

## Silver Lead Mines Ass'n.

Operative reports that three men, A.G. Daniels, W.W. Teetsell and G.W. Hatfield were initiated last night, Nov. 17th.

Operative reports letter from Russell. Donald, at Rambler Mine who wants to know if they would have to come here to vote. He said there were four votes lost for Foley there, as the men would not take the time to go to Nelson to vote. There is quite a lot of picking at the management there, but he thinks it will come out all right. The trouble is about timbering and grub.

Letter from Wilks, Pres. SF Dist. Board, who wanted the sanction of this Union to call on the W.F. of M. for funds to help carry on the campaign, as it seems impossible to raise enough here. The vote carried to ask the aid.

Letter from the Miners Magazine, which wanted us to make an effort to get every member and business man to subscribe for some. It also gave the names of subscribers, which the President had read, to show the Union the friends we have among the business men. C.J. Smith's name appears on the list along with 22 others.

There were several speeches made, all against every member being asked to subscribe, as they are too heavily taxed now, and no one liked the way the Magazine upheld the assassination of King Humbert.

Percy Johnson asked the President to adjourn, so that we could go to the political meeting. The President said we all knew how to vote without going to the political meeting, but that all who wished could leave the hall. About 27 went out.

The committee reported that the new hall would be ready to move into on the first of Dec., and that it was rented also to other orders.

Receipts of week are, Union \$109.50, Hall \$275.00, Campaign \$5.50.
