from the University of Idaho, has become the first North American Indian to be elected to the Federal Parliament in Canada.

Following his graduation from the University in 1965, Marchand became a range scientist at the Canadian Research Station in Kamloops, B.C., and then took a position as a special assistant to the Federal Minister of Immigration at Ottawa.

In 1968, Marchand resigned that position to run for the Kamloops-Cariboo Constituency. He was elected with a clear majority.

Idaho meat judging team places first in Portland

The University of Idaho meat judging team placed first in beef judging and fourth overall in the intercollegiate meat judging contest at the Pacific International Livestock Exposition in Portland.

Team member William F. Hazen, a senior animal science major from Marsing, was second high scoring individual in the contest, according to Dr. Leon Orme, associate professor of animal science and team coach. Hazen was high man in the combined beef classes—both judging and grading—and tied for second in lamb grading.

Other team members are David W. Loucks, and Terry Gregory, Boise; Darwin R. Yoder, Filer; and Ray Peterson, Buhl, the alternate. Yoder was top individual in the beef judging contest, while Loucks was second high in beef judging and ninth high individual for all competition.

Teams from six Western universities competed in the contest, Dr. Orme said. They judged nine different pork, lamb and beef carcass classes, graded 20 beef and 10 lamb carcasses and gave written reasons for placing five of the classes. As a team, Idaho ranked first in judging and third in grading beef; second in judging and fourth in grading lamb, and sixth in pork judging.

Arg. to reveal Dad of the year

The finalists for the Dad of the Year contest will be announced Friday, November 1 in the Arg, according to Christy Eiguren, Gamma Phi, chairman of the Dad of the Year contest.

The Dad of the Year will be presented at the Dad's Day Breakfast and also during halftime of the game between the Vandals and the Weber State Wildcats Saturday afternoon.

Judges will be Bob Melgard, Mrs. Samuelson, wife of Dean Samuelson of the College of Education, Sid Miller and Jim Lyle. Each living group should sponsor one dad for the contest. Contestants will be judged on activities while attending the University and activities and contributions to his community and to Idaho.

The Dad's Day Breakfast is scheduled for 9 a.m., Saturday, November 2 at a cost of \$1.50 per person. Master of Ceremonies will be Dave Goss, Phi. The football players will be introduced and the Dad of the Year will be announced. The breakfast is open to all students and their dads. Kathy Brassey, Kappa, is Dad's Day Breakfast chairman.

Memorial Gym reserved

Beginning Oct. 21 the Memorial Gym will be reserved every night from 7-9:30 p.m. for volleyball practice.

Idaho graduate named park superintendent

The appointment of Roger J. Contor, University of Idaho graduate from Idaho Falls, as the first superintendent of the newly established North Cascades National Park in the State of Washington, has been announced by Secretary of the Interior Stewart L. Udall.

George B. Hartzog, Jr., director of the National Park Service, said that Contor would also administer Ross Lake and Lake Chelan National Recreation Areas, which adjoin the 505,000-acre national park. The three areas totaling 674,000 acres, were established by the same act signed by President Johnson on October 2. The temporary park headquarters for the areas will be at Sedro Woolley, Wash.

Contor, 38, who was graduated in zoology from Idaho, began his Park Service career as a ranger at Yellowstone National Park in 1955. He is a former superintendent at Craters of the Moon National Monument, Idaho, and assistant superintendent for further information contact Mrs. Leda

Parachute club meets

Parachute Club meets tonight at 7:30 p.m. in the SUB. Last week 35 interested people attended. Those interested should attend since training is expected to begin this weekend. The meeting room will be posted at the Information Desk.

Presently, an attempt is being made to abolish class offices at the University of Idaho. Admittedly, there are problems present in the class officer structure, but these are problems which exist in all of student government, and we the undersigned do not feel the solution to these problems is abolishment of the entire system.

We feel, rather, that a better solution is to give these offices a meaningful role. By shifting the responsibility of class officers from that of an activity planning body to one with an active role in the policy making realm of student government, we feel this can be done. We

the undersigned support this positive course of improvement rather than a negative plan of abolishment.

Therefore, do not throw away the most representative body which is now given you in student government.

