

Local businessman dies following traffic accident

AMANDA HUNDT / ARGONAUT A motorcycle lies on the pavement Saturday at the site of an accident on the Moscow-Pullman highway. The accident killed the driver of the motorcycle, Moscow businessman George Remington. The motorcycle was part of a four-vehicle collision and it was hit at high speed and sent into oncoming traffic.

BY AMANDA HUNDT AND LEIF THOMPSON ARGONAUT STAFF

eorge Remington, 53, owner of Remington Insurance Agency, Inc. in Moscow, died Monday morning from Tinjuries sustained in a traffic accident Saturday afternoon.

The four-vehicle accident shut down both lanes of traffic on the Moscow-Pullman highway for several hours Saturday night.

The accident occurred just east of Champion Electric. All traffic was diverted to Airport Road; cars were intercepted by traffic controllers at Grimes Way in Pullman and War Bonnet Drive in Moscow.

Washington State Police Officer Brad Hudson said Zachary A. Smith-Cline, 21, was traveling eastbound between Moscow and Pullman on Highway 270 when he reportedly passed multiple vehicles at once.

Sgt. Lennie Walker of the WSP said the pass Smith-Cline attempted was illegal and witnesses at the scene reported errat-ic driving by his Subaru. Walker said they were investigating the possibility of alcohol in connection with the accident.

When Smith-Cline merged back into the lane his Subaru ran into the back of Remington's Harley Davidson, forcing Remington into oncoming traffic, where he hit a Ford Escort and was ejected from the motorcycle, Hudson said. A fourth vehicle reportedly swerved off the road to avoid the accident.

Smith-Cline reportedly swerved off the road after hitting the motorcycle. The Moscow-Pullman Daily News reported the trunk of his Subaru then burst into flames. Hudson said information on the cause of the fire might be released Monday, but no additional information was available at deadline.

Remington was taken to Deaconess Hospital in Spokane. He died at 8:40 a.m. Monday. Smith-Cline was taken to Pullman Memorial Hospital, where he was treated and subsequently arrested. There were no other reported injuries, Hudson said. Smith-Cline is being held at the Whitman County Jail, according to the Daily News. No formal charges have been filed

against him by the Whitman County Prosecutor's Office. Hudson said there was no preliminary indication that drugs

or alcohol were involved. However, Whitman County Prosecutor Dennis Tracy alleged that alcohol was involved. He said he will file a charge of vehicular homicide against Smith-Cline today or Wednesday and may include other charges, depending on evidence

Smith-Cline attended a preliminary hearing Monday in which Whitman County Superior Court Judge David Frazier set his bail at \$150,000. Smith-Cline's arraignment is scheduled for 10:30 a.m. Friday at Whitman County Superior Court in Colfax, Tracy said.

Remington was known for his good works and charitable donations in the city of Moscow. He gave repeatedly to the Idaho Repertory Theatre at UI.

Former Oregon gov. calls for action BY TONY GANZER

ARGONAUT STAFF

Rormer Oregon Gov. John Kitzhaber on Thursday night urged citizens to look closely at state and federal environmental poli-

Nearly 200 people crowded the Administration Building Auditorium to hear Kitzhaber's critique of state and federal government-as part of the James A. McClure Lecture on Science and Public Policy series. "The problem here lies not with the people but with the institutions (of

people, but with the institutions (of government)," Kitzhaber said. Kitzhaber briefly addressed specific

issues of watershed management and Columbia Basin salmon, but the topics supported his chief call for localization of environmental protection.

'We need new structures, we need w tools and we need new approach-

Habitat for Homecoming

House decorations reveal how much effort each house's members put in

BY CADY ALLRED ARGONAUT STAFF

ollowing the Homecoming display of house decora-tions, it appears women like decorating more than men.

For Friday's contest most sororities created elaborate displays, but fewer fraternities participated in the decorating event.

A sign reading "Laziness: it's a vandal thing!" in front of the Delta Sigma Phi house seemed to epitomize the fraternity attitude toward the contest. It was the fraternity's only lawn decoration.

Alpha Gamma Rho put in more effort. Its theme was "It's a tailgate thing." The men parked trucks with open tailgates on their lawn.

Theta Chi boasted the most complex display. The men turned their house into a Viking ship, the U.S.S. Vandal, complete with ocean sound effects, oars and a figurehead. On the "mainland," a paper-mâché eagle carcass roasted over a crepe-paper fire.

Matt Ivers, a junior architecture major, said the ship's figurehead created the most difficulties because the lady's head fell off. The oars were also tricky, he said.

Most of the sororities participated in the lawn-decorating event with elaborate displays.

The Pi Beta Phi display featured "UI success through the years." The yard was decorated with representations of UI events, icons and accomplishments such as the Lionel Hampton Jazz Festival, Hello Walk, KUOI and biodiesel.

At Gamma Phi Beta, the women set up a virtual road trip through campus. The display featured such UI icons as the I-tower, the I-bench, Hello Walk and the arboretum. Other sorority women said Gamma Phi Beta would be their toughest competition in the housedecorating contest.

The women of Delta Gamma placed a mini football game in their yard. The football players were about two-and-a-half-feet tall and made out of chicken wire and toilet paper. The "field" included yard lines and goalposts. Freshman pre-veterinary major Madison Dinning said the most difficult part of the display to construct was a poster with the fight song written on it because it ripped and had to be redone. The mini football players were the most time-consuming. Dinning said she thought Delta Gamma's stiffest competition would come from Gamma Phi Beta and Kappa Alpha Theta.

Kappa Kappa Gamma featured a "Vandalville" display featuring life-sized Vandals with paper-mâché balloon heads. Freshman biology major Kayleigh Zive said the most difficult part was the people. "We had to have different outfits for each Vandal," she said. She said the heads were time-consuming, and it was difficult to stuff the clothes for the bodies. Freshman psychology major Lindsay Shumate said they also had to special order decorations because the stores in Moscow were sold out.

At Kappa Alpha Theta, it was the first year the women have had a house to decorate for Homecoming. "We're really excited to decorate our own house," junior accounting major Amber Worl said.

Worl said that in the past the women have decorated the lot or helped their brother fraternity decorate their house. This year the theme was "Devils on the field, angels at heart," and the yard featured cutouts of devil and angel football players in their respective habitats. Steam from dry ice gave the display its final touch.

The winners of the yard display contest were announced during halftime of Saturday's football game. In the men's division Theta Chi won first place, Phi Kappa Tau won second and Farmhouse won third. In the women's division Kappa Kappa Gamma won first, Gamma Phi Beta won second and Kappa Alpha Theta won third. In the co-ed division, Snow Hall won first, French Hall and the Fine Arts hall tied for second, and the Off-Campus Vandals won third.

The overall winners of the Homecoming competition were also announced at halftime. In the men's division,

SARAH QUINT / ARGONAUT

SARAH QUINT / ARGONAUT

Alpha Kappa Lambda and Phi Kappa Tau tied for first place and Theta Chi won third place. In the women's division, Alpha Gamma Delta won first place, Gamma Phi Beta won second and Pi Beta Phi won third. In the co-ed division, Off-Campus Vandals won first place, Snow Hall won second and the Fine Arts hall won third. The groups were judged in categories such as skits, philanthropy, parade floats, sportsmanship, lawn decora-tions and a scavenger hunt.

HOMECOMING, see Page 4

es," Kitzhaber said. "(We need) people not dependent on a strong central government.'

Local communities should take responsibility for controlling natural resources instead of relying on federal and state environmental agencies, he said.

Kitzhaber discussed his creation of local watershed councils and fourthgrade class projects to promote local environmental control in Oregon.

He also said elected officials are preoccupied with their public image instead of public interests.

"We sue each other and battle each other ... while forests burn."

Government is based on power and the perception of power, and no elected officials are willing to risk their images for a cause, Kitzhaber said.

To help to resolve problems of miscommunication in government, Kitzhaber said the responsibilities of environment should be shared by individuals and not left to third-party conflict resolution.

Questions following Kitzhaber's presentation focused on the role of primary educational programs and the extent of student protesting and reaction

"I never quite made it out of the '60s, I'll admit that," Kitzhaber said. He said there is a difference in types of nonviolent protest generation to gener-ation, but he emphasized nonviolent means.

Kitzhaber also gave examples of compromise in industry, in which some factories have adjusted production to create biodegradable nutrients as byproducts.

Reaction to the speech seemed positive with extended applause and shouts of "Let's go save the world!" as students exited.

'John Kitzhaber personifies the goal of the McClure lecture series: to provide the public with speakers who have blended political, public policy and social consciences," said Patrick Wilson, a political science faculty member and a lecture coordinator, according to a UI press release.

UI created the McClure series with a gift from former Idaho Sen. James A. McClure, an alumnus of UI and an authority on nuclear, natural gas, oil and electrical energy policy issues. However, the McClures could not attend Kitzhaber's lecture.

(We need) to start talking about and discussing these (issues) instead of just accepting them," Kitzhaber said.

Graduate student seminar to feature classroom tips

A seminar for graduate students featuring tips for leading classroom discussions will be at 5:30 p.m. in the SUB Silver Room

The seminar will focus on the difficulty teaching assistants face regarding student involvement in the classroom. The seminar is designed to help graduate students overcome teaching obstacles and provide helpful tips on engaging students in participating in thought-provoking classroom discussions.

The seminar will be presented by UI education professor Terry Armstrong and registration is not required.

For more information, contact Mallory at mall7242@uldaho.edu.

