BLACK STUDIES PROGRAM

RIVERSIDE, CALIFORNIA 92502

February 5, 1974

Dear Chairperson:

The University of California at Riverside is presently conducting a national search for a chairman of our Black Studies Program. We are particularly interested in someone in the disciplines of history, sociology, economics, political science, or literature. But persons with skills in other areas will be considered.

We would like very much to make a tenure appointment, given our feeling that an effective chairman will need security and the freedom to assume an advocacy posture in behalf of the program. Therefore, we are particularly interested in persons who already have administrative experience and who are established in their fields.

Would you please forward to us the names of persons who might be both interested and qualified to assume the position of Chairman of Black Studies. In the event you are in contact with such people, could you encourage them to apply directly to our office. The appointment is to be effective July 1, 1974.

Information concerning the details of our program, the University of California, and the tremendous winter weather we have will be provided at a later date. Your cooperation in this matter would greatly be appreciated.

Yours in the struggle,

R. William Holland

R. William Holland, Ph.D.
Acting Chairman - Black Studies
