MEMORANDUM

TO: Corky Bush and Bernard Hamilton

Perhaps you have already seen the attached Offense Report regarding property found in the BSU house as the house was being cleaned out.

Can you offer me any counsel as to how the responsibility for this amount of "misappropriated" goods should be handled? Granted, the University departments that lost this property have recovered it, however, the finding of this amount of property in a building under the aegis of BSU certainly reflects poorly on the organization. It makes it even more difficult to argue the special effort and attention required to support minority groups on our campus when the University gets ripped off in the process.
