Inter-Office Memorandum

To Charles Ramsey

From Santiago Estrada

Subject: Minority Student Programs

Date September 13, 1974

The objective of this memo is to reaffirm my understanding of our meeting of September 13, 1974. The following is my understanding:

1. Your office will put its emphasis on "in state recruitment" of ethnic students.
2. It is essential to programming that you have an adequate office space for yourself and your staff.
3. Consultant services, from my office, are available to you in any programming you intend to do with students.
4. I will be available in the Counseling Center for personal, vocational or group counseling on Monday and Wednesday from 9:00 - 11:00 a.m.

In summary, I appreciate your visit and your attitude of respecting the different needs of each ethnic group. I wholeheartedly support you in your endeavors here at the University of Idaho.