Due to bad weather, the People to People picnic was held in the Student Union Sunday afternoon. Jean Brassey, committee member, helps serve food to the 100 people

in attendance. Students from approximately 10 foreign countries came to the picnic, according to Linda Frazier, Kappa, chairman.

Chemistry students hear du Pont engineer lecture

"Amateurs are solving problems with computers that mathematicians could never do," University of Idaho chemistry and chemical engineering students were told Wednesday in an Almqvist lecture by a duPont engineer.

Dr. Roger G.E. Franks, consultant in engineering computation with E. I. duPont de Nemours and Company, Inc., Wilmington,

Delaware, was the third annual lecturer in the series sponsored by a bequest from Dr. J. Arthur Almqvist, a 1919 Idaho graduate in chemical engineering.

Dr. Franks urged his audience of faculty and students to become familiar with the computers that are available.

"There are a lot of things you are doing or learning to do that you don't have

to do. There is a 'black box' to do it for you," he said. "There is no limit to what we can learn with the aid of computers."

He indicated that mathematicians are of less importance to industry since the advent of the computer. The idea of setting up a mathematical model for industrial problems was not feasible before the computer, because there was no possible way of solving the equations.

He said non-linear equations are essentially impossible to solve mathematically with pencil and paper, but the computer has made them easy. Today a chemical engineer needs to be able to make a mathematical equation for the problem he has before him, but he doesn't need to know how to solve it. The "magic box" can do it instantly.

Dr. Franks said mathematical modeling began in 1953 and '54 with the need for applying analog computers to solving chemical problems. In 1962 and '63, there was a gradual switch to digital computers, which are faster and cheaper than the analogs.

Dr. Franks was educated at Kings College, London University, and the University of Pennsylvania. He was with Minneapolis Honeywell in process control before joining duPont. He is author of the book, "Mathematical Modeling in Chemical Engineering," published by Wiley in 1967. It is widely used as a reference.

Engineer conclave held last Friday

More than 50 engineers from throughout the Pacific Northwest attended the annual conference of the Simulations Council, Inc. at the University of Idaho Friday.

The meeting included presentation of technical papers on the use of computers in the physical sciences, biological sciences and mathematics, and a student paper competition.

Participating in the conference were engineers from Battelle-Northwest, Boeing Aircraft Co., and all universities of the Pacific Northwest and British Columbia.

Alfred Dunn exhibit on display at Orofino

The special guest artist for the month of November at Te-Wap-Poo Art Gallery in Orofino will be Alfred Dunn, University of Idaho professor in the art department.

Open house for the show will be held Sunday, October 27, from 1 to 5 p.m. The show will hang in the gallery through November 27, at which time the Annual Christmas Arts and Crafts Fair will begin.

A native of Los Angeles, Dunn received his B.A. degree from the University of Idaho in 1936 and an M.F.A. degree from California College of Arts and Crafts. He was a commercial artist in Seattle from 1936 to 1941. He has been associated with the University of Idaho since 1941, and is at present a professor in art teaching watercolor and commercial design.

Dunn has been a regular contributor

to Ford publications since 1949 and has been represented in several Ford Times traveling exhibitions and in the U.S. Information Service Traveling Shows in France, Russia, and South Africa. He has had many one-man shows in several Idaho cities, Spokane, Seattle, and has been included in group shows in Seattle, Oakland and San Francisco.

As a graphic designer and illustrator, some recent commissions include Rafe Gibbs' "Beacon for Mountain and Plain" and David Steelog's "Boy Settler in the Cherokee Strip."

Dunn is affiliated with many professional organizations including the Northwest Watercolor Society, the Puget Sound Group of Northwest Painters and the National Society of Art Directors.

Save your seat at your first sit-in.

The trouble with a sit-in is what you sit on. And that you have to sit on it so long. Since our thing is keeping you alert mentally, we've had no remedy for other parts of the body that may fall asleep. Until we invented The Sit-On. What distinguishes The Sit-On from an ordinary pillow is a pocket for your NoDoz.

Which means that now you can sit it out until the wee hours. Alert from top to bottom.

I want to save my seat. Here's my \$2.00. Send me The Sit-On. Send check or money order to: NoDoz Pillow, 360 Lexington Avenue, New York, New York 10017.