Ag Days to feature mule clones

UI's College of Agricultural and Life Sciences will sponsor Ag Days Friday and Saturday. Ag Days events kick off at 11 a.m. Friday with the annual Agriculture Student Affairs Council Food and Activity Fair on the lawn east of the Agricultural Science Building.

UI STUDENT MEDIA BOARD The UI Student Media Board meets the first and third Tuesdays of each month at 5 p m. Time and location will be published in the Angonaut Classified section the Tuesdays before the meetings. All meetings are open to the public, and all interested parties are invited to attend. Questions 7 Call Student Media at 685-7825 or visit the Student Media office on the SUB third floor

Entries for the North Idaho Chili Cookoff must be submitted by 10 a.m. Friday with an entry fee of \$10. The event is a fundraiser for the Food Science Club. Other Ag Day events include college and campus tours from 2:30-3:30 p.m.

On Saturday, the public will get its first chance to see all three mule clones from Project Idaho together for the first time from noon-2 p.m. on the Dan O'Brien Track west of the Kibbie Dome.

The partnership by UI and Utah State University scientists this summer resulted in the first research team to produce a clone in the horse family. Since then, two more mule clones were born, Utah Pioneer on June 9, and a third foal born July 27 that school children were invited to help name. The third foal's name, which will begin with Idaho, will be announced during Ag Days festivities.

A student, faculty, staff and alumni softball tournament will commence at Guy Wicks Field at 3:30 p.m. Saturday, followed by a pre-game bonfire and rally beginning at 7:30 p.m.

Saturday's schedule will include the traditional morning of FFA, 4-H and alumni dairy and livestock judging events. At 10 a.m., the college's annual Alumni and Friends Association awards presentation is scheduled in the Agricultural Biotechnology Laboratory's interaction

The Ag Days Beef Barbecue will be held from 11 a.m.-2 p.m. on the practice field north of the Kibbie Dome and adjacent to the clone display at the Dan O'Brien Track.

Barbecue tickets are \$5 for adults and \$3.50 for students ages 7 and older. Children 6 and younger will be admitted

Hobo spiders inundate Palouse | Tech breakthroughs usher in prestige, revenue

BY LEIF THOMPSON ARGONAUT STAFF

The Palouse is infested with one of the most dangerous spiders in North America.

Tegenaria agrestis, the aggressive house spider or the hobo spider, is large, quick and hostile to humans and pets that disturb it. The hobo is North America's third-most-poisonous spider behind the brown recluse and the black widow

J.P. McCaffrey, a professor of ento-mology in plant, soil and entomological science at UI, said hobo spider bites are often mistaken for brown recluse bites because both spiders can cause necrotic lesions.

Necrotic lesions occur in the local area of the bite. The effected flesh swells, dies and may slough off. The lesions are slow to heal and have a danger of secondary infection, McCaffrey said.

An online report at www.hobospi-der.org, written by Idaho hobo spider expert Darwin K. Vest, said obese individuals bitten in areas of high fat concentration possess the highest risk of forming deep, slow-healing necrotic lesions. Vest said the timetable for the necrotizing process of a deep lesion is approximately eight weeks. Dr. Bill Robertson of the Washington

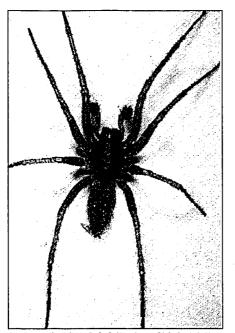

Poison Center said approximately 2,100 cases of arachnid poisoning are report-ed annually in the United States. Robertson said he believes at least half these cases are false, caused by something other than spiders. Vest said in 1994, 10.9 percent of the

national spider bites were reported to poison control centers in Idaho, Washington and Oregon, though the region is home to just 4 percent of the national population.

If this information is extrapolated to a present context, there should be approximately 231 cases of arachnid poisoning reported yearly in the Northwest. Since Idaho inhabitants compose 18 percent of the population in the region, there should be 42 cases of toxic spider bites reported annually in the state. If half these reports are true spider bites, then 21 people out of the total population of Idaho are bitten, develop necrotic lesions and report their cases every year. This would mean every person in Idaho has a one in 62,904 probability of being bitten by a hobo spider.

McCaffrey said hobos are not rare spiders.

They're very common around homes and households. Every home has them in or around them," McCaffrey said. He said woodpiles, rock piles, basements, garages and crawlspaces are favored haunts because hobo spiders are poor climbers and often find themselves in

LEIF THOMPSON / ARGONAUT The dangerous spider in quesion.

the lowest area of the home.

Three types of house spiders inhabit the Palouse: the giant house spider, the domestic house spider and the hobo. They are all large, light-brown spiders. The only dangerous variety is the hobo. McCaffrey said it is impossible for a layperson to tell the difference between the three spiders. He recommends treating all house spiders as if they are

hobo spiders. McCaffrey said there are several effective strategies for dealing with hobos. He advises keeping the foundation of the home clear of debris, keeping doors shut, fixing bug screens and vacuuming corners and cracks in the lower levels of the home, and throwing away the vacuum bag.

He also recommends traps that capture hobos when they run across the sticky surface and are stuck.

He does not recommend inside chemical fumigation, because it is unhealthy and will kill only spiders in the immediate area.

McCaffrey also recommends stomp-ing on hobos or swatting them with a rolled up magazine. A rolled up copy of the Argonaut would work equally well. McCaffrey said living with hobo spi-dors is not a big deal

ders is not a big deal.

"They are not things that we need to be overly concerned about," McCaffrey said. "These things are very common, but you don't need to be afraid of every spider out there. If you see one, stomp it or set out traps if you can't find it.'

There is good news for those who fear the hobo; the hobo's life cycle is drawing to an end. Hobo spiders mate in the fall and die during the winter.

BY KATIE WHITTIER ARGONAUT STAFF

David McIlroy, UI associate professor of physics, did not expect to discover nanosprings.

McIlroy was working to create thin films when an accidental contamination formed what appeared to be nanowires, wires about 10 atoms in width. But examination under a transmission electric microscope revealed the perfect spiral shape, proving his creation.

"Nanoscience is reality," McIlroy said, describing the new field of study and development.

McIlroy said nanotechnology remains experimental, although the media portrays it as the up-and-coming wave of the future. However, as technology advances, UI will be renowned as the first place worldwide to encounter a

nanospring. Technological discoveries like this provide more than simple prestige for a university. Through patenting and marketing, research can supplement an institution's funding, if not fund it entirely. This is known as technology transfer

Gene Merrell, assistant vice presi-dent for research, said UI has experienced a flurry of activity in research and discovery in the past year. Between 1976 and 2002, 81 U.S. patents were developed at UI. However, since January, UI has had 44 invention disclosures, representing everything from agriculture to physics.

Technology transfer is important in many ways, Merrell said. First, it is ethical. Making discoveries available for public advancement is the idea behind education and the foundation of learn-

ing institutions. Second, Merrell said, technology transfer is contractually required. New products and technologies can either be given to a company and revenues shared, or kept by the university. If . kept, it must be patented and commer-

cialized.

The Idaho Research Foundation, a nonprofit organization, is UI's technology transfer agent. Once an invention is disclosed, Merrell reviews the product or technology to decide if it is patentable and marketable. If so, the IRF becomes responsible for financing, patenting and finding a company to commercialize the invention.

Then, UI sees the money. Merrell said 40 percent of the revenue goes to the inventors and 20 percent to their college, rewarding faculty and depart-ments for using their skills. The IRF keeps the remaining 40 percent in a research trust fund to invest in further patenting.

Since July, Merrell estimates \$188,000 in income from licensing activities has been approved. Again, 2003 has been an exceptional year; the average for the past three years was \$100,000-\$150,000 per year. Merrell said he expects this trend to continue.

The three most recent developments being examined by the IRF are the nanospring, tests for salmon diseases and a new contorted poplar tree. Each could bring great rewards to UI, although with nanoscience still in its infancy, the rewards may not emerge for a while.

McIlroy has several ideas for use of the nanospring, aside from miniaturiz-ing electronics. Due to the nature of the spring, nanosprings could be used to make artificial muscles, he said. The way they allow energy to be transferred and used is similar to the energy trans-

fer in the human body. "Things behave differently on a nano-level," McIlroy said. Because of the lack of knowledge of the nanoscale, mass production and consistency make the nanospring too expensive and rare to be marketed at this time. However, McIlroy has produced the spring out of two different materials, proving that as science progresses, UI's nanospring will

identify disease in salmon and trout is proving to be revolutionary at fish hatcheries. Developed by Madison Powell and Kenneth Overturf, research faculty members at the Hagerman Fish Culture Experiment Station, this test examines fish for two deadly kidney diseases.

Each year as fish return to the hatchery to lay eggs, they must be tested for the diseases. In the past it was necessary to kill the fish to obtain a kidney sample. However, the new test requires nothing more than a portion of the fin or a water sample to detect the disease, Powell said. Also, the new test yields results in one day, as opposed to the week required by the previous testing methods, Merrell said.

This test was first used in 2000 and took two years to fully develop, Powell said. Currently the tests are in use at almost every fish hatchery in the Northwest. British Columbia companies

Northwest. British Columbia companies are interested in it as well. UI's third new development is a con-torted poplar. George Newcombe, associ-ate professor at the College of Natural Resources, came upon this tree in an experiment to increase disease resist-ance. By crossing the Northwest Poplar and the Japanese Poplar, he yielded the new tree new tree.

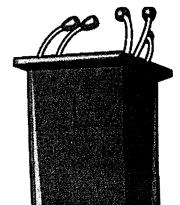

This elegant and unique tree fits the market for popular ornamental trees perfectly, Merrell said. As licensing progresses, it can be sent to nurseries and sold, bringing potentially large revenues to the university. Already requests for ownership have been made, Newcombe said.

