Homecoming plans booming

Committee wants to bring back fireworks

Christina Lords
Argonaut

The 2007 University of Idaho homecoming committee is trying to revive a lost tradition with a bang this year for the annual homecoming bonfire.

Jeremiah Penberthy, the chair of the homecoming committee, said the committee hopes to see more financial donations from local business and private sponsors for the fireworks show it's planning.

"In years past there always used to be fireworks," Penberthy said. "We really want to see the fireworks this year ... and we've had a lot of excitement about it from the committee."

Penberthy said the committee pushed

for the fireworks when the group began planning the event, but could still use more community support.

The fireworks show would follow the annual Friday night bonfire Oct. 12, the night before the UI football team plays Fresno State University.

With the theme of "Living the Legacy; Pursuing our Future," this year's homecoming will feature many annual traditions such as the living group jingles competition, decoration competitions, the serpentine walk through campus and the evening bonfire. A homecoming parade is also planned for Oct. 13 and will showcase the homecoming royalty that will be announced at the bonfire.

Committee members are also trying to create a canned food competition between UI and Boise State University that would begin the first day of homecoming week.

Marie Fabricius, advertising chair for

the committee, said the committee wanted to include more of the surrounding communities in all of the homecoming events.

"We want homecoming to be enjoyed by everyone on the Palouse," she said. "I think this will be the best homecoming in my three years at UI. It should go off without a hitch."

Penberthy stressed that the homecoming committee decided on the theme on its own accord and not to fall in line with the university's new marketing campaign.

"The 'living the legacy' part applies to our alumni and we tagged on the 'pursuing our future' because it pertains to the students," Penberthy said. "All of us are in the process of pursuing our future."

"(The theme) is what we came up with and what we wanted," said Matt Dyson, assistant chair of the committee.

ROTC leaps into future

Rappelling lab helps cadets learn trust, leadership

Cyrilla Watson
Argonaut

Falling from a 35-foot high tower is a nightmare for most — a nightmare that came true for Kelly Alyward on Wednesday.

After her shirt was caught in a carabiner while rappelling down a building, the rope she was holding slipped out of the carabiner and she fell several feet before spotters stopped her.

Sgt. 1st Class Donyail Lewis reached out from a window below, and helped her to safety. Students continued rappelling, but used locking gate carabiners.

Even with a safety briefing before the ROTC's rappelling lab, accidents like this can happen.

Army ROTC cadets and many other students literally "jumped" at the experience of rappelling from a 35-foot high tower Wednesday afternoon. At the Moscow fire station, more than 60 military science students got the opportunity to rappel.

Captain Rick Storm said the rappelling lab is designed to allow students to overcome their fear of heights and to trust the equipment.

Senior Elise Pearce said the rappelling lab is "probably the most fun-filled lab I have ever done."

"We as leaders learn to give guidance to other people," Storm said.

With 38 contracted cadets, the Army ROTC program is built to create leaders.

Other labs include land navigation and basic rifle marksmanship, said Lt. Col. Rick Begley.

The rappelling lab was "intense," said sophomore Tina Hyndman. "I would love to do it again." Any student can take a military science lab; they are available in both the fall and spring. In the fall, students rappel from a 35 foot high tower, but in the spring, students rappel in the Kibbie Dome. It is a 90 foot high free fall Storm said.

Other activities the Army ROTC features include an annual rafting trip, a ski trip and paintball.

The Army ROTC program first began at UI in 1894, when Lt. E.R. Chrisman came to the university to become the first professor of military science, Storm said.

The advantages of the Army ROTC are that any stu-

Freshman Ben Ferry rappels down a tower Wednesday afternoon. Executive officer Captain Rick Storm watches from above during the Army ROTC rappelling clinic at the Moscow fire station.

dent can pursue the degree of their choice and the program is compared to other school programs," Storm said. "But we're in the top four out of 13 schools for performance." Pearce said some advantages of being in the program are that there are many fun, different activities, a family atmosphere and "money is a perk."

"Cadets run the battalion," Storm said. "It provides them with leadership training before they graduate."

Sophomore Eric Dominguez joined the Army ROTC to "build character and do something with my life."

"Our school is small in size compared to other school programs," Storm said. "But we're in the top four out of 13 schools for performance." Pearce said some advantages of being in the program are that there are many fun, different activities, a family atmosphere and "money is a perk."

The ROTC is "a great program for certain people, it's definitely a chal-

lenge," said Hyndman, a non contracted student. "If you're looking for a challenge, it's a great opportunity."

Army ROTC also participates in an annual Ranger Challenge. According to the UI Army ROTC Web site, it is an opportunity for surrounding schools to compete with each other completing military tasks, such as land navigation, physical fitness drills, field exercises and a written examination about Army knowledge.

"We have won the past two years," said Storm.

For additional information, contact the Army ROTC office at 885-6528 or e-mail army-rotc@uidaho.edu.

"It provides them with leadership training before they graduate."

Craig leaves lasting mark on university

Senator helped UI get more than \$150 million while in office

Savannah Cummings
Argonaut

Regardless of whether accusations about Idaho Sen. Larry Craig's bathroom behavior and sexual preference prove true, there is no denying that the University of Idaho could lose a good advocate in Washington, D.C.

Over the past 12 to 13 years as a member of the U.S. Senate's appropriations committee, Craig helped UI receive more than \$150 million in funds.

"(Craig's) been extremely important," said Martin Peterson, special assistant to President Tim White. "All over campus researchers have been helped."

UI receives \$100 million in grants and contracts every year, Peterson said. Of that, 10-15 percent comes from earmarked appropriations; the rest is received competitively. While Craig has helped the university

significantly in receiving those funds, Peterson said it is getting harder across the board to receive earmarks. UI has been anticipating this change and increasing its competitive fundraising, so the loss of Craig on appropriations won't be dramatic, he said.

"It's just going to accelerate something that was declining anyway. Our growth is going to be in competitive (funds)," Peterson said. "We've been a research institution for a long time."

Aside from his role on Congressional committees, Craig

has been an advocate for university programs working with the government, Peterson said. If someone has a problem with a federal agency, Craig is able to go to bat for UI.

Craig graduated from UI in 1969 and was the president of the Delta Chi fraternity as well as ASUI president.

He began serving in the Idaho Senate in 1974 and moved to Washington, D.C. as Idaho's 1st District representative in 1980. Craig was elected to the U.S. Senate in 1990. In addition to

"Once you get Vandal blood in your veins, it never leaves."

Martin PETERSON
Special assistant to the president

Senator to stay in office

Associated Press

WASHINGTON — Idaho Republican Larry Craig has decided he wants to be a U.S. senator a little longer.

Craig's lawyers asked a Minnesota judge Wednesday to let the three-term senator withdraw his guilty plea in a sex sting at a Minneapolis airport restroom. Afterward, Craig issued a statement saying he will stay in office "for now."

People close to Craig said that means until the judge rules.

Hennepin County Judge Charles Porter said that will be at the end of next week at the earliest.

Craig said earlier he planned to resign Sunday, then left the

door open to stay if he could successfully withdraw his plea.

Craig, serving his third term as senator, pleaded guilty in August to disorderly conduct following a June 11 sting operation in a men's room at the Minneapolis airport.

That he will stay in the Senate past Sunday was an unwelcome development for Senate Republican leaders who have made clear they wish Craig would step down and let Idaho's GOP governor, C.L. "Butch" Otter, name a replacement.

Otter canceled an extended tour of the state's overcrowded prisons this week to interview some of the nearly 30

BEYOND THE SHEETS

Metal additives

Dear Chris, I'm considering getting a piercing ... down there. I was wondering what information you had on genital piercings. Can I wear a condom? How does it affect sex? Compared to other piercings, how painful is this going to be? -EM

Chris Bidiman Sex columnist arg_opinion@sub.uidaho.edu

Dear EM, This is quite a decision you have to make. The biggest thing I want to encourage you to do in this situation is to make your own decision. This is certainly not the time to give into peer pressure since you are the one who will be getting pierced. If you decide to go ahead and get the piercing, be cautious. I suggest doing a bit of research on the different piercing parlors available, with particular focus on cleanliness.

So, you do the research, make the appointment and get the piercing ... now what? You need to follow the guidelines about hygiene and sterilization. With any piercing it is important to make sure it is clean in order to heal correctly and to avoid infection, but when it is a genital piercing it is even more important to be sure. Certainly nobody wants a genital piercing to get infected. The piercing parlor will give you those guidelines for a reason. Follow them.

As for how these piercings affect sex there are several factors. With body piercings, especially genital piercings, the area becomes much more sensitive than it was before. Depending on where you get the piercing, this increase in sensitivity can either be good or bad; it's really based on how sensitive this area is for you already. If it is already incredibly sensitive, adding this extra sensation may be unpleasant or the sensation may be just fine.

Since this level of sensitivity is different for everybody, there is no definite answer to how you will react with it. Also, the added sensation can change the way certain activities feel. This is different for everybody. I suggest taking time after the piercing has completely healed, exploring the safest form of sexual activity and discovering the new sensations.

Condoms can absolutely be worn — this is no excuse to avoid condoms. Depending on what kind of piercing you get will determine how much precautionary care you need to exhibit. The more metal, the more care.

I recommend putting a bit of lube inside of the condom before putting it on. This will lessen the friction between the metal and the latex and decrease the chances of the condom breaking. If you have more metal, you should add more lube. This is going to cause the condom to be slicker while it's worn and may lead to some difficulties keeping it on. In

this case you add a C-ring, which will act like a rubber band at the base of the condom to keep it on, but is thick enough that it will not cut into the skin like a rubber band could.

If the condom failure rate is increasing despite prevention attempts, you will want to look into either a larger sized condom (they won't be incredibly larger, but enough extra latex to help prevent failure) or a polyurethane condom. Polyurethane condoms are more expensive and are ultimately designed for individuals with an allergy to latex but they are also considerably more durable.

I can actually shove my entire hand, wrist and a bit of my arm in a polyurethane condom without breaking whereas a latex condom would break in the same situation. Again, condom failure will depend on the amount of lubrication as well as the amount of metal being put in the area.

Another thing to keep in mind if you get this piercing is to inform your sexual partner before any activity happens. With a barbell-shaped piercing in particular, the piece moves. This can be disturbing if your partner has no prior experience with genital adornment and can result in an "Oh no, I just ripped it out" complex. Communication explaining that it does move and is perfectly all right is a good way to ensure your partner's psychological well-being during this activity.

To address your concern about it hurting, I really cannot say. Every person has a different pain threshold. I personally would imagine it to hurt because that is such a sensitive area. I have encountered those who have said it doesn't hurt more than any other piercing (ears, for example.) A big difference is that this piercing will be done with a needle. Compared to the gun method (often used for ear piercing at many places) the needle is said to hurt much less. How much pain you can withstand will play a large role in this situation and is another consideration you need to keep in mind while making this decision.

Remember this is your decision and should not be influenced by friends encouraging or discouraging you.

Do your research, take appropriate care of the piercing to keep it clean and help it heal correctly and take extra care with condoms to ensure their effectiveness.

Be safe, have fun and happy piercing.

Have a question? Feel free to ask it by sending it to arg_opinion@sub.uidaho.edu.

POW/MIA RECOGNITION DAY

Soldiers from past raise concerns about present

Lianna Shepherd
Argonaut

During WWII, Bud Kirchhoff spent more than three years as a prisoner of war in the Philippines and Japan.

Held for a year on the island of Batan, Kirchhoff was moved to Japan where he was forced to work in coal mines.

When the atomic bomb was dropped on Hiroshima, Kirchhoff was just 40 miles away.

"The hardest part is staying focused on one day at a time," Kirchhoff said. "When you stop doing that, everything becomes unbearable."

Washington's state commander of the American Prisoners of War, the 84-year-old veteran was one of the POW's honored at the National POW/MIA Recognition Day hosted last Friday by the UI and WSU ROTC programs.

Representatives from the Army, Marines and Air Force paid tribute to the POW's and soldiers who are missing in action.

Nichole Hansen is an ROTC freshman who plans to join the active service after graduation. "These are people that I admire," Hansen said. "I look up to them because they are so strong."

"I can only hope that if I came under that circumstance, I would act with that level of honor."

Seeing potential young soldiers was a pleasure for Kirchhoff who worries about the lack of American support regarding Iraq.

"We need to get the message out to the people," he said. "They should be reminded of the importance of defending our country."

The keynote speaker was retired Captain Wendell Alcorn. A Vietnam veteran and POW,

Alcorn decided to speak about the experience of soldiers who are MIA. His comments were based on his own experience.

"They are yearning to breathe the free air," Alcorn said. "If it's cold, they're cold. If it's hot, they're hot."

"They're hungry and thinking about a steak dinner or a peanut butter sandwich."

Every Friday since the invasion of Afghanistan, Jerry Swensen has stood in Friendship Square and protested the Iraq war.

As a member of the Palouse Peace Coalition, Swensen sees the display as growing part of Moscow's identity.

"The reason for this vigil is to maintain a presence of peace," Swensen said. "It's important that we actively engage our first amendment rights."

In addition to the protests, Swensen said that the Palouse Peace Coalition is working to speak at high schools in order to show students alternatives for paying for college outside of the military.

But Swensen insists that the misconception that all protestors are against soldiers is untrue.

"We have veterans in our organization," Swensen said. "We can't fault the soldiers for what their leaders are telling them to do."

To Alcorn it's the attitude of the nation that can be a deciding factor in war.

Quoting Charles Swindoll, he reminded the audience that life is 10 percent experience and 90 percent the attitude toward the experience.

"Even the Vietnamese knew the valued meaning of attitude. They would say asstitude in their less than perfect English," Alcorn said. "So I ask you, what's our asstitude today?"

Black Student Union hosts barbecue for new members

Group seeing increase in attendance; open to students of all races, ethnicities

Jessica Mullins
Argonaut

When graduate student Tillery Williams first attended a Black Student Union meeting, he was impressed that the group targets not just black students, but all student groups.

Early this semester Williams was elected president of the BSU. He hopes to keep the number of members increasing this semester while being more visible on campus.

