Dear Sir:-

Referring again to the matter of exchange on our drafts on Tacoma, I wrote to Mr. Rust on 29th. ult. suggesting that he make an arrangement under which our drafts could be paid on presentation at the Bank of California, and I herewith enclose copy of his reply. As you will see, he thinks he will be able to act on our suggestion later on, but at present he appears to be sailing close to the wind, and would prefer to have our drafts go through the London & San Francisco Bank in order to gain a little time. If you can accomodate Mr. Rust in this matter without loss to ourselves, please do so.

Yours very truly,

*Fred. Burbidge*