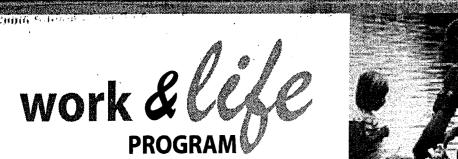

The original tree is on Vancouver Island, but a sample can be found at UI's new arboretum. It may be a challenge to recognize, however, because it has no name. Due to trademark restrictions, the tree will remain nameless until a suitable one can be agreed upon. Newcombe said he prefers "gnarly poplar." For more information on the IRF, visit http://www.irf.uro.uidaho.edu/.

HOMECOMING From Page 1

Off-campus students show spirit at bonfire

BY CADY ALLRED ARGONAUT STAFF

Students from off campus made a showing at the Homecoming bonfire rally Friday, participating in the predominantly Greek Homecoming events.

Off-Campus Vandals The formed when senior journalism and mass media major Abigail Bottari convinced her roommate, junior zoology major Elizabeth Becker, that students from off campus needed to be represented in the Homecoming events. Becker and Bottari convinced some neighbors to join them in showing that off-campus students have Vandal spirit.

Becker said one of the most difficult parts of participating in the events was the fact that they had no budget. The money for the float and philanthropy came out of OCV members' pockets.

Becker also said it was tough to write the group's jingle with 11 lyrics that rhymed and were prideful and nonvulgar.

At the bonfire rally, OCV participated in the Bonfire Bessie competition and performed their jingle in the Vandal Jingles finals. In the Bonfire Bessie commined by which living group could yell the loudest.

Despite boos and jeering, OCV made it to the final round with Alpha Gamma Delta and Kappa Kappa Gamma. Kappa Kappa Gamma won the Bonfire Bessie. In the Vandal Jingle finals, OCV performed a song about life as a Vandal. Pi Kappa Tau and Alpha Gamma Delta won the event, however, with their "Chicago"-inspired tango routine. event.

The living groups' philanthro-py went to the Make-A-Wish

foundation. The groups made 41 travel packs for children to take to camps and raised \$1904.93 in donations. Alpha Kappa Lambda collected the most change in the change drive.

The Homecoming Royalty Court was announced at the end ₩ of the bonfire rally. Second attendants for Homecoming King and i Queen are senior business major a Brad Walgamott and senior fam-

Vandals celebrate through music

BY NATE POPPINO ARGONAUT STAFF

Why was Vandal spirit so high Saturday? It ran through warm-ups Friday night.

The UI Homecoming Concert was hosted that evening by several music groups, including the Wind Ensemble, Jazz Choir I, Flutopia and the Zimbabwe Marimba Ensemble.

The Wind Ensemble began the concert with a suite of old dances ranging from a cakewalk to a rag. They also included a symphonic movement by Vaclav Nelhybel, the traditional Mexican folk song Cielito Lindo and the UI March.

Flutopia, a group composed of different ranges of flutes and one string bass, followed with a piece by Patápio Silva.

Voice and opera teacher Chris Thompson sang two Flanders and Swann songs. The duo is known for its ridiculous songs and Thompson played right along, animating his face to match the song. Following Thompson a duet of "All I Ask of You" from "The Phantom of the Opera" was care

Phantom of the Opera" was cancelled because tenor Rager Moore was sick.

The Zimbabwe Marimba Ensemble, led by Tendekai Kuture, performed two African The first, "Mhururu," pieces. referred to the sound made to indicate happiness and the sec-ond, "Chiradza," was all about getting drunk and got wilder and busier the more the singer drank.

After an intermission, the Jazz Choir I class sang six songs, including variations of the Shaker melody "Tis a Gift to Be Simple" and "Bridge Over Troubled Water" by Simon and Garfunkel, put in medley with "Lean On Me." They finished with two songs specifically for Homecoming: "Ode to Idaho" and "Here We Have Idaho," which brought ecstatic applause from

the audience. All of the performers seemed said. pleased with the way the concert went

"I like getting the chance to work with students and faculty from literally all over campus, Jazz Choir Director Dan Bukvich said.

Bukvich said his real passion is composing. He arranged all of the songs sung by the choir and continues to plan songs for future concerts.

"I usually write a bunch of them and then the choir and I pick out of those for each concert," Bukvich said. "Some songs we keep for the whole year."

Thompson was happy his songs were so well received.

"I was just telling a story to an audience who had not heard it before," Thompson said.

Thompson learned the songs when he lived in London, where they are very popular.

He found sheet music for them and decided the Homecoming concert seemed like a good place to sing them.

"I like the songs because they combine witty words with clever music," Thompson said.

The students also enjoyed themselves.

"I thought the pieces we played were very challenging

and intense," junior Adam Lint Lint, who plays clarinet in the Wind Ensemble, likes the variety

of playing in the ensemble. "I'm an electrical engineering major, so it's a nice break in my routine and something fun I can do," Lint said.

Tuba pirates take Homecoming parade hostage

BY CADY ALLRED AND NATE Ρορρινό ARGONAUT STAFF

A float of renegade pirates terrorized parade-goers Saturday with threats of and "Aarrgh!" morning Ahoy!' and

After completing the parade route, the "Tubas of the Caribbean" cut back into the loop three times, growing in number with each entrance.

Initially, candy-collecting children leaped out of their reach as the pirates brandished their tubas and snarled.

By the second invasion the pillaging philosophy of the pirates rubbed off on the candy-grubbing youngsters. Children pressed dangerously close to the floats and vehicles, risking life and limb for Tootsie Rolls and SweetTarts.

Other parade highlights included marching bands from several area high schools, junior high schools and elementary schools.

schools. The Gay Straight Alliance commemorated National Coming Out Day with an oversized closet door. Alpha Kappa Lambda and Kappa Delta rode on a float deco-rated by a model of cloned mule Idebo Cem kicking a North Idaho Gem kicking a North Texas Eagle into the mouth of a fearsome and hungry Kibbie Dome.

The parade atmosphere and tubas continued at the pregame celebration on the North Kibbie Lawn.

The event boasted food from restaurants including the Alehouse and the Outback Steakhouse, a booth hosted by the Idaho Lottery, and a Humvee sponsored by the Army National Guard. A Jr. Joe area was available for children.

The pregame radio show was broadcast over the enthusiastic crowd and the UI Pep Band marched through the throng, performing for the attendees.

Organizers expected the event to attract 2,000-3,000 people.

Events coordinator Jason Palmer was responsible for all pregame celebrations. He said he believed the event provided a good, dependable place for people to gather before the game.

"It gives fans another reason to come out, to get together with other Vandals and root on the team," Palmer said. Seniors Angela Vold and Liz Smith agreed with Palmer.

"My dad was a Cougar and he's always telling WSU, 'Look at what the Vandals are doing for their celebration, " Vold said. "You get to hang out with people you don't know."

"We always come; we never miss it," Smith said. "We will enjoy the game good or bad; that's what this is for."

Senior Pete Weidert took time to explore what the celebration had to offer.

"I haven't gone to that many games before," Weidert said. "I thought since this was Homecoming it might be special to check out.'

Weidert was impressed by the turnout and thought the celebra-tion added "a nice touch" to the game, which he felt the Vandals stood a good chance of winning.

"We've kind of gotten our swagger back in recent years," Weidert said.

Bonner mischaracterizes safety of Living Learning Community

Dear editor,

In the Oct. 10 issue of the Argonaut, Jessie Bonner completely mischaracterized the safety of the new Living Learning Community. Quotes in the article given by Melanie Frisble are inaccurate at best.

First, every suite in the LLC has a fire escape plan clearly displayed next to the entry door. It details the routes one can take in the event of a fire. Every time I leave my suite, I see the placard and am reminded of the fire escape routes.

She also goes on to state that the resident assistants hadn't addressed fire drills or procedure. If Frisbie had attended her first hall meeting, she would know that fire drills had been addressed by her RAs, as were all of the rules and procedures for living in the residence halls. This is standard for every building in the residence hall system. Additionally, Scholars', where Frisble lives, had a fire drill the week of Sept. 22, as did all of the buildings in the LLC.

Frisble also criticizes the safety of the construction area around the LLC. Fencing has been up around the site since construction of Phase II began in June. This was well before students moved into the new buildings and before school started. Frisbie's assertion that there was a time when fencing was not around the construction site is simply wrong.

I was on campus all summer and currently live in building five of the LLC. can attest to the safety of the site and the fencing around it. There has never been a time where I felt unsafe or that I was in danger. It is disturbing how little effort went into

this article. The quotes from one individual were taken as fact. While any person has the right to give their opinion, the Argonaut has a duty to present both sides of a story and get multiple perspectives. Once again, reporting in the Argonaut has failed the students of the University of Idaho.

Separation of church and state has a purpose

Dear editor.

The Christian God is not part of all Americans' history, if we consider in our history the great diversity of this country. If Native Americans are considered part of our rocts, then it is wrong to say that all the roots of America are based on the God of the Bible. Native Americans did not believe in the Christian God, and in fact had never even seen a Bible before

OURVIEW 10. Thou shalt not covet thy neighbours wife. 11. Thou shalt not receive financial aid for studying Said commandments. TINK Ø TINK TINK

Washington shouldn't play with student funding

You better think twice before using that financial aid to study something theological. That's what our neigh-bors to the west are trying to tell the U.S. Supreme Court.

The Supreme Court's docket for the year, just released this month, lists Locke vs. Davey as one of the cases to be heard.