"We try to bring in everybody to explain to those who may have questions or may not understand our culture," Williams said.

To continue these efforts, the three-year-old Black Student Union will host a barbecue this Sunday.

"I think the barbecue could be a good social experience for everyone who comes," Williams said.

Williams said he hopes the group can help break negative black stereotypes. Most of the people at UI are predominantly caucasian, he said.

"Coming to UI may be their first interaction with an African-American," Williams said.

"A lot of the stuff you see about the African-American culture on TV isn't very positive most of the time. (At the barbecue, students) can talk to the person they see on TV and put away all the stereotypes."

The BSU membership has seen changes since it began in spring 2005, said senior Jessica Samuels, including a drastic increase in members.

"(This semester) the first meeting was successful and the second meeting was phenomenal," Samuels said.

More than 200 people were at the second meeting, she said.

When Shaniece Smith, a freshman from St. Louis, went to a BSU meeting with two of her friends she also noticed how open the group is, she said.

"They really want some-

thing that other people can relate to," Smith said. "They are not just focused on the black students at the university, they want to do things that involve everyone."

Many students may be able to relate to the BSU, Williams said.

"Even though a person may be caucasian or African-American, who says they didn't grow up living in an African-American culture?" Williams said. "We feel like there are individuals who may not be black but can provide the same experiences or messages (as others in BSU)."

Williams has also learned a lot about the black culture through BSU. "I'm from Alabama and I must say the black people I meet there are way different because we grew up in two totally different societies," Williams said.

To learn about other cultures is one of the reasons Williams came to UI, he said.

"I came here so I can be more diverse in knowledge and the relationships I have," Williams said.

check it OUT

Black Student Union Barbecue
3 p.m. Sunday, Campus Family Housing Community Center, 502 W. Taylor Ave.

Samuels, who has been involved in BSU since it began, said she hopes to see the organization carry on years from now.

"For me it is not about getting something out of (BSU) but being with BSU and supporting and promoting BSU on campus," Samuels said.

Smith likes the social opportunities available through BSU, such as Sunday's barbecue, she said.

"Some people have a lot of time on their hands and I think (the BSU) is something to do to allow them to experience college life on a different stage and get to know your peers," Smith said.

"I'm looking forward to the barbecue. Sunday's are always a blah day. It is something new to do."

Authorities still searching for girl in sex tape

Associated Press

LAS VEGAS — A girl was found "safe and well" after authorities released images of her from a videotape that also showed a man performing explicit sex acts on a younger girl.

The girl who was found, who detectives earlier said they believed was 10 to 12 years old, was not sexually abused and "never suffered as a victim at the hands of the perpetrator as the first girl has," Nye

County Sheriff's Detective David Boruchowitz said.

The part of the video showing the older girl was shot in Nye County, a rural county near Las Vegas, Boruchowitz said.

Boruchowitz said investigators feared the younger girl was in danger. Sheriff's detectives were also seeking a man whose image was seen on the video.

Investigators were examining whether parts of the tape showing the younger girl were filmed with the same video camera

as the older girl, he said.

A 26-year-old Pahrump man, Darren Tuck, surrendered the tape to Nye County sheriff's investigators Sept. 8 after another man reported seeing it, Boruchowitz said. Tuck was later arrested on charges of promoting child pornography and possession of child pornography, both felonies, and released without bail pending an appearance Nov. 26 in Pahrump Justice Court. The top charge carries a possible sentence of up to life in prison.

President's Sustainability Symposium

Carbon, Climate and Our Environment: Partnerships for Success

October 1-2, 2007

President Timothy P. White is hosting the University of Idaho's first annual symposium on nurturing our land, water and air, and the new economic and moral imperative of sustainability. It is a timely effort, as sustainability challenges and initiatives have become prominent political, economic and social issues in our communities, the nation and the world.

The inaugural symposium will address the significant issue of greenhouse gas (GHG) emissions and the role of government, business and higher education partnerships in seeking solutions to problems related to these emissions.

Monday, October 1 from 8:00 a.m. - 5:00 p.m.
Student Union Ballroom - free and open to the public

- Welcome, Overview and Challenge**
Dr. Timothy P. White, President, University of Idaho
- The Science of Carbon, Greenhouse Gases and Climate Change**
Dr. Michael C. MacCracken, Chief Scientist for Climate Change Programs, Climate Institute
- The State of Idaho and Solutions to Greenhouse Gas Emissions**
The Honorable C. L. "Butch" Otter, Governor of Idaho
- Private Sector Perspective and Market Strategies**
Dr. Richard Sandor, Chairman and CEO, Chicago and California Climate Exchanges
- International and Regional Perspectives: Carbon Policies in Costa Rica and the Western States**
Mr. James A. Holtkamp, Climate Change Practice Group Head, Holland and Hart Law Firm

- The Role of Promoting Energy Efficiency and Reduced Carbon Emissions**
Dr. Ralph Cavanagh, Director, Energy Program, Natural Resources Defense Council
Mr. John R. "Ric" Gale, Vice President of Regulatory Affairs, Idaho Power

- Carbon Sequestration: Practices, Monitoring and Verification**
Dr. Peter McGrail, Laboratory Fellow, Pacific Northwest National Laboratory (PNNL)

- Alternative Energies Portfolio: Realities and Catalysts for Development**
Dr. J.W. Rogers Jr., Associate Laboratory Director, and Dr. Steven Aumeier, Director, Energy Systems and Technologies Division, Idaho National Laboratory (INL)

Tuesday, October 2 from 7:30 a.m. - 1:30 p.m.
Idaho Commons, Summit - for the University of Idaho campus community

- Opening Session: Integrating Sustainability into the University's Strategic Action Plan Implementation**

Students connect at Networking Night

Hayley Guenther
Argonaut

Every passing day represents a reality that graduation is looming closer for University of Idaho students. So actually thinking about the future and learning the ropes of mingling with potential employers should sound like a pretty good idea.

Luckily, an opportunity to do just that is approaching.

Vandal Networking Night is sponsored by the Career and Professional Planning office along with Student Alumni Relations Board and will take place Monday from 7-9 p.m. in the Commons Clearwater Room.

Student and Young Alumni Program Coordinator Katie Dahlinger is excited about the event that she said serves as a stepping stone to the Career Expo that will be held.

"Business representatives that will participate in the expo are invited to be part of the crowd — and after the panel discussion, student attendees can network," she said.

"Idaho alumni are asked to participate in a panel discussion concerning their personal successes with networking and how it has benefited their career paths."

The expo is co-sponsored with Washington State and will be held in Beasley Coliseum. According to CAPP's Web site, the bi-yearly event is one of the largest career fairs in the Pacific Northwest and "provides employers with the opportunity to connect with top students from two major universities."

With such an important event the next night, students rely on this warm-up to prepare for the

expo. Dahlinger said the purpose of this event is for students to make connections with UI alumni, business professionals and fellow students in a "relaxed environment" and with no obligations attached.

"This is a time where students can really share their passion for their future with job recruiters in a one-on-one atmosphere," she said.

"As an Idaho alumni myself, I'd agree with the notion that college is not only about classes and GPA's, but learning about yourself and building relationships."

SARb member Angela Kraft said students are interested in the event and eager to "get their foot in the door" with potential careers and employers.

Kraft volunteered at the event last year and now returns with hopes to participate.

"(The Networking Night and Career Expo) are great ways to get your name out there and explore different career paths," she said. "It's an opportunity every student should take advantage of."

Those interested in attending the free event must reserve their spot by today. Registration forms are available on the CAPP Web site, www.capp.uidaho.edu.

Dahlinger said it's her understanding that SARb and CAPP have worked together to host the night for three years, and she is enthusiastic about participating for the first time since she started her position in August.

"I'm looking forward to being a representative for the Alumni Association so students can identify with what we do and how they can stay connected to the university," she said.

Local/BRIEFS

Fall expo brings recruiters

More than 200 company representatives have registered for this year's Career Expo of the Palouse at Washington State University. The expo will take place from 9 a.m. to 3 p.m. Tuesday at WSU's Beasley Coliseum.

Recruiters will be looking for job candidates from many academic disciplines for internships, graduate studies and career opportunities. The University of Idaho CAPP office is sponsoring free shuttle service for UI students to travel to and from WSU the day of the expo.

Over half of the employers will stay the next day to conduct interviews with the students. The expo is a joint effort between UI and WSU, and is the largest collegiate job fair in the Pacific Northwest. For information on the events, call Idaho's Career and Professional Planning at 885-6121, e-mail them at capp@uidaho.edu or visit the Web site, www.capp.uidaho.edu.

Faculty leads discussion

Three faculty members from the University of Idaho will speak at the Idaho Partnership Conference on Human Services in Boise on Oct. 17-19. The

event will be held at the Boise Convention Center.

Julie Fodor, Ron Seiler and Jen Magelky, all faculty members of Center of Disabilities and Human Development, will lead discussion groups during the conference. Fodor will speak on "What's a Disability Anyway? What's Normal?" and is the founder of the Positive Behavioral Supports Project in Idaho. Seiler will discuss "Assistive Technology for Persons with Cognitive Impairments."

Magelky will focus on issues such as "Self-Direction-Get the Support You Need, the Way You Choose." The conference is for parents, educators, self-advocates and human services professionals. It aims to provide information and training in the areas of emerging mental health and counseling issues, developmental and disability issues and autism.

For more information on Community Partnerships of Idaho or to register for the conference, go to www.idahopchs.com or call Magelky at jmagelky@uidaho.edu.

Market highlights band, glassblower

Off the Leash, a band with a rock and roll sound, will be featured at Saturday's Farmers Market. The band will perform in Friendship Square in downtown Moscow from 9:30-11:30 a.m. Farmers Market is from 8 a.m. to noon in downtown

Moscow. Farmers Market T-shirts and shopping bags are being sold at the Moscow information tent. The T-shirts have an original design created by local graphic artist Patricia Gray. T-shirt and bag sales will support the Moscow Farmers Market.

Sean Stratton of R.A. Glass will be demonstrating the art of glass blowing and bead making. There will be a live demonstration of how glass beads, vases and paperweights are handmade and hand crafted.

Seminar date moves to Oct. 9

The grant-writing seminar for students hosted by the Student Grant Program has been moved to 3:30 p.m., Oct. 9 in the Horizon Room of the Idaho Commons. The seminar is being moved because of scheduling conflicts.

Personnel from the University Research Office and the Office of Sponsored Programs will present tips for writing grants, both generally and specifically for the SGP. Information on the administration of grants and recipient responsibilities will also be provided. Students considering applying for SGP funding are encouraged to attend the seminar.

For more information on the Student Grant Program, go to the Web site www.uro.uidaho.edu/sgp or e-mail SGP Chair Mary Oswald at sgp@uidaho.edu.

Idaho checks its gas

Symposium discusses remedies for university's impact on environment

Brandon Macz
Argonaut

The social climate of Moscow may be in for a change when the University of Idaho hosts its inaugural President's Sustainability Symposium meant to combine a series of views about the environment, greenhouse gases and what the university can do to better its impact.

The symposium, "Carbon, Climate and Our Environment: Partnerships for Success" will address the public, private, non-profit, education and research sectors' views on sustainability and the threats of greenhouse gases and carbon emissions.

"It's important to frame the problem," said Jack Morris, dean for the College of Business and Economics, who helped organize the event. "This is the inaugural event, but the idea is to host this event every year."

UI President Tim White has already committed the university to improving sustainability by approving the student-run Sustainability Center and applying for the Chicago Climate Exchange, which was approved March 28.

"It is a voluntary but legally binding commitment to reduce greenhouse gas emissions by 6 percent by the year 2010," Morris said. "We could reduce by the target, or, plus more."

UI is one of six universities that has joined the CCE. White was introduced to CCE chairman Richard Sandor through alum Rotchey Barker while in Chicago. Barker is the former chairman for the Chicago Board of Trade.

Sandor will be one of the featured presenters at the symposium speaking about "Private Sector Perspective and Market Strategies." Gov. C.L. "Butch" Otter will address the state's role in GHG.

"There's always politics," said Steven Daily-Laursen, dean for the College of Natural Resources. "Politics come in many shades in regard to climate change."

The symposium will run 8 a.m.-5:15 p.m. Monday in the SUB Ballroom. Sessions will be held Tuesday to address what was learned the previous day and how these lessons can be ap-

plied, Daily-Laursen said.

"What can we do, what should we do and what can we do together?" he said. "This is both a moral and economic imperative."

After every guest speaker, the public audience will be given time to ask questions and express their views on the problems of carbon emissions and sustainability.

Morris said the university had been addressing this problem long before joining the CCE. An example, he said, is that 90 percent of the heat distributed across the campus comes from the burning of wood chips, a neutral fuel that saves the university \$2 million per year.

Reducing GHG emissions by 2010 is a feasible plan, Morris said. Under a Cap and Trade system, any organization or private company in the CCE can use carbon trading to balance the total efforts.

The first step for the university in reducing its emissions was to do an inventory on GHG emissions and make a carbon footprint. Morris said UI's footprint is quite modest.

"We have the footprint now and we're looking at a bunch of different issues," he said.

The Sustainability Symposium, in conjunction with the CCE, Daily-Laursen said, is a commitment for environmental leadership at UI.

To find out more sustainability efforts applied by UI, go to www.uidaho.edu/sustainability.

Otter has also issued an executive order to inventory GHG emissions for the state, which will be considerably harder than at one university, Morris said.

Daily-Laursen said the dialogue generated at the symposium is necessary to inform every sector on the others' views and how to cooperate to reduce emissions and work on conservation methods.

White will present the overview of the symposium at 8 a.m., as well as the challenges every sector will face in the future.

"Reducing carbon in the atmosphere will not be easy or inexpensive, but it is necessary," White said in a prepared statement.

"Everyone needs to better understand the forces that are at play so that, as a global society, we can craft efficient and feasible solutions to this problem."

"It will take a cooperative effort among all sectors to identify an economical, responsible and effective response to the factors contributing to climate change."

Teen in Jena 6 case released on bail

District Attorney drops effort to try 17-year-old as adult

Associated Press

JENA, La. — A black teenager whose prosecution in the beating of a white classmate prompted a massive civil rights protest walked out of a courthouse Thursday after a judge ordered him freed.

