Dear Sir:

I sent you the blue prints of statistics yesterday, I omitted to call attention to the incompleteness of one of them - for the periods 95/96 96/97 I had no data at hand for these periods; but you can easily fill it in yourself from the annual reports. If after doing so, you will send the data to me, I will add it to the tracing and make the record complete.

Yours truly,
Fred. Burbidge