Back in 1999, Northwest College freshman Joshua Davey received the Washington State Promise Scholarship upon graduating from high school, only to have it revoked when he declared a double major in business administration and pastoral studies. The scholarship was established for high school seniors in the top 10 percent of their class who are admitted ... into accredited colleges or universities and who demonstrate financial hardship.

The catch: Students pursuing a degree in theology were exempt. The scholarship would not fund a program taught from a perspective intended to induce faith or belief. Unfortunately for Davey, pastoral ministries fell under the theological category

Davey sued in Washington District Court in 2000 for infringement on his First Amendment right to the free exercise of religion and the equal protection clause.

The courts ruled in favor of the state, claiming no obligation for the government to fund religious educational pursuits.

When Davey appealed to the 9th U.S. Circuit Court of Appeals, the justices had a different take; Washington's policy was not neutral and therefore discriminated

against certain students. But Washington is not giving up with-out a fight and has brought it back to the highest court in the land in what could be a landmark decision for civil rights.

The U.S. Supreme Court should stand up to Washington and tell them this is the 21st century, that this kind of discrimina-tion is unconstitutional and will not be tolerated.

Joshua Davey worked hard to earn his scholarship and demonstrated financial need. Instead of rewarding him, the gov-ernment of his state decided to punish Davey and is on a crusade to prove a point, making an example of him at the same time.

Whatever happened to the free marketplace of ideas so prized by liberal legisla-tures like that of Washington? You know you've overstepped your bounds when the same Court of Appeals that favored removing "under God" from the Pledge of

Where have all the foosballs gone?

Allegiance says you're infringing on religious freedom.

NOAH KROESE / ARGONAUT

If Washington wins, what's next? You don't get any money if you take a religious studies course at UI because it may spark an interest in faith or belief? Or better yet, let's cross-reference individual course enrollment to see who's taking philosophy classes that may lead to introspection and thus religious self-insight. But why stop there? History texts are full of stories about religious settlers, crusades and the like, so why not bar history students from state aid as well?

The implications of a decision in favor of the state would send us down a slippery slope. Washington is obviously taking the First Amendment establishment clause out of context to justify its prejudice against a certain educational emphasis.

Northwest College is an accredited institute of higher education and Joshua Davey deserves the same chance at life. liberty and the pursuit of happiness as peers in similar situations. We stand behind the 9th Circuit's decision and hope the Supreme Court will choose to uphold our student rights.

SPEAKOUT

QUESTION Do you think the federal government should withhold scholarships from students with theological majors?

"No, just because you are majoring in theology doesn't mean you should iose out on money."

Ames Schneider

the arrival of Europeans.

America is formed by immigrants from all around the world. The United States has a great diversity, with different cultures and beliefs, and has many different religions. Generalizations are not appropriate when religion is concerned. Because of the pilgrims and the Christians who founded America Christianity is part of American history, but so is the atrocity of slavery; however, something must not be respected solely because of its role in history.

We should respect Christianity as we respect other religions, and we should accept that the Christian God is part of history, but not everybody's history. Christianity should not be made more important than other religions in this country.

"Separation of Church and state" is not a constitutional principle. But it is an important principle and people know it. Even though it is not mentioned in the Constitution, it is being practiced. The separation of church and state is an important distinction that makes this country great, because if religion becomes mixed with politics, surely someone will be excluded or persecuted, and that will be the greatest error in a country where freedom of choice and religion are the reasons that first incited people to start coming to America.

Moscow's history may be more interesting than Moscow at present, at least as seen through the eyes of fictionalized reality based on the town.

UI alumna Carol Ryrie Brink, who died in 1981, authored several books about the town, including "Buffalo Coat." The book chronicles the early years of Moscow in fiction based on her own family's

rarely told history. "Buffalo Coat" is the story of Dr. Hawkins, an influential physician in the frontier town of Opportunity. Another doctor moves to the area, and the two doctors compete both for patrons and for civic leadership. Both their lives end tragically.

Dr. Hawkins is shot by a mental patient whom he treated, and the other doctor, who is married, elopes with the pastor's daughter to Spokane, where they both commit suicide. Opportunity is a pseudonym for Moscow, just as Dr. "Hawkins" is a veiled reference to Brink's own grandfather, Dr. William W. Watkins.

All around Moscow, sites where this story actual-ly took place may be seen. Dr. Watkins' office was downtown on Second Street where Abob Realty is today. He was shot by an insane man at a farmhouse near where Safeway is now. Two of the hous-es where Brink lived stand today on Polk Street and VanBuren Street.

The grave of the minister's daughter, "Jenny" in "Buffalo Coat" and Winnifred Booth in reality, is in the cemetery. Her headstone is just a few strides away from where Dr. Watkins, his wife Caroline, their daughters Henrietta and Elsa, and Henrietta's husband, Alexander Ryrie, are all buried.

Carol Ryrie was born Dec. 28, 1895 to Alexander and Henrietta Watkins Ryrie. Ryrie was one of Moscow's first mayors and came to Moscow for the loan and real estate business.

Alex Ryrie died of consumption when Carol was very young, and soon after her mother remarried. However, she suffered from extreme depression and committed suicide three years after her father, Dr. Watkins, was murdered.

Caroline went to live with her namesake, Grandmother Watkins, at age 8. This grandmother, Caroline "Caddie" Woodhouse Watkins, is the hero-ine of "Caddie Woodlawn," the Newberry Award-winning novel by Brink that whimsically chronicles Caddie's youth in the Midwest Caddie's youth in the Midwest.

At age 13, Carol's grandmother took in Raymond

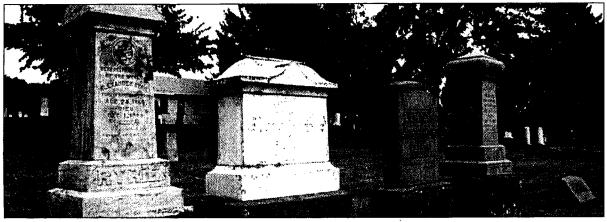

Above: The house where Carol Ryrie was born on Polk Street. Below: The Watkins Cemetary Plot in Moscow Cemetary. Left to right: Alexander Ryrie, Heyrietta Watkins Ryrie, Caroline Woodhouse Watkins, William Watkins.

"Blinkey" Brink, an instructor at the University of Idaho's prep school, as a boarder. The young man was brilliant at mathematics and tutored the young Carol. Years later they ended up marrying.

Carol studied for her first three years of college at UI and was a member of a sorority as well as edi-tor of the society page of the Argonaut. She complet-ed her senior year at UC Berkely. The reason Brink Hall on the UI campus is named as such was that the name was connected to both English and math because of the talents of Carol and Raymond Brink. Brink's other books include "Strangers in the Forest," "Snow in the River" and "A Chain of

Hands." The lattermost is a collection of essays of her recollections and serves almost as a compendium of figures of Moscow's history.

Festival celebrates with cultural icons

he first annual Latino-Iberian Festival was a success Saturday, with a full house and an entertaining and informative show. Association of Latin Americans

of trivia about Latin America and the Iberian peninsula. Then they introduced the models for the fashion show, which featured traditional clothing from Honduras, Ecuador, Venezuela, Panama, Mexico and Peru.

After the fashion show Sodexho served a delicious dinner consisting of foods from all over Spain and Latin America. The appetizers were tortilla española (Spanish omelet), an omelet with potatoes and onions, and abreboca (mouth-opener), a skewer of ham, pineapple, cheese and olive. The main dish was cheese, chicken or beef empanadas, ensalada de zanahoria (carrot salad), ocopa (potato salad) and arroz amarillo (yellow rice). The dessert was an exquisite torta tres leches (three milks cake). Cocktail de frutas, chilled cocktail juice with fresh fruit chunks, was the beverage. After dinner the show resumed with PowerPoint presentations about Spanish-speaking countries, then singing, dancing and a segment from the play "Yo Soy Latina" (I am Latina). The dancing was especially exciting. A salsa dance and a mariachi courtship dance from Mexico

ARGONAUT STAFF

7ou've been waiting all week, anticipating the future that your bodily fluids hold in store. The wait is over. Behold thy destiny.

Sanguine: character traits: loving / energetic / cheerful / irresponsible / attention-seeking / extrovert-ed. Governed by blood, influenced by air

Just as the leaves on the trees are changing, the times they are a changin' for the Sanguines. Especially for aspiring football players, who should start considering a different career. If Sanguines are romantically attached, they will soon become romantically devastated, or perhaps will even wreak some devastation themselves. Sanguines who are members of the Lonely Hearts Club will soon be swept away in the whirlwind of

giddy, newborn affection. If Sanguines are confident about their academics, they may expect to receive some unpleasant discoveries. On the obverse, Sanguines who expect to flunk will be kissed by the Muse and will impress their teachers with bright enthusiasm. They should plan parties in the coming week, especially traditional October festivities such as pumpkin carving and hayrides, because the clear air and fiery leaves are bestowing the Sanguines with high spirits.

It was probably a bunch of Sanguines who built the playhouse made out of dingy mattresses dubbed "Puke Place" out in front of the Alpha Tau Omega house last weekend. Such an edifice seems to suggest highly goofy individuals, and Sanguines most closely fit that description.

Melancholic: (opposite of Sanguine) character traits: focused (obsessive) / dramatic / artistic genius / strongly pessimistic / pas-sionate / introverted. Governed by bile, influenced by earth.

