

1 June 1977

Dr. A. Jean Hill
Dean of Students
Student Advisory Services
Campus

Dear Jean:

Carmen Loera stopped by the office yesterday afternoon expressing interest in the educational specialist position you are currently seeking to fill. She asked if I would respond to you on her behalf.

I met Carmen when she was president of MECHA two or three years ago and had one occasion to work with her when MECHA was seeking meeting space. I was very impressed with her maturity and leadership in that instance. I would think that she would compete quite well for the position in question. If I can provide any other information, don't hesitate to give me a call.

Sincerely,

THOMAS E. RICHARDSON
Vice President for Student
and Administrative Services