Mychal Bell's release on \$45,000 bail came hours after a prosecutor confirmed he would no longer seek an adult trial for the 17-year-old. Bell, one of the teenagers known as the Jena Six, still faces trial as a juvenile in the December beating in Jena La. town.

"We still have mountains to climb, but at least this is closer to an even playing field," said the Rev. Al Sharpton, who helped organize last week's protest.

"He goes home because a lot of people left their home and stood up for him," Sharpton said as Bell stood smiling next to him.

"There's only one person who could have brought me through this and that's the good Lord," Bell told reporters later in front of his father's house.

District Attorney Reed Walters' decision to abandon adult charges means that Bell, who

had faced a maximum of 15 years in prison on his aggravated second-degree battery conviction last month, instead could be held only until he turns 21 if he is found guilty in juvenile court.

The conviction in adult court was thrown out this month by the state 3rd Circuit Court of Appeal, which said Bell should not have been tried as an adult on that particular charge.

Walters had said he would appeal that decision. On Thursday, he said he still believes there was legal merit to trying Bell as an adult but decided it was in the best interest of the victim, Justin Barker, and his family to let the juvenile court handle the case.

"They are on board with what I decided," Walters said at a news conference.

Bell faces juvenile court charges of aggravated second-degree battery and conspiracy to commit that crime.

He is among six black Jena High School students arrested in December after a beating that left Barker unconscious and bloody, though the victim was able to attend a school function later that day. Four of the defendants were 17 at the time, which made them adults under Louisiana law.

Those four and Bell, who was 16, all were initially charged with attempted murder. Walters said he sought to have Bell tried as an adult

because he already had a criminal record, and because he believed Bell instigated the attack.

The charges have been dropped to aggravated second-degree battery in four of the cases. One defendant has yet to be arraigned. The sixth defendant's case is sealed in juvenile court.

Bell's lawyer, Carol Powell Lexing, said his next hearing is set for Tuesday.

Critics accuse Walters, who is white, of prosecuting blacks more harshly than whites. They note that he filed no charges against three white teens suspended from the high school over allegations they hung nooses in a tree on campus not long before fights between blacks and whites, including the attack on Barker.

An estimated 20,000 to 25,000 protesters marched in Jena last week in a scene that evoked the early years of the civil rights movement.

Walters said the demonstration had no influence on his decision not to press the adult charges, and ended his news conference by saying that only God kept the protest peaceful.

"The only way — let me stress that — the only way that I believe that me or this community has been able to endure the trauma that has been thrust upon us is through the prayers of the Christian people who have sent them up in this community," Walters said.

"I firmly believe and am confident of the fact

that had it not been for the direct intervention of the Lord Jesus Christ last Thursday, a disaster would have happened. You can quote me on that."

The Rev. Donald Sibley, a black Jena pastor, called it a "shame" that Walters credited divine intervention for the protesters acting responsibly.

"What I'm saying is, the Lord Jesus Christ put his influence on those people, and they responded accordingly," Walters responded.

After the news conference, Sibley told CNN that Walters had insulted the protesters by making a false separation between "his Christ and our Christ."

"For him to use it in the sense that because his Christ, his Jesus, because he prayed, because of his police, that everything was peaceful and was decent and in order, that's not the truth," Sibley said.

Walters has said repeatedly that Barker's suffering has been lost in the furor over the case, and that what happened to the teen was much more severe than a schoolyard fight.

Walters also has defended his decision not to seek charges in the hanging of the nooses, which he said was "abhorrent and stupid" but not a crime.

CRAIG

from page 1

people, including Lt. Gov. Jim Risch and Attorney General Lawrence Wasden, who have publicly expressed interest in Craig's job.

"He wanted to be ready to act if we received a letter of resignation," said Jon Hanian, Otter's spokesman in Boise. "Obviously, we had not ... Until he receives a letter of resignation, we have no vacancy, therefore, there is no replacement."

Senate Minority Leader Mitch McConnell, R-Ky., told reporters he had nothing to add to previous statements in which he said he thought Craig made the proper decision on Sept. 1, when he announced his intention to resign by month's end.

Sen. Mike Crapo, R-Idaho, Craig's strongest ally in the Senate, said that Craig, "like every citizen facing allegations, deserves to be able to

fully defend himself."

Craig's lawyer, Billy Martin, said it is "near impossible, and it should be" for Craig to withdraw his plea. But he said his client's conduct, shoe tapping and hand gestures under a men's room stall divider, was not criminal.

The arresting officer described those gestures as signals recognized in the gay community as an invitation for sex. Craig has repeatedly said he is not homosexual.

Jim Weatherby, professor emeritus of political science at Boise State University, said Craig has been permanently weakened by the charges.

"How effective can he be, when his leadership wants him out?" Weatherby asked. "I suspect they would want to punish him further than the steps they've already taken."

Craig gave up his leadership posts on Senate committees after his arrest become public. Senate Republicans would have to vote to restore those posts, an action seen as highly unlikely.

Victim, mother share tales in Lewiston hate crime case

Associated Press

LEWISTON — A 13-year-old American Indian girl and her mother say they have been constantly harassed since the girl was beaten two weeks ago.

Prosecutors say the teen's beating was a hate crime and allege that brothers Michael S. Moody, 22, and David C. Moody, 18, intimidated her in anticipation of the trial. The Moody brothers are each charged with two counts of felony attempted witness intimidation, accused of chanting "white power" at the girl and her mother three days after the beating.

At the men's preliminary hearing Wednesday in Nez Perce County Magistrate Court, the teen and her mother testified that they have moved twice and the girl has transferred schools since the beating on Sept. 12.

Court documents say the beating occurred outside an apartment complex where a group of men were yelling "white power" and "white pride."

The teen was walking by the apartment complex at the time, according to prosecutors, and said something to the effect of, "What about Native pride?"

Court documents say a woman then punched the teen, knocking her to the ground.

When the teen began to fight back, an older woman kicked her in the head and stomach. The teen, who suffered injuries to her face and arm, was treated and released from a local hospital.

Jill R. Grant, 40, and her 21-year-old daughter, Ashley N. Grant, have each been charged with one count of felony malicious harassment in connection with the beating, and four other people, including the Moodys, have been charged with felony attempted witness intimidation in the days since the beating. Preliminary hearings for 19-year-old Jason R. Grant and a 16-year-old boy are scheduled to be held separately from the Moody's proceedings.

The girl and her mother testified that on Sept. 15, they were returning to their apartment from picking up a cousin a few blocks away when two or three men began yelling "white power" as they made their way through Pioneer Park.

When asked by public defender Robert Van Idour, the girl said "white power" was the only phrase she heard the men shout. But the teen's mother testified that the two men also used other obscenities considered degrading to American Indians.

The girl's mother said she

feared for her life and for the life of her child because of the initial attack. The two walked quickly back to their apartment, she said, where they called 911.

"I thought they were going to attack us because we were Native American, because we were the only Native Americans on the street at that time, and the rest were white," the mother said.

Lewiston police Officer Mike Rigney testified that police officers watched the incident with binoculars.

"They were chanting 'white power' and raising their fist into the air," Rigney said.

Rigney testified their actions were characteristic of neo-Nazism.

In talking to the men later, Rigney said, Michael Moody allegedly first denied chanting the slogans but later "became remorseful" and said he no longer believed in that ideology.

Rigney then arrested Michael Moody and Jason Grant. About an hour later, after watching two people shout the same phrases below the girl's apartment window, officers arrested David Moody and the 16-year-old boy, Rigney testified.

Defense attorneys Van Idour and Neil Cox asked the judge to dismiss the case, contending the brothers were protected by

LEGACY

from page 1

appropriations, Craig also serves on Agriculture and Rural Development; Energy and Water Development; Homeland Security; Labor, HHS and Education; and Veterans Affairs and is the ranking member on Interior and Related Agencies.

"Sen. Craig has always been a help," he said. "Because of his seniority, maybe he was more likely to be listened to."

The university has also done a lot of work with Craig on immigration issues since Sept. 11. Students who were having problems with visas could turn to his office for assistance, Peterson said.

"It's always comforting to have friends in positions of authority," he said.

Because Craig is a UI graduate, it was easier for officials to turn to him with its problems, Peterson said.

"Once you get Vandal blood in your veins, it never leaves," he said. "He knows the quality of our students and has made great use of them in his office." Craig has at least a dozen UI graduates employed in his office, including his press secretary, Don Whiting, Peterson said.

Since being elected to office in Washington, D.C., Craig has helped UI with many projects, Peterson said. Among the most visible is the funding he helped UI receive to build the Post Falls research park, the Hagerman Aquaculture research facility in southern Idaho and agriculture and biotech buildings in Moscow.

"About one-third of the money (for the building) was federal money that he got for us," Peterson said.

In June, Craig, together with ASUI and the UI Foundation, set up the Larry E. Craig ASUI Student Leadership Endow-

ment. Over the years, Craig has saved any honoraria he received for speaking engagements and used the money to create the endowment, said Chris Murray, vice president for advancement. The fund is around \$26,000 and will be used to create scholarships for students seeking leadership opportunities outside the classroom.

"It's been in the works for years," said junior Jo Seely, director of advancement for ASUI.

The Foundation oversees endowment funds and uses the interest generated, about 4 1/2 percent annually, to fund scholarship opportunities. The Foundation is in charge of 1,200 endowments worth around \$190 million, the most of any Idaho university.

Craig's gift is unique, Murray said, in that it is for funding experiential learning that takes place outside the classroom.

"We're really lucky to have this endowment," Seely said.

Seely doesn't think Craig's Senate status or legal situation will have any impact on donations to the endowment. Once donors see the good an endowment does, it won't matter whose name is on it, she said.

ASUI is working on deciding how the funds will be distributed from the gift. Possibilities include giving students scholarships for service breaks and attending leadership conferences.

"There's a lot of different options," Seely said. "It's open to be adaptable to what the university needs."

This is Craig's first major personal contribution to the university, Murray said.

"He himself is a leader. He sees the impact that giving students experience outside the classroom has," Murray said. "What a great gift for a student who wants to expand their leadership experience."

Craig attempted to with-

timeline in ARREST

June 11: Craig arrested in Minneapolis airport in a sting targeting bathroom sex.

July 2: Craig charged with disorderly conduct, a misdemeanor, and interference with privacy, a gross misdemeanor.

Aug. 1: Craig signs guilty plea to disorderly conduct. Other charge dropped.

Aug. 27: A Capitol Hill newspaper reports Craig's arrest. Craig says police misconstrued his actions and denies that he is gay.

Sept. 1: Craig says he plans to resign by Sept. 30.

Sept. 10: Craig files a motion seeking to withdraw his guilty plea.

Sept. 26: Hennepin County Judge Charles Porter hears request, but says he won't rule until after Sept. 30. Craig issues statement saying he'll stay on the job "for now."

— Associated Press

draw his guilty plea on Wednesday and Minnesota's Hennepin County Judge Charles Porter took it under advisement, saying he won't decide until next month.

Whether Craig ends up leaving office or not, UI's funding should remain steady, Peterson said.

"We always roll with the punches. Life's a roller coaster," he said. "We will be hurt in the short term, (but it's) not a life-altering situation."

OurVIEW

Message lost

On Sept. 21, The Rocky Mountain Collegian ran this four-word editorial: "Taser this: F*** Bush".

Editor-in-chief Eric McSwane had something he wanted to say and was in a position to be seen and heard by a large number of people. Some of those people agreed with his message and some didn't. That's the way things work.

The message is one shared by millions of people around the country. Displeasure with President Bush is almost as common as displeasure with a rainy day when sun was predicted.

How and where that displeasure is expressed is not always as carefully considered as it should be.

McSwane should have thought about his decision to run this editorial a bit longer than he did.

Yes, the message is there: One can take the piece to mean that, as an editorial board, The RMC doesn't approve of Bush and is challenging those who might think otherwise to do something about it. McSwane, however, should have known that the message would be lost in the presentation.

As much as America is inundated with so-called offensive language, a strange streak of Puritanism runs through us. We don't like seeing a nipple during the Super Bowl and we don't like the F word in 60-point type in our newspapers.

While many see it as just another word, enough people see it as something more than that. If it was "just another word" to McSwane, then using it would have been pointless.

Obscene and profane words get tossed around so much in daily life that one might think that using such a word in a professionally run newspaper — and yes, The Rocky Mountain Collegian has proven in the past to be such a paper — wouldn't be questioned. McSwane's job as an editor-in-chief is to be a leader, not just over the textual content of his paper, but to understand the relationship between staff-generated content and the advertisers that finance the paper's existence.

While letting advertising dictate content goes against every grain of journalistic ethics, not taking into account the potential financial fallout of certain content is an issue every editor of papers at all levels need to consider.

McSwane has put the immediate future of his newspaper in jeopardy with his decision.

It is difficult to imagine that no one, be it another member of The RMC's editorial board or an adviser, tried to talk McSwane out of this choice. Newspapers, especially at the university level, are not dictatorships. Multi-member editorial boards exist. Advisers are in place to guide — but not mandate — the choices of student journalists.

Maybe McSwane just didn't listen. He's learning a tough lesson now. To some, he's become a hero, to others a pariah.

See MESSAGE, page 7

Watch where you spread the word

Christian-based groups are by far the most visible and entrenched on campus. Flip open the UI planner and you are likely to see a date and time for a Christian youth event. Walk around campus enough and you are likely to hear a variety of Christian messages, prepared and served for your consumption. There are other religious groups on campus, but the sheer volume of Christian groups drowns them out.

University campuses are a great place to hold academic conversations about religion, but sometimes non-Christian students are bombarded and overwhelmed by the many attempts to proselytize them.

Christian groups aren't the only ones on campus trying to sell their product. Outside of the Commons, students are constantly harried by groups trying to get their message out and businesses trying to sell merchandise. Scooter salesman, however, have nothing on the persistence of Christian group members. Chalk it up to the dangers of walking on campus without an iPod, especially on days that tiny Bibles are being handed out.

