

Bunker Hill & Sullivan Mining & Concentrating Company.

MINES AND WORKS AT WARDNER, IDAHO.

F. W. BRADLEY, MANAGER.

LABOR TROUBLES:

POSTOFFICE ADDRESS. KELLOGG, IDAHO,

June 8th , 1899.

Alex Granger, Esq.,
Crocker Bldg.,
San Francisco, Cal.

Dear Sir:-

I have your two favors of 5th. inst. The man who is looking for miners in San Francisco is not acting in our interests, but I understand that some one has been sent to California for the purpose of securing miners to go to work at the other mines in this district. If any miners or machine drill men call at the office, seeking employment, please refer them to Jos. MacDonald, at Gem, Idaho. They will have no difficulty in getting employment at one or other of the mines in the district at \$3.50 per day. It is not much use for laborers to come to this section, as there are already more laborers in the district than there is work for at present.

I will attend to the matter of payment of the operator as requested by Mr. Vannatta, and will advise you when the payment has been made.

Yours very truly,

Fred. Purbridge