Vandals beaten by Oregon Ducks 23-8

By Roger Miller

The Oregon Ducks, behind the running of Claxton Welch and under the direction of snappy quarterback John Harrington plus a rigid defense that kept the Vandals bottled up in their own part of the field throughout most of the game, proved too much for the Idaho Vandals Saturday afternoon in Autzen Stadium in Eugene.

The Webfoots handed Y C McNease and his charges a 23-8 setback that ended the Vandal winning streak at three. The Ducks under the coaching of Jerry Frei won their second after three losses to the delight of 18,000 fans under cloudy skies.

A determined bunch of Vandals got going too late in the day as they allowed the Ducks a 17-0 lead before they went to work, and then had to play catch-up football. An Idaho rally late in the game closed it to 17-8 and then ran out of time and downs as the Ducks added another TD with just 58 seconds to go. The first half of play was just a battle of field position that Oregon dominated almost completely. An unbelievable series of penalties set it up that way.

Idaho took the opening kickoff but was forced to punt after an incomplete pass on a third and one situation at the Idaho 27. Then came the penalties — three in a row — for illegal procedure as the Vandals had apparently lined up with interior linemen's numbers — 50 through 79 — on the ends of the lines.

Idaho punter Ron Davis, undoubtedly leg weary after three punts, finally got the fourth punt only to the 37, kick-

ing from the 12. From here Oregon drove to its first touchdown in only eight plays. Harrington, using the sweep that they referred to all afternoon, scampered in from the 15 after a key block from Welch at the 10. Ken Woody's kick for the PAT made it 7-0.

From this point to the half, Idaho got no deeper than Oregon's 46, as series of small breaks continued to hinder the Vandals.

Oregon threatened twice more, but Harrington's sweeping option got the Ducks into trouble with illegal receivers downfield. The Oregon linemen, like everyone else, figured Harrington was going to keep it and when he finally threw it and then did the same thing on the next play it cost them a pair of 5-yard, loss of down, penalties that cut short the Oregon drives in Idaho territory.

An Oregon field goal with just 40 seconds left in the half came from 21 yards out and the Vandals went to the dressing room trailing 10-0.

The two teams continued to battle for field position in the third period with the

Sports car club meets

Election of officers will be the first order of business at the University of Idaho Sports Car Club's meeting tomorrow night. The club will meet at 7 p.m. in the SUB.

The newly elected officers will be presented to the club at a banquet in the SUB Friday night. The banquet will begin at 6:30 p.m. All members are invited to attend. The charge for the roast beef dinner will be \$2.75.

Officers to be elected at the Wednesday night meeting are president, vice-president, secretary, treasurer, and Ombudsman. Candidates will be nominated at the beginning of the meeting and each candidate will be allowed to give a short speech. The elections will be by secret ballot.

Other business to be conducted at the Wednesday night meeting will include discussion of an upcoming rally planned Nov. 3 and a speed event planned for Nov. 17.

Rick Tackman, club president, said that all members are requested to bring articles for the club's newsletter, "Miscellaneous Ramblings."

Webfoots again winning out. With 6:38 left in the quarter Harrington found end Bob Newland behind the Vandal defenders for 29 yards and a touchdown. It was then that the Vandals awoke and tried to make a game out of it.

After the kickoff, Idaho had the football at its 46. Rob Young picked up 13 and a facemask penalty against the Ducks added 15. Vandal quarterback Steve Olson, who went into the game as the nation's national passing leader, passed to tight end Mike Dempsey at the 40. The ball bounced off Dempsey's chest and halfback Jeff Guillory, coming along behind, picked off the deflected pass, got a couple of good blocks, and then outran the rest of the defenders for an apparent touchdown. Once again the breaks turned against the Vandals as the referee ruled that a clipping violation had been committed at the 17 and the TD was nullified.

Olson completed five of six again as they moved to the Oregon 20. It was here on the second down that Olson connected with Jerry Hendren for the score. Hendren got inside safety Jim Franklin at the three and leaped from a tackle into the end zone. The Vandals went for the two point conversion, thinking they could win it with a TD and a field goal. Olson's pass to Rob Young was good and the Vandals still trailed 17-8 with 10:48 left.

The rest of the game saw the game Vandals trying to catch up but the Ducks continued to control the football. When the Idaho team did get close to the end zone they always seemed to get a bad break and failed to come up with the big play when it was needed.