Certain Christian groups can be even more intrusive, using methods such as obtrusively asking diners at the Wallace Food Court if they can join their table and inform them of the Word of Jesus Christ. A common answer to the various Christian inquiries is "I am not a Christian."

In some cases this is not sufficient to show that one is not interested, but it should be. Being Americans, most of us have indeed heard of this Jesus fellow already. Many people have in the past considered them-

selves Christian. Stating that you are not one expresses explicitly that you have made a conscious decision not to be, and that decision should be respected.

On the UI campus, however, this isn't always the case. Attempts for one's attention by Christian groups on campus often have no regard for personal beliefs, and usually go along the lines of "it's okay you're not Christian, we can fix that." It is understood that a major facet of many denominations of Christianity is the conversion of non-believers into Christians and also the belief that non-Christians will burn eternally in a land of brimstone and fire. With this in mind, one can nearly understand their logic — considering that immortal souls are in peril, Christians are doing us all a favor by trying to save us. Even if they sometimes have to be intrusive, rude, and act with no respect to the decisions people have made, from their point of view they are acting in our best interest. But that is not a valid excuse, especially since it is taking place on campus.

What it all comes down to is that certain recruitment methods go beyond being a nuisance and become harassment. While debate and discussion are not only welcome but encouraged, harassment has no place on campus. This is especially true when it is being perpetrated by students against students. Respecting fellow students and their beliefs is a responsibility every UI student accepts when they enroll. Students of all beliefs and persuasions need to realize this responsibility, and that any violation of it should not be accepted, tolerated, or allowed.

MailBOX

Creepy Mr. Craig

Sorry to pick on an old subject, but I cannot believe that Larry Craig has still not given up on his bathroom mischief. By golly, Mr. Craig, you sure did seem a little depondent when you where arrested, pleading guilty and then not telling anybody about it for a few months and then denying it when the story broke. Sounds like a Cheney move.

To me, when someone who has been arrested for a crime they didn't commit, they usually don't plead guilty right away. So when the Hennepin County prosecutor told you to get a lawyer you didn't cut and run, you stayed the course. Good job. Additionally, I have used public facilities and I have never touched feet with a neighbor, reached to pick up toilet paper from another stall, or stared at someone through the cracks. All of which you did and pled guilty to.

However, my biggest issue, still, is the fact that you keep telling everyone that you aren't gay. It doesn't matter Larry, gay people don't do what you did. This is not a gay issue, so stop hiding behind it. This is an issue about creepy U.S. Senators in public airport bathrooms.

What you pled guilty to, Craig, is not what a gay person does. Only a pervert does something as perverse as soliciting sex acts in an airport bathroom and getting caught by a vice cop. So please just stop trying to explain that you aren't gay, that is beside the point. You did a very creepy thing, Mr. Craig. You embarrassed Idaho, the university and the voters who put you into office. Or as your arresting officer said, "I mean, people vote for you ... Embarrassing, embarrassing. No wonder why we're going down the tubes."

Christopher Currie, Sophomore

Crunch the numbers

Travis Galloway's column "Because they ignored Greenspan" misrepresents government spending over the last few years. While the Republicans have been spending more than conservatives have liked, President Bush's tax cuts have led to record levels of income to the government and record lows in the deficit. According to ABC news during the 2005-2006 budget year, "The Government says net debt is at its lowest level in more than three decades." That's right, three decades. "The budget surplus was \$15.8 billion" and was "about \$1 billion higher than we expected." According to Treasurer

Peter Costello, the "general Government net debt also fell by more than \$17 billion." According to the "The Sunday Morning Herald" the 2006-2007 budget year has resulted in a "budget surplus of \$17.3 billion." What? Another surplus. What's going on? Even when the Republicans are spending more than they should the debt still decreases. All without raising taxes. If you want to look at a case of wasteful spending (God forbid we spend money protecting America from terrorists) checkout the "The Big Dig" — a tunnel building project in Boston Massachusetts, the state of Democratic Senator Ted Kennedy. According to CNN "The Big Dig has been the most expensive highway project in the U.S."

The project so far has resulted in criminal arrests, water leaks and even deaths. In contrast, the spending on security has not made America weaker, it has made America stronger. Since Sept. 11 there has not been a single terrorist attack in the United States. That is an undeniable fact. It is no coincidence that more spending on security has resulted in a stronger America and in spite of all of this spending, we still have record surpluses. This leaves one question, what flavor of Kool-Aid does Galloway drink?

Quick takes on life from our editors

What's logic got to do with it?

At 8 a.m. tomorrow I will take the LSAT, ending a four-month love/hate relationship with hundreds of pages of prep material and one ever-present stopwatch.

It's been an emotional rollercoaster, and maybe that's what kept me going. On the good days, I felt like a genius. On the bad days, I tried to remember the good ones and cherished them even more. I don't know how it will turn out, but sometimes you just have to believe.

If nothing else, I now have a better understanding of why Tina Turner stayed with Ike for so long.

—Alec

More poor planning

We are fast approaching mid-terms at UI, as frightening as that is. Mid-term week is Oct. 8 through Oct. 12, the same as Homecoming.

Now, how stupid is that. Why would anyone plan the week when most students are doing the most studying at the same time when most students are doing the most drinking? Homecoming and mid-terms do not mesh. I want to study, not listen to the parties across town. Bad planning, guys.

—Savannah

Can't say it better with Hallmark

Mom: College life's been crazy busy. There are assignments to be done, stories to be written and, well, margaritas to be drunk.

It's easy to lose track of the days of the week when you live four days — or one issue — at a time. I kept putting off sending you a birthday card and before I knew it, you're birthday snuck up on me.

Happy Birthday Momma, I love you.

—Robert

Colt

I may never get another chance to see a potential Heisman Trophy winner play a game.

I shall root wholeheartedly for the Vandals, but, to be honest, I'm going to see Colt Brennan. I've never seen anyone throw 400-plus yards in one game.

Then again, if the Vandal defense swamps him and he doesn't break any records, I'll be happy with that, too.

—T.J.

The magic of Photoshop

Photoshop is probably the best program ever. It's like magic. You can do anything with just a few clicks.

I spent six hours one day working on a class project in Photoshop. I've never had so much fun. If anyone wants to learn Photoshop and is looking for a good class to take, Art 380 rocks.

—Ryli

A tribute to Marceau

TEEJOCRACY

America's biggest morons

News comes at us so fast these days that it can be difficult to keep up. The facts of stories can change in minutes. Sometimes, we get beat over the head with so much information, both accurate and inaccurate, that sifting between what's real and what isn't can cause a migraine.

Grab your Advil and let's go for a ride on the random rollercoaster.

Mesa's interest as a buyer in Hawaiian Air's bankruptcy case.

And now those files are gone, thanks to one horny dude trying to get off at work before he got off of work.

Listen carefully, children. Do not surf adult Web sites when you are at work.

Unless that's your job.

OK, enough news for now. Let's turn to the sports page.

T.J. Tranchell
Opinion Editor
arg_opinion@sub.uidaho.edu

Six nuns in Arkansas excommunicated for heresy

Hey, Torquemada, what do you say? Let's boot out six nuns because they joined a Canadian sect that believes their 86-year-old leader is the reincarnation of the Virgin Mary. The good news is that, even though they don't get to be Catholic anymore, they do get to stay in their Hope Springs, Ark. convent because they own it.

No word yet on whether sales of torches and pitchforks have increased.

Firefighters accused of using Jaws of Life in vandalism spree

Four 20-something Vermont volunteer firefighters are accused of using the Jaws of Life to pull hubcaps and windshield wipers off of cars and then damaging public telephones.

Allegedly (I love that word), the quartet committed the crimes as part of a scavenger hunt/dare.

No cats were rescued, or harmed, during the wild night of rampaging.

Company CFO erases key files while deleting porn

Peter Murnane, a Phoenix-based financial officer for Mesa Air, was deleting porn from his computers and wiped out important files concerning dealings with Hawaiian Air. The deleted documents contained information about

Bonds' record-breaking home run ball to be marked, then donated

Mark Ecko spent a bunch of money to buy Barry Bonds' 756th homerun ball. Then he let people vote on whether he should donate it as is to the Hall of Fame, mark it with an asterisk then donate it or blast it into orbit. Option two won.

So the white ball will be branded with a black asterisk then given to the baseball Hall of Fame in Cooperstown, NY.

As for the future of Bonds own balls, which may or may not have shriveled due to steroid use, we'll just have to wait and see. He won't be playing for the San Francisco Giants next year, that we do know.

Floyd Landis bigger dope than Barry, balls might shrink too

Landis can no longer claim to be a Tour de France champion. His title has been stripped after hearings and investigations determined that used performance-enhancing drugs during his run to cycling's biggest prize.

Moron.

I'm done with sports. How about entertainment?

On second thought, celebrity news is best left to other writers. I don't have the stomach to talk about Britney's belly and Keifer Sutherland's drunk driving.

Give me a call if you want to talk about Van Halen.

IN RECENT NEWS, CUBS FANS NAMED THEIR BABY BOY Wrigley Fields... MEANWHILE VANDAL FAN, MR. DOME DECIDED TO PICK UP ON THIS TREND HIMSELF.

MESSAGE

It is easy to support his First Amendment rights. It is not so easy to say that he made the right choice in using those rights. Especially since this isn't The RMC's first offense.

On Sept. 5, a headline for a story continuation ended with the S word. An apology for that incident appeared in the following issue, stating that the headline was not meant to be finalized that way but that a page designer forgot to make

the change. It is mistakes like this that will cost McSwane his job.

It is possible that McSwane will be made to quit his position as editor-in-chief. The right thing for McSwane to do is to resign his post as leader of The Rocky Mountain Collegian and accept a position as a lower level editor.

He is a good journalist who made a bad choice and wasn't as watchful as he should have been. It is up to him to move ahead. If he quits now, he'll simply be known as the guy who let a few swear words see print in his paper.

—TJT

Support for the UN, not for dictatorships

"Aftenposten", Oslo, Norway, on the United Nations:

There should be no doubt about the usefulness of the UN as an international meeting place. While the formal debate often follows a well-known and predictable pattern, world leaders use the chance to meet face to face on issues of mutual interest. It is useful to stop by the UN, quite simply, because "everyone" is there. ...

It is very positive that respect for the UN has grown in recent years. That is partly because of the organization's reform efforts, but just as much because efforts outside the UN had met little success. The United States painful experiences in Iraq show that even a superpower needs the international community to cover its back. After Iraq, it will undoubtedly (be) harder to ignore the UN.

China and Russia show new self confidence, and can be the next challenge. As the old saying goes, the UN can never be

more than its member countries make it. Put more clearly: The UN can never do more than the veto powers in the Security Council permit. The council reflects the division of power after World War II in 1945, and during the Cold War was often paralyzed by the two-way split in world politics.

Today, China and Russia combine economic strength with clear authoritarian aspects of rule. That could be the source of serious conflict with the UN.

On the Net:
<http://www.aftenposten.no>

Svenska Dagbladet, Sweden, on dictatorships:

Mass demonstrations have spurred hope that Myanmar will again become Burma. Democratic and flourishing. Because that is the way life could be, instead of being the tragic example of dictatorship it is now. ...

In Burma, it was a shock hike of fuel prices, by up to 500 percent, that led the Buddhist

monks into the streets — while those in power secretly live in extravagance, as they do in Hare and in Pyongyang. ...

In Burma, dictator and general Than Shwe dreams of becoming a Buddhist king and turns to the stars for advice on how to do it. ...

Iran is among those with most oppressive ideological machinery. When President Mahmoud Ahmadinejad lectured at Columbia University, he revealed himself as a living example of how lies and denial of reality can only survive where freedom does not exist. ...

The world has become a better place since the end of the Cold War and the fall of communism. Globally, recent decades have witnessed great democratic steps.

But there are always countries where time has stood still, or developments have gone backward.

Unfortunately, this is the case for Putin's Russia, where democracy, in practice, has been abolished and where support for dictatorships and authoritarian leaders is used to influence world politics.

Bill Clinton's legacy looms over debate

Beth Fouhy
Associated Press

HANOVER, N.H. — Halfway through an otherwise cordial debate, Delaware Sen. Joe Biden raised an issue generally left unspoken by the other Democratic candidates: Bill Clinton's complicated legacy as president and how it might affect Hillary Clinton's chances of winning her own election to the White House.

"There's a lot of very good things that come with all the great things that President Clinton did, but there's also a lot of the old stuff that comes back," Biden said. "When I say old stuff, I'm referring to policy — policy."

In a two-hour debate that touched on the Iraq war, Iran's nuclear program, Social Security and even the Red Sox-Yankees baseball rivalry, Biden's comment was the most direct challenge to Hillary Clinton and the growing sense of inevitability surrounding her candidacy.

With just four months to go before voting begins, analysts had expected the other candidates, notably Barack Obama and John Edwards, to use the debate to sharply question Clinton's record and electability. But most avoided any pointed attacks, with Obama and Edwards mostly reiterating their long-held argument that the former first lady is the candidate of the status quo.

Recent polls show Clinton widening her lead nationally and in most early states, including New Hampshire, where the candidates debated at Dartmouth College. Obama is running a distant second here, Edwards third, and others trying hard to break out of

single digits.

But it was Biden's remark that laid bare a central quandary about Hillary Clinton's candidacy: whether she can justifiably take credit for her husband's successes while sidestepping the controversies and lingering questions that make some voters wary of another Clinton presidency.

"Bill Clinton had a big role tonight — he got more time in the debate than some of the candidates," Democratic strategist Dan Newman said. "His presidency is a critical part of both Hillary's experience argument and Obama's argument about the need for change."

For the most part, the former first lady nimbly toggled back and forth — generally embracing her husband's legacy while drawing some distinctions.

She praised his fiscal responsibility as president, noting he had left a balanced budget and surplus and had developed a plan to keep Social Security solvent until 2055.

"I thought Bill was a pretty good president," she said when asked if voters may be tiring of a succession of presidents named Clinton and Bush.

But Clinton distanced herself from her husband as well, most notably when asked if she would ever approve torturing a suspected terrorist to prevent the detonation of a "big bomb." She said no, but moderator Tim Russert pointed out Bill Clinton had proposed such a possibility in an interview last year.