Melancholics, like the dark earth of the bare fields, will have all their most prominent characteristics on full display, and they will be on the prowl. The prey of the prowler will vary for every Melancholic, but the hunting theme will prevail. Melancholics may decide to go

creatures, or they may be predators of soul mates. The method to Melancholic madness will be, as always, profuse with drama. Whether they are seeking the perfect lyrics for a song they have writ-ten on the mandolin or they are in a heated quest for the right words in a term paper to impress that perpetually unimpressed professor, drama will govern their hunting just as Diana governed hunters of yore. However, Melancholics always expect their efforts to fail. They are pessimists. Therefore, you may find them this week in a state of deep vexation.

Phlegmatic: character traits: lackadaisical / lazy as all get-out / logical / even-tempered / take noth-ing seriously. Governed by phlegm,

influenced by water. Take it easy. As if you all need to be told that. Beware of Melancholics on the hunt, because if they catch you with ease they'll

despise you just as easily for ruining their pessimism. Feel free to hang out with Sanguines, who will be especially fun in the coming week.

Good things fall into your path always, and the next few days will be no exception. Eat all the pie you can find.

Choleric: (opposite of Phlegmatic) character traits: hyperorganized / bossy / diligent / strong leaders / strong tempers. Governed by gastric acid, influenced by fire. The autumnal vibrancy will sat-

isfy all Choleric yearnings for vivid-ness, so instead of expressing themselves, they will be remarkably passive and at peace in the coming week. Rewards will come to them because they have been working their tails off, and now they may finally take a break. They should take a back seat in social events, acting as the smart alecks on the couch rather than the hosts serving cider. This is important to heed because the mellowness that so rarely sits on Choleric shoulders should be nurtured, as it brings out their cleverness

Next week: the Four Humors diagnostic test. Any question as to what your primary and secondary humors are will be answered.

ŧ.

REVIEW and Iberians organized the festival. Despite initial apprehensions that few would come, the group sold all 400 tickets to the event, and with children younger than 5 getting in for free, the number of attendees was easily more than 400. "There were doubts at first [if all the tickets would be addl because it was Hamesoning weakend," soid Andrea

sold] because it was Homecoming weekend," said Andres Garcia-Pretel, a junior microbiology, molecular biology and biochemistry major, and vice president of ALI. "But as planning for the festival intensified we felt that it was going to be a great event. There was no doubt that it was going to be successful, in my mind."

Resource recreation and tourism junior Bernardo Alvarez and psychology and communication studies senior Sonia Ponce hosted the event. They started off with a list

FESTIVAL see Page 7

Video game spin-off crashes hard

BY SEAN OLSON ASSISTANT A&C EDITOR

N ometimes the toughest thing about reviewing movies is not \mathcal{J} being able to leave.

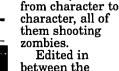

Such is the case with possibly the worst movie in a decade. "House of the Dead" isn't fit to be released straight to video. Books could be filled with monotonous details of everything wrong with "House" and they would still be more entertaining than the actual movie.

Sega has demonstrated the importance of employee drug testing by allowing someone to determine that the video game should be turned into a film in the first place. Further evi-

dence can be seen in the movie itself. The first-person shooter style game was mildly successful in the gaming world, but its popularity paled in com-parison to other games of the genre. Basically, the game revolves around shooting thousands of zombies. "House" is exactly the same: shooting zombies and running from zombies. It would probably be more exciting to watch a friend play the game than suffer the pain of watching "House."

The gist of "House" is a barrage of characters, introduced by narration in the first two minutes, who show up on an island for "the biggest rave of the year." These ditzy, unlikable and poorly acted characters are attacked by the walking dead for a solid hour or so. Conveniently, the ship captain paid to take them to the island is smuggling weapons. They load up and fight back.

No gun battle in the history of film could bore a viewer more than the one in "House." The government may want to screen the movie to elementary students for the purpose of showing how fun academics can be compared to gunplay. The scenes have no structure whatsoever as they flash

between the instances of zombie killing are recorded bits from the actual game of zombies getting shot. The result is the appearance of an hour-and-ahalf-long commer-cial for the game

itself. As if to attone for the ridiculous acting and dialogue (not to men-

tion dollar-store make-up for the

zombies), "House" incorporates three or four special effect shots. These have been ripped off from a number of films that pulled them off better. Think the standard "Matrix" stopmotion gun battle, the pan around a still character in a paused scene and of course a dubious attempt at the 'Blair Witch" shaky camera stunt.

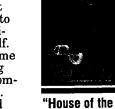

Other video game phenomena are uselessly thrown into the action. After a few of the characters are killed early in the film, "House" cuts to a head-to-waist shot rotating around the character in a circle. This is possibly some sort of reference to a screen in the game after a character dies, but it doesn't make any sense in the movie. "House" stops doing the astounding rotating trick after one or two deaths, confusing viewers even more

"House" attempts to fit into the mold of horror film by giving us a back story explaining why the evil exists. However, although there is a back story made available to the view-ers, a NASA think tank would take weeks to even come up with a theory as to what it actually meant. The back story borrows from the clichéd montage of events already shown in the movie, as remembered by a main character. Of course, this explanation is shown at the opportune moment of the death of an insignificant female with one line in the movie. The two wild cards Sega had up its

sleeve to pump "House" up from its video game roots were the predictable nudity and gore. Porn stars would be disgusted at the blatant display of unnecessary topless scenes. And as for the gore? Nothing special, but it can be said that generally when limbs are torn off, they leave slightly more than a small pool of blood.

The only good feeling "House" brings to any audience is the sense of relief when it's over. Start drug-testing Sega, before someone makes a live-action "Sonic, the Hedgehog" movie.

WRITESTUFF

Spelling is relative

BY KATIE BOTKIN ARTS&CULTURE EDITOR

ast week some may have noticed that "Hemingway" was spelled wrong in the self-righteous grammar column discussing run-on sentence ludicrousy.

Newspapers have a bad reputation for doing things like this, and such mistakes are all the more obvious if the name spelled wrong is a wellknown one.

Spelling, however, is tricki-er than pure unadulterated grammar, although both are relative in their own way, made uniform according to someone's standard of what is grammatically correct. Even this changes with time.

"What," for example, was spelled "hwaet" about a thou-sand years ago. English spelling was phonetic then: The letter "a" was pronounced virtually the same in every situation, and it was distin-guished clearly from "ae." This is opposed to the system we have now, where "car," "cat" and "can" require different pronunciations for the vowel "a." Despite the fact that they all start with the same letter, which is followed by "a" and ends with a third letter that is a consonant, they require vari-ations of phonetic vowel sounds. (Try pronouncing "can" like you're saying "cat." You'll sound English.) Some of the weirdness that

is English spelling is due to French influences. "Beau" and "bow" are pronounced the same in our language, unless you're

talking about bowing to a King (or anybody else) and not about shooting. "Heir" (from French "heritier"), "hair" and "hare" are also just about equivalent. But one obviously has to do with the succession of Kings, another with the object of shooting. And of course both

heirs and hares have hair. It can be quite confusing, orthographically speaking. If you write right, you could be a playwright. If you ate eight oughts, you ought to have eaten nothing. And if you bare a barren bear while bearing berries, you'll have a naked, childless omnivore lusting after your food, which is not a good thing. Switch a few letters, and certain words dissolve into nonsense. This is all to lament weak-

ness in concrete rules of spelling, because there aren't many. Actually, there are, but you might have to learn a couple of different languages to figure them out, and even that doesn't help very much.

However, that's no excuse for spelling so flawed it hinders communication. "There aren't many" means something different than "their art man" or "they're Art Money." None of these words will get caught by spell check. You just have to learn them. Despite these man-made

rules that govern us so perniciously and erratically, it's not going to mark you as a nonconformist groundbreaker to ignore them; it's going to mark you as a lazy bum to dumb to know the difference. Or, wait ... I mean too dumb.

FESTIVAL From Page 6

were two of several beautiful dances from around Latin America and Spain. The crowd got involved often, clapping to songs from the Basque country and Peru. The play segment was interesting and well-acted.

There were a few technical difficulties with the PowerPoint presentations and the sound, but the hosts and performers made do with what they had. Garcia-Pretel said they were unable to do a full dress rehearsal, but he was impressed with the way Alvarez improvised when problems emerged. The festival itself ended with the

singing and dancing, but the fun continued with a special Latino Night featuring a surprise guest. The band Samai (which means "peace") came from Seattle to provide live music. The three-member group, originally from Ecuador and including a UI alumnus, is celebrating the release of its first CD, "Hecho en Casa" (made at home).

Overall, organizers were pleased with the event. "I heard a lot of compliments from the people attending the event," Garcia-Pretel said. "I think people were very satisfied with the festival. I'm incredibly happy with the festival and extremely proud of the people

that made it happen." Interesting Facts About Latin America and the Iberian Peninsula:

• The term "Latino" encompasses all people whose language is derived from Latin and was created to include Brazilians, who speak Portuguese.

• The Iberian Peninsula is made up of Spain and Portugal and is named after the Iberian people who used to live there.

• The term "Hispanic" comes from "Hispaniola," the old name for Spain.

ARTSDREES

WSU showcases art by Andy Warhol

The Washington State University Museum of Art will exhibit the original artworks by Andy Warhol titled "Athletes Series, 1979" from Oct. 22-26.

Richard Weisman, the person responsible for the idea behind the creation of the series, will be on hand Oct. 22 for a 6:30 p.m. public presentation and dialogue in the Fine Arts Center, across the street from Martin Stadium on Wilson Road. Immediately following he will sign copies of his book, "Picasso to Pop: The **Richard Weisman Collection.**"

Weisman will also be a featured speaker in an Oct. 23 Art à la Carte session, the informal WSU brown bag lunch series, at 12:10 p.m. in the Compton Union Building, Cascade Room 123. Together with Chris Bruce, director for the Museum of Art, Weisman will discuss Warhol, art and his book, which will be available for purchase and signing. All book-sale proceeds will go to support the Museum of Art's Director's Fund for Excellence.

