

Wardner Idaho, Jan. 18th, 1901.

Operator reports that a man by the name of Bill Williams
x x is working in the Bunker Hill & Sullivan mines . If the Supt.
of the B. H. & S. will look on the roll of names his name will be
found there. This man Williams is a dark complexioned man and a
little gray . He is a strong union man and is inclined to be a
little troublesome . He went to the funeral of Mr. Price but he would
not put on the memorial badge of the W . F . of M. for fear that
some spotter would see it on him and he would surely get let out.

Mr Burbidge -
I would suggest that if any
action is taken concerning
Williams, that it be delayed
for a few days as it
might point to ops as the
informant. Resp S
