

Bunker Hill & Sullivan Mining & Concentrating Company.

MINES AND WORKS AT WARDNER, IDAHO.

ANNUAL REPORT.

POSTOFFICE ADDRESS, KELLOGG, IDAHO, September 28th, 1899.

F. W. Bradley, Esq., President,
Bunker Hill & Sullivan Mining & Concentrating Co.
Crocker Building, San Francisco, California.

Dear Sir,-

I have your letter of 21st inst. and the copies of the annual reports have also been received, and the map of the Wardner group of mines, page #41, has been completed. You say that something has been omitted from the first line at the top of page #3. I fail to see that anything has been omitted, and the copy, which was strictly followed, was furnished by you. The wording, taken with the context, seems to be plain enough. I have read the report through, and am unable to find any other changes or corrections necessary, and the report is now being returned to you as complete and correct.

Yours truly,

Fredk. Burbidge
