F. W. BRADLEY, MANAGER.

POSTOFFICE ADDRESS

Kellooó, Idaho, Apr. 18 1899

F. W. Bradley Esq

Dear Sir,

Pefamar, Ida.

David Rees has located two mill sites called the Wisconsin & Michigan mill sites, each 220 ft. by 1000 ft., and side by side making a total area 440' x 1000'. As near as I can tell from the description they are located south of and adjoining the center line of Sec. 1 T48 NR 2 E., on Deadwood Gulch, about 1/2 mile south of the river and 1/4 mile west from our mill. They are located in connection with and near two lode claims of the same names.

Have heard nothing further from Cooper yet, although it is 2 or 3 weeks since the land inspector was here.

Yours truly,
Fred. Purbridge

Perhaps laying out a new tunnel line + mill site
Have above claims ^{and mill sites} put on our map.
make locations across or buy B. Pressley's -
