

Bunker Hill & Sullivan Mining & Concentrating Company.

MINES AND WORKS AT WARDNER, IDAHO.

POSTOFFICE ADDRESS, KELLOGG, IDAHO, June 12th., 1899.

Alex Granger, Esq.,
Crocker Bldg.,
San Francisco, Cal.

Dear Sir:-

I notice the Pinkerton Agency is sending us carbon copies of the reports from Joe McDonald's operator and from State of Idaho's operator. Now these two operations are not at our expense and are not for us, and the reports should not and must not be sent to us, because we will not assume any responsibility whatever for the payment of them.

Mr. Burbidge has already written you that we want the Agency to keep one operator here for us continuously,- that whenever the operator loses his usefulness, he is to be immediately replaced by another. I wish to add that the operator for us must be either an Irishman or an Italian, or of Irish or Italian extraction. He must also be able in either case to hold a job at underground work. In any event, his hands must show signs of hard work; an operator who comes up here with white, soft hands is immediately spotted, and is of no use.

Yours truly,

F. W. Bradley

A.K.