The 10 works in "Athletes Series, 1979" are painted portraits of some of the most influential sports stars of the day, including boxer Muhammad Ali, football's O.J. Simpson, ice skater Dorothy Hamill, basketball's Kareem Abdul-Jabbar, golfer Jack Nicklaus, ice hockey's Rod Gilbert, former tennis great Chris Evert, horse racer Willie Shoemaker, baseball's Tom Seaver and soccer's Pelé. There will also be four of Warhol's famous "Campbell's Soup" prints from 1968 included in the exhibition and a self portrait from 1967, courtesy of Spokane collector Derald Long.

Funding for the museum exhibitions and programs for the fiscal year are provided by WSU, the Friends of the Museum of Art, WSU Foundation, Samuel H. and Patricia W. Smith Arts Endowment, Richard Weisman, the Museum of Art/WSU Director's Fund for Excellence and private donors.

> WE DELIVER No Minimum Order

New York City-based choreographer appears at UI

Choreographer Henning Rübsam returns to the UI stage of dance Oct. 13-17. Henning will be on campus to introduce a new dance to the students at UI Dance, which will be presented by the UI Dance Theatre students for the UI Dance Theatre Fall Concert, scheduled Oct. 31-Nov. 1. He has also agreed to perform a solo concert at 7:30 p.m. Friday in PEB studio 110.

Henning Rübsam is the Artistic Director and Choreographer for the New York City-based modern dance company SENSEDANCE. Rübsam choreographs for opera and theater, including Outer Critics Circle Award winner Lanie Robertson's off-Broadway production Cannibal's Waltz. His dances are set to unusual music - from lieder to daffy rock classics.

All tickets for Friday's recital are \$5 at the door.

Dance series brings Aspen Santa Fe Ballet

After a summer sell out run at the Joyce Theatre in New York City, the Aspen Santa Fe Ballet will present its Northwest premier at the Beasley Coliseum on Nov. 2 as part of the Festival Dance Great Performances Series.

The Nov. 2nd performance will include "Noir Blanc" (black/white) that was created especially for the company by Moses Pendleton. Considered to be one of dance's most imaginative choreographers, Pendleton has designed a piece that uses black light and costumes that are white on one side and black on the other to give the illusion

that the dancers are floating. Aspen Santa Fe Ballet is directed by Jean-Philippe Malaty and Tom Mossbrucker, formerly of the Joffrey Ballet. While in the area, the company will also present a free school performance for area 5th graders Nov. 3 and a ballet master class on the same day at the University of Idaho Center for Dance.

Tickets for the performance of the Aspen Santa Fe Ballet are available at the Beasley Coliseum and the Depot in a Pullman, the UI Ticket Office at the North Campus Center in Moscow, Albertson's in Lewiston and all TicketsWest outlets.

Group tickets for 10 or more at discount rates can be obtained through the Festival Dance office at 883-3267. Ticket prices; are \$24 and \$16 for adults, \$16 and \$14 for students and \$12 and \$10 for children less than 12 years old. All seats in the first seven rows are \$28.

'Wit' opens at Kiva

"Wit," a play by Margaret Edson, opens at the Kiva on Wednesday. Dates are as follows: Oct. 15-19 at 7:30 p.m. Oct. 22-25 at 7:30 p.m. Oct. 26 at 2 p.m. Post-show discussion will follow Thursday's performance.

Deidre Rodman Quintet comes to UI

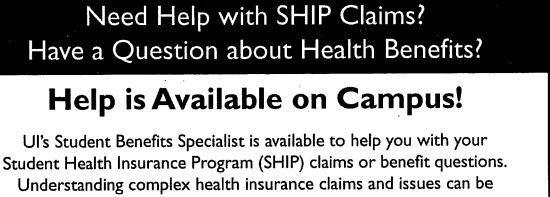

The Deidre Rodman Quintet will appear at 8 p.m. on Wednesday in the School of Music Recital hall.

The quintet is made up of Deidre Rodman, a planist currently living in New York City, Tony Malaby on tenor/soprano saxophones, Russ Johnson on trumpet, Bob Bowen on bass and Mark Ferber on drums.

They have just released their second CD, "Simple Stories," in which they explore the quintet sound through improvisation, children's chorus and melodica.

Cornerback J.R. Ruffin, linebacker Nate Nichols, safety Curtis Bibolet and safety Jarvis Huff put up a strong defense at the Homecoming football game against North Texas on Saturday.

UNT turns Vandal Homecoming into track meet

BY NATHAN JERKE SPORTS&REC EDITOR

here was no mystery to North Texas' game plan against the UI football team Saturday: The Mean Green planned to run the ball

L all day long. Running back Patrick Cobbs made that plan work, rushing for a school-record 249 yards and three touchdowns as the Mean Green beat the Vandals 24-14 in a Sun Belt Conference game.

"Even though they had a lot of guys committed to the line of scrim-mage, we felt that we had to run the ball," UNT coach Darrell Dickey

said. "That's what he (Cobbs) gets paid to do ... and he knows where the ball is supposed to be run. He's a tough runner." For the Vandals, who dropped to 1-6 overall and 1-1 in conference, the game proved to be an incredibly disappointing loss, especially since they led 14-0 early in the second quarter. But an interception, two fumbles and sev-eral general mistakes gave the Mean Green enough momentum to mount a comeback and win their 14th straight conference game, improving their record to 3-3 overall and 2-0 in the Sun Belt.

back and free safety ran into each other. He needed only to outrun one other defender, but it was a small move on the 10-yard line that secured the touchdown.

Labita said the safety was probably thrown off by the fact that he bobbled the ball, which may have made the defender think about snar-

10 catches for 130 yards. But that was the end of UI's good fortunes. UNT drove 80 yards in nine plays on the ensuing possession for its first score, a 30-yard run by Cobbs, to take the score to 14-7.

The remainder of the quarter was spent going back and forth as five consecutive possessions resulted in no points scored. Finally, as the half wound down, UNTs Nick Bazaldua kicked a 29-yard field goal to pull the

Mean Green to within four at halftime. "We spend a lot of time on special teams and we hope we can swing the momentum of games through that if we can," UNT coach Darrell Dickey said. "We made our field goal and they missed theirs." North Texas started the third quarter off with a bang, blocking a Ryan Downes punt and recovering on UI's 25-yard line. The good start resulted in Cobbs' 1-yard dive into the end zone for UNT's first lead of the game

SARAH QUINT / ARGONAUT Sousaphone players bowl during halftime at the Homecoming football game against North Texas on Saturday.

"We did not manage the football ... and that's really the difference in the football game," UI coach Tom Cable said. "We knew they'd gain some yards rushing 'cause that's all they do, and we knew we'd move the ball, and we did that. But we missed some great opportunities in the

red zone to score points." The Vandals had everything going early, beginning with a stop of the UNT offense and a 77-yard opening drive that finished with a 6-yard touch-down strike from UI quarterback Brian Lindgren to Orlando Winston.

The defense got the job done again on the second North Texas possession, allowing the Mean Green to barely get over the 50-yard line before forcing a punt. The Vandals were pinned deep on their own 3-yard line after the kick bounced out of bounds, but that didn't matter as two plays later Lindgren connected with Jimmy Labita for a 92-yard touchdown strike. Labita caught the pass and was cleared of defenders as the corner-

Next games • Mid Tennessee Saturday 2 pm Kibbie Dome La. Lafayette Oct. 25 Lafayette, La.

The Mean Green hit pay dirt one more time before it was all done, as Cobbs once again punched in a TD from the 1-yard line with 2:34 left in the fourth quarter.

HOMECOMING, see Page 10

UI names interim athletic director

BY NATHAN JERKE SPORTS&REC EDITOR

niversity of Idaho interim President Gary Michael named an interim director of athletics when he introduced Rob Spear to the athletic department staff Friday morning before introducing him to the rest of the

university. Spear, who has worked as UI's interim assistant financial vice president for the past six months, takes over for Mike Bohn, who

COURTESY PHOTO Rob Spear, interim athletic director, was appointed Friday.

took the vacant athletic director position at San Diego State University last week. Bohn will offi-cially give up his post at UI later this week, when Spear will

assume the responsibilities. "Even though it's going to be a short-term position, I really think it's going to be one of the most rewarding in my career," Spear said. "I'm just looking forward to being an integral part of Vandal athletics and really building on the foundation that Mike (Bohn) has laid here "

has laid here." Spear said he received a mes-sage from Michael the morning of Oct. 6, after Bohn had been informed that he received the job

"My first reaction was 'uh-oh, what did I do wrong?'" Spear said. "I told you we'd do this fast," Michael said. "We had the right

person here." Spear said that before he prom-ised to do the job he needed to talk to some people in the organization and make sure they would be com-fortable with the decision.

By Thursday, Spear was sure with the decision.

"And it's been a quick 24-hour turnaround," he said.

Spear came to UI in 1989, beginning his career as an internal auditor and later working with grant contracts. He added his doctoral degree in education from UI in 1993 and served as assistant vice president for the University Outreach in the College of Agricultural and Life Sciences.

Before that, Spear played bas-ketball at the University of Great

Falls, graduating in 1980 with a business degree and receiving an MBA from Montana in 1983. Before moving into the professional world Spear also played in the Continental Basketball Asso-ciation under future NBA coach George Karl.

