Dear Sir,-

I find that the expenditures account Reconstruction to July 1st. exceed the amount given in my statement of 15th inst. by \$6000, but of this amount \$3000 is to be deducted from the amount estimated necessary to complete the plant, one item of \$3000 having been included by Simons in the July vouchers, which I thought would be entered in the August accounts.

Yours truly,

Frederick Burbidge
