

Bunker Hill & Sullivan Mining & Concentrating Company.

MINES AND WORKS AT WARDNER, IDAHO.

POSTOFFICE ADDRESS,

KELLOGG, IDAHO, Dec. 28/99

Alex. Grainger Esq.

Dear Sir,

San Francisco, Calif.

The East Helena smelter would rather send us checks for our ore shipped to them, instead of having us draw on them. I presume that ordinarily it would be ten days after a lot left here before you would get a check to pay for it. which is a little longer than if you draw. If this makes any particular difference to us, let me know, and I will tell the Smelter people that we prefer to draw as at present.

yours truly
Fredn. Burbidge