As he assumes the interim position in the athletic depart-ment, Spear said he doesn't have any plans that will rock the boat. "I think when you assume an

interim position the responsibilities are just to keep the ship afloat," Spear said. "I don't have any goals; I think the goals of the organization have already been established and it's up to this per-son to keep those goals and move them forward." Spear said one of his responsi-bilities is to just menore the

bilities is to just manage the administrative responsibilities and otherwise let the staff do its job. But he is not yet sure if he will be among the candidates for the full-time position.

"I don't want to put words in his mouth, but I told him that I want him to be a candidate,' Michael said.

Michael said fund raising and marketing will be the keys for finding the future athletic direc-tor. He thinks connecting with the alumni, fans and community is imperative to keeping UI at the Division I-A level.

"We're going to look for a people person," Michael said. "We want somebody to come in here and get people around and set the agenda. I'm not too worried about what people have done and not done."

It's the little things that count

BY JAKE ROBLEE ARGONAUT STAFF

I f a person tried to find the one big problem or serious flaw in the way the University of Idaho football team played in its loss to North Texas on Saturday, they wouldn't. What they would find is a trifecta of small, key mistakes that cost UI the game.

The Vandals exploded out of the gate early, dominating on both sides of the ball. In the first quarter and at beginning of the second, the offensive line gave senior quarterback Brian Lindgren enough time to write his autobiography. The impressive protection gave Lindgren enough time to lead the Vandals down the field twice.

The first resulted in an impressive 10-play drive that was capped by a 6-yard touchdown pass to Orlando Winston, and the second was a deep slant pattern to Jimmy Labita over the middle. After a little shimmy at the 10-yard line to lose the defender, Labita turned it into a 92-yard pass play, the longest of both Lindgren's and Labita's careers.

After the explosive beginning by the Vandals, the team sank back into what has become regular UI fashion, slowly letting go of an early lead and losing, this time 24-14. But the downfall of the Vandals wasn't spurred by a big North Texas play or even the workhorse performance of Patrick Cobbs. The turnaround was smaller than that and harder to notice. The Vandals self-destructed by a series of small plays that occurred at just the wrong times for

them and just the right times for UNT. "Those little things add up over the course of the game," NTU coach Darrell Dickey said. "The fact that our guys didn't let down ... We method-

ically, boringly got back into the game." The plays that caused the Vandals real prob-lems were small but combined for big problems. An interception in the second quarter, a blocked punt in the third, a fumble on a fourth down in the red zone — these small things cost the Vandals the game and a shot at the conference lead.

The interception that came near the end of the first half allowed the Mean Green to drive down

the field and kick a field goal with 0:03 left, giv-ing them the momentum going into halftime. The Vandals just weren't the same after that.

The second mistake, a blocked Ryan Downs punt midway through the third quarter, led to a JNT touchdown that gave the Mean Green the lead at 17-14.

The last of the three big mistakes was a fumbled snap by Lindgren on fourth and inches. Inside the Mean Green's red zone for the first time since early in the second quarter, a first down could have been the turning point for the Vandals to take back the lead. However, the mis-handled snap took away what little wind the

Vandals were mustering up in their sails. The turnover led to one of many UNT punts; on this particular one, UI returner Rod Bryant fumbled the kick. Fortunately it was recovered

by UI inside its own 5-yard line. "Those three plays I believe are 17 points," UI coach Tom Cable said. "And when you're going after what we're trying to do, in terms of turning it around and making a run at a title, you can't get punts blocked, you can't throw interceptions or you can't drop punts. And those three plays

[were] the dagger." "I thought that the fourth-down stop on our end of the field was critical," Dickey said of the fumble and turnover on downs.

Even though the Vandals gave up a few small plays, the offense and special teams were not totally at fault. The defense was not able to step up and stop UNT running back Cobbs on third and longs when they gave it to him, and he was able to knock out eight to 10 yards per carry.

able to knock out eight to 10 yards per carry. "A lot of people would say that that is luck, but we feel that luck is when opportunity meets preparation," Dickey said. "They backed us up on our heels for a while, but our guys didn't panic." The Vandals' offense and special teams have pro-gressed leaps and bounds since the beginning of the season, but they are still a few small flaws away from forming a complete, cohesive unit. Fixing these seemingly small problems might even give UI a chance to fend for a conference title, assuming North chance to fend for a conference title, assuming North Texas is knocked off somewhere down the road.

Sportsbriefs

UI volleyball drops two conference matches

The UI volleyball team was handed its sixth Big West Conference loss Saturday night by No. 19 UC Santa Barbara, 24-30. 25-30, 35-33, 26-30. UI lost Friday night to Cal Poly in five games, 30-27, 30-20, 27-30, 26-30, 15-6.

UI struggled offensively in the first two games at Santa Barbara as they recorded hitting percentages .146 and .171. The Vandals came back in game three, hitting \$51 on their way to a 35-33 win. The Gauchos responded with a .406 hitting percentage in the fourth game to win the hatch.

: Anna-Marie Hammond led the Vandals with 24 kills on a .333 hitting percentage. Sarah Meek added 19 kills and six blocks for UI. Mandy Becker led the offense with 62 assists and also chipped in with 14 digs. Meghan Brown had her first double-double of the season with 13 kills and 21 digs.

Overall, UC Santa Barbara outhit (.329-.247) and outblocked (13.5-10) UI. The Vandals outdup the Gauchos 64-57. The UI volleyball team battled Cal Poly

in a five-game match, its fourth down-tothe-wire match of the season. Neither team played well in the first game as the Vandals hit .000 to the Mustangs .083, and Cal Poly came away with a 30-27 win. The second game was much the same as Cal Poly outhit the Vandals again

The Vandals came back in game three and downed the Mustangs 30-27. Game four also went the Vandals' way as they hit at a .213 clip. However, Ul couldn't muster up any offense in the fifth and deciding game as it fell 6-15.

Hammond led UI with 22 kills and seven blocks. Amanda Bowman and Brown chipped in 13 kills apiece. Jessica Yearout had a career-high 31 digs, while Becker recorded her ninth double-double of the season with 56 assists and 18 dias.

The Vandals, 7-8 overall and 1-6 in the Big West, return home to Memorial Gym for a three-match home stand. They face Gonzaga on Tuesday, UC Riverside

on Thursday and Cal State Fullerton on Saturday. All matches begin at 7:00 p.m.

UI soccer comes up winless again

The UI women's soccer team is still looking for its first conference win of the season after falling 1-0 to Utah State in overtime Sunday.

Utah State's Charlsie Harris ended the game with a goal after a scramble in front of the UI goal at the 95:45 mark in the first overtime. The goal was the first overtime goal allowed by Idaho in nine overtime periods this season.

UI (2-7-4, 0-3-0) was outshot 24-5 by Utah State (9-4-0, 3-0-0) and the Vandals were unable to get off a shot on goal. UI goalkeeper Lindsay Smith had eight saves for the Vandals and allowed one goal.

The Vandals' season continues on Friday as they match up with UC Irvine at 7 p.m. in Irvine, Calif. The Vandals will then travel to Long Beach, Calif., to take on Long Beach State at 1 p.m. on Sunday

Cross country men finish fifth at WSU Invitational

The UI men's cross country team participated in the WSU Invitational Saturday morning at Pullman. Washington State captured the men's and women's titles while the Vandal men finished fifth.

Idaho's top finisher was Brandon Reiff with a seventh-place finish in a time of 27:07. Derek Laughlin placed 23rd, Mike Thompson 25th, Blake Taylor 33rd, Alex New 46th and Tonda Lark 48th. Washington State's Danny Wolf won the individual title on the men's side while Maria Zambrano of Cal Spartans TC was the women's individual winner.

The Idaho women only had two runners at the event. Kendra Colyar took 18th while Niki Barfuss finished 38th. The men and women travel to Cedar Falls, Iowa, Saturday to participate in the NCAA Pre-Nationals Meet hosted by the University of Northern Iowa.

Climbing wall offers new women's, youth programs

The UI climbing center will offer two new programs this fall. Women's Night will be held on

Monday nights from 6-9 p.m. and will consist of basic clinics taught by female instructors. The class will give women an oppor-

tunity to learn the basics of climbing in a less intimidating environment. Non-student recreation center mem-

bers must pay the day use fee to access the climbing center.

A youth open-climbing program will be offered on Saturday mornings from 9 a.m. -2 p.m. Both programs are open to university and community members.

Women's tennis in three championships at UM

The Lady Vandals finished the last day of the University of Montana Invite with three championship appearances and eight wins on Saturday.

In the singles main draw, No. 1 seed Sunel Nieuwoudt defeated teammate Patricia Ruman, 6-0, 6-1, in the semifinals.

In the championship, Jamie Buterbaugh, No. 2 seed for the tournament, 6-1, 6-3.

In consolation play, Tara Fielding finished off Becky Fry, 6-0, 6-2 and handed the same fate to Gonzaga's Sirrah Williams, 6-2, 6-1.

Also in consolation, Kareen Konishi was victorious over Montana's Michaela Zima, 6-4, 6-3. Konishi kept her opponent, Bonny Bower, to a minimum with a final score of 6-1, 6-2,

In doubles, Konishi and Ruman defeated Montana's Micheala Zima and Annabelle Janairo, 8-6.

The other Vandals tandem, Nieuwoudt and Mariel Tinnirello, beat Kendall Bates and Leigh Orne, 8-1.

In the finals, both Vandal doubles faced each other. Nieuwoudt and Tinnirello were victorious over Konishi and Ruman, 8-5.

Utah State I 1-5, 1-0

VS

Casey Bramlet converted 13 of 24 pass attempts for 211 yards and three scores, leading Wyoming over the Utah State Aggies in a nonconference matchup. Derek Armah rushed for 123 yards

and two scores on 22 carries for the Cowboys, while also leading the squad with four receptions for 41 yards.