Oregon came up with the final score of the game on a three yard smash by Stan Hearn with less than a minute to go in the game, after two penalties and a swing pass from Harrington to Hearn moved it to that point.

All persons interested in the varsity ski team are to meet with Mr. Ostyn at 5 p.m. Oct. 23 in room 107 of the Memorial Gymnasium.

Lindley beats Lambda Chi; wins intramural championship

Lindley Hall defeated Lambda Chi Alpha 25-12 Monday to capture the campus Intramural Football Championship.

Roy Lumdeen, passing Lindley to the victory, threw three touchdown passes and scored one touchdown himself on a run. The Lambda Chi scores came on touchdowns by Jim Stearns and Les Stith on pass plays.

The Lambda Chi's had previously defeated the Fiji's 12-8 to win the Greek portion of the football championship. Lindley secured the Independent berth in the game by surpassing Independent runner-up Lindley II by a 25-6 margin.

The first score of the game came on Stith's 15-yard pass reception, and put the Lambda Chi's out in front 6-0. The try for the extra point failed, Lindley gave up the ball on downs, after moving to the Lambda Chi ten yard line, but achieved good field position by blocking a Lambda Chi punt on fourth down. Lum-

deen completed one pass to move into scoring position. His next two throws fell incomplete. Rolling out on third down he found his receivers well covered and scooted into the corner of the end zone to knot the score 6-all. The point after came on Lumdeen's throw to Bob Jones giving Lindley the lead 7-6. They were never behind in the game again.

Neither team scored again until midway through the second half when Dan Meeker snagged a Lumdeen aerial in the end zone. Moments later Jones caught another pass in the end zone, despite tough defense by Rick Day. Finally, John Taft caught a bomb near midfield and raced into the end zone to give Lindley its last score and a 25-6 lead.

Jim Stearns finally found the handle on a short pass to bring his team back 25-12, but time ran out before the Lambda Chi's had another scoring opportunity.

Cross Country sweeps meet

The Vandal cross country team placed one, two, three, four to sweep the Whitman Invitational Meet last Saturday. All four Vandal runners broke both the meet and the course records.

Tom Burkwist led the field with a time of 20:40. Second was Vern Deahl with 20:50 and close behind him were Pete Whitford and Bob Hamilton with 20:53 and 20:54 respectively.

The remaining two Vandal runners were Gary Johnson who placed 17th with a time and 23:33 and Fred Lake with a time of 23:47.

The U of I took first place with a score of 27. In second place was Northwest Nazarene with a score of 39. Whitman followed with 66 and College of Idaho was last with 112.

Ski club will meet Tuesday

The Vandal Ski Club will meet Tuesday, Oct. 22 in the SUB. The time and room will be posted at the information desk.

All student, faculty, and townspeople are invited. Bill Kyle, club president said, "We are especially interested in having faculty and townspeople join us in our activities. Everyone is welcome."

At the meeting a ski movie will be shown.

Business to be discussed includes the annual club trip to Banff and Park City. The club is also planning to conduct its own ski meet for club members interested in ski competition.

This winter the team intends to provide ski reports of snow conditions at surrounding ski areas. These reports will be posted on campus every Friday night during the ski season. Tri-State will have these reports broadcast on its Thursday night Sportsman Corner on KRPL.