"Well, he's not standing here right now," she said, and the audience applauded.

"I'll talk to him later," she said, when Russert pressed

her on the matter.

On Thursday, Clinton's campaign acknowledged that she has reversed course. Last October, Clinton told the New York Daily News that the "ticking time bomb" scenario would be a narrow exception to her opposition to torture.

"Upon reflection and after meeting with former generals and others, Senator Clinton does not believe that we should be making narrow exceptions to this policy based on hypotheticals," spokesman Howard Wolfson said in an e-mail.

While the debate was not an exercise in "Hillary bashing" that many activists had expected, her opponents did try to land some gentle barbs where possible.

Obama chided her handling of health care reform as first lady, saying she had lost the battle because she had pushed people away.

"Part of the reason it was lonely, Hillary, is because you closed the door" to outside input, he charged.

Edwards took her to task for voting for a Senate resolution Wednesday he said signaled a march toward invading Iran.

"I have no intention of giving George Bush the authority to take the first step to war with Iran," Edwards said, saying Clinton hadn't learned the lessons, as he had, of voting in 2002 to authorize the invasion of Iraq.

For her part, Clinton seized opportunities to praise her opponents — an effort to blur the differences between herself and others on controversial issues like health care and her vote on the Iraq. She also appeared to crack up in laughter several times.

Grant awarded to UI art professor

Kevin Otzenberger
Argonaut

Elaine Green, an art instructor at the University of Idaho, has received a \$1000 grant to build a display of her work at Clatsop Community College in Astoria, Ore.

Elaine Green

"It's a way to show off in other places what Idaho artists can do," said Green's husband, Gregory Newell Smith.

Green's display will include select drawings, sculptures and books that she

has produced during her nine-year career. Roughly two thirds of the art will be composed of charcoal drawings.

"If you find something that works for you, you'll want to keep working with that," said Green. "I know what charcoal can do for me."

The display will be entitled "Palimpsest," which is an artistic term referring to a surface that has been scraped and written over again so that several layers of work can be seen.

While visiting the exhibit, Green will also be demonstrating her working methods to Clatsop students.

"That is the best part if this," Green said. "It's a great sharing opportunity."

Earlier this year, Green was awarded first prize in Clatsop's international juried exhibition, "Au Naturel: The Nude in the 21st Century."

The award included building a showcase of the winner's assorted works on the Clatsop campus.

The "Quickfund" grant, provided by the Idaho Commission on the Arts, will pay the overhead costs for Green to set up her display through October.

"They are a small college and are working to bring in a lot of artists to expand their artistic exposure," Green said.

ICA Quickfund grants are funded with the support of the Idaho Legislature and the National Endowment for the Arts to help finance the new or exemplary art projects and professional developments of Idaho artists.

"It's extremely important," Green said. "The initial expenses can cost you your whole profit."

Smith had previously familiarized himself with the grant application process while working as a public arts facilitator for the ICA.

After receiving first prize at Clatsop, Smith urged Green to apply for the grant, and they were approved shortly thereafter.

"We are very pleased. If we had not gotten this support, we wouldn't be able to do the show," Smith said. "It would have cost at least five or \$600 to ship the art or to rent a vehicle, alone."

Artists can apply online, but must show physical proficiency in their art samples in order to be approved.

The grants usually offer immediate short-term funding, and are not exclusively available to visual artists.

Non-professional artists and those who lack formal training are

Accenting UI

Professors teach on exchange through Spanish department

Christina Navarro
Argonaut

Esther Plaza enjoys eating organic food, going to the Co-op and the Farmers Market on the weekends and riding a bike around town, miles away from her home in Bilbao, Spain.

Visiting professors from other countries, like Plaza, have the opportunity to teach at the University of Idaho through the University Study Abroad Consortium.

This fall's visiting staff within the Spanish department includes Plaza, Jone Guillén and Arantxa Munarriz, all from the Basque Country in Spain.

Plaza said her experience has been interesting and everyone has been very welcoming. She enjoys using the technology offered in the classrooms at the UI, such as projectors, which isn't available at the University of the Basque Country in Bilbao, where she teaches Spanish classes to USAC stu-

dents.

"It's good to teach in the states, to see the American education system and the university," Plaza said.

Plaza has taught in the U.S. before and said she likes Moscow.

"Moscow is smaller but there is a strong sense of community," she said. "The people are very friendly and low-key."

Guillen said she heard about professors coming to teach at the UI through the USAC office in the Basque Country. She said there are some differences in learning styles between American universities and Spain's.

"(In Spain,) professors do not take attendance," she said. "Students who do not go to class study on their own if they need to."

While Guillen has been to Seattle and Idaho, this is Munarriz's first time in the U.S.

"I am very happy," Munarriz said. "The students are very nice and I've learned a lot."

Irina Kappler-Crookston, study abroad coordinator for the Department of Foreign Languages and Spanish professor, said the idea to bring staff from abroad started with USAC

13 years ago.

"They wanted to do some sort of publicity for their program by giving teaching opportunities," Kappler-Crookston said.

The program does one exchange at a time and 10 professors have already been on exchange through the UI. While most professors on exchange come from Latin American countries and Spain to teach Spanish, Kappler-Crookston said some have taught through history, political science, communication and philosophy departments.

USAC has also sent interns to work at the UI for free. Kappler-Crookston said the exchange of interns helped the university during a time where there was not enough money to replace retired professors.

"(USAC) kept us afloat for a while," she said.

Kappler-Crookston has taught all levels of Spanish language, literature and culture.

Having lived in countries including France, Canada, Spain, Italy and England, Kappler-Crookston said traveling has enabled her to branch out, which has enhanced her life.

"It's how I've survived here in a small town," she said.

After experiencing different cultures she said she enjoys connecting with professors and others from different countries who have been her social network in Moscow.

"It's wonderful to have them around — it makes this community very interesting... My salvation here has been the Hispanic community. Their mentality here is so much closer to mine," she said.

Kappler-Crookston plans social events for the visiting staff and helps make them feel welcome.

"They're treated very well in Moscow," she said. "We have dinners, we take care of their kids, take them rafting, skiing... We do everything possible to have them leave with good memories of the U.S."

Kappler-Crookston said having professors from different parts of the world at the UI adds diversity in the classroom experience.

"It's fantastic for the students because teachers have different accents," she said. "It gives the student a very

Patty's expands while business grows

Meagan Robertson
Argonaut

From enchiladas and tacos to the six-foot long "Moscow Mile" party burrito, Patty's Mexican Kitchen has satisfied rumbling stomachs since October of 2002.

Since Gerardo and Patty Alvarez founded Patty's five years ago with Patty's sister Trini Russell, they have been adding on to make it a better place for their customers.

"We've been wanting to work on expanding Patty's for the past two years. We've grown and grown and gotten much busier, so we knew it was time," Gerardo said.

They finally began their renovations and addi-

tions his past January when they installed outdoor lighting, extended their patio by 40 feet and added some horseshoe pits.

They even leveled the land around the restaurant and added some sod and sprinklers to help add to the outside appearance.

Their most recent extension project began this past May and while it has been nice to help their business grow, they have been closed on Monday's to work.

"We've been closed many Mondays to work on construction and meet with contractors," Gerardo said.

This January, Patty's will undergo some more changes with the addition of an indoor dining room, moving of the bar to the front and stucco walls cov-

ering all of the metal.

Their overall goal is to eventually turn Patty's into one building.

While they've gained new customers, Gerardo said it's nice when fans of the restaurant that have graduated or moved away come back to Moscow and stop by.

"It's great when people who used to be regulars come back and tell us how much they like what we've done with the place," Gerardo said.

The Alvarez family plans for all of their work on Patty's to be finished by spring break of next year.

Gerardo said what he likes most about Patty's is that it's a unique establishment.

"Patty's is something I created for my wife. She

A dozen newfound friends gather on romantic, narrow streets amid some of Europe's oldest architecture.

It is a place completely contrasting to America, with the Pantheon, Coliseum and Saint Peter's Square nearby.

Fourteen architecture stu-

send an E-MAIL

For more information e-mail Matthew Brehm at mtbrehm@uidaho.edu

dents and UI assistant professor, Matthew Brehm experienced this in the flesh last summer during a new study abroad program based in Rome.

"My mind is always going to

be there," said Jordan Cash, a fourth year student.

During the two month trip, the students attended three classes for a total of nine credits.

The classes covered architectural design, Roman architectural and urban history and sketching.

Danielle Doeringsfeld and Jake Dunn felt their biggest accomplishment was improving their sketching skills.

"We sketched every day with interesting subjects everywhere," Doeringsfeld said.

Fourth year student Todd

Alden thought his top achievements were adjusting to the culture, learning to speak the language and, most of all, the preparation before the trip, since he didn't know what to expect.

Alden said he came out of the trip with open eyes and fearlessness.

Kalan Beck, a fourth year student, said the experience really changed him because he grew up as a farmer, so seeing such a different society was a pretty big culture shock.

Tyler Macy/Argonaut

Wheat grinds at Dahmen

Sydney Boyd
Argonaut

After getting injured at work, Donna Baker chose to do something she enjoyed — paint.

Without any formal training, Baker is now an established artist that has traveled throughout Northern America and has put on several one woman shows.

Baker has taken workshops from many internationally known artists, but learned the most from Gloria Peat, a local Lewiston resident.

Plein Air, the French Impressionistic technique of painting on location which Baker utilizes often, plein air, "helps you to see more and learn to use your time efficiently," she said.

Although currently working mostly with pastels and oils, Baker also paints with acrylics and watercolor.

"My work is so eclectic be-

cause I do everything," Baker said.

Leslee Miller, the general manager of the Dahmen Barn, said it is fascinating to watch Baker paint portraits.

"I paint anything that will stand still long enough for me to do it," Baker said.

Miller said people can come in and a half an hour later leave with their portrait.

"Her ability to capture the likeness of someone in a portrait is amazing," Miller said.

While Baker has had no official training, Miller said Baker has a lot of innate talent.

Baker has also taught for many years. She has taught several classes through the Clearwater Arts Association, several home-taught children and also some classes of handicapped people.

For her, the most rewarding part of teaching is working with a student who has an ea-

gerness to learn.

"I love to teach someone who is truly interested in learning."

Baker's art "looks very realistic," Miller said.

"Relics from the Past; Portraits from the Present," Baker's exhibit currently on display at the Dahmen Barn, will coincide with the first annual Harvest Festival.

The Harvest Festival will be held at the Dahmen Barn on September 29.

Julie Hartwig, owner of the Dahmen Barn Shop and a board member of the Union Town Community Development Association Board of Directors, described the festival as a time to show older crafts.

Baker's paintings of tractors, an old Harley and various farm animals tie into the theme of the Harvest Festival.

One of her paintings, "The Gossips," show three mules by

a barnyard fence with noses together as though conspiring against the rest of the mules in the background.

There will be demonstrations of old wheat weaving, broom-making and even the grinding of wheat kernels to create flour.

"Most people get the bag (of flour) at the store and don't realize where it actually came from," Hartwig said.

A peach pie baking contest will take place, the winner walking away with an original painting by one of the Dahmen Barn artists and children ages 8 to 14 will be serenading the event with fiddle music.

Antique tractors will be on display as well as Baker's pieces depicting antique farm equipment.

"Lots of things inspire me," Baker said. "The world is such a wonderful place that I find inspiration all over."

Hero and Villian's Leviathan makes strong solo debut

Jason Hess
Argonaut

With his debut solo album "Monuments in Memory of Nothing So Far" Portland artist Leviathan (Levi Ethan) proves his song writing abilities as a solo artist.

As a bass player for the off-beat Portland group Heroes and Villains, Ethan has been playing quirky indie-pop in the Northwest for some time.

His debut album exemplifies the low-fi, but emotionally charged music that has come to define many Portland and Northwest indie-pop artists.

The home studio quality of the recording could detract from the appeal of less innovative song writing, but in "Monuments," the low budget sound somehow complements the atypical originality of the music.

More than 30 years after Led Zeppelin asked "where's that confounded bridge?," Ethan experiments with unconventional song structures that go beyond simply leaving out a musical bridge.

The song "All Eyes Open" could be two separate tracks — the structure is like a sculpture done by a blind man — strange but undeniably powerful.

Ethan's voice throughout the album is smooth and melodic.

Think a Death Cab for Cutie feel vocally, maybe

stretching just beyond his range once or twice.

The album has undeniable appeal among angsty college students away from home for the first time. In "This Town That Town," a standout track on the album, Ethan sings "most folks in my hometown never seem to get away" — a feeling many students can understand.

The message here is well delivered, Ethan sings over his quick and crisp acoustic guitar playing, eventually looping his voice to create a trance-like sound to finish off the song.

Use of electric guitar is sparse in the mostly acoustic album, but it is well placed in songs like "A Little Dyslexic" in which Ethan speaks almost directly to students singing, "Don't want to go home, but I'm low on funds."

Not all of the lyrics are as easy for the college student, or anyone, to identify with and understand.

In "Warm...and Mandatory" he concedes to the fact that "I don't know what this means," something even the most humble of artists don't usually like to admit to.

In this way his lyrics are a bit confusing, but also refreshing, mirroring his song structures.

Marked by musical originality and a unique lyrical approach, "Monuments in Memory of Nothing So Far" is definitely worth having in your indie-music library somewhere between Elliot Smith and The Decemberists.

runs the show and she really loves it," he said.

After selling tacos, salsa and tamales at the Moscow Farmer's Market two years prior to Patty's opening, Gerardo said the time had come to get their own place.

"We established Patty's because we had been so successful at the Farmer's Market that we knew Moscow needed our style of cooking," Alvarez said.

While walking down the Chipman Trail that runs down 6th Street, the Alvarez's found the space that Patty's now occupies for sale and decided it would be a great spot to start their business.

"The location was nice and we knew it had a lot of potential," Gerardo said.

Gerardo also said that he thinks that the location is unique and it's pedestrian friendly.

"It's different from other traditional restaurants," Gerardo said.