David Fiefia gained 86 yards and one touchdown on the ground for Utah State. Travis Cox completed 16 of 35 pass attempts for 202 yards and one score while also rushing for a score and gaining 22 yards on eight scrambles.

Wyoming opened the second quarter with three straight scores as the Cowboys pushed the lead to 28-7 with a little less than 10 minutes remaining in the first half

Redshirt freshman Clint Marks threw three touchdowns to Kerry Wright, leading Middle Tennessee State to victory over New Mexico State in Murfreesboro, Tenn.

Marks connected with Kerry Wright on the game's first offensive play for a 32-yard touchdown and again in the second quarter for a 39-yard touchdown strike to give the Blue Raiders a 21-10 lead.

Louisiana-Monroe drove 60 yards to set up Tyler Kuecker's 31-yard gamewinning field goal with 1:46 remaining to lift the Indians to their fist victory of the season over winless Louisiana-Lafayette. Kevin Payne ran for 143 yards, including touchdowns of 15 and 2 yards,

for ULM, which led 28-14 at halftime

before the Ragin' Cajuns rallied to tie the game at 42.

ULM quarterback Steven Jyles was 16 of 25 for 161 yards and also ran for a 64yard touchdown.

Lafayette managed only 50 yards rushing as a team, but Eric Rekieta completed 33 of 54 passes for 474 yards and four TDs while running in a fifth touchdown from a yard out.

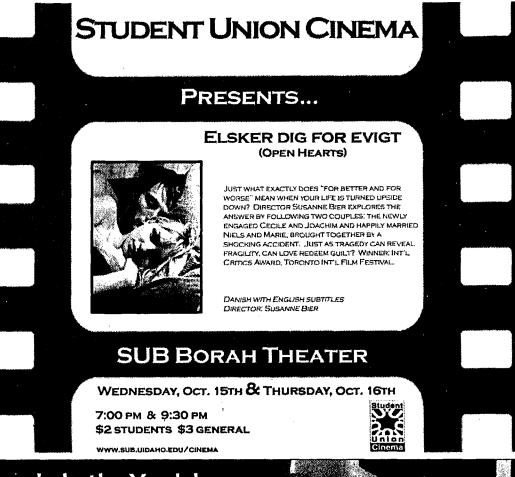

Eli Manning was 23 for 36 for 306 yards and three touchdowns as . Mississippi routed Arkansas State.

The Rebeis gave up only 235 total yards and allowed Arkansas State to cross midfield only four times.

The Rebels, who ranked fifth in the nation in total offense, gained 582 yards against the Indians.

Arkansas State seriously threatened only once midway through the second period as quarterback Elliot Jacobs completed three consecutive passes to carry the Indians to the Ole Miss 4-yard line. But Eric Neihouse bounced a 21-yard field-goal attempt off the left upright to end the threat.

SPORTS&RECREATION

Boston College accepts ACC invite, will become 12th member

BY RON GREEN JR. KNIGHT RIDDER NEWSPAPERS

GREENSBORO, N.C. (KRT) - The Atlantic Coast Conference completed the final step in its aggressive expansion plan Sunday when Boston

College accepted an invitation to become the league's 12th member. The Golden Eagles, who were passed over when the league added Miami and Virginia Tech this summer, received a unanimous vote of approval from the ACC Council of Presidents at the end of a 90-minute conference call Sunday. Boston College had been kept out by a 6-3 vote in late June. What changed?

"It became more and more clear with 11 it was a strong league, but when we compared it with a 12team league, it became even stronger," said Clemson President James Barker, chairman of the Council of Presidents.

It remains unclear exactly when Boston College will leave the Big East Conference and become an will leave the Big East Conference and become an official ACC member. The most likely scenario is 2006 because of recently changed Big East bylaws that require schools leaving without 27 months notice to a pay a reported \$5 million exit fee. Boston College President William Leahy, though, said the school hoped to join by 2005. Miami and Virginia Tech which also are leaving

Miami and Virginia Tech, which also are leaving the Big East, become ACC members July 1, 2004. ACC commissioner John Swofford said Boston

College could join earlier than 2006, but that must be determined by the school's administration and the Big East. The ACC, Swofford said, will operate under the assumption Boston College will join after the 27-month waiting period.

League presidents also voted to pursue the creation of a conference championship football game. NCAA guidelines require a league to have 12 members to hold a championship game, though the ACC has introduced legislation to change the rule to fewer than 12.

Swofford said the league will continue to pursue legislation to hold a championship game with 11 members for two years until Boston College joins. A championship could be worth up to \$10 million for the league. Charlotte is expected to pursue the

ACC title game, along with Orlando and Jacksonville, Fla. The addition of Boston College ends a turbulent period for the ACC in which the league took a pub-lic relations hit for its pursuit of the Big East mem-hers. It became clear the league would not atom bers. It became clear the league would not stay with 11 members, especially after getting indica-tions a championship game would not be approved.

"It's like a suit you put on and wear a while and only then realize it needs some alterations, Barker said of the decision to move from 11 to 12.

Despite the earlier rejection of Boston College, the league and school officials maintained contact during the summer and early fall as the ACC considered its options.

HOMECOMING From Page 7

"The offensive line was opening up nice little creases and they were doing their job and they were just putting it on my shoul-ders, and I was doing mine after I got my opening," Cobbs said. "We knew we could move the ball offensively, so we really didn't get too rattled." UI, on the other hand, could-

n't get much done on offense. Following the loss of their lead, the Vandals attack faltered with a 6-yard drive and then a fumbled snap on fourth-and-one inside the UNT 20-yard line that turned the ball over on downs.

"That's something that should never happen," said Lindgren, who finished with 402 yards on 23 of 41 passing and two touch-downs. "(Matt) Martinez and I never have a trouble with our snap. I think partly he was try-

ing to get going too fast ... and I think I was kind of eager, too.'

The Vandals quickly ran short of opportunities in the final stanza, punting twice and failing on another fourth-down conversion.

The Vandals continue the season this Saturday against the 1-5 Middle Tennessee State Blue Radiers at the Kibbie Dome.

But MTSU is coming off a dominant 35-18 win over New Mexico State for its first win of the season.

Vandal baseball takes two against Montana

BY NATHAN JERKE SPORTS&REC EDITOR

The University of Idaho club baseball team came back from early deficits in both games of a doubleheader to sweep the Montana Grizzlies on Sunday, winning 6-3 and 6-4.

In their first games of the fall season, the Vandals relied heavily on their anorexic pitching staff and otherwise deep bench to get both wins. In the opener it was Odo Grandi who came through in the pinch, throwing the complete game and allowing only three runs over seven innings. In game two it was Grif Cochran who came through, throwing a complete game and holding Montana scoreless through the final three

"The big thing for us is that we came up with the wins with different lineups in each game," club president Joe Witt said. "And we still played really well."

The Vandals fell behind 2-0 in the third inning of the open-er after Odo threw a wild pitch to bring in the first UM run, followed by back-to-back hits to bring in the Grizzlies' second

The Grizzlies added another run in the fifth, but UI came right back in the bottom half of the inning as Doug Gates and Colby Sattler started with consecutive singles. Catcher John Pauley brought in both runs with a shot over the center fielder's head that gave him a triple.

Brandon Filloon ended the scoring as he brought in the tying run on a groundout to the shortstop. UI added its final three runs in the sixth as Ryan O'Brien

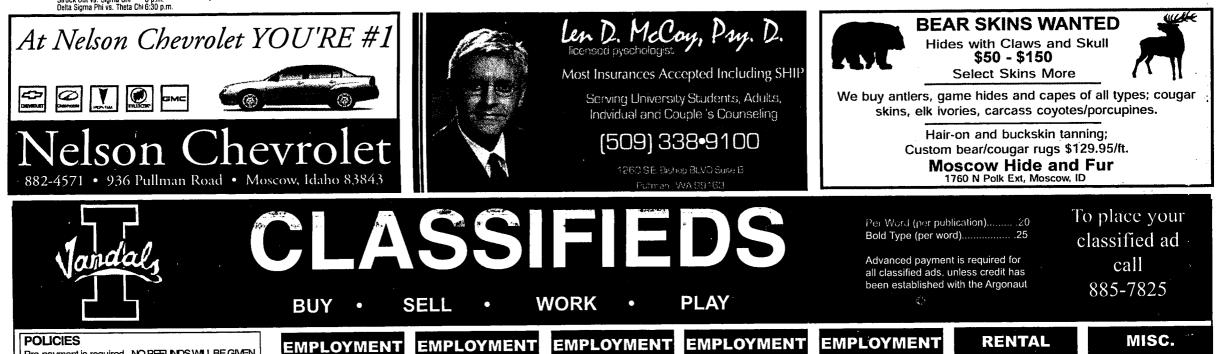

had a leadoff double off the left field fence and came in on a Gates single. O'Brien and Brian Hammond both scored as the UM catcher twice sent a throw to second into center field on

UI steal attempts. In game two UI took advantage of aggressive baserunning to come back from a 4-2 deficit. The Vandals stole four bases, two by Nathan Griffin, who also scored two UI runs.

Down by two in the fourth, UI tied and took the lead on a pair of stolen bases, a walk, a single and a Montana error. Andy Nemeth drove in the game-winning run. The games were possibly the last for Sattler, a senior and

three-year veteran of the team. He graduates in December, and the team may not get another game scheduled for the fall season

The team is still looking for a few players to fill some holes on the roster. For more information contact Witt at witt1225@uidaho.edu.
