Date

- 1- What principles would you orient the minority programs around?
- 2- What goals should be accomplished by students at the end of this freshman year?
3. What are your responsibilities in the above and in helping the student relate to the system?
4. What kind of students would you be interested in recruiting?

(over)

5. What expectations would you have for the students? Are students wrong? How do you tell them?
6. What is more important - rigorous academics or "ethnic minority" programs? Why?
7. How do you change the system? (you don't) What are you changing the students for?