Trini Russell, Patty's sister, also loves Patty's and hopes that with all of the growth that they will continue to be successful and do better in the future.

She said their main goal is to satisfy the customers and she hopes that they will continue to be able to do just that.

"I like everything about Patty's. I like the food, the music, just everything about it. I want people to come happy, be happy and leave happy," Russell said.

Gerardo is expecting for the current stage of their extension to be finished within the next two weeks, with regular hours of operation returning to Mon-

Roger Rowles/Argonaut

Patty's is expanding from its current cramped space to a more spacious and capable kitchen.

days, something he's happy about.

"It'll be around the same time as the anniversary of our opening, so maybe we'll just throw a huge party," Gerardo said.

Alvarez said he's not sure if they will open another Patty's restaurant.

"It really depends on if the opportunity presents itself, but we'll see what the future brings," Alvarez said.

ArtsBRIEFS

1912 Center holds writing workshop

The Moscow Community Creative Writing Workshop will be held Monday nights from 6:30-9 p.m. at the 1912 Center.

The 10-week workshop is open to all levels and will feature different local writers every week.

Local writers include Mary Clearman Blew, Peter Chilson, Annie Lampman, Ron McFarland, Gail Miller, Joy Passanante,

Brandon Schrand, Judy Sobeloff and Georgia Tiffany.

The workshop will also include in-class writing as well as discussions on fiction, nonfiction or poetry works.

Workshop participants will have the opportunity to receive feedback on their writing and read their writing on local radio station KRFP, then again with workshop instructors at Book-People in November.

This main workshop will be limited to 16 participants, but there will also be two six-week workshops, a Monday night poetry/nonfiction workshop and a Tuesday night fiction workshop.

Dahmen to hold watercolor classes

Visiting Spokane artist Wes Hanson will teach a watercolor class at Artisans at the Dahmen Barn at 10 a.m. to 4 p.m. Saturday, Oct. 13.

The artist's job is to create simple designs, dramatize them through organized values, and bring them to life with vibrant color.

The classes cost \$45 and include handouts.

A list of materials students should bring is available through the Dahmen Barn.

The class is for beginner adults and registrations must be turned in by Oct. 6.

For more information, contact Leslee Miller at (509) 229-3655.

Exhibit features interior art in Palouse

The College of Art and Architecture students present their "Interior Design Expressions: Innovations of Place, Space and Identity."

The exhibit will feature projects from 10 a.m. to 5 p.m. Saturday at the Bank Left Gallery in Palouse.

The exhibit will showcase 14

different students' ideas of using art in spaces on the Palouse.

The Gallery is located on 100 South Bridge Street in Palouse, Wash. Admission is free and open to the public.

Harvest festival at Dahmen Barn

The Artisans at the Dahmen Barn in Uniontown are celebrating their first annual Harvest Festival from 11 a.m. to 5 p.m. daily until Saturday.

Visitors can view demonstrations by artisans with a harvest or agricultural theme.

Fiddlers from Thorncreek Ex-

press will play in the afternoon and guests can purchase fresh canning produce from Wilson Banner Ranch.

The event is free but donations will go to the Community Food Bank operated by the Community Action Center in Pullman.

Cartooning class to run at 1912 Center

Noah Kroese will teach political cartooning classes. The classes will begin 4 p.m. Oct. 15th at the 1912 Center.

For more information, contact Kathleen Burns at 883-7036.

DIVERSITY from page 8

"It's wonderful to have them around — it makes this community very interesting... My salvation here has been the Hispanic community. Their mentality here is so much closer to mine," she said.

Kappler-Crookston plans social events for the visiting staff and helps make them feel welcome.

"They're treated very well in Moscow," she said. "We have dinners, we take care of their kids, take them rafting, skiing... We do everything possible to have them leave with good memories of the U.S."

Kappler-Crookston said having professors from different parts of the world at the UI adds diversity in the classroom experience.

"It's fantastic for the students because teachers have different accents," she said. "It gives the student a very well-rounded idea of accents. It

fine tunes (their) ears and gets (them) ready for whatever is out there."

Staff on exchange through USAC go through the International Program Office's Scholar Services.

Jill Kellogg-Serna, Student Services coordinator for the International Program Office, said the office receives scholars every year who come for different departments.

"The majority comes to teach Spanish but others do different things as well," Kellogg-Serna said.

International Programs adviser, Tammi Johnson said scholars come to the UI through study abroad, the Fulbright Program or through the International Program Office.

Scholars are either invited by a department or apply to work or do research.

"The scholar program is an exchange of profession where they're coming to gain research, knowledge from us, or to share research and knowledge with us," Johnson said. "I think it's a great thing."

ARTIST from page 8

artists.

Non-professional artists and those who lack formal training are also eligible.

Green graduated from the University of Idaho with a Masters in Fine Arts in 2005 and currently teaches beginning drawing courses at the university part time.

Prior to her most recent event at Clatsop, Green has publicly shown her work through venues such as the Art Spirit Gallery in Coeur D'Alene, One World Café in Moscow and the 2004 Triennial at the Boise Art Museum.

ABROAD from page 8

Graduate student, Angela Sumner said she admired the way Rome is set up as a city and now looks at things differently.

Dunn agreed. "You kind of get numb to your surroundings by going to a new place," Dunn said. "You're able to reflect on your own environment more, because you have something to compare it to."

Doeringsfeld said going abroad was a worthwhile experience.

"It really is an awakening to the rest of the world," she said.

Sumner and Alden said

they thought it should have been at least a semester long trip because two months in Rome is just too short.

While abroad, each student created a design project proposal, analyzed and documented chosen piazzas, or urban spaces for the English tongue.

They produced dozens of sketches, watercolors and photographs — all of which is displayed at the Reflections Gallery in the commons until Oct. 7.

Cash's favorite part of the experience was going to Assisi, which is a town located about 120 miles north of Rome.

Others, like Sumner and Doeringsfeld, favored the restaurant dinners.

Every other week the

group got to go out to eat and had opportunities to talk, tell stories and get to know each other while eating authentic Italian food.

Dunn said he enjoyed being able to live in two different places, the piazza Trilusa, which is a native area and the piazza Navonna, which is a tourist area.

Approximately 20 years ago, Brehm lived and studied in Rome for a school year when he was a student of the University of Notre Dame.

"In addition to the things that I learned about Rome, it really changed the way I thought about myself and architectural design and culture," Brehm said. "There aren't many cities in the world that combine the richness and

depth of history and continual development of art, architecture and urbanism."

This program aims to bring that kind of experience to UI students.

Brehm said he plans on continuing the program as an annual opportunity and is working with students to improve it as a whole.

Students will stay in studio spaces in the center of Rome, with wireless access two blocks away from the Pantheon.

The program includes guest lecturers at other schools, walking tours, museum visits and two short field trips out of Rome to cities like Florence, Sienna or Assisi.

Participants must be studying architecture with at least three years completed at UI.

Walk-on rewrites the record book

Robert Todeschi
Argonaut

It's hard to tell if Colt Brennan is man or a quarterback machine.

The stadium lights reflect off the visor he wears on his helmet, making it hard to see any facial expressions underneath. He completes a pass about as often as someone says "Aloha" in Hawaii. His worst game is nearly everyone's best — his best is paramount.

Off the field, Brennan hasn't always been so flawless. As a walk-on freshman at Colorado, mistakes landed him in jail for seven days and four years of probation.

Brennan was accused of breaking into a girl's dorm room and fondling her after a night of drinking.

He was convicted of felony burglary and trespassing but was acquitted of all sexual assault charges.

Allegations couldn't have come at a worse time for Brennan. Colorado was in the midst of a series of scandals and upon conviction they released him.

Brennan transferred to Saddleback Community College in California where he earned honorable mention All-American honors, state Offensive Player of the year and was first team all-conference.

His criminal record forced recruiters to shy away from offering Brennan anything until coach June Jones of Hawai'i challenged him to walk on to his team in 2005. Jones wasn't willing to give him a scholarship at the time.

He started 10 of 12 games and broke or tied 11 Hawai'i school records.

In 2006, Brennan's performance was staggering. Despite sitting out the fourth quarter in six games, he led the nation in seven statistical categories; set the NCAA record for touchdowns with 58; and broke or tied 19 other NCAA records, 17 WAC records and 41 school records. At the end of the season, he was named the WAC Offensive Player of the Year.

Brennan is ranked No. 5 in NCAA history with 105 career passing touchdowns. He currently holds the records for career passing efficiency (172.9) and average total yards of offense per game (402.3) and is only a third of the way through his senior season.

In Hawai'i's opener against Northern Colorado this season, Brennan only played one half and threw for 416 yards and six touchdowns. He ranks first in the nation with average points responsible for (32), second with average total offense (432) and third with average passing yards (420.67). Brennan leads the WAC in all three categories.

Teams with Hawai'i on their schedule know their only chance at winning is keep the quarterback from notching another record.

"Colt is as mobile and accurate quarterback that I've seen in a while. He has a great feel for the game and to stop Hawai'i, you have to stop Colt," Boise State coach Chris Petersen said.

"I don't remember playing against a quarterback as

"To stop Hawai'i, you have to stop Colt!"

Chris PETERSEN
Boise State coach

Defense looks to contain Brennan

Idaho opens WAC play against No. 19 Hawai'i

Robert J. Taylor
Argonaut

University of Idaho football coach Robb Akey is only 41, but what's left of most of his hair has already gone white. While genetics are to blame for his receding hairline, he blames the high-powered offenses he coached against as Washington State's defensive coordinator for the lack of color in his hair.

He coached against Hawai'i in 1999 as the defensive line coach and "pass happy" Baylor in 2006 as defensive coordinator. WSU beat Hawai'i 22-14 and Baylor 17-15.

"That's why I'm a young guy to have this much white hair — because I've seen a lot of stuff like that," Akey said.

On Saturday he'll have the chance to see a lot more of it as No. 19 Hawai'i comes to the Dome ranked second nationally in passing and scoring offense.

The Vandal defense will have to come up with a way to slow down or stop the Colt Brennan-led Warriors to be able to stay in the game.

The secondary, led by Stanley Franks and Shilo Keo, will have to shut down Hawai'i's trio of receivers that have tallied a combine 102 receptions, 1,286 yards and 14 touchdowns in the season's first four games.

In two of their games, 10 or more players had at least one reception so there will be plenty of opportunities for the secondary to make big plays.

Akey said the game will be a chance for them to showcase what they are capable of doing, especially Franks.

"He plays with an air of confidence," Akey said. "He appreciates a challenge. He plays his best when things are coming at him."

Quarterback Nathan Enderle will have to play with his own air of confidence Saturday to overcome the probable loss of running back Deonte Jackson. Jackson, who ranks third for rushing yards in the nation, suffered a high ankle sprain in Idaho's 42-35 loss Saturday.

After going 8-21 in the first half and essentially giving up two touchdowns to Northern Illinois' defense, Enderle threw for 308 yards in the second half and completed 19-33 passes. His 423 passing

DIARY OF A FANTASY GEEK

The Sunday night blues

When I was growing up I hated Sunday nights.

First off, the long day of NFL football was ending. Secondly, a new full week of school was only hours away. When my fantasy team lost, it completed the trifecta of sorrow.

Football season is the only cure for the Sunday night blues, other than a warm body lying next to you — and that can be a not-too-often occurrence for fantasy geeks.

I am warning you about this because now is the time during the fantasy season when managing your team gets tougher.

Why? Bye weeks, people.

The regular season in fantasy football is now at the quarter point and it's time to solidify your squad and officially get into mid-season form. The first three weeks were simple in terms of managing your team. Your philosophy should have been to start your best players, usually regardless of their matchups.

Week four is the time to take over and prove you're the biggest geek in your league. This will be the first time this season you probably have key players out of your lineup. This is the time you can really make fun of the person that drafted Adam Vinatieri in the ninth round. That person will be starting Ron Dayne or Sammy Morris at RB this week.

Here is a list of possible spot-starters this week if you have key players on bye weeks. These players should have decent games and allow you to weather the bye week storm and make your opponent sing the Sunday night blues.

Quarterbacks

Chad Pennington - QBs are torching the Bills this season. This match-up should have been one of the only reasons you drafted this noodle-arm. Chad should play well.

Ben Roethlisberger - Big Ben has been a gem this season and his match up verse the Cardinals is something to consider.

Tony Romo - If you have him, consider playing him every week, especially verses the horrible Rams defense.

Running Backs

Brian Leonard - He replaces Steven Jackson for the Rams. Leonard should get lots of touches this week on rushes and receptions. I like him as a No. 2 back for flex player for the next week

or so. **Derek Ward** - One of the bigger surprises this season. Ward is proving to be a decent play week to week. A nice match-up here against Philly.

Cedric Benson - Now's not the time to bench Benson. With Griese under center, expect them to establish the running game to relieve pressure. The Lions defense hasn't stopped the run this season. Should be a big week from Benson.

Wide Receivers

Kevin Curtis - It won't be anything like last week for Curtis but he still should be a solid play. The Giants secondary is awful and McNabb now has a number one receiver. Expect

See BALLGAME, page 13

Phipps enjoys years of success with XC team

Adam Herrenbruck
Argonaut

Senior cross country athlete Mandi Macalister and her teammates can say lots of things about their coach, but it's his attitude they focus on.

"He has a nice smile," Macalister said. "The club athletes that he's coached in the past and parents always mention his smile. When I was looking at college, he was by far the nicest coach I talked to."

Junior Allix Lee-Painter remembers his manner as what set him apart from other coaches when he was recruiting her out of high school.

"He was the only coach that asked me a lot of questions," Lee-Painter said. "Most coaches want to talk a lot but he asked me how I was doing and how my season was going."

As the University of Idaho cross country team begins the 2007 season with expectations of success, they will look to coach Wayne Phipps and his attitude to help guide them to the WAC championships and hopefully beyond.

Phipps got his start in athletics at a young age in Prince George, British Columbia. At age nine, Phipps joined the Prince George Track and Field Club. As Phipps entered his latter high school years he began to outgrow the track and field club and his dad became his personal coach. Phipps recognizes his father as a key supporter of his athletic career.