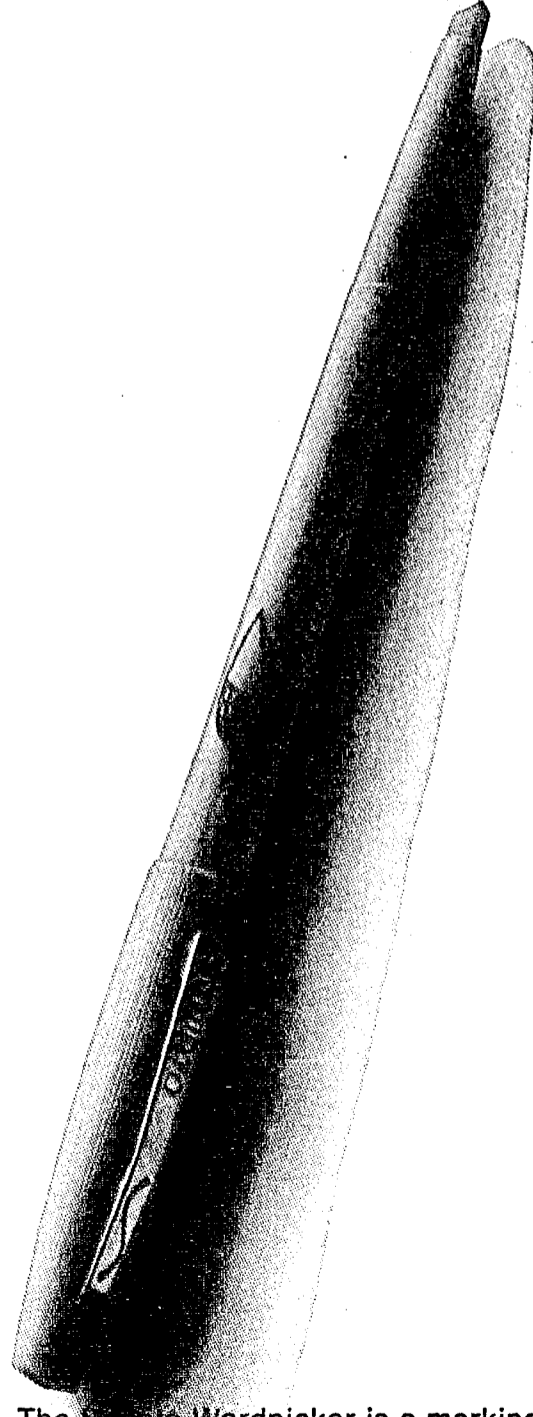

Committees are being formed to provide for weekend trips and to secure discounts for ski club members at nearby ski areas.

Yearly dues are \$2 for new members and \$1 for old members.

Want to move up fast in aerospace/electronics?

Hughes is where the action is. HUGHES
HUGHES AIRCRAFT COMPANY

You can go forward, go fast, go far... at Hughes Field Service & Support Division. If you are seeking a stimulating assignment where you can get in on the ground floor of the rapidly-expanding aerospace/electronics field, capitalize immediately on your background and training, and progress quickly toward your career goals—Hughes Field Service & Support Division in Southern California will welcome your inquiry. Some current fields of interest include:

- DESIGN ENGINEERING**
Openings exist for Electronic and Mechanical Design Engineers in the development of Trainers and Simulators and in the design of checkout and test equipment for large missile and aerospace systems. These responsible positions require interest and/or experience in such design areas as: analog circuits, digital logic, switch/relay logic, electro-mechanical packaging, infrared testing, inertial guidance and Command/Control systems. Responsibilities will include all phases of design and development from concept to final fabrication and evaluation. M.S. or Bachelor's degree is required in E.E., M.E. or Physics.
- FIELD ENGINEERING**
The Field Engineer's job ranges from complete contractor maintenance of electronic systems to technical assistance. His primary function is to assist
- the customer at operational sites. Responsibilities include: providing maintenance, operational and technical assistance; formal and informal on-the-job training; logistic assistance and the investigation and solution of equipment problems experienced in the field. Requires a Bachelor's degree in E.E. or Physics. Experience with military fire control, radar or communications systems is desirable but not mandatory.
- MAINTAINABILITY ENGINEERING**
During design phase, positions involve analysis of the feasibility of built-in, self-test features, application of automatic checkout equipment, standardization of circuitry design, minimization of adjustment and alignment requirements and packaging of the product. During system development, assignments will involve production of a complete set of integrated logistics support documents for use as planning guides. Requires B.S. degree in E.E. or Physics.
- ENGINEERING WRITING**
Specialists in printed communications convert complex engineering data into simple, accurate, illustrated support publications, including technical manuals, orders, brochures, sales proposals, etc. Fields of interest include: digital/analog computers, display systems, digital and voice satellite communications systems... and many others. Requires a B.S. degree in E.E. or Physics.
- CAMPUS INTERVIEWS October 30, 1968**
For additional information on the career opportunities available at Hughes Aircraft Company—and to arrange a personal interview with our Technical Staff representatives please contact your College Placement Office or write: Mr. R. J. Waldron, Hughes Aircraft Company, P.O. Box 90515, Los Angeles, Calif. 90009.
AN EQUAL OPPORTUNITY EMPLOYER MAF U.S. CITIZENSHIP REQUIRED