Phipps' success saw him a provincial champion and medalist and he earned a scholarship to the University of Montana. Phipps competed in

Adam Herrenbruck/Argonaut
Cross country coach Wayne Phipps flashes an infectious smile with his athletes between workouts.

track and field at Montana and at the University of British Columbia where he graduated in 1991.

Phipps returned to the club during college where he worked summers as a coach.

"I coached back in Prince George for a summer job and just kind of blossomed from there," Phipps said. "I decided then that coaching would be a pretty neat profession."

After completing a master's in exercise and movement science at the University of Oregon, Phipps wanted to find a program in the West where

he could work on a Ph.D. and work with the track and field program.

Phipps found that at UI and came to Moscow where he was an assistant coach from the fall of 1995 until the spring of 1999.

He decided to put his doctorate on hold in the fall of 1999 when he was hired as co-head coach alongside Yogi Teevens and the two have remained at the helm of a flourishing program since.

The success Idaho track and field

See PHIPPS, page 12

RACE TO THE FINISH

Practice makes perfect

This Saturday is my first race. I'll be running at Willamette University's Charles Bowels Invitational.

I am really nervous thinking about racing and as I write this I feel my breakfast rising to my throat. I still think that I'm not in the best of shape, but these are negative thoughts and I need to suck it up and get past it.

My team needs me and we need everyone to be confident in themselves and the work they have put in if we have any chance of winning conference this year.

When I sensed a girl was feeling unconfident, I abused her on the course. Being abused is not on my to-do list.

So to help me remain confident in my progress, I am going to look to my recent work-out leading up to this race.

Last Thursday I had 3K warm up, 16x500 meter intervals and 3K cool down in the old arboretum. The intervals had 90 seconds rest. According to my coach, the pace should be 1:42, so I ran 1:35.

My teammates ran this workout earlier in the week so I would have had to run alone, except I remember that I have the best friends a girl could ask for.

So I called up one of my cycling friends, Brendan, and asked if he would workout with me.

He showed up in long shorts, horrible running underwear and a smile. He muscled through as many as he could and I am very grateful to have had someone there regardless of their own running abilities. Thanks, Brendan.

This Tuesday's workout was wild. Warm-up 3K, 6x1000 meter intervals and 3K cool down. This was tough for me because I have

not done a workout like this in a while and had no idea how to pace myself.

To add to the difficulty I ran by myself. I like to think it makes me mentally tougher and gives me an edge.

My pace was 3:25 per kilometer but I ran well under that. The beginning of the wildness started with two repeats left to go. I turned sharp on the trail and rolled my ankle.

I started screaming obscenities immediately. When I looked up I saw five grown men in red jumpsuits staring at me like they: A) wanted to be my S.O.S. or B) wanted to take me home to their cell.

I sprung up to walk it off and my coach kept the clock running, and yelled, "you have 30 seconds."

I got on the line for my second to last interval and turned that same deadly corner and bulldozed a woman in a jean jacket — she was pissed and I was sorry — but I had to keep running.

This race means nothing, but I have never run a race truly believing that.

I don't lie to myself. I am going to run and I'm going to try my best. In the last two years I caught the lead biker and they had to pull off the course and meet me at another part.

We kind of have a bond now so I am thinking if all goes well this year, I'll invite them to Thanksgiving or something.

Editor's note: Olson won the Charles Bowman Invitational in 2005 and 2006. The race is her first race with the Idaho cross country team since redshirting all of 2006.

Olson is a cross country and track athlete at the University of Idaho. She writes a weekly column on life as a student-athlete.

Hull follows passion to UI

Hugh Jones
Argonaut

Since she was in fifth grade Jennifer Hull has known she was going to play college soccer.

"I have just known that this is what I was going to do. I love the sport. The scholarship definitely helps, but it's not the only reason I'm out here," Hull said.

Only a small percentage of high school athletes continue their careers into college. One statistic claims that only two of every 100 high school athletes will play for a NCAA Division I college. Hull is proving that she deserves her spot.

"Jen is very strong on the ball," Idaho coach Pete Showler said. "She links up very well with her teammates and is good with her back to the goal. She can use her height to her advantage and can also score goals."

"We look forward to seeing where she fits in as a freshman and how she makes the transition from high school," Showler said when he recruited Hull.

Hull has made the transition well. She has only played in nine collegiate soccer games, but Hull is already well on her way to being a Vandal soccer legend.

Hull made her mark quickly, needing only four games to score five goals. She is currently tied for eighth place in Idaho's record books for single season goals.

Hull, now 18, began playing

soccer when she was four years old in Indianapolis.

In high school Hull played for the Skyview Storm of Vancouver, Wash. She was the Greater St. Helens League's offensive player of the year, and first team all-league both her junior and senior years.

Hull did not only excel in soccer, but in the classroom as well. For her four years in high school, Hull was a Scholar-Athlete honoree.

When high school soccer was not in season, Hull played for the FC Portland Maroon. This is how she ended up at the University of Idaho.

Hull's club coach knew Showler and linked her with the Vandal soccer program.

Hull was also recruited by Seattle Pacific, Portland State, Eastern Washington and Whitworth.

"Jen is one of the quiet ones on the team," Showler said.

This may be surprising considering Hull's aggressive play on the field. As a freshman Hull has scored more times than any other player on the team.

"The forwards that I play with are more kind of, drop back and distribute the ball," Hull said. "I am always the highest player on the field, so I have the best chance to score."

Off the field Hull is just a regular freshman. She lives in Theophilus Tower and eats at Bob's like many other freshmen.

"I usually go to school, then to practice, then do homework

Jennifer Hull guards the ball from Cal State Bakersfield during a game Sept. 16 at Guy Wicks Field. Roger Rowles/Argonaut

and then hang out with my friends," Hull said. "Sometimes we go out to dinner or something, but we don't really do anything special"

Hull is currently taking mainly general education credits as she is undecided on her major.

PHIPPS

from page 11

has seen can be considered a testament to Phipps and the rest of the Vandal coaching staff as well as the athletes. And Phipps has nothing but positive things to say about his cross country athletes. His respect for them transcends beyond what they show in the race results.

"The amount of work they do is borderline insane," Phipps said. "Some on the team are doing 100 miles a week plus they are amazing students. Both the men's and women's teams have been named team academic All-Americans. It's amazing they're able to balance everything."

Making sure his athletes are ready to compete at each meet is Phipps' job and he says that there can be a fine line between knowing when to push them and when to back off.

"The number one thing is the best interest and well-being of the athletes," Phipps said. "Then, it's to make them the best they can be. Sometimes it's hard. I'd rather show up to a meet slightly under trained and healthy than too injured to compete."

Phipps said the best way to achieve success is through a working relationship that relies on mutual respect. Phipps also says that as a coach he can only take about 2 percent of the credit for runners' accomplish-

ments, especially with the quality of people that he coaches.

"Especially with the distance runners," Phipps said. "I don't have to prod them. The goals are set, they know what they have to do and they want to do it. It makes my job a lot easier."

Junior Matt Racine said that Phipps puts the opportunity for success in the hands of each runner and that his motivational style is based out of trust and respect.

"It's the way he motivates," Racine said. "He doesn't get pissed and doesn't make you feel excess pressure from him. It's up to you. If you run poor he asks, 'What do we need to change?'"

Junior Kevin Friesen said he appreciates how much time Phipps takes to serve each runner on an individual level.

"He takes the time to write out an individual workout program for each runner," Friesen said. "It makes it so each workout is reasonable for each runner. He probably never sleeps."

Phipps' tactics must be working as he's enjoyed plenty of success, especially in cross country.

In 2004, women's cross country became the first team to go to nationals in program history where they took 25th. In 2005 the women's cross country team earned the first WAC championship as four runners finished in the top five, including Dee Olson who took first.

Phipps might tell you that most of the credit goes to the athletes who performed and were successful but some of those athletes might argue that he deserves more than 2 percent.

"Just look at how each of us has improved since we've been here," Olson said. "I came in here nothing and now I'm an All-American. And look at Alex who's cut minutes off her time."

"He may only take 2 percent of the credit but he'll take 90 percent of the blame," Macal-

ister said.

And they attribute so much to the way Phipps has made them feel comfortable and appreciated. They said they know he has respect for them and trusts them and they feel the same way in return.

"I remember at nationals I was nervous," Olson said. "He warmed up with me before the race and was running with me in jeans and getting all sweaty and coaches and people were looking at us like we were crazy."

"He recognizes that we're not just athletes, but student athletes," Lee-Painter said.

"He's a big supporter of 'Bus Idol' and is the final judge," Macalister said. "He's always playing games with us to keep us relaxed. He'll ask us things like if we'd rather live in a garbage can or a puddle of mud, just to keep us loose."

"He's good about getting us to have fun," Racine said. "He'll find the thing people are competitive at and use it to keep us motivated."

The Vandal cross country runners can go on and on about what Phipps means to them and the numbers and records show what Phipps means to University of Idaho cross country. Phipps said there are factors at play that make it so he could see himself a Vandal for a long time.

"People don't realize how nice it is here until they get here," Phipps said. "Everyone is nice, there's great department support, great facilities and I get to work with a great group of kids."

"Being a track coach is a dream job for me. I wouldn't want to be doing anything else. It is a privilege to have had the opportunity to work with so many outstanding young men and women. I wouldn't trade my teams or our staff for anyone."

Phipps will lead Vandal men's and women's cross country in action Saturday at the Willamette Invitational in Salem, Ore.

SportsBRIEFS

Register for co-rec volleyball

The entry deadline for co-rec volleyball is Tuesday. There is a captains meeting the following day in the Student Recreation Center.

The teams will begin competing on Oct. 15.

UI alum signs with national team

Watson, who played for the University of Idaho from 2005-07, has recently signed with the Siroki Prima Pivo of the Adriatic League in Southeastern Europe.

"This is a great opportunity for Keoni," Idaho coach George Pfeifer said. "There have been a lot of strong players come out of that league in the past several years. The talent level will be high and it will be a great challenge for him. It is a great first step for his professional career and a tremendous addition to his basketball resume."

During his last season as a Vandal, Watson averaged 18.1 points per game, making him 13th in the team's single-season record books. He is also ranked fifth for single season points and for three point shots.

Join the new UI paintball club

There is a new paintball club at the University of Idaho. The club will be involved in collegiate tournaments as well as scrimmages on campus. People from all levels of experience are invited to join the club. If you are interested in joining, e-mail leud7442@vandals.uidaho.edu.

Volleyball wins another game

The UI volleyball team continued its winning streak Thursday with a 3-0 victory over Louisiana Tech.

The Vandals hit their second-highest percentage of the season (.260) to seal the 34-32, 30-25, 30-22 victory. The loss bumped the Lady Techsters to 5-13 and 0-5 in the WAC.

The Vandals play No. 25 New Mexico State at 11 a.m. Saturday.

QuickHITS

Did you know: UI versus UH edition

- The first time that the University of Idaho and Hawai'i met on the football field was in 1930.
- The last time that the University of Idaho beat Hawai'i was in 1960.
- Hawai'i will travel 24,133 miles and spend a total of 50 hours and 38 minutes in transit for regular season travel.
- The last time that the teams met ended in a 68-10 defeat for the Vandals.
- The Vandals series record against the Rainbow Wahine is 6-1, Hawai'i.

Top games around the nation Saturday

- USC at Washington, ABC, 5 p.m.
- Michigan State at Wisconsin, ABC, 12:30 p.m.
- Clemson at Georgia Tech, ABC, 12:30 p.m.
- Cal at Oregon, ABC, 12:30 p.m.
- Auburn at Florida, ESPN, 5 p.m.

Vandals by the numbers

- 1 - Rank of Nathan Enderle's 423-yard performance on the Idaho freshman single-game list.
- 2 - Haley Larsen ranks number two in the nation for average kills per game.
- 3 - Idaho's defensive tackle Siusa Musika has forced three fumbles this season and is tied for number two in the nation.
- 3 - Deonte Jackson is the number three running back in the nation.
- 9 - Nine of the senior swimmers on the Vandals' team are charter members of the team.
- 9 - The soccer team has scored nine goals in their seven games this season, last years team scored a total of seven.

Vandals toWATCH

Dee Olson, cross country The senior runner will look to three-pete at the Willamette Invitational in her first race for the University of Idaho since 2005.

Jayson Bird, football Without Deonte Jackson in the line up, or playing a limited role, Bird will have the chance for a big game starting behind the same o-line Jackson has rushed for 537 yards behind.

Anna McKinney, volleyball The sophomore is ranked fourth in blocks per game and number seven for hitting percentage in the WAC.

Sara Peterson, swimming Peterson will look to improve off of last year's success when the Vandals' swim season starts tonight. She holds the school record for the 100 freestyle. Last year she swam career bests in the 50 and 100 freestyle and the 100 breaststroke at conference.

Hawai'i returns to WAC play against UI

Robert Todeschi Argonaut

Hawai'i plays its fourth time zone in five weeks Saturday in the Kibbie Dome and Colt Brennan should be back at the helm.

Last week, the Warrior football team was without their record-breaking quarterback for precautionary reasons (ankle), but backup Tyler Graunke led them to a 66-10 win over Charleston Southern.

"Colt (Brennan) could have played Saturday night but I didn't want him to. Colt makes the offense run smoothly, but so does Tyler (Graunke)," Hawai'i coach June Jones said. Jones was vague in this week's press conference about Brennan's status, but with seven consecutive conference games ahead, Brennan will likely see the field Saturday. Hawai'i's offense has been ranked first in the nation for nine straight weeks.

This season, they average 461.8 yards through the air and 55.8 points a game, ranking them second in the nation and first in the WAC in both categories.

Hawai'i's offensive line has allowed an average of one sack per game, giving their

quarterbacks more than enough time in the pocket.

The Warriors have run the ball just 85 times and have thrown it 204 times with only five interceptions.

Known for quick scoring, Hawai'i has scored 49 points in the first two quarters of the game, 70 points in the third and 48 in the fourth this season.

"I think they lose interest by the time the fourth quarter rolls around because there aren't as many points there," Idaho coach Robb Akey joked.

The offense isn't the only contributor to Hawai'i's scoring success. In the first four games, the defense and special teams delivered two kickoff returns, two interception returns and one punt return for touchdowns.

"You have to play all phases of the game to get the win," Jones said.

Since Jones took over in 1999, his passing attack has been ranked first in the WAC and has been in the nation's top five every season. Last year his offense was first in the nation.

Jones is one of only 14 head coaches in the FBS that is also the team's offensive coordinator. His run-and-shoot is one of

see the GAME

The Vandals will face Hawai'i at 2:07 p.m. Saturday at the Kibbie Dome. The game will be broadcast on the Vandal Network.

the most effective airborne assaults in the nation, producing some of the nation's most prolific college quarterbacks.

His former quarterback, Timmy Chang, is the NCAA all-time leading passer with 17,072 yards. Brennan, who was mentored by Chang, holds the NCAA record for passing efficiency and is approaching Chang's record for touchdowns.

Many argue that Jones' quarterbacks are only products of the system and that the run-and-shoot offense deserves the credit for their statistical successes.

After Saturday's win over Charleston Southern, the Warriors climbed one spot in the USA Today Coaches poll to No. 17 and stayed put at No. 19 in the Associated Press Top 25 poll.

FOOTBALL
from page 11

yards is the most by thrown by a Vandal freshman and tied for ninth on the school's all-time list.

Akey said he was impressed by the poise, savvy and maturity the young quarterback showed as he led the Vandals to a near-comeback after getting hit more times in a game than he had all season.

The emergence of wide receiver Maurice Shaw gives Enderle another target as he becomes more familiar with running the offense. Akey said Shaw's confidence and execution have grown over the last two games and that he's starting to make veteran catches as a true freshman.

If Jackson is unable to play Saturday, junior Jayson Bird will get the bulk of the carries. Bird rushed for

506 yards last season and is ranked 16th on the university's all-time career rushing list. In 2004 he led the team in rushing yards, touchdowns scored and all-purpose yards.

"He's proven he can make plays for us," Akey said.

A lot has changed for the Idaho Vandals since getting beat 68-10 in Honolulu last October. The team has a new look this season with a new coach on the sidelines and quarterback under center. But the biggest change has been the team's mindset and character, according to Akey.

"The character of this team is much stronger at this point than it was in the spring," Akey said. I was told when things got bad last year, the team would shut down. Last week when things got bad, they stepped it up.

We played the number one team in the country and this team continued to battle throughout the entire course of the game."

BRENNAN
from page 11

hot as that. Their quarterback, Brennan, is the key to their offense," Fresno State coach Pat Hill said. "The best quarterback performance we've ever faced."

At the end of last season, Brennan was sixth in Heisman voting. Early preseason projections and this season's performance have kept him in the top 10 of ESPN.com's Heisman Watch. Many argue Hawai'i's strength of schedule will be the only thing to hurt his chances.

"Does he deserve it? Yeah, he did. I thought he deserved it last year," Jones said concerning Brennan's Heisman chances.

"It'll be very difficult for him to do it, but can it happen? Yeah, it can happen, but it's going to take a special situation."

www.uiargonaut.com

BALLGAME
from page 11

around 5 to 8 catches.

Dwayne Bowe - Bowe is one of the surprises of the rookie class so far. He looks like the top WR on the Chiefs and should continue to make big plays. Don't get crazy and

start him over a proven guy, but consider as a spot-starter.

Lee Evans - Take caution to the biggest bust of the season so far. I just can't see him actually having another 1-catch game. He's a big play guy, hopefully this is the time.

Career Expo

of the Palouse

WSU Beasley Coliseum • Pullman, Washington
Tuesday, October 2, 2007 • 9:00 AM - 3:00 PM

Co-sponsored by the Washington State University office of Career Services
and the University of Idaho office of Career and Professional Planning.

CALENDAR

Career Expo and associated events

Career Services Open House

10 a.m. to 4 p.m. Monday, Oct. 1, Lighty 180

Want to know what Career Services can do for you? Stop by and participate in resume critiques, gain access to Career Services resources, receive great tips on interviewing, and get your questions answered.

Career Expo Pre-Funk

11:30 a.m. to 1:30 p.m.
Monday, Oct. 1, WSU Beasley Coliseum, Southwest Concourse

Join Career Services and Expo employers for a fun and informal networking opportunity. Stay for the whole 2 hours of mingling or just drop by for a quick chat. Last year, over 200 students attended and networked with over 20 employers. Don't miss the free food and prizes!

Career Expo of the Palouse

9 a.m. to 3 p.m. Tuesday, Oct. 2, WSU Beasley Coliseum

More than 200 organizations from all over the nation are looking for candidates from every academic discipline for internships, career opportunities, and graduate studies. Don't miss out on this once-a-semester networking opportunity! Find out which employers are attending at www.careers.wsu.edu.

Next-Day Interviews

8 a.m. to 3 p.m. Wednesday, Oct. 3, WSU Beasley Coliseum

Many employers will conduct interviews the day after the Expo. Invitations to interview will be offered to students at the Career Expo. Get that job!

WSU thanks Career Development Specialists

Career Development Specialists (CDS) are undergraduate students who intern at the Career Services office and gain specialized professional experience and knowledge within the area of career development. CDS students provide direct service to students, develop and facilitate presentations and workshops, and participate in program development. These students also participate in public relations and special events.

In order to promote the Career Expo of the Palouse and other Associated Events, the CDS students extensively assist staff members with marketing and organization through student outreach and distribution of promotional materials.

Career Week, a week of informative workshops, is organized to help prepare students so that they can get the most out of the Career Expo.

Thank you, CDS students!

See What WSU Career Services Can Offer You!

Career Services can offer something for everyone! If you are undecided about your major or you do not know how your classes translate into a career, you are not alone. Career Services is here to help.

■ Meet one-on-one with a Career Counselor who can help you establish academic goals and career direction.

■ Visit the Resource & Technology Center to assess your interests, skills and values and learn about occupational information by using the SIGI interactive assessment tool. The Resource & Technology Center is also a great place to browse to get ideas about careers. There are lots of free handouts and magazines in career-related issues to help you explore as well.

■ Take the University 100 or University 300 classes to assist you in self-assessment, career planning and job search strategies.

Once you have determined your interests and academic goals, Career Services can provide more tools to help you work toward your future goals.

■ Attend a career development workshop conducted by Career Services or an informa-

tional session sponsored by an employer.

■ Find out how an internship can enhance your academic experience as well as help you make a great impression in an interview.

■ Visit the Resource & Technology Center to get information about job search strategies, occupational statistics, potential employers, graduate schools, resume writing, interviewing and what to wear to an interview.

■ Explore the work world by conducting an informational interview, shadowing a professional in a career of interest or touring companies.

■ Gain professional and internship opportunities by attending the Career Expo.

At the Career Expo, you will find employers and graduate schools from all over the country offering internships, career opportunities, summer jobs, and advanced educational studies in every academic discipline. Attend Career Expo Associated Events such as Career Expo Pre-Funk, Mock Interviews, Career Services Open House, and employer workshops to help you acquire new skills and give you an

advantage in the job hiring process.

Whether you are an undergraduate just starting your academic career or a graduate ready to enter the job market, register with Career Services. It's easy to do online and a must-do if you want to interview with any of the over 200 employers who conduct on-campus interviews each year. To register go to www.careers.wsu.edu and select the "login/register" link.

Remember: These services are free to you, the staff is knowledgeable and friendly, and the website is a wealth of information.

Call the office at (509) 335-2546 to find out how Career Services can help you, or visit www.careers.wsu.edu to learn about upcoming events and services.

Career Services welcomes employer partners and wishes all students success at the Career Expo.

Visit CAPP at Idaho to achieve career success

By Suzi Billington, Director

Located on the 3rd floor of the Idaho Commons, the Career and Professional Planning office helps students gain skills and experiences that enable them to achieve career success. Our goal is to enhance student education through involvement in hands-on learning activities such as, internships, service-learning classes, and experiential learning activities. With a strong focus on early career planning, and working with students from their freshman year, CAPP helps students gain a deeper understanding of their career options and the expectations of future employers.

CAPP Career Advisors help students with career planning and educate them on how to find and secure valuable experiences and rewarding jobs after graduation. We offer individual and group career guidance designed to help all students, regardless of major or academic level. Some of our student services include:

- Career decision-making assistance.
- Tools and resources for career research, planning, and goal setting.
- Assistance with resumes,

cover letters, and job interviews.

■ Vandal CareerConnection, an on-line database of jobs, internships, and resources.

■ Email notification of available jobs and internships in your major.

■ Workshops and presentations on career-related topics, including a weekly workshop on the job/internship search process.

■ Guest speakers for student groups, topics ranging from resumes/cover letter writing to interviewing strategies.

■ Mock interviews.

■ Spring etiquette dinner to learn about dining etiquette in a professional setting.

■ Vandal Networking Night to practice networking skills.

If you are a UI student and need help finding your career focus, or simply want help finding a job or internship, check out our on-line resources or visit us at the Commons. Be sure to register on CAPP's Vandal CareerConnection database, <http://www.capp.uidaho.edu>.

In addition, CAPP helps employers connect with students to meet their recruiting needs and provides the following services, free of charge, to employers:

CAPP at UI

■ ONLINE: www.capp.uidaho.edu

■ WHERE: Idaho Commons, room 334

■ PHONE: (208) 885-6121

■ Coordination of on-campus interviewing visits.

■ Promotion of job/internship announcements to targeted groups of students and academic departments.

■ FREE, user-friendly on-line job posting database with the option of advertising jobs/internships on a nation-wide level.

■ Assistance connecting with student groups and classes for presentation opportunities.

■ Opportunities to meet with students through networking events (workshops, employer panel presentations, etiquette dinners, etc.).

Whether you are a student or employer, the staff at the CAPP office is eager to help you. Please contact us at (208) 885-6121, capp@uidaho.edu, or visit us in the Idaho Commons, room 334. Enjoy the Career Expo!

Vandals: free rides to and from the Expo!

UI students who wish to attend the Fall Career Expo on the Washington State University campus can ride to and from the event for free and avoid parking hassles. A free shuttle service will run from the front of the SUB to the WSU Beasley Coliseum in Pullman. The shuttle will leave the UI campus every half hour beginning at 8:30 a.m. until 2:30 p.m. and will leave the WSU campus at every half hour beginning at 9:00 a.m. until 3:30 p.m.

Wheatland Express also offers free rides to and from the Moscow and Pullman campuses. "Show your Vandal ID card and ride for free!"

Avoid parking hassles, conserve energy and concentrate on making a good impression on employers. Leave your car at home!

UI CAREER AND PROFESSIONAL PLANNING

Presidents welcome students to the Career Expo

"It is never too early to begin networking and preparing for your future after graduation."

Dear Students:

Washington State University is delighted to join the University of Idaho in sponsoring the 2007 Fall Career Expo of the Palouse. This event allows our two institutions to showcase our excellent students to industry leaders from across the nation.

Floyd

Our role as a higher education institution is to enhance the intellectual, creative, and practical abilities of our students and to provide industries with graduates who can make a smooth transition into the workplace.

The 2007 Fall Career Expo of the Palouse is a recruitment marketplace for employers and job seekers. However, you will find not only varied career opportunities, but also internships and graduate programs at the Expo.

It is never too early to begin networking and preparing for your future after graduation. I encourage you to take time to participate.

Sincerely,

Elson S. Floyd, Ph.D.
WSU President

"This event has proven to be a positive and productive experience for students and industry representatives alike."

Welcome Career Expo Participant!

Once again, in conjunction with Washington State University, our neighbor institution of higher education, we are extremely pleased to co-sponsor the Fall Career Expo of the Palouse. This event has proven to be a positive and productive experience for students and industry representatives alike. We are honored to be here and thank you very much for your participation.

White

For students, this is an exceptional opportunity to talk with employers and to explore the myriad options for internships, summer and seasonal jobs and entry-level positions. Employers learn about the quality of education and preparation students from both the UI and WSU campuses have received.

On behalf of the University of Idaho community, we are genuinely proud of our students and are confident representatives will be impressed with their demonstrated academic achievements and subsequent preparedness as they enter the workforce. Our interest in students does not end in the classroom. We take an active role in assisting them find relevant and meaningful work experiences while attending classes. Additionally, we provide career-related assistance prior to and upon graduation, thus enabling students to achieve their employment and career goals.

The Career Expo of the Palouse provides a magnificent opportunity for students from both the UI and WSU campuses to meet with local, regional and national industry leaders. It represents an essential step in the lives of students who are well prepared to enter the workforce and become contributing members of society.

Best wishes to each of you!

Timothy P. White
President

Willamette University College of Law

Booth #198

www.willamette.edu/wucl

Nestled in the heart of the beautiful Willamette Valley in the Pacific Northwest, Willamette University College of Law has trained talented, skilled lawyers for the past 122 years. The nationally recognized certificate programs in law and government, law and business, international and comparative law, sustainability and dispute resolution, further solidify the strong foundation provided at the College of Law. Willamette's JD program is full time for 3 years. LLM in Transnational Law is 1 year full time and the joint degree program JD/MBA is 4 years full time.

Willamette University MBA

Booth #149

www.willamette.edu/mba

As a national leader in early career MBA education, Willamette's Full-time MBA is specifically designed to prepare students for their first professional career position with the distinctive "hands-on" learning experience. No work experience required to apply!

internships, consulting projects, case studies, simulations, student investment fund, ethics in business awards, and the PACE Projects (where teams of students create and operate real organizations) build the knowledge and experience employers value.

Start your professional career with the Willamette MBA!

Moscow School of Massage

Will your degree earn you \$30-50/hour?

As a national average, Massage Therapists earn \$58 per hour for hands-on work. While we do not require a college degree, we do look for students who have the background, maturity and academic experience that will ensure their success in the wonderful field of Massage Therapy. After our rigorous 9-month program, our graduates enjoy intelligent work with part-time flexible schedules and the satisfaction of helping people every day. Consider also that Massage Therapy training could help you pay your way through college. Sound interesting? Call today to visit with our admissions representative, schedule a tour, and learn more about how this career might be right for you!
